RESOLUTION ON THE ANNUAL GENERAL ADMINISTRATION REPORT OF THE CHITTAGONG DIVISION FOR THE YEAR 1892.

GENERAL DEPARTMENT—MISCELLANEOUS.

Calcutta, the 2nd October, 1892.

RESOLUTION.

READ—

The Annual General Administration Report of the Chittagong Division for 1891-92.

Tours and Inspections.

IN spite of interruptions caused by the necessity of returning to Chittagong from time to time to arrange for transport for the Lushai Frontier, the Commissioner, Mr. Oldham, succeeded in completing the prescribed touring of four months, in the course of which he visited the Chittagong Hill Tracts twice, the South Lushai Hills once, and every district and subdivision of his jurisdiction. His visits to the Chittagong Hill Tracts were undertaken at the time when those tracts were being reduced from the status of a district to that of a subdivision directly under the charge of the Commissioner, and he found much work to be done there in connection with this important change.

The Lieutenant-Governor observes with pleasure that every District and Subdivisional Office was inspected once by the Commissioner and twice during the year by the District Officers, and that in every case, with the exception of the Cox's Bazar subdivision of the Chittagong district, the full amount

of touring was put in in accordance with intelligent programmes. In Tippera, which is classed as a small district, in which only three months' touring is actually laid down, Mr. Greer completed as many as 137 days during the year. All treasuries and sub-treasuries were fully inspected. The Chittagong Hill Tracts being now directly under the Commissioner, the Magistrate of Chittagong has been relieved from the necessity of inspecting at Rangamati. In the Cox's Bazar subdivision, as noticed above, the full amount of tour was not rendered; Mr. Manson, who held charge from the 18th May 1891 to the end of the year 1891-92, having only done 84 days. The Lieutenant-Governor agrees with the Commissioner that the explanation given, namely, the large amount of criminal and khas mahal work, is not a sufficient one. It is noticed, moreover, that in the previous year the tours of this subdivision amounted only to 45 days. His Honour trusts that a more serious effort will be made during the current year to comply with the Government orders.

Economic conditions.

2. The year was marked by deficient and unevenly distributed rainfall; the rains having begun late, fallen heavily for a period, and ceased prematurely. The result was a comparatively poor crop in both the two chief staples, rice and jute, the divisional average outturn, as given in statement II, attached to the Report, being only 11 annas and 9 annas, respectively, as against 15 and 12 annas in 1890-91, and 16 and 12 annas in 1889-90. Prices also ruled high, rice being as dear as 12 seers, against nearly 17½ seers in the previous year and 16 seers in 1889-90, and gram 10 seers against 12 seers 15 chitaks and 11 seers 9 chitaks.

The comparatively short crops and high prices do not seem to have affected the people as a whole injuriously, as the abnormally high prices of jute and rice, the latter of which, as well as the former, is a very large staple of export, more than compensated for the decreased outturn. Mr. Greer reports that the people of Tippera are as a rule averse from physical toil, and that, although the population is shown by the last census to be 802 to the square mile, a considerable portion of the agricultural work is done by labourers from Noakhali and other districts. "Educated muharrirs can be employed at a lower wage than menial servants. Field labourers can with difficulty be engaged at 5 or 6 annas a day, and may be seen at work carefully shaded by cloth umbrellas." At the close of the rainy season, numbers of labourers are said to come to Tippera from Bihár and even from Oudh as road coolies and palki-bearers.

Mortality.

3. The returns of mortality show that the public health improved in Noakhali and Tippera, but deteriorated considerably in Chittagong, where there was a large increase from cholera, small-pox, and fever over the two preceding years. The divisional death totals are as follows:—

1891-92	89,233
1890-91	91,315
1889-90	87,890

It must be remembered that the population of the districts is increasing at the rate of 14 per cent. in Chittagong, 23·03 per cent., in Noakhali, and 17·7 per cent. in Tippera in ten years, as shown by the last census figures.

Trade and Commerce.

4. The total value of the seaborne trade of Chittagong shows a decrease of Rs. 44,67,297 from the figures of the previous year. The following table shows where the falling off occurred:—

	Value of trade with—				
	Foreign ports.	British ports in other presidencies.	British ports within the presidency.	Indian ports not British.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.
1890-91	1,32,51,393	16,27,968	1,38,82,007	10,887	2,87,72,255
1891-92	94,52,654	24,54,705	1,23,97,399	200	2,43,04,958
Difference ...	—37,98,739	+8,26,737	—14,84,608	—10,687	—44,67,297

Of the total decrease, Rs. 26,44,585 was in the export trade, and was due almost entirely to the smaller quantity of jute shipped, the deficiency in this commodity being only very partially made up for by an increase in the exports of rice and paddy. Tea also showed a decreased export of 63,838lbs, valued at Rs. 50,043.

Among imports the decrease of Rs. 18,22,712 is again due to jute, the reasons assigned for the smaller dealings in which are speculation and large losses by fire in the godowns of Messrs. Ralli Brothers and Company at Narainganj. The trade of Chittagong is an index to that of the feeding districts, Tippera and Noakhali. In these also it appears from the report that the jute export during the year was slack, while there was active business in rice and paddy.

Civil Justice.

5. The following table shows the work done by the Civil Courts of each district of the Division during the year:—

District.	Sub-division, or chauki.	Description of court.	Number of officers.	Number of original cases disposed of.		Details of cases in columns 5a and 5b.			Number of witnesses attended.	Ratio of witnesses detained over two days to total number.	Ratio of cases pending at end of year to total disposed of.	Number of unit cases disposed of per munsif.
				Ordinary.	Small Cause Court.	Money.	Rent.	Title.				
1	2	3	4	5a	5b	6	7	8	9	10	11	12

	Brahmanbaria ...	Ditto	3	3,199	1,263	2,275	1,602	590	15,834	·10	·27	1,600
	Moradnagar ...	Ditto	3	3,965	831	2,501	1,624	671	19,326	·15	·18	1,861
	Chandpur	Ditto	3	3,785	1,432	2,760	2,120	337	18,251	·17	·24	1,645
	Ramroygram ..	Ditto	1	2,323	......	486	1,643	194	5,487	·08	·24	2,711
	Nabinagar ...	Ditto	1	1,232	567	1,088	498	213	5,754	·09	·26	1,847
		Total ...	45½	48,656	8,369	21,384	28,255	7,286	244,915	·11	·23	1,736

The unit of cases given in column 12 of the statement is obtained by treating each title suit as equal to three ordinary suits, and each Small Court Court suit as one-third of an ordinary suit. Calculated in this way, 38½ Munsifs disposed of 66,836 "unit" cases, or 1,736 apiece. The Munsifs of Satkania, Begamganj and Ramroygram far exceeded this number, and those at Cox's Bazar and Hattia fell as far below it; Sitakund is next lowest, and yet it was here that the greatest detention of witnesses took place, one-third of the total number being detained more than two days. North Raojan shows the next highest figure, 23 per cent. The largest number of pending cases at the close of the year was in the Munsifis of Sitakund, Sandip and Kasba, where they exceeded 40 per cent. of those disposed of during the year. These figures to some extent strengthen the Lieutenant-Governor's fears that Munsifs at outlying and solitary stations, where there is no public opinion to influence them, are apt to become slack.

The Commissioner remarks with regard to the Munsif of Cox's Bazar that he had no work to do, and that he called Mr. Manson's attention to the fact; this officer has criminal as well as civil powers, but very little criminal work was given him, and he only decided 24 cases.

Criminal Justice.

6. The statement below shows the criminal work of the Division by districts:—

District.	Sub-division.	Class of officers.	Number of officers.	Cases disposed of.	Persons disposed of.	Ratio of persons convicted to disposed of.	Number of witnesses attended.	Ratio of witnesses detained over two days to total number attended.	Ratio of cases modified or reversed in appeal to total appealed.	Number of A cases disposed of.	Number remanded six times and more.	Average number of cases. Stipendiary.	Average number of cases. Honorary.	Average number of witnesses attended per case. Stipendiary.	Average number of witnesses attended per case. Honorary.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16
Chittagong ...	Sadar	Stipendiary	7½	2,022	2,947	·49	13,335	·17	·28	550	101	269·6	......

		Honorary bench ...	1	132	148	·5	665	·09	·4	......	....	......	105·6		
	Bramanbaria ...	Stipendiary	1¾	1,119	1,558	·58	8,651	·05	·29	122	7	639·4	....		
		Honorary bench ..	2	338	421	·48	2,081	·04	·21	1	......	.....	169·0		
	Chandpur ...	Stipendiary	1	403	933	·60	1,414	·10	·28	125	10	403·0	.....		
		Honorary bench ...	1	13	19	·36	77	......	......	......	.....	......	3·2		
	Total ...	Stipendiary Magistrate	26½	7,449	10,885	·51	52,927	·10	·21	1,802	172	283·7	126·8	7·1	5
		Honorary Magistrate	8	1,015	1,272	·41	5,207	·09	·20	7	......				

12,741 persons were on trial altogether before all the Magistrates of the Division, including Benches and Honorary Magistrates: of these 6,443, or 50·56 per cent., were convicted.

Work of Stipendiary Magistrates.

7. The Stipendiary Magistrates, 26 in number, disposed of 7,449 cases or 344 apiece: the lightest work fell to those at the three Sadar stations, and the heaviest to the Deputy Magistrates of the sub-divisions, especially Brahmanberia. In each case, on an average, 7 witnesses were summoned, and more than ten per cent. of the witnesses were detained more than two days by the Magistrates at Chittagong, Cox's Bazar and Fenny. The Lieutenant-Governor trusts that such figures will not appear in another year's report. He is gratified to see the small number of remands in Police cases; only 172 cases out of 1,809, or less than 10 per cent., were remanded six times and more. Only one exception must be made to this commendation in the case of the Chittagong Magistrates, where the ratio was nearly 20 per cent. At Noakhali it was less than 2 per cent. and at Fenny nil. The results of appeals were good, the lowest degree of success having been obtained by Mr. Manson at Cox's Bazar, who had six decisions modified or reversed out of 14 appealed against.

Work of Honorary Magistrates.

8. Eight Honorary Benches or groups of Honorary Magistrates disposed of 1,015 cases, 127 cases apiece, a figure which suggests that perhaps their services were not sufficiently utilised except at Noakhali. The number of witnesses to each case averaged five, which is a large number for such petty cases as were usually tried by Magistrates of this class. The Sadar Bench at Chittagong detained 23 per cent. of the witnesses who attended that Court more than two days.

Sessions trials.

Fines.

9. The following two statements give the result of Sessions trials and of fine realizations for each district:—

Sessoins trials.	District. Chittagong.	District. Noakhali.	District. Tippera.
Number committed during the year ...	31	35	28
Do. disposed of	28	31	28
Do. in which conviction obtained ...	15	19	18
Do. of above in which sentence modified or reversed by High Court.	3	7	4
Do. of cases acquitted by Sessions Judge ..	13	12	10

These returns show that the Sessions Judges disagreed in a large number of cases with the committing Magistrates, and the Chittagong district stands worst of the three. In Tippera the Magistrate has paid great attention to giving advice and guidance to his Deputies in this matter—

"As regards sessions trials, the Magistrate of Tippera has adopted the practice, not unknown to me, of allowing no commitment till he is consulted and till the record is inspected by him. Mr. Macpherson practically followed this course."

Fines.	District.		
	Chittagong.	Noakhali.	Tippera
	Rs.	Rs.	Rs.
Amount due at commencement of the year.	8,818	2,250	3,096
Do. imposed during the year ...	20,730	10,299	32,776
Do. collected during the year ...	18,461	9,709	29,593
Do. remitted	7,081	699	1,182
Do. pending at end of year ...	4,005	2,141	5,097

In Tippera the amount pending at the end was greater than at the beginning of the year; but the amount collected was exceptionally large.

Attendance of Honorary Magistrates.

10. The attendance of Honorary Magistrates is shown below. The attendance in Chittagong is very fair, but bad in Tippera :—

	Number of times asked to attend.	Number of times actually attended.	Absent with leave or notice.	Absent without leave or notice.	Total absences.
Chittagong	498	365	89	98	187
Noakhali	322	200	66	56	122
Tipperah	702	289	43	377	420

Crime.

11. Cognizable and non-cognizable crime together show an increase of from 16,661 to 19,970, or of 3,309 cases, the greater part of which is in cognizable crime, due to greater activity in both Noakhali and Tippera in prosecutions for bad livelihood, and in Noakhali in petty nuisance and obstruction cases under the Police Act of 1861. Full use was also made in the above two districts of the provisions of the Code of Criminal Procedure for preventing possible breaches of the public peace.

The report contains a very interesting description of the bearing on crime of the racial and religious condition of the people. The Commissioner writes as follows:—

"The general state of crime in this Division is explained by the religious and economic conditions prevalent. The whole area contains but five towns, and of these only one has a population of over 15,000. The rural population is generally Muhammadan, and by far the majority of these Muhammadans are Ferazi. These stern and seemingly morose puritans will tolerate no open scandal in their communities, nor the existence of any one among them who preys upon his fellowmen. They resort to Lynch-law with as much promptness as impunity, and in doing so set an example to others of the population who are not actuated by quite the same motives or protected from the results by the same power of combination. In this state of things a petty house-breaker caught in the act has as little chance of escaping with his life as the social criminal on whose death the heads of the community have resolved. The Tippera district affords the most prominent example of what is referred to. In one case there last year, in which a notorious bully had, by the efforts of those who suffered from him, been sentenced for his part in a fatal riot to five years' imprisonment by the Judge, and then been released by the High Court, he was at once on his return murdered, and the perpetrators had prepared an *alibi* with so much skill and care, and laid the scene of it in the town of Dacca with so much completeness, that they escaped conviction. I have another case before me now, a common specimen of its kind, in which a villager, long suspected of pilfering, was caught in the act of burglary and tied to a post and slowly beaten to death by his fellow-

villagers. The most prominent concomitant of this system of lawless justice and repression is the existence of blackmailers and extortioners, who practise their terrorism either by threast of arson or of cattle-poisoning, or of exposure on true or false charges to the vengeance of the village community. It was against this class that the efforts of Mr. Macpherson, the Magistrate of Noakhali, were particularly directed in the proceedings in bad livelihood cases taken by him, and also of Mr. Greer in Tippera."

While on the same subject of bad livelihood cases, Mr. Greer writes:—

"My experience leads me to the conclusion that, in this district, all trials under sections 109 and 110, Criminal Procedure Code, should be held locally. The astonishing apathy of the people, and their cowardice in fearing to give evidence against bad characters in their neighbourhood came prominently to my notice while holding certain local trials during the year."

Police.

12. The Commissioner reports that in Noakhali the police work was good, and the cause of its improvement was the activity, interest and intelligence shown by the police officer under the guidance, and with the co-operation and support, of a strong Magistrate. In Chittagong the police officer was careful and active, but he seemed to work entirely by himself. In Tippera the work is described as of a most routine and laboured kind, and the Magistrate's activity was altogether apart from it. These remarks will be communicated to the Inspector-General of Police for information. Three thousand nine hundred and six cases were enquired into by the police during the year in the whole Division, of which 1,211 were found to be false and 2,807 true; 3,408 persons were brought to trial, and of those 2,087, or 61·24 per cent., were convicted.

Chaukidars.

13. In discussing the chaukidars of the Division, Mr. Oldham writes as follows:—

"Nevertheless, the average pay of the Noakhali chaukidars was about Rs. 3-4 a month—a far lower rate than that enjoyed by the village police of Chittagong and Tippera. The Magistrates of these districts had wished to raise the pay of their chaukidars to Rs. 5 and Rs. 6 respectively, but as it appeared that at neither rate could whole-time men be obtained, and it was intended to dismiss the existing chaukidars and to appoint a new set of men on the higher pay in their places, I invited both Magistrates to reconsider their proposals by the light of the Noakhali example. Mr. Manisty at Chittagong had been Magistrate of Noakhali, and Mr. Greer came down with me from Comilla to enquire into the difference. The result was that the rate of payment for Chittagong has been fixed at Rs. 4, and in Tippera at Rs. 5 throughout the district. It is in Tippera that the village watch are in the least satisfactory state, are most impervious to impression, and least value their appointments. I am not sure that Mr. Greer, who takes the greatest interest in the subject, does not expect too much from them."

The passage illustrates the difficulty which is frequently experienced in coming to a satisfactory conclusion as to the proper pay of the chaukidar; and the Lieutenant-Governor agrees with the Commissioner that he should not ordinarily be expected to give his whole service, or receive the pay of a whole-time man.

14. The registration work of the Division is given in the following statement.—

District.	Class of Registration Office.	Number of offices.	Number of documents registered.	Average per office.
Chittagong	Special Sub-Registrar ...	1	5,323	5,323
	Rural ditto ...	16	65,929	4,120·5
Noakhali	Special ditto ...	1	8,317	8,317
	Rural ditto ...	11	45,808	4,164·3
Tippera	Special ditto ...	1	3,830	3,830
	Rural ditto ...	12	35,220	2,935

Registration seems to be about equally popular in Chittagong and Noakhali, and less so in Tippera.

Land Revenue.

15. Notwithstanding the poor harvests, all the districts of Chittagong, Noakhali and Tippera attained the required standard of land revenue collections, and the Commissioner repeats the opinion expressed in his last year's report that the three officers mainly concerned are admirable Collectors. Out of a total

demand, arrear and current, of Rs. 33,13,578, Rs. 31,62,848 were collected, leaving a balance, after deduction of remissions, of Rs. 1,45,454 outstanding at the close of the year 1891-92. Of this balance Rs. 84,855 referred to Land Revenue proper, as against a balance of Rs. 1,49,910 in the previous year. The remaining balance of Rs. 60,599 was on account of Road and Public Works cesses and Zamindari Dak cess. The following figures show the percentage of gross collections on the gross demand for the three districts during 1890-91 and 1891-92:—

	Chittagong.	Noakhali.	Tippera.
1890-91	89·1	97·37	98 09
1891-92	94·2	97·21	98·62

The actual demands, collections, and balances in each district were as follows:—

District.	Class of demand.	Class of estates.	Number of estates.	Demand.		Collections of 1891-92.		Balance on 1st April 1892.	
				Current.	Arrear.	Current.	Arrear.	Current.	Arrear.
				Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Chittagong ...	Land Revenue ..	I	28,712	5,31 867	18,453	5,28,334	18,452	3,533	1

* Includes fines imposed in default.
† Rupees 276 remitted as a matter of grace.
‡ ,, 1,225 remitted.

The good collections must be partly attributed to an increased severity in the application of the sale laws, especially in Chittagong, where the necessity for it was felt. In this district, 359 estates and 689 tenures were put up to sale,—a large increase on former years. In Tippera, where defaults are rare, it is reported that Mr. Greer is able to take an amount of trouble to avoid proceeding to extremities which would be impossible in most districts.

Certificates.

16. The following statement shows the working of the Certificate Department during the year:—

District.	Department.	Number filed during year.	Number pending at beginning of year.	Total for disposal.	Amount of certificates.	Number disposed of during year.	Amount realized.	Number pending at close of year.

	Total ...	3,614	1,758	5,372	75,718	3,775	49,[illegible]91	1,597

The Lieutenant-Governor is glad to see that the number of cases pending at the end of the year has decreased in two of the districts and only slightly increased in Noakhali in spite of a large number of institutions.

Survey and Settlement.

17. The following table shows the progress made with the survey of the Chittagong district up to the close of the year under report:—

Old thána Ramu.	Head-quarters sub-division.				Cox's Bazar sub-division.			
	Completed up to 31st March 1892.		Remaining to be done.		Completed up to 31st March 1892.		Remaining to be done.	
Finished before the year began	Cadastral.	Topographical.	Cadastral.	Topographical.	Cadastral.	Topographical.	Cadastral.	Topographical.
Sq. miles. 1,059	Sq. miles. 202	Sq. miles. 78	Sq. miles. 866	Sq. miles. 6	Sq. miles.	Sq. miles. 99	Sq. miles. 645	

The total expenditure on survey up to the end of March 1892 amounted to Rs. 3,81,897, giving a rate of 6 annas and 2 pies per acre in the head-quarters sub-division, and of 6 annas 11 pies per acre in old thána Ramu.

In settlement work, the attestation of old thána Ramu had been completed in May 1891. In the head-quarters sub-division the records of 451 villages, covering 470 square miles, were prepared, but fair rents were only fixed for 12 villages. The fair rents fixed in old thána Ramu showed an increase in rental from Rs. 63,701 to Rs. 85,456. The total expenditure on settlement up to the end of the year was Rs. 1,57,758. It has been calculated that the increase in revenue will probably amount to about Rs. 1,70,000 throughout the district, but the settlement will take at least two more years to complete.

In Noakhali there were a large number of very petty settlements, which resulted in an increase of Rs. 2,042 to the revenue.

In Tippera the survey of the estates of the Maharaja of Hill Tippera, which lie in the Tippera district, was started under the supervision of Colonel Sandeman, Director of Bengal Surveys, towards the close of the year.

Wards' estates.

18. Of the Court of Wards, the Commissioner writes:—"There is perhaps no public department in Chittagong, except the Post Office, which is so popular and so much trusted." This speaks very well for the efficiency of the administration of this branch of the Collectorate, especially as the work has been carried on without its having been found necessary to undertake a survey and settlement of any ward's estate. Further on in the report Mr. Oldham again writes:—

"The relations between the tenants and the management continue satisfactory. The General Manager, Babu Kailas Chandra Das, is the most efficient and successful officer of his class whom I have seen anywhere. Every year petitions are received from zamindars or their friends asking for the intervention of the Court."

Excise.

19. The consumption of and income from country spirits, ganja and opium was as follows:—

District.	Country spirits.				Ganja.				Opium.			
	Number of shops.	License fees.	Gross gallons.	Total receipts.	Number of shops.	License fees.	Gross quantity.	Total receipts.	Number of shops.	License fees.	Gross quantity.	Total receipts.
		Rs.		Rs.		Rs.	Mds. sr. ch.	Rs.		Rs.	Mds. sr. ch.	Rs.
Chittagong	21	10,544	5,990	10,544	34	12,191	59 2 4	24,562	32	64,547	62 35 6	1,16,806
Noakhali	11	5,574	1,676	5,574	18	4,960	16 36 5	8,375	6	1,360	1 18 0	2,563
Tippera	30	17,966	*	17,966	56	25,398	101 32 6	40,652	7	2,412	2 17 0	4,616

* Not reported.

	Revenue from all sources.	Rate per head of population.
	Rs.	Rs. A. P.
Chittagong	1,63,530	0 1 10
Noakhali	17,399	0 0 3
Tippera	74,546	0 0 8
Total ...	2,55,475	0 0 11

The divisional figures show an increase in revenue from all sources from Rs. 2,20,044 to Rs. 2,55,475. The increase occurs in all districts, but is most apparent in the income from opium in Chittagong.

Speaking of excise generally in the division, the Commissioner makes the following interesting remarks :—

The state of the excise in this division is very various, exhibiting the differences in the races that inhabit its several districts and their different characteristics. In Chittagong, where the main population is descended from immigrant Aryans, who have settled in a portion of the Arakan kingdom and adopted many of its ways, opium is by far the most prominent exciseable product consumed, followed by ganja at a long interval, and then by country spirits Among the Ferazi Muhammadans of Tippera, also largely immigrant, opium is in disrepute, and ganja holds the first, though not a large, place, while the indigenous element is represented in the consumption of country spirits which comes next. Noakhali, as was well known, has the largest indigenous population, and its consumption of country spirits is treble that of Tippera and over twentyfold that of Chittagong ; and, notwithstanding its maritime situation, opium is little used by its inhabitants.

The Commissioner seems to have fallen into some mistake about Noakhali, as its revenue from country spirit is only half that of Chittagong and a third of that of Tippera. In other respects too, the excise revenue is lower than the geographical position of the district seems to justify, and the Collector is requested to take note of these figures.

Communications.

20. The Lieutenant-Governor agrees with the Commissioner in regarding the waterways as a more important means of communication in this Division than the high narrow embankments, with occasional bridges much raised to admit of boats passing underneath them, which form the roads of the locality. He is glad to find that the Boards have maintained the inner line of navigation formed by the canals which the Commissioner rightly regards as more important than any roads. While on the subject of these waterways, Mr. Oldham reports that :—

"There is a great project still pending in Noakhali for opening the long cut, called the Nâdona, which intersects the main land of the district from north to south. It will probably cost Rs. 50,000, and the Board have already saved Rs. 30,000 for it. If the scheme is sound from an engineering point of view, there is no doubt about its desirability."

He also writes:—

"All these districts, as also the two political charges directly administered by us, are very—I should say exceptionally—fortunate in their District Engineers. Having discharged this function myself for the Midnapore district for over a year long ago, it is one in which I am hard to please, and my experiences in this Division are a pleasant contrast to others elsewhere."

The Lieutenant-Governor is glad to see that, acting on the advice of the Commissioner, the Chittagong District Board have taken steps to repair the breach on the Chittagong-Rangamatti road in their jurisdiction.

Education.

21. Mr. Oldham writes :—"The general feature of the year is the increase in separate schools for girls, as well as a continued increase in the number of primary schools of different kinds and the pupils attending them.

The advance in female education is gratifying. From Chittagong it is reported that the number of girl pupils advanced from 240 to 323, and one girl passed the Upper Primary and four the Lower Primary examinations. In Tippera, again, the number of girls' schools increased from 276 to 499, and eight girls passed the Lower Primary examination. Mr. Greer says: "The rapid progress in female education is one of the marked features of the year's work. My experience on tour satisfies me that the opposition of the public to the attendance of young girls at schools is disappearing, and that in many cases there is a keen desire to assist in the spread of female education." In Noakhali there were 86 girls' schools with 6,685 girls reading in them, of whom 10 passed the Lower Primary examination out of 15 sent up. The following statement shows the number of schools and pupils in the several Districts, their funds from different sources, and the cost rate per head of the pupils :—

District.	Class of schools.	Number of schools.	Number of pupils on rolls.	Cost.						Cost per head of pupils.	Ratio between total in column 4 to total boys of school-going age.
				Provincial.	District Board.	Municipality.	Fees.	Other.	Total.

	Total ...	19	356	5,598	.	......	269	86	5,953	16 10 0	·03

The figures in column 7 show that the Municipalities have not yet realised their responsibility for supplying primary teaching to all boys within their area, and to girls if they desire it before they assist secondary education. The Comilla grant of Rs. 6 was particularly meagre, but the Lieutenant-Governor learnt when there that it has been already much increased, and he trusts that all municipalities are beginning to follow in this direction.

The cost of education of all kinds in the Chittagong Hill Tracts is, as might be expected, much above what it is in the more advanced districts, while the proportion of boys of school-going age in the schools is very much less.

The attention of the Education Department will be called to the statement that at Bandarban a so-called Middle English School was receiving from Government Rs. 1,600 a year, which for many years past must have been completely thrown away.

Dispensaries.

22. Good progress was made in the Tippera District. Mr. Oldham writes:—

"The District Board of Tippera, under its Chairman, Mr. Greer, has set an admirable example in the establishment of ten rural dispensaries, which the other two districts are gradually imitating. The Tippera scheme was to have a well-found dispensary at each police-station, provided a certain amount of the cost, fixed by the Board on consideration of the circumstances of the locality, was prepaid by the inhabitants It has been rigidly adhered to and successfully carried out, and the financial position of all these institutions is most satisfactory."

And again:—

"The Nawab Ashanulla Bahadur of Dacca contributed Rs. 3,000 during the year for the addition of a ward to the Comilla dispensary, to be named after his grandfather. The building is under construction. The Faizzannessa Zenana Hospital is being erected at Comilla, the Nawab Saheba having paid the Rs. 10,000 promised by her for this purpose. This lady and her co-sharers have also granted a suitable site for the building. Steps have been taken to secure the services of a qualified female hospital assistant to begin work in the town, pending the completion of the building. The work in connection with the lady doctor and this hospital is being carried on under the auspices of the Lady Dufferin Fund, and Rs. 9,515 have been already promised for this object."

In the other districts dispensaries are not so numerous as in Tippera, as is shewn by the following table, which gives the working of the dispensaries in the Division during the year:—

District.	Number of dispensaries.	Income from—					Daily average patients—		Ratio of out-door patients to total population.
		Government.	District Board.	Municipality.	Subscriptions.	Total.	In patients.	Out patients.	
1	2	3	4	5	6	7	8	9	10
		Rs.	Rs.	Rs.	Rs.	Rs.			
Chittagong	2	501	...	3,753	1,353	5,607	17·24	77·79	·02
Noakhali	5	...	475	799	1,646	2,920	79·19	74·74	·02
Tippera	15	219	9,350	1,285	4,808	15,662	14·41	300·50	·06
Chittagong Hill Tracts ...	1	.	...	..	512	512	.. ...	3·2	·01

Two dispensaries only seem a very meagre number for a large district like Chittagong, and the ratio of out-door patients treated to the total population is small both in this district and in Noakhali. In Tippera, where there are so many dispensaries, the ratio is, as might be expected, three times as great. The example set by Mr. Greer is commended for imitation to other Collectors.

Local Self-Government Institutions.

23. Of the Chittagong Municipality the Commissioner reports that:—

"In February 1891 Mr. Good was elected Chairman, and a new Vice-Chairman, who is a local pleader, was elected in September last. The Magistrate and I are quite satisfied that both these gentlemen, who are otherwise busily occupied, have worked strenuously to remedy a state of things which was about as bad as it could be, the existence of which was their chief inducement in taking offices which no one envies them, and for which it would be hard to find other candidates Meanwhile, the town looks neater and cleaner than before, owing to the energy of Mr. Good, who, too, is a great economist, and deserves much credit for his out-door work."

Employment of Muhammadans.

24. Under this head the Commissioner writes as follows:—

"In 1887, writing from Burdwan, I advocated the same rule as that which regulates the appointment of Biháris in Bihár being adopted for the appointment of Muhammadans. The following year I applied in vain to the two Muhammadan societies in Calcutta for candidates with ordinary qualifications to fill some lower clerks' posts. In this Division the same attempt for the post of higher clerks would have the same result. I have frequently discussed the subject both with the leading Muhammadans here and in the interior. The last thing a really studious Muhammadan thinks of is Government service. When the ancestors of the Chittagong Muhammadans settled in Chittagong in the 17th century, they brought with them a whole colony of Hindu clerks, from whom has sprung the well-known literate community settled in the Patia thána area. The English did the same, and the similar settlement in thána Raojan owes its origin to the clerks and writers whom they brought over."

There is no doubt that anxious as Government is to give a due proportion of appointments to Muhammadans, it is difficult to realise this aim with a proper regard for the efficiency of the public service.

Social and Political Institutions.

25. The Commissioner writes:—

"The three social and political institutions in Chittagong—the Islam, the Chittagong Muhammadan and the Buddhists' Associations—have been maintained. The first two displayed no activity, but the last is trying to join the other associations of its kind, and is doing some work to raise the social status of the Barua Mughs. It has joined the Committee appointed with a view to the restoration to their co-religionists of Budha-Gaya. The people of the district do not trouble themselves much about social and political matters, and although a delegate was sent to the National Congress, he took no active part in it. The Islam Association has, however, redeemed itself in one matter from reproach. In my last report I described how, since 1866, attempts had been made in vain to get two Muhammadans of trust and position to take charge of the bequest for a local mosque, which, in their default, had to be managed by the District Judge. The tenor of these remarks was communicated to the Association, who, stung by them, have just formally taken over this trust. Both Associations nearly always make representations when a vacancy in any superior public post is filled by a Hindu or Christian, but they do not put forward candidates."

Conduct of zamindars.

26. Under this head the Lieutenant-Governor is glad to read the following tribute to the character of the zamindars in the Tippera district:—

"The great zamindars are the Maharaja of Hill Tippera, the Dacca Nawabs, the Courjon family in Tippera and Noakhali, and the Paikpara family, whose estates, locally called the Raj, lie in Noakhali. The most distinguished last year, perhaps, were the Nawab Saheba Faizanissa and her lady co-sharers, who have just received the thanks of the Bengal Government for a donation of Rs. 10,000, as well as of an appropriate site for a Lady Dufferin Hospital at Comilla in addition to large previous subscriptions to the same object, but the Maharaja's action in taking steps to get his estates cadastrally surveyed is a conspicuous and illustrious example of another kind. The Nawab Ahsanulla has continued to distinguish himself by his liberality to his tenants and by his personal benefactions to Comilla. The Courjon family as landlords are very popular, chiefly for their passiveness and objections to change.

There is nothing to note under this head in Chittagong, where there are no great zamindars. In Noakhali all the great landlords are absentees. In Tippera, too, most of them are absentees. The strained relations between the raiyats and farmers in portions of the Maharaja of Hill Tippera's estates continue, but the settlement operations which have started must remove the main cause of disturbance. The Magistrate reports unfavourably on some members of the Nag family of Dacca for their high-handed dealings with their Tippera tenants. The name of Saiyad Hossain Haidar, a resident zamindar, is, the Magistrate says, worthy of mention, as he is always ready to come forward whenever help is needed on behalf of the public."

27. Under this head the Commissioner discusses the affairs of the three territories of Hill Tippera, the Chittagong Hill Tracts, and the South Lushai Hills. In Hill Tippera the only really political subjects which the Commissioner met with during the year were the palace intrigues and the eastern boundary of the State. Mr. Oldham's report on the South Lushai District is separately treated in the Political Department.

Political.

The chief feature of the administration of the Chittagong Hill Tracts was, as has before been noticed, its transfer from the status of a district to that of a sub-division under the direct supervision of the Commissioner of Chittagong. The Mong and Chakma Chiefs are at present minors, and are being educated at the high school at Rangamati, their estates being meanwhile managed by the officers of Government. The Mong Chief, who is a Mugh, is now nearly of age, and is reported to be a strong and manly youth, fond of his country life and its sports. The Chakma Chiefs are boys of a more intelligent order, but delicate and with tendencies away from their own country, and leaning towards the higher civilization of Bengal.

28. The Commissioner speaks in high terms of the three District Officers in his Division, Messrs. Carlyle, Macpherson, and Greer, and especially of Mr. Macpherson, and the Lieutenant-Governor concurs in his commendations. The character of the subordinate officials reported on by him will be registered in the Appointment Department, and such remarks as are seriously unfavourable will be communicated to the officers concerned.

By order of the Lieutenant-Governor of Bengal,

W. MAUDE,

Offg. Secretary to the Govt. of Bengal.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing, Rainfall, Weather, and State and Prospects of the Crops in the different districts of Bengal, as reported to Government, during the week ending the 1st October, 1892.

Division	No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL.				
Burdwan Divn.	1	Burdwan Oct. 1, '92 Kalna ... Katwa ... Raniganj ...	3·80 0·92 1·68 3·56	Weather—hot and cloudy. Rain has somewhat improved prospects in thána Burdwan in Sadar subdivision. It has greatly benefited *áman* in Katwa, and will improve prospects in Kalna. Prospects good in Raniganj. Outturn of *aus* in Kalna satisfactory. Prices of common rice:— Srs. Burdwan ... ... 10 to 13 per rupee. Kalna ... ... 9 to 12 per rupee. Katwa ... ... 12½ per rupee. Raniganj ... 11 per rupee.
	2	Bankura „ 1, '92 Vishnupur ...	5·16 4·62	Weather—hot and cloudy. Recent rain has done good to standing crops both in Sadar and Vishnupur subdivisions, but more rain still wanted in places. Harvesting of *aus* paddy going on. Sugarcane doing well. Fodder and water sufficient. Common rice selling at 10½ seers per rupee at Sadar and 12½ seers at Vishnupur.
	3	Birbhum „ 1, '92	1·38	Weather—seasonable. State and prospects of crops excellent. Fodder and water plentiful. Prices of rice 12 to 14 seers per rupee.
	4	Midnapore „ 1, '92	1·48	Weather—hot with occasional showers. Not much improvement in the prospect of paddy crop. Rain still badly wanted. Prices of common rice:— Srs. Sadar ... ... 10 per rupee. Contai ... ... 10 to 12 per rupee. Tamluk ... ... 11 per rupee. Ghatál ... ... 11½ to 12 per rupee.
	5	Hooghly „ 1, '92 Serampore ... Jahánabad ...	1·09 0·48 0·31	Weather—rather close with light showers. *Aman* suffering from want of rain. If there be no heavy rain in another week the prospects, which are bad enough, will be much worse. Harvesting of *aus* nearly completed. Jute steeping going on. Want of fodder and water will be felt as the season advances. Prices of common rice:— Srs. Sadar ... ... 9½ per rupee. Serampore ... ... 10½ per rupee. Jahánabad ... ... 12½ per rupee.
	6	Howrah „ 1, '92 Ulubaria ...	0·89 3·25	Weather—sultry with occasional showers. Prospects of winter rice fair. Transplantation over. Cutting and steeping of jute continue. In Ulubaria subdivision, *aus* being harvested; average outturn estimated at about 12 annas. Sugarcane doing well. Condition of cattle good. Fodder and water-supply sufficient. Prices of rice 9 to 11 seers per rupee.
Presidency Divn.	7	24-Parganas „ 1, '92	1·61	Weather—seasonable. Rainfall general throughout the district, heavier in the south and sufficient elsewhere. It has been of great benefit to the *áman* crop which is thriving well. Harvesting of *aus* and jute almost over. Prospects have much improved. Condition of cattle good. Water and fodder adequate. Common rice 10 to 11 seers per rupee.
	8	Nadia „ 1, '92 Kushtia ... Meherpur ... Ranaghat ...	0·49 4·70 3·21 2·19	Weather—cloudy with occasional showers. Rain during the week has done good to *áman*, but more rain wanted. Lands are being cultivated for cold-weather crops. Health of cattle good, and supply of fodder ample.
	9	Khulna „ 1, '92 Satkhira ... Bágerhat ...	1·17 0·74 1·29	Weather—rainy. Except in Satkhira, a fair amount of rain has fallen during the week. Transplantation of *áman* going on. Some damage to paddy has been done in Kaliganj and Assasuni by the influx of salt water. Harvesting of *aus*, jute and sugarcane almost over. Common rice selling at from 9 to 12 seers per rupee. Fodder and water sufficient.
	10	Jessore „ 1, '92 Jhenida ... Magura ... Narail ... Bangaon ...	1·88 2·09 0·67 1·69 2·81	Weather—cloudy with occasional showers. Harvesting of *aus* paddy entirely complete. Prospect of *áman* paddy good except in Sadar and Bangaon subdivisions. Rivers going down slowly. Fodder and drinking water sufficient.
	11	Murshidabad „ 1, '92	1·95	Weather—hot and cloudy with rain at intervals. Harvesting of *aus* completed. Prospects of *áman* improved by the rain. Fodder sufficient for cattle. Common rice selling at 12 seers per rupee.
Chittagong Divn.	12	Chittagong „ 1, '92	10·24	Weather—seasonable. Transplantation of *áman* finished. Prospects of crops good, though low lying lands are flooded by recent heavy rain. Prices tend to fall. Condition of cattle good. Supply of fodder sufficient.
	13	Noakhali „ 1, '92	13·51	Weather—rainy and cloudy. The late rain has done great good to the *áman* crop. This crop in Sidhi and Lakhipur is reported as being damaged by certain insects. Fodder sufficient. Price of rice stationary.
	14	Tippera „ 1, '92	1·41	Weather—seasonable. *Aman* thriving well. Harvesting of jute nearly finished. Price of rice stationary. No cattle-disease.
	15	Chittagong Hill Tracts. Sept. 29, '92	4·10	Weather—hot with occasional showers of rain. Harvesting of *jum* paddy still continues. Cotton in flower. Late rice in low lands progressing. Common rice being sold at 8 seers 14 chitaks per rupee.

Division	No.	District and date of return.		Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL—concld.					
DACCA DIVN.	16	Dacca	Oct. 1, '92	2·28	Weather—cloudy and rainy. Prospects of *áman* paddy good. Floods subsided. Fodder available. Common rice selling at from 9 to 11½ seers per rupee. No cattle-disease.
	17	Faridpur	„ 1, '92	1·77	Weather—seasonable. Prospects of standing crops continue favourable. Rivers falling. Common rice sells at 11 seers per rupee at the Sudar and at the two subdivisions. No cattle-disease. Cattle get fodder.
	18	Backergunge	„ 1, '92	1·46	Weather—seasonable. State and prospects of crops satisfactory. Ordinary rice sells at from 8 to 14 seers per rupee. Fodder and water sufficient.
	19	Mymensingh	„ 1, '92	4·12	Weather—rainy. Sowing of *bora dhan* finished. Prices of *aus*, *bora*, and jute good. Jute and *aus* being reaped. Prices of common rice 8 to 10 seers per rupee. Fodder available. Condition of cattle good.
RAJSHAHI DIVN.	20	Dinajpur	„ 1, '92	2·19	Weather—cloudy and rainy. Much rain during the week. Prospects of winter rice now excellent. Prices of rice at Sadar: *bhadoi* 13 seers, *haimanti* 11 to 12 seers. This rise is probably owing to the demand on account of Durgá Pujá. Prices of rice at Thakurgaon stationary. Condition of cattle good. Supply of fodder and drinking water sufficient.
		Thakurgaon	...	5·92	
	21	Rajshahi	„ 1, '92	0·39	Weather—seasonable. Outturn of *aus* very satisfactory. Outturn of jute similarly good. A bumper crop of *áman* is expected. Water and fodder ample. No cattle-disease reported. Rice selling at from 10 to 14 seers per rupee.
		Naugaon	...	0·58

* Mean of 6 days. | † Mean of 5 days.

Explanation.—*Summary.*—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period
The *humidity* of the atmosphere is expressed at percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10
rainfall the normal mean are the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional station
district, *i.e.* from total rainfall at the subdivisional stations in the district sending in returns divided by the number of stations. A rainy day is one of

for the week ending Saturday, the 1st of October 1892.

					District Observations.										
					Of week.				Rainfall.						
									Since 1st of September.			Since 16th May 1892.

Explanation.—. . indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are …ating, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least …inch of rain has fallen.

CALCUTTA, *the 4th October* 1892.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 1st OF OCTOBER 1892.

In the previous week a barometric depression which had formed in the Bay had advanced towards the west coast near Coconada on the 21st to the 22nd of September and had there broken up. The monsoon current then again was able to advance up the Bay towards Bengal. On the last two days of the previous week also pressure had fallen rapidly in Bengal and had become considerably in defect of the normal, and hence on the last day of the week, or on the 24th instant, a fairly strong monsoon current was blowing over the whole province, and general rain had recommenced in all districts. On the 25th a further slight fall of pressure was recorded, and pressure became below the normal by amounts ranging up to nearly a tenth of an inch in North-East Bengal. The monsoon current therefore continued to flow rather strongly over Bengal, and light to moderate rain was falling in all districts, and in some parts of North and East Bengal the falls were heavy, for on this day Buxa reported 9·23 inches, Durgapur 4·90 inches, and Debijanj, Chittagong, Madaripur, and Brahmanbaria falls of about 3 to 4 inches. A further moderate fall of pressure of about 0·02" to 0·04" took place on the 26th instant, a steady monsoon current continued to blow over the province, and conditions therefore still remained favourable for rainfall, which was again general in almost all divisions except perhaps the south-western districts, and a good many heavy falls were reported in the north and east of the province, though the amounts were perhaps not quite so heavy as on the 25th. On the 27th the general and continued fall of pressure had ceased, and the barometric changes were small and rather variable. Conditions in Bengal were hence also to a great extent unaltered and again rain was fairly general, and though light at most stations, yet in East and North Bengal and also in Bihár and Chota Nagpur a good many rather heavy falls were reported. On the 29th pressure was rising over the major part of the province, but a fall had recommenced in South and South-East Bengal. The monsoon current on this day had decidedly fallen off in force, and winds were much more irregular than they had been; north-westerly winds were also setting in at the western stations, showing that probably the monsoon current was beginning to retreat from the province. Hence on this date rainfall became to a great extent absent in Bihár, though in other divisions it was fairly general and the falls were heavy in Orissa. On the 30th conditions changed very materially; a very rapid fall of pressure of about 0·11" to 0·15" took place over South-East Bengal, while the general fall of pressure over the province equalled about 0·08". The lowest pressures on this day were recorded from South and South-East Bengal, and a feeble low pressure area had formed. There was also a very distinct tendency for a wind circulation to set up with a centre near Barisál. Hence conditions at once became more favourable for rainfall at all except the western districts which were exposed to comparatively dry north-westerly winds. General heavy rain was on this day reported from Orissa, South-West Bengal, North Bengal, and Chota Nagpur, and moderate rain in East Bengal but Bihár was almost rainless. On the 30th falls of rain exceeding 3 inches were reported at Akhyapada, Khatra, Kuch Bihár, Diamond Harbour, Vishnupur, Lalbag, Buxa, and Cox's Bazar, and falls of from two to three inches at Burdwan, Raipur, Debiganj, Matabhanga, Noakhali, Chittagong, Purulia, Barabhum and Chas. On October 1st pressure again fell rather slowly over parts of East and South-East Bengal, and there was a moderate increase over the remainder of the province. The barometric depression over South-East Bengal therefore became more clearly marked, and pressure at Barisál was 0·177" below the normal of the day. The wind circulation with a centre in South-East Bengal continued clearly marked, and strong winds commenced to blow in the north-east of the Bay feeding into the depression. Hence again conditions were very favourable for rainfall at all except the western and north-western stations, and rather heavy general rain was reported in all districts except Bihár and parts of Chota Nagpur. On the 1st the following stations reported falls in excess of three inches :—Bangaon, Bhagálpur, Daulatkhan, and Munshiganj, and falls of more than two inches at Canning Town and Jhenidah, and about twenty-five or thirty stations reported falls of an inch and upwards. Hence it will be seen that in all districts except Bihár there has been good general rain for almost the whole of the week, while Bihár itself had good rain for the first three or four days.

Pressure.—The mean pressure for the week has hence been largely in defect of the normal. The defect has ranged from about 0·06 inch in Orissa to about a tenth of an inch in East and North Bengal and Assam, the largest defects being 0·115" at Darjeeling and 0·107" at Dhubri, and the smallest 0·052" at Gopalpur and 0·056" at Cuttack.

Temperature.—With the decidedly heavy rainfall for the week the mean temperature for the whole of Bengal has been 0·5° below the normal, the defect being largest in East Bengal, where it has equalled 1·6°. In Assam also a mean defect of 1·1° has been registered.

Rainfall.—Almost for the first week during the present monsoon season the rainfall for the whole province has been in excess of the normal amount in each division. The falls in East and North Bengal have averaged about four inches, those in South-West Bengal and Chota Nagpur about two and-a-half inches, and in Orissa nearly two inches; while the smallest falls have been in Bihar, which has received about one and-a-half inches. The excess falls in the various divisions have been as follows: between two and three inches in East and North Bengal, between one and two inches in South-West Bengal and Chota Nagpur, and

less than half an inch in Orissa and North and South Bihár. Expressing the actual falls as percentages of the normal amounts for the week the figures become—Orissa 109 per cent., South-West Bengal 245 per cent., North Bengal 228 per cent., East Bengal 269 per cent., North Bihár 125 per cent., South Bihár 131 per cent., and Chota Nagpur 248 per cent.

In the case of the smaller districts, the falls have been exceptionally heavy in Jessore, Burdwan, Bankura, Birbhum, Bogra, Malda, Jalpaiguri, Kuch Bihár, Darjeeling, Chittagong, Noakhali, Tippera, Mymensingh, and Dacca, and on the other hand they have been very decidedly light in Saran, Shahabad, Rajshahi, and Gaya.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 1st of October 1892:—

Meteorological Divisions.	Temperature.						Rainfall.									
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of Sept.		Since 16th May 1892.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers; t, thunder; <, lightning; △, dew; lr, lightning reflection.

APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, OCTOBER 5, 1892.

NOTICES TO MARINERS.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 174.

[First Publication.]

PACIFIC OCEAN—FRIENDLY ISLANDS.

Tongatabu—Alterations in buoyage of Egeria channel.

THE British Admiralty has given notice (No. 379 of 1892) that the following alterations would be made in the buoyage of Egeria channel, western approach to Nukualofa:—

1. A fairway buoy, painted red and white in vertical stripes, would be moored with south end of Atatá bearing S. E. by E. distant 9 cables, and Toke toke S. W.
   Approximate position, lat. 21° 2′ 50″ S., long. 175° 16′ 20″ W.
2. The white conical buoy, north-westward of Atatá, would be replaced by a *conical* buoy, painted red.
3. The red conical buoys, marking Friday and Johnnie shoals, would be replaced by *can* buoys, painted black.
4. The white conical buoy, marking Campbell rock, would be replaced by a *conical* buoy, painted red.

(*Variation* 10° *Easterly in* 1892.)

EATON W. PETLEY,
Port Officer of Calcutta.

Published for general information.

K. H. STEPHEN,
Under-Secretary, Marine Department.

CALCUTTA, *the* 3*rd October* 1892.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 175.

[First Publication.]

AFRICA—NORTH-EAST COAST.

Jidda approach—Beacon on Shab-el-Kebir.

THE British Admiralty has given notice (No. 385 of 1892) that a beacon has been erected on Shab el-Kebir, northern approach to Jidda, to replace the beacon washed away by the sea.

Shab-el-Kebir beacon is an iron column, 30 feet in height, surmounted by a ball, 6 feet in diameter and painted red. This beacon should be seen in clear weather from a distance of 8 miles.

Approximate position, lat. 21° 40′ 25″ N., long. 38° 50′ E.

EATON W. PETLEY,
Port Officer of Calcutta.

Published for general information.

K. H. STEPHEN,
Under-Secretary, Marine Department.

CALCUTTA, *the* 3*rd October* 1892.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 176.

[First Publication.]

JAPAN—GULF OF TOKIO.

Yokosko harbour approach. Sunken rock north-eastward of Katshi ri Ki point.

THE British Admiralty has given notice (No. 396 of 1892) of the existence of a rock of

small extent, with a depth of 1¾ fathoms on it at low water, lying with the beacon on the reef (Sakune), north-eastward of Katshi ri Ki point, bearing S. W. ¾ S. distant one cable.

Approximate position on plan No. 997, lat. 35° 18′ 5″ N., long. 139° 40′ 25″ E.

CHINA SEA.

BALABAC STRAIT.

Intended flashing light near cape Melville.

THE British Admiralty has given notice (No. 362 of 1892) that a light will be exhibited from a lighthouse recently erected north-westward of cape Melville, the southern point of Balabac island.

Cape Melville light will be a *flashing white* light every *twenty seconds*, visible through an arc of 265°, or from S. 63° W. to S. 32° E.; it will be elevated 297 feet above the sea, 90 feet above the ground, and should be seen in clear weather from a distance of 24 miles.

The illuminating apparatus is catadioptric, or by lenses and reflectors combined, of the first order.

The lighthouse, constructed of masonry, and octagonal in shape, with the keeper's dwelling near, is situated within an enclosure, at a distance of about 750 yards from the coast.

Approximate position on Admiralty Chart No. 948: lat. 7° 49′ 20″ N., long. 117° 0′ 10″ E.

SANDWICH ISLAND—OAHU.

Honolulu harbour—Dredging operations at entrance.

THE British Admiralty has given notice (No. 365 of 1892) that during the progress of the works for deepening the channel at the entrance to Honolulu harbour, which are being carried on night and day, lights will be shown by the dredger at night, and the following regulations should be observed by passing vessels:—

1. The dredger shows *three red* lights triangularly placed, about 3 feet apart, with a *white* light in the centre of the triangle, at an elevation of about 30 feet above the sea.

2. A steam-vessel approaching the harbour should stop at a safe distance from the dredger, and give one blast of the whistle, which will be answered by a single blast from the dredger, to be followed by three blasts from the dredger when the passage is clear, and the steamer may proceed.

A tug will be in attendance, when not otherwise engaged, to assist sailing vessels in passing the dredger.

AUSTRALIA—KEPPEL BAY.

Lights in Great Sandy strait, and lightships in Keppel bay and Proudfoot shoal.

THE Portmaster, Brisbane, has given notice (No. 10 of 1892) that on and after 1st October 1892 the lights in Great Sandy strait between Snout point and the Junction buoy will be discontinued. The lights at Hook point, Inskip point, and the White Cliffs will remain as heretofore.

Also that the lightship in Keppel bay will be removed, and the light discontinued, on and after 1st October 1892. The vessel being old and in need of extensive repairs will not be replaced, but to facilitate entrance by night, the following lights will be improved, viz.:—The leading light at cape Capricorn, the Balaclava island leading lights, intersecting the former lead, and the Sea Hill light. A small light will be exhibited from the Pilot station to denote when a vessel is past the Timandra Bank buoy, showing a white light between the bearings of S. E. ½ S. and E. ½ S.

Also that on and after 14th January 1893 the lightship at Proudfoot shoal will be removed and the light discontinued.

RESOLUTION ON THE ANNUAL GENERAL ADMINISTRATION REPORT OF THE CHITTAGONG DIVISION FOR THE YEAR 1892.

GENERAL DEPARTMENT—MISCELLANEOUS.

Calcutta, the 2nd October, 1892.

RESOLUTION.

READ—

The Annual General Administration Report of the Chittagong Division for 1891-92.

Tours and Inspections.

IN spite of interruptions caused by the necessity of returning to Chittagong from time to time to arrange for transport for the Lushai Frontier, the Commissioner, Mr. Oldham, succeeded in completing the prescribed touring of four months, in the course of which he visited the Chittagong Hill Tracts twice, the South Lushai Hills once, and every district and subdivision of his jurisdiction. His visits to the Chittagong Hill Tracts were undertaken at the time when those tracts were being reduced from the status of a district to that of a subdivision directly under the charge of the Commissioner, and he found much work to be done there in connection with this important change.

The Lieutenant-Governor observes with pleasure that every District and Subdivisional Office was inspected once by the Commissioner and twice during the year by the District Officers, and that in every case, with the exception of the Cox's Bazar subdivision of the Chittagong district, the full amount

of touring was put in in accordance with intelligent programmes. In Tippera, which is classed as a small district, in which only three months' touring is actually laid down, Mr. Greer completed as many as 137 days during the year. All treasuries and sub-treasuries were fully inspected. The Chittagong Hill Tracts being now directly under the Commissioner, the Magistrate of Chittagong has been relieved from the necessity of inspecting at Rangamati. In the Cox's Bazar subdivision, as noticed above, the full amount of tour was not rendered; Mr. Manson, who held charge from the 18th May 1891 to the end of the year 1891-92, having only done 84 days. The Lieutenant-Governor agrees with the Commissioner that the explanation given, namely, the large amount of criminal and khas mahal work, is not a sufficient one. It is noticed, moreover, that in the previous year the tours of this subdivision amounted only to 45 days. His Honour trusts that a more serious effort will be made during the current year to comply with the Government orders.

Economic conditions.

2. The year was marked by deficient and unevenly distributed rainfall; the rains having begun late, fallen heavily for a period, and ceased prematurely. The result was a comparatively poor crop in both the two chief staples, rice and jute, the divisional average outturn, as given in statement II, attached to the Report, being only 11 annas and 9 annas, respectively, as against 15 and 12 annas in 1890-91, and 16 and 12 annas in 1889-90. Prices also ruled high, rice being as dear as 12 seers, against nearly 17½ seers in the previous year and 16 seers in 1889-90, and gram 10 seers against 12 seers 15 chitaks and 11 seers 9 chitaks.

The comparatively short crops and high prices do not seem to have affected the people as a whole injuriously, as the abnormally high prices of jute and rice, the latter of which, as well as the former, is a very large staple of export, more than compensated for the decreased outturn. Mr. Greer reports that the people of Tippera are as a rule averse from physical toil, and that, although the population is shown by the last census to be 802 to the square mile, a considerable portion of the agricultural work is done by labourers from Noakhali and other districts. "Educated muharrirs can be employed at a lower wage than menial servants. Field labourers can with difficulty be engaged at 5 or 6 annas a day, and may be seen at work carefully shaded by cloth umbrellas." At the close of the rainy season, numbers of labourers are said to come to Tippera from Bihár and even from Oudh as road coolies and palki-bearers.

Mortality.

3. The returns of mortality show that the public health improved in Noakhali and Tippera, but deteriorated considerably in Chittagong, where there was a large increase from cholera, small-pox, and fever over the two preceding years. The divisional death totals are as follows:—

1891-92	...	...	...	89,233
1890-91	...	...	...	91,315
1889-90	...	...	...	87,890

It must be remembered that the population of the districts is increasing at the rate of 14 per cent. in Chittagong, 23·03 per cent., in Noakhali, and 17·7 per cent. in Tippera in ten years, as shown by the last census figures.

Trade and Commerce.

4. The total value of the seaborne trade of Chittagong shows a decrease of Rs. 44,67,297 from the figures of the previous year. The following table shows where the falling off occurred:—

	Value of trade with—				
	Foreign ports.	British ports in other presidencies.	British ports within the presidency.	Indian ports not British.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.
1890-91	1,32,51,393	16,27,968	1,38,82,007	10,887	2,87,72,255
1891-92	94,52,654	24,54,705	1,23,97,399	200	2,43,04,958
Difference ...	—37,98,739	+8,26,737	—14,84,608	—10,687	—44,67,297

Of the total decrease, Rs. 26,44,585 was in the export trade, and was due almost entirely to the smaller quantity of jute shipped, the deficiency in this commodity being only very partially made up for by an increase in the exports of rice and paddy. Tea also showed a decreased export of 63,838 lbs, valued at Rs. 50,048.

Among imports the decrease of Rs. 18,22,712 is again due to jute, the reasons assigned for the smaller dealings in which are speculation and large losses by fire in the godowns of Messrs. Ralli Brothers and Company at Narainganj. The trade of Chittagong is an index to that of the feeding districts, Tippera and Noakhali. In these also it appears from the report that the jute export during the year was slack, while there was active business in rice and paddy.

Civil Justice.

5. The following table shows the work done by the Civil Courts of each district of the Division during the year:—

District.	Sub-division, or chauki.	Description of court.	Number of officers.	Number of original cases disposed of.		Details of cases in columns 5a and 5b.			Number of witnesses attended.	Ratio of witnesses detained over two days to total number.	Ratio of cases pending at end of year to total disposed of.	Number of unit cases disposed of per munsif.

	Moradnagar	Ditto	3	3,965	831	2,501	1,624	671	18,926	·15	·18	1,861
	Chandpur	Ditto	3	3,785	1,432	2,700	2,120	337	18,251	·17	·24	1,645
	Ramroygram	Ditto	1	2,323	...	486	1,643	194	5,487	·08	·24	2,711
	Nabinagar	Ditto	1	1,232	567	1,088	498	213	5,754	·09	·26	1,847
		Total ...	45½	48,656	8,369	21,384	28,255	7,286	244,915	·11	·23	1,736

The unit of cases given in column 12 of the statement is obtained by treating each title suit as equal to three ordinary suits, and each Small Court Court suit as one-third of an ordinary suit. Calculated in this way, 38½ Munsifs disposed of 66,836 "unit" cases, or 1,736 apiece. The Munsifs of Satkania, Begamganj and Ramroygram far exceeded this number, and those at Cox's Bazar and Hattia fell as far below it; Sitakund is next lowest, and yet it was here that the greatest detention of witnesses took place, one-third of the total number being detained more than two days. North Raojan shows the next highest figure, 23 per cent. The largest number of pending cases at the close of the year was in the Munsifis of Sitakund, Sandip and Kasba, where they exceeded 40 per cent. of those disposed of during the year. These figures to some extent strengthen the Lieutenant-Governor's fears that Munsifs at outlying and solitary stations, where there is no public opinion to influence them, are apt to become slack.

The Commissioner remarks with regard to the Munsif of Cox's Bazar that he had no work to do, and that he called Mr. Manson's attention to the fact; this officer has criminal as well as civil powers, but very little criminal work was given him, and he only decided 24 cases.

Criminal Justice.

6. The statement below shows the criminal work of the Division by districts:—

District.	Sub-division.	Class of officers.	Number of officers.	Cases disposed of.	Persons disposed of.	Ratio of persons convicted to disposed of.	Number of witnesses attended.	Ratio of witnesses detained over two days to total number attended.	Ratio of cases modified or reversed in appeal to total appealed.	Number of A cases disposed of.	Number remanded six times and more.	Average number of cases. Stipendiary.	Average number of cases. Honorary.	Average number of witnesses attended per case. Stipendiary.	Average number of witnesses attended per case. Honorary.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16
Chittagong ...	Sadar	Stipendiary	7½	2,022	2,947	·49	13,335	·17	·28	550	101	269·6	......		
		Honorary bench ...	2	291	368	·34	1,016	·23	·4	1	......	......	145·5		
	Cox's Bazar ...	Stipendiary	1	420	641	·50	2,327	·19	·33	191	5	420·0	......		
		Honorary	1	24	48	·35	143	·10	0	5	......	......	18·0

	Fenny	Stipendiary	1	496	734	·38	2,434	·13	·13	67	......	496·0	......		
Tippera ...	Sadar	Stipendiary	6½	1,555	2,103	·57	13,580	·04	·28	487	45	243·8	......		
		Honorary bench ...	1	132	148	·5	665	·09	·4	......	......	......	105·6		
	Bramanbaria ...	Stipendiary	1¾	1,119	1,558	·58	8,651	·05	·29	122	7	639·4	......		
		Honorary bench ..	2	338	421	·48	2,081	·04	·21	1	......	......	169·0		
	Chandpur ...	Stipendiary	1	493	983	·60	1,414	·10	·28	125	10	493·0	......		
		Honorary bench ...	1	13	19	·36	77	......	......	......	... ..	......	3·2		
Total ...		Stipendiary Magistrate	26¼	7,449	10,885	·51	52,927	·10	·21	1,802	172	283·7	126·8	7·1	5·
		Honorary Magistrate	8	1,015	1,272	·41	5,207	·09	·20	7	......				

12,741 persons were on trial altogether before all the Magistrates of the Division, including Benches and Honorary Magistrates: of these 6,443, or 50·56 per cent., were convicted.

Work of Stipendiary Magistrates.

7. The Stipendiary Magistrates, 26 in number, disposed of 7,449 cases or 344 apiece: the lightest work fell to those at the three Sadar stations, and the heaviest to the Deputy Magistrates of the sub-divisions, especially Brahmanberia. In each case, on an average, 7 witnesses were summoned, and more than ten per cent. of the witnesses were detained more than two days by the Magistrates at Chittagong, Cox's Bazar and Fenny. The Lieutenant-Governor trusts that such figures will not appear in another year's report. He is gratified to see the small number of remands in Police cases; only 172 cases out of 1,809, or less than 10 per cent., were remanded six times and more. Only one exception must be made to this commendation in the case of the Chittagong Magistrates, where the ratio was nearly 20 per cent. At Noakhali it was less than 2 per cent. and at Fenny nil. The results of appeals were good, the lowest degree of success having been obtained by Mr. Manson at Cox's Bazar, who had six decisions modified or reversed out of 14 appealed against.

Work of Honorary Magistrates.

8. Eight Honorary Benches or groups of Honorary Magistrates disposed of 1,015 cases, 127 cases apiece, a figure which suggests that perhaps their services were not sufficiently utilised except at Noakhali. The number of witnesses to each case averaged five, which is a large number for such petty cases as were usually tried by Magistrates of this class. The Sadar Bench at Chittagong detained 23 per cent. of the witnesses who attended that Court more than two days.

Sessions trials.

Fines.

9. The following two statements give the result of Sessions trials and of fine realizations for each district:—

Sessoins trials.	District. Chittagong.	District. Noakhali.	District. Tippera.
Number committed during the year ...	31	35	28
Do. disposed of	28	31	28
Do. in which conviction obtained ...	15	19	18
Do. of above in which sentence modified or reversed by High Court.	3	7	4
Do. of cases acquitted by Sessions Judge ..	13	12	10

These returns show that the Sessions Judges disagreed in a large number of cases with the committing Magistrates, and the Chittagong district stands worst of the three. In Tippera the Magistrate has paid great attention to giving advice and guidance to his Deputies in this matter—

"As regards sessions trials, the Magistrate of Tippera has adopted the practice, not unknown to me, of allowing no commitment till he is consulted and till the record is inspected by him. Mr. Macpherson practically followed this course."

Fines.	District.		
	Chittagong.	Noakhali.	Tippera.
	Rs.	Rs.	Rs.
Amount due at commencement of the year.	8,818	2,250	3,096
Do. imposed during the year ...	20,730	10,299	32,776
Do. collected during the year ...	18,461	9,709	29,593
Do. remitted	7,081	699	1,182
Do. pending at end of year ...	4,005	2,141	5,097

In Tippera the amount pending at the end was greater than at the beginning of the year; but the amount collected was exceptionally large.

Attendance of Honorary Magistrates.

10. The attendance of Honorary Magistrates is shown below. The attendance in Chittagong is very fair, but bad in Tippera :—

	Number of times asked to attend.	Number of times actually attended.	Absent with leave or notice.	Absent without leave or notice.	Total absences.
Chittagong	498	365	89	98	187
Noakhali	322	200	66	56	122
Tipperah	702	289	43	377	420

Crime.

11. Cognizable and non-cognizable crime together show an increase of from 16,661 to 19,970, or of 3,309 cases, the greater part of which is in cognizable crime, due to greater activity in both Noakhali and Tippera in prosecutions for bad livelihood, and in Noakhali in petty nuisance and obstruction cases under the Police Act of 1861. Full use was also made in the above two districts of the provisions of the Code of Criminal Procedure for preventing possible breaches of the public peace.

The report contains a very interesting description of the bearing on crime of the racial and religious condition of the people. The Commissioner writes as follows:—

"The general state of crime in this Division is explained by the religious and economic conditions prevalent. The whole area contains but five towns, and of these only one has a population of over 15,000. The rural population is generally Muhammadan, and by far the majority of these Muhammadans are Ferazi. These stern and seemingly morose puritans will tolerate no open scandal in their communities, nor the existence of any one among them who preys upon his fellowmen. They resort to Lynch-law with as much promptness as impunity, and in doing so set an example to others of the population who are not actuated by quite the same motives or protected from the results by the same power of combination. In this state of things a petty house-breaker caught in the act has as little chance of escaping with his life as the social criminal on whose death the heads of the community have resolved. The Tippera district affords the most prominent example of what is referred to. In one case there last year, in which a notorious bully had, by the efforts of those who suffered from him, been sentenced for his part in a fatal riot to five years' imprisonment by the Judge, and then been released by the High Court, he was at once on his return murdered, and the perpetrators had prepared an *alibi* with so much skill and care, and laid the scene of it in the town of Dacca with so much completeness, that they escaped conviction. I have another case before me now, a common specimen of its kind, in which a villager, long suspected of pilfering, was caught in the act of burglary and tied to a post and slowly beaten to death by his fellow-

villagers. The most prominent concomitant of this system of lawless justice and repression is the existence of blackmailers and extortioners, who practise their terrorism either by threat of arson or of cattle-poisoning, or of exposure on true or false charges to the vengeance of the village community. It was against this class that the efforts of Mr. Macpherson, the Magistrate of Noakhali, were particularly directed in the proceedings in bad livelihood cases taken by him, and also of Mr. Greer in Tippera."

While on the same subject of bad livelihood cases, Mr. Greer writes:—

"My experience leads me to the conclusion that, in this district, all trials under sections 109 and 110, Criminal Procedure Code, should be held locally. The astonishing apathy of the people, and their cowardice in fearing to give evidence against bad characters in their neighbourhood came prominently to my notice while holding certain local trials during the year."

Police.

12. The Commissioner reports that in Noakhali the police work was good, and the cause of its improvement was the activity, interest and intelligence shown by the police officer under the guidance, and with the co-operation and support, of a strong Magistrate. In Chittagong the police officer was careful and active, but he seemed to work entirely by himself. In Tippera the work is described as of a most routine and laboured kind, and the Magistrate's activity was altogether apart from it. These remarks will be communicated to the Inspector-General of Police for information. Three thousand nine hundred and six cases were enquired into by the police during the year in the whole Division, of which 1,211 were found to be false and 2,807 true; 3,408 persons were brought to trial, and of those 2,087, or 61·24 per cent., were convicted.

Chaukidars.

13. In discussing the chaukidars of the Division, Mr. Oldham writes as follows:—

"Nevertheless, the average pay of the Noakhali chaukidars was about Rs. 3-4 a month—a far lower rate than that enjoyed by the village police of Chittagong and Tippera. The Magistrates of these districts had wished to raise the pay of their chaukidars to Rs. 5 and Rs. 6 respectively, but as it appeared that at neither rate could whole-time men be obtained, and it was intended to dismiss the existing chaukidars and to appoint a new set of men on the higher pay in their places, I invited both Magistrates to reconsider their proposals by the light of the Noakhali example. Mr. Manisty at Chittagong had been Magistrate of Noakhali, and Mr. Greer came down with me from Comilla to enquire into the difference. The result was that the rate of payment for Chittagong has been fixed at Rs. 4, and in Tippera at Rs. 5 throughout the district. It is in Tippera that the village watch are in the least satisfactory state, are most impervious to impression, and least value their appointments. I am not sure that Mr. Greer, who takes the greatest interest in the subject, does not expect too much from them."

The passage illustrates the difficulty which is frequently experienced in coming to a satisfactory conclusion as to the proper pay of the chaukidar; and the Lieutenant-Governor agrees with the Commissioner that he should not ordinarily be expected to give his whole service, or receive the pay of a whole-time man.

14. The registration work of the Division is given in the following statement.—

DISTRICT.	Class of Registration Office.	Number of offices.	Number of documents registered.	Average per office.
Chittagong	Special Sub-Registrar ...	1	5,323	5,323
	Rural ditto ...	16	65,929	4,120·5
Noakhali	Special ditto ...	1	8,317	8,317
	Rural ditto ...	11	45,808	4,164·3
Tippera	Special ditto ...	1	3,830	3,830
	Rural ditto ...	12	35,220	2,935

Registration seems to be about equally popular in Chittagong and Noakhali, and less so in Tippera.

Land Revenue.

15. Notwithstanding the poor harvests, all the districts of Chittagong, Noakhali and Tippera attained the required standard of land revenue collections, and the Commissioner repeats the opinion expressed in his last year's report that the three officers mainly concerned are admirable Collectors. Out of a total

demand, arrear and current, of Rs. 33,13,578, Rs. 31,62,848 were collected, leaving a balance, after deduction of remissions, of Rs. 1,45,454 outstanding at the close of the year 1891-92. Of this balance Rs. 84,855 referred to Land Revenue proper, as against a balance of Rs. 1,49,910 in the previous year. The remaining balance of Rs. 60,599 was on account of Road and Public Works cesses and Zamindari Dak cess. The following figures show the percentage of gross collections on the gross demand for the three districts during 1890-91 and 1891-92:—

	Chittagong.	Noakhali.	Tippera.
1890-91	89·1	97·37	98·09
1891-92	94·2	97·21	98·62

The actual demands, collections, and balances in each district were as follows:—

District.	Class of demand.	Class of estates.	Number of estates.	Demand.		Collections of 1891-92.		Balance on 1st April 1892.	
				Current.	Arrear.	Current.	Arrear.	Current.	Arrear.
				Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Chittagong ...	Land Revenue ..	I	28,712	5,31,867	18,453	5,28,334	18,452	3,539	1
		II	2	9,084	......	9,084	......	......	......

Tippera ...	Land Revenue ..	I	1,863	9,22,576	6,346	9,16,503	6,346	6,073	......
		II	98	38,440	5,139	33,445	5,139	3,095	......
		III	134	84,378	9,669	79,349	9,221	5,029	[illegible]
	Road Cess ...	Estates ... ... / Rent-free tenures	6,292	2,02,790	27,975	1,75,896	26,301	26,894	1,674
	Zamindari dak cess...	Estates	852	10,601	855	9,809	811	792	44
	Total of the Division		134,808	31,43,745	1,60,833	30,20,060	1,42,788	1,23,685	25,544

* Includes fines imposed in default.
† Rupees 276 remitted as a matter of grace.
‡ ,, 1,225 remitted.

The good collections must be partly attributed to an increased severity in the application of the sale laws, especially in Chittagong, where the necessity for it was felt. In this district, 359 estates and 689 tenures were put up to sale,—a large increase on former years. In Tippera, where defaults are rare, it is reported that Mr. Greer is able to take an amount of trouble to avoid proceeding to extremities which would be impossible in most districts.

Certificates.

16. The following statement shows the working of the Certificate Department during the year:—

District.	Department.	Number filed during year.	Number pending at beginning of year.	Total for disposal.	Amount of certificates.	Number disposed of during year.	Amount realized.	Number pending at close of year.
1	2	3	4	5	6	7	8	9
					Rs.		Rs.	
Chittagong ...	Government Estates ...	5,959	483	6,442	56,124	3,314	43,752	128

	General ditto ...	600	315	915	19,419	593	776	322
	Wards' ditto ...	1,062	274	1,336	35,128	994	25,518	342
	Total ...	10,687	1,711	12,398	1,39,670	10,977	92,220	1,421
Noakhali ...	Under section 5 of Act .	38	23	61	8,427	48	5,573	12
	Do. clause B, section 7	260	44	304	3,1[illegible]9	277	2,473	30
	Road Cess Department ...	555	93	648	12,[illegible]74	502	9,834	146
	Court of Wards	625	160	785	17,704	569	9,700	216
	Other certificates under section 7	54	25	79	2,751	52	1,385	27
	Total ..	1,532	345	1,877	44,[illegible]75	1,446	28,965	431
Tippera ...	Under section 5 of Act ...	21	9	30	9,760	26	9,607	4
	Do. clause B, section 7	1,019	710	1,729	12,401	1,058	7,118	671
	Road Cess Department ..	862	561	1,423	23,735	1,120	15,696	303
	Court of Wards ..	1,321	439	1,760	27,182	1,367	16,218	393
	Dak Cess and Miscellaneous	391	39	430	2,640	204	1,052	226
	Total ...	3,614	1,758	5,372	75,718	3,775	49,091	1,597

The Lieutenant-Governor is glad to see that the number of cases pending at the end of the year has decreased in two of the districts and only slightly increased in Noakhali in spite of a large number of institutions.

Survey and Settlement.

17. The following table shows the progress made with the survey of the Chittagong district up to the close of the year under report:—

Old thána Ramu.	Head-quarters sub-division.				Cox's Bazar sub-division.			
	Completed up to 31st March 1892.		Remaining to be done.		Completed up to 31st March 1892.		Remaining to be done.	
Finished before the year began	Cadastral.	Topographical.	Cadastral.	Topographical.	Cadastral.	Topographical.	Cadastral.	Topographical.
	Sq. miles. 1,059	Sq. miles. 202	Sq. miles. 78	Sq. miles. 266	Sq. miles. 6	Sq. miles.	Sq. miles. 99	Sq. miles. 545

The total expenditure on survey up to the end of March 1892 amounted to Rs. 3,81,897, giving a rate of 6 annas and 2 pies per acre in the head-quarters sub-division, and of 6 annas 11 pies per acre in old thána Ramu.

In settlement work, the attestation of old thána Ramu had been completed in May 1891. In the head-quarters sub-division the records of 451 villages, covering 470 square miles, were prepared, but fair rents were only fixed for 12 villages. The fair rents fixed in old thána Ramu showed an increase in rental from Rs. 63,701 to Rs. 85,456. The total expenditure on settlement up to the end of the year was Rs. 1,57,758. It has been calculated that the increase in revenue will probably amount to about Rs. 1,70,000 throughout the district, but the settlement will take at least two more years to complete.

In Noakhali there were a large number of very petty settlements, which resulted in an increase of Rs. 2,042 to the revenue.

In Tippera the survey of the estates of the Maharaja of Hill Tippera, which lie in the Tippera district, was started under the supervision of Colonel Sandeman, Director of Bengal Surveys, towards the close of the year.

Wards' estates.

18. Of the Court of Wards, the Commissioner writes:—"There is perhaps no public department in Chittagong, except the Post Office, which is so popular and so much trusted." This speaks very well for the efficiency of the administration of this branch of the Collectorate, especially as the work has been carried on without its having been found necessary to undertake a survey and settlement of any ward's estate. Further on in the report Mr. Oldham again writes:—

"The relations between the tenants and the management continue satisfactory. The General Manager, Babu Kailas Chandra Das, is the most efficient and successful officer of his class whom I have seen anywhere. Every year petitions are received from zamindars or their friends asking for the intervention of the Court."

Excise.

19. The consumption of and income from country spirits, ganja and opium was as follows:—

District.	Country spirits.				Ganja.				Opium.			
	Number of shops.	License fees.	Gross gallons.	Total receipts.	Number of shops.	License fees.	Gross quantity.	Total receipts.	Number of shops.	License fees.	Gross quantity.	Total receipts.
		Rs.		Rs.		Rs.	Mds. sr. ch.	Rs.		Rs.	Mds. sr. ch.	Rs.
Chittagong	21	10,544	5,996	10,544	24	12,191	50 2 4	24,562	32	64,547	62 35 6	1,16,806
Noakhali	11	5,574	1,676	5,574	18	4,960	15 36 5	8,375	6	1,300	1 18 0	2,563
Tippera	30	17,966	*	17,966	56	25,308	101 32 6	46,652	7	2,412	2 17 0	4,618

* Not reported.

	Revenue from all sources.	Rate per head of population.
	Rs.	Rs. A. P.
Chittagong	1,63,530	0 1 10
Noakhali	17,399	0 0 3
Tippera	74,546	0 0 8
Total ...	2,55,475	0 0 11

The divisional figures show an increase in revenue from all sources from Rs. 2,20,044 to Rs. 2,55,475. The increase occurs in all districts, but is most apparent in the income from opium in Chittagong.

Speaking of excise generally in the division, the Commissioner makes the following interesting remarks :—

The state of the excise in this division is very various, exhibiting the differences in the races that inhabit its several districts and their different characteristics. In Chittagong, where the main population is descended from immigrant Aryans, who have settled in a portion of the Arakan kingdom and adopted many of its ways, opium is by far the most prominent exciseable product consumed, followed by ganja at a long interval, and then by country spirits Among the Ferazi Muhammadans of Tippera, also largely immigrant, opium is in disrepute, and ganja holds the first, though not a large, place, while the indigenous element is represented in the consumption of country spirits which comes next. Noakhali, as was well known, has the largest indigenous population, and its consumption of country spirits is treble that of Tippera and over twentyfold that of Chittagong ; and, notwithstanding its maritime situation, opium is little used by its inhabitants.

The Commissioner seems to have fallen into some mistake about Noakhali, as its revenue from country spirit is only half that of Chittagong and a third of that of Tippera. In other respects too the excise revenue is lower than the geographical position of the district seems to justify, and the Collector is requested to take note of these figures.

20. The Lieutenant-Governor agrees with the Commissioner in regarding the waterways as a more important means of communication in this Division than the high narrow embankments, with occasional bridges much raised to admit of boats passing underneath them, which form the roads of the locality. He is glad to find that the Boards have maintained the inner line of navigation formed by the canals which the Commissioner rightly regards as more important than any roads. While on the subject of these waterways, Mr. Oldham reports that:—

Communications.

" There is a great project still pending in Noakhali for opening the long cut, called the Nâdona, which intersects the main land of the district from north to south. It will probably cost Rs. 50,000, and the Board have already saved Rs. 30,000 for it. If the scheme is sound from an engineering point of view, there is no doubt about its desirability."

He also writes :—

" All these districts, as also the two political charges directly administered by us, are very—I should say exceptionally—fortunate in their District Engineers. Having discharged this function myself for the Midnapore district for over a year long ago, it is one in which I am hard to please, and my experiences in this Division are a pleasant contrast to others elsewhere."

The Lieutenant-Governor is glad to see that, acting on the advice of the Commissioner, the Chittagong District Board have taken steps to repair the breach on the Chittagong-Rangamatti road in their jurisdiction.

21. Mr. Oldham writes :—" The general feature of the year is the increase in separate schools for girls, as well as a continued increase in the number of primary schools of different kinds and the pupils attending them.

Education.

The advance in female education is gratifying. From Chittagong it is reported that the number of girl pupils advanced from 240 to 323, and one girl passed the Upper Primary and four the Lower Primary examinations. In Tippera, again, the number of girls' schools increased from 276 to 499, and eight girls passed the Lower Primary examination. Mr. Greer says: " The rapid progress in female education is one of the marked features of the year's work. My experience on tour satisfies me that the opposition of the public to the attendance of young girls at schools is disappearing, and that in many cases there is a keen desire to assist in the spread of female education." In Noakhali there were 86 girls' schools with 6,685 girls reading in them, of whom 10 passed the Lower Primary examination out of 15 sent up. The following statement shows the number of schools and pupils in the several Districts, their funds from different sources, and the cost rate per head of the pupils :—

District.	Class of schools.	Number of schools.	Number of pupils on rolls.	Cost.						Cost per head of pupils.	Ratio between total in column 4 to total boys of school-going age.
				Provincial.	District Board.	Municipality.	Fees.	Other.	Total.

The figures in column 7 show that the Municipalities have not yet realised their responsibility for supplying primary teaching to all boys within their area, and to girls if they desire it before they assist secondary education. The Comilla grant of Rs. 6 was particularly meagre, but the Lieutenant-Governor learnt when there that it has been already much increased, and he trusts that all municipalities are beginning to follow in this direction.

The cost of education of all kinds in the Chittagong Hill Tracts is, as might be expected, much above what it is in the more advanced districts, while the proportion of boys of school-going age in the schools is very much less.

The attention of the Education Department will be called to the statement that at Bandarban a so-called Middle English School was receiving from Government Rs. 1,600 a year, which for many years past must have been completely thrown away.

Dispensaries.

22. Good progress was made in the Tippera District. Mr. Oldham writes:—

"The District Board of Tippera, under its Chairman, Mr. Greer, has set an admirable example in the establishment of ten rural dispensaries, which the other two districts are gradually imitating. The Tippera scheme was to have a well-found dispensary at each police-station, provided a certain amount of the cost, fixed by the Board on consideration of the circumstances of the locality, was prepaid by the inhabitants. It has been rigidly adhered to and successfully carried out, and the financial position of all these institutions is most satisfactory."

And again:—

"The Nawab Ashanulla Bahadur of Dacca contributed Rs. 3,000 during the year for the addition of a ward to the Comilla dispensary, to be named after his grandfather. The building is under construction. The Faizzannessa Zenana Hospital is being erected at Comilla, the Nawab Saheba having paid the Rs. 10,000 promised by her for this purpose. This lady and her co-sharers have also granted a suitable site for the building. Steps have been taken to secure the services of a qualified female hospital assistant to begin work in the town, pending the completion of the building. The work in connection with the lady doctor and this hospital is being carried on under the auspices of the Lady Dufferin Fund, and Rs. 9,515 have been already promised for this object."

In the other districts dispensaries are not so numerous as in Tippera, as is shewn by the following table, which gives the working of the dispensaries in the Division during the year:—

District.	Number of dispensaries.	Income from—					Daily average patients—		Ratio of out-door patients to total population.
		Government.	District Board.	Municipality.	Subscriptions.	Total.	In patients.	Out patients.	
1	2	3	4	5	6	7	8	9	10
		Rs.	Rs.	Rs.	Rs.	Rs.			
Chittagong	2	501	...	3,753	1,358	5,607	17·24	77·79	·02
Noakhali	5	..	475	799	1,046	2,920	79·19	74·74	·02
Tippera	15	219	9,350	1,285	4,808	15,662	14·41	300·50	·06
Chittagong Hill Tracts	1	..	...	......	512	512	.. ...	3·2	·01

Two dispensaries only seem a very meagre number for a large district like Chittagong, and the ratio of out-door patients treated to the total population is small both in this district and in Noakhali. In Tippera, where there are so many dispensaries, the ratio is, as might be expected, three times as great. The example set by Mr. Greer is commended for imitation to other Collectors.

Local Self-Government Institutions.

23 Of the Chittagong Municipality the Commissioner reports that:—

"In February 1891 Mr. Good was elected Chairman, and a new Vice-Chairman, who is a local pleader, was elected in September last. The Magistrate and I are quite satisfied that both these gentlemen, who are otherwise busily occupied, have worked strenuously to remedy a state of things which was about as bad as it could be, the existence of which was their chief inducement in taking offices which no one envies them, and for which it would be hard to find other candidates Meanwhile, the town looks neater and cleaner than before, owing to the energy of Mr. Good, who, too, is a great economist, and deserves much credit for his out-door work."

Employment of Muhammadans.

24. Under this head the Commissioner writes as follows:—

"In 1887, writing from Burdwan, I advocated the same rule as that which regulates the appointment of Biháris in Bihár being adopted for the appointment of Muhammadans. The following year I applied in vain to the two Muhammadan societies in Calcutta for candidates with ordinary qualifications to fill some lower clerks' posts. In this Division the same attempt for the post of higher clerks would have the same result. I have frequently discussed the subject both with the leading Muhammadans here and in the interior. The last thing a really studious Muhammadan thinks of is Government service. When the ancestors of the Chittagong Muhammadans settled in Chittagong in the 17th century, they brought with them a whole colony of Hindu clerks, from whom has sprung the well-known literate community settled in the Patia thána area. The English did the same, and the similar settlement in thána Raojan owes its origin to the clerks and writers whom they brought over."

There is no doubt that anxious as Government is to give a due proportion of appointments to Muhammadans, it is difficult to realise this aim with a proper regard for the efficiency of the public service.

Social and Political Institutions.

25. The Commissioner writes:—

"The three social and political institutions in Chittagong—the Islam, the Chittagong Muhammadan and the Buddhists' Associations—have been maintained. The first two displayed no activity, but the last is trying to join the other associations of its kind, and is doing some work to raise the social status of the Barua Mughs. It has joined the Committee appointed with a view to the restoration to their co-religionists of Budha-Gaya. The people of the district do not trouble themselves much about social and political matters, and although a delegate was sent to the National Congress, he took no active part in it. The Islam Association has, however, redeemed itself in one matter from reproach. In my last report I described how, since 1866, attempts had been made in vain to get two Muhammadans of trust and position to take charge of the bequest for a local mosque, which, in their default, had to be managed by the District Judge. The tenor of these remarks was communicated to the Association, who, stung by them, have just formally taken over this trust. Both Associations nearly always make representations when a vacancy in any superior public post is filled by a Hindu or Christian, but they do not put forward candidates."

Conduct of zamindars.

26. Under this head the Lieutenant-Governor is glad to read the following tribute to the character of the zamindars in the Tippera district:—

"The great zamindars are the Maharaja of Hill Tippera, the Dacca Nawabs, the Courjon family in Tippera and Noakhali, and the Paikpara family, whose estates, locally called the Raj, lie in Noakhali. The most distinguished last year, perhaps, were the Nawab Saheba Faizanissa and her lady co-sharers, who have just received the thanks of the Bengal Government for a donation of Rs. 10,000, as well as of an appropriate site for a Lady Dufferin Hospital at Comilla in addition to large previous subscriptions to the same object, but the Maharaja's action in taking steps to get his estates cadastrally surveyed is a conspicuous and illustrious example of another kind. The Nawab Ahsanulla has continued to distinguish himself by his liberality to his tenants and by his personal benefactions to Comilla. The Courjon family as landlords are very popular, chiefly for their passiveness and objections to change.

There is nothing to note under this head in Chittagong, where there are no great zamindars. In Noakhali all the great landlords are absentees. In Tippera, too, most of them are absentees. The strained relations between the raiyats and farmers in portions of the Maharaja of Hill Tippera's estates continue, but the settlement operations which have started must remove the main cause of disturbance. The Magistrate reports unfavourably on some members of the Nag family of Dacca for their high-handed dealings with their Tippera tenants. The name of Saiyad Hossain Haidar, a resident zamindar, is, the Magistrate says, worthy of mention, as he is always ready to come forward whenever help is needed on behalf of the public."

27. Under this head the Commissioner discusses the affairs of the three territories of Hill Tippera, the Chittagong Hill Tracts, and the South Lushai Hills. In Hill Tippera the only really political subjects which the Commissioner met with during the year were the palace intrigues and the eastern boundary of the State. Mr. Oldham's report on the South Lushai District is separately treated in the Political Department.

Political.

The chief feature of the administration of the Chittagong Hill Tracts was, as has before been noticed, its transfer from the status of a district to that of a sub-division under the direct supervision of the Commissioner of Chittagong. The Mong and Chakma Chiefs are at present minors, and are being educated at the high school at Rangamati, their estates being meanwhile managed by the officers of Government. The Mong Chief, who is a Mugh, is now nearly of age, and is reported to be a strong and manly youth, fond of his country life and its sports. The Chakma Chiefs are boys of a more intelligent order, but delicate and with tendencies away from their own country, and leaning towards the higher civilization of Bengal.

28. The Commissioner speaks in high terms of the three District Officers in his Division, Messrs. Carlyle, Macpherson, and Greer, and especially of Mr. Macpherson, and the Lieutenant-Governor concurs in his commendations. The character of the subordinate officials reported on by him will be registered in the Appointment Department, and such remarks as are seriously unfavourable will be communicated to the officers concerned.

By order of the Lieutenant-Governor of Bengal,

W. MAUDE,

Offg. Secretary to the Govt. of Bengal.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different districts of Bengal, as reported to Government, during the week ending the 1st *October*, 1892.

No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL.			
BURDWAN DIVN.			
1	Burdwan Oct. 1, '92 Kalna ... Katwa ... Raniganj ...	3·80 0·92 1·68 3·56	Weather—hot and cloudy. Rain has somewhat improved prospects in thána Burdwan in Sadar subdivision. It has greatly benefited *áman* in Katwa, and will improve prospects in Kalna. Prospects good in Raniganj. Outturn of *aus* in Kalna satisfactory. Prices of common rice:— Srs. Burdwan ... ... 10 to 13 } per rupee. Kalna ... ... 9 to 12 Katwa ... ... 12¼ Raniganj 11
2	Bankura „ 1, '92 Vishnupur ...	5·16 4·62	Weather—hot and cloudy. Recent rain has done good to standing crops both in Sadar and Vishnupur subdivisions, but more rain still wanted in places. Harvesting of *aus* paddy going on. Sugarcane doing well. Fodder and water sufficient. Common rice selling at 10½ seers per rupee at Sadar and 12½ seers at Vishnupur.
3	Birbhum „ 1, '92	1·38	Weather—seasonable. State and prospects of crops excellent. Fodder and water plentiful. Prices of rice 12 to 14 seers per rupee.
4	Midnapore „ 1, '92	1·48	Weather—hot with occasional showers. Not much improvement in the prospect of paddy crop. Rain still badly wanted. Prices of common rice:— Srs. Sadar ... ... 10 } per rupee. Contai ... ... 10 to 12 Tamluk ... ... 11 Ghatál ... ... 11½ to 12
5	Hooghly „ 1, '92 Serampore ... Jahánabad ...	1·09 0·48 0·31	Weather—rather close with light showers. *Aman* suffering from want of rain. If there be no heavy rain in another week the prospects, which are bad enough, will be much worse. Harvesting of *aus* nearly completed. Jute steeping going on. Want of fodder and water will be felt as the season advances. Prices of common rice:— Srs. Sadar ... ... 9¼ } per rupee. Serampore ... ... 10¼ Jahánabad 12½
6	Howrah „ 1, '92 Uluberia ...	0·89 3·25	Weather—sultry with occasional showers. Prospects of winter rice fair. Transplantation over. Cutting and steeping of jute continue. In Uluberia subdivision, *aus* being harvested; average outturn estimated at about 12 annas. Sugarcane doing well. Condition of cattle good. Fodder and water-supply sufficient. Prices of rice 9 to 11 seers per rupee.
PRESIDENCY DIVN.			
7	24-Parganas „ 1, '92	1·61	Weather—seasonable. Rainfall general throughout the district, heavier in the south and sufficient elsewhere. It has been of great benefit to the *áman* crop which is thriving well. Harvesting of *aus* and jute almost over. Prospects have much improved. Condition of cattle good. Water and fodder adequate Common rice 10 to 11 seers per rupee.
8	Nadia „ 1, '92 Kushtia ... Meherpur ... Ranaghat ...	0·49 4·70 3·21 2·19	Weather—cloudy with occasional showers. Rain during the week has done good to *áman*, but more rain wanted. Lands are being cultivated for cold-weather crops. Health of cattle good, and supply of fodder ample.
9	Khulna „ 1, '92 Satkhira ... Bágerhat ...	1·17 0·74 1·29	Weather—rainy. Except in Satkhira, a fair amount of rain has fallen during the week. Transplantation of *áman* going on. Some damage to paddy has been done in Kaliganj and Assasuni by the influx of salt water. Harvesting of *aus*, jute and sugarcane almost over. Common rice selling at from 9 to 12 seers per rupee. Fodder and water sufficient.
10	Jessore „ 1, '92 Jhenida ... Magura ... Narail ... Bangaon ...	1·88 2·09 0·67 1·69 2·81	Weather—cloudy with occasional showers. Harvesting of *aus* paddy entirely complete. Prospect of *áman* paddy good except in Sadar and Bangaon subdivisions. Rivers going down slowly. Fodder and drinking water sufficient.
11	Murshidabad „ 1, '92	1·95	Weather—hot and cloudy with rain at intervals. Harvesting of *aus* completed. Prospects of *áman* improved by the rain. Fodder sufficient for cattle Common rice selling at 12 seers per rupee.
CHITTAGONG DIVN.			
12	Chittagong „ 1, '92	10·24	Weather—seasonable. Transplantation of *áman* finished. Prospects of crops good, though low lying lands are flooded by recent heavy rain. Prices tend to fall. Condition of cattle good. Supply of fodder sufficient.
13	Noakhali „ 1, '92	13·51	Weather—rainy and cloudy. The late rain has done great good to the *áman* crop. This crop in Sidhi and Lakhipur is reported as being damaged by certain insects. Fodder sufficient. Price of rice stationary.
14	Tippera „ 1, '92	1·41	Weather—seasonable. *Aman* thriving well. Harvesting of jute nearly finished. Price of rice stationary. No cattle-disease.
15	Chittagong Hill Sept. 29, '92 Tracts.	4·10	Weather—hot with occasional showers of rain. Harvesting of *jum* paddy still continues. Cotton in flower. Late rice in low lands progressing. Common rice being sold at 8 seers 14 chitaks per rupee.

No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL—*concld.*			
DACCA DIVN. 16	Dacca Oct. 1, '92	2·28	Weather—cloudy and rainy. Prospects of *áman* paddy good. Floods subsided. Fodder available. Common rice selling at from 9 to 11½ seers per rupee. No cattle-disease.
17	Faridpur „ 1, '92	1·77	Weather—seasonable. Prospects of standing crops continue favourable. Rivers falling. Common rice sells at 11 seers per rupee at the Sadar and at the two subdivisions. No cattle-disease. Cattle get fodder.
18	Backergunge „ 1, '92	1·46	Weather—seasonable. State and prospects of crops satisfactory. Ordinary rice sells at from 8 to 14 seers per rupee. Fodder and water sufficient.
19	Mymensingh „ 1, '92	4·12	Weather—rainy. Sowing of *bora dhan* finished. Prices of *aus, bora,* and jute good. Jute and *aus* being reaped. Prices of common rice 8 to 10 seers per rupee. Fodder available. Condition of cattle good
RAJSHAHI DIVN. 20	Dinajpur „ 1, '92	2·19	Weather—cloudy and rainy. Much rain during the week. Prospects of winter rice now excellent. Prices of rice at Sadar: *bhadoi* 13 seers, *haimanti* 11 to 12 seers. This rise is probably owing to the demand on account of Durgá Pujá. Prices of rice at Thakurgaon stationary. Condition of cattle good. Supply of fodder and drinking water sufficient.
	Thakurgaon ...	5·92	
21	Rajshahi „ 1, '92	0·39	Weather—seasonable. Outturn of *aus* very satisfactory. Outturn of jute similarly good. A bumper crop of *áman* is expected. Water and fodder ample. No cattle-disease reported. Rice selling at from 10 to 14 seers per rupee.
	Naugaon ...	0·58	
22	Rangpur „ 1, '92	5·49	Weather—cloudy with occasional rain. Jute cutting and steeping still going on. *Aman* doing well. Price of rice unchanged.
	Gaibanda ...	4·08	
	Nilphamari ...	3·38	
	Kurigaon ...	5·56	
	Ulipur ...	4·90	
23	Bogra „ '92	5·12	Weather—rainy and sultry between showers. Transplantation of *áman* finished. *Bhadoi* has been harvested. The recent rainfall has caused the rivers to rise again. Fodder and water sufficient. Condition of cattle good. Common rice selling at 11½ seers per rupee.
	Sherpur ...	1·58	
	Naukhila ...	3·28	
24	Pabna „ 1, '92	2·05	Weather—fine and rainy alternately. Prospect of *áman* good. Jute still being reaped in many places and yielding an outturn of 12 annas. Common rice selling at 11½ seers per rupee. Fodder and water-supply sufficient. Rivers falling.
25	Darjeeling „ 1, '92	1·99	Weather—rainy and overcast, with occasional breaks. *In the hills:—Bhutta, bhadoi dhan, kangni,* and *chota marua* being harvested. *Haimanti, kalai,* and *bara marua* progressing favourably. *Phaphur* being planted. *In the Terai:*—Prospects good. Outturn of *bhadoi* rice 16 annas and of jute 12 annas. Prices of course rice:— Srs. Darjeeling ... ... 10 } per rupee. Siliguri ... ... 11 }
	Siliguri ...	7·05	
26	Jalpaiguri „ 1, '92	9·16	Weather—rainy, cloudy and cool. Rain has done immense good to *haimanti* paddy. Cutting and steeping of jute nearly finished. Common rice sells at 10 seers per rupee. No cattle-disease. Fodder and water-supply sufficient.
BIHÁR.			
27	Monghyr „ 1, '92	1·32	Weather—warm with occasional showers. Prospect of winter paddy continues good. Ploughing for *rabi* and *kurthi* going on. Second cutting of indigo nearly complete with fair outturn. Prices of coarse rice:— Srs. Sadar ... ... 10 to 12 } Begusarai ... ... 14 } per rupee. Jamui ... ... 12 }
	Begusarai ...	1·92	
	Jamui ...	0·41	
BHÁGALPUR DIVN. 28	Bhágalpur „ 1, '92	0·39	Weather—has cooled down. Condition of standing crops good. More rain wanted for *aghani* rice. *Kalai* and *kurthi* being sown. Fields being prepared for *rabi* sowings. No cattle-disease. Fodder sufficient.
	Banka ...	4·17	
	Supaul ...	1·17	
29	Purnea „ 1, '92	1·02	Weather—cloudy with occasional showers; hot in the day but cooler at night; heavy dews. *Bhadoi* harvest over. Jute being steeped. *Aghani* doing well. Recent rain has done much good to *aghani*, especially at Kishanganj. Lands being prepared for winter crops. In Araria sowing of *kurthi* has commenced. No cattle-disease. Fodder and water plentiful. Prices of rice:— Srs. Sadar ... ... 11½ to 16 } Kishanganj ... ... 11 to 12 } per rupee. Araria ... ... 16 }
	Kishanganj ...	3·23	
	Araria ...	1·98	
30	Malda „ 1, '92	5·13	Weather—hot with light showers of rain almost every day. Winter rice promising well. Sowing of *kalai* in progress. Lands are being prepared for *rabi* crops in some places. Fodder and drinking water sufficient. Prices of coarse rice 11 to 16 seers per rupee.
	Chanchal ...	0·79	
	Shibganj ...	1·83	
	Gajol ...	2·31	
31	Sonthal Parganas „ 1, '92	4·04	Rain everywhere. Heavy local showers. Indian-corn harvest completed. Rice almost secure now, will be a 16-anna crop. Sugarcane prospering. *Boro* seedlings being prepared in Rajmahal. Prices of rice from 10 to 16 seers per rupee.
	Godda ...	3·86	
	Jamtara ...	3·27	
	Pakur ...	5·3	
	Rajmahal ...	1·13	

No.	District and date of return.		Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BIHÁR—concld.				
Patna Division.				
32	Patna Bihár Barh Dinapore	Oct. 1, '92	2·38 0·73 0·74 0·86	Weather—hot and cloudy with occasional showers. Mornings getting cooler. Recent rain expected to do good to paddy crop. Fields are being ploughed for *rabi* cultivation. Common rice is being sold at from 11 to 14 seers per rupee. Fodder and water for cattle plentiful.
33	Gaya Nawáda	„ 1, 92 ...	Nil 0·39	Weather—fair, hot and dry. Harvesting of *sathi* going on; that of other *bhadoi* crops finished; outturn above average. Rain wanted for winter rice crop. Ploughing for *rabi* crops going on. Supply of water and fodder ample. Prices of food-grains stationary.
34	Shahabad Buxar Bhabhua Sasarám	„ 1, '92	0·72 Nil 0·31 0·73	Weather—seasonable. Prospects of crops excellent. Lands being prepared for *rabi* sowings. Fodder and water sufficient. Prices stationary.
35	Darbhanga Samastipur Madhubani	„ 1, '92	1·66 0·93 1·89	Weather—occasionally cloudy with warm sunshine. Prospects of winter rice continue favourable, but more rain still wanted. Lands being prepared for *rabi* sowings. Condition of cattle good. Prices almost stationary.
36	Muzaffarpur Sitamarhi Hajipur	„ 1, '92	1·01 3·03 2·22	Weather—hot and bright. Prospects of all standing crops continue satisfactory. Condition of cattle good. Fodder and drinking water plentiful. Prices almost stationary.
37	Saran Siwán Gopalganj	„ 1, '92	0·07 1·90 1·50	Weather—seasonable. *Bhadoi* harvested in most places. Fields are being prepared for *rabi*. Prospects of paddy pretty fair in the Sadar and Siwán subdivisions. In Gopalganj they are reported to be exceedingly good. Prices of coarse rice:— Srs. c. Chapra ... ... 11 13 } per rupee. Siwán ... ... 12 0 } Gopalganj ... ... 15 6 }
38	Champaran	„ 1, '92	Nil	Weather—seasonable. *Bhadoi* crops are being cut. Standing crops doing well. Estimated outturn of *bhadoi* and winter rice 16 annas. Lands are being prepared for *rabi* crops. Prices falling. Fodder and water sufficient.
ORISSA.				
Orissa Divn.				
39	Cuttack	„ 1, '92	1·73	Weather—hot with occasional light showers. Reaping of *laghu beali* is over; that of *guru beali* will soon begin. Prospects of *sarad* generally good. Common rice sells at Sadar from 9 seers 3 chitaks to 13 seers 2 chitaks per rupee.
40	Puri Khurda	Sept. 29, '92 ...	0·15 1·23	Weather - hot and cloudy. Weeding of *sarad* (late rice) still going on. Harvesting of early rice continues. Miscellaneous crops good. Price of common rice stationary.
41	Balasore	Oct. 1, '92	2·96	Weather—stormy. *Beali* (early rice) is being reaped. Winter rice on low lands doing well. Coarse rice sells at 15 seers per rupee.
CHOTA NAGPUR.				
South-West Frontier Agency.				
Chota Nagpur Divn.				
42	Hazáribágh Giridi	Oct. 1, '92 ...	1·31 Nil	Weather—seasonable: rain for three days; rest of the week bright. Harvesting of *bhadoi* crops completed with 16 annas outturn. Prospects of winter rice very good except in the south of the district. Prices of common rice 11 to 16 seers per rupee. Fodder plentiful.
43	Lohardaga	„ 1, '92	2·58	Weather—seasonable. Prospect of winter rice crop continues favourable. Rainfall during the week has done much good to this crop. Harvesting of *gora dhan* continues. Common rice selling at 14 seers per rupee. Fodder and water sufficient.
44	Palámau	..	...	Report not received.
45	Singhbhum	Oct. 1, '92	6.37	Weather—bright. Quite a cold weather feel about the weather this morning (1st). Heavy rain throughout the district during the past week. The condition of the winter rice crop is reported to be good. Prices stationary. Condition of cattle good.
46	Manbhum Gobindpur	„ 1, '92 ...	2·87 2·43	Heavy rain towards end of week. Material improvement in condition of crops. General prospects so far fair. Rice selling at from 10 to 13 seers per rupee.

Published for general information.

CALCUTTA; REVENUE DEPT.,
The 4th October, 1892.

* Mean of 6 days. † Mean of 5 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period
The *humidity* of the atmosphere is expressed as percentage, saturat[illegible] being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10
rainfall the normal mean are the numerical means or average of t[illegible] in that [illegible] determined from the returns sent in by the subdivisional station
district, *i.e.*, from total rainfall at the subdivisional stations in th[illegible] [illegible] divided by the number of stations. A rainy day is one of

for the week ending Saturday, the 1st of October 1892.

					DISTRICT OBSERVATIONS.										
					OF WEEK.				RAINFALL.						
									Since 1st of September.			Since 16th May 1892.			
Variation from normal mean.	Mean 8 A.M. temperature.	Average humidity at 8 A.M.	Average cloud amount at 8 A.M.	Rainfall of week at observing station.	Mean for district.	Normal mean.	Average number of rainy days.	Normal number of rainy days.	Mean for district.	Normal mean.	Variation.	Mean for district.	Normal mean.	Variation.	DISTRICT.

Explanation.—.. indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·1 inch of rain has fallen.

CALCUTTA, *the 4th October* 1892.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 1ST OF OCTOBER 1892.

IN the previous week a barometric depression which had formed in the Bay had advanced towards the west coast near Coconada on the 21st to the 22nd of September and had there broken up. The monsoon current then again was able to advance up the Bay towards Bengal. On the last two days of the previous week also pressure had fallen rapidly in Bengal and had become considerably in defect of the normal, and hence on the last day of the week, or on the 24th instant, a fairly strong monsoon current was blowing over the whole province, and general rain had recommenced in all districts. On the 25th a further slight fall of pressure was recorded, and pressure became below the normal by amounts ranging up to nearly a tenth of an inch in North-East Bengal. The monsoon current therefore continued to flow rather strongly over Bengal, and light to moderate rain was falling in all districts, and in some parts of North and East Bengal the falls were heavy, for on this day Buxa reported 9·23 inches, Durgapur 4·90 inches, and Debijanj, Chittagong, Madaripur, and Brahmanbaria falls of about 3 to 4 inches. A further moderate fall of pressure of about 0·02″ to 0·04″ took place on the 26th instant, a steady monsoon current continued to blow over the province, and conditions therefore still remained favourable for rainfall, which was again general in almost all divisions except perhaps the south-western districts, and a good many heavy falls were reported in the north and east of the province, though the amounts were perhaps not quite so heavy as on the 25th. On the 27th the general and continued fall of pressure had ceased, and the barometric changes were small and rather variable. Conditions in Bengal were hence also to a great extent unaltered and again rain was fairly general, and though light at most stations, yet in East and North Bengal and also in Bihár and Chota Nagpur a good many rather heavy falls were reported. On the 29th pressure was rising over the major part of the province, but a fall had recommenced in South and South-East Bengal. The monsoon current on this day had decidedly fallen off in force, and winds were much more irregular than they had been; north-westerly winds were also setting in at the western stations, showing that probably the monsoon current was beginning to retreat from the province. Hence on this date rainfall became to a great extent absent in Bihár, though in other divisions it was fairly general and the falls were heavy in Orissa. On the 30th conditions changed very materially; a very rapid fall of pressure of about 0·11″ to 0·13″ took place over South-East Bengal, while the general fall of pressure over the province equalled about 0·08″. The lowest pressures on this day were recorded from South and South-East Bengal, and a feeble low pressure area had formed. There was also a very distinct tendency for a wind circulation to set up with a centre near Barisál. Hence conditions at once became more favourable for rainfall at all except the western districts which were exposed to comparatively dry north-westerly winds. General heavy rain was on this day reported from Orissa, South-West Bengal, North Bengal, and Chota Nagpur, and moderate rain in East Bengal, but Bihár was almost rainless. On the 30th falls of rain exceeding 3 inches were reported at Akhyapada, Khatra, Kuch Bihár, Diamond Harbour, Vishnupur, Lalbag, Buxa, and Cox's Bazar, and falls of from two to three inches at Burdwan, Raipur, Debiganj, Matabhanga, Noakhali, Chittagong, Purulia, Barabhum and Chas. On October 1st pressure again fell rather slowly over parts of East and South-East Bengal, and there was a moderate increase over the remainder of the province. The barometric depression over South-East Bengal therefore became more clearly marked, and pressure at Barisál was 0·177″ below the normal of the day. The wind circulation with a centre in South-East Bengal continued clearly marked, and strong winds commenced to blow in the north-east of the Bay feeding into the depression. Hence again conditions were very favourable for rainfall at all except the western and north-western stations, and rather heavy general rain was reported in all districts except Bihár and parts of Chota Nagpur. On the 1st the following stations reported falls in excess of three inches:—Bangaon, Bhagálpur, Daulatkhan, and Munshiganj, and falls of more than two inches at Canning Town and Jhenidah, and about twenty-five or thirty stations reported falls of an inch and upwards. Hence it will be seen that in all districts except Bihár there has been good general rain for almost the whole of the week, while Bihár itself had good rain for the first three or four days.

Pressure.—The mean pressure for the week has hence been largely in defect of the normal. The defect has ranged from about 0·06 inch in Orissa to about a tenth of an inch in East and North Bengal and Assam, the largest defects being 0·115″ at Darjeeling and 0·107″ at Dhubri, and the smallest 0·052″ at Gopalpur and 0·056″ at Cuttack.

Temperature.—With the decidedly heavy rainfall for the week the mean temperature for the whole of Bengal has been 0·5° below the normal, the defect being largest in East Bengal, where it has equalled 1·6°. In Assam also a mean defect of 1·1° has been registered.

Rainfall.—Almost for the first week during the present monsoon season the rainfall for the whole province has been in excess of the normal amount in each division. The falls in East and North Bengal have averaged about four inches, those in South-West Bengal and Chota Nagpur about two and-a-half inches, and in Orissa nearly two inches; while the smallest falls have been in Bihár, which has received about one and-a-half inches. The excess falls in the various divisions have been as follows: between two and three inches in East and North Bengal, between one and two inches in South-West Bengal and Chota Nagpur, and

less than half an inch in Orissa and North and South Bihár. Expressing the actual falls as percentages of the normal amounts for the week the figures become—Orissa 109 per cent., South-West Bengal 245 per cent., North Bengal 228 per cent., East Bengal 269 per cent., North Bihár 125 per cent., South Bihár 131 per cent, and Chota Nagpur 248 per cent.

In the case of the smaller districts, the falls have been exceptionally heavy in Jessore, Burdwan, Bankura, Birbhum, Bogra, Malda, Jalpaiguri, Kuch Bihár, Darjeeling, Chittagong, Noakhali, Tippera, Mymensingh, and Dacca, and on the other hand they have been very decidedly light in Saran, Shahabad, Rajshahi, and Gaya.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 1st of October 1892:—

Meteorological Divisions.	Temperature.						Rainfall.									
	Highest observed during week.	Lowest observed during week.	Averages for week. Of highest of each day.	Averages for week. Of lowest of each day.	Averages for week. Of mean for each day. The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers; t, thunder; <, lightning; ⌓, dew; lr, lightning reflection.

C. W. ODLING,
Joint-Secy. to the Govt. of Bengal.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

The 4th October 1892.

No. 86*Marine.*—The following notification No. 3367, dated the 22nd September 1892, by the Government of Bombay, is published for general information.

C. W. ODLING,
Joint-Secy. to the Govt. of Bengal.

NOTIFICATION.

GENERAL DEPARTMENT.

Bombay Castle, the 22nd September 1892.

No. 3367.—In exercise of the power conferred by Act I of 1870, the following rules for quarantine against cholera have been made by the Government of Bombay, with the previous sanction of the Governor-General in Council: they have effect from the 15th instant in the Ports of Aden, Perim, and the Somali Coast as a temporary measure:—

I.—The Commander of every vessel, including buggalows or other native craft, arriving from Karachi shall, before entering the harbour, indicate by signal the port from which such vessel has come.

II.—Such Commander shall not, except as hereinafter provided, allow any communication, either with the pilot boat, except orally, or with the shore, or with any other vessel or boat in the harbour.

III.—Immediately on arrival the Commander shall cause the letter R of the Commercial Signal Code to be hoisted, and shall keep the said flag flying during his stay in port or until authorized by the Health Officer to haul it down. If communication with the shore is not desired, the vessel shall anchor at such place as may be pointed out by the port authorities, having regard to the season of the year. If communication with the shore is desired, the Health Officer shall go alongside the vessel, and, after all necessary enquiries, shall direct the Commander to take the vessel to the quarantine anchorage duly appointed and notified in that behalf by the Resident, there to remain for a period of seven days from the date of arrival, or for the shorter period prescribed in Rule IV, and undergo disinfection, which should apply as well to crew, passengers, effects, and susceptible goods.

IV.—If the Health Officer of the Port has sufficient evidence that no cases of a suspicious nature have taken place on board during the voyage, and if the vessel is besides in good hygienic condition, the duration of the quarantine will be diminished according to the following scale:—

After eight days of voyage	...	...	Six	days of quarantine.
Do. nine do.	...	...	Five	do.
Do. ten do.	...	...	Four	do.
Do. eleven do.	...	...	Three	do.
Do. twelve do.	...	...	Two	do.
Do. thirteen do.	and upwards	...	Twenty-four hours of quarantine.	

V.—If during the period a vessel is at the quarantine anchorage aforesaid any case or cases of cholera should occur on board, the said vessel shall remain in quarantine for a period of seven days from the date of the last case occurring, and be subject to all the prohibitions provided for in Rule III.

VI.—When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board the vessel, to such particular spots as may from time to time be selected by the Resident as places of quarantine, there to remain for a period of seven days. If a case of cholera occurs among such passengers and crew during any such period, they shall remain in a place of quarantine for a period of fifteen days from the date of the occurrence of the last case of such illness.

VII.—Any mails or cargo which may be brought by any vessel so arriving shall be landed under such precautions as the Health Officer may deem necessary to prevent the spread of the disease.

VIII.—It will be the duty of the Port Officer to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine to be subsequently removed by members of their crews.

IX.—All vessels arriving at Aden, Perim, and the Somali Coast which may have communicated with vessels coming from Karachi shall be subjected to the same quarantine as vessels arriving at Aden, Perim, and the Somali Coast from Karachi.

X.—All vessels which have undergone quarantine in the manner above prescribed should have the fact clearly stated on their bills-of-health.

By order of His Excellency the Right Honourable the Governor in Council,

T. D. MACKENZIE,
Chief Secretary to Government.

The 4th October 1892.

No. 87*Marine.*—The following notification No. 3390, dated 23rd September 1892, by the Government of Bombay is published for general information.

C. W. ODLING,
Joint-Secy. to the Govt. of Bengal.

NOTIFICATION.

GENERAL DEPARTMENT.

Bombay Castle, the 23*rd September* 1892.

No. 3390.—In exercise of the power conferred by Act I of 1870, the following Rules for Quarantine against Cholera have been made by the Government of Bombay with the previous sanction of the Governor-General in Council: they have effect from the 20th instant in the Ports of Aden, Perim, and the Somali Coast as a temporary measure:—

I.—The commander of every vessel, including buggalows or other native craft, arriving from Tadjoura shall, before entering the harbour, indicate by signal the port from which such vessel has come.

II.—Such commander shall not, except as hereinafter provided, allow any communication either with the pilot boat, except orally, or with the shore, or with any other vessel or boat in the harbour.

III.—Immediately on arrival the commander shall cause the letter R of the Commercial Signal Code to be hoisted, and shall keep the said flag flying during his stay in port or until authorized by the Health Officer to haul it down. If communication with the shore is not desired, the vessel shall anchor at such place as may be pointed out by the Port authorities, having regard to the season of the year. If communication with the shore is desired, the Health Officer shall go alongside the vessel, and, after all necessary enquiries, shall direct the commander to take the vessel to the quarantine anchorage duly appointed and notified in that behalf by the Resident, there to remain for a period of seven days from the date of arrival, or for the shorter period prescribed in Rule IV, and undergo disinfection which should apply as well to crew, passengers, effects, and susceptible goods.

IV.—If the Health Officer of the Port has sufficient evidence that no cases of a suspicious nature have taken place on board during the voyage, and if the vessel is, besides, in good hygienic condition, the duration of the quarantine will be diminished according to the following scale:—

After eight days of voyage	... ...	Six days of quarantine.
Do. nine ditto	... ...	Five ditto.
Do. ten ditto	... ...	Four ditto.
Do. eleven ditto	... ...	Three ditto.
Do. twelve ditto	... ...	Two ditto.
Do. thirteen ditto and upwards	...	Twenty-four hours of quarantine.

V.—If during the period a vessel is at the quarantine anchorage aforesaid any case or cases of cholera should occur on board, the said vessel shall remain in quarantine for a period of seven days from the date of the last case occurring, and be subject to all the prohibitions provided for in Rule III.

VI.—When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board the vessel, to such particular spots as may from time to time be selected by the Resident as places of quarantine, there to remain for a period of seven days. If a case of cholera occurs among such passengers and crew during any such period, they shall remain in a place of quarantine for a period of fifteen days from the date of the occurrence of the last case of such illness.

VII.—Any mails or cargo which may be brought by any vessel so arriving shall be landed under such precautions as the Health Officer may deem necessary to prevent the spread of the disease.

VIII.—It will be the duty of the Port Officer to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores, and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine, to be subsequently removed by members of their crews.

IX.—All vessels arriving at Aden, Perim, and the Somali Coast, which may have communicated with vessels coming from Tadjoura, shall be subjected to the same quarantine as vessels arriving at Aden, Perim, and the Somali Coast from Tadjoura.

X.—All vessels which have undergone quarantine in the manner above prescribed should have the fact clearly stated on their bills-of-health.

By order of His Excellency the Right Hon'ble the Governor in Council,

T. D. MACKENZIE,
Chief Secretary to Government.

Advertisements.

[N. B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette cannot be received after Noon on Monday.]

LAND SALE NOTICES.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Eastern Bengal State Railway, near the Baruipur station, in the district of the 24-Parganas, will be put up to sale at noon on the 12th November 1892, corresponding with the 28th Kartick 1299 (B.S.), on the spot.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavation on the land nearer than 15 feet from the railway fencing, or plough the land closer than 3 feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale.

Oudh Forest Department.

BAHRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of sâl beams and scantlings supplied from this depôt will be as follows:—

BEAMS —21 feet length, at Rs. 2-10 per cubic foot.
22 ,, ,, 2-12 ,,
23 ,, ,, 2-14 ,,
24 ,, ,, 3 ,,

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot.

SCANTLINGS— From 12 to 20 feet, at Rs. 2-8 per c. ft
Under 12 and over 7 ,, 2-4 ,,
Under 7 feet ,, 2 ,,

The above prices are for ordinary building purpose.

For *Planking Sleepers, &c.*, special rates will be fixed by agreement.

The Department will still take orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, N. W. P. and Oudh, Oudh Circle.

KANHYA LAL,

Sub-Assistant Conservator of Forests,
Bahramghat Division.

Bahramghat, the 1st April 1886.

Reduction in price of Cinchona Febrifuge.

FROM 1st April 1891, and until further orders. Cinchona Febrifuge can be purchased by all Government officers and by any one taking *ten pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, at the following rates. Four ounce tin Rs. 2-8; eight ounce tin Rs. 5; one pound tin Rs. 10. The general public can be supplied by the Superintendent, Botanic Garden, *for cash only* at the undernoted rates:—Per four ounce tin Rs. 3; per eight ounce tin Rs. 6; per pound tin Rs. 12. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage four annas per 4 ounce tin, eight annas per 8 ounce tin, and twelve annas per pound tin, in addition to the foregoing rates.

Reduction in the Price of the Pure Sulphate of Quinine.

MANUFACTURED AT THE BENGAL GOVERNMENT CINCHONA PLANTATION.

ON and after 1st April 1891 the price of this quinine will be as follows:—

1 Pound tin Rs. 16, or, post free, Rs. 16-12.
½ ,, ,, ,, 8 ,, ,, ,, ,, 8-8.
¼ ,, ,, ,, 4 ,, ,, ,, ,, 4-8.

Analysis shows this quinine to be of the purest manufacture, and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Sibpur, near Calcutta. It can be had either white or coloured pink.

Lost.

THE Government Promissory Notes Nos. C159865 and 165422 of the 4 per cent. of 1842-43 for Rs. 1,000 and Rs. 500, respectively, originally standing in the names of the Bank of Bengal and Deb Nath Sreemanee, respectively, and last endorsed to Sreematty Koosum Kamini Debby, administratrix to the estate of late Deno Nath Sen, the proprietor, by whom they were never endorsed to any other person. Payment of the above notes and the interest thereupon have been stopped at the Public Debt Office, Bank of Bangal, and application is about to be made for the issue of duplicates in favour of the proprietor.

SREEMATTY KOOSUM KAMINI DEBBY, administratrix to the estate of late Deno Nath Sen, No. 9, Shama Churn Dey's Street, Calcutta. (665—3)

Lost or Stolen.

THE Government Promissory Note No. 306592 of the 4 per cent. of 1865 for Rs. 600, originally standing in the name of Harihar Chandra Ray, the proprietor, by whom it was never endorsed to any other person. Payment of the above note and the interest thereupon have been stopped in the Public Debt Office, Bank of Bengal, as well as in the local treasury at Faridpur, and application is about to be made for issue of a duplicate in favour of the proprietor.

HARIHAR CHANDRA RAY,
Zamindar, P. O. Panchar, in Faridpur.
(612—3)

Price Rs. 20 for 1891-92, Published at the Calcutta Custom House. Previous years volumes can also be obtained at the same price.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1870:—

Terms of subscription payable annually in advance.

For the complete series, *including postage*, Rs. 22-8.

	Without postage.			With postage.		
	Rs.	A.	P.	Rs	A.	P.
For the Calcutta Series	10	0	0	2	8	0
„ each of the Madras, Bombay, and Allahabad Series	6	0	0	7	0	0
„ a part of the Calcutta Series pur chased separately (*inclusive of postage in India*)	......			2	0	0
„ a part of each of the Madras, Bombay, and Allahabad Series purchased separately (*inclusive of postage in India*)	......			1	0	0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be suppilled to subscribers when required in place of copies lost in transit.

	For town.			For mofussil.		
	Rs.	A.	P.	Rs.	A.	P.
For the Calcutta Series, per copy ...	0	8	9	0	10	3
„ each of the Madras, Bombay, and Allahabad Series, per copy ..	0	5	3	0	5	9

REVENUE DEPARTMENT.

REVISED ADVERTISEMENT.

A Dictionary of the Economic Products of India

BY DR. GEO. WATT, C.I.E.

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first five volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets; &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal octavo pages; Vol. II embraces the letter C in 689 pages; Vol. III contains the letters D, E, F and half of G. Vol IV latter half of G to middle of L; and Vol. V contains the latter half of L to end of "O." The whole work will, it is expected, be completed in seven volumes during the current year; but an eighth volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index will practically be a Glossary of the vernacular and European names of the plants, animals and minerals of India, and as such will be a work of reference, which, it is hoped, may prove of considerable value.

The period of registration of subscribers' names having expired on the 1st October, the price will in future be in India Rs. 45 and in England 3 guineas, payable in advance, for the complete set (exclusive of the Index, for which a separate charge will be made). An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England, at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately.

Jeypore Enamels. Super royal, 4to. Rs. 30 (9*a*.)

Waste Lands in India, Rules for the Lease or Sale of, 1892. Fcap., boards. Rs. 2 (8*a*.)

RESOLUTION ON THE ANNUAL GENERAL ADMINISTRATION REPORT OF THE BURDWAN DIVISION FOR THE YEAR 1891-92.

GENERAL DEPARTMENT—MISCELLANEOUS No. 2865.

Calcutta, the 4th October, 1892.

RESOLUTION.

READ—

The Annual General Administration Report of the Burdwan Division for the year 1891-92.

Tours.

IN spite of the Tour Resolution (No. 398T.G., dated the 17th October 1891) having only been received comparatively late in the year, the Commissioner and all officers of the Division used their best efforts to comply with the orders contained in that Resolution, which require Divisional Commissioners and District Officers of large districts, in which category the districts of Burdwan and Midnapore in this Division fall, to be on tour for four months, while the officers in charge of smaller districts and of sub-divisions are required to put in the three months touring formerly prescribed. In the few cases where officers did not complete the full amount, they were prevented by sickness from so doing. All district offices and treasuries, and all sub-divisional offices with the exception of Ghatal, were inspected either by Mr. Veasey or by Mr. Power who took over

charge on the 3rd November 1891. All the Collectors except one also inspected their own offices twice during the year.

Weather and crops, health and condition of the people, and sanitation.

2. Mr. Power has given a very interesting account of the condition of the people during the year under report. The weather on the whole was not favourable to agricultural operations, the rainfall being short and unevenly distributed. He considers, however, that the people did not suffer from any severe distress, nor was the diminution in the outturn of agricultural produce sufficient to affect the course of trade or of crime. Of the Birbhum district, Mr. Grant, the Collector, the extracts from whose report show that he has taken a keen and intelligent interest in economic matters, writes:—"The accidents of 1891-92 were not very severe after all. The crop was certainly 25 per cent. below average, but that left plenty for export after the wants of the district were satisfied, and the very high prices realized must have gone some way to make up for the deficiency of quantity. There has been no want, no distress, no pinching, in a year which has so severely tried other districts in Bengal. There has, in fact, been every sign of continued prosperity." These remarks, though to some extent supported by the statistics of import and export of trade, seem rather high-coloured as a description of the whole Division, and the mortuary statistics leave no doubt that the people have felt the pinch of scarcity and high prices and the lack of pure water, and that these causes, among others, injuriously affected the general health. The Magistrate of Burdwan writes that the public health was worse than in any of the preceding years since 1881. Bankura suffered heavily from fever and cholera, Birbhum from a severe epidemic of influenza, which is estimated to have attacked not less than one-third of the population, Midnapore from unusual fever and small-pox, and Hooghly from a cholera epidemic in the Serampore sub-division. At the present moment, when the question of special legislation with a view to compulsory improvement of water-supplies in municipal, and of drainage in rural, areas is under consideration, it is a significant fact that both Mr. Barrow, the Magistrate of Bankura, and Mr. Grant, the Magistrate of Birbhum, attribute the unhealthiness of the year to the scanty rainfall acting speedily upon a supply of water already much reduced by the long hot weather, their theory being that as the water in tanks and wells runs lower, the solution of nocuous matter becomes of necessity stronger and more dangerous. Mr. Grant comments strongly on the practice of cultivators keeping large manure heaps close to their houses,—a practice which he thinks it would be next to impossible, owing to long habit and want of room elsewhere, to make them abandon; and Mr. Cooke from Hooghly writes that "the most obvious evil is the entire disregard for the purity of the water consumed, and its wanton pollution: it is not to be expected that the electorate will choose sanitary reformers to represent them; such would command little support at the poll." On this, Mr. Power comments thus:—"Neither municipalities nor village communities understand sanitation; they dislike what little instruction they have hitherto received on the subject. Without an expert to describe what is wanted, and executive authority to compel performance, grants and allotment for sanitation will surely be wasted."

3. The total number of deaths in each district is given in the following table for this and the past two years:—

	Population by census of 1891.	Total Number of Deaths.		
		1889-90.	1890-91.	1891-92.
Burdwan	1,391,880	33,918	28,251	36,825
Bankura	1,069,668	20,638	20,547	22,416
Birbhum	797,833	21,905	20,955	26,336
Midnapore	2,631,516	58,299	61,842	74,258
Hooghly	1,076,710	27,522	28,458	34,788
Howrah	721,211	15,106	16,067	18,141
Divisional Total ...	7,688,818	177,388	176,120	212,764

The unhealthiness of the Burdwan district is further evidenced by the last census returns, which show a population of 1,391,880 against 1,391,823 in 1881, an increase of 57 only in ten years.

4. The mill and factory hands in the larger towns would appear to be in better condition than the agricultural population. Mr. Cooke writes with regard to them, that such a thing as abject poverty is unknown in the Hooghly district, owing to the mills finding work with liberal remuneration. Mr. Grierson, who has lately come to Howrah from the Gaya district in South Bihár, writes that the difference in the standard of comfort in Gaya and Howrah is very striking, and that he now can well understand how some 30 lakhs of rupees go every year from Howrah to Gaya in remittances from the labourers who work at the former place.

Manufacture, Trade, and Commerce.

5. The rise in both exports from and imports to the Birbhum district has already been noticed as a sign that the shortness of the crop was not sufficient to counterbalance the impulse given by high prices to trade in that district. The same is true also of Burdwan, Bankura, and Midnapore, from each of which districts the export of paddy increased materially. Among industries it is noticed that indigo is almost defunct in Burdwan. The quantity of mulberry silk manufactured rose nearly 50 per cent. in Birbhum, while that of tassar silk fell off both in that district and in Bankura. Jute and gunny showed a marked recovery in Howrah from the depression of the preceding year. The decay of the old native industries before improved European methods is exemplified in the case of cotton cloth and of paper. Of the former, the outturn increased in the year, but the Commissioner writes: "This, however, is little more than a pause in the ebbing tide: the competition of European piece-goods is steadily killing the industry. In Katwa, the cloth workers of two villages have taken to silk-weaving. Elsewhere they are gradually merging in the agricultural population." In the paper industry the Bally mills are swamping all native competitors of the old style.

6. The following statement shows the civil work of the division during the year:—

District.	Sub-division or chauki.	Description of Court.	Number of officers.	Number of original cases disposed of.		Details of cases in columns 5A and 5B.			Number of witnesses attended.	Ratio of witnesses detained over two days to total number.	Ratio of cases pending at end of year to total disposed of.	Number of cases disposed of per Munsif reduced to the prescribed unit.

* This Small Cause Court Judge, aided by a Registrar, divided his time between Hooghly, Howrah, and Serampore.

The figures in column 12 are obtained by taking one title suit as equivalent to three rent and money suits, and one Small Cause Court suit as one-third of an ordinary suit. The average number of cases disposed of on this calculation by each Munsif was 1,253. The highest figures are those of the Munsifs of the Midnapore district (especially at the Sadar and Tamluk), of Kalna, Rampur Hat, and Uluberia. The smallest amount of work was disposed of in the Birbhum district, at the Sadar and Bholpur stations.

7. The worst returns of detention of witnesses over two days are shown by the Munsifs of Kotalpur in Bankura and Bud-Bud in Burdwan, in whose courts ·42 and ·38, respectively, of the witnesses examined were detained over two days. The ratio of pending cases at the end of the year to cases disposed of was highest in the courts of the Judge and Subordinate Judge of Bankura, being as high as 1·45, and in the Court of the Raniganj Munsif, where it was ·57.

Mr. Whitmore, Judge of Birbhum, comments on the amount of unnecessary litigation involving perjury produced by sections 149 and 150 of the Bengal Tenancy Act, which bar a defendant in a rent suit from certain pleas in defence, and encourage the fraudulent plea of not-indebted, unless he has deposited the amount of rent claimed, or such portion of it as the Court may decide. Mr. Whitmore also comments strongly on the practice of holding property *benami* It defeats the invaluable provisions of our admirable registration system; it doubles all litigation and so entirely vitiates the security of creditors that they are forced to stipulate for rates of interest, and would be extravagant in times of revolution.

Crime, Police, and Criminal Justice.

8. On the criminal side cognizable cases increased from 15,738 to 17,917 in number, but the increase was mainly due to petty nuisance cases in the Burdwan and Midnapore districts. Non-cognizable crime, on the other hand decreased from 21,005 to 20,351, the decrease being in Hooghly and Howrah, in the latter of which districts the decrease is found chiefly in municipal and similar cases under special laws.

9. The police, both in town and country, come in for their usual share of abuse in the reports, but there was no serious misconduct brought to light among the force, with the exception of one case of torture in Midnapore. Of the Burdwan Sub-Inspectors, Mr. Williams writes that they lack ability, industry, and honesty, and should, as a rule, not be ranked above head-constables. He explains that the unhealthiness of the district makes it unpopular with Biháris and up-countrymen, and he suggests that this class of constables might be exchanged to Bihár after a few years' service in Burdwan. This suggestion will be referred to the Inspector-General of Police for consideration.

10. Among the rural police, those under Act VI of 1870 seem to do their work fairly well, but in Burdwan most of the chaukidars are under Regulation XX of 1817, and hold chákrán lands, and in Bankura they are chiefly holders of ghatwali tenures, and both these classes are described as being disorganized and worthless. It is a relief to turn to Mr. Dutt's account of the Midnapore chaukidars, who, he says, do good work in watching bad characters under an excellent system introduced by Mr. Munro; also in burglary and cattle theft cases. He adds that "station officers do not know how to get good work from the chaukidars, who are always excellent, obedient, and intelligent servants when properly handled." The village chaukidar does not often meet with such unqualified praise from his District Officer.

11. The following statement shows the work of the criminal courts in the division by districts :—

DISTRICT.	Sub-division.	Class of officers.	Number of officers.	Cases disposed of.	Persons disposed of.	Ratio of persons convicted to disposed of.	Number of witnesses attended.	Ratio of witnesses detained over two days to total number attended.	Ratio of cases modified or reversed in appeal to total appealed.	Number of A cases disposed of.	Number remanded six times or more.	Average number disposed of by each (stipendiary Magistrate) officer.	Average number of witnesses attended in each case.	Ratio of column 11 to column 12.

* The officers, cases, &c., against Sub-division Rampurhat have not been given separately, and so the total number of officers for the whole district has been shown.

12. Taking Stipendiary Magistrates first, 41 officers disposed of 15,542 cases, and the average number of cases disposed of by each is 379. The largest amount of work was done in the Midnapore district (especially at Ghatal and Contai), and in Hooghly and Howrah. In Burdwan and Birbhum the amount of work was below the average, and in the Bankura district it was lightest of all. The number of witnesses per case was about 5, the highest ratio being at Kalna, Vishnupur, Tamluk, and Ghatal. The only Magistrate in whose court more than 10 per cent. of the witnesses were detained over two days was the Deputy Magistrate of Katwa. The number of Police cases disposed of was 4,173, of which 292, or 7 per cent., were remanded six times and more. The courts where more than 10 per cent. of such delays took place were those of Vishnupur and Howrah. On the other hand, in the courts at Suri, Rampurhat, and Ghatal only 1 per cent. (or 6 out of 609 cases) were treated in this dilatory way.

13. There is an unusually large number of Municipal and Honorary Benches in this Division, as well as of Honorary Magistrates sitting singly. The number of Benches was 36, and they disposed of the large number of 10,900 cases, or nearly 303 apiece. The Lieutenant-Governor is glad to recognise the assistance given by the loyal and willing labour of these public-spirited gentlemen. The cases were for the most part petty ones, and the average number of witnesses in each case was only 2. One Bench sitting at Raniganj detained 21 per cent. of its witnesses over two days; only one other Bench exceeded 10 per cent. The number of reversals on appeal rose high in some cases: the Municipal Bench of Burdwan had its decision modified or reversed in every case appealed against

The attendance of the Honorary Magistrates is shown by the following table :—

	Number of times asked to attend.	Number of times actually attended.	Number of absences—		
			With leave or notice.	Without leave or notice.	Total.
	1	2	3	4	5
Burdwan	1,931	1,349	198	568	766
Bankura	384	263	11	110	121
Birbhum	393	289	59	45	104
Howrah	1,492	1,089	83	340	423
Hooghly	2,599	2,000	274	384	658
Midnapore	2,695	1,578	446	671	1,117

The attendance in the Midnapore and Burdwan districts was indifferent, the absences being in each case considerably over one-third of the invitations to attend.

The Commissioner will be requested to draw the attention of Honorary Magistrates, who hardly ever attend, to their neglect of this duty, and to suggest to them that if they find it impossible to attend they should resign their office. The Lieutenant-Governor trusts that the effect of such weeding will be visible by the absence from the next attendance rolls of such figures as those quoted above. On the other hand many of the Honorary Magistrates, especially those who sit singly, were conspicuous by the regularity of their attendance as well as by the efficiency of their work.

14. The statements below show by districts the work of the Sessions Courts and the impositions, realizations, and collections of fines during the year :—

	District.						
	Burdwan.	Bankura.	Birbhum.	Midnapore.	Hooghly.	Howrah.	Total.
Number committed during the year	29	17	13	31	36	31	157
Do. disposed of	31	19	11	34	32	30	157
Do. in which conviction obtained	14	10	6	20	18	21	89
Do. of above in which sentence modified or reversed by High Court	...	4	2	1	......	..	7
Number of cases acquitted by Sessions Judge	17	9	5	14	14	9	68

	District.										
	Burdwan.	Bankura.	Birbhum.	Midnapore.			Hooghly.	Howrah.			Total.
	Rs.	Rs.	Rs.	Rs.	A.	P.	Rs.	Rs.	A.	P.	Rs.
Amount due at commencement of the year	4,186	3,078	4,705	6,537	2	8	6,421	6,770	1	9	31,097
Do. imposed during the year ...	20,993	7,561	10,649	30,382	0	0	17,715	8,112	5	6	95,412
Do. collected during the year ...	16,813	6,226	13,496	27,339	10	3	15,416	7,437	13	3	86,730
Remitted during the year	4,223	1,830	... ..	2,668	11	9	2,050	1,797	2	6	13,175
Amount pending at end of year	4,143	2,583	1,858	6,910	13	5	6,061	5,047	7	6	27,203

The Birbhum fine statement is particularly creditable. The year opened with an outstanding balance of Rs. 4,705, and Rs. 10,649 were imposed in the course of it. Of the Rs. 15,354 thus made up, nothing was remitted, and Rs. 13,496 were collected, leaving a closing balance of only Rs. 1,858.

15. The following statement shows the work done by the different registration offices:—

DISTRICT.	Class of Registration office.	Number of offices.	Number of documents registered	Average per office.
Burdwan	Special	1	3,955	2,494
	Rural	11	25,971	
Bankura	*Ex-officio* sub	1	2,067	2,062
	Rural	8	16,487	
Birbhum	*Ex-officio* sub ...	1	2,517	2,756
	Rural	4	11,264	
Howrah	Special	1	6,744	3,418
	Rural	4	10,348	
Hooghly	Special	1	2,078	2,513
	Rural	8	20,539	
Midnapore ...	Special	1	3,225	3,184
	Rural	15	47,727	

From the above it appears that registration is most resorted to in the Burdwan and Hooghly districts.

16. The following table shows the demand, collections, and balances of revenue and cesses during the year district by district :—

DISTRICT.	Class of demand.	Class of estates.	Number of estates.	DEMAND.		COLLECTIONS OF 1891-92.		BALANCE ON 1ST APRIL 1892.

		III	59	2,50,243	2,58,177	1,26,988	1,60,115	1,22,904	84,932
	Road cess ...	.	7,365	2,82,801	60,108	2,19,116	60,448	63,685	6,662
	Zamindari dak ...	.	2,010	12,130	691	11,661	559	469	132

The classes referred to in the above statement are these—

I.—Permanently-settled estates.

II.—Temporarily-settled estates.

III.—Estates held direct by Government.

17. The arrears which amounted to about 8·5 lakhs of rupees at the beginning of the year had been reduced to about 8 lakhs at the end; and this is so far an improvement, that the collections have not yet reached the standard which the Lieutenant-Governor desires to attain. The Midnapore and Burdwan districts are those in which the arrears are largest. The subject, however, has been fully dealt with by the Board of Revenue in their Land Revenue Report. Statement XVI appended to the report should have shown the kists of January and March 1892, instead of those of 1891. It is noted that Burdwan shows an arrear of over Rs. 71,000, but that the arrear list only contained estates defaulting to the amount of about Rs. 5,000, and similarly with the other districts. Collectors should see that every defaulting estate is included in the arrear list, and that the amount of default agrees with that returned by the Tauzi Department.

Land Revenue.

18 The following statement shows the number of certificates filed during the year, and how they were disposed of:—

District.	Department.	Number filed during year.	Number pending at beginning of year.	Total for disposal.	Amount of certificates.	Number disposed of during year.	Amount realized.	Number pending at close of year.
1	2	3	4	5	6	7	8	9

	Court of Wards	1,534	4,001	5,535	1,74,608	3,886	21,682	2,149

* Departments not shown in Commissioner's report.

The number of cases pending at the close of the year is larger by about 8,000 than it was at the beginning of the year, but this is entirely due to the enormous number issued in Burdwan in consequence of the strenuous measures taken towards the close of the year to collect road cess from the defaulting rent-free tenures. Excluding this item, the pending number has been reduced by about 5,000; but it is still large, and the Lieutenant-Governor hopes to see a still further diminution effected during the current year.

Settlement.

19. The only settlements of any importance were those of Hukumapur, Mollarpur, and Sujamutha; the first and third of which belong to the Burdwan Raj and are under the Court of Wards. The Hukumapur and Mollarpur settlements were practically completed during the year, and have come under the review of Government separately. The Sujamutha proceedings still drag on wearily, the present state of affairs being that a series of compromises have been arrived at between the manager and the raiyats, which the Settlement Officer is in process of registering. Meanwhile the collections of the pargana are very bad; the percentage of current collections on the current demand being only 24·2, and of the total collections on the total demand as low as 19·7. Among smaller settlements it is observed from Statement XVII that 26 miles of roadside lands in Bankura were put under settlement as long ago as June 1888, but operations have not yet been completed. Such delays ought not to occur. These small settlements ought to be carried out between the end of one rains and the beginning of another. This can generally be done if the strength of amíns is proportioned to the area to be measured, and their work tested while it is going on. The survey and maps should be completed in three months, leaving three months for settling the rates and rents and other disputes.

Drainage schemes.

20. Four important drainage schemes are now in various stages of progress in the district of Hooghly. These four schemes are known as the Dankuni, Howrah, Rajapur, and Amta schemes. The cost of the first three has been up to the end of 1891 as follows:—

	Rs.
Dankuni	5,06,649
Howrah	4,11,723
Rajapur	8,94,392
Total ...	18,12.764

The figure against Dankuni includes the principal and maintenance charges: Rs. 5,01,987 have already been recovered from the proprietors benefitted up to 31st March 1892. The capitalization of the maintenance charges on account of this scheme has been sanctioned by Government, and the question of capitalising in the case of the Howrah scheme also is under consideration. The Rajapur scheme was completed in October 1891. Estimates of the Amta scheme are still under preparation by the Public Works Department.

Loans.

21. Out of Rs. 30,000 allotted to the Division for loans under the Agriculturists' Loans and Land Improvement Acts, it appears that only Rs. 6,350 were actually spent during the year. The attention of the Board of Revenue will be invited to the fact. No explanation is given in the report as to how a sum so far in excess of the actual requirements came to be included in the budget, to the exclusion perhaps of some other districts which could have fully utilised a larger allotment than they got.

22. The most important excise statistics are included in the following statement:—

District.	Country spirits.				Ganja.				Opium.			
	Number of shops.	License fees.	Gross gallons.	Total receipts.	Number of shops.	License fees.	Gross maunds.	Total receipts.	Number of shops.	License fees.	Gross maunds.	Total receipts.

Howrah	1,02,494	0 2 3
Hooghly	1,22,374	0 1 9
Midnapore	2,31,399	0 1 5
Total ...	9,65,155	

The consumption of country liquor in Hooghly and of opium in Midnapore is remarkable.

Education.

23. The unhealthiness of the year is said to be responsible for a falling off in the number of schools and pupils in all the districts of the Division except Howrah and Birbhum. In Burdwan the substitution of the payment-by-result for the stipendiary system is said to have also tended to a decrease of primary schools, but the explanation seems doubtful, especially as in Birbhum the same cause is assigned for the increase which there took place. Among special classes the number of Sonthal pupils rose in Bankura from 972 to 1,056, but decreased in Burdwan, Birbhum, and Midnapore to the following extent:—

	Number of Sonthal pupils.	
	1890-91.	1891-92.
Birbhum	368	291
Burdwan	108	15
Midnapore	1,658	1,489

The very marked decrease both in Burdwan and Midnapore is also attributed to bad harvests and the unhealthiness of the year. Since the close of the year a Sonthal Sub-Inspector, in addition to the previous staff of the circle, has been sanctioned by Government.

24. Mr. Barrow, the Magistrate of Bankura, comments on the waste of power in having a separate Sub-Inspector for non-Board schools. The question is one that has been for some time under the consideration of Government, and orders may be expected to be shortly issued, making over all Government Sub-Inspectors to the District Boards on condition of their undertaking to provide for the inspection of Municipal and Cantonment Schools.

25. The Lieutenant-Governor regrets to read that the condition of the patshalas among the mining population in the Barakar and Raniganj coal districts is very unsatisfactory, and that no interest is taken in their welfare by the managers of the collieries.

26. The following table shows the number of schools of all classes in each district, the number of pupils, and the incomes, with the sources from which the incomes are derived and the cost per head of the pupils:—

District.	Class of schools.	Number of schools.	Number of pupils on rolls.	Cost. Provincial.	District Board.	Municipality.	Fees.	Other.	Total.	Cost per head of pupils.	Population.	Rat pupi popul

Ratio between total in column 4 to total boys in district—

Burdwan	·20	Howrah	·28
Bankura	·22	Hooghly	·10
Birbhum	·17	Midnapore	·23

Some mistake must have crept into the Hooghly figures, for it is impossible that so populous a district should have had only 8,392 boys in 1,573 primary schools. It will be observed that in all districts Municipalities have devoted more money to High and Middle Schools than to Primary Schools, and in Birbhum District the Suri Municipality assists a Middle School, but gives nothing whatever to a Primary School. This is opposed to the principles advocated by the Lieutenant-Governor, who considers that one of the first duties of a Municipality is to provide primary education for all its boys, and only when that duty has been satisfied should it feel itself at liberty to assist Secondary Education. The Lieutenant-Governor is glad to learn that this duty is being impressed on all municipalities, and that the Howrah Municipality has already accepted the responsibility to the extent of increasing their primary grant from Rs. 376 to Rs. 2,020.

Dispensaries and hospitals.

27. These are in good case and fairly plentiful in the Division. The following table shows their working:—

District.	Number of dispensaries.	Income from— Government.	District Board.	Municipality.	Subscriptions.	Total.	Daily average patients. In-patients.	Out-patients.	Ratio of out-door patients to total population.
1	2	3	4	5	6	7	8	9	10
		Rs.	Rs.	Rs.	Rs.	Rs.			
Burdwan	7	398	1,541	4,877	16,599	23,415	70·2	446	·036
Bankura	4	463	1,000	3,965	800	6,228	13	112·10	·015
Birbhum	2	29	1,127	889	842	2,887	5·25	99·31	·015
Howrah	4	8,719	165	3,120	11,230	23,234	78	147·60	·032
Hooghly ...	9	1,685	......	4,128	14,452	20,265	66	268·40	·039
Midnapore	13	1,807	828	7,279	4,352	13,766	38	658	·026

It will be observed that the ratio of the out-door patients to the total population of the districts is very low in Bankura and Birbhum. The two Burdwan Raj dispensaries at Burdwan and Katwa are especially well spoken of.

Local Self-Government institutions.

28. District Boards are reported to have worked well, attendance has been generally good, and the proceedings characterised by good sense, fairness, and moderation. The Commissioner finds himself unable to say as much for the Local Boards and Municipalities, though among the latter Midnapore is favourably spoken of by Mr. Romesh Chandra Dutt, and Utterpara is described as a model little municipality. Baidyabatti suffered under a Vice-Chairman who was convicted of malversation of Municipal funds, and is now in jail. The present Chairman, though seriously thwarted, is said to be improving the state of the Municipality. Raniganj, Vishnupur, Sonamukhi, Kotrang, Badresar, and Bansbaria are classed by the Commissioner as bad, their faults being unequal and inadequate taxation, bad collections, a tendency to lavish expenditure on establishments, factions, quarrels, and aversion from sanitation. Serampore suffers from an absentee Chairman and a Vice-Chairman whose time is said to be fully pre-occupied by private business; and in Suri, the Magistrate reports that the only results of the late Chairman's enlightened and energetic efforts was that he became detested and was ousted from his post. The administration of cattle pounds, which lies with the District and Local Boards and the Municipalities, has been fairly successful, but the usual complaints of the farming system are met with. It is said that farmers will not look after the impounded cattle or provide proper accommodation for them, and that they combine to keep down auction prices of the pounds. As the Commissioner points out, the worst of these abuses would be obviated if the pound buildings were the property of the District Boards and not of the farmers.

29. There is nothing of especial moment under the heads of social and political institutions or conduct of zamindars. Messrs. Watson and Company, who hold a lease of a zamindari in Midnapore, have failed to administer the property without disturbances. The matter is under the consideration of Government.

30. Sir Charles Elliott desires to thank Mr. Veasey and Mr. Power for their administration during the year. He has read with pleasure the favourable notice of the work of Messrs. W. Fiddian, H. G. Cooke, Romesh Chandra Dutt, and H. C. Williams in their respective districts. The confidential reports on officers will be communicated to the Appointment Department, information being given, according to the rules laid down by the Lieutenant-Governor, to all on whom any serious censure is recorded.

By order of the Lieutenant-Governor of Bengal,

W. MAUDE,

Offg. Secretary to the Govt. of Bengal.

FAMINE RELIEF.

REVENUE DEPARTMENT—AGRICULTURE—No. 737T.—R.

Darjeeling, the 5th October, 1892.

RESOLUTION.

READ again—

The revised Bengal Famine Code published in the *Calcutta Gazette* of the 20th January, 1892.

Circular of the Government of India, Revenue and Agricultural Department, No. $\frac{5}{48}$, dated the 2nd March, 1892.

Circular of the Government of India, Revenue and Agricultural Department, No. $\frac{6}{44}$, dated the 17th March, 1892.

Circular of the Government of India, Revenue and Agricultural Department, No. $\frac{7}{48}$, dated the 18th March, 1892.

Circular of the Government of India, Revenue and Agricultural Department, No. $\frac{9}{44}$, dated the 21st March, 1892.

Read—

Resolution of this Government, No. 1529Agri., dated the 16th April, 1892, with its appendices.

Correspondence with the Commissioners of the Patna, Bhágalpur, and Rajshahi Divisions, regarding the recent scarcity in parts of those Divisions.

In the Resolution of 16th April, 1892, quoted above, which was published in the Supplement to the *Calcutta Gazette* of the 20th idem, instructions were issued which modified, for the time, certain provisions of the revised Famine Code of January, 1892, which were not precisely suited to the exact stage of distress which had then been reached in North Bengal and Bihár. Experience since gained from the relief operations recently closed, and orders received on several points from the Government of India, render it desirable to issue further instructions for the guidance of local officers, in case any fresh need of relief springs up. The Lieutenant-Governer does not consider that the time has yet come for issuing a revised edition of the Code itself; but it will be convenient to bring together in one place all the orders and explanations to be looked for outside the existing Code. This Resolution therefore supersedes all previous orders issued on the subject, and is to be taken as supplementary to, and in some cases modifying, the rules formulated in the Famine Code of January, 1892.

2. In the first place, it is to be observed that His Honour has noticed that certain officers entertain an erroneous notion that the loss of a single crop must ordinarily necessitate the immediate starting of relief works. Experience has shown that, even in such poor districts as Muzaffarpur, Darbhanga, and Bhágalpur, the failure of the *aman* or *aghani* rice crop, preceded by a poor *bhadoi*, and followed by a very stunted *rabi* crop, only caused relief works to be opened in March. That the loss of a single crop is not likely to cause severe distress under ordinary circumstances receives further support from the completion report of the relief operations in the district of Dinajpur, which is now before Government, and which shows that the impression of the presence of severe distress, which existed in November and was widespread, was very much mistaken, and that the ordinary cultivator keeps a much larger stock in hand than is commonly supposed. The Lieutenant-Governor attaches the highest importance to the

timely apprehension of distress, but care should always be taken not to raise a false alarm. In a matter like this much must always be left to the discretion of the local officers, but the proper course is with the first indications of distress to open one or more test works, according as the tract which seems affected is small or extensive, regulating them strictly according to the provisions of the Famine Code. No officer should talk of opening Famine Relief Works on mere local reports; he should start works required by the District Board, of an ordinary kind, offering employment to the needy, but on the strict condition that the labour is paid for at piece-work rates, not daily rates, and that the wage given does not exceed the famine wage according to the Code (see Appendix I). If such works on such conditions attract labourers in large numbers, then it may be considered proved that scarcity and distress exist, and that Famine Relief Works should be opened. But it often happens that the small numbers of labourers who will attend such works proves the necessity for relief works to be illusory.

CLASSIFICATION OF WORKS.

3. The terms Civil Agency Works and Professional Agency Works, used in the Code, are not very suitable to the conditions of Bengal, where the Professional Agency, *i.e.*, the Public Works Department, is weak, and the District Officer has at his side the District Engineer and his staff who are able to give professional help in any work he sets going with funds supplied by the District Board. It is necessary, however, to adhere to these terms, which are suitable to other provinces of India, with this explanation:—

Professional Agency Works are works carried out with Provincial funds and under officers of the Public Works Department. They will generally be large works, such as railway branches, canals, &c.

Civil Agency Works are those which are carried out by the Collector, with such help as he requires from the District Engineer and his subordinates, and with funds supplied by the District Board. They include what were formerly called agricultural works, and consist generally, as explained in section 26 of the Code, of the construction of new roads, the raising or enlargement of old roads, the construction or renewal of tanks, drainage channels, irrigation channels, and embankments.

OPENING OF RELIEF WORKS.

4. In deciding upon the character and number of works to be open at any one time, regard should be had to their prospective utility and to the possibility of their completion within or soon after the period of scarcity.

The Bihár experience of this year has shown that tanks are more suitable as relief works than roads as long as the country is dry. If employment has to be given in the rains, it may be necessary to have recourse to roads. But the clearing out and deepening of tanks are often of great permanent utility to the neighbouring country; and it is easier to mass and discipline gangs working on tanks. The number of coolies who can be worked on a tank under the eye of a single overseer would often be spread over many furlongs of road: it is therefore easier to set out their tasks on a tank beforehand and to measure them up afterwards.

In the course of the relief operations in the district of Bhágalpur, it was found to be a mistake to have many works open in the same tract with only a few people on each. It was also observed that many people came to the relief works for a portion of a day only with the view of supplementing the amount earned by them in the fields in the rest of the day. Such a practice destroys the value of the works as gauges of distress, and the way to stop it is to shut up some of the works, leaving only enough to supply sufficient employment to those who are in want.

5. When a public work for which provision has already been made in the ordinary Public Works budget of the year is included in the sanctioned list of Professional Agency works, it is not necessary that the whole of the work should be utilized for relief purposes and brought under the Famine Code. Any portion of it which is of such a character, or requires to be executed with such urgency as to demand the employment of ordinary public works labour at full piece-work rates, should be separated from the portion

utilized as a relief work and should not be open to labourers admitted on the work simply for purposes of relief. On the portion retained as a relief work, the wages of able-bodied labourers, however skilled, should not exceed the amount in money which is equivalent to the full famine wage.

Classification of Workers.

6. During the recent operations it was found that the classification practically adopted on almost all the Relief Works was as follows:—

(*a*) *Persons who were paid by piece-work.*—A pit containing so many cubic feet of earth was measured off for a gang of labourers, and when it was finished they were paid the stipulated sums, provided that they did not thereby receive more than the maximum daily wage for the number of days employed on the work. Each such gang should contain both men and women; the general distribution of work being that the men cut the earth and the women, or children, carry it.

(*b*) *Persons who were paid by task-work.*—Their work was similarly demarcated for them, and they were stimulated to do what was held to be a fair day's task for people of their calibre for a three-quarter wage. If they did less, they were fined, but never got less than the minimum wage.

(*c*) *Persons who were paid by daily labour.*—Their work was not measured, but they were encouraged to do what they could, and they received the minimum wage.

This classification was adopted by almost all the officers engaged in relief work, and was in accordance with facts, and His Honour directs that, till further orders are issued, labourers on relief works should be classed in this way, and the daily register and the weekly return sent into head-quarters should be filled up on the understanding that classes A, B, and C are interpreted as above. All able-bodied labourers should be put in the first class, and the second class should be confined to those who have not been accustomed to earthwork, or who are temporarily unfeebled by want. As soon as they grow strong and skilful enough to earn a full wage by piece-work, they should be transferred to the A class. It should be distinctly understood that classification by castes, or even the system laid down in section 31 of the Code, is entirely superseded by the above classification.

7. Children, that is, young persons of either sex, who are approximately below 14 years of age, should be divided into two classes, big children (say above 8 years) and small children. The former handle a kodali or carry a small basket; the latter often carry clods of earth on their heads, but hardly assist appreciably in the outturn of work. They should, however, be counted in the muster-roll and should receive a small wage.

Piece-work.

8. The system of piece-work is encouraged by section 35 of the Code, but only faintly. The reason is that the Code contemplates advanced and severe distress. But when distress has been taken in time and the people are as fit to work and as strong as they ever were, piece-work should not only be encouraged, but insisted on as the general rule, and should ordinarily be paid by the gang.

9. In distributing labourers into small gangs, officers in charge of relief works should select an able-bodied labourer to be the head of the gang, but should let the groups of workers arrange themselves into gangs. In this way the excess work of the strong members of a family will go to make up the short work of the weak members. A system like this was adopted in the district of Bhágalpur, and was found to be liked by the labourers, who took into their gangs members of their own families (using the word in its extended Indian sense) who could not by themselves earn the maximum wage. This readiness of the people to help their weaker relations is deserving of all encourgement.

Each gang should have a pit marked off for them of a certain length, breadth and depth, which will occupy them at least one day, and efforts should always be made to measure and pay daily or every second day, and to measure and pay during the week for all the work done during the week.

THE AMOUNT OF WORK TO BE DONE.

10. The following formula, which has been invented by Mr. W. H. King, Inspector of Local Works, Patna Division, has worked out well as regards all road work, and also in tank work, where the lead is short. It is, however, a little too liberal where the lead is long, and in such cases has had to be reduced. For all other works it is fair.

$R = W\left(A + \frac{L+50}{125}\right)$ in which—

R = the rate per 1,000 cubic feet, lift not exceeding 5 feet.

W = the daily wage as calculated under Chapter XIV of the Famine Code (see Appendix I).

A = a co-efficient varying from 6·66 for soft, to 10 for hard soil which can be dug with a *kodali*.

L = the lead in feet taken in multiples of 50 feet, as 100, 150, 200, &c.

As an example, let it be assumed that in a certain case the daily wage is 5 pice, that the soil is soft, in which case A = 6·66, and that the lead is 100 feet; then—

$R = 5\left(6{\cdot}66 + \frac{100+50}{125}\right) = 93{\cdot}3$ pice=Re. 1-7-4 per 1,000 cubic feet. Here it would suffice to fix the rate at Re. 1-8 per 1,000 cubic feet.

The formula is based on the assumption that—

(1) a man can cut 100 cubic feet of hard soil in a day; 150 of soft soil;

(2) a man can carry 125 cubic feet of soil for 50 feet in a day with a five-foot lift;

(3) he can carry the same quantity for an additional 100 feet in another day.

Allowing for a woman doing a little less carrying than a man, the following rule may be laid down:—

A man and a woman working together can cut and carry 100 cubic feet for a 50-foot lead, and a man and two women can do the same for a 150-foot lead. Therefore, the piece-work rate for 100 cubic feet should be the maximum ration wages for a man and woman for a 50-foot lead, and similar wages for a man and two women for a lead exceeding 50 feet, or a lift exceeding 5 feet.

11. In the case of task work, which is only permitted for persons of a slightly inferior physique, it will be necessary to allow a further margin; for instance, it might be said that 100 cubic feet is the daily task for one man and two women (or a man, a woman and a child), and a similar addition should be made for any increase in the lead. Each labourer should be made to perform a certain amount of task-work each day before the wage is paid.

THE WAGE.

12. The mode of calculating the wage, *i.e.*, the value of the full or portional ration, is described in Chapter XIV of the Code. It is not, however, desirable ever to fix the wage in pies, a coin not commonly used in the villages. Nor is it desirable, having once fixed it, to raise or lower it according to any minute variations in the market, that is, by less than a pice at a time. During the recent scarcity prices were so even over the whole distressed area that it was found possible to fix a uniform wage for all districts in Bihár and North Bengal, and thus to avoid the danger of emigration from the neighbourhood of home to a district where the labourer might be told he would receive a higher wage. The only difference that seemed needful to make was this, that where cheaper grain, such as *marwa*, *kurthi* or *makai*, was procurable and was the customary food of the people, the calculation was made for a ration compounded of those grains, or for a ration compounded half of rice and half of some cheaper grain, and not for rice alone. Details are given in Appendix I, showing how the different value-rates were worked out.

13. The Lieutenant-Governor accordingly decided that the following wages should be given, and His Honour thinks that they should be adhered to till further orders, so long as common rice varies between 10 and 12 seers per rupee, and pulses cost about 12 seers. If rice rises permanently below 10 seers, and is the only food of the people, one pice should be added to all the figures in the A class.

A.—In districts where coarse rice is the usual food, or the only food easily procurable—

		Man.	Woman.	Big child.	Small child.
		Pice.	Pice.	Pice.	Pice.
Full ration wage	...	6	5	3	2
Three-quarter wage	...	5	4	2	1
Minimum wage	...	4	3	2	1

B.—In districts where cheaper grains are procurable and are the usual food of the labourers—

		Man.	Woman.	Big child.	Small child.
		Pice.	Pice.	Pice.	Pice.
Full ration wage	...	5	4	3	2
Three-quarter wage	...	4	3	2	1
Minimum wage	...	3	2	1	1

The Commissioner of the Division should decide whether a district should be classed as A or B.

It will follow from this that the piece-work and task-work rates should be fixed, so as to approximate as nearly as possible to the following figures:—

	Per 100 cubic feet with a 50′ lead.		Per 1,000 cubic feet with a 50′ lead.	
	A districts.	B districts.	A districts.	B districts.
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
Piece-work ...	0 2 9	0 2 3	1 11 6	1 6 6
Task-work ...	0 3 3	0 2 6	2 0 6	1 9 0

with five and four pice added in A and B districts, respectively, for every additional 100 feet of lead.

These figures, however, are given only as a general indication, and in order to attain some degree of uniformity and avoid such differences as a recent report disclosed, where one district was paying for piece-work 1 anna per 100 cubic feet and another was paying 3 annas. It is not intended hereby to fetter the discretion of District Officers, who must fix the rates for piece-work on the basis of actual observation of what the labourers can and do earn.

14. It should be understood, in case professional workers, like *beldars*, *nunias*, &c., who could perhaps do double the calculated tasks in a day, come on the works, that no one is permitted to earn more in a day than the maximum daily wage as above calculated. When men have done enough to earn six pice, they should stop working, or, at any rate, should not be paid for doing more, and it should be distinctly understood that the orders as to the rate of wages are imperative and are to be strictly observed.

15. Prices must, however, be carefully watched, and if any rise or fall in the market rates, sufficient to alter the calculated value of the ration-wage by one pice, takes place, the alteration should be made by the District Officer, and reported immediately for the approval of the Commissioner, and the fact should be noted in the next half-monthly report.

16. These figures apply mainly to the task of cutting and carrying earth as in excavating a tank or in throwing up a raised road. In the latter case the work of patting and consolidating the earth should be given to C, that is, daily labour people; the final dressing and making up must be done by the practised workmen of the District Engineer, not by relief labour.

Registers and returns connected with relief works.

17. Four registers are required on a relief work—

(1) Muster-roll of labourers. On this the attendance of the labourer for every day of the month will be entered. The arrangement should be—*firstly*

the mate in charge, and *secondly*, the village: under each village the names of the labourers should be entered, with the caste and class and description of each (*i.e.*, men, women, big child, or small child, and A, B or C): a mate can generally hold charge of about 100 labourers.

(2) Muster-roll of infirm dependents allowed on the work under section 53 of the Revised Code, receving the minimum wage.

(3) Measurement-book for piece work or task-work. This shows the people by gangs, and the work done each day. Each pit should be numbered, and the number given it in the book should be scratched on the bottom of the pit, so that an Inspecting Officer coming round within the next two or three days may be able to test the entry in the book by actual measurement.

(4) Daily Register, showing for each day of the month the number of labourers, A, B, and C, the work done, and the money paid. (This supersedes Form 1, page 32 of the Famine Code.) The total of column 24 in this register should agree with the daily total of the muster-roll, and the figure in column 11 should agree with the total of column 5, in the measurement-book.

Copies of these forms, filled up with exemplar figures, will be found in Appendix II, as forms, 1, 2, 3, and 4.

18. The Daily Register should be written up every day by the relief-work officer; and, on the evening of the last day of the week as fixed by the District Officer, he should send a copy of the week's figures to the District Officer or the officer to whom he is immediately subordinate, arrangements being made that the return may certainly reach the district head-quarters by Monday evening. This may be effected by sending in a special messenger or by the district dák. If necessary, a staff of dák runners may be put on for the purpose and charged to the Zemindari Dák Cess. This copy of the Daily Register supersedes Form No. 2, page 33, of the Famine Code.

Gratuitous Relief.

19. As a general rule, when distress begins, relief works should first be undertaken, and if it is found that there is a demand for relief to the men, then gratuitous relief should be afforded to the widows, sick and children. This is, however, to be taken only as a broad and general guide. Sir Charles Elliott does not wish to lay down any hard-and-fast rule in the matter. There may be cases in which gratuitous relief is immediately required and in which the local officers should use their own discretion. It should never be given to able-bodied men, nor to able-bodied women who can find work.

20. In this province flour not being commonly used, the dole prescribed in section 22 of the Code should be of rice, Indian corn (*makai*) or any cheap millet procurable in the market. Where the cheaper grains can be easily procured, and are commonly eaten by the people, the dole may be confined to them; elsewhere it may consist half of rice and half of *makai* or other cheaper grain, if procurable.

21. Where some work, such as cotton spinning and carding, is done in return for gratuitous relief, under section 22 of the Code, the payment for this kind of relief work may be made in cash, provided the amount earned does not exceed the value of the average minimum ration.

22. Three registers of gratuitous relief are required, viz.—

(1) Register of Gratuitous Relief (Form 5). It shows, village by village, the name of each recipient, and age and sex and caste, causes of disability, and the signature of the investigating officer. It provides also for the removal of the name.

(2) Muster-roll (Form 6), which shows briefly who attended at each distribution, the total number, and the amount distributed.

(3) Register of issues of material to be worked up (Form 7). This shows the register numbers of those who receive cotton to spin or any other work of the kind, the quantity given out and the quantity returned, with date.

23. Each person entered in the register of gratuitous relief should receive a stout cardboard ticket, about four inches square, showing the circle number, village number, and name.

24. The officer in charge of this form of relief must send in weekly a return in Form No. 9 showing the number of persons on gratuitous relief—men,

women and children, and the amount disbursed. This must be made up to the close of the last day of the week as fixed by the District Officer, and must reach the district head-quarters not later than Monday evening. The arrangements for forwarding this return will be the same as those described in paragraph 18 above.

25. The Lieutenant-Governor has found that the practice recommended in section 22 of the Code, of giving to the paupers tickets entitling them to receive the dole from a *bania*, is not approved in this province. During the recent relief operations the practice everywhere was to make the distribution at fixed centres on a fixed day before a responsible officer, such as a Deputy Collector or Sub-Deputy Collector. This is undoubtedly the better way, so long as the numbers are small enough to admit of it.

26. The Lieutenant-Governor has noticed an impression that gratuitous relief cannot be withdrawn till prices fall. His Honour is of opinion that there should be a general decrease in the distribution of such relief as alarm disappears, and people, becoming more assured of the crop about to be harvested, begin to open their purses with their wonted liberality.

27. The poor-house, as described in Chapter V of the Famine Code, is only required when famine is severe and the remedies of relief works and gratuitous relief at or near their homes, are insufficient. No poor-house should be constructed or opened without the sanction of the Commissioner of the Division.

Importation of grain by Government.

28. Importation of grain by Government for sale or distribution in affected tracts is an expedient which should never be resorted to except under very special circumstances; and without obtaining the previous orders of Government, no depôt should be opened nor any action taken that will give rise to the idea that Government is going to import grain or to interfere in any way with the freedom of trade.

Reports and Returns sent by District Officers to Government or to the Commissioner of the Division.

29. In a circular, No. 15T.—R., dated the 6th June 1892, issued by this Government, District Officers were asked to warn Government demi-officially at the earliest possible moment of any probability of shortness of crops likely to lead to distress. The first official indication of failure of harvest or scarcity in any district is communicated in the ordinary weekly telegraphic weather and crop reports submitted to Government by every District Officer. These should be supplemented by half-monthly reports, as prescribed in section 9 of the Famine Code, when apprehension arises that relief measures may have to be undertaken.

30. When relief operations have been actually commenced, and during their continuance, the District Officer has to submit the following reports and returns:—

I.—A weekly telegraphic report, which shall be submitted so as to reach the Under-Secretary to Government in the Revenue Department in Calcutta on Tuesday, showing the number of men, women, and children (1) on relief works and (2) on gratuitous relief on the preceding Saturday. If the Sub-divisional Officer is on the telegraph line, he may telegraph his report direct to the Local Government; if not, he shall send his report to the District Officer in time for the latter to telegraph it to the Local Government. The message shall be in this form:—

Sub-division.

Relief works ...	Men	Women	Children.
Gratuitous relief ...	Men	Women	Children.

The figures of the first line will be supplied from those against the last day in the week in the return sent in by each relief work officer under paragraph 18 above, and those of the second line from the figures sent in by each officer in charge of gratuitous relief under paragraph 24 above.

They shall be given for the Saturday preceding if possible, but if any relief work is so situated that the information for Saturday cannot reach the Sub-divisional Officer or the District Officer in time for it to reach the Local Government by telegraph on Tuesday, then the figures shall be given for Friday or such latest day as can be given under the conditions prescribed, the exact date being fixed by the District Officer for each relief work and relief circle with reference to its distance and the route which the return has to take. Punctuality in the receipt of the two returns at head-quarters on Monday, and in the despatch of the telegraphic report to Government on Tuesday, is essential, as on it depends the ability of this Government to comply with the orders of the Government of India, which require a report every Wednesday.

II.—The second is a half-monthly report required under section 9 of the Famine Code. It should be despatched not later than the 2nd and 17th of each month, so as to reach the Commissioner of the Division by the 3rd and 18th, and Government on the 5th and 20th of every month positively. In every three months five of these reports will be based on the weekly figures of two weeks, and one on the figures of three weeks. Each report should therefore begin by saying: "The figures of this report relate to figures of the weeks ending so-and-so and so-and-so." Matters requiring orders should, however, be promptly reported as the occasion arises, without waiting for the half-monthly report.

Besides the particulars indicated below and in section 9 of the Code, the first half-monthly report which is submitted should contain an account of the economic condition of the affected tract or tracts in ordinary times, and of the crops affected and the extent to which they have suffered; the contingencies on which the probable duration of distress depends; the position of the affected area as to local trade, food-supply and communications; and any other general information likely to be instructive. A fresh general report is required for all new tracts which may become affected subsequent to the submission of this report. If the information is not available when the first report is submitted, it should be given in the next subsequent half-monthly report.

When the condition of the district outside the tract marked as affected undergoes any change for better or worse, the fact should be noticed in the half-monthly report.*

The half-monthly report should be accompanied by the following statements:—

i.—An abstract (to be called Famine Statement D) of the Daily Register drawn up in Form 8, to show the average number of labourers (A, B, C and total), the total earthwork done, the number of dependents, and the total expenditure. It is necessary that this statement should always accompany the fortnightly reports, and should show figures for the two weeks separately. Where the works are large and not too many in number, figures may be given for each work; but where they are small and numerous, the figures may be given for each relief circle, or by thána or sub-division, as may appear suitable, only the total number of works in each such area being shown. In the form prescribed, specimen entries and calculations will be found to show what is required by Government. The District Officer should first ascertain the daily totals and then deduce the averages in the way in which they have been arrived at in the example statement.

ii.—A statement of gratuitous relief drawn up in Form 9 to show, for each week separately and also for the whole period covered by the report, the number of men, women and children receiving gratuitous relief and the cost of the relief. If there are distinct circles, figures should be furnished for each circle separately. Averages should be given for each week, but where the total number appear only once a week and get seven days' rations, the total is itself the daily average.

iii.—A combined abstract statement of relief works and gratuitous relief, to be called Famine Statement E. This is to show, for each week separately, the number of A, B, and C class male units on relief works, the work done by each male unit per diem, the wage earned, the cost per thousand cubic feet, the total amount disbursed on relief works, the number of adult units in receipt of gratuitous relief, the average dole, and the money expended on gratuitous

relief. It should be drawn up in Form 10, women and children, classed as A, B, and C labourers, being reduced to the adult male unit by taking each woman as three-fourths, each big child as one-half, and each small child as one-fourth of a man. For gratuitous relief each adult, whether male or female, counts as a unit, and each child as a half.

The information to be furnished in this statement will not only be statistically useful, but will also be of great administrative importance and should enable the controlling officer to check at once any wrong figures furnished as to the rise or fall in numbers, any differences or signs of inefficiency as regards the amount of wage, or work done, or cost of work, &c.

iv.—List of prices of principal food-grains. Ths prices prevailing in a few of the chosen stations in the district should be shown in so many seers for a rupee. It will be sufficient if the figures for the fortnight under report and those of the previous fortnight are given; of rice, the price of coarse varieties or *mota chaul* should be given.

v.—Statements, in Forms 11 and 12, of imports and exports by railway of food-grains, if any.

31. With the second half-monthly report for each month (which is to reach Government by the 5th of the next month) a map, on the scale of from 8 to 16 miles to an inch, showing the affected area in the district, should be submitted in duplicate, the tracts seriously affected being coloured dark blue, and those slightly affected, light blue; but no map is required unless relief works have been opened in the district. Skeleton maps for the purpose should be obtained on indent from the Surveyor-General. This half-monthly report should also be accompanied by the following statements for the entire month, in addition to those enumerated above:—

i.—Statement A, to be drawn up in Form 13. The first five columns of this statement should be filled up once for all. Columns 6, 7, 8 are the total numbers of A, B, and C labourers on the last day of the last week of which the return has been received, and column 9 will be the figure in columns 17 and 18 of the weekly return for dependents. Column 11 will contain the daily average number receiving doles in the last preceding week. In columns 12, 13, 14 should be entered coarse rice and such other cheap grains as are used for food by the labourers, *e.g.*, *marwa*, *kurthi*, *makai*, at present. Particular attention is invited to columns 15, 16, and 17 of the statement, which should always be filled up. Columns 15 and 16 should show the monthly death-rate per thousand to be given by calendar months from returns received by Civil Surgeons. It is hoped that in the report for the last-half of the coming month there will be no difficulty in giving the death-rate for the preceding month, that is to say, the statement A appended to the report for the last-half of May should show the death-rate for April, and so on. In the body of the report a paragraph should be devoted to this subject, in which should be stated both the number of deaths and the death-rate per mille, and this not only for the entire district, but also for each thána which is situated in a part of the district affected by scarcity. If the death-rate rises to an abnormal ratio—and, generally speaking, a ratio above 40 per mille per annum may be considered abnormal—special pains should be taken to look into the causes of mortality, and to show what are the ratios of deaths due to the principal different diseases. Any cases of reported deaths due directly or indirectly to starvation should be treated of in this paragraph of the report. If no deaths have occurred due to starvation, the word 'nil' should be entered in column 17.

If any death from starvation or any increase in the death-rate comes to notice when the report for the first half-month is submitted, a similar paragraph should be added to that report.

ii—Statement B to be drawn up in Form 14.

Columns 1 and 2 of the statement will be filled up once for all; column 3 will be blank so long as the programmes are not gazetted.

Column 4 will show works employing 300 persons and over daily for three months; column 5, smaller works.

Columns 6 and 7 will be columns 4 and 5 *minus* the numbers shown as employed on relief works from the beginning up to date. Columns 8, 9, 10, 11, 12 will henceforth contain figures of expenditure, starting from the 1st April.

Column 13 will not be filled up, unless the land revenue has been suspended by a definite order of Government or of the Board of Revenue.

A foot-note should be added to statement B, stating the total expenditure that has been incurred and the advances that have been made during the financial year previous to that to which the report belongs.

32. The Government of India wish to have information of such relief works undertaken as will assist the water-supply of the country, viz., tanks, wells, or other irrigation works, and the number of persons employed thereon. This information should be specially given in the second half-monthly report, which should also show the amount of loans, if any, advanced for such purposes.

33. When relief operations have been closed in any district, a brief and succinct report covering the whole of the operations should be compiled from the half-monthly reports previously sent, and submitted to Government through the Commissioner of the Division. The report should be accompanied by statements in Form 15, showing the numbers of persons on relief, the work done and the amount of relief given each week from the beginning to the end of the operations. The monthly statements A and B prescribed in paragraph 31 above should also be included, as well as price-lists showing the cost of the chief food-grains for each week, and information as to importation and exportation of food-grains and as to the death-rates and the principal causes of death during each month of the distress. A list of the works completed during the period of distress, and of those left unfinished, should also be submitted with the report.

34. *Summary.*—The relief-work officer has to keep the following registers:—

(1) muster-roll of labourers, Form 1;
(2) muster-roll of infirm dependents, Form 2; and
(3) daily register, Form 4.

He has also a measurement-book (Form 3) for piece and task works, and has to send to his immediate superior a weekly return, being a copy of the entries made in the daily register, Form No. 4, for the seven days.

The officer in charge of gratuitous relief has to keep—

(1) a register of gratuitous relief, Form 5;
(2) a muster-roll, Form 6; and
(3) a register of issues of material, Form 7.

He has to send in a weekly return in Form No. 9 showing the number of men, women and children on gratuitous relief and the amount disbursed.

The District Officer has to submit to Government direct a telegraphic report on every Tuesday (paragraph 30 above). He has also to submit through the Commissioner two half-monthly reports every month—

(1) One on the 17th, accompanied by—
i. Statement D, Form 8;
ii. Statement of gratuitous relief, Form 9;
iii. Statement E, Form 10;
iv. List of prices; and
v. Statements of imports and exports of food-grains, if any, Forms 11 and 12;
vi. A map of the distressed area.

(2) The other on the 2nd, accompanied by the same statements (*i* to *v*) shown above under head (1) and also by the following statements for the whole month:—
vi. Statement A, Form 13;
vii. Statement B, Form 14.

When relief operations have been closed in any district, he has to submit a final report through the Commissioner (paragraph 33).

35. The forms prescribed in this Resolution are given in Appendix II.

ORDER.—Ordered that this Resolution with its appendices be published in the *Calcutta Gazette*, and that copies of it be forwarded to all Commissioners of Divisions, to the Public Works Department of this Government, and to the Director of the Department of Land Records and Agriculture.

By order of the Lieutenant-Governor of Bengal,

W. MAUDE,

Offg. Secretary to the Govt. of Bengal.

APPENDIX I.

(To Bengal Government Resolution No. 737T.—R., dated 5th October 1892)

BASES OF CALCULATING THE MONEY-VALUE OF THE RATION-WAGE.

The principal item of food being per rupee.	Seers 18.	Seers 17.	Seers 16.	Seers 15.	Seers 14	Seers 13.	Seers 12.	Seers 11.	Seers 10.	Seers 9.	Seers 8.

8	Ditto ...	Do. ...	S. C.	B.	p.	a.	p.	a.	p.	a.	a.	a.																						

N.B.—This roll is to be written up by the officer in charge of the work or by the mate every morning.
Column 1.—Should contain a serial number for all the villages in one mate's charge.
Column 4.—Enter M. W., B. C. and S. C., for men, women, big child and small child.
Column 5.—Enter A. B. or C. according to class of work performed.
Column 6.—Enter p. for present and a. for absent, or corresponding letters in Kaithi, or else enter here, for those present, the letter A, B or C, leaving a blank for the absent. This will enable the officer to show when a labourer has been moved from one class to another during the month.

FORM No. 2.

Muster-roll of infirm persons and dependents present an relief work under section 53 of the Famine Code, but doing no real work.

1	2	3	4	5	6	7																													
						Entry of attendance.																													
Serial number.	Name.	Name of village.	Caste.	Description.	Age.	1st April.	2nd April.	3rd April.	4th April.	5th April.	6th April.	7th April.	8th April.	9th April.	10th April.	11th April.	12th April.	13th April.	14th April.	15th April.	16th April.	17th April.	18th April.	19th April.	20th April.	21st April.	22nd April.	23rd April.	24th April.	25th April.	26th April.	27th April.	28th April.	29th April.	30th April.

N. B.—This is to be written daily by officer in charge of the relief work.
Column 5.—Enter M. or W. for man or woman. There will be no children in this list, because paragraph 7 of the Resolution contemplates that all children should be put to light work.
Column 7.—Enter p. for present, a. for absent, or corresponding letters in Kaithi, or if preferred enter the number of pice paid to each person present under each date, instead of p., leaving a blank where he is absent.

FORM No. 3.

MEASUREMENT BOOK.

Name of relief work ... ... Kahatpur tank.

A separate register in this form should be kept by every mate, and the total of the returns of the different mates should be entered by the officer in charge in this register every evening. If work is not measured up and paid for daily, entries in columns 11, 12, and 25 should be made whenever the measurements and payments are made.

FORM No. 5.

REGISTER OF GRATUITOUS RELIEF.

Name of Circle—Khairátábad.

Village Akálpur.

Distance and direction of village from circle head-quarters—5 miles, south-west.

Serial number for circle.	Serial number for village.	Name.	Caste.	Sex.	Age.	Cause of disability. (See sections 20 and 21 of Code). Lunatic.	Cripple.	Blind.	Decrepit through age.	Pardanashin woman.	Other cause	Admitted. Date.	Admitted. Signature of officer.	Removed. Date.	Removed. Signature of officer.	Cause of removal.

FORM No. 15.

Form of statement to be submitted with Final Report.

Column.	Heading.	Explanation.
1.	District.	
2.	Week ending	In this column show the different weeks for which relief works were open from the beginning to the end of the operation.
3.	Description of work ...	In this column the name of each work is not wanted, but only the number of tanks, or of roads, open during each week, *e.g.*, "seven tanks and three roads" If the works are very numerous, the name of the thána or circle should be inserted and the number of works in each thána or circle should be shown.
4.	Average number of A and B male units employed daily.	This column will give the total number employed divided by the number of days in the week during which works were open.
5.	Total amount of work done by A and B labourers in cubic feet.	This column will show the total amount executed during the week.
6.	Total amount of wage paid to A and B labourers.	This column gives the total payment disbursed during the week
7.	Average work done per man ...	Column 5 divided by column 4.
8.	Average wage earned per man ...	Column 6 ditto 4.
9.	Average cost per 1,000 cubic feet ...	Column 6 ditto 5.
10.	Total number of C male units during the week.	
11.	Total wage paid to C labourers during the week.	
12.	Average wage per C labourer per diem.	Column 11 divided by column 10.
13.	Total number of adult units in receipt of gratuitous relief.	
14.	Total cost of gratuitous relief.	
15.	Average cost per head ...	Column 14 divided by column 13.
16.	Grand total outlay on relief ...	Total of columns 6, 11, and 14.

RESOLUTION ON THE REPORT OF THE COMMITTEE FOR THE MANAGEMENT OF THE CALCUTTA ZOOLOGICAL GARDENS FOR THE YEAR 1891-92.

REVENUE DEPARTMENT—MISCELLANEOUS.

Darjeeling, the 7th October 1892.

RESOLUTION No. 714T—R.

READ—

The Report of the Honorary Committee for the management of the Calcutta Zoological Gardens for the year 1891-92.

The total actual receipts of the Gardens, excluding the opening balance, amounted to Rs. 43,226 against Rs. 40,337 in the previous year; and the total expenditure increased from Rs. 35,330 in 1890-91 to Rs. 46,548 during the year under report, the increase being mainly due to large expenditure on works of permanent improvement, which are all useful. The closing balance at the credit of the Gardens was Rs. 4,298.

2. The number of visitors who were admitted to the Gardens amounted to 116,382, exclusive of a large number of students and children admitted free of charge. With the exception of the year 1890-91 (which was the year of the bathing ceremony among the Hindus in connection with the *Ardhodoy jog*), this number compares favourably with those of the five preceding years.

3. Altogether 233 additions were made during the year to the collection of animals in the Garden (including 89 mammals, 124 birds and 20 reptiles), of which 22 were born in the Gardens, and the rest obtained either by presentation or by purchase or exchange. Among the more important acquisitions were another Greater Bird of Paradise; a consignment of exotic animals consisting of 1 Puma, 2 Coypur rats, 2 Capybaras, 2 Peccaries and 2 Mexican Guans; a pair of wild donkeys from Sind, and four Houbara Bustards; a number of Arabian Gazelles presented by His Highness the Nawab Bahadur of Murshidabad; and a number of fine Gyals from Cachar.

4. One of the greatest desiderata in the Gardens was supplied by the construction of the Reptile-house during the year under report. As such a building required considerable expense, and could not be provided from any of the ordinary sources of Garden income, an appeal for subscriptions was made by the Committee in January 1891. The Lieutenant-Governor is glad to learn that subscriptions aggregating Rs. 23,750 have been realized; the thanks of the public are due to those native noblemen and gentlemen who have so liberally contributed to the funds for this building.

5. The Lieutenant-Governor tenders his thanks to the members of the Committee for their efficient management of the Gardens during the year.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Honorary Secretary to the Committee for information, and that it be published in the official Gazette.

By order of the Lieutenant-Governor of Bengal,

W. MAUDE,

Offg. Secretary to the Govt. of Bengal.

RESOLUTION ON THE ANNUAL GENERAL ADMINISTRATION REPORT OF THE CHOTA NAGPUR DIVISION FOR THE YEAR 1891-92.

GENERAL DEPARTMENT—MISCELLANEOUS No. 2867.

Calcutta, the 10th October 1892.

RESOLUTION.

READ—

The Annual General Administration Report of the Chota Nagpur Division for the year 1891-92.

THE report has been submitted by Mr. A. A. Wace under the disadvantage of having assumed officiating charge of the division after the expiry of the year to which the report relates, the only notes left him by his predecessor, Mr. Grimley, who held charge of the division for the whole year, with the exception of three months, from August to November, when he was on privilege leave, being a very detailed description of his own movements in his tours through the division, which lasted almost without interruption from the 11th November to the 24th March. Complete inspections were made by him of all District and Sub-divisional offices, and the chief matters which came under his notice in the different places have been recorded in the account of his tours. Mr. Grimley's journey was marked throughout by a very free and commendable intercourse with the chiefs and zamindars whose lands lay on or near his route. It is, however, to be regretted that he was unable to visit any of the Tributary Chiefs in his jurisdiction. As far as the report shows, Colonel Lillingstone who officiated for three months as Commissioner made no tour at all.

The full amount of touring laid down in the Government orders of October last was completed in the case of all districts and sub-divisions, with the exception of Lohardaga, where the prescribed minimum of 120 days was fallen short of by no less than 33 days. The explanation given is that the district was in charge of three different officers between November and March, and that there are great difficulties in touring there in the hot weather and rains. This is no doubt a valid excuse to a certain extent, but is not sufficient to account for so large a shortcoming. A complete survey of the district was particularly desirable in Lohardaga, where circumstances render it especially desirable that the attitude and feelings of the people should be carefully enquired into.

In the sub-division of Gobindpur in Manbhum, Babu Mohendra Nath Mukherji, who held charge as Sub-divisional Officer throughout the year, spent 120 days on tour; and that this can be done without interfering with the general work of the sub-division is evidenced by Mr. Grimley's inspection remarks. He writes: "I inspected every branch of the office, and the result was generally creditable to Babu Mohendra Nath Mukherji. The registers were properly kept, with the exception of the attendance register; and the Board's rules regarding the arrangement and classification of correspondence were fairly well observed. On the Magistrate's side the disposal of cases was exceedingly satisfactory, there being only one pending case." This inspection was made in February in the height of the camping season.

All district offices, with the exception of Palámau, which only became a district from the 1st January 1892, were thoroughly inspected twice by the Deputy Commissioners. Owing to the Government orders having only been received late in the year, the Deputy Commissioners did not inspect their sub-divisions twice; and it is observed that the sub-divisional office of Palámau was not inspected at all by the Deputy Commissioner of Lohardaga between April and December, when it ceased to be a sub-division.

Weather and crops.

2. As in other parts of Bengal, the conditions of rainfall were peculiar, the early rainfall in May being very heavy, while from September onwards the rainy season may be said to have practically ceased altogether. The result was a poor outturn both of the *bhadoi* crops and of rice, but there was a compensation in an excellent crop of mahua, which in these divisions forms an important article of food for the poorer classes, and a good outturn of sugarcane and opium in the districts where these crops are grown.

In discussing the material condition of the people, Mr. Wace refers to an increase in the reported numbers of emigrants from Lohardaga as a sign of pressure. The numbers given are 6,147, of whom 3,301 were emigrants under Act I of 1882, and 2,847 non-Act emigrants, against 4,964 (4,621 under Act I and 343 free emigrants) in the previous year. It seems doubtful, however, whether much faith can be put in the figures, as only a few of the free recruiters gave any returns. In 1889-90 the figures recorded were 18,870 (5,738 Act and 13,135 non-Act for this district, a number which far exceeds the figures of the past year. "Against this sign of pressure," the Commissioner writes, "are to be set the facts that the simple luxuries of the people were not limited, and that there was a large development of the excise revenue." The district officers of this division deserve credit for having anticipated the wishes of Government in the matter of inspecting the depôts for free emigrants; and the system they have introduced is now about to be definitely prescribed by Government under Act II (B C.) of 1889. Colonel Evans Gordon, who is now Deputy Commissioner of Lohardaga, reports that the raiyats are in fairly good case, but attributes it to their withholding their rent and investing the amount in loans at 24 per cent. or thereabouts, "knowing that the decree in the future will only carry 6 per cent. against him." From this practice, he says, the zamindar suffers, and the material condition of the landlords is lamentably bad. Mr. Wace thinks that this is crediting the Chota Nagpur raiyat with an excess of prevision. It is far more likely that he spends at once what he withholds from his landlord, but at the same time there seems to be no doubt that a very large amount of rents has been kept back during the last year; and that the condition of the landlords has materially suffered thereby.

"Mr. Renny writes that during his cold weather tour he ascertained that a common cooly is often paid at 4 to 5 annas per diem at both mining and timber trade centres, and that the people of the district are so very apathetic and backward that they cannot be induced to work even at these rates. In Manbhum, notwithstanding the completion of the railway works, the rise in the prices of labour, which was due to the demand created by the railway, has been still maintained."

In general health the division shows a marked decline from the preceding year, the ratio per mille having increased in every district, and in Lohardaga from 18·9 to as much as 27·9. The total number of reported deaths in the division for 1891-92 was 116,182, being a rate of 24·3 per thousand against 19·7 in the previous year. No doubt the registered figures, here as elsewhere, are below the truth.

Manufactures and Mines.

3. The tea industry shows a marked decrease both in the number of gardens, which declined from 36 in 1890-91 to 29 in the following year, and in the outturn, which declined from 520,084lb. to 468,892lb. With regard to this the report states as follows:—"The gardens here have in a great measure lost the only advantages they ever possessed, viz, cheap and abundant labour, and soil and climate do not appear to be suitable, the former being not sufficiently rich nor deep, and the latter being too dry and uncertain."

The manufacture of lac, which has hitherto formed an important article of commerce in the Lohardaga and Manbhum districts, seems to be also on the decline, the figures of value manufactured, shown for the year 1891-92, being only Rs. 1,59,200 against Rs. 4,01,088 in 1889-90 and Rs. 4,60,194 in 1890-91. On the other hand, the value of tusser silk manufactured from the cocoons produced in the Manbhum and Hazaribagh districts rose from Rs. 42,160 in 1889-90 and Rs. 44,100 in 1890-91, to Rs. 62,440 in the year under report.

Mining operations have not been in a flourishing condition during the year, with the exception of the coal-mines situated in the Giridih and Gobindpur sub-divisions, and perhaps also of the mica mines in Hazáribágh. The Baraganda Copper Mining Company in Hazáribágh became insolvent during the year, while no striking results have yet been obtained in any of the gold operations. The Nowdiha Syndicate is still boring for silver and lead in the Hazáribágh district, and a tin mining company has started work in Gadi Palganj in the same district, but with no results so far. "Altogether," the Commissioner reports, "the mineral industries of the division have during the year been suffering from the re-action which was bound to follow the extravagant expectations of 1890."

Trade.

4. The chief features of the trade of the year appear to have been a great stimulus in the trade in timber, especially in Singhbhum, a large increase in the imports of salt into Manbhum and Hazáribágh, and a general development of the Manbhum trade owing to the Bengal-Nagpur Railway. The figures which are given as to the trade of different districts are, it is presumed, based more on local reports and general impressions than on verified returns. The only statistics which can pretend to accuracy are those based on the Railway returns of exports and imports at the different stations. A system of trade registration was temporarily established on certain roads, more with the object of learning what their relative importance was than of obtaining general information as to the course and volume of the trade; and when the special object desired has been attained, these establishments should be dismissed. With reference to the course of trade in the less developed tracts of the division, Mr. Waco offers the following interesting remarks:—

"The division seems to me an extraordinary example of India past and present, in the matter of traffic, the east and south rapidly developing all resources under the attraction of the railway; the west and north still very self-contained, pushing out its products laboriously by pack-bullocks, coolies, and carts, over inferior roads and bye-ways, to a few main markets, and drawing in return the few luxuries it needs. The satisfactory feature in the year's returns seems to be an increase in luxuries, even in spite of an indifferent rice crop and high prices."

Administrative changes.

5. Several important administrative changes were effected during the year in this division, the chief being the conversion of the Palámau sub-division of the Lohardaga district into an independent charge under the Deputy Commissioner. This change was effected on the 1st January 1892, when Colonel Evans Gordon assumed charge of the new district for a short period, being succeeded in February by Mr. Bright. A special Subordinate Judge was appointed during the year for Lohardaga, Hazáribágh, and Palámau, and a special Subordinate Judge and an additional Subordinate Judge for Manbhum, and special Sub-Registrars were posted to Ranchi and Palámau.

Civil Courts.

6. The following statement shows the work of the various descriptions of Civil Courts in the Division during the year:—

District.	Sub-division or chauki.	Description of Court.	Number of officers.	Number of original cases disposed of.		Details of cases in columns 5A and 5B.			Number of witnesses attended. 		Total	17	8,284	454	4,714	3,103	921	20,288	·20	·24	Average 852

(a) The Subordinate Judge is also Deputy Commissioner.
(b) The Deputy Commissioner is one of the Subordinate Judges; there are two others, one of whom was appointed only for five months.
(c) These Munsifs also exercise criminal powers.

The unit in column 12 is obtained by taking one title suit as equivalent to three ordinary rent or money suits, and one Small Cause Court suit as one-third of an ordinary suit. The average number of cases disposed of by each munsif on this calculation was 852 cases. The number is small, but seven out of the 12 munsifs exercised criminal powers and tried 1,521 criminal cases. The number of witnesses detained over two days was very large in the munsifis of Raghunathpur, Gobindpur, Palámau, and Chatra, and extremely small in Purulia and Bara

Bazar. The number of pending cases at the end of the year in the courts of the Deputy Commissioner of Hazáribágh and also of the Subordinate Judge of Lohardaga was much too high.

Crime, Police, and Criminal Justice.

7. The information given in paragraph 50 and following paragraphs of the report, as to crime, is somewhat confused. It appears, however, that in cognizable crime there was an increase of 570 cases, due to greater stringency in prosecuting local nuisances and similar offences in Hazáribágh and Manbhum, and to an increase in offences against property in Lohardaga, attributed to the high price of food-grains which prevailed in that district during the second and third quarters of the year. The new district of Palámau, on the other hand, showed a decrease of 37 cognizable cases, which is attributed to fewer burglary cases having been reported, this latter fact being again attributed, later on in the report, to the fact that there is only one Inspector in the whole district, who has to supervise nine police-stations and 11 outposts, the result being a slackness and wholesale suppression of crime on the part of the sub-inspectors and head-constables. The standard of convictions for the division in cognizable crime was 54·2 per cent. against 52·4 per cent. in the previous year. In non-cognizable crime, on the other hand, the percentage of conviction declined from 44·6 to 42·2, 4,479 persons having been under trial in this class of cases, of whom 1,893 were convicted. The weakness of the superior police staff in Palámau has been noticed just above. Of the rural police forces in this division, as in others, varying reports are submitted. In Hazáribágh the number of chaukidars enrolled under Act V (B.C.) of 1887 and under Regulation XX of 1817, respectively, are about equal, while in Lohardaga and Palámau a large majority are under the Act, and in Manbhum, on the other hand, the majority are under the Regulation. The system of collecting the chaukidari cess through tahsildars, under Act V (B.C.) of 1887, seems to have worked well throughout the Division. Besides the above, there are a number of ghatwali police in each district. These latter are reported to have worked well in all districts except Manbhum, where they are said to have been generally useless and in some cases absolutely troublesome.

8. The working of the Criminal Courts was as follows:—

District.	Sub-division or other stations.	Class of officers.	Number of officers.	Cases disposed of.	Persons disposed of.	Ratio of persons convicted to disposed of.	Number of witnesses attended.	Ratio of witnesses detained over two days to total number attended.	Ratio of cases modified or reversed on appeal to total appealed.	Number of A cases disposed of.	Number remanded six times and more.	Average of cases disposed of per officer (column 5 ÷ by column 4.)	Average of witnesses attended per case disposed of (column 8 ÷ by column 5).

		Honorary	1	643	913	·55	1,302	·05	·21	7	......	643	2
	Gobindpur	Stipendiary	1	322	490	·66	2,339	·10	·3	99	9	322	7
	Total	(a) Stipendiary	29	6,406	9,451	......	30,139	·101	·23	2,319	241	252	4·9
		(b) Honorary	9	1,876	2,265	......	3,811	·031	·19	177	12	191	2·1

Among the Stipendiaries 29 officers disposed of 6,406 cases, or an average of 221 cases per officer, with nearly five witnesses to a case; while the average for Honorary Magistrates and Benches was 208, with only two witnesses to a case. The average quantity of work is small, but as before remarked, several of these officers also try civil cases as Munsifs. Among Stipendiaries the largest average of disposals was shown by the Giridih officers, and among Honorary Magistrates by the Hazáribágh and Purulia Benches. The lowest detention of

witnesses was at Chatra, where one in every four was detained over two days. At Ranchi and Purulia the ratio exceeded 10 per cent.

Before the Gobindpur Deputy Magistrate 2,339 witnesses were examined in 322 cases, and before the Hazáribágh Courts 4,202 witnesses in 575 cases, or an average of over 7 per case, which is very large. The work of the Giridih Bench is especially good; out of 250 witnesses who attended none were detained over two days, and though 90 cases were disposed of, none were reversed or modified on appeal. The number of Police cases remanded six times and more was about ten per cent. for the whole division, which is too high. In the Ranchi Courts it was as much as 22 per cent., and the Honorary Magistrate at Ranchi remanded 12 cases out of 17 six times or more, a ratio of 44 per cent. On the other hand, the Giridih Stipendiary Magistrates show only 1 case thus remanded out of 316, and the Chaibassa Bench disposed of all their 105 cases on the first day. Looking to individual officers, the worst figures are as follows:—

	Number of cases.	Number remanded six times and over.
Colonel Garbett	13	6
Mr. Newbould	148	47
Babu Kishen Kali Mukerji ...	135	42
Mr. Brownfield	68	22
Babu Kunj Behari Chatterji ...	47	15

Mr. Wace remarks in this connection that "it is noticeable that those officers 'who were most dilatory have also a large proportion of acquittals against them." This is exactly what is to be expected. If cases are allowed to drag on wearily, and witnesses to be tired out by constant attendances, it is a moral certainty that the dispensal of justice will suffer.

9. In sessions cases the average of convictions was 75·64 per cent., but in the Singhbhum District the proportion was only 50 per cent. The following statement shows the work of the Sessions Courts:—

	District.				
	Hazáribágh.	Lohardaga.	Palámau.	Singhbhum.	Manbhum.
Number committed during the year	23	20	6	7	25
Number disposed of ...	23	23*	6	6	20
Number in which conviction obtained	18	17	5	3	16
Number of above in which sentence modified or reversed by High Court ...	3	1	...	...	...
Number of cases acquitted by Sessions Judge ...	5	6	1	3	4

* Including cases committed in 1890.

The Lieutenant-Governor agrees with the Commissioner in thinking that there is too great a tendency among Deputy Commissioners to commit to sessions rather than make full use of their own powers under section 30 of the Code of Criminal Procedure.

10. The figures of fine realizations are shown by the following table:—

	District.				
	Hazáribágh	Lohardaga.	Palámau.	Singhbhum.	Manbhum.
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs.
Amount due at commencement of the year ...	6,964 7 0	10,435 11 7	1,376 1 1	3,131 5 8	3,338
Amount imposed during the year	10,866 12 0	8,369 14 0	2,756 14 6	5,070 12 0	11,749
Amount collected during the year	10,074 0 10	8,029 7 8	2,044 3 10	4,325 12 9	11,045
Amount pending at end of year	5,467 13 5	7,784 2 7	708 13 6	3,876 4 11	3,832*

* Out of this sum Rs. 210 have been remitted.

The results are fair except in Manbhum, where the balance at the end of the year exceeded that at the beginning.

11. The attendance of Honorary Magistrates was as follows:—

DISTRICT.	Number of times asked to attend.	Number of times actually attended.	Absence with leave or notice.	Absence without leave or notice.	Total absence.
Hazáribágh	806	681	38	87	125
Lohardaga	259	119	30	110	140
Palámau	156	140	3	3	6
Singhbhum	180	72	...	108	108
Manbhum	367	288	15	72	87

The attendance in Singhbhum and Lohardaga is poor. In Palámau it is singularly good, in the other districts good.

Registration.

12. The number of documents registered at the various offices was as follows:—

DISTRICT.	Class of Registration Office.	Number of offices.	Number of documents registered.	Average per office.
Hazáribágh ...	*Ex-officio* ...	1	2,096	2,096
	Rural	2	3,179	1,589
Lohardaga ...	Ex-officio and special	1	3,763	3,763
	Rural	1	1,325	1,325
Palámau ...	Special	1	1,008	1,008
Singhbhum ...	*Ex-officio* ...	1	534	534
Manbhum ...	Special	1	3,691	3,691
	Rural	4	8,407	2,101

The large number of registration in the Manbhum District is attributed by the Deputy Commissioner partly to pressure on the agricultural classes and partly to the growing popularity of the Department. The Lieutenant-Governor has expressed a desire that the *ex-officio* Registrars should make way for special Registrars: the change will it is hoped make registration more popular in Singhbhum.

Land Revenue Administration.

13. The land revenue demand of the division is, for historical reasons, very small and easily dealt with, and the results shown are correspondingly good. Out of a total demand of Rs. 3,89,838 (of which only Rs. 6,830 was arrear demand) Rs. 3,81,562 were collected. This figure is remarkable when contrasted with the statement, quoted above, that the raiyats are generally in arrears with their rents, and that the landlords are suffering in consequence. In Manbhum there are no arrears whatever of land revenue, which would be a very satisfactory state of affairs if it were not necessary to set off against it an outstanding balance on account of Road cess which rose from Rs. 19,093 to Rs. 29,889, or as much as 28·6 per cent. on the gross demand of the year. The following statement shows the demand, collection, and balances in each district of Land Revenue and Cesses. Taking all together, the arrears which were Rs. 55,000 at the beginning of the year came down to Rs. 49,000 at the end. Only one estate was sold for arrears of Land Revenue during the year:—

District.	Class of demand.	Class of estates.	Number of estates.	Demand.		Collections of 1891-92.		Balance on 1st April 1892.	
				Current.	Arrear.	Current.	Arrear.	Current.	Arrear.

	Court of Wards	60	177	237	14,776	144	6,742	93
	All other certificates	6	2	8	679	4	236	4
Palámau	Land Revenue	287	45	332	9,714	303	8,831	29
	Road cess	383	109	492	11,609	423	10,601	69
	Court of Wards	10	......	10	643	10	643	......
	Fines for road-cess returns	1	13	14	643	9	456	5
	All other certificates	61	7	68	1,142	59	900	9
Singhbhum	One register is kept in the Certificate Department.	470	323	793	38,102	102	5,118	691
Manbhum	Road cess	142	51	193	52,607	128	38,643	65
	Wards' Department	526	198	724	17,516	618	14,031	106
	Miscellaneous	42	16	58	4,683	54	1,258	4
	Total ...	2,491	1,319	3,810	1,97,280	2,499	1,05,627	1,311

It is noticed that in the Court of Wards and Encumbered Estates Departments of Hazáribágh and Lohardaga, and also generally in Singhbhum, for which district details are not given, the number of cases left pending at the end of the year exceeds the number of cases instituted during the year. Special attention should be paid to keeping certificates of this class well in hand, as the number of cases is large and arrears are very apt to grow.

Land Acquisition.

15. The number of land acquisition cases dealt with was as follows:—

	Hazáribágh.	Lohardaga.	Palámau.	Singhbhum.	Manbhum.
Pending from last year ...	3	...	...	...	1
Instituted ...	1	5	...	61	2
Total ...	4	5	...	61	3
Disposed of ...	...	...	...	53	1
Balance pending at close of year ...	4	5	...	8	2

The numbers in most of the districts are small, but it is satisfactory to find that in Singhbhum, where 61 cases were instituted, as many as 53 were disposed of during the year. The large number of cases in this district was in connection with the Chaibassa-Ranchi Road.

Encumbered Estates.

16. During the year in the six wards the collections were exactly equal to the current demand, and the arrears, which are about 30 per cent. of the demand, were not diminished. Besides these, 56 estates were in the hands of Government under the provisions of the Chota Nagpur Encumbered Estates Act (VI of 1876). The collections in them were not equally good, the current collections of rent and cesses having amounted to only Rs. 3,33,195 against a current demand of Rs. 3,51,625, so that the arrears at the close of the year, which stand at the high figure of Rs. 3,08,586, exceeded the figures of the opening year by about Rs. 18,000. The natural result was that in many cases, noteably in the Palámau district, the approved scheme of payments to creditors for the year could not be fully complied with. The following table shows the extent to which the debts of the estates were paid off:—

Districts.	Debts due at the commencement of the year.	Debts ascertained or incurred during the year.	Total.	Payment.	Reductions by compromise.	Balances at the close of the year.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Hazáribágh	3,85,923	5,21,479	9,07,402	39,400	...	8,68,002
Lohardaga	2,68,383	41,663	3,10,046	53,824	6,297	2,49,925
Palámau	27,205	75,292	1,02,497	6,672	...	95,825
Singhbhum	2,27,746	8,565	2,36,311	35,356	...	2,00,955
Manbhum	3,36,265	15,255	3,51,520	62,819	241	2,88,460
Total ...	12,45,522	6,62,254	19,07,776	1,98,071	6,538	17,08,167

The large increase in debts during the year in Hazáribágh was due to two new estates having come under the Act in that district. Altogether the working of the Act seems to represent a perpetual struggle for improvement against heavy odds. The Commissioner writes on this subject:—

"The Encumbered Estates Act has so far proved an inestimable boon to both landlords and tenants in Chota Nagpur, and served to save many a landlord from imminent ruin; but yet it is impossible to shut our eyes to the fact that notwithstanding stringent provisions of the law regarding the disqualification of proprietors from incurring fresh debts and liabilities, many of them run into debt at ruinous rates of interest even while their estates are under our management, while others encumber their properties with fresh liabilities as soon as their estates are restored to their possession after the liquidation of all scheduled debts."

Excise.

17. The only feature of the year's work is an increase of Rs. 96,113, or 14·9 per cent., in the excise revenue of the division; 80·8 per cent. of the revenue is obtained from country liquor, but it is noticeable that the increase in the year under report was gained with a slightly diminished number of licenses.

The following table gives the number of shops open and the revenue under the heads of country spirits, ganjá, and opium:—

Districts.	Country spirits.				Gánja.				Opium.			
	Number of shops.	License fees.	Gross gallons.	Total receipts	Number of shops.	License fees.	Gross maunds.	Total receipts.	Number of shops.	License fees.	Gross maunds.	Total receipts.
		Rs.		Rs.		Rs.		Rs.		Rs.		Rs.
Hazáribágh	134	1,50,602	8,181	1,59,970	25	6,583	27	12,264	12	1,184	7	4,996
Lohardaga	141	2,20,750	996,957	2,20,750	25	7,242	52	18,309	8	4,639	21	30,819
Palámau	91	85,429	......	85,429	13	1,885	12	4,461	8	35	2	1,487
Singhbhum	47	35,710	22,273	35,710	8	2,602	10	5,270	8	3,314	14	13,795
Manbhum	135	96,868	52,875	97,448	43	12,620	43	23,580	12	4,385	9	11,565

	Revenue from all sources.	Rate per head of population.
	Rs.	Rs. A. P.
The whole division ...	7,41,546	0 2 6

It is remarkable to notice that owing doubtless to the preponderance of aboriginal races the Excise Revenue of the Division is nearly double the Land Revenue.

18. The railway extension to the Jheria coal-field has been sanctioned, opening out the Gobindpur sub-division, and the Bengal-Nagpur Railway has settled down into regular working order during the year. Nothing more has been heard about the projected line from Moghalsorai *viâ* Dehri to Daltonganj. The Tulin Bridge over the Subarnarekha on the Ranchi-Purulia road was delayed through non-arrival of girders from England, but is nearly finished: and good progress has been made with the through road from Ranchi to Chaibassa, though the southern sections are still incomplete. There is still a great deal to be done to open up the new district of Palámau, the head-quarters of which have to be connected with both Ranchi and Gaya by good roads. The Road-cess funds in all the districts of the division are small to cope with the wants of so great an area.

Communications.

19. Education generally was in a flourishing condition during the year in all districts except Palámau, where progress is much impeded owing to the want of communications. The total number of public schools in the division increased from 1,913 to 2,041, and of pupils from 58,501 to 60,442, in spite of a large apparent decrease in Singhbhum owing to the exclusion from the district list of the primary schools in the political states of Seraikela and Khursawan. The standard of instruction as evidenced by the results of the Entrance and Upper Primary Scholarship Examinations was fairly well maintained. A considerable decrease in successful candidates in Lohardaga at the last Lower Primary Examination is explained by the examination having been held earlier than usual and by the exclusion from it of all boys of the upper primary schools. Sir Charles Elliott notices with pleasure the establishment of two industrial schools in Chaibassa, and also the large and increasing number of girls undergoing instruction in the different districts of the division. He was glad to have an opportunity of lately visiting the industrial school opened by the S. P. G. Mission at Chaibassa, and was struck with the good carpentering work which the boys appeared to be turning out.

Education.

The following table shows under different heads the number of schools and pupils for each district, the incomes obtained from different sources, the cost per head of the pupils, and the ratio of boys at school to boys of school-going age:—

District.	Class of schools.	Number of schools.	Number of pupils on rolls.	Cost. Provincial.	District Board.	Municipality.	Fees.	Other.	Total.	Cost per head of pupils.	Ratio between total in column 4 to total boys in district of school-going age.	Population.	Ratio of pupils on rolls to population of school-going age.

The cost of the pupils in the middle schools of the Lohardaga district is very high, as also is that of those in primary schools in the Manbhum district (Rs. 2 15-1), as compared with the cost in the primary schools of the other districts of the division. The ratio of boys at school is highest in the Singhbhum district, being ·32, or nearly double that in any other district. For the purposes of this calculation the boys of school-going age are taken at 8 per cent. of the total population. There is great room for improvement in the support given by municipalities, especially that of Hazáribágh, wh re only a meagre contribution of Rs. 24 is made, to the primary schools in their respective jurisdictions. In Chaibassa too the sum thus granted is very inadequate.

The following table shows the educational work done by the different Missionary Societies in the districts of Hazáribágh, Lohardaga, and Singhbhum during the year :—

Designation of Mission.	Schools in—		Number of pupils.		Expenditure incurred in—					
					1890-91.			1891-92.		
	1890-91.	1891-92.	1890 91,	1891-92.	Government.	Mission funds.	Total.	Government.	Mission funds.	Total.
					Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Berlin Evangelical	23	46	1,013	1,776	3,921	10,301	13,322	3,404	10,977	14,381
S. P. G (Anglican)	42	47	1,255	1,583	2,585	7,060	9,645	2,615	6,816	9.431
Free Church, Scotch	38	37	734	676	2,671	3,489	6,160	2,654	4,209	6,863
St. Xavier's	6	4	306	195	290	414	704	245	1,049	1,294

20. The number of dispensaries in the division, with their incomes and work, was as follows:—

District.	Number of dispensaries.	Income from—					Daily average patients—		Ratio of out-door patients to total population.
		Government.	District Board.	Municipality.	Subscriptions.	Total.	In-patients.	Out-Patients.	
1	2	3	4	5	6	7	8	9	10
		Rs.	Rs.	Rs.	Rs.	Rs.			
Hazáribágh	3	241	......	1,243	954	2,438	11·59	70·70	·7
Lohardaga	2	299	......	2,262	983	3,544	8·64	56·29	} ·5
Palámau	1	255	......	....	714	969	5·58	16·57	
Singhbhum	1	49	......	849	412	1.310	3·55	18·75	·3
Manbhum	8	199	......	3,173	4,097	7,468	25·30	149·83	1·8

Manbhum is the only district which is at all well provided with dispensaries, and even there the ratio of out-patients to total population is less than 2 per cent. Singhbhum and Palámau are still badly off in this respect, but the latter is a new district only just beginning to be developed. The Lieutenant-Governor is glad to see that a new dispensary has been opened at Barabazar in that district, as also that the Leper Asylums at Lohardaga and Purulia are in good condition and doing excellent work. His Honour had an opportunity, a short while ago, of visiting the asylum at the latter place.

Local Self-Government institutions.

21. The Local Self-Government Act is not in force, but there is a District Road Committee and a District Education Committee in each district, and three Branch Committees at sub-divisions. Meetings in all cases were few and indifferently attended, and the Lohardaga District Education Committee held no meeting during the year. The Municipal Committee of Ranchi failed to get together a quorum in 5 out of the 12 meetings held during the year. The Chaibassa and Purulia Municipalities are said to have done good work during the year, and this agrees with what the Lieutenant-Governor saw of those towns on the occasion of his recent visit.

Fairs.

22. There are several fairs of some importance in the division, for all of which sanitary arrangements were provided. The Commissioner reports that the Government grant of Rs. 200 to the annual fair at Chaibassa was not expended, as the orders insist on its being spent on a reproductive work only, which has been held to preclude the money being applied to sanitary purposes. The orders referred to will be looked up and reviewed.

23. Among the officers engaged in the division during the year, the Lieutenant-Governor recognises with pleasure the good work done in starting the new Palámau district by Mr. Bright. The remarks on other officers will be communicated to the Appointment Department for the necessary action.

Officers.

24. The Commissioner writes that the Congress Committee at Hazáribágh is the only political institution in the division:—

State of public feeling.

"Five delegates were selected for the seventh Indian National Congress held at Nagpur in the Central Provinces in December 1891, but of these only one attended the Congress. This indicates a falling off in interest even from 1890."

The Deputy Commissioner of Hazáribágh writes:—

"A certain amount of languid and, I think, more or less fictitious enthusiasm exists in a few places in connection with cow protection. Rest-houses have been built at Padma and Ichák, in which some 180 old, diseased, and worn-out animals have found shelter at the expense of the people of the neighbourhood, who are expected to contribute according to their means."

The Deputy Commissioner of Lohardaga writes:—

"A feeling of animosity between landlords and tenants is pretty general throughout the district, although both sides are for the present maintaining an attitude of observation, as some action by Government is expected." Colonel Gordon notices under another head of this report that the zamindars' animosity is most marked against those raiyats who have embraced Christianity, and with it an independence which fights against the old predial services of the agricultural population of this district.

"The attitude of the zamindars of this division towards Government has been generally satisfactory. The Rajah of Ramgar, however, gave the Deputy Commissioner of Hazáribágh some trouble about supplies for the troops which marched through his district, and proceedings under Regulation VI of 1825 had to be instituted against him Tikáyat Toral Narain Singh of Ganwan is the only zamindar of whom the Deputy Commissioner speaks in terms of real praise, as intelligent, enlightened, and liberal-minded, looking well after his estate, and fairly sympathetic with his tenantry. In Lohardaga the Deputy Commissioner reports that Kumar Jagat Mohan Nath Sahi Deo, the younger brother of the Maharaja of Chota Nagpur, deserves special mention for his public spirit in sitting as an Honorary Magistrate in Ranchi. His services have been specially brought to the notice of Government. I wish that even the little meed of praise which the Deputy Commissioners of these two districts can give in discussing the relations between Government and the landlords could be repeated as regards the latter's relations with their tenantry. These seem to me generally strained. Even in the Chota Nagpur estate, where a settlement at a very heavy cost has been carried out, there is bad feeling, and the operations which I have been accustomed to see elsewhere so beneficial seem to have borne as yet but little fruit in promoting peace."

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

Secretary to the Govt. of Bengal.

CONSTRUCTION OF A FEMALE WARD IN THE BANKURA DISPENSARY.

No. 667T.M., dated Darjeeling, the 6th October 1892.

From—H. H. RISLEY, ESQ., Secy. to the Govt. of Bengal, Municipal Dept.,
To—The Commissioner of the Burdwan Division.

I AM directed to acknowledge the receipt of your endorsement No. 620M., dated the 19th August 1892, with which you submit a copy of a letter from the Magistrate of Bankura, reporting that Raja Sir Sourindra Mohan Tagore, K.C.I.E., of Calcutta, has offered to build some cottage wards at a cost of Rs. 2,000 or more in furtherance of the movement for the establishment of a zenana hospital at Bankura.

2. In reply, I am to say that the Lieutenant-Governor has much pleasure in accepting the liberal offer of the Raja, and I am to request that His Honour's thanks may be conveyed to him for his public spirit and liberality. This letter will be published in the *Calcutta Gazette.*

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different districts of Bengal, as reported to Government, during the week ending the 8th October, 1892.

No.	District and date of return.	Rainfall at Sadar Station in inches	Character of the weather and state and prospects of the crops.
BENGAL.			
	BURDWAN DIVN.		
1	Burdwan Oct. 8, '92 Kalna ... Katwa ... Raniganj ...	Nil 2·05 0·03 1·78	Weather—hot during the day; early mornings cool. Rain wanted badly throughout the district. Prospects of *áman* in Katwa and Kalna fair. Sadar not good. *Aus* being harvested. Fodder and drinking water sufficient. Prices of common rice:— Srs. Burdwan ... ... 10 to 13 per rupee. Kalna ... ... 9 to 12 per rupee. Katwa ... ... 12½ per rupee. Raniganj ... 11 per rupee.
2	Bankura „ 8, '92 Vishnupur ...	Nil 0·47	Weather—cool towards the latter part of the night. Harvesting of *aus* paddy still continues. Lands are being prepared for *rabi* crops. Rain generally wanted. Sugarcane doing well. Fodder and water sufficient. Price of common rice 12 seers per rupee both at Sadar and Vishnupur.
3	Birbhum „ 8, '92 Rampur Hát ...	Nil 2·05	Weather—dry. Prospects of crops continue good. Fodder and water plentiful. Prices of common rice from 12 to 14 seers per rupee.
4	Midnapore „ 8, '92	Nil	Slight rain in the subdivisions, one inch at Contai; otherwise weather hot and fair. Prospects of crops bad in the west and south. *Aus* still being cut. Rain badly wanted for *áman* and *rabi*. Indigo being sown. Prices of common rice:— Srs. Sadar ... ... 10½ per rupee. Contai ... ... 10 to 12 per rupee. Tamluk .. ... 11 per rupee. Ghatál .. ... 10 to 11 per rupee.
5	Hooghly .. 8, '92 Serampore . Jahánabad ...	Nil 1·81 0·49	Weather—fine and settled, indicating approach of the cold weather. Prospects of winter rice still further impaired by the early cessation of the rains. This has raised price of rice in the Sadar. Some complaints of scarcity of water from Polba and Pandua thánas of the Sadar. Prices of common rice:— Srs. Sadar ... ... 9½ per rupee. Serampore ... ... 10½ per rupee. Jahánabad ... ... 12½ per rupee.
6	Howrah „ 8, '92 Ulubaria ...	Nil 2·45	Weather—sultry, but mornings and evenings cool. Cutting and steeping of jute continue. Prospects of winter rice fair. Harvesting of *aus* in Ulubaria subdivision going on. Sugarcane doing well. Condition of cattle good. Fodder and water-supply sufficient. Prices of rice:— Srs. Sadar ... ... 11 per rupee. Ulubaria ... ... 9 to 11 per rupee.
	PRESIDENCY DIVN.		
7	24-Parganas „ 8, '92	Nil	Weather—seasonable: clear and dry. Harvesting of *aus* and jute nearly completed. *Aman* and sugarcane doing well, but more rain wanted in places for *áman*. Cattle in good condition. No deficiency of fodder or want of water reported.
8	Nadia „ 8, '92 Kushtia ... Meherpur ... Ranaghat ...	0·07 0·52 0·18 0·56	Weather—fine and cool. *Aman* suffering for want of rain. Cultivation going on for winter crops, and sowing commenced in places. Price of common rice has fallen. Health of cattle good.
9	Khulna „ 8, '92 Satkhira ... Bágerhat ...	0·36 2·30 1·05	Weather—seasonable. Prospects of *áman* crop are good in Bágerhat, and fair in Sadar, but not quite satisfactory in Satkhira. Sugarcane is being cut in Bágerhat; outturn satisfactory. Common rice selling at from 9 to 12 seers per rupee. Fodder and water for cattle sufficient.
10	Jessore „ 8, '92 Jhenida .. Magura ... Narail ... Bangaon ...	0·27 2·37 1·94 0·25 4·24	Weather—seasonable. Prospect of *áman* good except in the centre and west of district where it is poor. Sowing of *rabi* in progress. Supply of fodder and water sufficient.
11	Murshidabad „ 8, '92	0·13	Weather—seasonable. Sowing of *kalai* going on. Sugarcane doing well. *Aman* on high lands suffering from insufficient rainfall. Fodder for cattle sufficient. Common rice selling at 12 seers per rupee.
	CHITTAGONG DIVN.		
12	Chittagong „ 8, '92	4·47	Weather—seasonable. Prospects of crops good. Prices tend to fall. Condition of cattle good. Supply of fodder sufficient.
13	Noakhali „ 8, '92	4·78	Weather—seasonable. State and prospects of *áman* crop favourable. No cattle-disease. Price of rice stationary.
14	Tippera „ 8, '92	1·62	Weather—a perceptible change observed during last few days; nights cold and clear; days hot. Heavy rain early in the week improved prospects of winter rice, of which much recently planted had begun to wither. Prospects are now favourable, given the usual rain at the end of this month. Price of jute slowly rising. *Aus* outturn good.
15	Chittagong Hill Tracts. „ 6, '92	2.96	Weather rainy during the first part of the week. Harvesting of *jum* paddy still continues. Cotton in flower, and pods are being formed in some places here and there. Plough-paddy doing well and is nearly to be with flowers. Lands are being ploughed for mustard. Common rice being sold at 8 seers 14 chitaks per rupee.

No	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL—*concld.*			
DACCA DIVN.			
16	Dacca Oct. 8, '92	0·20	Weather—seasonable. Cultivation for *rabi* crops going on. Prospects of *áman* paddy favourable. Fodder available. No cattle-disease. Common rice selling at from 9½ to 11¼ seers per rupee.
17	Faridpur „ 8, '92 Goalundo ...	0·10 0·95	Weather—seasonable. State of standing crops fair. Condition of cattle good and fodder available. Common rice selling at 11 seers per rupee at Sadar and Goalundo. River water is rapidly subsiding.
18	Backergunge „ 8, '92	0·54	Weather—cool. It looks like beginning of cold season. State and prospects of crops good. Ordinary rice sells at from 8 to 14 seers per rupee. Fodder and water sufficient.
19	Mymensingh „ 8, '92	0·88	Weather—hot during daytime, and cool and foggy in the morning. Prospects of *aus*, *bora*, and jute good except at Jamalpur. Jute and *aus* being reaped. Common rice sells at from 6 to 10 seers per rupee. Supply of water and fodder sufficient.
RAJSHAHI DIVN.			
20	Dinajpur „ 8, '92 Thakurgaon ...	Nil 0·47	Weather—seasonable. Prospect of winter rice very hopeful. Ploughing for *rabi* crops has commenced. Prices of *bhadoi* and *haimanti* at Sadar 12 and 11 seers per rupee respectively; those at Thakurgaon stationary. Condition of cattle good. Supply of fodder and water sufficient.
21	Rajshahi „ 8, '92 Nator ... Naugaon ...	Nil 1·49 1·60	No rain for the last few days. Mornings getting cool. Condition of crops good. The very high lands in the west of the district are, however, uncultivated for deficient rainfall, and the actually cultivated fields require more moisture. There is, however, no prospect of rain. Fodder and water sufficient. No cattle-disease reported. Price of rice stationary, from 10 to 12 seers per rupee.
22	Rangpur „ 8, '92 Gaibanda ... Nilphamari ... Ulipur ...	0·15 0·20 3·28 0·30	Weather—hot during day and cool at night. Cutting and steeping of jute still going on in some places. *Aman* crop doing well. Prices of rice stationary.
23	Bogra „ 8, '92 Sherpur ... Naukhila ...	0·11 0·43 0·32	Weather—cool and dry. Prospect of the late paddy crop remains good, and a little rain lately has not damaged it at all. *Aman* rice selling at 11 seers and *aus* rice at 15 seers per rupee. Lands being cultivated for *til* and mustard. Fodder sufficient.
24	Pabna „ 8, '92	Nil	Weather—fine and cool. Prospects of standing crops continue good. *Rabi* crops are being sown. Condition of cattle good. Fodder and water-supply sufficient. Rice selling at 11¼ seers per rupee.
25	Darjeeling „ 8, '92 Siliguri ...	0·29 1·29	Weather—clear sky and bright sun with cold nights. *In the hills:—Bhutta* being still harvested. *Marua* coming to perfection. *Toree* and *phaphur* being planted. *Haimanti dhan* progressing favourably. *Bhadoi dhan* and potatoes have been harvested. *In the Terai:*—Prospects of crops continue to be good. Jute steeping going on. Cattle healthy. Prices of coarse rice:— Srs. Darjeeling ... . 9 } per rupee. Siliguri ... ... 11 }
26	Jalpaiguri „ 8, '92	0·16	Weather—hot days with cold nights. *Haimanti* paddy doing well. Steeping of jute still continues. Price of rice stationary. No cattle-disease. Fodder and water-supply sufficient.
BIHAR.			
BHÁGALPUR DIVN.			
27	Monghyr „ 8, '92 Begusarai ... Jamui ...	Nil Nil Nil	Weather—somewhat cooler. Prospects of winter rice still reported to be good. Harvesting of *sathi* paddy completed in Jamui. Land is being prepared for *rabi* and indigo. Chillies and sweet potatoes doing well in Begusarai. Prices of common rice:— Srs. Sadar ... ... 9¼ to 13½ } Begusarai ... ... 14 } per rupee. Jamui ... ... 12 }
28	Bhágalpur „ 8, '92 Banka ... Madhipura ... Supaul ...	Nil Nil 0·25 Nil	Weather—cooling down. State of *aghani* rice up to this time good, but some rain is wanted. Land is being prepared for *rabi* crops. No cattle-disease. Fodder available.
29	Purnea „ 8, '92 Kishanganj ... Araria ...	Nil 1·32 0·05	Weather—fine. Cold weather setting in. Jute steeping nearly over. *Aghani* prospects excellent. *Aghani* coming into ear. Cultivation for *rabi* crops and sowing of *kurthi* in progress. Fodder and water plentiful. Prices of rice:— Srs. Sadar ... ... 11¼ } Kishanganj ... ... 12 } per rupee. Araria ... ... 16 }
30	Malda „ 8, '92 Chanchal ... Shibganj ... Gajol ...	0·01 0·01 1·22 1·81	Weather—days warm; mornings and evenings cool. Winter rice thriving well. Sowing of *kalai* not yet finished. Lands are being cultivated for *rabi* crops. Condition of cattle good. Prices of coarse rice 11 to 16¼ seers per rupee. Supply of fodder and drinking water ample.
31	Sonthal Parganas „ 8, '92 Jamtara ... Pakur ... Rajmahal ...	Nil 0·22 2·08 1·06	Weather—has become clear and cool with westerly wind. Rice doing well. All other crops also promise well. Price of rice is still dropping in Pakur, where it is 16 seers per rupee, but not at Rajmahal (10 seers) or Jamtara (11 seers).

No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BIHÁR—*concld.*			
Patna Division.			
32	Patna Oct. 8, '92	Nil	Weather—hot in the day; latter part of night somewhat cool. Paddy doing well. *Rabi* sowings commenced. A shower of rain at this season would be very beneficial. Common rice selling at from 11 to 14 seers per rupee. Fodder and water for cattle plentiful.
33	Gaya „ 8, '92 Nawáda ... Jahánabad ... Aurangabad ...	Nil Nil Nil Nil	Weather—fair; nights cool. Harvesting of *sathi* rice still going on. Preparation of *rabi* lands in progress. Rain much wanted for winter rice. Prices rising at Jahánabad and Nawáda, but stationary elsewhere. Fodder and water-supply ample.
34	Shahabad „ 8, '92	Nil	Weather—days hot, nights cool. Prospects continue excellent. *Bhadoi* being reaped. *Kartica* paddy in ear. Rain wanted for *rabi* sowings. Prices remain stationary. Fodder sufficient.
35	Darbhanga „ 8, '92	Nil	Weather—mornings and evenings getting cool, but days hot. Prospects of winter rice in low lands continue favourable. Upland rice is suffering in places for want of rain. Lands are being ploughed for cold-weather crops. Fodder and water-supply sufficient. Prices stationary.
36	Muzaffarpur „ 8, '92 Sitamarhi ... Hajipur ...	Nil 0·10 Nil	Cool weather beginning. Sky clear. *Rabi* cultivation beginning with plentiful moisture. More rain is wanted for rice on high lands, but on the whole the crop is above the average. Cattle in good condition. Fodder and water plentiful. Price of rice stationary.
37	Saran „ 8, '92 Siwán ... Gopalganj ...	Nil Nil Nil	Weather—unseasonable. The *hathia* is over and no rain has fallen. Prospects of paddy good. The want of rain will, however, affect them injuriously. Preparation of *rabi* lands going on. Prices of common rice:— Srs. c. Chapra ... ... 11 14 } Siwán ... ... 12 0 } per rupee. Gopalganj ... ... 15 10 }
38	Champaran „ 8, '92	Nil	Weather—seasonable. Prospects of winter rice continue favourable, but rain is required generally in every part of the district as the *hathia* rain has failed, and unless there is rain there will be a decrease in the outturn of the crop. *Bhadoi* is being cut. Lands are being prepared for *rabi*. Cattle are in good condition. Fodder and water sufficient.
ORISSA.			
Orissa Divn.			
39	Cuttack „ 8, '92	Nil	Weather—days hot, nights cool. Reaping of *beali* nearly completed. *Rabi* crops being sown. Prospects of *sarad* crop generally good. Average selling prices of common rice:— Srs. c. Srs. c. Sadar ... ... 13 2 } Jajpur ... ... 13 2 } Kendrapara ... ... 13 2 to 17 1 } per rupee. Banki ... ... 13 2 }
40	Puri „ 6, '92 Khurda ... Banpur ...	0·28 0·82 0·22	Weather—hot. Weeding of *sarad* rice continues. More rain wanted. Harvesting of *beali* rice and *mandia* over. Common rice sells at from 10 to 12 seers per rupee.
41	Balasore „ 8, '92	Nil	Weather—fine. Prospects of crops are generally unchanged, but very bad reports are received from the parts of Belhapal thána bordering on the Midnapore district. Prices at Balasore somewhat easier owing to sale of *beali* rice.
CHOTA NAGPUR.			
South-West Frontier Agency.			
Chota Nagpur Divn.			
42	Hazáribágh Oct. 8, '92	Nil	Weather—bright and clear. Prospects of paddy crop generally good. Oil-seeds and pulses being sown. Ground being prepared for *rabi* crops. Common rice 10 to 14 seers per rupee. Fodder plentiful.
43	Lohardaga „ 8, '92	Nil	Weather—cloudy. Prospect of winter rice crop continues favourable. Harvesting of *gora dhan* continues. Sowing of mustard commenced. Common rice selling at 14 seers per rupee. Fodder and water sufficient.
44	Palámau „ 6, '92	N	Weather—pleasant. Outturn of *bhadoi* crop excellent. Rice crop progressing favourably. Sowing of *kurthi* nearly finished. Ploughing for *rabi* crops going on. Prices have fallen. Cattle-disease reported from some parts.
45	Singhbhum Oct. 8, '92	Nil	Weather—seasonable and getting colder daily. Clouds still come up daily, and there has been some rain in Dhalbhum pargana. Outturn of winter rice estimated at from 12 to 16 annas, and its condition is reported from everywhere to be good. Price of common rice has risen to 14 seers per rupee at Chaibassa, and it has also risen somewhat in other parts of the district.
	Manbhum „ 8, '92 Gobindpur ...	Nil 0·51	Weather—warm. Prospects of crops not good. More rain wanted. Rice selling at from 8 to 13 seers per rupee.

Published for general information.

CALCUTTA; REVENUE DEPT.,
The 11th October, 1892.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

Abstract of the results of Meteorological Observations taken at the Alipore Observatory in the month of September 1892.

	Inches.	Date.	Hour
The mean pressure of the month	29·663		
The average pressure of September from 24 years' registers ...	29·682		
The highest pressure in the month	29·902	22nd	10
The lowest pressure in the month	29·425	2nd	16
The range of pressure	0·477		
	Hours.		
The total number of hours of bright sunshine during the month	151·5		
The maximum possible number of hours of sunshine ...	367·0		
	⊖		
The mean temperature of the month	82·5		
The average temperature of Septmber from 24 years' registers	83·3		
The highest temperature in the month	92·0	20th.	
The lowest temperature in the month	75·7	30th.	
The range of temperature during the month	16·3		
The mean daily range of temperature	9·8		
The greatest range of temperature in one day	13·8	20th.	
	Per cent.		
The mean humidity of the month	88		
The average humidity of September from 24 years' registers ...	85		
	Inches.		
The mean vapour tension of the month	0·974		
The average vapour tension of September from 9 years' registers	0·987		
The mean cloud proportion of the month	6·59		
The average cloud proportion of September from 15 years' registers	7·03		
The total rainfall of the month	7·60		
The total rainfall indicated by a Beckley's self-registering rain-gauge (mouth of the gauge about 52 feet above the ground)	7·33		
The average fall of September from 48 years' registers ...	10·18		
The greatest fall in 24 hours	1·63	3rd.	
	Days.		
The number of rainy days in the month	21		
The average number of rainy days in September from 24 years' registers	21		
	⊖		
The mean maximum equilibrium temperature of solar radiation during the month	147·3		
The mean difference of sun and air temperatures	59·5		
The greatest sun temperature	157·4	13th.	
The greatest excess of sun over air temperature	67·8	13th.	
The mean temperature of the nocturnal radiation thermometer on woollen cloth	76·0		
The mean depression of the nocturnal radiation thermometer below the minimum air temperature at 4 feet above the ground	2·0		
The greatest depression of the nocturnal radiation thermometer below the minimum air temperature	4·1	20th.	
	Miles.		
The mean movement of the wind per day	90·8		
The greatest movement of the wind in one day	212·0	9th.	
The greatest movement of the wind in one hour	14·0	10th, 11 to noon.	

The number of hours with winds from each of the 8 points—

N. 18, N.E. 20, E. 113, S.E. 148, S. 182, S.W. 147, W. 25, N.W. 22, Calm 45.

The results of observations at the Alipore Observatory are not rigorously comparable wit the registers of past years (at the Park Street Observatory). The barometer is about 3 fee higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range o temperature is also greater at Alipore, and the mean temperature apparently equal; and, finally, th thermometer which furnished the record of temperature at the Surveyor-General's Office durin 20 years and upwards is found to read 0·6 higher than the Kew standard thermometer, which is th standard of reference at the present Observatory.

C. LITTLE,

For Meteorological Reporter to the Govt. of India.

* Mean of 6 days. | † Mean of 5 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period
The *humidity* of the atmosphere is expressed at percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10
ral fall the normal mean are the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional station
districts, i.e., from total rainfall at the subdivisional stations in the district sending in returns divided by the number of stations. A rainy day is one of

for the week ending Saturday, the 8th of October 1892.

Variation from normal mean.	Mean 8 A.M. temperature.	Average humidity at 8 A.M.	Average cloud amount at 8 A.M.	Rainfall of week at observing station.	DISTRICT OBSERVATIONS. Of week. Mean for district.	Normal mean.	Average number of rainy days.	Normal number of rainy days.	Rainfall. Since 1st of month. Mean for district.	Normal mean.	Variation.	Since 16th May 1892. Mean for district.	Normal mean.	Variation.	District.

Explanation.—.. indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least ¼ inch of rain has fallen.

CALCUTTA, *the 11th October* 1892.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 8TH OF OCTOBER 1892.

IMPORTANT changes of pressure, which commenced during the previous week, continued during the one under review, with the result that the distribution became transformed from what is usual in the south-west monsoon, to that which brings about the seasonal change. On the 2nd, the first day of the week, pressure decreased moderately from the south of the Bay towards the north, and as pressure was relatively low in the central districts, westerly winds blew over the western half and easterly winds in the eastern half of the province, while considerable showers fell locally at many eastern stations. A very rapid rise of pressure prevailed on this day, being everywhere more than ·1 inch, and in parts of South-East Bengal very little under ·2 inch. The rise continued uniformly, though more slowly, in Bengal, so that the distribution then remained unchanged for one or two days, but over the Bay it became very uniform. During the 5th and 6th no change of importance occurred except the steady rise of pressure, but by the 7th readings were highest in the north, and a northerly current had set in over practically the whole province, accompanied by cool dry weather.

Pressure changes, as stated above, have brought about a complete change in the distribution. Except on the 4th, when there was a fall of about a twentieth of an inch, pressure has steadily increased—at times rapidly. At the beginning of the week the difference from the normal was very slight in Bengal, but was over a twentieth of an inch in Assam. The continued rise, however, caused a considerable excess, which remained till the end of the week, though with a tendency to decrease towards the end. The mean excess for the whole week is generally over ·05 inch.

Temperature has usually been below the average, especially in the eastern half of the province. This defect was caused in the early part of the week by the local showers which were general on the 2nd, and afterwards by the dry winds which blew from the north or west after the alteration in the distribution of pressure. Day temperatures were generally up to the average, and the defect in the means was due almost entirely to the low minimum readings. The mean for the whole week is below the normal in all districts, by less than 1° in the western districts, by between 1° and 2° in North Bihár and East Bengal, and by more than 2° in North Bengal and Assam.

Rainfall.—No rain has fallen in Orissa, South Bihár, and Chota Nagpur. In South-West Bengal, Midnapore, Howrah, Bankura, and Birbhum have been rainless; the 24-Parganas, Hooghly, Burdwan, and Murshidabad received one or two local showers; and Nadia, Khulna, and Jessore, general rain on the 2nd, but practically none after that date. In North Bengal scattered showers fell in all districts on the 2nd, but the falls were generally light, and formed nearly the whole of the rainfall of the week, except in the Darjeeling district where scattered showers fell till the 6th. In East Bengal general rain fell on the 2nd and a few showers on the 3rd and 5th, the heaviest falls occuring in Noakhali, Chittagong, Chittagong Hill Tracts, and Tippera. In North Bihár rain fell twice at Kishanganj and twice at Hajipur. The averages for the large divisions are necessarily very much below the normal, defect varying from half-an-inch in East Bengal to 1·6 inches in Orissa.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 8th of October 1892:—

METEOROLOGICAL DIVISIONS.	TEMPERATURE.						RAINFALL.									
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 16th May 1892.	
			Of highest of each day.	Of lowest of each day.	Of mean for each day.		Average.	Normal average.	Variation.	Average number in week.	Normal average number in week.	Variation.	Average.	Normal average.	Average.	Normal average.

The average fall of the corresponding period for 24 years, S.-G.'s Office ...	60·75

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; ▲, dew.

APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, OCTOBER 12, 1892.

NOTICES TO MARINERS.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 179.

[First Publication.]

BAY OF BENGAL—BURMA COAST.

Rangoon river entrance—F. L. V. " Colombo " replaced by a schooner-rigged vessel during repairs.

THE Officiating Port Officer, Rangoon, has given notice that the F. L. V. *Colombo*, stationed off the Spit, below Elephant point, will be brought up to town, on or about the 8th proximo, for repairs; and a schooner-rigged vessel, painted red, with *Spit*, in white letters, painted on her sides, will be moored in her place.

There will be no alteration in the light.

EATON W. PETLEY,
Port Officer of Calcutta.

Published for general information.

K. H. STEPHEN,
Under-Secretary, Marine Department.

CALCUTTA, *the* 10*th October* 1892.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 180.

[First Publication.]

AUSTRALIA—MORETON BAY.

Leading lights—North Channel.

THE Portmaster, Brisbane, has given notice (No. 13 of 1892) that on and after 13th September 1892, the light at Tangaluma will be removed to a point N. ¼ E., 1,400 feet from its present position. Its elevation above high water will be 277 feet. The southern edge of the white sector from the Yellow Patch Light has been altered to bear E. by S. instead of E. ¾ S., as hitherto.

Directions.—Vessels entering will proceed as usual until Tangaluma and Cowan Cowan Lights are in line. Steer with them in line, bearing S. 17° E. until the southern limit of the white sector from the Yellow Patch Light is reached, when haul to the eastward of the line of lights a distance equal to the difference of their heights and proceed in with the lights in that position. By so doing a depth of not less than 21 feet at low water springs will be carried.

EATON W. PETLEY,
Port Officer of Calcutta.

Published for general information.

K. H. STEPHEN,
Under-Secretary, Marine Department.

[First Publication.]

BAY OF BENGAL—BURMA COAST.

Gulf of Martaban—Alteration in the character of the Krishna shoal floating light.

THE Officiating Port Officer, Rangoon, has given notice, that it is intended, on or about the 1st of January 1893, to alter the character of the floating light, off the Krishna shoal,

from a fixed white, to a double *flashing* light, in periods of thirty seconds; the duration of each of the two flashes being about one and three quarter seconds; the intermediate eclipse being four seconds, and the long eclipse about twenty two and a half seconds.'

Further notice will be given when this change has been carried into effect.

[Second Publication.]

PACIFIC OCEAN—FRIENDLY ISLANDS.

Tongatabu—Alterations in buoyage of Egeria channel.

THE British Admiralty has given notice (No. 379 of 1892) that the following alterations would be made in the buoyage of Egeria channel, western approach to Nukualofa:—

1. A fairway buoy, painted red and white in vertical stripes, would be moored with south end of Atatá bearing S. E. by E. distant 9 cables, and Toke toke S. W. Approximate position, lat. 21° 2′ 50″ S., long. 175° 16′ 20″ W.
2. The white conical buoy, north-westward of Atatá, would be replaced by a *conical* buoy, painted red.
3. The red conical buoys, marking Friday and Johnnie shoals, would be replaced by *can* buoys, painted black.
4. The white conical buoy, marking Campbell rock, would be replaced by a *conical* buoy, painted red.

CHINA SEA.

Balabac strait.

Intended flashing light near cape Melville.

The British Admiralty has given notice (No. 362 of 1892) that a light will be exhibited from a lighthouse recently erected north-westward of cape Melville, the southern point of Balabac island.

Cape Melville light will be a *flashing white* light every *twenty seconds*, visible through an arc of 265°, or from S. 63° W. to S. 32° E.; it will be elevated 297 feet above the sea, 90 feet above the ground, and should be seen in clear weather from a distance of 24 miles.

The illuminating apparatus is catadioptric, or by lenses and reflectors combined, of the first order.

The lighthouse, constructed of masonry, and octagonal in shape, with the keeper's dwelling near, is situated within an enclosure, at a distance of about 750 yards from the coast.

Approximate position on Admiralty Chart No. 948 : lat. 7° 49′ 20″ N., long. 117° 0′ 10″ E.

PACIFIC OCEAN.

Sandwich island—Oahu.

Honolulu harbour—Dredging operations at entrance.

The British Admiralty has given notice (No. 365 of 1892) that during the progress of the works for deepening the channel at the entrance to Honolulu harbour, which are being carried on night and day, lights will be shown by the dredger at night, and the following regulations should be observed by passing vessels :—

1. The dredger shows *three red* lights triangularly placed, about 3 feet apart, with a *white* light in the centre of the triangle, at an elevation of about 30 feet above the sea.

2. A steam-vessel approaching the harbour should stop at a safe distance from the dredger, and give one blast of the whistle, which will be answered by a single blast from the dredger, to be followed by three blasts from the dredger when the passage is clear, and the steamer may proceed.

A tug will be in attendance, when not otherwise engaged, to assist sailing vessels in passing the dredger.

NOTICE TO MARINERS—No. 167.

[Third Publication.]

AUSTRALIA—KEPPEL BAY.

Lights in Great Sandy strait, and lightships in Keppel bay and Proudfoot shoal.

THE Portmaster, Brisbane, has given notice (No. 10 of 1892) that on and after 1st October 1892 the lights in Great Sandy strait between Snout point and the Junction buoy will be discontinued. The lights at Hook point, Inskip point, and the White Cliffs will remain as heretofore.

Also that the lightship in Keppel bay will be removed, and the light discontinued, on and after 1st October 1892. The vessel being old and in need of extensive repairs will not be replaced, but to facilitate entrance by night, the following lights will be improved, viz.:—The leading light at cape Capricorn, the Balaclava island leading lights, intersecting the former lead, and the Sea Hill light. A small light will be exhibited from the Pilot station to denote when a vessel is past the Timandra Bank buoy, showing a white light between the bearings of S. E. ½ S. and E. ½ S.

Also that on and after 14th January 1893 the lightship at Proudfoot shoal will be removed and the light discontinued.

[Third Publication.]

INDIA—EAST—MADRAS COAST.

Hope Island light.—Alteration in character of the apparatus, and extinguishment of the present light.

THE Presidency Port Officer, Madras, has given notice, dated 31st August, and by later telegram dated 13th September 1891, that it is intended to substitute a 4th order dioptric fixed light for the 6th order light now in use, and consequently no light will be exhibited from Hope island light-house from the 1st November to the 31st December 1892. It is expected that the new light will be ready for use from 1st January 1893. The arc of illumination will be 180°, of which 40° are marked by a red sector in the direction of the Sacramento shoal.

2. The light should be visible in all directions seaward in clear weather at a distance of fully 14 miles.

EASTERN ARCHIPELAGO—PAPUA OR NEW GUINEA.

Sunken rocks northward of Adi island and north-westward of Misol.

THE British Admiralty has given notice (No. 374 of 1892) of the existence of a coral rock, on which a least depth of 5 fathoms was obtained (but there is probably less water in the vicinity) of about one cable in extent N.-E. and S.-W., lying northward of Adi island, south coast of New Guinea, with east extreme of Adi island, bearing S.S.-E. ½ E., distant 9 miles, and north-west extreme of Adi island W. by N.

Approximate position, lat. 4° 8¼′ S., long. 133° 41½′ E.

Also the existence of a sunken rock eastward of Baru island, Kanari islands, westward of New Guinea.

Approximate position to be considered doubtful, lat. 1° 42′ S., long. 129° 46′ E.

K. H. STEPHEN,
Under-Secretary, Marine Department.

CALCUTTA, *the 24th September* 1892.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

NOTICE TO MARINERS.—No. 173.

[Third Publication.]

INDIA, SOUTH—CEYLON, EAST COAST.

Sunken rock north-westward of Foul Point light-house, Trincomali bay.

THE British Admiralty has given notice (No. 377 of 1892) of the existence of a rock north-westward of Foul Point light-house, southern side of entrance to Trincomali bay.

This rock (*Munayai Paru*), of small extent, with 6 to 7 fathoms around, is composed of coral; a least depth of 18 feet at low water springs was obtained on it, but there is probably less water in places; it lies with Foul Point light-house bearing S.S.-E. ¾ E., distant 9¾ cables, and Norway island S.-W. ⅛ W.

Approximate position, on plan No. 815, lat. 8° 32′ 35″ N., long. 81° 18′ 45″ E.

NOTE.—The leading mark:—High land of Marble Point just open north of Round sland clears Foul Point shoal, has been expunged from Admiralty plan No. 815.

(*Variation* 1° *Easterly in* 1892.)

EATON W. PETLEY,
Port Officer of Calcutta.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

REVENUE DEPARTMENT.—(FORESTS).

NOTIFICATION. No. 3584 For.

THE following revised notification is published in supersession of Notification, No. 3438 For., dated the 1st September, 1892, published at pages 847-48, Part I of the *Calcutta Gazette* of the 14th idem:—

The 17th October, 1892.—Whereas, by the notifications severally specified below, the undermentioned forests, situated in the Palámau district, were declared to be Reserved Forests under the sections of the Indian Forest Act (VII of 1878) recorded against each of them, and whereas the Lieutenant-Governor is not satisfied as to the manner in which enquiries regarding rights in the said Forests have been recorded, he is pleased to appoint the Deputy Commissioner, Palámau, to be the Forest Settlement Officer, who will, under the provisions of Chapter II of that Act, determine the boundaries to be finally laid down, and enquire into and determine the existence, nature, and extent of any rights alleged to exist in favour of any person in or over any land comprised within the boundaries specified below, or in or over any Forest produce to be found therein in cases where claims to such rights are preferred by any individual or community under section 6 of the said Act; and will also himself ascertain, as far as possible, and enquire into the existence of any rights mentioned in section 4 or 5 of the said Act within the said boundaries, which are not claimed under section 6, so far as the same may be ascertainable from the records of the Government and evidence of any persons likely to be acquainted with the same, and will otherwise perform the duties of a Forest Settlement Officer under that chapter.

The Lieutenant-Governor is further pleased, under section 16 of the Indian Forest Act, to appoint the Commissioner of the Chota Nagpur Division to hear appeals from the decisions of the Forest Settlement Officer as above appointed.

(1).—KECHKI FOREST.

(Includes land described in the notification, dated the 23rd January, 1879, under section 34, as the Kechki Forest.)

Description of boundaries.

North.—The Aurangá river.
West.—The Koel river.
South-east.—A demarcated line running from the Koel to the Aurangá river.

(2).—BETLAH FOREST.

(Includes land described in the notification, dated the 23rd January, 1879, under section 34, as the Betlah Forest, exclusive of area mentioned in the notification, under section 26, dated 27th January, 1883.)

Description of boundaries.

North.—Demarcated lines along the north boundary of mauza Hattiyah, the western and northern boundaries of mauza Damodar Khar, and the eastern boundary of mauza Betlah to a feeder of the Aurangá river; then the said feeder till it joins that river; then the Aurangá river.
East.—The Aurangá river.
South.—Demarcated lines along the south boundary of Damodar Khar mauza; then down a small stream joining the Teorahee nadi; then up the Teorahee nadi; then the northern boundary of Lukum Khar, Godi, and Kochilah mauzas.
West.—A demarcated line running from the junction of the boundaries of Kochilah, Ukamand, and Mundah mauzas in a northerly direction to the junction of the boundaries of Mundah, Duramee, Ukherah, and Betlah mauzas.

(3).—SAIDOPE FOREST.

(Includes land described in the notification, dated the 23rd January, 1879, under section 34, as the Saidope Forest.)

Description of boundaries.

North.—The northern boundary of Khami tuppa to the junction of the boundaries of Morwaie, Kullan, Jargudh, Gansedahg, and Lat mauzas; then following the western boundary of Jargudh to a western feeder of the Douri nadi; then down that feeder to the western boundary of Saidope mauza; then along that boundary in a southerly direction to the foot of the hills; then a demarcated line following the foot of the hills to the eastern boundary of Saidope mauza; then the eastern boundary of Saidope mauza to an eastern branch of the Douri nadi; then that branch to a point about one mile north-west of Hurnomand village; then a demarcated line running in a southerly direction to the foot of the hills; then following the foot of the hills to the western boundary of Joroahar mauza; then a demarcated line following a small stream for about one mile in a north-easterly direction; and then taking northerly direction to the junction of the boundaries of Gadi, Chipadohur, and Kedh mauzas; then along the northern boundary of Kedh mauza to the Aurangá river.
East.—The Aurangá river; then the Puboa and Jiwa nadis.

South.—The northern and western boundaries of Labhur mauza; then up a feeder of the Jiwa nadi; then a demarcated line along the foot of the hills to the Charo nadi; then the Charo nadi and the Koel river.

West.—The western boundary of Meral mauza.

(4).—KUMANDI FOREST.

(Includes land described in the notification dated 23rd January, 1879, under section 34, as the Kumandi Forest.)

Description of boundaries.

North.—A demarcated line starting from the north-eastern boundary of Kuttiya mauza and following the foot of the hills to the south-western boundary of Kumandi mauza; then along the southern boundary of Kumandi mauza; then the southern boundary of Nowagadha mauza; then down a small stream for a short distance; then up another branch of it; then along the southern boundary of Bindee mauza.

East.—The western boundary of Bichrah and Zar mauzas.

South.—The north-eastern boundary of Munkheri tuppa mauza; then the northern boundary of Kuku mauza; then the Rani Deh nadi to where the north-eastern boundary of Kuttiyah mauza crosses it.

South-West.—The north-eastern boundary of Kuttiyah mauza.

(5).—RAMUNDAG FOREST.

(Includes land described in the notification, dated the 23rd January, 1879, under section 34, as the Ramundag Forest.)

Description of boundaries.

North.—The Burmabi nadi; then a demarcated line running in an eastern direction to the western boundary of Purroh mauza; then the northern boundary of Purroh and Ramundag mauzas; then the eastern boundary of Khami tuppa; then the northern boundary of Kautakona and Khori Mori mauzas to the Dhadun nadi.

East.—The Dhadun nadi.

South.—The Jorhur nadi and the Koel river.

West.—The Goanjh nadi.

(6).—BARASAND FOREST.

(Includes land described in the notification, dated 23rd January, 1879, under section 34, as the Barasand Forest, exclusive of area mentioned in the notification, under section 26, dated 27th January, 1883.)

Description of boundaries.

North.—The Koel river.

East.—The eastern boundary of Barasand tuppa.

South.—A demarcated line running from the east boundary of Barasand tuppa, first in a northerly and then westerly direction, to the junction of the Chechari and Neturhaut roads; then following the Chechari road in a southerly direction to where it crosses a stream tributary to the Burhwa nadi; then that stream to its junction with the Burhwa nadi; then following the northern boundary of Chechari tuppa in a westerly direction.

West.—The western boundary of the Barasand tuppa.

(7).—SIMAH FOREST.

(Includes land described in the notification dated the 23rd January, 1879, under section 34, as the Simah Forest.)

Description of boundaries.

North.—The southern and eastern boundary of Maromand mauza; then the southern boundary of Loiah mauza; then the western boundaries of Hulok, Serum, Darichapur, Jagir, and Bareebun mauzas; then the northern boundary of Kanteh mauza for about one mile; then a demarcated line running in a southerly direction to the south boundary of Kanteh mauza; then the south boundaries of Kanteh, Toridag, and Rood mauzas to a small feeder of the Koel; then down that feeder to the Koel river.

East.—The Koel river.

South.—Starting from the Koel river, the south boundary of Palámau district to where it meets the edge of the Neturhaut plateau; then a demarcated line following the edge of that plateau in a northerly and westerly direction to the source of a small stream which joins the Pindra nadi about one mile below Pindra village; then a demarcated line running in a westerly direction to where the southern boundary of mauza Korgee hits the western boundary of Simah tuppa.

West.—The western boundary of Simah tuppa.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION No. 3588For.

The 13th October, 1892.—The Lieutenant-Governor, with the previous sanction of the Governor-General in Council, is hereby pleased to declare, under the provisions of section 26 of the Indian Forest Act, VII of 1878, that the area specified below, which, in the Notification of the 23rd January, 1879, published at pages 71-81, Part I, of the *Calcutta Gazette* of the 29th idem, was declared to be Reserved Forest under section 34 of that Act, and forms a portion of the Reserved Forest then so declared under the name of the Lama Gamba forest, shall cease to be Reserved Forest with effect from the date of this Notification:—

Specification of land disforested.

Name of portion of reserve disforested.	District.	Area in acres.
		A. R. P.
Lama Gamba ...	Darjeeling ...	9 2 16

Boundaries.—North, East, and West.—Reserved Forest.

South.—The present location of the Lama Gamba bungalow, Selim Tea Company.

Brief description.—The land which it is proposed to disforest has been applied for by Mr. A. Cary, Manager of the Nigkaman Division of the Selim Tea Company, Limited, as a location for cooly lines, and adjoins a location of 6 acres 2 roods 3 poles, belonging to the Company. It is said that it is difficult to retain labour in the gardens on account of their unhealthiness, and that there is no suitable site for coolies on the estate.

Reasons for disforestation.—To be leased to the Selim Tea Company, Limited, as a building site for the construction of accommodation for their coolies on conditions to be inserted in the lease providing for the protection of the Reserves against injury or fire.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

REVENUE DEPARTMENT,—(OPIUM).

NOTIFICATION No. 3571-O.

The 13th October, 1892.—Mr. G. C. R. Nicholson officiated as Superintendent of the Patna Factory in addition to his own duties as Assistant Superintendent of that Factory up to the date of Mr. H. H. D'Oyly's assuming charge as Officiating Assistant Factory Superintendent.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

NOTIFICATION No. 3574-O.

The 13th October, 1892.—Mr. H. H. D'Oyly, Assistant Sub-Deputy Opium Agent, Bihár Agency, is appointed to act as Assistant Superintendent, Patna Factory, on being relieved by Mr. W. T. Ryves of his charge at Burhurwa, *vice* Mr. G. C. R. Nicholson appointed to act as Superintendent of the Patna Factory, under the notification No. 2372-O., dated the 20th June 1892, and until further orders.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

DECLARATION No. 3585L.R.

The 13th October, 1892.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the construction of police barrack and cook-house at Cossipore, district 24-Parganas, pargana Calcutta, tháua Chitpore, Khas Mahal Dehe Punchannogram, it is hereby declared that for the above purpose a piece of land measuring, more or less, 6 cottahs 15 chitaks of standard measurement, bounded on the north and east by the remaining land of holdings Nos 88 and 90; on the south by the land lately acquired for a bullock-shed and latrine; and on the west by the new road along the east side of the Shell Factory, is required within the aforesaid village of Cossipore, pargana Calcutta, district 24-Parganas.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

The declaration No. 2033L.R., dated the 24th May 1892, under section 6 of Act X of 1870 of the Government of India, which was published at page 564, Part I, of the *Calcutta Gazette* of the 25th idem, for the acquisition of land required for the above purpose, is hereby cancelled.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

NOTIFICATION.

No. 291*T.G.*—*The* 11*th October* 1892.—In exercise of the power conferred on him by clause (*c*) of sub-section (2) of section 5B of the Indian Factories Act, 1881, as amended by Act XI of 1891, the Lieutenant-Governor hereby declares that the factory, known as the Kajla Silk Filature at Rampur Boalia, shall be exempted from the operation of sub-section (1) of the same section.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

MEDICAL DEPARTMENT.

No. 2693*Medl.*—*The* 14*th October* 1892.—Assistant Surgeon Khurgeshur Bose is appointed temporarily to the medical charge of the civil station of Birbhum, with effect from the afternoon of the 8th August 1892.

H. H. RISLEY,
Secy. to the Govt. of Bengal.

JUDICIAL DEPARTMENT.

No. 184A.

The 15*th October* 1892.—Babu Monmohan Chakravarti, Deputy Magistrate and Deputy Collector, Jajpur, Cuttack, is vested with the power to try summarily the offences mentioned in section 260 of the Code of Criminal Procedure.

GRANT OF LEAVE TO MUNSIFS.—*The* 13*th October* 1892.—Babu Amar Chandra Mockerjee, Additional Munsif of Hathhazari and Fatikchari, in the district of Chittagong, is allowed leave for six months, under article 369 of the Civil Service Regulations, in extension of the leave granted to him on the 28th July 1892.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

The 15*th October* 1892.—Under the provisions of section 68, Act X of 1882 (the Code of Criminal Procedure), the Lieutenant-Governor is pleased to declare that on and from the 1st January 1893 every nazir, naib-nazir, bakshi and peon belonging to the Revenue establishment shall be an officer of the Court for the purpose of serving summons under the said section.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

The 18*th October* 1892.—The following notification is published for general information.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

No. 1957, dated Simla, the 29th September 1892.

NOTIFICATION—By the Government of India, Home Department.

IN accordance with the provisions of section 18, sub-section (1) of the Indian Explosives Act (IV of 1884), and with the directions contained in Home Department Notification No. 1964, dated the 2nd September 1887, the Governor-General in Council is pleased to publish, for general information, the following drafts which are proposed to be substituted for Rule 4 (III) and the second sentence of Rule 6 (XVI) of the rules to regulate the transport and importation of explosives published in Home Department Notification No. 1417, dated the 24th June 1887.

The drafts will be taken into consideration on the expiry of two months from the date of this Notification.

Draft Rules.

4 (III).—Except in the case of small consignments carried by public railway, which may be unloaded at any time, explosives shall be loaded or unloaded only between sunrise and sunset. For the purposes of this rule no consignment of more than one-half wagon load booked to one station shall be deemed to be a small consignment.

6 (XVI).—*Second sentence.*—Subject to the provisions of Rule 4 (III), the loading and unloading of explosives when once begun shall be diligently proceeded with until the same is completed.

The 18th October 1892.—The following order issued by the Government of India, Military Department, is re-published for general information.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

No. 942, "Judicial," dated 30th September 1892.

With reference to section 6 of the General Clauses Act (I of 1887) and section 27, sub-section (*1*), of the Cantonments Act (XIII of 1889), and in supersession of clause 2 of Notification No. 634, dated the 1st July 1892, it is hereby notified that the draft Cantonment Code will be taken into consideration on or after the 31st December 1892.

PUBLIC WORKS DEPARTMENT,—BENGAL.

ESTABLISHMENT.

The 17th October 1892.

No. 289.—Rai Bahadur Krishna Chandra Bandyopadhyay, Executive Engineer, is, on return from privilege leave, posted temporarily to the 2nd Calcutta Division.

RAILWAY.

The 18th October 1892.

No. 290.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for staff quarters at mile 70-71 between Jamalganj and Jaipur hât stations on the Northern Section of the Eastern Bengal State Railway System in mauza Teghur Beesha, pargana Soogoonah, zillah Bogra, it is hereby declared that for the above purpose a plot of land measuring, more or less, 23·7 poles of standard measurement, bounded on the north by the khas land of the zamindar of Nirgaon, on the east and south by the tenanted land of Raj Chunder Dass, and on the west by railway land, is required in the aforesaid mauza of Teghur Beesha.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

F. J. JOHNSTONE,
Secretary to the Govt. of Bengal.

ESTABLISHMENT.

The 15th October 1892.

Joint.-Secy. to the Govt. of Bengal.

Copy of a communication No. 3645, *dated the 7th October* 1892, *from the Secretary to the Government of Bombay, General Department, to the Secretary to the Government of Bengal, Marine Department.*

With reference to my letter No. 3370, dated 22nd ultimo, I am directed to state that, under instructions from the Government of India, quarantine restrictions at Aden, Perim, and the Somali coast against arrivals from Karachi have been withdrawn.

The 15th October 1892.

No. 95*Marine.*—Whereas it is prescribed by section 63 of Act X of 1889 (the Indian Ports Act) that any Magistrate, upon an application being made to him by the Consul of any Foreign Power to which the Foreign Deserters' Act, 1852, has, by an order of Her Majesty in Council, been or shall hereafter be declared to be applicable, or by the representative of such Consul, and upon complaint on oath of the desertion of any seaman not being a slave, from any vessel of such Foreign Power, may, until a revocation of such Order in Council has been publicly notified, issue his warrant for the apprehension of any such deserter, and may take

the further proceedings provided by the Act. And whereas Her Majesty in Council has been pleased to issue an Order in Council, dated the 18th day of August 1892, making the Foreign Deserters' Act applicable to the United States of America, and the Governor-General in Council has been pleased to direct the publication of the order, the Lieutenant-Governor directs the publication of the Order in Council in the *Calcutta Gazette*, for the information and guidance of the Magistrates within the Presidency of Bengal as follows:—

AT THE COURT AT OSBORNE HOUSE, ISLE OF WIGHT.

The 18th day August 1892.

PRESENT:

THE QUEEN'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS by "The Foreign Deserters' Act, 1852," it is provided that, whenever it is made to appear to Her Majesty that due facilities are or will be given for recovering and apprehending seamen who desert from British merchant ships in the territories of any Foreign Power, Her Hajesty may, by Order in Council, stating that such facilities are or will be given, declare that seamen, not being slaves, who desert from merchant ships belonging to a subject or such power when within Her Majesty's dominions, shall be liable to be apprehended and carried on board their respective ships, and may limit the operation of such order and may render the operation thereof subject to such conditions and qualifications, if any, as may be deemed expedient:

And whereas it hath been made to appear to Her Majesty that due facilities for recovering and apprehending seamen (not being citizens of the United States) who desert from British merchant ships in the territories belonging to the said United States will be given under a treaty between Her Majesty and the President of the United States signed at Washington on the third day of June, one thousand eight hundred and ninety-two, the ratifications of which were exchanged on the first day of August one thousand eight hundred and ninety-two:

Now, therefore, Her Majesty, by virtue of the power vested in Her by the said "Foreign Deserters' Act, 1852," and by and with the advice of Her Privy Council, is pleased to order and declare, and it is hereby ordered and declared, that from and after the publication hereof in the *London Gazette*, seamen not being slaves, and not being British subjects who within Her Majesty's dominions desert from merchant ships belonging to citizens of the United States, shall be liable to be apprehended and carried on board their respective ships, provided always that if any such deserter has committed any crime in Her Majesty's dominions he may be detained till he has been tried by a competent Court and until his sentence, if any, has been carried into effect:

And the Secretary of State for the Home Department, the Secretary of State for the Colonies, and the Secretary of State for India in Council are to give the necessary directions herein accordingly.

C. L. PEEL.

C. W. ODLING,
Joint-Secy. to the Govt. of Bengal.

The 18th October 1892.

No. 96*Marine*.—Lieutenant E. W. Petley, R.N., Port Officer and Deputy Conservator of the Port of Calcutta, is appointed to act, in addition to his own duties, as Vice-Chairman of the Commissioners of the Port of Calcutta, during the absence, on privilege leave, of Mr. J. H. Apjohn.

No. 97*Marine*.—Under section 7 of Act IV (B.C.) of 1887, the Lieutenant-Governor accepts the resignation tendered by Mr. W. B. Oldham of his appointment as Commissioner and Chairman of the Port Trust of Chittagong.

No. 98*Marine*.—Under the provisions of section 9 of Act IV (B.C.) of 1887, the Lieutenant-Governor is pleased to appoint Mr. R. T. Greer to be a Commissioner of the Port of Chittagong, *vice* Mr. W. B. Oldham, resigned.

Mr. Greer is also appointed to be Chairman of the Commissioners.

C. W. ODLING,
Joint-Secy. to the Govt. of Bengal.

PRAN KUMAR DAS,
Personal Assistant, for Commissioner.

BURDWAN COMMR.'S OFFICE, *the 25th September* 1892.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 1583B.

NOTICE is hereby given that the Eleventh Sale of Opium, the Provision of 1890-91, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Wednesday, the 2nd November 1892, at 11 A.M., and will comprise 3,642 chests, viz.—

	Chests.
Opium manufactured at the Patna Factory	1,927
Do. ditto at the Ghazeepore Factory	1,715
Total ...	3,642

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 24th November 1891, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 7th and 17th November 1892, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 3-30 P.M. of Monday, the 7th November 1892, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Thursday, the 17th November 1892.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the opium manufactured at the Patna and Ghazeepore Factories will be brought to sale down to December next about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so :—

DATES.	Manufactured at the Patna Factory ; about chests.	Manufactured at the Ghazeepore Factory ; about chests.	Total, about chests.
On or about Thursday, 1st December 1892 ...	1,927	1,715	3,642
Total ...	1,927	1,715	3,642

By order of the Board of Revenue, L.P.,

T. INGLIS, *Offg. Secretary.*

BOARD OF REVENUE, L.P., FORT WILLIAM, *the 24th September* 1892.

No. 1233*A.*

NOTIFICATION.

LAND REVENUE.

Orders and Notifications by the Government of India, &c.

[*Reprinted from the "Gazette of India."*]

MILITARY SECRETARY'S OFFICE.

NOTIFICATIONS.

Simla, the 8th October 1892.

HIS EXCELLENCY THE VICEROY AND GOVERNOR-GENERAL will hold a Levée at Government House, Madras, on Saturday, the 26th November 1892, at 9-30 P.M.

All Civil and Military Officers and the Native Officers of the Native Regiments in Madras are invited to attend.

His Excellency will also be glad to receive other Gentlemen, who should submit their names previously to the Military Secretary to His Excellency the Governor of Madras, who will issue cards of admission, which should be shown to the Aide-de-Camp in waiting before the Levée, if required.

All Officers and Gentlemen attending the Levée are requested to bring with them two cards, with their names legibly written on them.

Officers and Gentlemen wearing uniform will appear in Full Dress; Gentlemen not wearing uniform in Evening Dress.

The 11th October 1892.

His Excellency the Viceroy and Governor-General will hold a Levée at Chadarghat Residency, Hyderabad, on Thursday, the 3rd November, at 9-30 P.M.

All Civil and Military Officers are invited to attend.

His Excellency will also be glad to receive other Gentlemen, European and Native, who should submit their names previously to the Resident.

All Officers and Gentlemen attending the Levée are requested to bring with them a card, with their names very legibly written upon it. This card will be given to the Military Secretary to the Viceroy at the time of presentation.

Officers and Gentlemen wearing uniform will appear in Full Dress.

Gentlemen not wearing uniform may appear in Evening Dress.

The Levée will be closed by the presentation to His Excellency the Viceroy of the Native Officers of the regiments in garrison by their Commanding Officers.

The 14th October 1892.

His Excellency the Viceroy will leave Simla on Thursday, the 27th October 1892.

His Excellency will visit Hyderabad, Mysore, Bangalore, and Madras, and will arrive at Calcutta on Friday, the 2nd December 1892.

All covers intended to reach His Excellency the Viceroy and Governor-General and Party during His Excellency's tour should be addressed "Governor-General's Camp," without the addition of any post-town.

The Party accompanying His Excellency the Viceroy on tour is as follows :—

Her Excellency the Marchioness of Lansdowne.
Sir Mortimer Durand, K.C.I.E., C.S.I., Foreign Secretary.
J. P. Hewett, Esq., C.I.E., Officiating Private Secretary to the Viceroy.
Colonel Lord William Beresford, V.C., C.I.E., Military Secretary to the Viceroy.
J. A. Crawford, Esq., C.S., Officiating Deputy Secretary, Foreign Department.
Surgeon-Major E. H. Fenn, Surgeon to the Viceroy.
Captain the Hon'ble C. Harbord, A.-D.-C.
Lieutenant H. A. Pakenham, A.-D.-C.
Lieutenant S. H. Pollen, A.-D.-C.
F. W. Latimer, Esq.

All communications connected with business of a mere routine nature should be sent as usual to the head-quarters of the several Departments.

PROGRAMME OF HIS EXCELLENCY THE VICEROY'S ARRIVAL IN CALCUTTA.

HIS EXCELLENCY THE VICEROY AND GOVERNOR-GENERAL will arrive in Calcutta on Friday, the 2nd December 1892, at about 2 P.M., by the R.I.M.S. *Clive*, and will disembark at Prinsep's Ghat at 5 P.M., in the R.I.M.S. Launch *Maud*.

His Excellency will be received at Prinsep's Ghat by His Honour the Lieutenant-Governor of Bengal, Members of His Excellency's Council, the principal Civil and Military Officers, and other gentlemen who are desirous of attending.

Guards of Honour of British Infantry and of the Administrative Battalion, Presidency Volunteers, with band, will be drawn up at Prinsep's Ghat.

His Excellency the Viceroy's Body-Guard and the Calcutta Mounted Volunteer Corps will form the escort.

The route taken will be by the Strand Road and Esplanade Row into Government House by the North-West Entrance.

A Guard of Honour of Native Infantry, with Band and Colour, will be drawn up in front of the Grand Staircase of Government House.

A Viceregal salute will be fired from the ramparts of Fort William as His Excellency lands.

Full Dress will be worn by Officers entitled to wear uniform. Gentlemen not entitled to wear uniform will appear in Morning Dress.

By Command,

WILLIAM BERESFORD, *Colonel*,
Military Secretary to the Viceroy.

The following order, issued by the Government of India in the Legislative Department, is republished for general information.

Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

EMIGRATION.

The 12th October 1892.

No. 2443—25.—In exercise of the powers conferred by section 80 of the Indian Emigration Act XXI of 1883, the Governor-General in Council is pleased to make the following amendments and additions to the rules relating to Colonial Emigration published with Revenue and Agricultural Department's Notification No. 94-E. of the 18th March 1886:—

1. To Rule 9 the following words shall be added, namely:

"and over the entrance door of every sub-depôt shall be conspicuously fixed a board with the words Emigration sub-depôt for Colony inscribed thereon in English and the vernacular language or languages of the district."

2. To Rule 10, clause (*b*), the following words shall be added, namely:—

"The number that the premises are capable of holding will be determined by the District Civil Surgeon or by the Medical Officer of the sub-division in which the sub-depôt is situated, and inscribed on a board conspicuously hung up for the information of inspecting officers."

3. After Rule 10, clause (*i*), the following clause shall be inserted:—

"(*i*-A). The keeping by the recruiter or person in charge of the sub-depôt of a register containing correct entries of the following particulars in regard to all intending emigrants received therein—*first*, of the date of their admission; *secondly*, of their descriptive particulars, such as name, father's name, sex, age, caste, and name of native village, together with that of the district and thána in which it is situate (so as to enable friends to trace them); *thirdly*, of the date of their removal or departure from the sub-depôt; and *fourthly*, of the reason of such removal or departure (for the information of the District Officers and Emigration Agent concerned); and the immediate production of such register when required by an inspecting officer or by any one duly authorized by an inspecting officer to see it."

4. In Rule 10, clause (*i*), for the words "readiness for" the word "immediate" shall be substituted.

5. After Rule 10 the following Rule shall be inserted, namely:

"*Rule* 10*A*. Whenever any registered emigrant is removed from the district of registration to a sub-depôt in any other district for the purpose of being forwarded therefrom to the depôt of the Emigration Agent concerned, but is not so forwarded owing to physical unfitness or irregular recruitment, the person in charge of such sub depôt shall pay to such emigrant reasonable compensation, not being less than his reasonable expenses for his return to his home in the district of registration."

6. In Rule 11, immediately before the last sentence, the following sentence shall be inserted, namely:

"The register kept in the sub-depôt shall be regularly tested by the officer inspecting the sub-depôt under this rule."

7. After Rule 20 the following Rule shall be inserted, namely:

"20-A. Whenever any intending emigrant is not registered owing to rejection on account of physical unfitness or irregular recruitment, the recruiter shall make such provision as the registering officer may deem necessary for the return of such emigrant to the place at which he was recruited."

8. In the Appendix, Schedule B, under the heading "*Of the cargo hold,*" after the word "register" the following words shall be inserted, namely:

"provided that this additional ventilation may, in the discretion of the Marine Surveyor, be dispensed with in the case of vessels carrying cargoes which do not and cannot give off any smell or gas."

9. In the Appendix, Schedule G, Scale No. 4 (A) "of clothing," in the remarks column, opposite the article "Saries" the following remark shall be inserted, namely:

"Also one yard of cotton cloth to females above 13 years of age."

J. W. P. MUIR-MACKENZIE,
Offg. Secretary to the Government of India.

The following order, issued by the Government of India in the Military Department, is republished for general information.

PART II.

Advertisements.

[N. B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette cannot be received after Noon on Monday.]

LAND SALE NOTICES.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Eastern Bengal State Railway, near the Baruipur station, in the district of the 24-Parganas, will be put up to sale at noon on the 12th November 1892, corresponding with the 28th Kartick 1299 (B.S.), on the spot.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavation on the land nearer than 15 feet from the railway fencing, or plough the land closer than 3 feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale.

Countersigned.

F. R. S. COLLIER, Collector of the 24-Parganas.

TARINI KUMAR GHOSE, Collector under Act X of 1870.

NOTICE is hereby given, under sections 6 and 3 Act XI of 1859, that the undermentioned estates or shares of estates in the district of Bhagalpur will be put up for sale at the Collector's Office of that district on 10th November 1892 for arrears of revenue and other demands due for 1st June 1892, which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue.

When in columns 6, 7, and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share and the other share or shares in the estate:—

1	2	3	4	5	6	7	8	9
Tauzi No.	Name of mahal and pargana.	Sadar jama of whole mahal.	Whether the whole estate is to be sold.	If only a share is to be sold, specification of such share or shares.	Names of proprietors of property to be sold.	If only a share is to be sold, the sadar jama of such share.	If the whole estate is to be sold, the arrears due from it.	If only a share is to be sold, the arrears due from it.

SURVEY OF INDIA DEPARTMENT.

MAP RECORD AND ISSUE OFFICE.

Maps published at the Head-Quarter Offices, Calcutta and Dehra Dun, for the quarter ending 30th September 1892.

Agents for sale of Maps:

CALCUTTA.—No Agent. Maps can be obtained from the Office, 13, Wood Street.
ALLAHABAD.—Curator, Government Books, North-Western Provinces.
NAGPUR.—Curator, Government Books, Central Provinces.
LAHORE.—Munshi Gulab Sing, Government Publishers and Booksellers.
MADRAS.—Messrs. Higginbotham & Co.
POONA.—Supdt., Government Photo-zincographic Dept.
RANGOON.—Supdt., American Baptist Mission Press.
MANDALAY.—The Manager, Mandalay Herald Press.
RAJKOT.—Mr. Narainjee Sunderjee, for maps of Kathiawar only.
AHMEDABAD.—The Huzoor Deputy Collector, for maps of Gujarat only.
LONDON.—Mr. Edward Stanford, 26 and 27, Cockspur Street, Charing Cross, London, S. W.
SIMLA.—Mrs. E. Corstorphan, Simla Fancy Repository.
MUSSOORIE.—The Secretary, Mussooree Book Society, Baring Institute, Mussooree.

All published maps are sold at the Survey of India Office, Calcutta, for cash prepaid.

N.B.—Maps are issued on the Public Service from the Calcutta Office, and also by the above-mentioned agents. The *cost of mounting maps, packing, and postage of parcels must be borne by applicants themselves.* Lists of newly-published maps are periodically notified in the Gazettes of India and of Local Governments.

The cost of supplies which exceeds Rs. 50 is adjusted by book-debit for Government Departments by this Office in communication with the Comptroller of India Treasuries, when Invoices are issued in triplicate with maps supplied.

When the cost does not exceed Rs. 50, agents are authorized to sell to Civil only, and not to Military and P. W. D. officials. Payment must be made in cash in all cases, *vide* Note XI (2), Rule 22, Chapter V, of the Civil Account Code.

Cash payments to this Office include payment by Remittance Transfer Receipt or by Money-Order. When Treasury Receipts or Challans and Stamps are forwarded in payment, they are returned as inadmissible.

RAMAPRASANNA GHOSH, M.A., B.L., Secretary.

Calcutta, the 30th September 1892. (680—1)

Oudh Forest Department.

BAHRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of sâl beams and scantlings supplied from this depôt will be as follows:—

BEAMS.—21 feet length, at Rs. 2-10 per cubic foot.
22 „ „ 2-12 „
23 „ „ 2-14 „
24 „ „ 3 „

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot.

SCANTLINGS—From 12 to 20 feet, at Rs. 2-8 per c. ft.
Under 12 and over 7 „ 2-4 „
Under 7 feet „ 2 „

The above prices are for ordinary building purpose.

For *Planking Sleepers, &c.*, special rates will be fixed by agreement.

The Department will still take orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, N. W. P. and Oudh, Oudh Circle.

KANHYA LAL,
Sub-Assistant Conservator of Forests,
Bahramghat Division.

Bahramghat, the 1st April 1886.

CALCUTTA,
The 14th October 1892

K. MALLIKA,
Accountant.

PATRICK McGUIRE,
Secretary.

Estate Walter Gray, deceased.

NOTICE is hereby given that all persons having claims against the Estate of Walter Gray, late of No. 3, Mango Lane, Calcutta, are requested to send particulars of same to the undersigned before the 31st December 1892, after which date no claims will be recognized.

WILLIAM MORAN & Co.

3, Mango Lane, the 14th October 1892.

(683—1)

Notice.

WANTED a competent Surveyor to demarcate and measure the lands in dispute in a civil suit pending before this Court. The services of Surveyor will be required from the 16th of November 1892, for a period of one month certain and possibly longer. Remuneration at the rate of Rs. 10 per diem will be paid besides actual expenses of travelling. The Surveyor must be well qualified, so as to be able to ascertain the true meridian of the place by astronomical observation.

The Surveyor is to bring with him instruments required by him for the survey. The plaintiff in the suit shall pay for the hire of the same.

Applications should be sent to the undersigned on or before the 7th November next.

P. R. KHAUND, for Dy. Commr. and Sub-Judge.

Dhubri, the 14th October 1892. (688—3)

The Great Eastern Hotel Wine and General Purveying Company, Limited.

NOTICE is hereby given that the adjourned Extraordinary General Meeting of the Shareholders of the Company will be held at the Registered Office of the Company, Nos. 1, 2, and 3, Old Court House Street, Calcutta, on Thursday, the 3rd day of November 1892, at 3 o'clock P.M., to receive the Report of the Directors, and pass such resolutions thereon as may be deemed necessary.

By order of the Board,

SHIRLEY TREMEARNE, Managing Director.

Calcutta, the 17th October 1892. (685—1)

The Mesai Tea Company, Limited (in Liquidation).

NOTICE is hereby given that, in accordance with section 186 of the Companies' Act, 1882, the Final General Meeting of the Shareholders of the above Company was duly held on 13th October 1892, and the Liquidator's accounts passed. The third and final division of assets at the rate of Rs. 3-7-2 per share will be payable by the undersigned after 17th October 1892.

A. H. HICK, Liquidator.

38, Strand, Calcutta, the 13th October 1892,

(684—1)

Reduction in price of Cinchona Febrifuge.

FROM 1st April 1891, and until further orders. Cinchona Febrifuge can be purchased by all Government officers and by any one taking *ten pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, at the following rates. Four ounce tin Rs. 2-8; eight ounce tin Rs. 5; one pound tin Rs. 10. The general public can be supplied by the Superintendent, Botanic Garden, *for cash only* at the undernoted rates:—Per four ounce tin Rs. 3; per eight ounce tin Rs. 6; per pound tin Rs. 12. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage four annas per 4 ounce tin, eight annas per 8 ounce tin, and twelve annas per pound tin, in addition to the foregoing rates.

Reduction in the Price of the Pure Sulphate of Quinine.

MANUFACTURED AT THE BENGAL GOVERNMENT CINCHONA PLANTATION.

ON and after 1st April 1891 the price of this quinine will be as follows:—

1 Pound tin Rs. 16, or, post free, Rs. 16-12.
½ " " " 8 " " " " 8-8.
¼ " " " 4 " " " " 4-8.

Analysis shows this quinine to be of the purest manufacture, and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Sibpur, near Calcutta. It can be had either white or coloured pink.

In the Goods of John Ure Reid, deceased.

PURSUANT to Section 320 of Act X of 1865, and Section 42 of Act XXVIII of 1866, notice is hereby given that all persons having claims against the Estate of John Ure Reid, late of No. 11, Clive Row in the town of Calcutta, Assistant Manager of the Oriental Gas Company, Limited, deceased, should, on or before the 1st day of November 189', send in particulars of their claims to the undersigned on behalf of Thomas Spalding, Esquire, of No. 11, Clive Row aforesaid, to whom Letters of Administration (with a copy of the Will annexed) of the property and credits of the said deceased have been granted by the High Court at Calcutta, after which date no claims will be admitted, and the assets of the estate of the said deceased will be distributed.

SOWTON AND SEN, Attorneys of the Administrator.

2, Church Lane, Calcutta, 29th August 1892.

(551—3)

Candidates must possess a competent knowledge of plane-table, surveying, and have had experience in settlement work.

Applications, with copies of testimonials, to be sent to the undersigned.

J. A. CRAVEN, Settlement Officer, Sonthal Parganas
Dumka, the 22nd September 1892.

Notice.

NOTICE is hereby given that the business of dealers in gold and silver which was carried on by me in partnership with my brother Baboo Muden Gopal Dey, under the style of Bonomally Dey, Gocool Chunder Dey, at No. 60-61, Khengraputty Street, Barabazar, was dissolved by mutual consent on the 3rd of July last, and since that date a separate business has been started by me at No. 58, Khengraputty Street, under the style of Bonomally Dey, Nobokumar Dey.

(577—2) BONOMALLY DEY.

BURMA.

POLICE SUPPLY AND CLOTHING DEPARTMENT.

NOTICE.

SEALED tenders will be received by the Deputy Inspector-General of Police for Supply and Clothing, Burma, for the supplies entered in the subjoined schedules up to 12 o'clock noon on the 15th December 1892, when the tenders will be opened in the presence of those interested who may choose to attend.

Tenderers must tender for all the supplies entered in the schedules, but may tender for either or both of the schedules.

Tenderers for Schedule No. 1 may also, if they wish, tender for the loading, carriage and delivery of the supplies entered in Schedule No. 1 at the following stations:—Pyinmana, Yamèthin, Pyawbwè, Meiktila road, Thedaw, Myittha, Kyauksè, Minbu, Magwè, Pakôkku, and Myingyan.

Tender forms and particulars regarding the contract and the contract-deed can be obtained on application to the Deputy Inspector-General of Police for Supply and Clothing, Burma, Rangoon.

Tenders should be enclosed in sealed envelopes and the superscription "Tender for the supply of rations to the Upper Burma Military Police" should be clearly written on the outside of the envelopes.

The Deputy Inspector-General of Police for Supply and Clothing, Burma, does not bind himself to accept the lowest or any tender, and reserves to himself the right of rejecting any tender without assigning any reason for so doing—

PURNA CHANDRA BOSE,
For Exe. Engr., Nadia Rivers Division.

Berhampur, the 17th October 1892.

THE following Weather Reports of the Bengal Meteorological Department, issued by orders of the Government of Bengal, can be supplied to the public at the prices annexed :

1st —Bay of Bengal Daily Report giving meteorological observations taken at 27 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Bay of Bengal Storm Signal Service. The report giving 8 A.M. observations of the day is distributed by peon in Calcutta soon after 11 A.M Price to subscribers in Calcutta Rs. 2 per mensem.

2nd.—Bengal Daily Report containing observations taken at 45 meteorological stations in Bengal and Assam, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 8 A.M. observations of each day is printed in time for the evening mail, and is distributed to subscribers in Calcutta the same evening. This report for the present is only published during the south-west monsoon, *i.e.* from about May 15th to November 15th, orthereabouts. Price Rs 2-8 per mensem, including postage.

3rd —A Weekly and Monthly Statement of Meteorological Observations taken at 49 observin stations, and of rainfall recorded at 260 sub-divisional stations. together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal, 5, Russel Street, Calcutta, for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

ALEX. PEDLER,
Meteorological Reporter to the Govt. Bengal.

WEDNESDAY, OCTOBER 19, 1892.

PART III.

Acts of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

[First Publication.]

THE following Act passed by the Lieutenant-Governor of Bengal in Council received the assent of His Honour on the 4th September, 1892, and having been assented to by His Excellency the Viceroy and Governor General on the 4th October, 1892, is hereby published for general information :—

ACT No. I OF 1892.

An Act to further amend the Village Chaukidari Act, 1870.

Preamble.

WHEREAS it is expedient to further amend the Village Chaukidari Act, 1870: It is enacted as follows:—

Construction and extent.

1. This Act shall be read with, and taken as part of, Bengal Act VI of 1870, as amended by Bengal Act I of 1871 and Bengal Act I of 1886; and it shall extend to all districts in which the said Act so amended is now or may be hereafter in force.

Definition of "Magistrate" omitted.
"District Magistrate" substituted for "Magistrate of the District" and "Magistrate."

2. (1) In section 1, the definition of "Magistrate" shall be omitted.

(2) Except as is otherwise provided in this Act, for the words "Magistrate of the District" and for the word "Magistrate" so often as they occur respectively, in the Village Chaukidari Act, 1870, as amended by Bengal Act I of 1871 and Bengal Act I of 1886; the words "District Magistrate" shall be substituted.

(3) In section 64, the words "and Magistrates" shall be omitted; and for the words "Magistrates of Districts," the words "District Magistrates" shall be substituted.

3. For section 3, as amended by section 2 of Bengal Act I of 1886, the following shall be substituted :—

"The District Magistrate may—

Appointment of panchayats.

"(*1*) by an order in writing, appoint not less than three nor more than five residents in any village within the district of which he has charge to be the panchayat thereof;

or (*2*) he may, with the previous sanction of the Local Government, direct that the adult male rate-paying residents of any village shall select, according to any rules that may be prescribed by the Local Government and published in the *Calcutta Gazette*, not less than three nor more than five residents of the village to be the panchayat thereof; and the District Magistrate shall, if he approves of the persons so selected, appoint such persons to be the panchayat; but if in his opinion any person so selected is, for reasons to be recorded by him in writing, unfit to be a member of the panchayat, the District Magistrate shall appoint a fit and proper resident to be a member of the panchayat :

Provided that no panchayat shall be appointed in any place to which the Bengal Municipal Act, 1884, has been, or may hereafter be, extended :

Provided also that the Local Government shall be entitled to prescribe that in certain specified local areas, to be notified in the *Calcutta Gazette*, the number of persons to be appointed to discharge the duties of a panchayat may be reduced to one.

4. After section 3 the following section shall be inserted :—

"3A. The District Magistrate may from time to time by an order in writing, with the sanction of the Commissioner, delegate his powers under this Act, either wholly or in part, to any Magistrate of the first class subordinate to him, or to any Magistrate in charge of a Sub-division or to the District Superintendent of Police; and by a like order, and with the same sanction, may withdraw such delegated powers."

Delegation of powers by the District Magistrate.

5. For section 4, the following shall be substituted :—

"The District Magistrate may, from time to time, by an order in writing under his hand, declare any local area or group of dwellings, within the district of which he has charge, to be a village for the purposes of this Act."

Power to define a village.

6. In section 5, the words "or in two or more villages so situate as in section 4 is set forth;" and the words "or villages," so often as they occur in this section, shall be omitted.

Amendment of section 5.

7. For section 11, the following shall be substituted :—

"The District Magistrate shall determine the number of chaukidars to be employed in a village:

Number of chaukidars to be determined by the District Magistrate.

Provided that, without the sanction of the Commissioner, there shall not be more than one chaukidar for every sixty houses."

8. For section 12, the following shall be substituted :—

"The salaries of chaukidars appointed shall be determined by the District Magistrate:

The District Magistrate to determine salaries of chaukidars.

"Provided that such salaries shall not be less than two nor more than six rupees per mensem."

9. For section 13, the following shall be substituted :—

"The panchayat shall impose an assessment yearly in each village equal to the amount required for the pay and equipment of the chaukidars, together with fifteen per cent. above such amount, in order to provide for payment of the expenses of collection and losses from the non-realization of the rate from defaulters."

Salaries to be provided by assessment.

10. For section 14, the following shall be substituted :—

"All owners or occupiers of houses in any village, and any person who has within such village a cutcherry for collecting rents, shall be liable to assessment for the purposes of this Act."

Persons liable to assessment.

11. For section 35, the following shall be substituted :—

"(1) The panchayat shall, when a vacancy exists, nominate a person to be a chaukidar under this Act, and the District Magistrate shall, if satisfied with such nomination, appoint such nominee to be chaukidar:

Appointment and dismissal of chaukidar.

Provided that if the panchayat fail to nominate within a reasonable time a person to be a chaukidar, or the District Magistrate is not satisfied with such nomination, the District Magistrate shall appoint any person he thinks fit to be a chaukidar.

"(2) The District Magistrate, or the panchayat with the sanction of the District Magistrate, may, from time to time, dismiss any chaukidar so appointed."

12. Sections 36 and 37 are hereby repealed.

13. For section 39, the following shall be substituted :—

"Every chaukidar appointed under the provisions of this Act shall perform the following duties :—

Duties of chaukidar.

1st.—He shall give immediate information to the officer in charge of the police-station within the limits of which the village is situate of every unnatural, suspicious or sudden death which may occur, and of any offence specified in Schedule B which may be committed within his village, and he shall further keep the police informed of all disputes which are likely to lead to any riot or serious affray.

2nd.—He shall arrest all proclaimed offenders and any person who in his presence commits any offence specified in Schedule B, and any person against whom a hue-and-cry has been raised of his having been concerned in any such offence, whether such offence has been or is being committed within his village or outside of it, and shall, without delay, convey any person so arrested to the said police-station.

3rd.—He shall, to the best of his ability, prevent, and may interpose for the purpose of preventing, the commission of any offence specified in the said schedule.

4th.—He shall assist private persons in making such arrests as they may lawfully make, and shall report such arrests without delay to the officer in charge of the said police-station.

5th.—He shall observe, and, from time to time, report to the officer aforesaid the movements of all bad characters within his village.

6th.—He shall report to the officer in charge of such police-station the arrival of suspicious characters in the neighbourhood.

7th.—He shall report to the officer aforesaid, in a form signed by one member of the panchayat, the births and deaths, if any, which have occurred within his village at such intervals as the District Magistrate may determine.

8th.—He shall report to the officer aforesaid the death or absence for more than two consecutive months of any member of the panchayat.

9th.—He shall supply any local information which the District Magistrate or any officer of police may require.

10th.—He shall obey the orders of the panchayat in regard to keeping watch within his village and other matters connected with his duties as chaukidar.

11*th*.—He shall assist the person collecting the rate in making such collection."

14. For section 42, the following shall be substituted :—

"All fines and penalties levied under this Act shall be credited to a District Chaukidari Reward Fund, the control over which shall rest with the District Magistrate."

Fines and penalties to be credited to District Chaukidari Reward Fund.

15. In section 43, for the words "or person as the Magistrate shall appoint," the words "as the Local Government may by rules made under this Act prescribe or direct," shall be substituted.

Amendment of section 43.

16. In section 44, for the words "as the Magistrate may appoint," the words "as the Local Government may prescribe or direct," shall be substituted.

Amendment of section 44.

17. For section 46A, the following shall be substituted :—

"The District Magistrate may at any time, on the application of the panchayat of any village, or of his own motion if, in his opinion, the collection of the rate is badly carried out, or if the chaukidar is not regularly paid, appoint a tahsildar to assist the person collecting the rate; and such tahsildar shall exercise all the powers vested in the panchayat for the collection of the said rate; and the District Magistrate shall, on a like application, and he may of his own motion, revoke such appointment."

Appointment of tahsildar.

18. For section 62, the following shall be substituted :—

"All powers vested in the panchayat for the nomination and dismissal of chaukidars and for making the assessments hereinbefore directed to be made may, in case the panchayat, after a notice in writing from the District Magistrate to exercise such powers, or any of them, refuse or, after the lapse of a reasonable time in that behalf, neglect forthwith to exercise the same, be exercised by the District Magistrate.

Powers of the panchayat may be exercised by the District Magistrate.

19. For Schedule B, the following shall be substituted :—

"SCHEDULE B

(referred to in sections 39 and 41).

Offences to be reported and for which a chaukidar may arrest.

Murder, culpable homicide, rape (when the offender is not the husband of the woman raped), dacoity, robbery, theft, mischief by fire, house-breaking, counterfeiting coins, causing grievous hurt, riot, administering stupefying drugs, kidnapping, and all attempts and preparations to commit, and abetments of the said offences."

CALCUTTA;
The 18*th October* 1892.

C. H. REILY,
Assistant Secretary to the Govt. of Bengal,
Legislative Department.

RESOLUTION ON THE ANNUAL REPORT ON THE WORKING OF THE CALCUTTA SHIPPING OFFICE AND OF THE SHIPPING OFFICES AT THE OUTPORTS FOR THE YEAR 1891-92.

No. 2055 Marine.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

Dated Calcutta, the 5th September 1892.

RESOLUTION.

READ—

The Annual Report on the working of the Calcutta Shipping Office and of the Shipping Offices at the outports for the year 1891-92.

The post of Shipping Master was filled by Captain E. W. Petley, R.N., throughout the year. Mr. L. Namey, Chief Clerk of the office, was on the 18th November 1891 appointed to be also a Deputy Shipping Master at this port.

2. The receipts of the Shipping Office, which for some years had been steadily rising, till it reached Rs. 36,908 in 1890-91, fell during the year to Rs. 31,993, showing a decrease of Rs. 4,915. This decrease is said to be due to the recent Act VI of 1891, under which the Straits Settlements are included in the Indian Home Trade; and as vessels on this trade do not engage or discharge their crews through the Shipping Office, several large steamers which formerly used the Shipping Office for shipping and discharging the crews now abstain from doing so. By this arrangement, the Shipping Office is converted, as far as these vessels are concerned, into a mere record and registry office,

duplicates of originals and time-expired agreements being deposited in it, and regular lists furnished to it of the seamen shipped and discharged on board during the course of the voyage. The disbursements amount to Rs. 20,318, against Rs. 19,887 during the previous year, and show little variation.

3. During the previous year this Government had under consideration the question of reducing the fees levied by the Calcutta Shipping Office so as to more nearly balance receipts and expenditure. On further examination of this question, it was found that there were difficulties in the way of making an equitable reduction, as although the Government had power under the Act to reduce the fees, the issue of such an order would not restrict the power of the owners to recover from the seamen according to the scale fixed in section 6 of the Act. The question was therefore allowed to drop, but steps will be taken to insert a provision in the amended Code of Merchant Shipping now under preparation, under which the amount to be recovered from the seamen will be reduced in proportion to the reduction of the fees levied.

4. There was an increase of Rs. 3,506 in the amount of funds held in trust by the Calcutta Shipping Office, the figures being Rs. 52,022 in 1891-92 against Rs. 48,516 in 1890-91. These trust funds fall under three heads:—

(1) Ticket money or a portion of the wages due to crews actually on boardship paid into the Shipping Office by agents of ships on account of the families of seamen.

(2) Deposit money (*a*) of British seamen and (*b*) of Native seamen received from masters of ships on account of wages due to seamen left behind in hospital or jail, and also sums deposited by British seamen discharged with the consent of their commanders as security against their falling into distress.

(3) Estates of deceased seamen (*a*) British and (*b*) Native, being the sums due to them on account of wages and sale of effects.

Under (1) are entered all transactions when sailors receive advances and agree to deposit a part of them for their families in Calcutta. Under (2) there are two separate classes, involuntary deposits made by masters on behalf of men in jail or hospital, and voluntary deposits where the men use the Shipping Office as a Savings Bank. The report as received does not show those deposits separately, and in future reports, the Lieutenant-Governor desires that they should be distinguished. The Lieutenant-Governor also desires that in future the number of seamen, as well as the amounts, should be shown in all these cases.

5. As stated in the preceding paragraph, the transactions of the trust fund show an increase of Rs. 3,506. This increase was chiefly due to increases under "Deposit money of Native seamen" and "Estates of British seamen," and there was also a slight decrease under "Deposit money of British seamen."

6. With the report is submitted a statement showing the number of seamen of all nationalities shipped and discharged at the Port of Calcutta through the Shipping Office during the year, of which the following is an abstract:—

	1891-92.		1890-91.	
	Shipped.	Discharged.	Shipped.	Discharged.
British	1,474	1,398	2,017	1,893
European continental ...	441	456	729	974
American and West Indian...	275	188	292	237
Australian	14	17	14	16
Asiatics other than Indians	458	341	428	401
Indian proper	14,234	13,697	16,092	15,394
Eurasian and Goanese ...	298	338	......	.. ...
Total ...	17,194	16,435	19,572	18,915

This decrease as compared with 1890-91 is due to the extension of the "Home trade" area. The number of Eurasians as distinct from Goanese was 68 shipped and 44 discharged. It is a remarkable fact that not a single Eurasian or Goanese is a lascar or fireman. A few Eurasians, however, are Officers and Engineers.

7. It is observed that the statistics of the numbers shipped and discharged refer only to those that have passed through the Shipping Office. No statistics

exist as to the number shipped or discharged by Consuls from ships under Foreign flags. If this information can be procured, it should be given in the next report. It would be useful, and would help to guide the Shipping Master in allowing discharges of European crews under British flag.

8. Simultaneously with the decrease in the number of British seamen discharged through the Calcutta Shipping Office, there has been a falling off in the remittances on account of seamen's money-orders. The amount remitted was Rs. 11,009 against Rs. 14,404 during 1890-91.

9. The health of both European and Native crews continues good Among the Europeans 22 casualties were reported against 23 during the previous year. These casualties apparently refer to those that occurred at sea. This information is unimportant so far as the Local Government is concerned, and it would be more to the point to furnish statistics of health in port. This should be done in future. The Sanitary Commissioner, in his letter No. 2204, dated 28th March 1892, submitting the annual report of the Port of Calcutta for 1891, says that 21,505 European seamen arrived in Calcutta last year against 19,496 in 1890. The daily average population was 1,426 against 1,679. Deaths per mille 29·45, preceding year 23·82. Cholera 7·01 against 8·32. Two cases of mild scurvy were reported on board the vessels *Eurydice* and *Moy*. Among Native crews no serious case occurred during the year.

10. Proper steps were taken by the authorities to protect seamen from imposition. In one case it was stated that the master had overcharged a seaman for granting him his discharge. This having been found to be correct, the amount overcharged was ordered to be refunded. In another case a Muhammadan cabin boy was ordered to do certain work opposed to his caste prejudices, and on his refusal he was assaulted. The charge having been proved, the boy was awarded one month's pay as compensation. Several other complaints were made, but on enquiry they were found to be either false or exaggerated.

11. The receipts of the Chittagong Shipping Office (which is under Mr. Warden, but Mr. Good acted for him most of the year) fell from Rs. 200 in 1890-91 to Rs. 99 in 1891-92. This decrease is due to the smaller number of British seamen discharged at this port, few of whom joined other vessels. The receipts of the trust fund, including a balance of Rs. 347 brought forward from the preceding year, amounted to Rs. 8,852, the whole of which was disbursed. The numbers of seamen shipped and discharged were 17 and 50 against 83 and 135 during the previous year.

12. During the year 103 vessels were visited in the Port of Chittagong by the Shipping Master with a view to enquire into the health of crews and to inspect provisions, drinking water, medicines and forecastle accommodation, and also to enquire into accidents and casualties on board. Similar statistics are not given for the Calcutta Port, because there, by an arrangement made two years ago, the Health Officer pays the visit and the Shipping Master has ceased to do so. The Health Officer will be requested to supply information for the purposes of this Report in future. Recent events have drawn attention to this question of inspecting provisions and water, and it is now under the consideration of Government whether any more active intervention is required, in order to secure sufficiency and soundness of the stores. There was a bad outbreak of cholera in the spring of 1892, and the medical arrangements at the port were found to be insufficient.

13. At the Orissa Ports one seaman was discharged and two shipped, against two discharged and none shipped in 1890-91. No transactions under the Merchant Shipping Act are reported to have taken place at the ports of Balasore and Puri during the year.

By order of the Lieutenant-Governor of Bengal,

C. W. ODLING,

Joint-Secretary to the Govt. of Bengal.

RESOLUTION ON THE ANNUAL REPORT OF THE MARINE DEPARTMENT FOR 1891-92.

No. 2228Marine.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

Dated Calcutta, the 24th September 1892.

RESOLUTION.

READ—

The Annual Report of the Port Officer of Calcutta for 1891-92.

The Report is submitted by Lieutenant E. W. Petley, R.N., who held charge of the office throughout the year.

2. The strength of the pilot service at the close of the year was 60 pilots of all grades and 13 leadsmen, showing a reduction of 3 leadsmen on the strength of the previous year. This was due to promotions and to casualties caused by the loss of the pilot brig *Coleroon.* One leadsman apprentice was appointed locally and two were brought out from England during the year.

3. The subjoined table exhibits the number of arrivals and departures of steamers and sailing vessels during the past three years:—

		Arrivals.	Departures.	Average tonnage.
Steamers	1890-91	811	816	2,569
	1891-92	897	887	2,630
Sailing ships	1890-91	233	236	1,635
	1891-92	220	200	1,489

The number of steamers has increased as well as their average tonnage, while in the case of sailing ships both the number and the tonnage have decreased.

4. The following statement shows the number of vessels drawing 21 feet and over which were piloted inwards and outwards during 1890-91 and 1891-92:—

Year.	Steamers or sailing ships.	21 to 22 feet.		22 to 23 feet.		23 to 24 feet.		24 to 25 feet.		25 to 26 feet.		26 to 27 feet.		Total.	
		Inward.	Outward.	Inward.	Outward.	Inward.	Outward.	Inward.	Outward.	Inward.	Outward.	Inward.	Outward.	Inward.	Outward.
1890-91 ...	Steamers ..	36	83	33	100	41	119	18	72	...	12	...	1	128	387
	Sailing ships	49	67	45	49	7	12	3	1	...	...	...	...	104	129
	Total	85	150	78	149	48	131	21	73	...	12	...	1	232	516
1891-92 ...	Steamers ..	49	94	55	111	36	155	10	90	...	26	1	3	151	479
	Sailing ships	39	49	26	33	12	20	1	3	...	...	...	...	78	105
	Total ..	88	143	81	144	48	175	11	93	...	26	1	3	229	584

5. This table shows how much lighter the ships are when they enter in the port than when they leave it; and also that the number of outward vessels drawing more than 23 feet has increased from 217 to 297.

6. There were 32 cases of grounding and 9 cases of collision during the year against 47 and 12 during the previous year. None of the casualties resulted in the loss of a vessel, but in 3 cases considerable damage was done. Of the casualties by grounding, 23 were accidental or slight, and 3 due to alteration of channel, the remaining 6 being due to the fault of the pilot. Of the collisions, 8 were accidental or slight, and 1 was due to the unskilfulness of the pilot. The percentage of casualties during the year was 1·86 against 2·81 during

1890-91 and 2·14 in 1889-90. In this respect the report for the present year shows a great improvement. With a larger number of vessels handled, the casualties have been smaller than in any year on record, and the Lieutenant-Governor has much pleasure in expressing his satisfaction at the results obtained, and he trusts that the service will in future years endeavour to maintain this standard.

7. The collections under the head Pilotage receipts amounted to Rs. 9,01,447. The following table shows the receipts for the last three years:—

	Rs.
1889-90	8,18,922
1890-91	8,57,952
1891-92	9,01,447

The expenditure under this head has during the last three years exceeded the receipts by Rs. 1,64,040, and to this deficit payments in England must be added. The matter is engaging the attention of the Lieutenant-Governor. The figures given above, which have been obtained from the Accountant-General, differ from those contained in the Port Officer's report owing to receipts from all sources being included instead of pilotage fees only.

8. There has been no change in the Eastern and Gasper channels, which have remained steady, but the Lower Saugor Roads has deteriorated very slightly, though the actual 18 feet contour area has not increased. The Eden and other channels below Diamond Harbour have all remained fairly steady and open. The Nynan and anchoring creek tracks were abnormally low until the end of December, when they commenced to improve, and in March the channel had resumed its old form. Seven inward bound and one outward bound vessels were neaped for want of sufficient water over the bars.

9. The steamer *Guide* was twice docked to have her bottom cleaned and painted and certain repairs and alterations effected. This vessel made 27 trips during the year. The pilot brigs *Sarsuti* and *Fame* were each docked twice. The latter vessel was fitted with a new jibboom in lieu of the one carried away by the India General Steam Navigation Company's flat *Karnafuli*. On the second occasion that the *Fame* was docked, extensive repairs were carried out owing to the vessel having sustained heavy damages during the cyclone of November 1891.

10. The brig *Coleroon* was docked once, and it is with extreme regret that the Lieutenant-Governor has to record that during the very severe cyclone on the 6th November 1891, the brig foundered with all hands on board, viz., 5 European officers, 37 native crew, and 5 private servants.

11. The number of certificates of each class granted to masters, mates, and engineers after examination at Calcutta is shown in the table below:—

Nature of certificate.	Candidates.	Total number examined.	Result. Passed.	Result. Failed.	Result. Ineligible.	Provisional certificates granted.	Renewal of certificates.	Remarks.
Colonial ...	Master	19	17	2	......	......	......	
	First Mate	32	29	3	......	......	......	
	Only "	1	1	......	......	......	......	
	Second "	11	8	3	......	......	......

Total ...	288	847	274

By order of the Lieutenant-Governor of Bengal,

C. W. ODLING,

Joint-Secretary to the Govt. of Bengal.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE COMMISSIONERS OF THE PORT OF CHITTAGONG FOR THE YEAR 1891-92.

No. 2266Marine.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

Dated Calcutta, the 10th October 1892.

RESOLUTION.

READ—

The Administration Report of the Commissioners of the Port of Chittagong for the year 1891-92.

Financial.

The financial position of the Chittagong Port Fund on the 31st March 1892 is shown in the subjoined statement:—

	Rs. A. P.		Rs. A. P.
Opening balance on the 1st April 1891 ...	1,14,831 12 6*	Expenditure during the year 1891-92 ...	76,816 11 10
Permanent advance ...	100 0 0	Balance on the 31st March 1892 ...	97,264 13 9*
Receipts during the year 1891-92 ...	59,149 13 1		
Total ...	1,74,081 9 7	Total ...	1,74,081 9 7

* Includes Rs. 20,200 invested in Government securities.

As stated in last year's Resolution, a steam tug is being built for the port of Chittagong at a cost of £11,500, and a loan of Rs. 2,00,000 to cover this expenditure has been granted by the Government. The Commissioners will be asked to consider whether they do not consider it advisable to pay off a portion of this loan out of the balance at their disposal, as there seems to be hardly any use in their holding Government securities of the value of Rs. 20,200 and drawing interest on them, while they owe a considerable sum to Government and have to pay interest thereon. With this exception, the port of Chittagong is free from debt.

Shipping.

2. The subjoined table shows the number and tonnage of the vessels which visited the port during the year as compared with the figures of the two previous years:—

		1889-90.		1890-91.		1891-92.	
		Number.	Tonnage.	Number.	Tonnage.	Number.	Tonnage.
European vessels trading with foreign ports.	Entered	39	60,701	42	62,042	40	41,348
	Cleared	37	59,355	37	57,288	34	45,469
Native craft trading with foreign ports.	Entered	4	808	...	...	1	89
	Cleared	4	701	1	143	2	225
Vessels trading with Home ports	Entered	982	176,550	951	163,376	717	204,629
	Cleared	983	180,053	946	164,073	734	202,086

Of the 36 vessels which cleared for foreign ports during the year under review, 11 were bound for the United Kingdom, 6 for Mauritius, 1 for Zanzibar, 4 for the Maldives, 6 for New York, 1 for Boston, 1 for Hamburg, 5 for Trinidad, and 1 for Port Said. Those for the United Kingdom, New York, Boston, and Hamburg, numbering in all 19, carried jute, while the remaining 17 carried rice. The number of vessels that cleared during the previous year with jute was 27 and with rice 11.

Foreign trade.

3. The total value of the foreign trade during the year was Rs. 94,52,654, of which only Rs. 4,85,591 were under imports. The nature of the trade will appear from the following statement, which shows a decrease compared with the previous year of Rs. 37,98,739:—

	1890-91.		1891-92.		INCREASE.		DECREASE.	
	Quantity.	Value.	Quantity.	Value.	Quantity.	Value.	Quantity.	Value.
		Rs.		Rs.		Rs.		Rs.

Coasting trade.

4. In the coasting trade the exports increased, but the increase was more than counterbalanced by a decline under imports, the net result having been a decrease in the total coasting trade of Rs. 6,68,558.

The details of this trade are given in the following statement:—

EXPORTS.	1890-91.	1891-92.	Increase.	Decrease.
	Rs.	Rs.	Rs.	Rs.

5. The quantity of jute shipped at Chittagong during the year under review was 46,703 tons against 68,985 tons in the previous year. The decrease is due to the short

Jute trade.

crop and the burning down at Narainganj of Messrs. Ralli Brothers' jute pressing-house.

Grain trade.

6. The quantity of grain, including rice, exported during the year amounted to 38,375 tons, showing an improvement of 7,876 tons on that of the previous year. Of the quantity exported, 25,101 tons went to home ports and 13,274 tons to foreign ports. The grain exported to home ports consisted chiefly of rice, paddy, and pulse. Rice was the sole article of export to foreign ports. The average value of the rice exported to foreign ports was Rs. 4·6 per cwt., and of that exported to home ports Rs. 3·4 per cwt.

Tea trade.

7. The total quantity of tea exported amounted to 1,262,174 lbs., being 81,181 lbs. in excess of the previous year. The amount exported to foreign ports was 197,464 lbs., showing an increase of 45,019 lbs. on that of the previous year.

Salt trade.

8. The quantity of salt imported during the year was 7,736 tons, showing a decrease of 11,517 tons over that of the previous year. The decrease is consequent upon a very large import during the previous year. The quantity transported to Naraingauj was less than that of the previous year, as larger supplies were drawn at that port from Calcutta, where the market was cheaper.

Oils.

9. The imports of oil from foreign ports decreased in value by Rs. 76,607, but there was an increase of Rs. 34,130 in the value of the oil imported from home ports. The total value of oil imported was Rs. 4,50,738, while the value of the exports only reached Rs. 32,083. The total value of mineral oil imported was Rs. 3,85,406.

Piece-goods and other articles imported from home ports.

10. The value of piece-goods imported from home ports shows an increase of Rs. 1,53,168, and the value of sugar rose by Rs. 41,534.

Cotton, paddy, hides and other articles exported to home ports.

11. Among the articles exported to home ports, cotton and paddy show increases of Rs. 1,87,835 and Rs. 2,72,431. There was an increase of Rs. 59,288 in the value of hides and skins owing to the cattle epidemic that broke out at Chittagong last year. There was also a very large increase in the value of feathers, owing to the great demand in Europe for Indian birds' feathers.

Port appliances.

12. The appliances of the port are reported to have been kept in good order during the year. The depth of water in Track No. III and Track No. IV increased by 4 feet, while that in Track No. I decreased by 6 inches and in Track No. II by 1 foot. The state of the river on the whole was satisfactory.

Health of the shipping.

13. The health of the shipping was good compared with that of the previous years. Forty-three persons were admitted into the Municipal Hospital against 73 in the year before. Of this number, 24 were cured, 9 relieved, 4 discharged otherwise, and 4 died of cholera. There were altogether ten cases of cholera amongst the shipping, of which 5 proved fatal. There were no cases of scurvy or small-pox.

Hospital Port dues.

14. Hospital port dues at the rate of one anna a ton had been levied in the previous year (1890) on all vessels manned by European crews; and the Civil Surgeon was allowed a fixed salary for attending on the shipping. This arrangement did not prove satisfactory, and the order authorising the levy of the dues was, at the request of the Commissioners, cancelled on the 8th June 1891. The Commissioners have now requested that hospital port dues may be re-imposed on vessels manned by European crews, to admit of their providing suitable accommodation and treatment for sick seamen on shore only, leaving masters to make their own arrangements for attendance on board ship. The Lieutenant-Governor has sanctioned the levy of port dues at one anna per ton from the 1st of December 1892.

Fire on vessels laden with jute.

15. Two vessels laden with jute caught fire in January last, and considerable amount of property was destroyed on each occasion. With a view to prevent similar accidents in future, the Port Commissioners have proposed a rule prohibiting smoking and the use of naked lights on the upper deck of any vessel when in the act of loading or discharging jute, mineral oil, or any other inflammable cargo. The rule is under the consideration of the Government.

16. A new fifth order occulting light visible in clear weather at a distance of ten miles is being exhibited at Norman's Point from the 1st of April, 1892. It is expected that the alterations to the Kutubdia light-house will be completed by the 1st of January 1893, and a first order dioptric light exhibited from that date. It will be visible in clear weather at a distance of 17 miles.

Light-houses.

17. The state of the Pilotage Fund is shown in the subjoined table:—

Pilotage.

	Rs. A. P.		Rs. A. P.
Receipts during the year 1891-92 ...	16,517 5 11	Balance at debit on the 31st March 1891 ...	8,171 0 5½
Balance at debit on the 31st March 1892 ...	1,526 6 7½	Disbursements during the year 1891-92 ...	9,872 12 1
Total ...	18,043 12 6½	Total ...	18,043 12 6½

18. The acknowledgments of the Lieutenant-Governor are due to Mr. E. Good, Vice-Chairman of the Commissioners, and his subordinate staff for the services rendered by them in connection with the South Lushai Expedition. The claims of the subordinate staff of the Commissioners for payment on account of the services performed by them will be considered when a report on the subject is received.

Transport work and other duties performed by the Port Commissioners' staff.

By order of the Lieutenant-Governor of Bengal,

C. W. ODLING,

Joint-Secy. to the Govt. of Bengal.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE COMMISSIONERS OF THE PORT OF CALCUTTA FOR THE YEAR 1891-92.

No. 2312Marine.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

Dated Calcutta, the 12th October 1892.

RESOLUTION.

READ—

The Administration Report of the Commissioners of the Port of Calcutta for the year 1891-92.

IN the Resolution on the Administration Report of the Commissioners for 1890-91, the special attention of the Commissioners was invited to the punctual submission of the report, and that body was requested to arrange to submit the report on or before the 15th September. The present report was received by Government on the 13th September.

2. During the year the Commissioners reduced the consolidated debt due to Government from Rs. 41,35,972 to Rs. 39,94,381, or by Rs. 1,41,591, and invested in their own debentures a sum of Rs. 1,29,500 for the repayment of the different debenture loans aggregating 60 lakhs raised by the Commissioners. The gross debt of the Commissioners on the 31st March 1892, including the consolidated debt due to Government, amounted to Rs. 1,17,59,381, as shown

in the statement below. These figures do not include the advances made by Government for the construction of the Kidderpore Docks:—

			Rs.
Consolidated debt due to Government	...	...	39,94,381
Port debt not repayable	...	...	17,65,000
4½ per cent. debenture loan of 1881	...	...	10,00,000
Ditto ditto of 1883	...	...	20,00,000
5½ per cent ditto of 1886	...	...	30,00,000
			1,17,59,381

3. Against the foregoing ordinary debt the Commissioners hold block to the value of Rs. 2,28,17,139 in addition to the valuable Strand Bank lands extending from Chandpal Ghat to Aheereetolla, for which they pay to Government the annual rent of Rs. 37,292. The statement below shows the cost of the works constructed or acquired by the Commissioners, and the sources from which the expenditure has been met:—

Cost of work constructed or acquired by the Commissioners.

	Rs.
Expenditure on jetties and appliances for sea-going vessels to end of March 1892	83,54,172
Expenditure on Inland vessels wharves, landing-stages, tramway, &c., on the Calcutta side	62,02,698
Expenditure on Inland vessels wharves, landing-stages, tramway, &c., on the Howrah side	16,38,634
Expenditure on Graving Dock and Workshop at Howrah	5,25,484
Expenditure on moorings, anchor-vessels, Harbour Master's boats, light ships, survey vessels, &c. ...	38,74,662
Expenditure on Reserve Funds—	
Jetties Reserve Fund ...	99,244
,, Insurance ,, ...	50,000
Port Reserve ,, ...	3,64,250
,, Depreciation ,, ...	1,99,995
,, Approaches ,, ...	2,00,000
Debenture Loan Sinking Fund ...	9,08,000
Dock Contingent Fund ...	4,00,000
Total ...	2,28,17,139

Source from which expenditure has been met.

	Rs.	Rs.
By loan from Government (repayable)	60,25,100	
Less amount repaid ...	20,30,719	
		39,94,381
By loan from Government (not payable)		17,65,000
,, ,, on 4½ per cent. debentures of 1881 ...		10,00,000
,, ,, on 4½ per cent. debentures of 1883 ...		20,00,000
,, ,, on 5½ per cent. debentures of 1886 ...		30,00,000
Contribution from Government towards purchase of land for new riverside road		74,584
Contribution from Government towards purchase of land for landing-stage at Prinsep's Ghat		10,000
Contribution from Government towards purchase of land for Port Approaches block		7,19,203
From sale of surplus land		4,09,367
	Rs.	
From revenue derived from work since formation of Trust	78,13,885	
Add amount repaid to end of March 1892 from revenue	20,30,719	
		98,44,604
Total ...		2,28,17,139

4. The advances received by the Commissioners from the Government up to the close of the year on account of the dock works at Kidderpore amounted to Rs. 2,58,65,668, against which a sum of Rs. 2,56,97,370 has been expended up to the end of March 1892.

5. The repairs to the dock walls that were rendered necessary in consequence of the bulging which occurred in October 1890 were taken in hand and carried out in conformity with the recommendations of the Committee appointed by the Government of India.

6. As soon as the tidal basin had been dredged sufficiently deep, arrangements were made to admit vessels into the graving dock. The following vessels were docked during the year for overhaul and repairs:—

In the Commissioners' graving dock—S.S. *Lindula, Palitana, Pentakota, Purnea, Patiala, Maharaja*, and *Borghese.*

In the Government graving dock—R.I.M.S. *Mayo, Guide, Irrawaddy, Porpoise, Clive*, and a railway pontoon.

7. The income of the year under Revenue Account amounted to Rs. 27,62,612 against Rs. 27,82,831 in the previous year, to which must be added the opening balance of Rs. 3,41,343. The expenditure amounted to Rs. 27,34,056, including Sinking Fund (Rs. 2,36,646), contributions for Dock Contingent Fund and Port Approaches (Rs. 6,60,000). The year therefore closed with a net credit balance of Rs. 3,69,899.

8. As shown above, both the income and the expenditure during the year were less than in 1890-91. The decrease in the former was due to less receipts from mooring hire on account of shorter stays made by vessels in port, and in the latter in consequence of the contribution to the Port Approaches Depreciation Fund being only Rs. 50,000 as compared with Rs. 1,00,000 set aside in the preceding year.

9. Under Capital Account the receipts amounted to Rs. 2,07,652, including the opening balance of Rs. 1,47,652. The expenditure on new works amounted to Rs. 1,16,162, and the year therefore closed with a balance of Rs. 91,490.

10. The income under Part I, "Jetties," amounted to Rs. 12,66,948 against Rs. 12,38,673 during the previous year, and the expenditure to Rs. 8,69,465, including sinking fund and interest charges. The receipts from imports showed a small falling off, having amounted to Rs. 8,46,155 against Rs. 8,70,424 in 1890-91. This decrease is owing to the general falling off in import goods. The export receipts were Rs. 22,409 in excess of the preceding year, being Rs. 1,12,642 in 1891-92 and Rs. 90,233 in 1890-91.

11. During the year 226 vessels, with an aggregate tonnage of 5,01,938, were berthed at the jetties as compared with 215 vessels and a tonnage of 480,759 in 1890-91: the average number of days each vessel occupied the jetties was 9·6 against 10·1 in 1890-91.

12. The activity which prevailed in the early part of the year in the wheat trade led to a serious block at the Howrah terminus of the East Indian Railway, and a deputation waited on the Commissioners with the object of obtaining a reduction in the existing tramway haulage and jetty shipping charges on grain and seeds to enable consignments to be brought direct to the jetties *viâ* the Jubilee Bridge. The Railway Companies having consented to certain reductions, the Commissioners, as a temporary measure, reduced their combined tramway and jetty charges from Rs. 106-5 to Rs. 75 per 100 tons.

13. The income from the petroleum wharf amounted to Rs. 1,76,407, or an increase of Rs. 7,304 on that of 1890-91. Fifty-two vessels entered the port with 4,014,710 cases against 42 vessels and 3,208,777 cases in 1890-91. The chief feature in the petroleum trade was the marked increase in the importation of Russian oil. Of the 52 vessels, 21 were steamers from Batoum that landed 1,740,335 cases. In the previous year there were four vessels with 258,232 cases from that port and none in 1890-91. If therefore the same rate of progress is maintained, it would seem that Russian oil will yet rival the American article.

14. The question of placing restrictions on the transport of petroleum by water through the port was finally decided during the year, and a notification was issued ruling that petroleum transported to Calcutta or Howrah under a license shall be conveyed by land, and not by boat, between Garden House and Cossipore. This rule was brought into force on the 1st April 1892.

15. A project was submitted by Messrs. Graham and Company for the importation and transport of petroleum in bulk. To enable this to be done, it is necessary that the rules framed by Government under the Petroleum Act should be revised. The revised rules are now under the consideration of the Government of India, and in the meantime Messrs. Graham and Company have made arrangements at Budge-Budge for the erection of four iron tanks capable of holding 1,500 tons of oil, into which they propose to pump the oil from the ship by a pipe laid along one of the landing stages.

16. The quantity of tea brought into Calcutta amounted to 129 million pounds against 105 million pounds in the previous year. The quantity that passed through the warehouse was 48 and 35 million pounds, respectively. The gross revenue from this traffic amounted to Rs. 84,786, and a further sum of Rs. 20,212 was realized by renting out a portion of the warehouse. The working expenses amounted to Rs. 47,499.

17. The receipts and expenditure on account of the inland vessels wharves, including payments for interest and sinking funds, have been Rs. 5,00,215 and Rs. 4,16,087 against Rs. 4,94,021 and Rs. 3,67,387 during the previous year, leaving a surplus of Rs. 84,128. The increase in the expenditure as compared with the previous year was entirely due to extensive repairs, the whole of the foreshore and cross roads between the Hooghly Bridge and Chitpur having been remetalled, and the floor of the open cargo shed opposite the Mayo Hospital having been renewed with Indian patent stone.

18. The income of the Strand Bank lands amounted to Rs. 1,74,227, being a decrease of Rs. 751 on the preceding year's income due to the loss of rent for the Port Office, and for a small piece of land which was vacant during the greater portion of the year. The expenditure, including the rent payable to Government, amounted to Rs. 81,923, or Rs. 790 in excess of that for the previous year.

19. The income of the Harbour Masters' Department showed a falling off, the actual receipts having amounted to Rs. 5,20,349, or Rs. 50,016 less than in 1890-91. The receipts from mooring hire and Harbour Masters' earnings were less by Rs. 36,496, due to the short stay made by vessels in port. The earnings of the steam-tug *Hetty* also showed a falling off of Rs. 2,774, owing to the vessel having been laid up in dock for overhaul. The expenditure, including interest and sinking fund, amounted to Rs. 4,78,546, showing a reduction of Rs. 41 on the previous year. The net revenue at the end of the year stood at Rs. 41,803.

20. In all 18 vessels met with casualties while in charge of Assistant Harbour Masters. This is the largest number yet reported in any year, but in none of them was any serious damage done, except in the case of the *Lindula*, in which an explosion occurred through striking the wreck of the *Regius*, which explosion caused serious loss of life.

21. The number of cargo boats and passenger boats surveyed and registered during the year was 5,890 and 1,738 against 5,866 and 1,475, respectively, during the previous year. Though there was an increase in numbers, there was a falling off in the gross income owing to the reduced receipts from fines for plying boats without licenses.

22. The receipts from the Port Trust Railway during the year amounted to Rs. 2,91,571 as compared with Rs. 2,93,996 during the previous year, showing a decrease of Rs. 2,425 due to a general decrease in the traffic, but chiefly in the "inward through" and "local" branches. The expenditure, including charges for interest and sinking fund, amounted to Rs. 2,15,797, leaving a balance of Rs. 75,774.

23. The terms and conditions for the working of rail-borne traffic to and from the docks have been settled, and agreements have been entered into between the East Indian Railway and the Eastern Bengal State Railway and the Commissioners for the performance by the latter of terminal services on traffic despatched from and to stations on those railways and connected lines to and from the Kidderpore docks. These terms are that the Railway shall deliver over and receive the dock traffic at the dock junction, from or to which point it will be taken charge of by the Commissioners, and that the total of the railway charges on dock traffic from north of Hooghly shall be the same as to or from Howrah and Sealdah, and that an all-round payment of one pie per maund shall be made by the railways to the Commissioners on account of conveniences supplied at the dock junction and of terminal services saved to the Railway Companies at Howrah and Sealdah. These concessions to be on condition of the Commissioners taking over all responsibility for the traffic once it is placed in the changing station, distributing it to the docks and returning the wagons and marshalling them at the changing station, and also furnishing all staff within the dock premises necessary for checking and tallying the traffic.

24. The Government of India wished the dock line from Akra junction to the Government Dockyard to be utilised for troop trains, and desired to know the terms upon which the Commissioners would agree to running powers being granted to the Eastern Bengal State Railway for such trains over their line. The Commissioners, in expressing their readiness to place at the disposal of the State their appliances in time of necessity, pointed out that the curves on the line were at places too sharp to admit of heavy locomotives working over them with safety, and the shunting operations incidental to a large goods yard were of such a nature as to make it undesirable to incur the risk entailed by foreign lines running through. In view of these difficulties, the Military authorities had already been advised by the Eastern Bengal State Railway administration that it would be preferable to make over the traffic at the junction, leaving the haulage over the dock lines to be done by the Commissioners' engines. The charge at which the Commissioners have undertaken to perform this haulage has been fixed at Rs. 2 per vehicle for the double journey. Two troop trains have passed over the line without any hitch.

25. The receipts of the Port Approaches amounted to Rs. 9,303. Including a sum of Rs. 50,000 on account of depreciation, the expenditure amounted to Rs. 4,65,239, which was met from the following sources:—

		Rs.
Contribution	from Jetties	2,00,000
Ditto	from Inland vessels wharves	1,00,000
Ditto	from Strand Bank lands	80,000
Ditto	from Harbour Master's Department	10,000
Ditto	from Railway	70,000
	Total ...	4,60,000

26. In connection with a proposal for the adoption of a Uniform International Buoyage System in accordance with the recommendations of the International Marine Conference held at Washington in 1891, the Commissioners were asked for an expression of their opinion as to the advantages which would be derived by the introduction of the system so far as the buoyage of the Sandheads and the Hooghly channels was concerned. The Commissioners were of opinion that it was desirable that the local practice should, as far as possible, conform with some general system, such as that arranged for and introduced by the Trinity House Corporation for the United Kingdom. The Commissioners accordingly gave orders for the colouring and marking of the buoys to agree as closely as possible with the Trinity House system, and where the carrying out of this order involved a change in the existing custom, to notify the change for the information of the pilots in the same way as changes in the channels and bars are notified. Notice has accordingly been issued to mariners, and it has been arranged to carry out the alteration in the colouring of the buoys during the ensuing cold weather. In regard to the alteration in the shape of the buoys, the Commissioners have expressed the opinion that the can-shaped buoys suggested by the Washington Conference are, for various reasons, unsuitable to the Hooghly river. The matter is still under consideration.

27. The river channels, with the exception of the Lower Saugor roads, the Jellingham channel, and the Nynan and the anchoring creeks, have remained almost steady during the year. The Lower Saugor roads deteriorated very slightly during the year, though the actual 18 feet contour area has not increased. The Middleton Sand and Long Sand continue joined, forming a bar with only 17 feet at low water in the best track. The Jellingham channel has required constant watching throughout the year, more especially in the vicinity of the Upper Eastern buoy, where the outer Rangafulla channel infringes on this channel. Small moving lumps with 16 to 18 feet on them have formed and caused a slight obstruction to deep draught vessels. The Nynan and Anchoring creeks were abnormally low till the end of December, when they commenced to improve, and in March showed a fair seasonal average, the channel having resumed its old form.

28. The project for lighting the Nynan bar to enable vessels to cross it at night having been reported to be impracticable, the question of connecting the port with the river Mutla by a ship canal as an alternative route suggested itself, and with that view a resurvey of the Mutla river was proposed. It was, however, considered that the Hooghly, notwithstanding the difficulty of its navigation, would continue for a long time to come to be the route to Calcutta. The proposal for a resurvey of the Mutla was therefore abandoned for the present.

29. The thanks of the Government are due to the Commissioners for their efficient management of the affairs of the Trust during the year.

By order of the Lieutenant-Governor of Bengal,

C. W. ODLING,

Joint-Secretary to the Govt. of Bengal.

RESOLUTION ON THE REPORT ON THE ADMINISTRATION OF THE STATIONERY DEPARTMENT FOR THE YEAR 1891-92.

FINANCIAL DEPARTMENT—MISCELLANEOUS No. 579T—F.

Darjeeling, the 10th October 1892.

RESOLUTION.

READ—

Letter No. 585B., dated the 5th August 1892, from the Board of Revenue, submitting the Report on the Administration of the Stationery Department for the year 1891-92.

As usual, the Board's review of the report of the Superintendent of Stationery is a succinct summary of the transactions of the year.

2. The following statement, reproduced from the Board's report, compares the value of stocks, receipts, and issues for 1891-92 with those for 1890-91:—

	1890-91.	1891-92.
	Rs.	Rs.
Value of stores at the beginning of the year	8,07,666	6,23,856
Value of stores received and credited during the year	18,87,799	21,55,719
Total ...	26,95,465	27,79,575
Value of stores issued	20,71,609	22,67,130
Balance ...	6,23,856	5,12,445

These figures of receipts and issues, it is observed, are not strictly confined to showing the value of stores received and issued, as the headings would seem to indicate, but include also the value of certain adjustments.

3. There was again an increase in the value of the stores both received and issued from the Stationery Office, but the balance at the close of the year is gradually diminishing, being Rs. 5,12,445 against Rs. 6,23,856 in 1890-91, and Rs. 8,07,666 in 1889 90. The value of stores received from the India Office, which has been reduced by more than 3½ lakhs within the last five years, shows a decrease of Rs. 65,427 in the year under review as compared with 1890-91. This is the outcome of the policy which has been steadily pursued of substituting, as far as possible, locally manufactured stores for imported articles. The discontinuance of the use of hand-made paper in the Registration Department in Bengal and the substitution of steel pens for quill pens in Government offices will, it is expected, bring about a further reduction in the value of imported stores. In connection with this the Superintendent writes:—"In 1887, only ordinary printing paper was purchased locally. Now all paper required for use in the Government printing presses, including the finer kinds technically known as 'writing papers' (blue-laid and cream wove), and also the foolscap, note paper and some of the drawing papers used in public offices are obtained from the local mills, besides a special kind of water-marked paper, formerly procured from England. This substitution of Indian paper for English paper has not only effected economy, as has been proved by the figures in this report, but has undoubtedly been the means of developing an important local industry. Next to paper, the most important article of local manufacture is leather, which is largely used in the presses for book-binding." The Lieutenant-Governor trusts that the value of imported stores will be further reduced by doing away with the necessity for using, or the habit of using, those kinds of papers which at present can be procured more cheaply from England than locally. The value of country-made paper and other stores purchased locally shows an increase of Rs. 3,60,342 over the previous year. Almost the whole of this increase occurred in the purchase of country-made paper. Under "Issues," which show a net increase of Rs. 1,95,521, a considerable increase (Rs. 2,50,796) occurred in the issues to Provincial Governments, and to officers and departments under the Government of India (Rs. 16,405). On the other hand, a decrease of Rs. 59,866 is shown under stationery required for Census work, and of Rs. 45,401 in the value of water-marked paper used for court-fee stamps. The falling off in the last item is in value only, owing to the reduced prices at which

the paper was purchased. The quantity used for court-fee stamps issued increased by 940 reams. The largest increase under "Issues" occurred in Bengal (Rs. 2,32,725), owing to extensive supplies of paper for form printing. The value of stationery supplied to Bengal under "Stationery and Printing" was Rs. 5,94,700 against Rs. 3,62,900 in 1890-91. Of this amount stores valued at Rs. 5,27,000 were supplied for form printing, against Rs. 2,98,000; and Rs. 65,300 for the requirements of the Secretariat Press against Rs. 59,000 in the previous year. The balance was distributed among the Superintendent of Stationery, the Opium Agent, Bihár, and the Deputy Commissioner of Police for printing work.

4. Eliminating from the total issues (Rs. 22,67,130) the cost of the items noted on the margin, aggregating Rs. 17,53,828, the actual cost of ordinary stationery supplied to Government offices, including State Railways, &c., and local bodies, amounts to Rs. 5,13,302. Excluding the supplies to State Railways, Railway Mail and Telegraph Departments, but including those to local bodies and other paying offices, the cost is shown to be Rs. 3,76,093, which, distributed among 3,270 indenting officers, places the average cost to each officer at Rs. 115.

	Rs.
Value of water-marked paper	1,27,736
Value of stores issued to printing presses for blank books, &c. ...	34,105
Value of stores transferred to Bombay and Madras	679
Value of unserviceable stores written off and sold	1,428
Value of deficiencies in stock-taking	1,208
Value of other miscellaneous adjustments	82
Loss by re-valuing the opening balances at the issue rate of the year	46,547
Supplies to presses	15,42,048
Total ...	17,53,828

5. In his paragraph 11 the Superintendent deals with the financial results of the year to the Imperial Government, but there is no special information given as to the results as they affected the Provincial revenues of Bengal. These results may be shown thus:—

	Actuals shown in Superintendent's report.		Actuals furnished in Accountant-General's account.	
	1890-91.	1891-92.	1890-91.	1891-92.
	Rs.	Rs.	Rs.	Rs.
RECEIPTS.				
A.—Recoveries from Local Funds for cost of stationery stores supplied, including 10 per cent. commission and packing charges ...	8,997	11,042	...	...
B.—Value of stores supplied to Public Officers on payment, including 10 per cent. commission ...	16,859	17,125	...	...
Total ...	25,856	28,167	26,856	28,128
C.—Sale of forms, &c., and miscellaneous printing receipts ...	28,911	29,617	1,82,122	51,017
Total receipts ...	54,767	57,784	2,08,978	79,145
EXPENDITURE.				
Value of stores issued to the Press	3,62,937	5,94,757	...	...
Value of stores issued to other public departments in Bengal ...	93,437	94,343	...	...
Value of water-marked paper used for petitions carrying court-fee stamps	1,11,855	89,981	...	...
Total ...	5,68,229	7,79,081	6,51,582	8,05,427
Stationery Office establishment and contingencies, &c. ...	70,701	84,815	...	...
Form Store Branch, contingencies, &c. ...	36,235	46,100	...	...
	1,06,936	1,30,915	1,06,200	1,30,915
Total expenditure ...	6,75,165	9,09,996	7,57,782	9,36,342
Net expenditure ...	6,20,398	8,52,212	5,48,804	8,57,197

There are differences more or less in almost every item between the figures of the Accountant-General and those of the Superintendent, and these should be reconciled by these officers in communication with each other. The large difference under the head "Sale of forms, &c.," is apparently due to the inclusion by the Accountant-General of miscellaneous printing receipts which do not pass through the Superintendent's accounts. Thus the value of census forms supplied to the Government in 1890-91 amounted to Rs. 1,54,792, but they do not appear to have passed through the Stationery Department, although that department supplied stores for printing these forms.

6. Under the head of expenditure the main increase is shown in the cost of the stores issued to the Press, which has risen from Rs. 3,62,937 to Rs. 5,94,757, or by Rs. 2,31,820. The causes of this enormous increase require to be carefully investigated. The details given in Appendix D only explain a portion of it, working up to Rs. 4,80,383, and not to Rs. 5,94,757. Full particulars have been subsequently obtained from the Stationery Office, and the corresponding figures for 1890-91, so far as they are entered in Appendix D, are included for comparison:—

Statement showing in detail the cost of Stationery supplied to Bengal Presses during 1891-92, *as shown in Appendix A.*

		1891-92.			1890-91.		
		Rs.	A.	P.	Rs.	A.	P.
1.	Hand-made paper ...	46,682	0	0	36,255	0	0
2.	Blue-laid and blue-wove paper ..	94,544	0	0	16,712	0	0
3.	Cream-wove paper ...	24,213	0	0	11,998	0	0
4.	Half-bleached printing paper ...	1,74,440	0	0	1,50,026	0	0
5.	White printing paper ...	1,40,504	0	0	87,700	0	0
6.	Drawing paper ...	76	8	0	......		
7.	Blotting " ...	282	0	0	......		
8.	Marble " ...	533	8	0	......		
9.	Colored " ...	22,342	4	0	......		
10.	Cartridge " ...	43,150	0	0	......		
11.	Envelopes ...	266	14	0	......		
12.	Binding materials ...	46,725	8	0	......		
13.	Miscellaneous articles ...	997	6	0	......		
	Total ...	5,94,757	0	0	3,02,691	0	0

This, however, only shows the classes of paper used in the Press. The greater part of the first five items in the list was utilized in the printing of forms, of which the number received from the Press was as follows [three 0's omitted]:—

	1890-91.	1891-92.
Books of forms	7,793	8,750
Forms	57,083	85,346
Envelopes	1,995	2,592
Total ...	66,871	96,688

Of these 87,895,000 were issued by the Stationery Office against 68,403,000 in 1890-91.

7. The actual number of forms received from the Press was thus nearly 30 millions more than in the previous year, and as there was a decrease of 12 millions of census forms, the increase in other kinds of forms amounted to 42 millions. This increase has not been sufficiently accounted for. It appears that there was an increase of nearly 10 millions (including a reserve stock) in the annual demand for High Court forms, of nearly 4½ millions in special forms, 3¼ millions in supplementary indents, and 3 millions of Settlement forms: also a large quantity of forms were received in the early part of the year under report, which should have been sent in by the Press before the close of the previous year. Further enquiry will be made as to the unexplained causes of so great an increase.

	Rs.
Printing	1,53,308
Paper, &c.	5,27,466

The total cost of printing these forms in the Presidency Jail and the Secretariat Press was Rs. 1,53,308 against Rs. 81,691 in 1890-91.

8. The question of preventing the introduction of an unnecessarily large variety of forms engaged the attention both of the Board and of the Superintendent during the year under review. Under the present system, the controlling authority has unlimited power to introduce a new form or alter an old one, and thus to add largely to the expenditure under Stationery and Printing. If, however, an obligation is imposed that an existing form is not to be revised until a fresh supply is printed in the ordinary course, little or no extra expenditure would be incurred. The rule should therefore be made that no form shall be revised, nor any new form introduced, except at one specified period of the year, in the same manner as indents are now supposed to be restricted. The dates fixed for various departments would of course be distributed over the year as is now done with indents. In cases where the immediate revision or introduction of a new form is found essentially necessary, the Superintendent should insist on getting from the Indenting Officer a specific order from Government, to the effect that the revision or introduction in question cannot be postponed till the usual printing season. The Board are requested to issue detailed orders to the above effect to all indenting officers.

The Superintendent has also complained that rule 12 under section VIA of the Stationery Manual, under which controlling officers are required to communicate to the Stationery Office the probable annual consumption of any new form, is not observed, the result being generally an increase in the supplementary indents. Both the Superintendent and the Board should see that the rule is properly observed.

9. The income and expenditure of the Stationery Department proper amounted during the year to Rs. 98,717 and Rs. 84,815, respectively, against Rs. 79,359 and Rs. 70,701 in 1890-91. The increase in expenditure occurred mainly under "Establishment" (Rs. 1,968), "godown rent" (Rs. 6,027), and "packing cases" (Rs. 5,683). The increase in establishment is again due to the Superintendent's office having required to be strengthened in some of its branches, and to the annual increments allowed to the clerks. The increase in godown-rent is accounted for by the fact that the godowns hitherto used for storage purposes were sold to the East Indian Railway Company, and fresh accommodation had to be provided in the Jetty Warehouses of the Port Commissioners. Arrangements are now in progress for building a new line of godowns on the Stationery Office premises facing the Strand Road. The increase under "packing" is due to the larger consumption of country-made articles in lieu of the English stores which were supplied in the cases in which they were received.

10. The number of officers supplied with newspapers, books and periodicals was 1,221 against 1,123 in 1890-91. The number of newspapers supplied rose from 1,794 in 1890-91 to 2,045 in 1891-92, and of periodicals from 1,847 to 2,193. The number of books supplied fell from 21,312 to 21,266. A larger number of newspapers and periodicals are subscribed for than is absolutely necessary, and the Lieutenant-Governor has recently issued orders which will have the effect of reducing the number supplied to officers in Bengal. The total payment for the newspapers, &c., amounted to Rs. 68,987, against Rs. 78,148 in 1890-91, but the apportionment for each province is not separately shown. In future the Superintendent should show in his report the details of cost for each Government and Department.

11. The Lieutenant-Governor notices with satisfaction the Board's favourable report on the work of Mr. Barnes, the Superintendent of Stationery.

By order of the Lieutenant-Governor of Bengal,

H. H. RISLEY,

Secretary to the Government of Bengal.

REPORT ON THE ECONOMIC AND ART SECTION OF THE INDIAN MUSEUM FOR THE YEAR 1891-92.

REVENUE DEPARTMENT—MISCELLANEOUS (F)—No. 815T—R.

Darjeeling, the 12th October 1892.

RESOLUTION.

READ—

The Report of the Trustees of the Indian Museum on the Economic and Art Section of the Indian Museum for the year 1891-92.

The report of the officer in charge of the Economic and Art Section of the Indian Museum, with the remarks of the Trustees, was received on the 24th September 1892.

2. The work done during the year consisted chiefly of (*a*) the despatch of the collection of products that had been got together, numbering upwards of a thousand specimens, to the Imperial Institute, London, and (*b*) the transfer of the Art, Ethnological and Economic collections to the new extension to the buildings in Sudder Street. By the end of the year about half of the specimens in the Ethnological Court had been re-arranged in the new gallery. It is expected that both the Ethnological and Art Courts will be ready to be opened to the public during the ensuing cold season. The re-arrangement of the Economic Court has been postponed, pending the incorporation of the specimens of products which are now being collected, and which are referred to in paragraph 3 below.

3. During the year the work of forming the collections for the Imperial Institute was placed in charge of Mr. E. Thurston, Officiating Reporter on Economic Products, and he has also been placed in executive charge of the Economic and Art Section. Duplicate specimens of all the products collected for and despatched to the Imperial Institute have been kept for exhibition in the Economic Court, and a duplicate set of the products collected in the Madras Presidency, numbering 408 specimens, was sent to the Government Central Museum, Madras, and a series set apart for the Lahore Museum. The original scheme of obtaining specimens of all the products mentioned in Dr. Watt's Dictionary has been temporarily abandoned as too comprehensive and too costly, and the work is now confined to a thorough illustration of a limited number of products, which are more or less well-known articles of commerce in the Indian markets. By the close of the year exhaustive collections of the majority of them had been obtained. The Lieutenant-Governor would be glad to have a copy of the Hand-book of each of these products as soon as it is ready.

4. On the closing of the Shillong Museum, portions of the collections were transferred to this section of the Indian Museum, of which the most interesting are the Ethnological specimens illustrating the Manipuris and the wild tribes of Assam, together with some articles of Assam art manufacture. With the permission of the Chief Commissioner of Assam, arrangements were made with the Deputy Commissioners of Darrang and Lukhimpur to improve the collections illustrating the Mishmis, Daflas, and Singphos; and the co-operation of the Chief Commissioner of the Andamans was enlisted to supply a collection illustrating the Andamanese. A few pieces of pottery of very good quality were obtained from Bikanir. Raja Sir Sourindra Mohun Tagore has also very liberally undertaken the renewal of the fine collection of musical instruments presented by him to the Museum some years ago.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Honorary Secretary to the Trustees for information, and that copies of the Report and Resolution be submitted to the Government of India, Revenue and Agricultural Department, for information.

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

Secretary to the Govt. of Bengal.

LIBERALITY OF BABU BROJENDRA KUMAR ROY CHOWDHRI, ZAMINDAR OF BALIATI, IN THE DACCA DISTRICT.

No. 692T.—M., dated Darjeeling, the 14th October 1892.

From—H. H. RISLEY, ESQ., Secy. to the Govt. of Bengal, Municipal Dept.,
To—The Commissioner of the Dacca Division.

I AM directed to acknowledge the receipt of your letter No. 2055J., dated the 16th September 1892, in which you report that, with a view to commemorate the visit of His Honour the Lieutenant-Governor of Bengal to Manikganj on the 12th August 1892, Babu Brojendra Kumar Roy Chowdhri, Zamindar of Baliati, in the district of Dacca, has offered a sum of Rs. 1,500 for the addition of a ward to the Manikganj dispensary, to be called the "Elliott Ward," for the accommodation of indoor patients.

2. In reply, I am directed to say that the Lieutenant-Governor is pleased to accept the offer made by Babu Brojendra Kumar Roy Chowdhri, and to request that you will convey the thanks of His Honour to the donor for this proof of his liberality and public spirit. This letter will be published in the *Calcutta Gazette.*

The 15*th October* 1892.—The following notice issued by the Government of India, in the Revenue and Agricultural Department, is published for general information.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTICE.

All communications relating to the Inventions and Designs Act, 1888, including applications and specifications, should be addressed to the Secretary, Revenue and Agricultural Department at Calcutta.

M. W. ROGERS, *Lieut.-Col.*, R. E.,
Secretary under the Inventions and Designs Act.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different districts of Bengal, as reported to Government, during the week ending the 15th October, 1892.

BENGAL.				
Burdwan Divn.	1	Burdwan ...	...	Report not received.
	2	Bankura „ 15, '92 Vishnupur ...	Nil Nil	Weather—hot and generally fair. Harvesting of *kelas dhan* going on. Rain badly wanted. Lands are being prepared for *rabi* crops. Prices of common rice:— Srs. Sadar ... ... 10½ } per rupee. Vishnupur ... ... 11 }
	3	Birbhum „ 15, '92 Rampur Hát ...	Nil Nil	Weather—dry. The crops look healthy, but rain is much needed. Irrigation freely going on everywhere from the innumerable tanks of the district, which are fortunately well supplied with water. Fodder and water plentiful. Price of rice 12 to 14 seers per rupee.
	4	Midnapore „ 15, '92	Nil	Weather—very hot still. No rain this week. Prospect of harvest very gloomy, as the paddy in many places is destroyed through want of rain. *Rabi* is being sown. Prices of common rice:— Srs. Sadar ... ... 11 } Contai ... ... 12 } per rupee. Tamluk ... ... 11 } Ghatál ... ... 10 to 11½ }
	5	Hooghly „ 15, '92 Serampore ... Jahánabad ...	Nil Nil Nil	Weather—clear and dry. *Aus* and jute crops nearly all harvested; outturn generally estimated at about 10 annas. In the Sadar subdivision there is very little *áman*, it never having been transplanted; elsewhere it is suffering from the early cessation of the rains. Want of water complained of in parts of two thánas of the Sadar subdivision. Prices of common rice:— Srs. C. Sadar ... ... 9 8 } Serampore ... ... 10 8 } per rupee. Jahánabad ... ... 10 9 }
	6	Howrah „ 15, '92 Ulubaria ...	Nil Nil	Weather—cooler. Harvesting of autumn rice finished. More rain wanted for winter rice. Cutting and steeping of jute continue. Price of jute has fallen. Condition of cattle good. Price of rice 9 to 11 seers per rupee. Fodder and water-supply sufficient.
Presidency Divn.	7	24-Parganas „ 15, '92	Nil	Weather—bright; cool in the mornings and evenings; days hot. Harvesting of *aus* and jute nearly over. *Aman* on high lands withering in parts for want of rain. Rain wanted throughout the district. No cattle-disease reported. No want of fodder and water.
	8	Nadia „ 15, '92 Kushtia ... Meherpur ... Ranaghat ...	Nil Nil Nil Nil	Weather—hot in day, cool at night. *Aman* suffering for want of rain. Cultivation of land for, and sowing of, winter crops going on, but rain is wanted. Common rice sells at from 13 to 16 seers per rupee. A few cases of cattle-disease reported.
	9	Khulna „ 15, '92 Bágerhat ... Satkhira ...	Nil Nil Nil	Weather—days hot, nights cool. Harvesting of *aus* and sugarcane completed, and of jute nearly completed. Prospects of *áman* good in Bágerhat and in northern parts of Sadar and Satkhira, but in the southern parts of these subdivisions they are not good. Rain urgently wanted in these parts for the proper growth of the crop. Common rice selling at from 9 to 12 seers per rupee. Fodder and water for cattle sufficient.
	10	Jessore „ 15, '92 Jhenida .. Magura ... Narail ... Bangaon ...	Nil Nil Nil Nil Nil	Weather—days hot, mornings cool. Prospect of *áman* good in Narail, Magura and most of Jhenida subdivision, but very poor in Central and West Jessore. Cultivation and sowing of *rabi* crops going on. Supply of fodder and water sufficient. Rice selling at from 12 to 14 seers per rupee.
	11	Murshidabad „ 15, '92	Nil	Weather—fair; nights cool. No rain during the week. *Aman* suffering on high lands. State of jute and sugarcane appears to be good. No cattle-disease reported. There is sufficient fodder for cattle. Coarse rice selling at 12 seers per rupee.
Chittagong Divn.	12	Chittagong „ 15, '92	0·51	Weather—seasonable. Prospects of crops good. Prices stationary. Condition of cattle generally good. Supply of fodder sufficient.
	13	Noakhali „ 15, '92	Nil	Weather—seasonable. Prospect of *áman* crop good. Fodder and water sufficient. Cattle-disease reported from Ramganj and Sundip. Price of rice stationary.
	14	Tippera „ 15, '92	Nil	Weather—warm with cloudless sky. Nights cool with heavy dew. Want of rain is again felt on the high lands. In the direction of the Meghna this want is obviated by flood water. Land being ploughed for winter crops.
	15	Chittagong Hill Tracts. „ 14, '92	0·47	Weather—foggy in the morning and hot during midday. Condition of *jum* not good. Sugarcane prospering. Cotton in flower. Plough-paddy doing well. Lands for mustard cultivation being prepared. Common rice selling at 9 seers 14 chitaks per rupee.

No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL—*concld.*			
DACCA DIVN.			
16	Dacca Oct. 15, '92	Nil	Weather—fine and seasonable. Prospects of *áman* paddy favourable. *Rabi* crops being sown. No cattle-disease. Fodder available. Common rice selling at from 10 to 12 seers per rupee.
17	Faridpur ,, 15, '92	Nil	Weather—fine and very hot in the day, rather cool at night. Condition of the *áman* crop favourable; but rain would do it good as well as be beneficial for winter crop sowings. Common rice sells at 11 seers per rupee at Sadar and Goalundo and 10¼ seers at Madaripur. Cattle are doing well and get fodder.
	Goalundo ...	Nil	
	Madaripur ...	Nil	
18	Backergunge ,, 15, '92	Nil	Weather—seasonable. State and prospects of crops good. Ordinary rice sells at from 8 to 14 seers per rupee. Fodder and water sufficient.
19	Mymensingh ,, 15, '92	Nil	Weather—hot in the day, cool at night. Jute has been reaped. Prospects of winter rice good, and a full harvest expected if some rain falls at beginning of November. Common rice sells at from 6 to 10 seers per rupee.
RAJSHAHI DIVN.			
20	Dinajpur ,, 15, '92	Nil	Weather—seasonable. Prospects of winter rice generally good all over the district. Lands are being ploughed for *rabi* crops. *Bhadoi* rice selling at 13 seers per rupee and *haimanti* rice at 11 seers per rupee at Sadar. Prices are stationary at Thakurgaon. Condition of cattle good. Supply of fodder and water sufficient.
	Thakurgaon ...	Nil	
21	Rajshahi ,, 15, '92	Nil	Weather—days a little hot, mornings comparatively cool. State of standing crops good almost everywhere. Rain still holding off, and this to some extent causing anxiety among certain cultivators of the Barind tract. Fodder and water sufficient. Price of rice varies from 10 to 12 seers per rupee. No cattle-disease.
	Nator ...	Nil	
	Naugaon ...	Nil	
22	Rangpur ,, 15, '92	Nil	Weather—getting cooler. Jute steeping going on. Lands being prepared for tobacco. Price of common rice stationary.
	Ulipur ..	Nil	
	Kurigaon ...	Nil	
	Gaibanda ...	Nil	
	Nilphamari ..	Nil	
23	Bogra ,, 15, '92	Nil	Weather—cool. Prospect of *áman* good. Jute still being cut. Cultivation begun for some *rabi* crops. Price of rice—*áman* 10½ seers per rupee, *aus* 15 seers per rupee. Fodder sufficient.
	Sherpur ...	Nil	
	Naukhila ...	Nil	
24	Pabna ,, 15, '92	Nil	Weather—fine and cool. Prospects of standing crops continue good. Sowing of *rabi* crops continues. Condition of cattle good. Water-supply and fodder sufficient. Rice selling at 11½ seers per rupee.
25	Darjeeling ,, 15, '92	0·02	Weather—fine and clear during the early part, overcast and cloudy during the latter part of the week. *In the hills*:—*Bara marua* and *haimanti* rice progressing favourably. *Toree*, *phaphur* and *kalai* coming up well. *In the Terai*:—Prospects of *aghani* rice good. Jute steeping nearly over. *Kurthi* being sown. Prices of coarse rice:— Srs. Darjeeling ... . 9 } per rupee. Siliguri ... ... 10 }
	Siliguri ...	Nil	
26	Jalpaiguri ,, 15, '92	Nil	Weather—days hot, nights cool. State of *haimanti* rice good and prospects favourable. Cutting and steeping of jute still going on. Planting of tobacco seedlings commenced. Common rice sells at 11 seers per rupee. No cattle-disease. Supply of water and fodder sufficient.
BIHAR.			
BHÁGALPUR DIVN.			
27	Monghyr ,, 15, '92	Nil	Weather—dry and beginning to get cool. Winter rice suffering from want of rain. Two annas loss reported from Jamui. *Rabi* partly sown and *kurthi* has germinated. Prices of coarse rice:— Srs. Sadar ... ... 10 to 18 } Begusarai ... ... 14 } per rupee. Jamui ... ... 12 }
	Begusarai ...	Nil	
	Jamui ...	Nil	
28	Bhágalpur ,, 15, '92	Nil	Weather—settled. No appearance of rain. A shower or two is wanted to ensure a really good crop of winter rice. Lands being prepared for *rabi* crops. Fodder available.
	Banka ...	Nil	
	Madhipura ...	Nil	
	Supaul ...	Nil	
29	Purnea ,, 15, '92	Nil	Weather—fine and cool. Prospects of *aghani* rice excellent. *Kurthi* has germinated well. Jute outturn 16 annas. Lands being prepared for tobacco and *rabi* crops. Fodder and water ample. Prices of rice:— Srs. Sadar ... ... 12 } Kishanganj ... ... 12 } per rupee. Araria ... ... 16 }
	Kishanganj ...	Nil	
	Araria ...	Nil	
30	Malda ,, 15, '92	Nil	Weather—days warm; cool towards latter part of the night. Prospects of winter rice continue favourable. It is now coming into ear. Sowing of *kalai* pulse finished. Price of coarse rice 11 to 16¼ seers per rupee. Supply of fodder and water ample.
31	Sonthal Parganas ,, 15, 92	Nil	Weather—cool mornings and evenings; hot and rather sultry in the day. All crops doing well, but the high land paddy needs another good shower of rain. *Boro* seedlings doing well. Price of rice 10 seers (Jamtara and Rajmahal) to 16 seers (Pakur) per rupee. Fodder and water sufficient.
	Deoghur ...	Nil	
	Godda ...	Nil	
	Jamtara ...	Nil	
	Pakur ...	Nil	
	Rajmahal ...	Nil	

	No.	District and date of return.		Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BIHAR—concld.					
PATNA DIVISION.	32	Patna	Oct. 15, '92	Nil	Weather—mornings and nights cool. *Rabi* sowing in progress. A shower of rain urgently needed both for paddy and *rabi* crops. Fodder and water for cattle plentiful. Common rice selling at from 11½ to 13 seers per rupee.
	33	Gaya Jahánabad Aurangabad Nawáda	,, 15, 92	Nil Nil Nil Nil	Weather—bright; unduly hot during the day. *Bhadoi* harvest over. *Rabi* sowings commenced. Rain very much wanted for the winter rice crops and the *rabi* sowings. No appreciable change in prices, but there is a tendency to rise. Common rice sells at 12½ seers per rupee at Sadar. Fodder and water-supply sufficient.
	34	Shahabad Buxar Bhabhua Sasarám	,, 15, '92	Nil Nil Nil Nil	Weather—days hot, nights cool. Paddy withering for want of rain in places where canal water is unavailable. Ground being prepared for *rabi* sowings. Rain needed.
	35	Darbhanga	,, 15, '92	Nil	Weather—days warm, mornings and evenings cool. Rain is much wanted for winter rice on high lands. Prospects of rice on low lands continue favourable, but unless there is rain there will be a decrease in the outturn of the crop. Irrigation being resorted to where possible. Sowing of *rabi* crops and planting of tobacco in progress. Condition of cattle good. Prices almost stationary.
	36	Muzaffarpur Sitamarhi Hajipur	,, 15, '92	Nil Nil Nil	Weather—hotter than last week. *Rabi* sowing is beginning. The high land rice will now deteriorate for want of rain. Prices steady. Fodder and water for cattle sufficient.
	37	Saran Siwán Gopalganj	,, 15, '92	Nil Nil Nil	Weather—still very warm. Prospects of *aghani* rice good. *Rabi* sowings commenced. Prices of common rice:— Srs. c. Chapra ... ... 12 11 } Siwán ... ... 12 0 } per rupee. Gopalganj ... ... 15 12 }
	38	Champaran	,, 15, '92	Nil	Weather—nights cool, days hot. *Bhadoi* harvest nearly over. Paddy is being irrigated in some places. Diminution in outturn expected if the rain holds off a month more. There is every apprehension of rise in prices for want of rain. *Rabi* lands are being ploughed. Cattle are in goods condition. Fodder and water sufficient.
ORISSA.					
ORISSA DIVN.	39	Cuttack	,, 15, '92	3·99	Weather—rather warm. Harvesting of late *beali* in progress. Prospect of *sarad* satisfactory provided there be sufficient rain this month. Fodder sufficient. Average selling price of rice:— Srs. c. Srs. c. Sadar ... ... 9 3 to 13 2 } Jajpur ... ... 13 2 to 16 0 } Kendrapara ... ... 12 8 to 21 0 } per rupee. Banki ... ... 13 2 }
	40	Puri Khurda Banpur	,, 13, '92	Nil 0·11 Nil	Weather—hot with passing clouds. Weeding of *sarad* rice still continues. Rain urgently wanted for high lands. Miscellaneous crops doing well. Price of common rice stationary.
	41	Balasore	,, 15, '92	Nil	Weather—fine and dry. Outturn of *beali* crop estimated at 14 annas in Bhadrak and 12 annas in Sadar. Expectation of winter rice crop 14 annas in Bhadrak and from 10 to 12 annas in Sadar according to rainfall of current month. New *beali* rice selling at 18 seers per rupee.
CHOTA NAGPUR.					
South-West Frontier Agency.					
CHOTA NAGPUR DIVN.	42	Hazáribágh Giridi	Oct. 15, '92 ...	Nil Nil	Weather—fine. Prospects of winter rice generally fair, but rain would do good. Rain also wanted for *rabi* sowings. Price of common rice 12 to 16 seers per rupee. Fodder and water sufficient.
	43	Lohardaga	,, 15, '92	Nil	Weather—seasonable. Harvesting of *gora* paddy continues. Reaping of *urid* commenced. Prospect of winter rice continues favourable, but some rain is wanted. Common rice selling at 14 seers per rupee. Fodder and water plentiful.
	44	Palámau	,, 13, '92	Nil	Weather—seasonable. Mornings getting cooler. Rice crop suffering from want of rain. Harvesting of *bhadoi* crops completed. *Rabi* crops are being sown. Prices have fallen.
	45	Singhbhum	,, 15, '92	Nil	Weather—warm; cloudy towards afternoon. Winter rice crop failed in nine villages in North Kolhan for want of *hathia* rain. More rain wanted in Dhalbhum and parts of Kolhan. Prices stationary. Condition of cattle good.
	46	Manbhum Gobindpur	,, 15, '92 ...	Nil Nil	Weather—dry; mornings cool. A little rain during the next few days will do much good to the standing crops. Prospects of the low land crops fair; high land crops bad. Price of rice 8 to 12 seers per rupee. Fodder and water-supply ample.

The average fall of the corresponding period for 24 years, S.-G.'s Office ...	61·87

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

△, dew.

C. LITTLE,

For Meteorological Reporter to the Govt. of India.

* Mean of 6 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period ... The *humidity* of the atmosphere is expressed at percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10 ... rainfall the normal mean are the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional stat on district, *i.e.*, from total rainfall at the subdivisional stations in the district sending in returns divided by the number of stations. A rainy day is one of

for the week ending Saturday, the 15th of October 1892.

Variation from normal mean.	Mean 8 A.M. temperature.	Average humidity at 8 A.M.	Average cloud amount at 8 A.M.	Rainfall of week at observing station.	DISTRICT OBSERVATIONS. Of week. Mean for district.	Normal mean.	Average number of rainy days.	Normal number of rainy days.	Rainfall. Since 1st of month. Mean for district.	Normal mean.	Variation.	Since 16th May 1892. Mean for district.	Normal mean.	Variation.	District.

for the last ten years. The variations are *negative* when the mean for the week is less than the corresponding normal mean, and *positive* when greater. The numbers denoting cloud amount represents the part of the sky covered the whole sky being denoted by 10. Under the head of district observations of for the period in question during the past ten years. The means of the district are the numerical average of the rainfall returned received in the which at least a tenth of an inch fell.

Statement of Rainfall in Bengal for the week ending Saturday (8 a.m.), the 15th of October 1892.

Explanation,—... indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·1 inch of rain has fallen.

CALCUTTA, *the 18th October 1892.*

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 15TH OF OCTOBER 1892.

FINE settled weather has prevailed over practically the whole province throughout the week, short interruptions being caused in Orissa by local storms, due to the unsettled conditions further south. These showers included almost all the rainfall which was received in any part of Bengal, as the light showers which fell at the same time in East and North Bengal were very light and scarcely measurable.

The ordinary meteorological elements, such as pressure, temperature, wind force, &c., have undergone the oscillatory changes usual in fine weather. Pressure at the beginning of the week was considerably above the normal in the extreme north-west of the province, and from there excess gradually diminished towards the south, till in the south of the Bay there was a very slight defect. Gradients were therefore steeper than is usual during the early part of October. As this distribution has undergone only small and unimportant changes, the effect on the general weather has suffered no interruption. Northerly winds have been blowing steadily in Lower Bengal, and light variable airs in the northern districts, and these have been accompanied by almost cloudless skies and generally rather high temperature, especially during the day. The changes of temperature seem to have been due to small waves which passed from east to west across the province, giving at times a small excess and at others a small defect in mean values, but the difference from the normal was very unevenly distributed throughout the day, there being generally a considerable excess in maximum and a considerable defect in minimum readings.

Slightly unsettled weather has prevailed in the south of the Bay over which a diffused low pressure area has existed. Within this area two small depressions formed and, moving westwards towards the Madras coast, caused heavy rainfall in the south of the Circars and lighter rain as far north as the south of Orissa. The first depression crossed the coast about the 12th, and the second, after causing strongish winds in the east of the Bay, was at the end of the week still some distance from the coast of Madras, though showing signs of following the track of the previous one towards the coast between Masulipatam and Nellore.

Pressure—Has been above the normal in all districts throughout the week, excess in the early part of the week varying from ·05 inch in the south of the province to more than ·1 inch in the west of Bihár. Very slight changes prevailed till the 13th, when a moderate fall continued for two days and brought the distribution down almost to the normal. The means for the whole week are all in excess by amounts varying from ·02 inch to ·05 inch.

Temperature—Has generally been higher during the day and lower during the night than is usual in the second week of October, but daily means have not as a rule differed much from the normal. The average mean of the week has been normal in South-West Bengal, practically normal in Orissa, Chota Nagpur, East Bengal, and Assam, half a degree above in Bihár and the same amount below in North Bengal.

Rainfall.—Showers have fallen in the Puri and Cuttack districts of Orissa, in the Darjeeling district, Chittagong and the Chittagong Hill Tracts. Besides these, one light shower has been reported from Canning Town, Mohesreka, Raipur, Bhagatpur, Barabhum, and Jhalda. With the exception of Orissa the province may be said to have been rainless.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 15th of October 1892:—

Meteorological Divisions.	Temperature.						Rainfall.									
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 16th May 1892.

APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, OCTOBER 19, 1892.

NOTICES TO MARINERS.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 182.

[First Publication.]

BAY OF BENGAL—CHITTAGONG COAST.

The colour of the Bar buoys altered.

THE Port Officer, Chittagong, has given notice that, with the view of carrying out the proposed Uniform International Buoyage System, contemplated by Government, the colour of the Chittagong Bar buoys has been altered to *Red*, as denoting the Starboard hand buoys, and Black the Port hand, when entering that port.

EATON W. PETLEY,
Port Officer of Calcutta.

Published for general information.

K. H. STEPHEN,
Under-Secretary, Marine Department.

CALCUTTA, *the* 15*th October* 1892.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 183.

[First Publication.]

MALAY PENINSULA—EAST COAST.

Alteration in position of light—Kuantan river entrance.

THE British Admiralty has given notice (No. 412 of 1892) that on 31st July 1892, the light, *fixed white*, previously shown from the south side of Kuantan river entrance, would be shifted to the north side of the entrance. It is now elevated 28 feet above the sea.

Approximate position, lat. 3° 50′ 15″ N., long. 103° 20′ 15″ E.

EATON W. PETLEY,
Port Officer of Calcutta.

Published for general information.

K. H. STEPHEN,
Under-Secretary, Marine Department.

NOTICE TO MARINERS—No. 184.

[First Publication.]

CHINA—EAST COAST—YELLOW SEA.

Intended double flashing light and provisional light—Liau ti Shan promontory.

THE British Admiralty has given notice (No. 417 of 1892) that a light-house is in course of construction on Liau ti Shan (Lao t'ieh Shan) promontory, south coast of Kwan Tung peninsula, from which a *double flashing half minute white* light of the first order will be exhibited.

During the progress of the works, a *fixed red* light (dioptric of the sixth order) will be shown from a wooden structure on the south-west slope of the promontory. This light, visible in all directions except where obscured by the land, is elevated about 300 feet above the sea, and should be seen in clear weather from a distance of 5 miles.

Approximate position, lat. 38° 43¼′ N., long. 121° 9′ E.

EATON W. PETLEY,
Port Officer of Calcutta.

Published for general information.

K. H. STEPHEN,
Under-Secretary, Marine Department.

[Second Publication.]

BAY OF BENGAL—BURMA COAST.

Rangoon river entrance—F. L. V. "Colombo" replaced by a schooner-rigged vessel during repairs.

THE Officiating Port Officer, Rangoon, has given notice that the F. L. V. *Colombo*, stationed off the Spit, below Elephant point, will be brought up to town, on or about the 8th proximo, for repairs; and a schooner-rigged vessel, painted red, with *Spit*, in white letters, painted on her sides, will be moored in her place.

There will be no alteration in the light.

EATON W. PETLEY,
Port Officer of Calcutta.

CALCUTTA, *the* 10*th October* 1892.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 180.

[Second Publication.]

AUSTRALIA—MORETON BAY.

Leading lights—North Channel.

THE Portmaster, Brisbane, has given notice (No. 13 of 1892) that on and after 13th September 1892, the light at Tangaluma will be removed to a point N. ½ E., 1,400 feet from its present position. Its elevation above high water will be 277 feet. The southern edge of the white sector from the Yellow Patch Light has been altered to bear E. by S. instead of E. ¾ S., as hitherto.

Directions.—Vessels entering will proceed as usual until Tangaluma and Cowan Cowan Lights are in line. Steer with them in line, bearing S. 17° E. until the southern limit of the white sector from the Yellow Patch Light is reached, when haul to the eastward of the line of lights a distance equal to the difference of their heights and proceed in with the lights in that position. By so doing a depth of not less than 21 feet at low water springs will be carried.

EATON W. PETLEY,
Port Officer of Calcutta.

Published for general information.

K. H. STEPHEN,
Under-Secretary, Marine Department.

NOTICE TO MARINERS—No. 174.

[Third Publication.]

PACIFIC OCEAN—FRIENDLY ISLANDS.

Tongatabu—Alterations in buoyage of Egeria channel.

THE British Admiralty has given notice (No. 379 of 1892) that the following alterations would be made in the buoyage of Egeria channel, western approach to Nukualofa:—

1. A fairway buoy, painted red and white in vertical stripes, would be moored with south end of Atatá bearing S. E. by E. distant 9 cables, and Toke toke S. W. Approximate position, lat. 21° 2′ 50″ S., long. 175° 16′ 20″ W.
2. The white conical buoy, north-westward of Atatá, would be replaced by a *conical* buoy, painted red.
3. The red conical buoys, marking Friday and Johnnie shoals, would be replaced by *can* buoys, painted black.
4. The white conical buoy, marking Campbell rock, would be replaced by a *conical* buoy, painted red.

(*Variation* 10° *Easterly in* 1892.)

No. 185A.

GENERAL.—*The 18th October* 1892.—Babu Kedar Nath Mukerjee, substantive *pro tempore* Deputy Magistrate and Deputy Collector, is appointed to perform the functions of a Collector under section 4 of the Public Demands Recovery Act VII (B.C.) of 1880 in the district of Dinajpur.

The 20th October 1892.—Babu Narendra Kumar Chowdhuri, substantive *pro tempore* Sub-Deputy Collector, is posted to the Burdwan Division.

Mr. W. H. M. Gun, District and Sessions Judge, Noakhali, is allowed leave for two months, under article 308 of the Civil Service Regulations, with effect from the date on which he may be relieved.

Mr. R. H. Anderson, Joint-Magistrate and Deputy Collector, on furlough, is appointed to act as District and Sessions Judge of Noakhali, during the absence, on leave, of Mr. W. H. M. Gun, or until further orders.

The 21st October 1892.—The privilege leave for twenty-eight days on half pay, under article 306 (*b*) of the Civil Service Regulations, granted to Mr. C. B. Garrett, District and Sessions Judge, 24-Parganas, under the order of the 17th ultimo, is commuted to leave on full pay under article 308 of the said Regulations.

The services of Babu Satis Chandra Bose, Deputy Magistrate and Deputy Collector, Balasore, on leave, are placed at the disposal of the Revenue Department of this Government for employment on settlement work in the district of Midnapore.

The 22nd October 1892.—Mr. E. H. C. Walsh, Assistant Settlement Officer, Orissa, is allowed leave for one month, under article 291 of the Civil Service Regulations, with effect from the 2nd proximo, or such subsequent date as he may avail himself of it.

Babu Mohini Mohan Chakravarti, Deputy Magistrate and Deputy Collector, Chittagong, on leave, is posted to the head-quarters station of the Bhagalpur district.

This cancels the order of the 7th instant, posting Babu Mohini Mohan Chakravarti to the head-quarters station of the Patna district.

Maulvi Delawar Hosaen Ahmed, Deputy Magistrate and Deputy Collector, Bhagalpur, is transferred to the head-quarters station of the Patna district.

Babu Nagendra Lall Mitter, Sub-Deputy Collector attached to the Presidency Division, is posted to the Baraset sub-division of the district of the 24-Parganas.

The 24th October 1892.—Babu Radha Madhub Basu, Deputy Magistrate and Deputy Collector, Bhagalpur, is appointed to have charge of the Supaul sub-division of that district, during the absence, on leave, of Babu Surjya Kumar Sen, or until further orders.

This cancels the order of the 6th instant, appointing Babu Girendra Nath Chatterjie to have charge of the Supaul sub-division.

Mr. F. N. Fischer, Assistant Magistrate and Collector, Sirajganj, Pabna, is transferred to the head-quarters station of the Muzaffarpur district.

Mr. A. G. Hallifax, Assistant Magistrate and Collector, Narayanganj, Dacca, is transferred to the head-quarters station of that district.

Babu Sriram Chunder Bose, B.L., Probationary Deputy Collector, Balasore, is appointed to act, until further orders, as a Deputy Magistrate and Deputy Collector, and is posted to the head-quarters station of that district.

Mr. H. Luttman-Johnson, whose services have been replaced at the disposal of the Government of Bengal, is appointed to be Commissioner of the Dacca Division, *vice* Mr. J. C. Veasey, retired from the service, from the date on which he takes charge of the appointment

Mr. H. G. Cooke, Officiating Commissioner of Dacca, is appointed to officiate as Commissioner of the Orissa Division and Superintendent of the Tributary Mahals, Orissa, during the absence, on furlough, of Mr. G. Toynbee, or until further orders.

The services of Mr. W. Maude, Under-Secretary to Government, General, Revenue and Statistical Departments, are placed at the disposal of the Revenue Department for employment on the settlement of Orissa.

Mr. T. W. Richardson, substantive *pro tempore* Joint-Magistrate and Deputy Collector, on special duty, is appointed to act as Under-Secretary to Government in the General, Revenue and Statistical Departments, during the absence of Mr. W. Maude, on deputation, or until further orders.

The 25th October 1892.—Mr. H. P. Wylly, Deputy Magistrate and Deputy Collector, on leave, is appointed to act as District Officer of Angul and the Khondmals, during the absence, on deputation, of Rai Nund Kissore Das, Bahadur, or until further orders.

Mr. W. Egerton, Assistant Magistrate and Collector, Sitamarhi, Muzaffarpur, is vested with the powers of a Collector under Act X of 1870 in that sub-division.

Babu Kedar Nath Mukerjee, substantive *pro tempore* Deputy Magistrate and Deputy Collector, Dinajpur, is vested with the powers of a Collector under Act X of 1870 in that district.

POLICE.—*The 20th October* 1892.—Babu Jadub Chunder Deb, District Superintendent of Police, Bankura, is allowed leave for three months, under article 291 of the Civil Service Regulations, with effect from the date on which he may be relieved.

The 24th October 1892.—Mr. W. D. Pratt is appointed to be District Superintendent of Police, Bhagalpur, on being relieved of his present appointment as Officiating Deputy Inspector-General of Police.

Mr. F. H. Tucker, District Superintendent of Police, Bhagalpur, is appointed to be District Superintendent of Police, Dinajpur.

The 25th October 1892.—Mr. G. J. Cawley, District Superintendent of Police, on furlough, is posted to the district of Champaran.

Mr. M. F. Beamish, District Superintendent of Police, Champaran, is transferred to Pabna.

Mr. R. L. Ward, Officiating District Superintendent of Police, Pabna, is appointed to act, until further orders, as District Superintendent of Police, Rajshahi.

Babu Gopal Hari Mullick, District Superintendent of Police, Rajshahi, is transferred to Noakhali.

Babu Rash Behari Biswas, Officiating Assistant Superintendent of Police, in charge of the Noakhali District Police, is appointed, until further orders, to have charge of the District Police of Jessore.

Mr. J. R. Berington, Officiating Assistant Superintendent of Police, is posted to Dinajpur, on being relieved of the charge of the Champaran District Police.

Mr. W. B. Maxwell, District Superintendent of Police, Shahabad, is transferred to Bankura.

Mr. W. C. Fasson, District Superintendent of Police, Rangpur, is allowed leave for fourteen days, under article 291 of the Civil Service Regulations, with effect from the date on which he may be relieved.

Mr. Fasson is transferred to Bogra.

Mr. H. C. L. Bamber, Assistant Superintendent of Police, is posted to Mymensingh, on being relieved of his present appointment as Officiating District Superintendent of Police, Bogra.

REGISTRATION.—*The 25th October* 1892.—Babu Nitayananda Das, Honorary Magistrate, Puri, acted as Sadar Sub-Registrar of that district, from the 8th April 1892 to the 13th June 1892, both days inclusive.

Babu Jagabandhu Patnaik, Rural Sub-Registrar of Pipli, in the district of Puri, acted as Sadar Sub-Registrar of that district, from the 14th June 1892 to the 17th July 1892, both days inclusive.

ECCLESIASTICAL.—*The* 20*th October* 1892.—The Rev. M. J. Coldren, Minister of the American Baptist Mission, Balasore, is authorized, under section 6, Act XV of 1872, to solemnize marriages between persons one or both of whom is a Christian or are Christians, and under section 9 of the same Act to grant certificates of marriage between persons who are Native Christians.

The Rev. M. J. Coldren is also appointed to be a Registrar of Births and Deaths under Act VI of 1886.

The following Notification is republished from the *Assam Gazette* :—

No. 9151*G.*—*The* 13*th October* 1892.—Under the provisions of section 9 of the Assam Military Police Regulation IV of 1890, the Chief Commissioner invests the undermentioned officers with the powers of a Magistrate of the First Class for the purpose of enquiring into or trying any offence committed by a Military Police Officer of the Battalions under their respective commands and punishable under Act V of 1861 or under the Assam Military Police Regulation, 1890. The Chief Commissioner further, under section 191 of the Code of Criminal Procedure, empowers the undermentioned officers to take cognisance of offences committed by Military Police Officers of Battalions under their respective commands which they are empowered to try—

(*a*) upon receiving a complaint of facts which constitute such offences;
(*b*) upon a police report of such facts;
(*c*) upon information received from any person other than a police officer, or upon their own knowledge or suspicion that any such offence has been committed :

* * * * * * *

Mr. J. T. Rivett-Carnac, Officiating Commandant, Garo Hills Military Police Battalion.

Mr. W. B. Waller, Commandant, Military Police, Darrang.

This supersedes Notification No. 25, dated the 19th March 1889, and so much of Notification No. 45, dated the 2nd August 1884, as relates to the powers conferred on Mr. Waller.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.—No. 2962.

The 24th October 1892.—In exercise of the powers conferred on him by section 5 of the Indian Factories Act, XV of 1881, as amended by Act XI of 1891, the Lieutenant-Governor is pleased to appoint the following officers to be Certifying Surgeons within the local limits mentioned against their names:—

1. Dr. Henry Bathe, Surgeon, East Indian Railway, Asansol, for the Raniganj sub-division.
2. The District Medical Officer, East Indian Railway, Jamalpur, for the Jamalpur Workshops.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTIFICATION.—No. 2963.

The 24th October 1892.—In exercise of the powers conferred on him by section 3 of the Indian Factories Act, XV of 1881, as amended by Act XI of 1891, the Lieutenant-Governor is pleased to appoint the Sub-divisional Officer of Ghatal to be *ex-officio* Inspector of Factories in that sub-division.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

JUDICIAL DEPARTMENT.

No. 186A.

The 21st October 1892.—Babu Rajani Kanta Ghose, an Honorary Magistrate of the Independent Bench at Narail, in the district of Jessore, is vested with the powers of a Magistrate of the second class.

The 22nd October 1892.—Babu Rasik Lal Sen, Officiating Deputy Magistrate and Deputy Collector, Tippera, is vested with the powers of a Magistrate of the second class.

The 24th October 1892.—Babu Surendra Lal Mittra, substantive *pro tempore* Sub-Deputy Collector, Manbhum, is vested with the powers of a Magistrate of the third class.

The Lieutenant-Governor accepts the resignation tendered by Babu Har Chandra Bose of his appointment as an Honorary Magistrate of the Bhushana Independent Bench, in the district of Faridpur.

Babus Bepin Chandra Roy and Kali Sanker Kundu are appointed to be Honorary Magistrates of the same Bench, and are vested with the powers of a Magistrate of the third class.

Babu Haris Chandra Das is appointed to be an Honorary Magistrate of the Independent Bench at Old Malda, in the district of Malda, and is vested with the powers of a Magistrate of the third class.

Babu Sriram Chunder Bose, Officiating Deputy Magistrate and Deputy Collector, Balasore, is vested with the powers of a Magistrate of the third class.

Under the authority vested in him by the final clause of section 357 of the Code of Criminal Procedure, Act X of 1882, the Lieutenant-Governor empowers the undermentioned Honorary Magistrates in the district of Manbhum to take down evidence in criminal cases in the English language :—

Purulia Bench.

Babu Becharam Nandi.
,, Pores Nath Ghose.
Babu Nanda Gopal Banerjee.
,, Aghore Nath Chatterjee.

Govindpur Independent Bench.

Babu Srikantha Roy.

The Lieutenant-Governor accepts the resignation tendered by Mr. John Henry Toogood of his appointment as an Honorary Magistrate of the Regular Bench at Howrah.

The Revd. Arthur Eustace Summers and Babu Pran Krishna Shaha are appointed to be Honorary Magistrates of the Independent Bench at Pabna, in the district of Pabna, and are vested with the powers of a Magistrate of the third class.

The 25th October 1892.—Babu Lal Gopal Sein, Munsif of Kaliganj, in the district of Dacca, is appointed to be a Munsif in the same district, to be ordinarily stationed at the Sadar station.

Babu Lal Gopal Sein is vested with the powers of a Judge of a Court of Small Causes for the trial of suits cognizable by such a Court up to the value of Rs. 100 within the local limits of the Dacca Munsifi.

Babu Shoshi Bhushan Chatterjee, Munsif of Dacca, is appointed to be a Munsif in the same district, to be ordinarily stationed at Kaliganj.

Babu Shoshi Bhushan Chatterjee is vested with the powers of a Judge of a Court of Small Causes for the trial of suits cognizable by such a Court up to the value of Rs. 100 within the local limits of the Kaliganj Munsifi. He is also vested with the functions of a District Court under Act VII of 1889, and with the powers conferred on District Judges by sections 344 to 359 (both inclusive) of the Code of Civil Procedure, in cases where the amount of debts owing by the insolvents does not exceed Rs. 1,000, within the local limits of his jurisdiction.

Under the authority vested in him by the final clause of section 357 of the Code of Criminal Procedure, Act X of 1882, the Lieutenant-Governor empowers Babu Abinash Chandra Bose, Officiating Deputy Magistrate and Deputy Collector, Burdwan, to take down evidence in criminal cases in the English language.

Mr. A. H. Fletcher, Chairman of the Independent Bench of Honorary Magistrates at Naxalbari, in the district of Darjeeling, is empowered, under section 191 of the Code of Criminal Procedure, to take cognizance of offences under sections 323 and 352 of the Indian Penal Code.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

The 17th October 1892.—Under section 3, Act I (B.C.) of 1876 (an Act to provide for the voluntary registration of Muhammadan marriages and divorces), the Lieutenant-Governor has been pleased to grant a license to Maulvi Athar Hossein, authorizing him to register Muhammadan marriages and divorces and to exercise the other functions of a Muhammadan Registrar within thana Dewangunge, in the district of Mymensingh.

2. Under section 2, Act XII of 1880 (an Act for the appointment of persons as Kazis), the Lieutenant-Governor has also been pleased to grant a sanad (license) to the Maulvi appointing him Kazi of that thána for the celebration of marriages and the performance of other rites and ceremonies when application is made to him to perform any such functions.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

The 17th October 1892.—Under section 3, Act I (B.C.) of 1876 (an Act to provide for the voluntary registration of Muhammadan marriages and divorces), the Lieutenant-Governor has been pleased to grant a license to Maulvi Mohammad Abdul Ghani, authorising him as a temporary measure to register Muhammadan marriages and divorces and to exercise the other functions of a Muhammadan Registrar within the Sadar thána in the district of Jessore.

Under section 2, Act XII of 1880 (an act for the appointment of persons as Kazis), the Lieutenant-Governor has also been pleased to grant a sanad (license) to the Maulvi appointing him as a temporary measure Kazi of the abovementioned thána for the celebration of marriages and the performance of other rites and ceremonies when application is made to him to perform any such functions.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

The 18th October 1892.—Under section 3, Act I (B.C.) of 1876 (an Act to provide for the voluntary registration of Muhammadan marriages and divorces), the Lieutenant-Governor has been pleased to grant a license to Maulvi Abdur Rauf, authorising him to register Muhammadan marriages and divorces and to exercise the other functions of a Muhammadan Registrar within the Kotwali, Lalbagh, and Keraniganj police-stations in the district of Dacca.

Under section 2, Act XII of 1880 (an act for the appointment of persons as Kazis), the Lieutenant-Governor has also been pleased to grant a license to the Maulvi appointing him Kazi of the abovementioned thánas for the celebration of marriages and the performance of other rites and ceremonies when application is made to him to perform any such functions.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

The 20th October 1892.—It is hereby notified for general information that, in the exercise of the powers conferred on him by section 269 of the Code of Criminal Procedure, the Lieutenant-Governor is pleased to modify the orders contained in the notifications, dated the 7th January, the 27th May, and the 13th October 1862, published in the *Calcutta Gazettes* of the 8th January, the 28th May, and the 15th October 1862, respectively, under which offences defined in the following chapters of the Indian Penal Code, viz.—

Chapter VIII (offences against the public tranquility),
" XI (false evidence and offences against public justice),
" XVI (offences affecting the human body),
" XVII (offences against property), and
" XVIII (offences relating to documents and to trade or property marks),

and abetments of, and attempts to commit, such offences, are declared to be triable by jury in any Court of Sessions established in the districts of the 24-Parganas, Hooghly, Burdwan, Murshidabad, Nadia, Patna, and Dacca; and hereby revokes so much of the aforesaid orders as apply to offences defined in the following chapters of the Indian Penal Code, viz.—

Chapter VIII (offences against the public tranquility),
" XVI (offences affecting the human body), with the exception of sections 363 to 369 (kidnapping and abduction), 372 (selling a minor for purposes of prostitution, &c.), 373 (buying a minor for purposes of prostitution, &c.), and 376 (rape), and
" XVIII (offences relating to documents and to trade or property marks).

These orders shall take effect from and after the 1st November 1892.

The Lieutenant-Governor is further pleased, in exercise of the powers conferred on him under section 269 of the Code of Criminal Procedure, to direct that from and after the 1st November 1892 all offences defined in Chapter XX of the Indian Penal Code (offences relating to marriage), and abetments of, and attempts to commit, such offences, shall be triable by jury in any Court of Sessions established in the districts named above.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

The 25th October 1892.—In modification of the notification of the 6th April 1876, published in the *Calcutta Gazette* of the 12th idem, it is hereby notified for general information that the Lieutenant-Governor of Bengal has been pleased to direct that until further orders the Ghatal sub-division, in the district of Midnapore, shall henceforth be known as the Garhbota sub-division, and shall comprise the thánas of Garhbeta, Ghatal, and Chandrakona, that the head-quarters of the sub-division shall be located at Garhbeta, and that thána Daspur shall form part of the Sadar sub-division of the district.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

PUBLIC WORKS DEPARTMENT,—BENGAL.

ESTABLISHMENT.

The 22nd October 189 2.

No. 292.—Mr. C. A. Mills, Executive Engineer, is, on return from furlough, appointed Inspector of Works, Bihár Division.

No. 293.—Mr. W. H. King, Inspector of Works, Bihár Division, is granted furlough for 12 months, with effect from the 26th November 1892, or such subsequent date as he may avail himself of it.

LOCAL COMMUNICATIONS.

The 25th October 1892.

No. 295.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for a portion of the Hajigunge-Fatulla road from the railway crossing to Fatulla road in the village of Dapa, station Keranigunge, zilla Dacca, it is hereby declared that for the above purpose a piece of land measuring, more or less, 4 bighas of standard measurement, bounded on the north and south by the land of Babu Kunja Behary Bysak and others, east by the Dacca-Mymensingh State Railway line, and west by the road from Dacca to Naraingunge, 2,850 feet length and 20 feet breadth, and general direction is from east to west, is required within the aforesaid village of Dapa.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

RAILWAY.

The 25th October 1892.

No. 296.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for public purposes, viz., for improvement of hospital compound, for cholera shed and for a native burial-ground, together with an approach road thereto at Saidpur station, on the Northern Section of the Eastern Bengal State Railway System, in the mauza of Koya, pargana Kazirhat, zilla Rangpur, it is hereby declared that for the above purposes a piece of land measuring, more less, 3 acres 1 rood 29·2 poles of standard measurement, bounded on the north by village road land of Bishadeo Kabiraj and Ramjan Sirkar; on the west by land of Chandra Nath Tewari, Bishadeo Kabiraj, and Ramjan Sirkar; on the south by land of Ramjan Sirkar, Bishadeo Kabiraj, and Kishori Mohun Shaw; and on the east by land of Ramjan Sirkar and railway land, is required within the aforesaid mauza of Koya.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

No. 297.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for constructing two passing sidings in the villages of Heragachee, Tatkhund, and Coomarpara, pargana Shahabad, zilla Burdwan, it is hereby declared that for the above purpose two pieces of land measuring, more or less, 6 bighas and 5 cottahs of standard measurement, as per following boundaries, are required within the aforesaid villages :—

Plot No. 1.—East of the clerks' quarters at Saktighar station is bounded on the north by railway land; on the east, west, and south by land belonging to Bonowaree Loll Singh and Romonce Loll Mitter.

Plot No. 2.—West of down platform is bounded on the south by East Indian Railway Company's land; on the east, west, and north by land belonging to Monmohun Dey.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

No. 298.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for constructing two passing sidings in the villages of Alipore and Panpara, pargana Nullohee, zilla Burdwan, it is hereby declared that for the above purpose two pieces of land measuring, more or less, 5 bighas 9 cottahs and 1 chitak of standard measurement, as per following boundaries, are required within the aforesaid villages :—

Plot No. 1.—East of level crossing No. 27 is bounded on north by East Indian Railway Company's land; on the west by level crossing No. 27; on the south by land belonging to Nilmadhub Chowdhury, Joyram Singh, and Rajo Bala Dassee; on the east by land belonging to Gopal Chunder Ghose.

Plot No 2.—West of the fencing near culvert 158 is bounded on the east and south by East Indian Railway Company's land; on the north and west by land belonging to Nilmadhub Chowdhury, Joyram Singh, and Rajo Bala Dassee.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

No. 299.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for roads at Revelganj ghat station, in the village of Semaria, pargana Manjhi, zilla Saran, it is hereby declared that for the above purpose a piece of land measuring, more or less, 3 bighas 13 cottahs 6 chitaks of standard measurement, specified below :—

(1) a strip of land with 375 feet mean length and 70 feet width, passing through the khets of Raghunath Ray, Shoopartap Narayan, Faujdar Jolaha, and portions of the same field, bounded on east by the temple and its compound wall; on south by the railway land, Revelganj ghat station; on north by the road from Chapra to Guthni; and on west by parts of above fields;

(2) a strip of land 270 feet long 35 feet broad, leaving the railway land at chainage 317 and going in south-west direction and joining the old village road leading to the river which runs from north to south;

(3) a strip of land 460 feet long 35 feet broad, including and interlapping the aforesaid village road,

is required within the aforesaid village of Semaria.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

No. 300.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up at the public expense for a public purpose, viz. for the construction of staff-quarters on the Bengal-Nagpur Railway, it is hereby declared that for the above purpose a strip of land measuring 8 acres 1 rood and 11·5 poles is required in mauza Goilkera, pargana Parahat in the Singhbhum district.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

The land plans may be seen at the office of the Chief Engineer, Bengal-Nagpur Railway, Nagpur.

LOCAL COMMUNICATIONS.

The 25th October 1892.

No. 301.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the improvement of the road from Gaya to Shewganj, in the villages of Paraya, Inglish, Gurua, Bahwalpur, Rowna, Makhukhap, Saidpur, pargana Pahra and Sadopur, Bairiawan, Bathoni, Dabour, Lahash, Godiha, Korwan, Badampur, Ratankhap, and Charkawan, pargana Charkawan, zilla Gaya, it is hereby declared that for the above purpose a piece of land measuring, more or less, 199 bighas and 12 cottahs of standard measurement, equal to 105*b.* 11*c.* 9*d.* of local measurement, and of an average breadth of 78 feet, extending from 12th mile to 24th mile of Gaya and Shewganj road, is required within the aforesaid villages of Paraya, Inglish, Gurua, Bahwalpur, Rowna, Makhukhap, Saidpur, Lachopur, Bairiawan, Bathani, Dabour, Lahash, Godiha, Korwan, Badampur, Ratankhap, and Charkawan.

PART IA.

Orders and Notifications by the Government of India, &c.

[*Reprinted from the " Gazette of India."*]

MILITARY SECRETARY'S OFFICE.

NOTIFICATIONS.

Simla, the 18th October 1892.

HIS EXCELLENCY THE VICEROY AND GOVERNOR-GENERAL will hold a Levée at Government House, Calcutta, on Thursday, the 8th December 1892, at 9-30 P.M.

All Civil and Military Officers and the Native Officers of the Native Regiments of the Garrison are invited to attend.

Gentlemen purposing to attend the Levée are requested to send their cards to the Aide-de-Camp in Waiting not later than Saturday, the 26th November 1892, after which "No Cards" will be received, and to bring with them to the Levée two cards with their names legibly written on them—one to be given on entering the Government House, and the other to the Aide-de-Camp in Waiting at the time of presentation.

Gentlemen who have not already been presented at the Court of St. James or at Government House will be good enough to add the names of Gentlemen who will present them.

Gentlemen who present others must themselves attend the Levée.

Gentlemen wearing uniform will appear in Full Dress.

Gentlemen not wearing uniform will appear in Evening Dress.

The carriages of Gentlemen (except such as have the Private Entrée) attending the Levée will enter by the North-East Gate, set down under the Grand Staircase, and pass out by the North-West Gate.

The 19th October 1892.

THEIR EXCELLENCIES THE VICEROY AND MARCHIONESS OF LANSDOWNE will hold a Drawing Room at Government House, Calcutta, on Wednesday, the 14th December 1892, at 9-30 P.M.

Ladies purposing to attend the Drawing Room are requested to send their cards and addresses to the Aide-de-Camp in Waiting not later than Thursday, the 8th December 1892, after which "No Cards" will be received, and to bring with them to the Drawing Room two cards with their names legibly written on them—one to be given on entering Government House, and the other to the Aide-de-Camp in Waiting at the time of presentation.

Ladies who have not already been presented at the Court of St. James or at Government House are requested to send their cards through the Ladies intending to present them, with their addresses, to the Aide-de-Camp in Waiting as soon as possible.

Ladies who present others must themselves attend the Drawing Room.

Ladies attending the Drawing Room will be expected to appear in Full Dress, but without trains.

The carriages of those who have the Private Entrée will enter by the South-West Gate, and set down at the South Entrance of Government House.

All other carriages will enter by the North-East Gate, set down under the Grand Stairs, and pass out by the North-West Gate.

The 20th October 1892.

With reference to Military Secretary's Office Notification, dated the 8th October 1892, it is hereby notified that His Excellency the Viceroy and Governor-General will hold a Levée at Government House, Madras, on Friday, the 25th November 1892, at 9-30 P.M., instead of on Saturday, the 26th November, as previously notified.

By Command,

WILLIAM BERESFORD, *Colonel,*
Military Secretary to the Viceroy.

The following orders, issued by the Government of India, in the Home Department, are republished for general information.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

„ G. D. Madgavkar	
„ W. F. Grahame	
„ A. E. English	
„ W. F. Rice	
„ R. Parry	

3. The Governor-General in Council is further pleased to direct that the gentlemen posted to the Lower Provinces of Bengal shall, on arrival at Calcutta, report themselves to the Chief Secretary to the Government of Bengal. Should any of them land in Bombay, they should enquire of the Secretary to the Government of Bombay whether any orders are awaiting them from the Government of Bengal. The officer posted to Assam should report his arrival by telegraph from the port of arrival to the Secretary to the Chief Commissioner of that Province at Shillong, by whom he will be instructed to which portion of the Province to proceed. The officers posted to Burma should proceed to Rangoon and report themselves to the Chief Secretary to the Chief Commissioner of that Province.

4. The officers posted to the North-Western Provinces and Oudh should report themselves to the Chief Secretary to the Government of the North-Western Provinces and Oudh, Allahabad. The officers posted to the Punjab should telegraph from Bombay to the Chief Secretary to the Government of the Punjab, Lahore, for orders as to their destination in the event of their not finding instructions awaiting their arrival at Bombay. The officers posted to the Central Provinces should report by telegraph from Bombay their arrival to the Secretary to the Chief Commissioner of those Provinces at Nagpur, by whom they will be instructed to which portion of the Province to proceed.

5. Local Governments and Administrations are requested to inform the Government of India of the date on which the gentlemen in question so report themselves. Should any officer attached to one of the Upper Provinces in India wish to exchange with an officer of his year attached to another of those Provinces, he is at liberty to do so; but he must report to the Government of India in the Home Department for previous sanction any arrangement of the kind he may be able to effect.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Governments of Bengal and the Punjab for information and guidance, with the intimation that Mr. C. M. King, who has been posted to the Punjab, has been permitted by the Secretary of State to proceed to Calcutta instead of to Bombay, the usual post of debarkation of Civil Servants posted to the Northern Provinces; that a copy be forwarded to the Government of the North-Western Provinces and Oudh and the Chief Commissioners of Burma, the Central Provinces, and Assam for information and guidance; and that it be published in the Supplement to the *Gazette of India*.

Ordered also that a copy of this Resolution be forwarded to each of the gentlemen named therein.

[True Extract.]

P. G. MELITUS,
Offg. Depy. Secy. to the Govt. of India.

The following orders, issued by the Government of India, in the Military Department, are republished for general information.

PART II.

Advertisements.

[N. B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette cannot be received after Noon on Monday.]

LAND SALE NOTICES.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Eastern Bengal State Railway, near the Baruipur station, in the district of the 24-Parganas, will be put up to sale at noon on the 12th November 1892, corresponding with the 28th Kartick 1299 (B.S.), on the spot.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavation on the land nearer than 15 feet from the railway fencing, or plough the land closer than 3 feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale.

(690—1)

Oudh Forest Department.

BAHRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of sâl beams and scantlings supplied from this depôt will be as follows:—

BEAMS.—21 feet length, at Rs. 2-10 per cubic foot.
22 ,, ,, 2-12 ,,
23 ,, ,, 2-14 ,,
24 ,, ,, 3 ,,

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot.

SCANTLINGS—From 12 to 20 feet, at Rs. 2-8 per c. ft.
Under 12 and over 7 ,, 2-4 ,,
Under 7 feet ,, 2 ,,

The above prices are for ordinary building purpose.

For *Planking Sleepers*, &c., special rates will be fixed by agreement.

The Department will still take orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, N. W. P. and Oudh, Oudh Circle.

KANHYA LAL,
Sub-Assistant Conservator of Forests,
Bahramghat Division.

Bahramghat, the 1st April 1886.

Reduction in price of Cinchona Febrifuge.

FROM 1st April 1891, and until further orders. Cinchona Febrifuge can be purchased by all Government officers and by any one taking *ten pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, at the following rates. Four ounce tin Rs. 2-8; eight ounce tin Rs. 5; one pound tin Rs. 10. The general public can be supplied by the Superintendent, Botanic Garden, *for cash only* at the undernoted rates:—Per four ounce tin Rs. 3; per eight ounce tin Rs. 6; per pound tin Rs. 12. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage four annas per 4 ounce tin, eight annas per 8 ounce tin, and twelve annas per pound tin, in addition to the foregoing rates.

Reduction in the Price of the Pure Sulphate of Quinine.

MANUFACTURED AT THE BENGAL GOVERNMENT CINCHONA PLANTATION.

ON and after 1st April 1891 the price of this quinine will be as follows:—
1 Pound tin Rs. 16, or, post free, Rs. 16-12.
½ ,, ,, ,, 8 ,, ,, ,, ,, 8-8.
¼ ,, ,, ,, 4 ,, ,, ,, ,, 4-8.

Analysis shows this quinine to be of the purest manufacture, and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Sibpur, near Calcutta. It can be had either white or coloured pink.

Notice.

WANTED a competent Surveyor to demarcate and measure the lands in dispute in a civil suit pending before this Court. The services of Surveyor will be required from the 16th of November 1892, for a period of one month certain and possibly longer. Remuneration at the rate of Rs. 10 per diem will be paid besides actual expenses of travelling. The Surveyor must be well qualified, so as to be able to ascertain the true meridian of the place by astronomical observation.

The Surveyor is to bring with him instruments required by him for the survey. The plaintiff in the suit shall pay for the hire of the same.

Applications should be sent to the undersigned on or before the 7th November next.

P. R. KHAUND, for Dy. Commr. and Sub-Judge.
Dhubri, the 14th October 1892. (688—3)

Notice.

WANTED a qualified temporary Sub-Overseer on Rs. 35 per month. Apply to the Superintending Engineer, Orissa Circle.

Cuttack, the 12th October 1892.

WANTED a Sub-Overseer for the District Board of Khulna on a salary of Rs. 40 per mensem rising to Rs. 50 by annual increment of Rs. 2 on approved service, plus travelling allowance of Rs. 15 per month and halting allowance of Re. 1 per day when out of headquarters.

Applications, with original certificates of qualifications, certificate of riding and medical certificates, should be forwarded to the address of the District Engineer, Khulna, on or before the 30th October current.

H. D. CHATTERJEE, L.C.E., Offg. District Engineer.
(678—2)

WANTED a Superintendent for the Rangpur Technical School; must direct carpenter's and blacksmith's shops, be able to teach Mathematics, Surveying, Levelling, Elementary Engineering and Drawing, Power of organization, and maintaining discipline essential. Salary Rs. 100 per mensem with prospect of increase. At present the vacancy is for one year, but there is every prospect of its becoming permanent. Applications, with copies of testimonials, will be received by the undersigned up to 15th November 1892.

E. B. HARRIS, Chairman, Rangpur District Board.

(691—2)

BURMA.

POLICE SUPPLY AND CLOTHING DEPARTMENT.

NOTICE.

SEALED tenders will be received by the Deputy Inspector-General of Police for Supply and Clothing, Burma, for the supplies entered in the subjoined schedules up to 12 o'clock noon on the 15th December 1892, when the tenders will be opened in the presence of those interested who may choose to attend.

Tenderers must tender for all the supplies entered in the schedules, but may tender for either or both of the schedules.

Tenderers for Schedule No. 1 may also, if they wish, tender for the loading, carriage and delivery of the supplies entered in Schedule No. 1 at the following stations:—Pyinmana, Yamèthin, Pyawbwè, Meiktila road, Thedaw, Myittha, Kyauksè, Minbu, Magwè, Pakôkku, and Myingyan.

Tender forms and particulars regarding the contract and the contract-deed can be obtained on application to the Deputy Inspector-General of Police for Supply and Clothing, Burma, Rangoon.

Tenders should be enclosed in sealed envelopes and the superscription "Tender for the supply of rations to the Upper Burma Military Police" should be clearly written on the outside of the envelopes.

The Deputy Inspector-General of Police for Supply and Clothing, Burma, does not bind himself to accept the lowest or any tender, and reserves to himself the right of rejecting any tender without assigning any reason for so doing—

PURNA CHANDRA BOSE,
For Exe. Engr., Nadia Rivers Division.

Berhampur, the 24th October 1892.

THE following Weather Reports of the Bengal Meteorological Department, issued by orders of the Government of Bengal, can be supplied to the public at the prices annexed :

1st – Bay of Bengal Daily Report giving meteorological observations taken at 27 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Bay of Bengal Storm Signal Service. The report giving 8 A.M. observations of the day is distributed by peon in Calcutta soon after 11 A.M Price to subscribers in Calcutta Rs. 2 per mensem.

2nd.—Bengal Daily Report containing observations taken at 45 meteorological stations in Bengal and Assam, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 8 A.M. observations of each day is printed in time for the evening mail, and is distributed to subscribers in Calcutta the same evening. This report for the present is only published during the south-west monsoon, *i.e.* from about May 15th to November 15th, orthereabouts. Price Rs. 2-8 per mensem, including postage.

3rd.—A Weekly and Monthly Statement of Meteorological Observations taken at 49 observing stations, and of rainfall recorded at 260 sub-divisional stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal, 5, Russel Street, Calcutta, for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

ALEX. PEDLER,
Meteorological Reporter to the Govt. of Bengal.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series, *including postage*, Rs. 22-8.

	Without postage.			With postage.		
	Rs.	A.	P.	Rs.	A.	P.

Notice.

NOTICE is hereby given that the terms for the purchase of publications from the Bengal Secretariat Press, except *for* Government offices or offices under the control of Government Officers are strictly cash and on no other terms will any publication be supplied, or advertisement, notice, &c., inserted in either of the Gazettes.

In the case of insolvency notices, cash must be sent with such notices when forwarded by Mofussil courts or offices, and for those forwarded by the Official Assignee cash must be paid on presentation of memorandum of cost by the Accountant and Treasurer, Bengal Secretariat.

Remittances in postage stamps should be accompanied by an addition of one anna in the rupee on account of discount.

☞ Applications for Acts of the Bengal Legislative Council required on the public service should be addressed to the REGISTRAR, Office of the Legislative Department, Government of Bengal.

Copies are available for purchase at MESSRS. THACKER, SPINK AND CO., Government Place, Calcutta.

Notice.

The 29th March 1886.—The subscription to, and postage for, the *Calcutta Gazette* will henceforth be at the following rates, payable in advance:—

For the Mofussil.

Parts I A, IB, II, III, IV, V, and VI as also important rules and extracts, 1 anna for 4 sheets or under, with an additional charge of 1 anna for every 4 sheets in excess of 4.

Postage one anna.

For Calcutta.

The same rates as those for the Mofussil, with the exception of the charge for postage.

*Containing the Acts and Bills of the Legislative Councils of India and Bengal.

NOTE—Rate for advertisements in the *Calcutta Gazette*—

Full page, per issue	Rs.	20
Half ,, ,, ...	,,	10

Casual advertisements. 4 annas per line.

IT is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

The List of Books available for sale at the Secretariat Press will in future be published once only in each month.

Spare copies of the List will, however, be kept in stock ready for issue on receipt of applications for them.

List of Books for sale at the Library of the Asiatic Society of Bengal, No. 57, Park Street, Calcutta, and obtainable from the Society's London Agents, Messrs. Trubner and Company, 57 and 59, Ludgate Hill, London, E. C.

PART III.

Acts of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

[Second Publication.]

THE following Act passed by the Lieutenant-Governor of Bengal in Council received the assent of His Honour on the 4th September, 1892, and having been assented to by His Excellency the Viceroy and Governor General on the 4th October, 1892, is hereby published for general information :—

ACT No. I OF 1892.

An Act to further amend the Village Chaukidari Act, 1870.

Preamble.

WHEREAS it is expedient to further amend the Village Chaukidari Act, 1870: It is enacted as follows:—

Construction and extent.

1. This Act shall be read with, and taken as part of, Bengal Act VI of 1870, as amended by Bengal Act I of 1871 and Bengal Act I of 1886; and it shall extend to all districts in which the said Act so amended is now or may be hereafter in force.

Definition of "Magistrate" omitted.

"District Magistrate" substituted for "Magistrate of the District" and "Magistrate."

2. (1) In section 1, the definition of "Magistrate" shall be omitted.

(2) Except as is otherwise provided in this Act, for the words "Magistrate of the District" and for the word "Magistrate" so often as they occur respectively, in the Village Chaukidari Act, 1870, as amended by Bengal Act I of 1871 and Bengal Act I of 1886; the words "District Magistrate" shall be substituted.

(3) In section 64, the words "and Magistrates" shall be omitted; and for the words "Magistrates of Districts," the words "District Magistrates" shall be substituted.

3. For section 3, as amended by section 2 of Bengal Act I of 1886, the following shall be substituted :—

"The District Magistrate may—

Appointment of panchayats.

"(*1*) by an order in writing, appoint not less than three nor more than five residents in any village within the district of which he has charge to be the panchayat thereof;

or (*2*) he may, with the previous sanction of the Local Government, direct that the adult male rate-paying residents of any village shall select, according to any rules that may be prescribed by the Local Government and published in the *Calcutta Gazette,* not less than three nor more than five residents of the village to be the panchayat thereof; and the District Magistrate shall, if he approves of the persons so selected, appoint such persons to be the panchayat; but if in his opinion any person so selected is, for reasons to be recorded by him in writing, unfit to be a member of the panchayat, the District Magistrate shall appoint a fit and proper resident to be a member of the panchayat :

Provided that no panchayat shall be appointed in any place to which the Bengal Municipal Act, 1884, has been, or may hereafter be, extended :

Provided also that the Local Government shall be entitled to prescribe that in certain specified local areas, to be notified in the *Calcutta Gazette,* the number of persons to be appointed to discharge the duties of a panchayat may be reduced to one.

4. After section 3 the following section shall be inserted :—

"3A. The District Magistrate may from time to time by an order in writing, with the sanction of the Commissioner, delegate his powers under this Act, either wholly or in part, to any Magistrate of the first class subordinate to him, or to any Magistrate in charge of a Sub-division or to the District Superintendent of Police; and by a like order, and with the same sanction, may withdraw such delegated powers."

Delegation of powers by the District Magistrate.

5. For section 4, the following shall be substituted :—

"The District Magistrate may, from time to time, by an order in writing under his hand, declare any local area or group of dwellings, within the district of which he has charge, to be a village for the purposes of this Act."

Power to define a village.

6. In section 5, the words "or in two or more villages so situate as in section 4 is set forth;" and the words "or villages," so often as they occur in this section, shall be omitted.

Amendment of section 5.

7. For section 11, the following shall be substituted :—

"The District Magistrate shall determine the number of chaukidars to be employed in a village:

Number of chaukidars to be determined by the District Magistrate.

Provided that, without the sanction of the Commissioner, there shall not be more than one chaukidar for every sixty houses."

8. For section 12, the following shall be substituted :—

"The salaries of chaukidars appointed shall be determined by the District Magistrate:

The District Magistrate to determine salaries of chaukidars.

"Provided that such salaries shall not be less than two nor more than six rupees per mensem."

9. For section 13, the following shall be substituted :—

"The panchayat shall impose an assessment yearly in each village equal to the amount required for the pay and equipment of the chaukidars, together with fifteen per cent. above such amount, in order to provide for payment of the expenses of collection and losses from the non-realization of the rate from defaulters."

Salaries to be provided by assessment.

10. For section 14, the following shall be substituted :—

"All owners or occupiers of houses in any village, and any person who has within such village a cutcherry for collecting rents, shall be liable to assessment for the purposes of this Act."

Persons liable to assessment.

11. For section 35, the following shall be substituted :—

"(1) The panchayat shall, when a vacancy exists, nominate a person to be a chaukidar under this Act, and the District Magistrate shall, if satisfied with such nomination, appoint such nominee to be chaukidar:

Appointment and dismissal of chaukidar.

Provided that if the panchayat fail to nominate within a reasonable time a person to be a chaukidar, or the District Magistrate is not satisfied with such nomination, the District Magistrate shall appoint any person he thinks fit to be a chaukidar.

"(2) The District Magistrate, or the panchayat with the sanction of the District Magistrate, may, from time to time, dismiss any chaukidar so appointed."

12. Sections 36 and 37 are hereby repealed.

13. For section 39, the following shall be substituted :—

"Every chaukidar appointed under the provisions of this Act shall perform the following duties :—

Duties of chaukidar.

1st.—He shall give immediate information to the officer in charge of the police-station within the limits of which the village is situate of every unnatural, suspicious or sudden death which may occur, and of any offence specified in Schedule B which may be committed within his village, and he shall further keep the police informed of all disputes which are likely to lead to any riot or serious affray.

2nd.—He shall arrest all proclaimed offenders and any person who in his presence commits any offence specified in Schedule B, and any person against whom a hue-and-cry has been raised of his having been concerned in any such offence, whether such offence has been or is being committed within his village or outside of it, and shall, without delay, convey any person so arrested to the said police-station.

3rd.—He shall, to the best of his ability, prevent, and may interpose for the purpose of preventing, the commission of any offence specified in the said schedule.

4th.—He shall assist private persons in making such arrests as they may lawfully make, and shall report such arrests without delay to the officer in charge of the said police-station.

5th.—He shall observe, and, from time to time, report to the officer aforesaid the movements of all bad characters within his village.

6th.—He shall report to the officer in charge of such police-station the arrival of suspicious characters in the neighbourhood.

7th.—He shall report to the officer aforesaid, in a form signed by one member of the panchayat, the births and deaths, if any, which have occurred within his village at such intervals as the District Magistrate may determine.

8th.—He shall report to the officer aforesaid the death or absence for more than two consecutive months of any member of the panchayat.

9th.—He shall supply any local information which the District Magistrate or any officer of police may require.

10th.—He shall obey the orders of the panchayat in regard to keeping watch within his village and other matters connected with his duties as chaukidar.

11*th*.—He shall assist the person collecting the rate in making such collection."

14. For section 42, the following shall be substituted:—

Fines and penalties to be credited to District Chaukidari Reward Fund.

"All fines and penalties levied under this Act shall be credited to a District Chaukidari Reward Fund, the control over which shall rest with the District Magistrate."

Amendment of section 43.

15. In section 43, for the words "or person as the Magistrate shall appoint," the words "as the Local Government may by rules made under this Act prescribe or direct," shall be substituted.

Amendment of section 44.

16. In section 44, for the words "as the Magistrate may appoint," the words "as the Local Government may prescribe or direct," shall be substituted.

17. For section 46A, the following shall be substituted:—

Appointment of tahsildar.

"The District Magistrate may at any time, on the application of the panchayat of any village, or of his own motion if, in his opinion, the collection of the rate is badly carried out, or if the chaukidar is not regularly paid, appoint a tahsildar to assist the person collecting the rate; and such tahsildar shall exercise all the powers vested in the panchayat for the collection of the said rate; and the District Magistrate shall, on a like application, and he may of his own motion, revoke such appointment."

18. For section 62, the following shall be substituted:—

Powers of the panchayat may be exercised by the District Magistrate.

"All powers vested in the panchayat for the nomination and dismissal of chaukidars and for making the assessments hereinbefore directed to be made may, in case the panchayat, after a notice in writing from the District Magistrate to exercise such powers, or any of them, refuse or, after the lapse of a reasonable time in that behalf, neglect forthwith to exercise the same, be exercised by the District Magistrate.

19. For Schedule B, the following shall be substituted:—

"SCHEDULE B

(referred to in sections 39 and 41).

Offences to be reported and for which a chaukidar may arrest.

Murder, culpable homicide, rape (when the offender is not the husband of the woman raped), dacoity, robbery, theft, mischief by fire, house-breaking, counterfeiting coins, causing grievous hurt, riot, administering stupefying drugs, kidnapping, and all attempts and preparations to commit, and abetments of the said offences."

PART VI.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 13th October 1892:

NO. 11 OF 1892.

A Bill to legalise in certain cases the execution within British India of capital sentences which have been passed by British Courts exercising in or with respect to foreign territory jurisdiction which the Governor General in Council has in such territory.

WHEREAS a capital sentence is occasionally passed by a British Court exercising in or with respect to foreign territory jurisdiction which the Governor General in Council has in such territory;

And whereas there may be in such territory no secure place for the confinement of a prisoner under sentence of death or no suitable appliances for his execution in a decent and humane manner;

It is hereby enacted as follows:—

Execution in British India of certain capital sentences not ordinarily executable there.

1. (*1*) When a person sentenced to death by a British Court in the exercise of such jurisdiction as is referred to in the first paragraph of the preamble to this Act is to be executed, and, in the opinion of the Court, should for any such reason as is referred to in the second paragraph of the said preamble be executed in British India, the Court shall issue its warrant for his execution to the superintendent or keeper of a jail in British India, and shall in such warrant prescribe, as nearly as may be, the place in British India where such superintendent or keeper is to cause the execution to be carried out.

(*2*) The jail in British India to which the Court is to send its warrant shall be such as the Governor General in Council, or a Local Government authorised by him in this behalf, may by general or special order direct.

STATEMENT OF OBJECTS AND REASONS.

THE passing of an enactment in the sense of this Bill has been recommended by the Governor of Bombay in Council in whom the political control of the Kattiawar and other States is vested. The States in Kattiawar alone are between four and five hundred in number, and most of them are very small, their jurisdiction extending in many cases to one or two villages only, and in some cases to a fraction of a village.

Criminal jurisdiction in serious cases is exercised with respect to most of these States by Courts presided over by British Political Officers, and cases occasionally occur in which for one or other, or both, of the reasons set forth in the preamble to the Bill it is expedient that sentences should be carried into effect in British India. In the case of sentences of imprisonment this is already provided for by law, but no provision of the like nature has hitherto been made for sentences of death, and the present Bill meets this defect with regard to a carefully limited class of such sentences.

The 8th October, 1892.

ALEX. EDW. MILLER.

S. HARVEY JAMES,

Secretary to the Government of India.

The 15*th October* 1892.—The following notice issued by the Government of India, in the Revenue and Agricultural Department, is published for general information.

C. E. BUCKLAND,
Secy. to the Govt. of Bengal.

NOTICE.

All communications relating to the Inventions and Designs Act, 1888, including applications and specifications, should be addressed to the Secretary, Revenue and Agricultural Department at Calcutta.

M. W. ROGERS, *Lieut.-Col.*, R.E.,
Secretary under the Inventions and Designs Act.

RESOLUTION ON THE ANNUAL GENERAL ADMINISTRATION REPORT OF THE ORISSA DIVISION FOR THE YEAR 1891-92.

GENERAL DEPARTMENT—MISCELLANEOUS.

Calcutta, the 13th October 1892.

RESOLUTION.

READ—

The Annual General Administration Report of the Orissa Division for the year 1891-92.

THE report was submitted more than half a month late, but the Commissioner, Mr. Toynbee, has given good reasons for the unpunctuality. The division was fortunate in having had very few changes of officers during the year, Messrs. Stevenson, Allen, and Cornish, the District Officers of the three districts comprised in the division, Cuttack, Puri, and Balasore, having held charge continuously. The prescribed amount of touring was done by the Commissioner and by all of the District and Sub-divisional Officers, and it is noticed that the tours were well distributed and not confined to the cold-weather months. During the year Angul and the Khondmals were constituted a separate district, the report on which is reviewed in the Political Department.

Crops and condition of the people.

2. The rainfall was below the average and badly distributed, being deficient in the early months of the rainy season and excessive in September. The winter rice crop was rather poor, in spite of which, however, export went on briskly: both these causes led to high prices, unaccompanied by any rise in the rate of wages. Public health declined owing to the high prices and poor water-supply, and the death-rate per thousand rose from 22·5 in the year before to 25·00, the chief cause of death being small-pox and fever. This latter disease is said to be increasing in Balasore and spreading southwards from the Midnapore district, but the figures under that head in Balasore, viz., 11,539 against 11,185 in the previous year, do not point to any great increase. Small-pox was particularly virulent in Cuttack and Puri, and the deaths from the disease in those two districts increased from 1,139 in 1890 to 4,926 in 1891. The Collector of Cuttack attributes the increase, though on rather slender grounds, to defective vaccination and consequent increase in inoculation. It is noticed as a remarkable fact that the *Dol Jatra* festival at the temple of Jagarnath in Puri was unaccompanied by any outbreak of cholera.

One of the chief features of the year was the violent cyclone which visited the division in the month of November and devastated the littoral tracts, especially those of the Puri district. The area affected was not, however, large, and the inland tracts were much benefited by the heavy rain which accompanied the storm.

Manufactures and trade.

3. There are no manufactures to speak of in the division except that of salt. This industry had been in a very slack condition, and its unsatisfactory progress during the past year has been noticed in the Annual Resolution on the Salt Department. Both the general export and import trade of the division were unusually brisk, and the former showed an increase of 14 lakhs of rupees in value, and the latter of 18 lakhs over the figures for the preceding year. The chief export is rice, which was sent in great quantities to Madras and other ports in spite of the high prices which prevailed locally.

Census.

4. The general results of the census of 1891 are as follows:—

DISTRICT.	POPULATION IN		Increase.	Ratio of increase to population of 1891.
	1881.	1891.		
Cuttack	1,738,165	1,937,671	199,506	·102
Puri	888,487	944,998	56,511	·06
Balasore	945,250	994,625	49,345	·04
Total ...	3,571,902	3,877,294	305,362	·07

The increase is steady and general, and not much below that of the province generally.

Crime.

5. Under this head the Commissioner writes:—"The chief feature of the year was the decrease in cognizable and increase in non-cognizable crime. . . . . . . This division is happily free from serious outbreaks of heinous crime. The Uriyas are as a rule a peaceful and law-abiding race, and seldom concern themselves with affairs outside their own village boundaries. That the year 1891-92 should have been devoid of any special feature in its criminal history is a matter for congratulation."

Police.

6. The following remarks of Mr. Stevenson, the Collector of Cuttack, are said to be fairly representative of the whole division in the matter of the village police:—"In many places the condition of the village chaukidar is deplorable; what *jagir* he has is too limited in area to support him and his family, while the villagers are now very generally refusing to pay him the customary contributions in kind, having come to know that they cannot be legally forced to make them. As might be expected, the chaukidar is the creature of the zamindar or villagers, yet while refusing to make him independent of their influence, we somewhat inconsistently expect him to act as if he were so, and to furnish correct statistics and reports of crime."

This position of the chaukidars will not be remedied till their number, status, and wages are arranged for in the course of the settlement operations. Mr. Toynbee recommends the resumption of all service lands and the payment of the chaukidars by a cess as in Khurda. His opinion, as that of an officer peculiarly well acquainted with the division, carries great weight.

Civil Justice.

7. The following statement compiled by districts from the figures submitted by the Commissioner, and supplied to him by the District Judge, shows the work of the Civil Courts during the year:—

District.	Sub-division.	Description of Court.	Number of officers.	Number of original cases disposed of.		Details of cases in columns 5A and 5B.			Number of witnesses attended.	Ratio of witnesses detained over two days to total number.	Ratio of cases pending at end of the year to total disposed of.	Number of unit cases disposed of per Munsif.
				Ordinary.	Small Cause Court.	Money.	Rent.	Title.				
1		3	4	5A	5B	6	7	8	9	10	11	12
Cuttack ...	Sadar	Judge and Subordinate Judge.	2	109	580	663	......	26	2,207	·17	·12	......
		Munsif	1	649	2,431	2,964	......	116	4,725	·16	·15	1,691
	Kendrapara ...	Do.	1	522	1,652	2,073	......	101	3,512	·08	·09	1,274
	Jajpur	Do.	1	930	1,219	1,924	......	225	6,891	·18	·15	1,786
Puri	Sadar	Do.	1	1,092	1,285	2,236	......	141	5,477	·01	·18	1,802
Balasore	Sadar	Do.	1	676	2,240	2,772	......	144	10,581	·30	·18	1,710
		Total ...	7	3,978	9,407	12,632	......	753	33,393	·18	·12	1,652

The figures for unit cases disposed of per Munsif, shown in column 12, have been obtained by taking three Small Cause Court as equal to one ordinary case, and three ordinary cases as equal to one title case. The average number of cases disposed of by each Munsif is 1,652. The Munsifs of the Sadar station of Cuttack, and of Jajpur, Puri, and Balasore have exceeded the average, but the Munsif of Kendrapara has fallen far below it. The Munsif of Puri also shows a very good percentage of witnesses detained over two days, but the ratio in Balasore is bad, and two other Munsifs—those of Cuttack and Jajpur—kept more than 10 per cent. of their witnesses waiting more than two days. None of the Munsifs have a very large pending file.

Mr. Toynbee quotes some interesting remarks by Mr. B. L. Gupta, the Judge of Cuttack. The following are extracts:—

"The exclusion of rent suits from civil courts deprives the civil litigation of this province of a prominent feature. The cases which come for adjudication before the Munsifs' courts are generally of the simplest nature. The money suits are generally based on bonds, and a good many of them in the district of Cuttack arise out of petty contracts for earthwork in connection with the extensive irrigation works. The title suits in the Munsifs' courts are mostly between raiyats in regard to possession of land, and one special feature in connection

with them is the certified copy of the settlement '*bhouria*' and '*bhian*' (chittah) on which one party or the other mainly relies in support of his claim. The aid afforded by settlement papers renders the adjudication of such cases comparatively easy."

This is a remarkable statement in view of the assertion commonly made that a record of rights becomes useless after two or three years unless it is kept up. Undoubtedly it is important that it should be kept up and changes recorded; but the "*bhouria*" and "*bhian*" spoken of by the Judge, which the raiyats regard so lovingly and which are so useful in the decision of disputes, are records of the settlement of sixty years ago, which have not been corrected or renewed since they were made.

"A certain amount of vexatious and worse than useless litigation is caused by the compulsory reference to the Civil Court by Deputy Collectors of cases under the Land Acquisition Act. Almost all these cases are of an extremely petty nature, the matter of difference being a few rupees which the parties never think worth their while to contest in the civil court. Such cases are generally disposed of *ex-parte* by the Munsifs (who are vested here with the powers of a Judge under the Act), and the costs often exceed the amount in dispute. It should be borne in mind that the Collector is by the present law compelled to refer a case to the civil court even where no claimant appears."

The evil here referred to will be dealt with in the Bill which is now under the consideration of the Government of India for the amendment of the Land Acquisition Act of 1870.

Mr. Toynbee's statement that the popular feeling is much opposed to the transfer of rent suits to the Civil Courts is of importance at the present time, when part of the Tenancy Act has just been extended to Orissa, and it has been under discussion whether to extend the whole or not, thereby transferring the rent suits from the Deputy Collectors' to the Munsifs' Courts.

Criminal Justice.

8. The following statement gives the chief features of the working of the Criminal Courts of the Division during the year:—

DISTRICT.	Sub-division.	Class of officers.	Number of officers.	Cases disposed of.	Persons disposed of.	Ratio of persons convicted to disposed of.	Number of witnesses attended.	Ratio of witnesses detained over two days to total number attended.	Ratio of cases modified or reversed in appeal to total appealed.	Number of A cases disposed of.	Number remanded six times and more.	Average of cases disposed off per officer (column 5 ÷ column 4).	Average of witnesses attended per case disposed of (column 8 ÷ column 5).	Ratio of column 11 to column 12.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
Cuttack...	Sadar ...	Stipendiary ...	6½	1,526	2,099	·54	6,528	·14	·28	523	65	234	4	...
		Honorary Benches	1	220	256	·50	537	·10	.	6	...	220	1	...
	Banki ...	Stipendiary ...	1	130	191	·43	547	·03	·31	50	...	130	4	...
		Honorary Benches	.	...	...	...	...			...	...	...	......	...

		Honorary Benches	1¾	317	341	·7009	708	·03	·3	...	...	181	2	...
	Bhadrak ...	Stipendiary ...	2	452	683	·601	4,258	·04	·13	...	...	226	9 5	...
		Honorary Benches	1	39	60	·3	224	..	...	...	...	39	4	...
	Chandbali ...	Stipendiary ...	..	...	...	.		...	...	..	...	......	... ..	...
		Honorary Benches	1	108	182	·83	306	..	..	...	...	108	3	..
	Total	Stipendiary ...	21	4,631	6,064	·83	26,040	·03	·23	1,728	114	221	5.6	·065
		Honorary Benches	8¼	2,019	2,364	·15	5,095	·01	·25	128	7	248	2·04	·054

The average quantity of work done by Stipendiary Magistrates was 221 cases, with 5·6 witnesses to a case: the heaviest number was disposed of at Jajpur and Kendrapara. The Honorary Bench at Puri disposed of the large number of 807 cases, petty of course. In only one Court (the Honorary Bench at Cuttack) were over 10 per cent. of the witnesses detained over two days, though the Sub-divisional Officer at Jajpur nearly reached that number. The number of witnesses summoned was very large at Kendrapara and Bhadrak, 9 and 9·5, respectively. The highest percentage of cases modified or reversed on appeal is shown by the Kendrapara Bench, the appeal having been upheld in 9 cases out of 20. The orders of the Stipendiary Magistrates of Cuttack, Kendrapara, and Khurda were modified or reversed in more than 25 per cent. of cases. The ratio of A cases remanded more than six times throughout the division was

6·5 per cent. in the case of Stipendiaries and 5·4 per cent. in the case of Honorary Magistrates and Benches. The number of cases remanded more than six times by the Cuttack and Jajpur Stipendiary Magistrates was unduly large. The following officers remanded more than 10 per cent. of cases of this class six times and over:—

	No. of cases.	No. remanded six times and more.
Mr. A. C. Sen	57	8
Babu Braja Mohan Roy	74	14
„ Gopal Bullubh Das	38	11
„ Man Mohan Roy	148	26
„ Kedar Nath Dutt	120	15

Sessions cases.

9. The results of sessions trials are shown below by districts:—

	District.			
	Cuttack.	Puri.	Balasore.	Total.
Number committed during the year	24	16	25	65
Number disposed of	23	18	24	65
Number in which conviction obtained	20	13	18	51
Number of above in which sentence modified or reversed by High Court.	1	1	2	4
Number of cases acquitted by Sessions Judge.	3	5	6	14

These figures are unusually good, especially in Cuttack.

Fine statement.

10. The following statement shows the fines imposed and realized during the year:—

	District.			
	Cuttack.	Puri.	Balasore.	Total.
	Rs.	Rs.	Rs.	Rs.
Amount due at commencement of the year.	8,808	8,125	4,668	21,601
Amount imposed during the year ...	17,153	7,996	10,612	35,761
Amount collected during the year ...	13,477	6,986	9,174	29,637
Amount outstanding at end of year	7,822	6,889	4,523	19,234

The Commissioner states that he has given special attention to the question of realizing fines and writing off such as are irrecoverable. The Lieutenant-Governor agrees with him that there is still room for improvement in the outstanding balance, which amounted to Rs. 19,234 at the end of the year under report, though it is less than the sum Rs. 21,601 which was due at the end of the previous year.

Honorary Magistrates' attendance.

11. The attendance of the Honorary Magistrates is shown by the following statement:—

District.	Number of times asked to attend.	Number of times actually attended.	Number of times absent with leave or notice.	Number of times absent without leave or notice.	Total absence.
Cuttack	1,314	905	156	253	409
Puri	1,856	1,082	28	746	774
Balasore	388	271	79	38	117

Mr. Toynbee speaks very highly of the good work done by the Benches of Honorary Magistrates, without whom it would, he says, be impossible in the present days of high pressure to carry on the criminal administration. The Lieutenant-Governor has read with pleasure the list submitted by him of 20 Honorary Magistrates whose attendances exceeded 80 per cent. of the sittings arranged for them.

Registration of Documents.

12. The table below shows the use made of the Registration Offices throughout the Division:—

DISTRICT.	Class of Registration Office.	Number of Offices.	Number of documents registered.	Average per office.
Cuttack	Special ...	1	2,406	2,406
	Rural ...	3	4,898	1,632
Puri	Special ...	1	1,969	1,969
	Rural ...	2	4,262	2,131
Balasore	Special ...	1	1,717	1,717
	Rural ...	2	2,817	1,408

It appears that registration is particularly popular in the part of the Puri district round Pipli, the rural office at that place having registered 2,619 documents, the largest number of any office in the division.

Land revenue and cesses.

13. The following statement shows the demand, collections, and balances of each district for the year:—

DISTRICT.	Class of demand.	Class of estates.	Number of estates.	DEMAND.		COLLECTIONS OF 1891-92.		BALANCE ON 1ST APRIL 1892.	
				Current.	Arrear.	Current.	Arrear.	Current.	Arrear.
				Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Cuttack... ...	Land Revenue ...	I	23	1,01,466	...	1,01,466	...	...	...
		II	4,142	7,16,276	2,880	7,16,148	2,880	128	...
		III	8	72,695*	14,381*	68,803	13,649	2,714	311
		Total ...	4,173	8,90,437	17,261	8,86,117	16,529	2,842	311
	Road Cess	Estates ... / Rent-free tenures	9,036	1,29,500	17,405	1,12,122	14,015	17,378	3,300
	Zamindari dák ...	Estates	1,563	8,351	1,349	7,729	1,198	622	151
Puri	Land Revenue ...	I	3	10,255	...	10,255	...	...	...
		II	474	2,29,939	...	2,29,828	...	111	...
		III	7	3,46,764	1,42,169	3,23,729	29,788	23,035	1,12,381
		Total ...	484	5,86,958	1,42,169	5,63,812	29,788	23,146	1,12,381
	Road Cess	Estates and rent-free tenures.	5,685	68,523	3,386	65,771	2,358	2,752	1,028
	Zamindari dák cess	Do.	364	3,904	223	3,206	28	698	195
Balasore ...	Land Revenue ...	I	148	35,003	...	35,003	...	...	...
		II	1,373	3,53,628	...	3,53,341	...	287	...
		III	19	25,632	3,076	24,505	2,554	1,127	522
		Total ...	1,540	4,14,263	3,076	4,12,849	2,554	1,414	522
	Road Cess	Estates and rent-free tenures.	11,046	71,820	6,095	66,423	5,152	5,307	1,843
	Zamindari dák cess...	Do.	818	5,090	800	4,844	854	246	6
		GRAND TOTAL ...	*34,709	21,78,846	1,92,724	21,23,173	72,476	64,495	1,10,827
				23,71,570		21,95,649		1,74,322	

* 1,509 remitted.

The collections of Land Revenue in classes I and II were very good throughout. The percentage of current collections on current demand in the class III estates, i.e., those held direct by Government, was 94·6 for Cuttack and 93·3 for Puri. This is well above the prescribed minimum of 90 per cent. for the class, but the balances, both current and arrear, in Puri are very large, as also are the balances on account of road-cess in all the districts of the division. The total arrears under all heads have only been brought down from Rs. 1,84,724 to Rs. 1,74,322.

Survey and Settlement.

14. The Survey and Settlement operations for the whole province were in progress during the year. Colonel Sandeman, was placed in charge of the survey with a view to expediting and better organizing the work. The subject will be dealt with fully in considering the report of the Director of Land Records and Agriculture. The following statement given by the Commissioner shows briefly the most important parts of the work done during the year:—

District.	Total area in square miles.	Deduct area not to be surveyed and settled.	Balance to be surveyed and settled.	Percentage on column 4 up to 31st March 1892 of area— Demarcated.	Traversed.	Cadastrally surveyed.	Attested and rights recorded.	Remarks.
1	2	3	4	5	6	7	8	9
Cuttack ...	3,696*	1,457*	2,239	100·	61·32	89·70	3·12	* Includes the area of Banki.
Puri ...	2,504	1,483	1,021	100·	100·	100·	23·60	
Balasore ...	2,060	378	1,682	53·50	2·08	...	...	

The settlement was under Mr. H. Reily with a strong staff of assistants. About 1,000 square miles of attestation were completed.

Certificate work.

15. The following statement shows the number of certificates filed and disposed of during the year:—

District.	Department.	Number filed during year.	Number pending at beginning of year.	Total for disposal.	Amount of certificates.	Number disposed of during year.	Amount realized.	Number pending at close of year.
1		3	4	5	6	7	8	9
					Rs.		Rs.	
Cuttack	Water rate	7,694	7,560	15,254	47,647	10,872	27,251	4,382
	Road cess	3,098	935	4,033	34,837	2,742	21,011	1,291
	Miscellaneous	939	626	1,565	79,341	1,174	11,418	391
Puri	Khas mahals	2,366	782	3,148	97,669	4,763	66,155	266
	Road cess	1,239	290	1,529	29,391	1,243	27,735	286
	Wards	22	4	26	1,123	26	1,123	... ...
	Miscellaneous	246	33	279	6,014	204	2,771	75
Balasore ...	Khas mahals	453	15	468	2,361	468	2,328	... ...
	Water rate	940	1,484	2,424	8,370	2,203	7,108	221
	Cess	1,383	196	1,579	20,372	1,155	16,791	414
	Wards	429	24	453	4,118	176	1,950	84
	Zamindari dák	249	168	417	1,314	272	842	145
	Miscellaneous	286	16	302	7,852	228	4,476	6.

The small number of cases pending at the close of the year in each of the three districts as compared with the institutions is satisfactory.

Land acquisition.

16. The cases instituted and disposed of are shown below:—

District.	Number of cases pending from last year.	Number of cases instituted.	Total.	Number of cases disposed of.	Balance pending at close of year.
Cuttack	481	3,742	4,223	3,588	635
Puri	0	4	4	0	4
Balasore	6	8	14	5	9

It is observed that in none of the districts does the number of disposals come up to the number of cases instituted. The number of pending cases in Cuttack is moreover very large. It is explained that the work was unusually heavy owing to land having been taken up for many new distributaries of the canal system, and for the East Coast Railway.

Partition.

17. The following statement shows the partition work of the Division during the year:—

	District.		
	Cuttack.	Puri.	Balasore.
1	2	3	4
Number of cases pending on 31st March 1891 ...	67	2	13
Ditto instituted	10	......	1
Total for disposal ...	77	2	14
Number of cases disposed of	17	1	4
Ditto pending at end of year	60	1	10
Ditto pending over six months	58	1	10

The number of cases pending over six months is much too large both in Cuttack and Balasore. The Commissioner says that many cases are over 15 years' old.

Wards' Estates.

18. The demands, collections, and balances in the Wards' Estates are shown in the following table:—

District.	Demands, current and arrear.	Collections.	Balances.
	Rs.	Rs.	Rs.
Cuttack ...	5,48,519	2,10,528	3,37,991
Puri ...	12,341	7,900	4,441
Balasore ...	88,522	46,362	42,160

The collections in all districts, both of arrear and current demands, are indifferent, especially in the Cuttack district, where the percentage of current collections on current demands is only 47·5, and of total collections on total demands only 38·3. The two chief estates are those of Kanika and Kujang in the Cuttack district, both of which lie along the sea coast and suffered from the inrush of salt water caused by the cyclone of November. In Kujang, out of a current demand of Rs. 1,36,645 for rent and cesses, only Rs. 814 were collected.

Excise.

19. The following statement shows the consumption and the income under the heads of country spirit, ganja, and opium:—

District.	Country spirits.				Ganja.				Opium.			
	Number of shops.	License fees.	Gross gallons.	Total receipts.	Number of shops.	License fees.	Gross maunds.	Total receipts.	Number of shops.	License fees.	Gross maunds.	Total receipts.
		Rs.		Rs.		Rs.	Mds.	Rs.		Rs.	Mds.	Rs.
Cuttack	25	13,032	7,125	24,276	85	18,969	112	41,407	79	20,801	147	1,66,153
Puri	11	2,445	2,665	6,170	40	11,190	84	28,377	32	9,401	44	78,134
Balasore	15	2,919	1,790	6,353	21	5,176	27	10,173	68	22,666	143	1,63,940

	Revenue from all sources.	Rate per head of population.
	Rs.	Rs. A. P.
Cuttack	2,66,290	0 2 2
Puri	99,465	0 1 8
Balasore	1,85,376	0 2 11
Total ...	5,51,131	0 2 3

The total excise revenue of the Division increased from Rs. 5,04,741 in the previous year to Rs. 5,51,131, but there was a large falling off in the revenue from country spirits in the Cuttack district which has not been explained.

The opium revenue increased in Puri and Balasore, but fell off greatly in Cuttack. Of this also the Commissioner offers no explanation.

Income-tax.

20. The following table shows the income-tax assessments and collections:—

District.	Number of persons assessed.	Net demand for the year.			Net collections during the year.			Balance.	Remarks.
		Tax.	Penalty.	Total.	Tax.	Penalty.	Total.		
1	2	3	4	5	6	7	8	9	10
		Rs.	Rs.	Rs.	Rs.	Rs.	Rs.		
Cuttack	1,070	23,135	448	23,583	23,135	448	23,583	...	
Puri	567	13,851	16	13,867	13,851	16	13,867	...	
Balasore	939	14,427	186	14,613	14,427	186	14,613	...	
Total ...	2,576	51,413	650	52,063	51,413	650	52,063	...	

It is very satisfactory to find that the demand, including tax and penalties, was realized in full.

Communications.

21. The year was marked by the commencement of work on the East Coast Railway, a project which will be of the greatest advantage to the province, especially if it is carried on through Midnapore to Calcutta. Neither the fact that work was stopped in May 1892, nor the reasons for such stoppage, were officially communicated to the Lieutenant-Governor, and the fact is much to be regretted. The Commissioner's suggestion, that when the railway is made the roads through Orissa to Puri and to Ganjam should be placed under the District Board, approves itself to the Lieutenant-Governor. Their importance will be much diminished by the opening of the railway. Sir Charles Elliott has much pleasure in repeating here the praise, which, as noted in the report, he bestowed on Mr. Beale, the District Engineer of Puri, for the excellence of the roads in that district, and especially in the Khurda Sub-division.

Education.

22. The number of schools of different classes and of the pupils in them, and the cost and the rate of cost per head of the pupils, are shown in the following statement:—

District.	Class of schools.	Number of schools.	Number of pupils on rolls.	Cost.						Cost per head of pupil.	Population.	Ratio of total in column 4 to total boys in district, i.e., 16 per cent. on population of district.
				Provincial.	District Board.	Municipality.	Fees.	Other.	Total.			
1	2	3	4	5	6	7	8	9	10	11	12	13
				Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs. A. P.		
Cuttack	High	5	968	5,707	......	840	12,156	1,691	20,394	21 1 1	1,938,132	·20

	Primary ...	1,115	14,654	2,543	5,607	637	36,013	4,679	49,479	3 6 0		
	Miscellaneous ...	8	33	1,414	......	......	......	......	1,414	42 13 7		
	Total ...	1,146	15,661	6,690	10,214	706	39,404	6,881	63,895	4 1 3	......	......
Balasore	High	3	327	2,454	......	......	4,857	1,629	8,940	27 5 5	994,625	·23
	Middle	28	1,450	1,953	4,551	125	1,891	6,905	15,425	10 10 2		
	Primary ...	1,983	34,104	1,541	11,951	324	65,845	53,445	1,33,106	3 14 5		
	Miscellaneous ...	8	138	1,938	603	......	10	502	3,053	22 1 11		
	Total ...	2,022	36,019	7,886	17,105	449	72,603	62,481	1,60,524	4 7 3	......	......

The percentage of boys at school in Puri is low, and the cost per pupil in the high schools in the same district is much higher than in those of the other districts of the division. The large figure of Rs. 94 per head in the miscellaneous schools of the Cuttack district is presumably due to the expense of the medical and survey schools.

The Ravenshaw College sent up 33 candidates to the Entrance, of whom 10 passed, a ratio of 30 per cent., the general ratio for the province being 40 per cent. The Commissioner speaks well of the spread of physical training during the year.

Besides these public institutions there were also 1,057 private schools, comprising 7,137 pupils.

Female education progresses fairly, there being 95 special girls' schools with 2,330 pupils, apart from which 3,285 girls studied in boys' schools. Three girls passed the middle vernacular scholarship, 21 the upper primary scholarship, and 183 the lower primary scholarship examinations. The Lieutenant-Governor is glad to see that the Balasore District Board have opened special schools for the benefit of aboriginal boys, and also that physical training has received a fair share of attention.

Dispensaries.

23. The working of these institutions, of which there were altogether 17 in the division, is shown in the table below:—

District.	Number of dispensaries.	Income from—					Daily average patients.		Ratio of out-door patients to total population.
		Government.	District Board.	Municipality.	Subscriptions.	Total.	In-patients.	Out-patients.	
1	2	3	4	5	6	7	8	9	10
		Rs.	Rs.	Rs.	Rs.	Rs.			
Cuttack	8	6,900	375	2,543	4,799	14,617	2·85	109·98	·02
Puri	5	600	1,503	3,553	2,692	8,347	2·98	43·44	·01
Balasore	4	344	1,238	822	1,252	3,656	1·63	32·29	·01

The numbers have not increased or decreased during the year. The Lieutenant-Governor has noticed with pleasure the help given to the hospitals of Orissa by the Maharaja of Keonjhur, the Raja of Atgarh, Rajas Baidyanath Pandit and Baikanth Nath De Bahadur, and Babu Satyandra Nath De.

Local Self-Government.

24. The following table shows the average attendance of members at the meetings of the District and Local Boards and Municipalities:—

		District Board.	Local Board.	Municipality.
Cuttack	Sadar	7·8	7·0	51·5
	Kendrapara	......	7·3	49·1
	Jajpur	......	6·7	58·3
Puri	Sadar	5·5	3·7	46·6
	Khurda	......	3·5	......
Balasore	Sadar	7·84	6·5	70·8
	Bhadrak	......	6·45	......

The attendance in the municipalities is fair, especially at Balasore, but otherwise it can only be described as poor.

On this subject Mr. Toynbee writes:—

"On the whole, I fear it must be admitted that local self-government is not a plant which has yet taken root in Orissa. The Uriyas have not, as a class, the power of uniting their efforts for the common good, nor are there amongst them a sufficient number of individuals with unselfishness, zeal, leisure, and energy enough to leaven the whole body. The meetings as a rule are content to agree to all the proposals of the official Chairman, and to confirm his action without question. There is happily an almost entire absence of that spirit of factious opposition which seems to be so common in Bengal; but there is *per contra* no sign of any real interest in public affairs. I apprehend that many years will elapse before this apathy disappears; and that the spread of education and the opening up of the province by railway communication will be the chief means of awakening the province to new political life."

The neglect of sanitation by the Puri Municipality, as well as the general slackness of the administration there, were commented on by the Lieutenant-Governor when he received an address from the Municipal Commissioners at that place, and it is hoped that some improvement will be the result.

25. Under the heads of "Public Opinion" and "General Remarks" the Commissioner discusses at considerable length the attitude of the people of Orissa towards the Survey and Settlement operations at present being carried on. The following extract sums up the position as judged by Mr. Toynbee :—

General.

"The survey and settlement operations, which came into full play during the year 1891-92, are perhaps to the body of the people of Orissa the most important fact in its history, and one which comes most home to every individual. Without being able to record that these operations were conducted without any friction, hardship, or exactions, it is satisfactory to be able to state that the Government officers have not met with any open or active opposition, and that there is every prospect of their carrying their work through without it. The survey and settlement have undoubtedly exercised and unsettled men's minds ; but there has been all along an under-feeling of confidence that the Government revenue will be equitably adjusted, and that all cases and disputes arising out of the settlement proceedings will be fairly and justly dealt with."

The following remarks also repay quotation :—

"I first came to Orissa as Famine Relief Officer in 1866, and after a service (in all grades and capacities and in all three districts) of about eight years, it was my privilege to return to it as Commissioner at the commencement of the year under report. In all directions and on all sides the immense strides made by the province, generally in education, commerce, irrigation, communications, and in general wealth and prosperity, are conspicuous to the most casual and superficial observer. And yet if one looks below the surface, the great mass of the people live the same lives and have the same limited hopes and aspirations that they had 20 years ago. The ordinary Uriya raiyat's sole request and desire is still to be left alone and not to have his condition improved against his will. A large proportion of his earnings is still spent on social and religious ceremonies and he seldom moves beyond the boundary of his own village. If ever the great mass of the Uriya people is to awake from its lethargy and the province is to cease to be the "sleepy hollow" which my predecessor called it, the instrument of the revival will, I think, be railway communication."

26. Sir Charles Elliott has read with pleasure the good account of the work done during the year by Messrs. Cornish, Allen, and Stevenson, the Collectors of Balasore, Puri, and Cuttack, and also by Mr. F. W. Duke as Sub-divisional Officer of Khurda, and Maulvi Dadar Baksh, Tahsildar of Khurda. From Mr. Toynbee the Lieutenant-Governor has received useful advice and valuable co-operation in all matters concerning the Division.

Officers.

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

Secretary to the Govt. of Bengal.

RESOLUTION ON THE ANNUAL GENERAL ADMINISTRATION REPORT OF THE PATNA DIVISION FOR THE YEAR 1891-92.

GENERAL DEPARTMENT—MISCELLANEOUS.

Darjeeling, the 19*th October* 1892.

RESOLUTION. No. 2964.

READ—

The Annual General Administration Report of the Patna Division for the year 1891-92.

Tours and Inspections.

THE amount of touring done by the officers of this division was not in accordance with the orders of Government in several instances. The Commissioner's tours only amounted to 110 days, the prescribed minimum being 120 days, and the whole amount except three days in April was done in the last five months of the year, instead of being distributed as it should be. over the whole year. The tours of the district officers of Patna, Shahabad, and Muzaffarpur, and of the sub-divisional officer of Buxar, also fell short of the prescribed limit. These deficiencies were partly due to ill-health in some cases and to frequent changes in other cases; but the natural result was an incompleteness of inspection both of districts by the Commissioner, and of sub-divisions by the Commissioner and the district officers. It is true that every district office was inspected by the Commissioner, but the following sub-divisions were not inspected by him at all;—

Patna ...	Barh. Bihár. Dinapore.	Shahabad ...	Sasarám. Bhabhua.
		Gaya ...	Nawádah. Aurangabad.

In many cases sub-divisional offices were inspected only once during the year by the district officers, and in the case of Sasarám not even once. The Shahabad district office and treasury were also only inspected once during the year. This is not satisfactory, and the Lieutenant-Governor feels it his duty to insist both on the prescribed minimum of touring being carried out, unless in any case special exemption is, for good reason shown, allowed by Government orders in advance, and on strict attention being paid to the orders of Government as to inspection of offices, treasuries, and sub-treasuries.

Condition of the people, &c.

2. The rainfall of 1891 was unevenly distributed and deficient in all districts, and the Division came within measurable distance of famine, especially the northern districts. Excessive rain in March 1891 injured the *rabi* crops which were then ready for cutting. In May and June the rainfall was more normal and even, and the result was a good *bhadoi* crop in nearly all districts; but the rains stopped prematurely in August and September, and the winter rice crop suffered severely in consequence, the outturn varying generally between 3 annas and 6 annas of an average crop. There was no rainfall throughout the winter, and the *rabi* crop was extremely scanty in consequence, probably only 3 or 4 annas, except where artificial irrigation was tried. The Shahabad District was saved by the Sone Canal, the crops under which were magnificent, and the irrigated *rabi* area exceeded the highest previous record. In Gaya and Patna great use was made of irrigation from "páins" and wells, and the system of "páins" was much extended in the cold weather, thus affording a great deal of employment to poor labourers. In Saran the great diversity of crops cultivated, and the diligent use of wells, preserved the dense population from severe distress. Champaran had more rain and better crops than any other district in North Bihár. Muzaffarpur and Darbhanga were the two

districts which suffered most from drought and loss of crops, and there was serious anxiety about the prospects of famine in these districts. The first report, on the expected scarcity was submitted to the Government of India on the 18th December, and from March onwards monthly reports were submitted, half-monthly reports being received from the Collectors of the affected districts. Relief works were opened in March in Muzaffarpur and Darbhanga, which swelled to large dimensions in April, May, and June; elsewhere test works were opened and closed on finding that they attracted little or no labour. The severest pinch of distress was felt in April and May, and the story of it will be told in the Divisional Report for the current year; but it may be said here that the Division passed through a time of severe trial with much greater ease than the histories of similar distress could have led any one to expect, and that the district and sub-divisional officers did splendid service by the energy and discretion with which they controlled the arrangements made for relief. It was of great advantage also to the Lieutenant-Governor that he had visited all these districts in November and December 1891, and had been able to acquire some knowledge of the localities and to discuss the impending measures with the district staff. Fortunately the previous year's crop had been a good one, and had not been largely exported, and the agriculturists were sagacious enough to sow an unusual area with sweet potatoes, which provided a great quantity of food.

Emigration.

3. Mr. Forbes's report gives a very interesting account of the year's emigration from the Patna Division. There was a decrease in the number of emigrants to the Colonies, the figure for the year being only 3,298. In the case of Colonial emigration the numbers can be stated with precision. The number of emigrants to the tea districts is unknown; 1,898 were registered for the Labour Districts, but besides this, there was an extensive free emigration, both to the labour districts of Assam, Cachar, and Sylhet, and to the tea gardens of the Duars. An important feature of the year's work was an attempt, on the part of Government, in conjunction with the British India Steam Navigation Company, to stimulate emigration to Burmah. The subject has been reported on by the Director of Land Records and Agriculture in his Annual Agricultural Report, and will be noticed in connection with that report.

Manufactures.

4. The most important manufacture of the Division is indigo. Owing to the heavy rain early in the year, followed by unusual dryness later, the manufacture flourished above the average. The outturn in the districts where the crop is mainly grown is given in the following statement for the two years 1890-91 and 1891-92.—

Districts.	No. of factories.	1891-92.		1890-91.	
		Outturn.	Value.	Outturn	Value.
		Mds.	Rs.	Mds	Rs.
Muzaffarpur	23	24,000	43,20,000	16,400	32,80,000
Darbhanga	30	18,600	33,48,000	10,200	20,40,000
Champaran	31	23,000	41,40,000	13,700	27,40,000
Saran ...	15	18,000	32,40,000	9,600	19,20,000
Total ...	99	83,600	1,50,48,000	49,900	99,80,000

The indigo industry is said to give employment in the Muzaffarpur district alone to a daily average of 30,000 persons throughout the year.

In Shahabad the industry is dying away, the only concern that consistently turns out any considerable amount of indigo being the Jagdispur concern, belonging to Messrs. Thomson and Mylne of Bihia and Jagdispur. With the

exception of saltpetre, in the manufacture of which there was nothing remarkable during the year, the other industries of the division are small and local. Saltpetre is chiefly manufactured in the northern districts of Bihár, and the following statistics concerning it are reproduced from the Commissioner's report:—

	Refined saltpetre.	
	1891-92.	1890-91.
	Mds.	Mds.
Muzaffarpur	81,520	68,251
Darbhanga	52,846	56,120
Champaran	52,732	64,793
Saran	81,349	67,601

Statistics.

5. The following table shows the number and rate of births and deaths in the principal towns of the division:—

Districts.	Municipal Towns.	Population.	Deaths registered. 1890-91.	Deaths registered. 1891-92.	Deaths Rate per mille. 1890-91.*	Deaths Rate per mille. 1891-92.	Births registered. 1890-91.	Births registered. 1891-92.	Births Rate per mille. 1890-91.*	Births Rate per mille. 1891-92.

* The death and birth rates for 1890-91 have been taken from the previous year's report.

Probably in connection to some extent with the short rainfall, which left drying swamps where in ordinary years there would be a good supply of water, the health of the Division generally was worse than in the previous year, the total recorded number of deaths being 401,398 against 365,864. A certain amount of the increase is clearly attributable to influenza, the rest being apparently due to cholera and fever.

With only four exceptions, the registered death-rate was higher in 1891-92 than in 1890-91, and this no doubt is partly due to increased mortality and partly to improved registration, for the figures of several places, such as Barh, Bhabhua, Daudnagar and others, for 1890-91, were incredibly low. The birth-rate returns are also improved, though in some towns, such as Patna, Dinapore and Tikari, they are still much too low to be true. The improvement in registration is said to be mainly due to the fact that, at the beginning of 1892, the registration in municipalities was transferred to the police.

Civil Justice.

6. The following table shows the working of the Civil Courts of the Division during the year:—

District.	Sub-division or chauki.	Description of Court.	Number of officers.	Number of original cases disposed of— Ordinary.	Small Cause Court.	Details of cases in columns 5A and 5B. Money.	Rent.	Title.	Number of witnesses attended.	Ratio of witnesses detained over two days to total number.	Ratio of cases pending at end of year to total disposed of.	Number of unit cases disposed of per Munsif.

Champaran	Sadar	Munsifs	2	3,198	701	1,880	1,785	234	20,413	·04	·22	1,950
		Total	45½	30,788	5,055	14,083	17,895	3,865	1,34,113	·17	·25	1,284

The unit in column 12 is obtained by taking one title as equal to three ordinary rent or money suits, and one Small Cause Court suit as equal to one-third of an ordinary suit. The average disposal per Munsif of such units was 1,284, which is very low compared with the Munsifs of Eastern and Central Bengal, and below the average of the province. The average was much exceeded by the Munsifs of Samastipur, Muzaffarpur, Champaran and Sitamarhi, while the Munsifs of Bihár, Gaya and Aurangabad fell far below the average standard. The small outturn of work by the Munsifs of the Gaya district has long been the subject of comment and enquiry. The highest ratio of detention of witnesses over two days in Munsifs' courts was at Samastipur (36 per cent.) and Sitamarhi (34 per cent). The Munsifs of Bihár, Sasarám, Hajipur and Saran detained more than 20 per cent. of their witnesses over two days. The ratio of pending cases to cases disposed of was highest at Sasarám and Bihár (46 per cent): in the courts of the Munsifs of Bihár, Gaya and Aurangabad it exceeded 30 per cent. On the whole it may be broadly said that the less work a Munsif turns out, the longer he detains his witnesses, and the more pending cases he has on his list.

The average ratio of orders confirmed to total number of appeals decided was 54 per cent., and the lowest ratios were in Saran (47) and Darbhanga (49).

Crime.

7. There was an increase as shown by the following table in both cognizable and non-cognizable crime, but especially in the former:—

	1890.	1891.	Increase.
Cognizable offences	28,844	32,946	4,102
Non-cognizable offences	13,377	17,922	545
Total ...	42,221	50,868	4,647

The increase in cognizable crime was chiefly under the head of Municipal and Police Act cases due to increased activity on the part of the police and municipal officers in prosecuting such cases, and of petty thefts and burglaries due probably to the prevailing hard times.

The Lieutenant Governor agrees with the Commissioner that the working of the Government orders as to refusal of enquiry should be carefully watched with a view to seeing that the orders are not abused. This question has been further treated and the intention of the order fully explained in the Resolution on the Police Report for 1891.

Criminal Justice.

8. The number of persons brought to trial was 43,473, as against 40,090 in the previous year. The percentage of convictions increased slightly from 62·8 to 63·1 per cent. With regard to this the Commissioner reports as follows:—

"The good result in the districts noted above was due partly to the exercise of better supervision by District Officers over the proceedings of subordinate Magistrates, and partly to the large increase of nuisance and municipal cases, which generally end in convictions. Remands are not now so frequent as formerly, greater care being taken against their being granted on frivolous and insufficient grounds. Cases are also disposed of generally with promptitude, and witnesses are examined with all possible expedition after their appearance. This healthy result is due to the frequent inspection of records and the enquiries regarding remands made by District Magistrates in accordance with the orders issued by Government in August last."

9. The number of cases disposed of, witnesses examined and detained over two days, and remands of six times and over are shown in the following table for each district under the heads of Stipendiary Magistrates and Honorary Magistrates' Benches:—

District.	Sub-division.	Class of officers.	Number of officers.	Cases disposed of.	Persons disposed of.	Ratio of persons convicted to disposed of.	Number of witnesses attended.	Ratio of witnesses detained over two days to total number attended.	Ratio of cases modified or reversed in appeal to total appealed.	Number of A cases disposed of.	Number remanded six times and more.	Average number of cases disposed of per officer.	Average number of witnesses attended in each case.

Ratio of total of column 11 to total of column 12 ... (a) Stipendiary ... ... 5·7
(b) Honorary ... ... 5·4

10. Sixty-seven and one-fourth Stipendiary Magistrates disposed of 18,254 cases, or an average of 271 cases per officer. The largest average was 649 cases per officer at Madhubani; next came the Magistrates of Barh (533) and Dinapore (532). Five other courts exceeded 400 cases, all but one being at sub-divisions. The smallest number of cases was decided at Nawadah (117), and five other courts fell below 200, all but one (Jahánabad) being at head-quarters. The number of witnesses summoned was a little over 5 per case, and in only two cases were more than 10 per cent. detained over two days: these were Patna (15 per cent) and Buxar (11 per cent). Three hundred and thirty-seven A cases were remanded six times or more, or only 6 per cent. of the total number; and out of this number, the Patna, Barh, Dinapore, Aurangabad and Chapra stipendiaries were responsible for more than 10 per cent. each. Patna was worst with 68 cases out of 395, or 17 per cent., and for these Mr. Place, Mr. Chapman, and Babu Dwarkanath Sen were chiefly responsible. On the other hand, the Magistrates of Jahánabad and Sasarám were conspicuous for avoiding postponements, with no cases and one case postponed six times out of 118 and 144, respectively. The Magistrates at Bhabhua, Sitamarhi, Samastipur, Gopalganj, Motihari and Bettiah also showed very low percentages. These statistics, all taken together, point to the general conclusion that more work is done and more punctually disposed of, at sub-divisions than at head-quarters. The average ratio of orders upheld in appeal was 76. The following courts had more than 30 per cent. of their orders reversed or modified: Bihár, Nawadah, Shahabad and Champaran, which last place reached the high ratio of 56 per cent.

11. Thirty-five Honorary Magistrates and Benches disposed of 14,152 cases, reaching the high average of 404 per Bench. The average number of witnesses that attended in these cases was only a little over one witness per case, which shows that they were mostly petty cases. The Aurangabad Bench was the only one which detained more than 10 per cent. of its witnesses over two days: its figure was 18 per cent. Out of 182 A cases tried by the Honorary Magistrates and Benches, only 10 were remanded six times and over. A great majority of the Benches show no such detention, but the Patna Bench detained 7 such cases out of 27. The decisions of the Benches did not fare so well in appeal as those of Stipendiary Magistrates, which is not surprising. Two Benches had every decision appealed against upset, and two others had half upset; but the number thus appealed against was small, and bore a small proportion to the total number of cases disposed of. On the whole these figures are creditable to the Honorary Magistrates, who have done a great deal of solid and useful work.

12. The work of the Sessions Courts was as follows:—

	Districts.							Total.
	Patna.	Gaya.	Shahabad.	Muzaffarpur.	Darbhanga.	Saran.	Champaran.	
Number committed during the year ...	48	31	36	53	44	57	57	326
" disposed of	44	40	36	54	45	60	57	336
" in which conviction obtained	27	21	26	41	31	36	42	224
" of above in which sentence was modified or reversed by High Court	5	2	...	3	7	2	2	21
Number of cases acquitted by Sessions Judge.	17	19	10	13	14	24	15	112

The percentage of cases in which convictions were obtained was 66·6, a very fair result, pointing to careful enquiry and commitment on the part of the Magistrates. The proportion was worst in Gaya.

13. The fines imposed and realized were as follows:—

	Districts.							Total.
	Patna.	Gaya.	Shahabad.	Muzaffarpur.	Darbhanga.	Saran.	Champaran.	
	Rs. A. P.	Rs.	Rs. A. P.	Rs.	Rs. A. P.	Rs.	Rs. A. P.	Rs. A. P.
Amount due at commencement of the year.	10,029 13 9	10,744	7,117 15 4½	4,144	11,067 1 8	17,427	13,088 8 2	73,618 6 11½
Amount imposed during the year.	21,127 6 6	23,358	15,482 9 9	15,111	16,007 10 0	21,041	13,015 0 0	1,25,142 10 3
Amount collected during the year.	14,260 9 6	20,568	11,311 13 2½	12,350	12,790 9 0	25,729	10,335 13 6	1,07,365 13 2½
Amount remitted or written off.	5,632 15 9	275	2,030 7 3	39	6,040 4 3	1,543	4,512 4 0	20,072 15 3
Amount pending at end of year.	11,263 11 0	13,239	7,227 13 5	6,866	8,243 14 5	11,196	11,255 6 8	69,291 13 6

In every case except Saran the amount collected during the year was much below the amount imposed, and the balance at the close of the year exceeded that at the beginning in four of the seven districts.

14. The statement below gives the attendance of Honorary Magistrates by districts:—

DISTRICT.	Number of times asked to attend.	Number of actual attendances.	NUMBER OF ABSENCES.		
			With leave or notice.	Without leave or notice.	Total.
Patna ...	2,455	1,638	290	527	817
Gaya ...	660	442	132	86	218
Shahabad ...	955	665	80	210	290
Muzaffarpur ...	1,448	1,031	20	397	417
Darbhanga ...	1,078	730	92	256	348
Saran ...	415	316	52	17	69
Champaran ...	369	277	4	104	108
Total ...	7,380	5,129	670	1,597	2,267

The number of absences without leave or notice is large in comparison with those in which notice was given in the Patna, Shahabad, Muzaffarpur, Darbhanga, and Champaran districts. The attendance was worst in Patna, Gaya, and Darbhanga. It appears, however, from a remark in Commissioner's paragraph 295 that the lax attendance is partly due to the irregular way in which the roster is prepared, and that District Magistrates would do well to give more attention to the matter as Mr. Bourdillon has done in Saran. The Jhauganj and Samastipur Benches show extremely well, with hardly any absenteeism. Where the return shows that an Honorary Magistrate who has been summoned has put in no attendance, or only one or two during the year, it might be as well to ask him to resign the post.

Registration of documents.

15. The number of documents registered during the year was as follows:—

DISTRICT.	Class of Registration office.	Number of offices.	Number of documents registered.	Average per office.
Patna	Special ...	1	6,038	2,111
	Rural ...	5	6,627	
Gaya	Special ...	1	3,707	1,463
	Rural ...	4	3,608	
Shahabad	Special ...	1	4,640	2,384
	Rural ...	4	7,283	
Muzaffarpur ...	Special ...	1	6,449	3,399
	Rural ...	6	17,347	
Darbhanga	Special ...	1	3,358	2,371
	Rural ...	6	12,959	
Saran	Special ...	1	8,482	4,694
	Rural ...	4	14,991	
Champaran ...	Special ...	1	5,447	4,829
	Rural ...	3	13,870	

It appears from the above that the largest number of documents were registered in Muzaffarpur; but of the individual offices those in the Champaran district averaged the largest number of registrations. Mr. Forbes, in his 63rd paragraph, has drawn attention to the great increase of documents registered during the last five years, as showing the increasing indebtedness of the rural population: but something may be due to the greater facilities now offered for registration, and the growing belief in the protection it affords.

Land revenue and cesses.

16. The following statement shows the collections of land revenue and cesses for the Division by districts:—

District.	Class of demand.	Class of estates.	Number of estates.	Demand.		Collections of 1891-92.		Balance on 1st April 1892.	
				Current.	Arrear.	Current.	Arrear.	Current.	Arrear.
				Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Patna	Land Revenue	I	9,901	14,09,221	1,67,881	12,45,680	1,67,465	1,63,532	416

Saran	Land Revenue	I	4,611	12,43,213	41,316	12,09,141	36,805	34,072	4,511
		II	77	17,107	5,471	13,718	5,059	3,389	412
		III	15	6,468	6,372	2,443	4,570	4,025	1,802
	Road cess	Estates / Rent-free tenures	11,593	3,34,718	1,32,431	2,25,752	1,00,382	1,08,966	32,047
	Zamindari dak	Estates	2,894	9,172	9,800	6,308	4,460	2,864	5,340
Champaran	Land Revenue	I	1,171	5,14,619	63,223	5,12,699	1,120	1,920	62,103
		II	7	1,297	422	904	195	210	......
		III	......	......	......	......	......	......	......
	Road cess	......	1,243	1,76,027	60,673	1,33,506	59,550	42,521	1,123
	Zamindari dak cess	......	891	8,077	810	8,038		850	
		Total	......	1,07,15,022	13,03,372	97,24,555	10,06,954	9,60,184	2,92,930
				1,20,18,394		8,038		850	
						1,07,39,547		12,53,964	

The balances on account of Land Revenue, class I (permanently-settled Estates), in Patna and Shahabad are very large, but it is satisfactory to see that the latter district has no arrear balance. The balances of Road cess are large in all districts; and in Muzaffarpur and Saran the collections on account of zamindari dak were indifferent. Taking all demands together, the arrears at the beginning of the year, which amounted to Rs. 13 lakhs, were reduced at the close of the year to 9⅓ lakhs current and 3 lakhs of arrears, total 12½ lakhs.

Land revenue sales.

17. Altogether during the year 2,709 estates were put up to sale for arrears amounting to Rs. 10,82,912. Of these estates only 240 were actually sold.

Settlements.

18. There are a large number of petty settlements of Government and temporarily-settled estates in the Patna Division. The Lieutenant-Governor observes with satisfaction that the total number of cases pending at the close of the year was only 225 as against 309 at the close of the preceding year. It appears, however, that many of the cases have been pending an unduly long time, some being entered in Gaya as instituted in November 1879, and in Saran in November 1885.

Muzaffarpur and Shahabad districts alone disposed of 200 cases, and are responsible for 166 out of the 225 cases pending at the close of the year. The Lieutenant-Governor hopes that in future all Collectors will strive to attain the standard he has held up, which is that a petty settlement should never last on for a whole year, but should always be disposed of between October and May.

Certificates.

19. The following statement shows the working of the Certificate Acts in each district during the year:—

District.	Department.	Number filed during the year.	Number pending at beginning of year.	Total for disposal.	Amount of certificates.	Number disposed of during year.	Amount realized.	Number pending at close of year.	Remarks.

	Zamindari dak	.....	856	856	2,074	508	1,391	348	
	Government estates ...	165	94	259	2,979	159	1,940	100	
	Miscellaneous	1,404	1,837	3,341	1,29,235	1,227	22,935	2,114	
	Embankment	......	1,545	1,545	3,866	1,545	265	......	
Champaran ...	Road cess	1,182	70	1,252	27,941	1,156	20,689	96	
	Court of wards	......	3	3	101	......	49	3	
	Miscellaneous	863	805	1,668	26,545	1,176	17,431	492	
	Total ...	36,410	18,120	54,530	13,77,693	38,135	6,41,941	16,395	

The number of cases disposed of during the year was 1,725 in excess of the number instituted. This is satisfactory, as also is the fact that the number of cases pending at the close of the year was reduced to 16,395 as against 18,120 at the close of 1890-91, but the arrears are still heavy, especially in the Saran and Darbhanga districts. If the figures have been correctly prepared, the amounts for which certificates are issued are in some cases extremely small. See especially the Patna district, under Zemindari dák and Water-rates.

Land acquisition.

20. The number of cases instituted and disposed of in each district is shown below:—

	DISTRICTS.							
	Patna.	Gaya.	Shahabad.	Muzaffarpur.	Darbhanga.	Saran.	Champaran.	Total.
1	2	3	4	5	6	7	8	9
Cases pending of the previous year	11	29	7	1	0	21	7	76
Number of cases instituted	5	5	0	4	4	6	5	29
Total number of cases for disposal	16	34	7	5	4	27	12	105
Ditto disposed of	4	1	7	2	1	13	4	32
Ditto pending at end of year ...	12	33	0	3	3	14	8	73

This shows a very good result in Shahabad and Saran and fair in Champaran, but in the other districts the number disposed of has in no case equalled the number instituted, the pending list at the close of the year being thus increased.

Partition.

21. One thousand six hundred and eighty cases were pending at the beginning of the year, and 447 new ones were instituted. Four hundred and forty-eight cases were disposed of, the pending number being thus reduced by one at the end of 1891-92. The number pending is unduly large, especially as 1,452 of the 1,679 cases are over six months old, and several cases are over ten years old. This division is famous for the great number of its partition cases, which are a very serious burden upon the time of the official staff. The question of reducing the number of these cases and improving the procedure has been the subject of much consideration and correspondence during the year.

Wards' estates.

22. The table below gives the demands and collections in wards' estates by district totals:—

DISTRICTS.	DEMANDS.						COLLECTIONS.						Arrear.		Percentage of current collections on current demands.	Percentage of total collections on total demands.
	Arrear.		Current.		Total.		Arrear.		Current.		Total.					
	Rent.	Cesses.	Rent.	Cesses.	Rent.	Cesses.	Rent.	Cesses.	Rent.	Cesses.	Rent.	Cesses	Rent.	Cesses.		
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.		
ı	93,962	1,513	1,00,607	1,884	1,94,639	3,307	35,428	412	63,449	873	98,877	1,285	96,141	2,092	62·7	50·5
... ...	8,64,827	42,658	7,73,016	42,934	16,27,843	85,592	2,02,338	13,974	5,30,662	31,167	7,93,000	45,141	6,84,021	37,562	68·8	48·9
ıbad	1,37,227	3,266	68,240	2,147	2,05,467	5,413	43,686	872	31,447	934	75,133	1,806	1,27,553	3,552	46·0	36·4
hanga	1,19,686	5,435	1,80,295	5,886	2,99,981	11,321	47,150	1,411	1,18,328	3,825	1,65,478	5,236	1,34,503	6,085	65·6	54·83
AND TOTAL ...	12,05,702	52,872	11,22,228	52,851	23,27,930	1,05,723	3,88,602	16,669	7,43,886	36,799	11,32,488	53,468	10,42,218	49,291	66·4	48·7

The percentage of current collections on current demands is best in the Gaya district, in spite of an enormous current balance in the Tikari Estate. The percentage of total collections on total demands are indifferent, the highest being 54·83 in Darbhanga, while in Shahabad it is as low as 36·4. The total collections were 11,89,956 against a current demand of 11,75,079, which is good considering the badness of the crops and the injunctions which managers received not to use severe measures at such a time. The arrears, which were Rs. 12,58,574 at the beginning of the year, were reduced to Rs. 10,91,509 at the close. Remissions have amounted to about 1½ lakhs.

Excise.

23. The main features of the working of the Excise Department in the Division are shown below:—

DISTRICT.	COUNTRY SPIRITS.				GANJA.				OPIUM.				TARI.		
	Number of shops.	License fees.	Gross gallons, gross distilleries.	Total receipts.	Number of shops.	License fees.	Gross maunds.	Total receipts.	Number of shops.	License fees.	Gross maunds.	Total receipts.	Number of shops.	License fees.	Total receipts.

There is an increase of revenue under the heads of country spirit and tari, but a decrease under those of ganja and opium. The decrease in opium is very slight. The Commissioner compares the revenue of the last year before Excise Administration was placed under a Commissioner of Excise with that of the year under report, and concludes that the attempt to increase the license fees on outstills, so as to raise their incidence of taxation to a level with that borne by distillery liquor, has been a failure. With this opinion the Lieutenant-Governor agrees; but the subject has been more fully treated of in the resolution on the Excise Report.

Communications.

24. The extension of the Railway from Darbhanga to Sitamarhi was opened during the year and has been of great service in the recent distress. The expenditure from local funds on original works during the year was Rs. 4,44,795, and a large number of useful roads and bridges were constructed. The Commissioner points out that the north and east parts of the Darbhanga district are still badly provided with roads which are passable in the rains. It is hoped that the relief works carried out during the beginning of the present year were so directed as to supply this want. As far as fair-weather roads are concerned, this division is years in advance of any other part of the province.

Education.

25. The following statement shows the different classes of educational institutions in the division, their income from various sources, and the number and cost per head of the pupils:—

District.	Class of schools.	Number of schools.	Number of pupils on rolls.	Cost.						Cost per head of pupils.	Population of the district.	Ratio of pupils on roll to boys of school-going age, taken at 8 per cent. of the population.
				Provincial.	District Board.	Municipality.	Fees.	Other.	Total.

The figure in column 7 against primary schools in the Champaran district shows that the Motihari and Bettiah Municipalities very inadequately realise their duty in supporting primary education.

The percentage of boys at school in Shahabad, Champaran, Muzaffarpur, and Darbhanga is strikingly small, and it is notorious that the two latter districts are at the bottom of the educational scale of the whole province. When so much is done by Government to improve the position of the Biháris, it behoves the District Board and Municipalities to exert themselves more vigorously in this direction. His Honour observes that the Darbhanga figures have improved by about 3,500 pupils, and trusts that this reproach will not long be allowed to rest on the division. The Commissioner's remarks in paragraph 248 as to some perplexity about the classification of upper and lower primary schools will be communicated to the Director of Public Instruction.

There is nothing particular to note with regard to female and aboriginal education, both of which make but slow progress in this Division. With regard to higher education, the Commissioner reports as follows:—

It is extremely satisfactory to note that as many as 21 out of 38 English high schools, and 11 out of 45 middle English schools, are private institutions. How many of these are supported (*a*) by private donors without payment of fees, (*b*) partly by fees and partly by private benefactors, or (*c*) entirely by schooling fees, does not appear from the district reports, but one thing at any rate seems certain, viz., that English education is year by year becoming more self-supporting.

26. The number of dispensaries and hospitals in each district, their incomes, and the averages of patients treated are shown below:—

Dispensaries.

District.	Number of dispensaries.	Income from—					Daily average patients.		Ratio of out-door patients to total population.
		Government.	District Board.	Municipality.	Subscriptions.	Total.	In-patients.	Out-patients.	
1	2	3	4	5	6	7	8	9	10
		Rs.	Rs.	Rs.	Rs.	Rs.			
Patna	5	1,733	100	19,358	457	21,648	143·63	509·35	3 1
Gaya	7	564	2,880	7,959	4,489	15,892	58·33	322·	1·5
Shahabad	10	3,417	425	93,284	2,925	1,00,051	57·59	393·	2·4
Muzaffarpur	4	43	......	5,905	2,422	8,370	38·20	259·14	1·6
Darbhanga	6	136	850	5,007	6,235	12,228	47·73	410·08	4·1
Saran	10	128	5,065	7,462	9,436	22,091	52·12	957·07	5·1
Champaran	4	905	800	4,730	3,749	10,184	44·16	40·16	3·5

Poor as the attendance at our dispensaries is, it enormously exceeds the attendance at our schools: there were about 444,000 outdoor patients for the ailments of the body, against about 160,000 seekers of health for the mind.

Besides the female ward under a lady doctor at Gaya, and the Maharaja's Female Hospital at Darbhanga, a female ward has been opened at Sitamarhi, and one is under contemplation at Muzaffarpur, and the Maharaja is constructing a Female Cottage Hospital on the most approved principles at Bettiah.

27. Under the head of Local Self-Government Institutions the Commissioner has made some very pertinent suggestions as to the use and treatment of benches of Honorary Magistrates. These may be briefly summed up as follows:—

Local Self-Government, Local Institutions and Public Feeling.

(1) The class of case made over to benches should not be invariably of a petty and monotonous kind; but when benches are composed of educated Honorary Magistrates who have already shown good work, should comprise cases of considerable importance, especially those in which acquaintance with business or zamindari matters and with native customs is necessary.

(2) A carefully prepared roster of attendances should invariably be circulated in ample time to all Honorary Magistrates.

(3) Appointment to Honorary Magistracies should be for a term only, and subject to renewal on approval of the work previously shown, instead of for life.

The last suggestion is of doubtful propriety, but the other two appear to the Lieutenant-Governor to be sound and such as would conduce to a greater interest in the work of Honorary Benches.

With regard to municipalities, the Vice Chairman of that at Patna is reported to have carried out great improvements in assessment and sanitation. The municipalities of Muzaffarpur, Sitamarhi, Chapra and Siwán are also well spoken of. On the other hand, the state of the Arrah Municipality is described as deplorable and as being on the verge of bankruptcy. Of the District Boards the Commissioner speaks favourably as consultative bodies: they are not so constituted as to take much share in executive work. The three important associations, the Bihár Indigo Planters,' the Bihár Landholders' and the Tirhoot Landholders' are described as active and useful bodies, whose opinions deservedly carry weight. The Gorakhshini Sabha has done much for the care of cattle and the establishment of pinjrapoles or hospitals for such animals; but it is inclined "to promulgate its doctrines in an aggressive manner, with the result of exciting much illfeeling between the Hindu and Muhammadan communities." On the subject of public feeling the Commissioner remarks as follows:—

"There is but little to be said on the subject of public feeling. The masses take little or no interest in public matters, their attention being confined to the state of the crops and their own domestic affairs. The temporary agitation caused by the passing of the Age of Consent Act has quite died away. The prosecution of the *Bangavasi* paper of course caused a certain amount of talk at the time, and the Municipal Amendment Bill is now evoking criticism among those who are not responsible for the working of the present Act. The discussions on the subject of the cadastral survey are too well known to require description here. Among local topics the only one requiring notice is the excitement caused on the

subject of cow sacrifices at Gaya on the occasion of the Bakrid festival in July last year, which led to a serious riot and loss of life. A full report on this subject was submitted with this office No. 437, dated 27th July 1891, and a detailed account need not be given here. It is sufficient to say that the contending parties under the sensible guidance of their leading members eventually came to an amicable settlement, making mutual concessions, and that the festival this year at Gaya passed off quietly without any attempt at hostile demonstrations on either side. A few attempts by Hindu mobs to prevent the Muhammadans performing their sacrifices occurred in outlying villages in Gaya and Patna. There was fortunately no bloodshed, and it is to be hoped that the leaders of the Hindu community will continue to use their influence in discouraging lawless interference of this kind in future."

The relations of the zamindars with their raiyats are satisfactory, and, with the exception of two troublesome cases, indigo planting has continued to work smoothly.

Miscellaneous.

28. The Commissioner reports that the Metal Tokens Act has had no practical effect, the Lohia or Gorakhpuri pice being still the current coin of the country, partly because the sub-division of the anna into four pice does not give a sufficiently low denomination for the small wants of purchasers.

All the Sub-divisional Officers are reported to keep horses, except one, Mr. Barber, who is forbidden on medical grounds to ride but is otherwise active.

29. The Patna Division is fortunate in possessing a singularly able staff of Collectors and Sub-divisional Officers. The work of Messrs. Forbes, Bourdillon, and Blyth as district officers, and of Messrs. Bernard, Levinge, Bonham-Carter, Maddox, Howard and McIntosh as sub-divisional officers has been especially well reported on by Mr. Lyall, who was Commissioner of the division at the close of the year. Babus Dhanesh Chandra Roy, Nobin Chandra Mittra, Ram Anugraha Narayan Singh, Mohini Chandra Ghosh, Sarada Prosad Chatterjee, and Moulvi Saiyid Wajid Hussain are also classed as having done very good work

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

Secretary to the Govt. of Bengal.

RESOLUTION ON THE REPORT OF THE DIRECTOR OF THE DEPARTMENTS OF LAND RECORDS AND AGRICULTURE, BENGAL, FOR 1891-92.

REVENUE DEPARTMENT—AGRICULTURE.

Darjeeling, the 18th October 1892.

RESOLUTION No. 837T—R.

READ—

The Annual Report of the Director of the Department of Land Records and Agriculture for the year 1891-92.

THE report is, as in previous years, divided into two portions. The first part deals with surveys and settlements, the second part with agricultural enquiries, experiments, and statistics. The portion of the report which treats of surveys and settlements has been confined this year under the orders of Government to a brief financial account of the more important operations. It is not necessary to review this part of the report here, as the survey and settlement operations will come under the review of Government when the Director submits his full report for the year ending the 30th September 1892. In view of this fact it seems unnecessary for the Director to submit any report on survey or settlement for the financial year. One report on this subject will suffice in future to be prepared for the administrative year ending the 30th September, and one report on agricultural operations and experiments to be prepared for the financial year. The remarks below will therefore be confined to the latter portion of the report.

Tours.

2. Mr. Finucane, who was in charge of the Department throughout the year, with the exception of three months from the 3rd August to the 3rd November, when he was on privilege leave,—his office being placed during that time in charge of Mr. Maude, Revenue Under-Secretary to Government—did altogether 131 days touring distributed over all of the months during which he held charge.

Analysis of districts.

3. Reports on the Nadia and Cuttack districts by Mr. Bhupal Chandra Basu and Mr. Nagendra Nath Banerji, the Director's two assistants, have been under preparation during the year, but have not yet been published.

Emigration to Burma.

4. The Hon'ble Mr. Mackay, C.I.E., and Mr. Finucane visited Bihár in November 1891, and discussed there, with several of the District Collectors, the question of encouraging emigration to Burma. The result of their discussion was that Mr. Mackay undertook to send recruiters to Chapra, Darbhanga, Gaya, Shahabad, and Muzaffarpur, and the Collectors undertook to support the recruiters, and to see that suitable emigrants were selected, and that they understood the terms on which they were going. The kind of emigration especially aimed at is temporary emigration for a few months only of the year, during which there is no work to be obtained in the Bihár districts, and it was thought that, if a few hundred men could be induced to go over and were to return with a saving of thirty or forty rupees, others could easily be induced to follow. The number, however, who have so far availed themselves of the reduced fares offered by the British India Steam Navigation Company is small, only six batches containing 132 emigrants having actually gone to Burma.

An incident in this attempt to popularise emigration, which came directly under the Lieutenant-Governor's eyes, deserves to be recorded here. Sir Charles Elliott when passing through Siwan saw a large number of persons who had volunteered for Burma, under the auspices and encouragement of Mr. Tytler, the Sub-Deputy Opium Agent. They were most anxious to go, and even impatient and angry at not getting their orders and advances, and His Honour had to assure them that he would do personally all he could to ensure that no further delay took place. They were all known to Mr. Tytler, who took immense trouble in the matter, and they had complete confidence in him, and if ever any men were in earnest in their desire to emigrate, those men were. Yet when they got to Calcutta some foolish or designing people got hold of them and frightened them, and all but 27 out of a party of 80 absconded. This is an example of what so often happens in emigration to Assam and elsewhere, and makes it easier to understand the difficulties of planters and contractors, and how little sympathy the people often deserve, who are described in newspapers

and representations to Government as crying out at railway stations and on steamers that they have been kidnapped and deceived.

Silk Culture.

5. *Mr. Nitya Gopal Mukerji has carried on, during the year, his experiments in the eradication of silkworm disease and in the production of pure seed at outstations away* from the silk districts of Bengal. There has been a good demand for the seed which he has introduced, and the results also obtained from the seed distributed by him have been good. His present difficulty appears to be to obtain sufficient notice of the amount of seed likely to be applied for, so as to arrange for its despatch in proper time from the outstations where it is collected.

Locusts.

6. Swarms of locusts visited the districts of Northern and Central Bengal and the Orissa and Chota Nagpur Divisions, but the damage done by them does not appear to have been extensive.

Burdwan experimental farm.

7. As in the previous year, agricultural experiments were conducted by the Director's two assistants on farms at Burdwan, Dumraon, and Sibpur. Mr. Nagendra Nath Banerji was in charge of the Burdwan experimental farm. Experiments were carried out in the following crops: Sugarcane, fodder-grasses, jute, paddy, maize, cotton, potatoes, wheat, barley, gram, and oats. In sugarcane, the results were, among other things, to establish the utility of the ratooning process with certain coarser kinds of cane, and also of the process of sowing in trenches on the Mauritius system, instead of in shallow furrows as is ordinarily done by cultivators in this country. The experiments in fodder-grasses showed that sorghum can be grown at a nominal cost of 1 to 2 pie per maund, and the Board of Revenue observe, with reference to this, that a large sorghum farm near Calcutta would be a paying concern, if it could be grown there at the same cost. It appears, however, from the account of the cultivation of sorghum at the Sibpur farm, that the cost there is considerably higher, viz., 5 pice per maund.

The following table shows the outturn and profit per acre of winter paddy under different kinds of manure:—

Manures.		Outturn per acre.			Net profit per acre.		
		Mds.	s.	c.	Rs.	A.	P.
Bone-meal and saltpetre	...	54	0	0	61	6	6
Cowdung (average)	...	47	9	10	56	9	6
Bone-meal	...	47	22	12	56	7	0
Castor-cake (average)	...	46	18	6	50	11	7
Unmanured (average)	...	21	9	9	19	9	0

The report should, however, show what proportion exists between the outlay on manure and the increased profit from its application.

Under the instructions of the Government of India experiments were tried in cutting the tops of maize cobs for fodder before the crop is quite matured, but the result was only to diminish the outturn, and cattle would not eat the fodder so produced.

The crop of manured Naini Tal potatoes was higher than in any preceding year. The greatest outturn,—199 maunds to the acre,—was obtained with a mixture of cowdung, ashes, bone-meal, and castor-cake, but the highest profit was got from cowdung and castor-cake alone, which gave a profit of Rs. 203-8 over the unmanured plot.

The Lieutenant-Governor is glad to see that the financial result of the farm showed a great improvement on previous years. The total expenditure was Rs. 1,565, but this includes the pay of an overseer and a peon, besides stamps and stationery. The income was Rs. 1,162 as against Rs. 808 only in the previous year.

Dumraon Farm.

8. The experiments at the Dumraon farm in winter paddy agreed with those at Burdwan in showing saltpetre to be one of the most valuable manures for the crop. It is reported, however, that some experiments in deep versus shallow ploughing turned out in favour of deep ploughing, whereas last year a contrary result was obtained. It is stated that this cannot be accounted for. It shows how comparatively little store can be set by the results of experiments conducted on these small experimental farms.

In sugarcane the Mauritius system as at Burdwan showed good results as compared with the local method.

The total expenditure at Dumraon and Bhojpur on the experimental farm and economic museum amounted to Rs. 1,896. Deducting Rs. 1,282, debitable to salaries and miscellaneous expenses, the actual cost of cultivation was Rs. 614, against which there was an income of Rs. 717.

Sibpur farm.

9. The experiments conducted at Sibpur were of a similar character to those in the other farms. The Mauritius system of planting sugarcane did not, however, show any superiority at Sibpur over the native method. The same result as at Burdwan was obtained by lopping off the tops of the maize plants before maturity.

The experiments made at these farms in growing ganja with a view to comparing the outturn with that of the ganja-growing tract in Rajshahi, so as to show whether any portion is withheld by the cultivators there, were very inconclusive, and in the Lieutenant-Governor's opinion it was useless to attempt to grow the plant in soil and climate unsuited to it.

The net expenditure on actual cultivation was Rs. 1,368, and the net income only Rs. 1,137, from which it is apparent that this is the least profitable of the three experimental farms.

Other experiments.

10. Besides the three farms mentioned above, minor experiments, chiefly in regard to the cultivation of sugarcane, wheat, and potatoes, were carried on in a number of private and wards' and Government estates throughout the Province.

Bones as a manure.

11. The manufacture of bone-meal was continued during the year at the Jalpaiguri jail from bones collected by Chamars in the Rangpur, Darjeeling, and Jalpaiguri districts. One hundred and eighty-six maunds of fine meal were produced, of which 77 maunds were sold to European planters and officials, and 28 maunds to native cultivators. The bone refuse left in the *dhenkis* amounted to 144 maunds, of which 26½ maunds were reduced to ashes and so utilised.

The Lieutenant-Governor looks on this as perhaps the one satisfactory item in all the list of casual experiments. Any addition to the jail industries of the Province, which is at the same time laborious and remunerative, will always be welcomed.

Agricultural implements.

12. The reports received from different parts of Bengal, including the hills, agree almost unanimously that the Sibpur iron-ploughs are too heavy for the country bullocks, and unsuitable to native cultivation. They were also found by an experiment in Kurseong to be unsuitable to the hill slopes.

The cream separators and butter churns tried at various places gave fair results, especially in the Terai and Hill districts, but their cost is prohibitive for ordinary native use.

Bengal veterinary institution.

13. The veterinary school and hospital near Calcutta, established with a view to the investigation and treatment of cattle-disease and the furthering of veterinary science generally in Bengal, is now in course of construction, thanks to the liberality of Babu Sheo Baksh Bagla and Sir Dinshaw Manockjee Petit. Veterinary Captain W. D. Gunn has lately been appointed by the Government of India to be the Bengal Veterinary Officer and will have charge of the institution. Meanwhile, until the buildings are constructed, his services will be utilised in connection with District Boards and in all cases of outbreaks of cattle disease.

Officers.

14. The Director acknowledges in his report the assistance rendered to him by his three assistants, Mr. Nitya Gopal Mukerji, Mr. Bhupal Chandra Basu, and Mr. Nagendra Nath Banerji, in controlling the agricultural experiments and compiling agricultural statistics. Mr. Nitya Gopal Mukerji's time is mostly, though not altogether, occupied in silk researches, in which he is a specialist of considerable experience.

ORDER.—Ordered that this Resolution be published in the *Calcutta Gazette*.

Ordered also that a copy of the Resolution be submitted to the Government of India, in the Revenue and Agricultural Department, for information, and that a copy be forwarded to the Board of Revenue, for information.

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

Secretary to the Government of Bengal.

RESOLUTION ON THE REPORT OF THE BOARD OF REVENUE ON WARDS' AND ATTACHED ESTATES IN THE LOWER PROVINCES FOR THE YEAR 1891-92.

REVENUE DEPARTMENT—LAND REVENUE, No. 3683L.R.

Darjeeling, the 20th October, 1892.

RESOLUTION.

READ—

The Report of the Board of Revenue on Wards' and Attached Estates in the Lower Provinces for the year 1891-92.

Preliminary.

THE Report, which is due to Government on the 31st August, and which is dated with that date, was received in the Revenue Department on the 6th September. Only one of the Commissioners' Reports was received by the Board in due time, and one, that of the Commissioner of Chota Nagpur, was 20 days late. These delays, which it is hoped will not occur again, make it the more creditable to the Board to have achieved punctuality in submitting their report.

The Report is well drawn up, and the Lieutenant-Governor desires to congratulate the Board on the improvement in its form since last year.

Revenue and rents due to Government and superior landlords.

2. The number of wards' estates in charge of the Revenue authorities increased from 69 to 75, while that of attached estates decreased from 70 to 69, the net increase in all estates being therefore five, and the number being 144 against 139. The arrear demand of revenue and cesses due to Government at the beginning of the year was Rs. 29,756, and the current demand Rs. 49,01,160, or altogether Rs. 49,30,916. Of this Rs. 25,053 arrear and Rs. 48,89,355 current (including Rs. 5,107, paid in advance in 1890-91) were paid and Rs. 3,680 remitted, leaving a balance of Rs. 12,828. The percentage of current payments on the current demand was 99·6. The balance due to Government at the close of the year, viz., Rs. 12,828, against Rs. 29,756 at the end of 1890-91, shows a satisfactory improvement.

3. Of rent and cesses due to superior landlords, the demands were—arrear Rs. 61,278, current Rs. 3,89,546, or in all Rs. 4,50,824. Of this, Rs. 4,01,237 were paid (Rs. 3,96,902 in 1891-92, and Rs. 4,335 in 1890-91), and Rs. 4,876 remitted, leaving a balance of Rs. 44,711, or Rs. 16,567 less than the balance at the end of 1890-91. In paragraph 2 of last year's Resolution it was suggested that these balances, which are chiefly due to the superior landlords refusing or neglecting to accept payment owing to disputes, &c., among co-sharers, should be paid into Court so as not to appear at all, leaving the claimants to settle their own affairs. The Board explain in their present report that the procedure of section 61 of the Tenancy Act, by which the amount would be paid into Court, is only meant to be applied in cases where the tenant would otherwise suffer. This is not so in most of these cases, and payments into Court would only entail unnecessary trouble and expense on the managers. The Lieutenant-Governor accepts the view on the understanding that payments into Court are insisted on in cases where there is a real dispute likely to continue for a long time and to lead to litigation.

Rents due to the estates.

4. The following statement shows for the past five years the demands and collections of rent and cesses due to the wards' and attached estates under Government management:—

Year.	Demand.			Collections.			Percentage of—		Remissions.	Balances.
	Arrear.	Current.	Total.	Arrear.	Current.	Total.	Current collections on current demand.	Total collections on current demand.		
1	2	3	4	5	6	7	8	9	10	11
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.			Rs.	Rs.
1891-92	77,67,017	91,53,100	1,69,20,117	30,69,365	60,68,458	91,38,736	66·2	99·8	12,12,179	65,69,202
1890-91	79,81,432	98,29,588	1,78,11,020	....	....	96,20,082	....	98·	7,57,403	74,24,535
1889-90	1,08,46,289	1,00,15,159	2,08,61,448	....	....	1,02,24,591	....	100·2	24,52,188	81,84,669
1888-89	1,12,89,022	1,03,44,555	2,16,33,577	....	....	97,20,349	....	94·	10,70,426	1,08,42,802
1887-88	1,16,36,922	1,02,46,459	2,18,83,381	....	....	99,70,939	....	97·4	2,15,827	1,16,96,615

N.B.—The reason why the closing balance of one year does not agree with the opening balance of the next is that the estates released are struck off from one year and estates newly taken in charge are brought on at the commencement of the next.

The Lieutenant-Governor has noticed with pleasure the decrease in the balance from Rs. 74,24,535 in 1890-91 to Rs. 65,69,202 in the past year, *i.e.*, a decrease of Rs. 8,55,333. On the other hand, the remissions have increased by Rs. 4,54,776, so that the real improvement in collection of arrears is only Rs. 4,00,557. The percentage of current collection on the current demand for 1891-92 is 66·2. With reference to this percentage, the Board argue that the real test of efficient collections is rather the percentage of total collections than of the current collections on the current demand, because, they say, if on an average of years the total collections equal the current demand the highest standard practically attainable has been reached; and as part of each year's current demand is always unrealisable, a manager whose collections come up to the current demand has really reduced to some extent the arrear demand. They therefore judge the results of the year by the percentage of total collections on current demand, which in 1891-92 was 99·8 against 98·0 in the year 1890-91. These remarks have a certain validity, and in deference to the Board's argument the ratio desired has been introduced in the table given above. It shows that in only one year of the five has anything been done to reduce the arrears by actually collecting more than the current demand within the year. But the main point is to bear in mind that a good manager should collect the whole current demand (except such small items as may be irrecoverable through death and desertion of raiyats, &c.), and also a large portion of the arrears, if any arrears exist. A manager who allowed arrears to accumulate last year should not gain credit for collecting them this year. Again, not much good is effected by collecting old arrears if new arrears are allowed to accrue in the year's demand. From this point of view the ratio of current collections to current demand is important, and the figure shown in 1891-92 for that ratio (66·2 per cent.) is very low. His Honour observes from the Land Revenue Report for 1891-92 that a much higher figure (90·47 per cent.) has been reached in the case of Government estates managed direct, and managers of wards' and attached estates should aim at a similar standard.

Of the Rs. 65,69,202 shown as balance at the end of 1891-92 in column 11 of the statement given above, Rs. 61,38,950 have accrued during the charge of the estates by Government. Of this sum about 48 lakhs are believed to be good and recoverable debts.

Debts due by estates.

5. The balance of debts due by estates at the close of the year is shown at Rs. 37,05,508 as against Rs. 37,16,020 at the end of 1890-91, in spite of the accrual of debts to the extent of Rs. 14,24,325 ascertained and incurred during the year. The reduction in the balance is attributed chiefly to four lakhs of rupees repaid by the Deo estate in Gaya to the Maharaja of Darbhanga; but as the four lakhs were borrowed from Government for the purpose, it is presumed that they are included also in the Rs. 5,67,774 entered against the Patna Division as incurred during the year.

Management.

6. The total charges amounted to Rs. 10,23,634 against Rs. 8,91,547 in 1890-91. The increase was due to charges on survey and settlement, which, however, are debitable rather to improvements than to management. Owing to the same cause, the rate

of total charges on the current demand for the Province rose from 9·0 to 11·1. The management charges proper, *i.e.*, pay, establishment, travelling allowance, &c., of managers, amounted to Rs. 7,23,054, as against Rs. 7,36,616 in the previous year, but owing to the decrease in the current demand the rate of these expenses on that demand rose slightly from 7·4 to 7·8 per cent.

Improvements, &c.

7. The following statement shows the total sums spent on improvements of different kinds for the last five years:—

YEAR.	Subscriptions and donations to schools.	Subscriptions and donations to dispensaries.	Maintenance in efficient condition of estates, buildings, and other immoveable property.	Improvement of land and property and benefit of ward.	Total.
1	2	3	4	5	6
	Rs.	Rs.	Rs.	Rs.	Rs.
1891-92	61,165	37,598	1,91,397	92,864	3,83,014
1890 91	59,241	32,255	2,13,178	58,404	3,63,078
1889-90	69,301	38,732	2,24,439	66,930	3 99,402
1888-89	58,707	38,110	1,24,698	58,167	2,79,682
1887-88	63,933	34,276	1,57,099	43,259	2,98,567

In paragraph 11 of the resolution on the report for the preceding year, the Lieutenant-Governor commented on the very limited success which the Revenue authorities seem to be able to attain in effecting improvements. His Honour is glad to see an increase in expenditure in the year 1891-92 from Rs. 58,404 to Rs. 92,864 under the head of improvement of land and property, but there is still much room for further action in this respect. The Board expect that during the current year a much larger expenditure will be incurred under this head. The Lieutenant-Governor hopes that this will be so, as it is very important that all solvent estates should set a good example in this respect. It is possible that the figure in column 5 above may be a little under the truth, as it appears from the Board's paragraph 15 that *gilandazi* work in the Tikari Estate, which is essentially an improvement and one of a most valuable kind, has been included in column 4. But still there is a striking contrast between the figure Rs. 92,864 in column 5 and the figure (Rs. 5,34,044) stated in a later portion of the Report (paragraph 21) to have been expended on investments in landed property and Government securities, and His Honour is satisfied that a considerable part of this latter sum might have been spent with equal safety and remunerativeness in improving the original estate.

8. It is stated that in the Narhan estate estimates for Rs. 10,000 were sanctioned for the purpose just before the close of the year, but nothing was done during the year, the amount shewn in the Appendix to the Report as spent on improvements in this estate, with a rent-roll of nearly two lakhs, being the ridiculous figure of Rs. 25. Similarly, the Dakhin Shahbázpur Estate with a rent-roll of Rs. 1,20,000, spent only Rs. 25 in improvements, Dhalbhum spent nothing, and Bhawánipur spent only Rs. 27,685, against Rs. 55,000 invested. The Manager of the Chandra Kumar Estate in the Shahabad district invested Rs. 24,331 in Government Securities and spent nothing on improvements. These are only some out of many cases noticed by the Lieutenant-Governor where either nothing at all or else some insignificant sum has been devoted to improving the property of the estate. The Board's Circular of last April, quoted in paragraph 32 of the Report, will no doubt result in causing the wishes of Government to be duly carried out. Sir Charles Elliott cannot too strongly insist upon the policy of devoting a liberal expenditure to improvements in solvent estates which have come under the charge of Government. Every manager of such estates should make out and keep by him a programme or list of projects and estimates, and this list should, if possible, be sanctioned beforehand, so that he may be ready to spend on these works any surplus sums he may have; and Commissioners and Collectors when on tour should call for these lists of projects and discuss them with managers and arrange them in order of importance.

9. The agricultural experiments carried on during the year in wards' and attached estates have been dealt with in the Report of the Director of the Department of Land Records and Agriculture. The Lieutenant-Governor agrees with the Board that it is only too probable that these experiments have not everywhere been conducted with intelligence in the selection of new areas of demonstration and of suitable soils on which to introduce the trials.

Surveys and settlements.

10. Figures are given in the Report showing the progress made in survey-settlement work in seven wards' estates under the supervision of the Director of Land Records and Agriculture, and operations in thirteen other estates are briefly referred to. The Lieutenant-Governor hopes to see this work taken up on a more active and uniform scale in future, and it would be well if this portion of the Report were directed to showing not so much what estates have been and are being settled, as what estates are not being settled, and the reason why such estates are not being settled.

Certificates.

11. The following statement is reproduced from the Board's Report, showing for the last five years the working of the certificate procedure in wards' and attached estates:—

Year.	Number pending from last year.	Number filed during the year.	Total.	Disposed of during the year.	Pending more than six months.	Pending less than six months.	Total.	Amount of rent and cesses covered by certificates made in 1891-92 for the recovery of arrears due from estates.	Total annual rent and cesses of estates.	Percentage of column 9 on column 10.
1	2	3	4	5	6	7	8	9	10	11
								Rs.	Rs.	
1891-92	13,704	13,299	27,003	17,148	8,107	1,748	9,855	4,75,663	91,53,100	5·1
1890-91	21,167	10,975	32,142	18,438	12,193	1,511	13,704	4,60,970	98,29,588	4·6
1889-90	23,018	15,397	38,415	17,028	18,546	2,241	20,787	6,32,903	1,00,15,159	6·3
1888-89	10,176	24,922	35,098	12,080	21,371	1,647	23,018	8,63,017	1,03,44,555	8·3
1887-88	6,845	12,418	19,263	9,085	8,378	1,800	10,178	5,86,358	1,02,46,459	5·7

The fact that the disposals were well in excess of the number filed during the year is satisfactory; but the number pending over six months, though reduced from 12,193 in the year 1890-91 to 8,107, is still very large.

The Government order of last April, referred to in paragraph 26 of the Report, directing that the certificate procedure should not be used in disputed cases, but only where an authentic record of the demand has been prepared, based on a field survey, will doubtless diminish the number of certificates filed during the current year.

Larger estates.

12. Paragraphs 34 to 65 of the Report give particulars concerning estates having a rent-roll of Rs. 50,000 and upwards. Of these, the chief is the Burdwan Raj with a current demand of over 45¼ lakhs of rupees, the Tikari and Dighapatiya estates with a demand of over 6 lakhs each, and the Kasimbazar estate with a demand of nearly 3½ lakhs. Eight other estates have a current demand of between one and two lakhs of rupees.

13. In the Tikari estate managed by Mr. A. Ogilvy, the collections were good for so bad a year, amounting to 104·7 per cent. on the current demand. But the Lieutenant-Governor regrets to see that the management charges proper, that is, the charges on account of establishment and travelling allowances, &c., rose from Rs. 69,550 to Rs. 81,710, or from 9 to 12 per cent. on the current demand. The rise is attributed chiefly to the bringing of 33 villages under direct management, and raises the question as to whether direct management pays. It is not stated exactly what establishment was added for the 33 villages, or what their assets are as compared with the previous leases: but it seems possible that it would have been more profitable to let them remain under lease. The Lieutenant-Governor notices that Rs. 37,893 were spent on *gilandazi* or village irrigation works, being an increase of nearly Rs 26,000 over the previous year. This is good: but still the sum is a small one for an estate with a current demand of nearly 7 lakhs of rupees, and especially small in a year when scarcity was prevalent in the neighbourhood.

14. In the Dighapatiya estates, the cost of management came to 15 per cent. on the current demand, which the Lieutenant-Governor regards as too high.

The amount spent on improvements, of which, however, no details are given, was Rs. 10,052. This was nearly double of what was spent in 1890-91, but is a small amount compared with the sum of over two lakhs invested. The same remarks apply to the Kasimbazar and the Narhan estates, in both of which the cost of management (16·9 and 14·6 per cent., respectively) was excessive, and the expenditure on improvements too small.

15. A further loan of Rs. 2,72,000 to the Deo estate in Gaya, to free it from a debt due to Babu Kameshwar Prosad under the terms of a most objectionable usufructuary mortgage deed, is now under consideration by Government, and will be granted if the necessary funds can be found. The Land Revenue of this estate is Rs. 26,000, and the receipts Rs. 1,30,000 in round numbers, leaving a profit of Rs. 1,04,000. The expenses of management and maintenance are about Rs. 26,000, so that a surplus of about of Rs. 78,000 remains, with which to pay off debts that amount to about 8 lakhs of rupees.

16. The Basudebpur estate in the Midnapore district is said to be almost hopelessly insolvent. It is not, however, understood why this should be so, as the rent-roll is Rs. 1,35,000 and the Government revenue Rs. 74,000. This leaves Rs. 61,000 net. Of this amount Rs. 32,000 odd were spent in management and maintenance, leaving a sum of about Rs. 29,000 a year towards clearing off the remaining debts of Rs. 3,10,000 odd.

17. In the estate Rajkrishna Banerji in Chittagong, the gross collections were 102 per cent. on the current demand, and the cost of management only 5·9 per cent. The Lieutenant-Governor has read with pleasure Mr. Oldham's high praise of the manager of the estate, Babu Kailas Chandra Das, in his Divisional Administration Report.

18. In examining the revenue and rental due by and to several of the estates mentioned in the report, the Lieutenant-Governor has noticed the small proportion which the rent-roll bears to the Government demand. This seems to indicate that the full assets of the estates are not in all cases collected, probably because the demand has not been regularly settled. As an instance of this may be taken the Syudpur estate in the Khulna district, from the proceeds of which flows the Mohsin endowment, which has been so beneficial to Muhammadan education in Bengal. The revenue demand of this estate is Rs. 1,12,378, and the rental only Rs. 1,85,232. The grand totals of the Province support the suspicion. The total revenue demand, as shown in the statement at the end of the report, is Rs. 49,01,160, and the total current rent demand Rs. 91,53,100, or less than double of the revenue. This is not, His Honour believes, the usual rate in Bengal estates. The Road Cess Report shows that the gross rental of the whole Province is from four to five times as great as the Land Revenue. The explanation may perhaps be found in the fact that a large proportion of the actual rental is absorbed by a series of tenure-holders of various descriptions, and has thus been deducted from the estates' incomes. But it is probable that a more extended use of the settlement provisions of the Tenancy Act will result in raising the gross rental of these estates.

Estates taken in charge and released.

19. Fourteen estates were taken in charge and 12 estates were released during the year. A brief account of each of the estates taken over is given by the Board in paragraphs 67 to 80 of the Report. The worst case appears to be that of the Karharbari estate in the Hazáribágh district, of which the rent and cess-roll is about Rs. 23,800, and the existing debts amount to as much as Rs. 4,82,157. By selling a portion of the estate, however, the Board hope to get rid of the debts in 15 years. The estate was taken over in November 1891 under the Chota Nagpur Encumbered Estates Act. Of the 12 estates released, an interesting table is given in paragraph 81, showing the state of the rent-roll and of the indebtedness of each estate as well as the cash balance in hand at the time it was taken over by the Court of Wards and at the time of release. Out of 17 lakhs of debt with which the estates were burdened, 13¼ lakhs have been paid off, over 2 lakhs have been spent on settlement and improvements, and 3 lakhs have been laid up in cash and Government securities. These statistics testify in a remarkable way to the general excellence of the Board's management and the benefits it has bestowed on the proprietors. In paragraphs 82 to 98 of the Report, a particular account has been given of the fiscal history of each of these estates. A typical instance will be found in the

account given of the Nashipur estate in the Murshidabad district, which is summed up in the following words: "The management of the estate was successful, considering the embarrassed condition in which it came under the Court of Wards: it has been released free from debt, and with a working cash balance; and the Board consider that it may be quoted as an instance of the benefits which an encumbered estate may receive from the judicious management of the Court." It should be noted that the estate came under the Court in 1866, with debts against it amounting to Rs. 3,09,177, in addition to which further debts of Rs. 3,23,793 were incurred while the estate was under management.

The Commissioner of Dacca writes in a similar strain with reference to the Dhankura estate in the Mymensingh district. He says:—

"On the whole, the Court's management of the estate may be said to have been successful. We took it up encumbered with a heavy debt of over two lakhs of rupees; we have paid most of it—all indeed that ought to have been paid—and we have now handed over the estate to the proprietors with a cash balance of Rs. 59,525 in their favour. We have increased the rental of the estate from Rs. 1,25,980 to Rs. 1,30,097, given the proprietors a very fair education, initiated them in zamindari management, married them, and above all settled a difficult dispute which might have cost them much money."

Encumbered estates in Chota Nagpur.

20. The number of estates managed during the year under Act VI of 1876 (the Chota Nagpur Encumbered Estates Act) was 59, of which 11 are in Hazáribágh, 32 in Lohardaga, 5 in Palámau, 3 in Singhbhum, and 8 in Manbhum. The following statement shows the demands, collections, and balances during 1891-92:—

District.		Arrear demand.	Current demand.	Collections.	Percentage of collections on current demand.	Remissions.	Balances.
1		2	3	4	5	6	7
		Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Hazáribágh	...	49,371	73,813	76,583	103·7	565	50,441
Lohardaga	...	96,703	88,259	87,695	99·3	4,838	92,657
Palámau	...	2,477	8,461	7,657	90·4	417	2,864
Singhbhum	...	1,66,162	81,182	85,544	105·3	17,332	1,44,468
Manbhum	...	24,966	96,940	91,256	94·1	2,192	28,581
Total	...	3,39,679	3,48,655	3,48,735*	100·0	25,344	3,19,011

* Includes advance collections of Rs. 4,756.

21. The following statement shows the debts due at the commencement and end of the year by this class of estates:—

District.		Due at the commencement of the year.	Ascertained and incurred during the year.	Total.	Payments.	Reduced by compromise.	Balance due at the close of the year.
1		2	3	4	5	6	7
		Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Hazáribágh	...	3,85,577	5,21,569	9,07,146	39,115	......	8,68,031
Lohardaga	...	2,68,819	41,697	3,10,516	53,365	6,297	2,50,854
Palámau	...	27,206	75,292	1,02,498	6,673	......	95,825
Manbhum	...	2,62,205	14,796	2,77,001	55,795	241	2,20,965
Singhbhum	...	2,29,501	8,565	2,38,066	36,248	......	2,01,818
Total	...	11,73,308	6,61,919	18,35,227	1,91,196	6,538	16,37,493

As, however, the figures include those of four new estates taken in charge during the year, they lose much of their point by failing to show to what extent the debts due on the old estates were reduced. The Lieutenant-Governor wishes the figures in the statement bore out more distinctly what is said by the Commissioner in the following passage:—

"The Encumbered Estates Act has so far proved a great boon to both landlords and tenants in Chota Nagpur, and has saved many a landlord from imminent ruin, but notwithstanding the stringent provisions of the law regarding the disqualification of proprietors from incurring fresh debts and liabilities, many of them run into debt at ruinous rates of interest, even when their estates are under Government management, while others encumber their properties with fresh liabilities as soon as their estates are restored to their possession."

22. The Lieutenant-Governor considers the Board of Revenue to be entitled to high praise for their beneficent and generally successful administration during the year of this onerous branch of their work. The names of those on whom the Board have favourably reported will be communicated to the Appointment Department.

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

Secretary to the Govt. of Bengal.

PROGRAMMES OF RELIEF WORKS, &c.

REVENUE DEPARTMENT—AGRICULTURE—No. 752T.—R.

Darjeeling, the 19th October, 1892.

RESOLUTION.

READ—

- Circular of the Government of India, Revenue and Agricultural Department, No. 8—52, dated 21st March 1892.
- Letter from the Government of India, Revenue and Agricultural Department, No. 1911—92, dated 18th August 1892.
- The Bengal Famine Code, Revised Edition of January 1892.
- Resolution of this Government, No. 737T—R, dated 5th October 1892.

The Lieutenant-Governor wishes to draw the particular attention of District and Divisional Officers to the important subject of the preparation of statements of areas liable to famine and programmes of relief works. The programmes and statements hitherto submitted to Government under sections 3, 24, 25, and 58 of the old Famine Code, and sections 3, 26, and 57 of the Revised Code, require revision in consequence of instructions recently received from the Government of India. The terms "Professional Agency Works" and "Civil Agency Works" have now been given different significations as described in paragraph 3 of the Resolution of this Government, No. 737T—R, dated the 5th October 1892, and orders have been received from the Government of India calling for periodical returns as to the possible need of famine relief and the provision made for meeting that need. The Lieutenant-Governor has therefore decided to issue the following instructions on the subject, which should be strictly followed in future.

2. *Areas liable to famine and number of persons likely to require employment on relief works.*—The statements (Forms 1, 2, and 3) in Appendix I to this Resolution are prescribed for annual revision and submission in every district in which any liability to famine exists. Such districts as are especially excluded from this liability need not submit them. For all others the Collector of the district should submit the statements annually on the 1st April to the Commissioner of the Division, and he should submit to Government a combined statement on the 1st May, with a map of each district showing the areas considered liable to famine, tracts more liable being exhibited by deeper shades of blue, and those less liable by lighter shades of blue.

3. (*Form* 1).—In considering the liability of a tract to famine, the following are some of the principal points which require attention:—

(*a*) the previous history of the tract as having been visited by famines or not;
(*b*) the density and economic condition of the population;
(*c*) nature of the soil and general capability of the tract to maintain its population;
(*d*) how far cultivation depends on rainfall, and whether the normal rainfall is regular or otherwise;
(*e*) how far the tract is irrigated by rivers, canals, wells, &c.;
(*f*) its accessibility as regards importation of food-grains.

In filling up columns 2 to 5 of the table, the estimates of the number of persons likely to require employment on relief works should be made with reference (1) to the experience of previous famines, and (2) to the general condition of the various sections of the population. As furnishing valuable hints, extracts from the Bombay Statistical Atlas are given in Appendix II to this Resolution, showing the way in which similar statements and estimates have been framed in that Province. Statistics of the recent census, which will be of great use in this matter, are likely to be published in a short time.

In revising the statement in future years, due regard should be given to the increased protection afforded during the past year by new irrigation works and improved communications or otherwise.

4. *Programme of Civil Agency Works* (*Form* 2).—By far the greater part of relief works, if not all, will ordinarily be Civil Agency works, that is to say, works which the District Board (or District Officer where a Board does not

exist) can carry out through the District Engineer and the staff subordinate to him. The programme should be prepared tháná by tháná, showing separatey (1) the wells to be constructed, (2) the tanks to be dug and cleared, (3) the irrigation reservoirs and channels to be constructed, (4) the drainage channels to be excavated and improved, (5) the embankments to be constructed, and (6) the roads to be constructed, raised or repaired.

The figure entered in column 7 should be the number of men who can finish the work in 90 days. Thus, if 30 men can finish it in one month, the figure in column 7 will be 10. But when (as in the case of wells) the number thus worked out would be extremely small, the figure in column 7 may be entered for groups of such works.

The programme should be revised annually with due regard to the exhaustion of the works entered in the programme last submitted.

5. *Programme of Professional Agency Works.*—This will consist of only large projects such as railways, canals, &c., especially sanctioned. The programme will be prepared and maintained by the Chief Engineers in the Roads and Buildings and the Irrigation Branches of the Public Works Department of Government, in communication with Commissioners of Divisions and Superintending Engineers, and will be forwarded to the Revenue Department on the 1st May of each year, in a table corresponding to Form 2.

6. *Form* 3.—The Collectors of districts liable to famine will also forward an abstract of Forms 1 and 2, viz., Form 3, on the 1st April of each year. Instructions for filling up the columns of this statement are appended in a foot-note to the table.

7. When relief works have been opened in any district, the Commissioner of the Division should submit to Government supplementary Forms 2 and 3 at the beginning of every quarter, that is to say, on the 1st July, 1st October, and 1st January, showing—

(*a*) to what extent works on the annual programme have been exhausted,
(*b*) what new relief works, if any, are added to the programme.

8. The attention of Commissioners of Divisions is invited to the accompanying copy (Appendix III) of a draft Famine Statement C, which has been prepared from such information as is now in the possession of Government. The Government of India having asked for information as to the districts in Bengal which should be excluded from the liability to submit these annual returns on the ground of being secure agaist famine, it is requested that each Commissioner will examine the draft statement in the light of the instructions conveyed in this Resolution, of the experience of recent years, and of the reports submitted to Government in 1888 on the condition of the masses in each district, and will report, not later than the 1st January 1893, whether any alterations should be made in the draft statement as to the districts entered as not liable to famine. On receipt of this report instructions will issue indicating the districts the Collectors of which are not liable to submit the three annual Forms.

ORDER.—Ordered that this Resolution with its appendices be published in the *Calcutta Gazette*, and that copies of it be forwarded to all Commissioners of Divisions, to the Public Works Department of this Government, and to the Director of the Department of Land Records and Agriculture.

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

Secretary to the Government of Bengal.

APPENDIX I.

(*To Bengal Government Resolution No.* 752*T.—R., dated* 19*th October* 1892.)

FORM No. 1.

Statement of areas liable to famine and number of persons likely to require relief for the financial year ————.

DISTRICT.	Description of tract liable to famine.	Area of the tract liable to famine.	Total population of that tract.	Maximum number of persons likely to require relief, either by employment on relief works, or in the form of gratuitous doles.	REMARKS.
1	2	3	4	5	6

FORM No. 2.

Programme of Civil Agency Works for the financial year ————.

DISTRICT.	Thána.	Description and locality of the work.	Length in miles (if the work is a road, irrigation or drainage channel, or embankment).	Estimated quantity of earthwork.	Probable cost.	Number of persons required to finish the work in 90 days.	REMARKS.
1	2	3	4	5	6	7	8
				C. ft.			

FORM No. 3.

Abstract of Forms Nos. 1 *and* 2.

DISTRICT.	Population of tract liable to famine.	Maximum number of persons for whom relief may be required daily in the event of serious famine.	Number of persons provided for by relief works daily for three months.			REMARKS. A brief description, without details, of the general character and utility of works under each head, and of the prospects of their completion either within or soon after the period of scarcity, should be given in this column.
			Professional Agency Works.	Civil Agency Works.		
				Large works employing 300 persons and over.	Smaller works intended for relief of agricultural population in neighbourhood of villages.	
1	2	3	4	5	6	7

In this statement—

Column 2 should agree with column 4 of Form 1.
Column 3 ditto ditto 5 ditto.
Column 4 will be filled up in the Revenue Department of the Secretariat.
Columns 5 and 6 to be taken from column 7 of Form 2: add together all figures amounting to 300 and over for column 5, and all figures under 300 for column 6.

APPENDIX II.

(To Bengal Government Resolution No. 752T.—R., dated 19th October 1892.)

EXTRACTS FROM THE BOMBAY STATISTICAL ATLAS.

Areas liable to Famine in the Bombay Presidency.

The following statement gives the area, population, land revenue, and cultivated and uncultivated areas of each province in the Presidency :—

Province.	Number of districts in each Province.	Area in square miles.	Population.		Land Details, 1886-87.			Land Revenue, 1886-87.			Average rainfall (11 years).
			Total.	Per square mile.	Cultivated. Per cent.	Cultivable. Per cent.	Uncultivable. Per cent.	Gross, including alienations.	For collection.	Collections up to 31st July 1887.	
								Rupees in thousands.			Inches.
Sind	5	88,956	2,413,823	62	38	34	28	80,63	55,69	52,35	8
Gujarat	5	10,131	2,857,731	282	72	9	19	1,21,81	84,02	83,91	40
Konkan	4	13,523	3,482,323	200	41	14	45	42,83	39,37	39,23	100
Deccan	6	35,905	5,315,123	148	70	7	23	1,26,02	1,01,46	1,01,44	32
Karnatak	3	14,676	2,385,414	162	79	6	15	6,863	51,85	51,82	35
Total ...	23	113,191	16,454,414	145	63	12	25	4,40,82	3,32,39	3,28,75	...

Beginning from north, the provinces of Sind, Gujarat and Konkan, with an area of 62,610 square miles or 55·32 per cent. of the total area, a population of 8,753,877 souls or 53·20 per cent. of the total population, and a land revenue of Rs. 1,79,08,611, are not ordinarily liable to famine. In Sind a famine is almost impossible, as the cultivation depends on the inundation of the Indus, which never fails, and on the irrigation canals which traverse all the districts of the province. Gujarat depends on the monsoon rainfall, and though famines have occasionally occurred, there has been no serious famine since 1813. The province is again very rich. The coast districts of Surat and Broach are safer than Ahmedabad and the Native States north and east of it. The Konkan, both north and south, is a region of heavy rainfall and may be looked upon as safe from famine.

The Deccan and the Karnatak, comprising in nine districts an area of 50,581 square miles or 44·68 per cent. of the total area, a population of 7,700,537 or 46·80 per cent. of the total population, and a land revenue of Rs. 1,53,30,358, are the tracts which are known to have often suffered more or less from acute distress and famine. The northern districts of Khandesh and Nasik, enjoying a more certain rainfall, generally come on a level as to safety with Gujarat, but the fact of their being not quite so rich enhances the degree of their liability to distress. As indicated in the Presidency map by differences of shade, the districts bordering on the Sahyadri range are divided into three parts: (1) the western, called the Dangi, Mavli, Dongri or Mallad, receiving a certain and heavy rainfall, comprises a tract practically enjoying immunity from famine; (2) the eastern portion, called the Desh, indicated in deeper shade, is a tract of low and uncertain rainfall and is chronically liable to famine; (3) while the transition tract, situated between the two, holds an intermediate position, both regarding certainty and sufficiency of rainfall and immunity from famine. The districts of Bijapur and Sholapur, which lie in the south-east, are alone wholly liable to famine, though in the latter district again the taluka of Barsi, from its vicinity to the Balaghat range, holds a position similar to that of the transition tract elsewhere. The areas not liable, less liable, and chronically liable to famine are summarized below for the Deccan and Karnatak districts :—

Nature of tract.	Area.		Population.	
	Total.	Per cent.	Total.	Per cent.
Not liable	8,241	20	1,514,396	23
Less liable	10,184	24	2,120,385	33
Chronically liable ...	23,258	56	2,828,525	44
Total ...	41,683	100	6,463,306	100

The above figures are exclusive of those of Khandesh, for which such a line of demarcation is not possible. It will be remarked that a little over half the area is chronically liable to famine, while the other half is nearly equally divided between the protected and transition tracts.

Causes of Famine.

The main and almost the only cause of famine is the deficiency or unseasonableness of rainfall, or both. Occasionally great damage is locally caused to standing crops by locusts, rats, floods, frost, blight, grubs, &c., by which the prices of food-grains are so raised as to cause scarcity in parts; but the injury done thereby has never been known to be so serious as to cause a famine.

* * * * * * * *

POONA.

Areas liable to famine, and the causes which make them so liable.

Though in 1876-77 parts of Junnar and Khed suffered from the widely-spread drought and high prices, the area liable to chronic distress from failure of rain is the Desh, which, as above stated, makes up half the district. It will be seen from the short accounts of other districts similarly divided into three belts, the westernmost of which reaches the Western ghâts, that as a rule the Mawal portion is practically free from danger of distress caused by drought. Its immunity lies, however, only in its regular rainfall, for this description of country is not rich, nor are its inhabitants skilful and provident above their neighbours. The transition tracts enjoy a fairly regular rainfall, but their partial immunity lies in a better water-supply, in wells and water-courses running from the hills, a rainfall never excessive and more suitable for great variety of cropping, and in the longer interval between failure of the rains as compared with the open plans of the east. The husbandmen of the transition tract are not called upon to practise the virtues of the Kunbi raiyat of the Deccan (see the Ahmadnagar account) to such a degree as those whose lot is cast in the eastern plain country. Their cultivation is not so speculative and they are able to practise forethought and system in their agriculture. The condition of the dry and sultry plains is one of constant uncertainty. The soil is rich, perhaps richer than elsewhere. Careful systematic rotation is impossible, for the character of the crop is decided rather by the prospects of the season. It is wonderful how the empirical knowledge of generations and the bitter experience of past failures enable the cultivators to make the best of their opportunities. Their skill is inferior, solely because the incentive to industry is wanting. Large expenditure of labour and manure with a failure of seasonable rain places the raiyat, who runs the risk, in a worse position than his neighbour, who hesitates. A wise policy of encouraging the crection of wells has, during a long course of years, given some protection to the Desh and some energy to the cultivators. In the Poona district, the need for providing labour in the great famine gave the opportunity for extensive irrigation works, which are shown in the map and detailed in the tables. The hesitation of the raiyats to make full use of these facilities in ordinary years is often remarked. Want of capital and deficiency of manure, on the one hand, with the danger of encouraging stubborn weeds on the other, seem to be the chief reasons. But the measure of protection afforded by the possibilities of irrigation is very considerable and places the area commanded in a position of security equal to that of the transition tract.

Accessibility for relief purposes.

The G. I. P. Railway is the main trade route. It passes through the centre of the tract most liable to famine. The West Deccan, opened for traffic on 18th November 1886, brings the Bhimthadi and Purandhar talukas, localities before isolated by a spur of the Sahyadris, within ready access of Poona and the G. I. P. Railway. Railway communication with the northern and eastern districts of the Presidency and beyond is further facilitated by the Dhond and Manmad Railway and the West Deccan, of which the former joins the G. I. P. at Dhond in the Bhimthadi taluka. Railway feeders, already numerous, are being increased. The Sirur taluka is intersected by the Poona-Nagar and the Sirur-Kedgaon made-roads. Junnar and Khed have ready access to the Railway by the Narayangaon-Talegaon road, which has raised Talegaon to a trade centre of some importance. This road is now bridged at Indori. There is further considerable traffic with the country below ghâts, both parallel with the Railway over the Bhor ghât and by pack-bullocks over the Malsej and Nava ghâts. The communications of the Junnar and Khed Mawals are less full, but at the same time from a famine point of view less important.

Economic condition of the people.

The population of the Desh is almost purely agricultural, and indeed of the whole district except of trade centres like Poona and Talegaon. The only important towns of the Desh are marked in the map. None except Indapur (7,740), Sasvad (5,684) and Baramati (5,272) have a population over 5,000. The bulk of the cultivating classes are Kunbis, sturdy and skilful, and Malis; but numerous castes cultivate, even Brahmans, in the Khed taluka, with their own hands. Elsewhere Brahmans are superior holders or till with the help of hired labour. The raiyatwari occupants are fairly off except in the Desh, where they are poor and indebted. They have indeed not recovered from the effects of the great famine. The money-lenders are principally Marwar and Gujarat Vanis. The character of the former is not high. The Marwari is hard and relentless and moreover a bad landlord, caring little for the improvement of the property which comes into his power, and less for the welfare of

the insolvent raiyat. The Deccan Agriculturists' Relief Act of 1879 is in force in this district. The Special Judge claims that it has done and is doing a vast deal of good, checking the downward progress of the raiyatwari occupants and, by establishing equity in the place of law, softening the procedure for the recovery of debt. Though the husbandman's credit has been greatly curtailed, he is driven to greater self-reliance. The Act has enjoyed the great and beneficial opportunity of a series of fair seasons, and even now, if famine again visits the districts in which it has been in force, it has had time to make the most of its novel provisions. It is understood by the people and the capitalists, and it is not too much to hope that the anticipation will not be realized, that distress and scarcity will, by reason of its innovations or by its disturbance of the relations between capital and labour, fall more heavily than heretofore on the poorer cultivators.

Forecast of the maximum number of persons likely to require employment on relief works.

In attempting to carry out the instructions of the Famine Code, it is proposed in these pages to base the estimate (1) on the experience gained in the great famine of 1876-77, and (2) on the general condition of the various sections of the population. The estimate cannot but be doubtful, for it is not possible to forecast the extent and severity of the results of future calamities. The experience of 1876-77 must be weighed with as full an appreciation as possible of the then condition of the people, of the stores of grain then available, and of the then existing facilities for bringing in supplies from outside. The figures of previous famines are wanting.

The Imperial census of 1872, compared with that of 1881, gives the means of gauging the immense loss due to the intervening famine. The degree of recovery must be judged by the figures of the annual village census, until the time for the next regular enumeration arrives.

In 1872 the numbers were 921,353, and 900,621 in 1881. The difference, a decrease of 2¼ per cent., added to such figures as, but for the famine, would represent the normal increase of population, shows the extent of the check due to the famine. The village census of 1887 gave a total of 910,234. It is not an accurate census. It shows a decrease since 1881 in some talukas, *e.g.*, Junnar, Haveli, and Maval, where it is most improbable that a decrease is real. Territorial changes have also taken place from time to time, which make too close a comparison unfruitful.

The population of 1881 may be distributed roughly as follows:—

Eastern plains	340,940 or 38 per cent.
Transition tract	400,784 or 44 „
Western Mawals	158,897 or 18 „
	900,621

Of the people, 95 per cent. are Hindus, and 4½ per cent. Mussalmans. The remainder are Christians, Parsis, and Jews.

The vernacular of 90¼ per cent. is Marathi, of 5¼ per cent. Hindustani, of 1½ per cent. Gujarati, of 1¼ per cent. Telugu, of ⅝ per cent. Marwari, and of the remainder English and other languages.

Analysis.

For the purpose of general guidance in times of distress to officers deputed for famine relief, who may not possess local knowledge, in this and in the following district summaries it is sought to analyse the population details of the 1881 census in such a way as to show the economic condition and the general occupation of the various sections of the community. The once intimate connection between caste and occupation no longer exists, but the connection is still close enough to make it possible to base the analysis on caste and class sub-divisions.

Brahmans and Writers, 50,500 or 5·60 per cent. The Brahmans are Deshasths (32,700), Chitpawans (11,600), and Karhadas (1,600). Other classes which in position and occupation may be included under this head are Prabhus and Mudliars, who together only number 1,500. The Deccani Brahmans fill all the most important professional services, and are also priests, money-lenders, general traders, and, as has been shown, not only superior holders of land, but actual cultivators in some parts. The Brahmans are self-reliant and in no fear of the necessity of resorting to relief works even in the severest distress. The writers, not Brahmans, are chiefly in Government service.

Traders, 20,900 or 2·32 per cent., include Marwar Vanis (9,600), Lingayats (5,400), and Gujrat Vanis (3,800). These are foreigners from the north and south of the Presidency. But it must not be supposed that all trade is in their hands. The Brahmans and many other classes, as will be seen, are largely occupied in trade. But it is true that the chief pursuit of the Marwaris, Gujars and Lingayats, now settled in the district, some only temporarily, is trade including money-lending. There are other foreigners, chiefly traders, *e.g.*, Komtis from Madras, Kirads and Agarwalas from North India, and there are local Vanis (Vaishya Vanis 1,000), who are principally grocers. As a class traders will not need Government aid in famine.

Artisans and skilled labourers, 47,000 or 5·22 per cent. The artisans are Sonars (9,200, goldsmiths), Badhais (9,700, carpenters), Lohars (2,600, blacksmiths), Tambats (1,100, coppersmiths), Kumbhars (7,700, potters), and Shimpis (8,900, tailors), while the

skilled labourers come chiefly from the Vadars (2,700, stone-cutters and professional diggers), and Kamatis (1,200, chiefly bricklayers). The Patharwats (300, stone-dressers), Belders (700, stone-cutters), Ghisadis (400, tinkers), Jingars (650, saddle-makers) may also be specified among the less numerously represented classes.

The Badhais are from North India, and appear to have ousted the local Sutars from the district. They are intemperate and extravagant. The coppersmiths are on the increase and are being drawn to Poona from other districts. The Kumbhars are not well off. On the whole, however, very few from these classes will resort to relief works except as skilled labourers, and will receive wages which will support their families at home.

Manufacturers, 22,000 or 2·44 per cent. Oil-pressers or Telis (8,700) suffer from the competition of petroleum, and though some are husbandmen, many are falling to the status of day-labourers.

Weavers (Salis 3,800, Koshtis 2,700, Sangars 800, Khatris 500, and Rauls 400), are mostly residents of Poona and carry on a flourishing trade in spite of foreign competition. As in the case of copper-workers, weavers from places (*e.g.* Paithan in the Nizam's territory) where the craft was specially famous, are showing a tendency to congregate in Poona city. Coarse cloth weavers are very few.

Kasars (2,800) are bangle-makers and sellers, and many work in brass. They chiefly live in Poona city.

Except the poorer Telis, the manufacturers of the district will give no cause for anxiety.

Servants and labourers, 47,000 or 5·22 per cent. Village servants useful to the community are—barbars (10,100 Nhavis), washermen (Parits 6,200), Guravs (6,000, temple servants), besides those belonging to depressed classes who will be discussed separately further on. Most of these have customary grain wages. In towns they receive good wages, but the village residents may be compelled to relief works, except the Guravs, whose position is more secure. It must be noted that even village Nhavis have usually a member of the family in Bombay or Poona.

The Ramosis (16,700) are closely allied to the Bedars (hunstmen and woodsmen) of the Bombay Karnataks (see Bijapur). They were once located in settlements on the hills, but have been, for the sake of the public peace, distributed throughout the district as village watchmen. Some are landholders and many skilful field-labourers. A considerable proportion will resort to relief works.

The Rajputs (3,800) are house servants and messengers. They have a monopoly of the preparation of split pulse in Poona and are called Dalvalas. They are secure from famine.

Wandering tribes, 3,200, are not numerous. They are Kaikadis (1,100) and Kathkatis (1,000) principally. The latter come from the Konkan to work as field-labourers. The former are under police surveillance. In famine they will suffer, but are not likely to resort to relief works.

Professional beggars, 9,200 or 1·02 per cent. The Gosavis (3,700), though religious mendicants, include many who have taken to trade and other occupations. Jangams (1,000) or Lingayat priests are settlers, and come rather under the head of religious mendicants than priests, as in the Kanarese districts. The Sahadev Joshis (1,000), Bharadis (1,000) are pure beggars and wanderers, with many minor castes not worthy of separate mention. These, with the exception of Gosavis and Jangams, suffer acutally in famine, but it is probable that they will seek relief by emigration, rather than work.

Depressed classes, 108,000 or 11·99 per cent. Mhars (74,600) are village servants and labourers. Some own land. They are as a class steady and not in debt, but they have no resources and will, with all the other depressed classes in affected tracts, require work in famine. Mangs (13,600) are village scavengers and labourers. Chambhars (17,200) work in leather. Dhors (1,100) tan hides and are in debt owing to recklessness. Halalkhors (1,000) or professional scavengers chiefly live in Poona. They are the only secure class coming under this head.

Shepherds and Cowherds, 37,600 or 4·17 per cent. These are the Dhangars (35,600) and Gavlis (2,000). The latter keep cows and buffaloes and sell milk. The former are in addition largely shepherds and pay more attention to breeding than the Gavlis. Some are pure cultivators. The Dhangars breed buffaloes more than cows. Their women spin wool and sell dairy produce. The shepherds have suffered from forest conservancy, and except in towns, both Dhangars and Gavlis are poor, and many may be obliged in famine to seek the relief works.

Cultivators, 500,000 or 55·52 per cent. The numbers classed under this head are large and include very many who are field-labourers or ordinary day-labourers. The Kunbis (396,600) form the bulk of the population. Among them are included the Marathas, who in some respects differ from Kunbis, though the latter, especially in the Desh, claim to be Marathas. One point of difference is that some Marathas keep their women as gosha or veiled, whereas the Kunbi women work in the fields with the men. The number of veiled Maratha women is small and almost exclusively belongs to the rich, who claim Kshatriya descent or relationship to noble families. In the Ahmadnagar Summary will be found a detailed description of the Deccan cultivator who is really the Kunbi, and it is not necessary to repeat it here.

The Malis or gardeners (52,600) are next in importance to the Kunbis. Some divide themselves into turmeric, spice, or flower Malis, and are occupied accordingly in such special cultivation; but very many are ordinary dry-crop cultivators, not differing from the Kunbi except in caste, but perhaps superior in thrift and industry. Some few are field-labourers.

Kolis (42,600) largely make up the hill cultivators of the Mawals, though they are found all over the district. Some Kolis resemble the Ambigs of the Bombay Karnatak, and are fishermen and ferrymen.

The hill Kolis are protected by their climate from danger of distress from drought. They are a simple people, but inclined to be turbulent when pressed by debt or restrictions.

Thakurs (5,600) are a class of hill cultivators, inferior in skill, condition, and intelligence to the Kolis, and more addicted to drink. They too are protected by climate, and in distress will seek sustenance on wild fruit and grasses, rather than on relief works.

Vanjaris (2,600) cannot be now called a wandering tribe, as they were. They were formerly pack-carriers, but since the opening of district by roads and railways, have taken to cultivation and other employments.

Mussalmans, 42,000 or 4·66 per cent., are not numerous, but their callings are very varied. They cannot be easily classed, as Hindus have been classed above, for the details of the numbers of the various sections of the community are not available. It is safe to say, however, that town Mussalmans are largely engaged in trade chiefly as petty dealers and in various handicrafts. Many are messengers, constables and servants, and many market gardeners and fruiterers. In villages the Mussalmans are chiefly cultivators. In the rich gardens of Khed and Junnar, the Bagbans or gardeners are famed for their industry and skill and excel the Malis. In point of thrift and soberness the village residents are decidedly superior to their co-religionists in towns, but are indebted and likely to need relief in times of famine.

It may be desirable to enumerate some of the most important of the varied avocations of the Mussalmans, for this enumeration will almost equally apply to other Deccan districts.

The Mussalmans are weavers (Momins), dyers (Rangrezos), cotton carders (Pinjaris), bricklayers (Gaundis), stone masons (Takaras), betel-leaf sellers (Tambolis), perfumers (Atars), bracelet-sellers (Manyars), gardeners and fruiterers (Bagbans), washermen (Dhobis), water-carriers (Pakhalis), sweepers (Halalkhors), and some chiefly settlers from outside are dealers in cloth and hardware (Mehmans and Bohoras). The beef and mutton butchers (Gaokasabs and Bakarkasabs) are Mussalmans. This list is by no means exhaustive.

Christians (9,500), Parsis (1,600), and Jews (chiefly Bene-Isrelas 600) remain. The first include 4,300 Natives, and almost all the Christians belong to the Poona and Kirkee cantonments. The Native Christians are Goanese and converts chiefly from the Mhars and Mangs.

The Collector, Mr. W. East, estimates the maximum number likely to require relief works in famine at less than 75,000. The maximum reached in 1867-77 was hardly more than 50,000, but it must be noted that a large number of Poona residents sought work in the Ahmadnagar district on the Dhond and Manmad Railway. Judging by the analysis detailed above, and making provision for a considerable proportion of the classes included under cultivators, who are day-labourers, the numbers insecure by profession and unable to live on credit in a severe famine approach two lakhs. Again making deduction on account of the non-liability of the Mawals and the less liability of the transition tract, the maximum estimate cannot be reduced below one lakh. Experience shows that the former estimate is the safer, and the Collector's figure may be accepted for the purposes of these accounts.

Forecast.

APPENDIX III.

(To Bengal Government Resolution No. 752T.—R., dated 19th October 1892.)

DRAFT FAMINE STATEMENT C.

[Numbers shown in thousands.]

Division	District.	Population.	Maximum number of persons for whom relief may be required daily in the event of serious famine.	Number of persons provided for by Civil Agency relief works daily for three months.	Remarks.
1		2	3	4	5
Patna Division.	Patna	1,760	21	31½	Construction and improvement of roads, irrigation channels and of tanks, sinking wells and construction of embankments and clearing the old bed of a river.
	Saran	2,407½	14½	9	Construction or raising of 18 roads to employ 6¾, draining a char to employ 2, and construction of an irrigation channel ½. Besides those, work can be provided in several villages in cleaning and deepening of tanks, but no precise list has yet been received from the District Officer.
	Shahabad	2,043	8½	21½	Roads.
	Darbhanga	2,8?2	188½	158½	Roads to employ 105, tanks 48½, and wells 5.
	Champaran	1,859½	102	109	Roads to employ 103½, diversion of Hara river 2½, and irrigation channels 3; further employment can be provided on tanks.
	Gaya	2,138	99	89	Roads to employ 29½, Saranwan pyne or irrigation channel 2, and tanks, wells and gilandazi 57½.
	Muzaffarpur	2,711½	49½	26½	Roads to employ 14½, irrigation channels 2, and wells and tanks 10.
Bhagalpur Division.	Monghyr	2,036	17	88	Roads, channels, wells, tanks, and removing silt of a river.
	Bhagalpur	2,032½	76½	31	Roads, tanks, embankments, and drainage and irrigation works.
	Purnea	1,944½	12	21½	Roads to employ 20½, and tanks 1.
	Malda	815	18½	24	Roads to employ 20, and digging tanks and sinking wells 4.
	Sonthal Parganas ..	1,754	251	144	56 on main roads, and the rest on village roads, *bunds* and dams, irrigation works and tanks.
Orissa Division.	Cuttack	1,938	45	24½	Roads, water channels, tanks, wells and *bunds*.
	Puri	945	40	6½	Roads, tanks and *Sima bunds*.
	Balasore	934½	116	52	32 on roads, and 20 on embankments and tanks.
Presidency Division.	Nadia	1,644	6½	7	2½ on roads, and 4½ on tanks and embankments.
	Murshidabad	1,228½	41	16	10 on roads, and 6 on irrigation tanks.
	24-Parganas	1,892	......	......	No figures received; reported to be safe.
	Khulna	1,177½			
	Jessore	1,880			
Rajshahi Division.	Darjeeling	223	......	......	Safe.
	Pabna	1,362	35½	35½	31½ on roads and tracts with bridges, and 4 on tanks, wells and jungle-cutting.
	Bogra	817½	42	37½	15 on roads, 2 on river improvement, and 20½ on tanks, wells and *bunds*.
	Rangpur	2,065½	21	14	12½ on roads, and 1½ on tanks, river improvement and jungle-cutting.
	Dinajpur	1,556	51	29½	17 on roads, 10 on tanks, 1½ on jungle-clearing, ½ on irrigation channels and canals, and the remainder on embankments.
	Jalpaiguri	681	27	25	23 on main roads, and 2 on tanks and village roads.
	Rajshahi	1,313	29	29	12½ on main roads, and 16½ on village roads, tanks, river improvements, and irrigation channels.
Burdwan Division.	Burdwan	1,392	61	51	21½ on main roads, including embankment for a tramway from Memari to Tarakeswar, and 29½ on village roads, tanks and jungle-cutting.
	Bankura	1,069½	67½	36½	24½ on main roads, 1½ on re-excavation of a khal, and 10½ on irrigation, tanks and village roads.
	Birbhum	798	40	8½	6 on main roads, and 2½ on miscellaneous works, such as construction and repair of tanks, village roads, small *bunds* and drainage channels and cutting jungle.
	Hooghly	1,076½	40	25½	22 on roads and 3½ on tanks.
	Midnapore	2,631½	77	54	24½ on roads, and 29½ on tanks, wells, and *grambheries* or village embankments.
	Howrah	721	2	15	Roads.
Chota Nagpur Division.	Hazáribágh	1,164	75½	120½	87½ on roads and 33 on construction and improvement of irrigation reservoirs.
	Lohardaga (including Palámau).	1,733	118	147	84 on roads with bridges and metalling, and 62 on tanks, wells, embankments, damming up of streams, cutting water passages and formation of new rice fields by digging out jungle.
	Manbhum	1,193	500*	110	69½ on roads with bridges and metalling, and 40½ on construction of reservoirs. * It is not likely that such a high percentage of the population will ever *actually* stand in need of employment on relief works.
	Singhbhum	545½	......	......	No figures received; reported to be safe.
Dacca Division.	Dacca	2,420½			
	Faridpur	1,797			
	Backergunge	2,154			
	Mymensingh	3,472	......	4½	4½ on roads and ½ on tanks. This district is not considered liable to famine.
Chittagong Division.	Chittagong	1,290	......	......	No figures received; reported to be safe.
	Tippera	1,783			
	Noakhali	1,009½			
	Chittagong Hill Tracts.	107

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different districts of Bengal, as reported to Government, during the week ending the 22nd October, 1892.

No.	District and date of return.		Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL.				
BURDWAN DIVN.				
1	Burdwan Kalna Katwa Raniganj	Oct. 22, '92	0·07 0·07 Nil Nil	Weather—hot and at times cloudy. Rain very badly wanted throughout the district for *áman*. State of *áman* and sugarcane not good. *Rabi* crops being sown. Prices of common rice:— Srs. Burdwan ... ... 9 to 12 per rupee. Kalna ... ... 9 to 12 per rupee. Katwa ... ... 12 per rupee. Raniganj ... ... 11½ per rupee.
2	Bankura Vishnupur	„ 22, '92 ...	Nil Nil	Weather—hot and cloudy at times. Sowing of *rabi* in progress. Rain badly wanted for *áman*. Fodder and water sufficient. Prices of common rice:— Srs. Sadar ... ... 10 per rupee. Vishnupur ... ... 9¼ per rupee.
3	Birbhum Rampur Hát	„ 22, '92 ...	0·35 Nil	The little rain which fell last night (21st) will be useful and more is wanted. Crops continue to look healthy. Fodder and water plentiful. Prices of rice still 12 to 14 seers per rupee.
4	Midnapore	„ 22, '92	0·21	Weather—somewhat cooler. In all directions the rice harvest is likely to be bad from want of rain. Indigo is being sown. Prices of common rice:— Srs. Sadar ... ... 10½ per rupee. Contai ... ... 10 to 11 per rupee. Tamluk ... ... 10 to 11 per rupee. Ghatál ... ... 10 per rupee.
5	Hooghly Serampore Jaháuabad	„ 22, '92	0·85 0·19 Nil	Weather—cloudy and showery. For the last few days south wind. Rain not enough to do much good, though better than nothing. *Aman* prospects getting worse. Want of water reported from three tháuas. Prices of common rice:— Srs. c. Sadar ... ... 9 8 per rupee. Serampore ... ... 10 8 per rupee. Jaháuabad ... ... 10 9 per rupee.
6	Howrah Ulubaria	„ 22, '92 ...	0·52 Nil	Weather—sultry; mornings and evenings cool. Rain wanted, especially in the north-west of the district. Cutting of jute almost over. Condition of cattle good. Fodder and water-supply sufficient. Rice 10 to 11 seers per rupee.
PRESIDENCY DIVN.				
7	24-Parganas	„ 22, '92	0·90	Weather—hot and fair during the commencement and cloudy towards the end of the week. *Bhadoi* harvest over. Except in Diamond Harbour a fair amount of rain has fallen during the week, which has done good to the *áman*, but more rain is still wanted for the high lands. Prospects in low lands continue favourable. Cultivation and sowing of winter crops going on. Cattle are in good condition. No present lack of fodder and water.
8	Nadia Kushtia Meherpur Ranaghat	„ 22, '92	Nil Nil Nil Nil	Weather—hot and cloudy. Prospects of *áman* rice not good for want of rain. Sowing of winter crops also retarded in places. Common rice selling at from 11 seers 6 chitaks to 16 seers per rupee. No cattle-disease.
9	Khulna Satkhira Bágerhat	„ 22, '92	2·16 Nil Nil	Weather—rainy. Harvesting of jute finished. Cultivation of *rabi* commenced. Prospects of *áman* good except in Satkhira, where more rain urgently wanted. In Kaliganj and Assasuni common rice is selling at 9 seers per rupee, elsewhere 11 to 12 seers per rupee. Fodder and water sufficient.
10	Jessore Jhenida Magura Narail Bangaon	„ 22, '92	0·27 Nil Nil Nil Nil	Weather—days hot, nights and mornings cool. Prospects of *áman* in Magura, Narail and in the low lands of Jhenida, are good, while in the Sadar and Bangaon sub-divisions they are bad. Sowing of *rabi* crops in progress. Rainfall of yesterday (21st) will benefit both *rabi* and *áman*. Fodder and drinking water at present sufficient.
11	Murshidabad	„ 22, '92	0·73	Weather—cloudy during the latter part of the week. Prospects of *áman* slightly improved by the rainfall of the week. Lands are being prepared for *rabi* crops. No cattle-disease reported. Fodder sufficient for cattle. Coarse rice selling at 12 seers per rupee.
CHITTAGONG DIVN.				
12	Chittagong	„ 22, '92	3·16	Weather—seasonable. Prospects of crops good. Prices stationary. Condition of cattle generally good. Supply of fodder sufficient.
13	Noakhali	„ 22, '92	3·04	Weather—hot and cloudy. Friday's (21st) rain has improved the prospects of standing crops. Fodder and water sufficient. No cattle-disease. Common rice selling at 11 seers per rupee.
14	Tippera	„ 22, '92	0·20	Weather—hot in day, cold in night. *Aman* thriving. A good shower of rain wanted. Price of jute falling, that of rice rising.
15	Chittagong Hill Tracts.	„ 21, '92	Nil	Weather—warm for this time of year. Harvesting of *jum* paddy almost over. Lands being ploughed for winter crops. Vegetables selling at bazar. Common rice being sold at 9 seers and 14 chitaks per rupee.

Division	No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL—*concld.*				
DACCA DIVN.	16	Dacca Oct. 22, '92	1·71	Weather—fine and seasonable. Prospects of *áman* paddy favourable. No cattle-disease. Fodder available. Common rice selling at from 8 to 11¼ seers per rupee.
	17	Faridpur ,, 22, '92 Goalundo ... Madaripur ...	0·23 Nil Nil	Weather— seasonable. Condition of the *áman* crop favourable, but more rain wanted for it and for *rabi* sowings which have commenced in the Goalundo sub-division. Common rice sells at 10 seers per rupee at Madaripur and at 11 seers at Sadar and Goalundo. No cattle-disease, and cattle got fodder.
	18	Backergunge ,, 22, '92	Nil	Weather—hot and cloudy with rain in the interior of the district. State and prospects of crops good. Ordinary rice sells at from 8½ to 14 seers per rupee. Fodder and water sufficient.
	19	Mymensingh ,, 22, '92	0·01	Weather—hot in day, cool in night. Jute has been reaped. Prospect of winter rice at Kishoreganj very good, at Netrokona good, and at Jamalpur improving. On the whole prospect appears good. Common rice sells at from 6 to 10 seers per rupee. Fodder and water sufficient.
RAJSHAHI DIVN.	20	Dinajpur ,, 22 '92 Thakurgaon ...	0 02 Nil	Weather—cool and pleasant in the mornings, but hot during midday. Standing crops towards the north of the district are doing well. In some places in the Sadar sub-division a little rain is wanted for the high lands. Condition of cattle good. Supply of fodder and water sufficient. Prices of *bhadoi* rice:— Srs. Sadar ... ... 13½ to 13¾ } per rupee. Thakurgaon ... ... 11 to 13 } Lands are being ploughed for the *rabi* crops.
	21	Rajshahi ,, 22, '92 Nator ... Naugaon ...	0·89 Nil Nil	A shower of rain fell this morning (22nd), which is expected to do much good to the standing crops. Weather cleared up at noon. Fodder and water sufficient. No cattle-disease reported. Price of common rice ranges from 11 to 13 seers per rupee.
	22	Rangpur ,, 22, '92 Gaibanda ... Nilphamari ... Kurigaon ... Ulipur ..	2·04 Nil Nil Nil Nil	Weather—cloudy. Last night's (21st) rain will benefit standing crops and facilitate preparation of lands for tobacco. Jute steeping almost finished. *Aman* doing well. Prices stationary.
	23	Bogra ,, 22, '92 Sherpur ... Naukhila ...	Nil Nil Nil	Weather—cool and dry. Lands being cultivated for winter crops. Late rice crop suffering for want of rain, and will be much damaged if rain does not fall within a short time. Prices of rice—*aus* 14 seers, *áman* 10½ seers per rupee. Fodder sufficient.
	24	Pabna ,, 22, '92	Nil	Weather—fine and cool. Prospects of *áman* paddy continue good, but rain urgently needed. Common rice selling at 10 to 11½ seers per rupee. *Rabi* crops being sown. Condition of cattle good. Water-supply and fodder sufficient.
	25	Darjeeling ,, 22, '92 Siliguri ...	Nil 0·05	Weather—fine and clear during the early part, overcast and cloudy during the latter part of the week. *In the hills:—Haimanti* rice, *kalai, fafer,* wheat, barley and *tori* progressing favourably. *Bara marua* coming to maturity. *In the Terai:*—Prospects of *haimanti* rice good. Jute-steeping nearly completed. Lands are under preparation for winter crops and potatoes. Prices of coarse rice:— Srs. Darjeeling ... ... 9 } per rupee. Siliguri ... ... 11 }
	26	Jalpaiguri ,, 22, '92	Nil	Weather—clear; nights getting cooler. State and prospects of standing crops continue good. Steeping of jute nearly finished. Transplantation of tobacco going on. No cattle-disease. Fodder and water sufficient. Price of rice stationary.
BIHÁR.				
BHÁGALPUR DIVN.	27	Monghyr ,, 22, '92 Begusarai ... Jamui ...	Nil Nil Nil	Weather—dry. Evenings getting cooler. Winter paddy is suffering for want of rain, and without some there will be no moisture for indigo. Lands still being ploughed for *rabi*, but mustard sowing nearly finished. Chilli crop in Begusarai is good: much has been sown. Prices of coarse rice:— Srs. Sadar ... ... 9½ to 13 } Begusarai ... ... 15 } per rupee. Jamui ... ... 12 }
	28	Bhágalpur ,, 22 '92 Banka ... Madhipura ... Supaul ...	Nil Nil Nil Nil	Weather—cloudy, but no rain. Rice on high lands suffering for want of rain. *Kurthi* doing well. *Rabi* cultivation in progress. Common rice 12 seers 10 chitaks per rupee.
	29	Purnea ...	...	Report not received.
	30	Malda ,, 22 '92	0·42	Weather—cool; cloudy for the last two days. A little rain fell yesterday (21st) morning. More rain wanted for high land rice and *rabi* crops. Common rice sells at from 11 to 17 seers per rupee. Supply of fodder and water sufficient.
	31	Sonthal Parganas ,, 22, '92 Deoghur ... Godda ... Jamtara ... Pakour ... Rajmahal ...	0·37 Nil Nil Nil Nil Nil	Weather—sultry. Last night (21st) there was a good shower at Dumka. Rain wanted all over the district, but especially in Deoghur and Jamtara, for the high land rice. Prospects otherwise good. Price of rice varies from 10 to 16 seers per rupee.

Division	No.	District and date of return.		Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BIHÁR—*concld.*					
PATNA DIVISION.	32	Patna	Oct. 22, '92	Nil	Weather—cool and clear. *Rabi* sowings in progress. Prospects of paddy not so fair as before owing to absence of rain in October; the high land crop will suffer to some extent. Common rice selling at 12 and 13 seers per rupee.
	33	Gaya Jahánabad Nawáda	" 22, 92	Nil Nil Nil	Weather—unduly warm; somewhat cloudy at times. Rain urgently wanted to prevent very considerable damage to the paddy crop and to facilitate *rabi* sowings. Prices on the rise. Fodder and water-supply sufficient.
	34	Shahabad	" 22, '92	Nil	Weather—days hot, nights cool. Paddy suffering for want of rain in unprotected area. *Rabi* is not freely sown for want of moisture. Prices rising slowly. Fodder and water sufficient.
	35	Darbhanga	" 22, '92	Nil	Weather—days hot, nights cool. Occasionally cloudy towards the end of the week. Rain urgently wanted for winter rice and for *rabi* sowings. High land rice suffering for want of moisture. A considerable decrease in the outturn is anticipated if the rain hold off a week or 10 days more. Condition of cattle good. Price of common rice stationary.
	36	Muzaffarpur Sitamarhi Hajipur	" 22, '92	Nil Nil Nil	Weather—days hot, nights fairly cool. *Rabi* sowing going on. Rice on low lands good, on high lands withering for want of rain. Fodder and water for cattle sufficient. Prices stationary.
	37	Saran Siwán Gopalganj	" 22, '92	Nil Nil Nil	Weather—too hot for the season. *Rabi* sowings in rapid progress. Paddy doing well. Water and fodder sufficient. Prices of common rice:— Srs. c. Chapra ... ... 12 0 } Gopalganj ... ... 15 12 } per rupee. Siwán ... ... 12 9 }
	38	Champaran	" 22, '92	Nil	Weather—days warm, nights cool. *Rabi* sowing in progress. Great want of rain is being felt for *aghani* and *rabi*. Every endeavour is being made to irrigate paddy fields. Prices slightly rising. Cattle are in good condition. Fodder sufficient.
ORISSA.					
ORISSA DIVN.	39	Cuttack	" 21, '92	1·55	Weather—seasonable. Harvesting of *biali* over. Early *sarad* in ear. Prospect of *sarad* fair, but more rain needed. Fodder sufficient. Average selling prices of rice:— Srs. c. Srs. c. Sadar ... ... 11 13 to 14 7 } Jajpur ... ... 11 13 to 15 12 } Kendrapara ... ... 13 2 } per rupee. Banki ... ... 14 8 }
	40	Puri Khurda Banpur	" 20, '92	2·82 0·33 Nil	Weather—hot with occasional showers. *Sarad* paddy being weeded. More rain wanted. Miscellaneous crops doing well. Common rice sells at from 12 seers to 13 seers 2 chitaks per rupee.
	41	Balasore	" 22, '92	3·39	Weather—seasonable. The rain of the past week has much benefitted the crops in the centre of the district. More rain wanted as tanks are still very low. Prospects of winter rice crop very poor in Baliapal thána. Prices stationary.
CHOTA NAGPUR.					
South-West Frontier Agency.					
CHOTA NAGPUR DIVN.	42	Hazáribágh	Oct. 22, '92	Nil	Weather—fine; occasionally cloudy and warmer. Prospects of crops fairly good, but rain needed. Common rice selling at from 12 to 13 seers per rupee. In Kasmar thána price of rice reported at 8 seers per rupee.
	43	Lohardaga	" 22, '92	Nil	Weather—cloudy. Rain is expected and is wanted for winter paddy and *rabi*. Harvesting of *urid* commenced. Common rice selling at 14 seers per rupee. Fodder and water plentiful.
	44	Palámau	" 21, '92	Nil	Weather—seasonable. Mornings and evenings getting cooler. Paddy suffering for want of rain. One good shower would do immense good. Prices rising somewhat.
	45	Singhbhum	" 22, '92	Nil	Weather—still cloudy, but no rain, and warm. Crops doing well. Estimated outturn of winter rice put down at from 10 to 16 annas. Price of common rice stationary. Cattle in good condition, and no scarcity of fodder and water.
	46	Manbhum Gobindpur	" 22, '92 ...	Nil Nil	Weather—hot and cloudy. Indications of rain all round, but none has yet fallen during week. Rain badly wanted. Rice selling at from 8 to 12 seers per rupee.

Published for general information.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF SEPTEMBER 1892.

The meteorology of September has been characterised by the occurrence of three very distinct barometric depressions or cyclonic storms in the Bay, and by the formation of a very feeble low-pressure area over South-East Bengal at the close of the month. This is perhaps quite as large a number of depressions as usual, and three of them were also of moderate intensity. These small storms, however, have brought up on the whole smaller bursts of rainfall to Bengal than is usual in such cases. So far also as can be judged, the monsoon current blowing in the Bay of Bengal in September has been somewhat weaker than usual, and it certainly showed considerable signs of weakness at the close of the month, when it commenced to withdraw from the province at a decidedly earlier date than the normal, for the monsoon rains had practically closed in Bihár and Chota Nagpur on the 28th of September. Again, a very distinct break in the rains, which was fairly well established in all divisions of the province, commenced on the 13th instant, and lasted up till 22nd. Hence the general rainfall of the province for September has been considerably in defect of the normal, and only equals about 73 per cent. of the usual amount.

The principal condition determining the distribution of the rainfall in the province in the month has been the line of advance of the depressions above noticed. The first was formed on September 1st in the north-west angle of the Bay, and advanced inland in a north-westerly direction on the evening of the 2nd, crossing the coast near Balasore. The second depression formed in the north of the Bay on the 7th, advanced in a west-north-westerly or north-westerly direction and passed inland on the evening of the 9th between False Point and Puri. This storm continued its advance up till the 13th, when it broke up near Jhansi. The third depression formed to the north of the centre of the Bay about the 18th, and advanced in a westerly direction, crossing the coast between Coconada and Masulipatam on the evening of the 21st instant. All these three were fairly influential; but the fourth depression which formed over South-East Bengal was of very little importance beyond giving rather heavy rain to the district affected by it. It will thus be seen that these depressions have mainly affected the districts of Orissa, South-West Bengal, Chota Nagpur, and East Bengal, and hence the rainfall in these divisions has been more normal than over the remainder of the province, and taking the rainfall of these alone, it averages about 87 per cent. of the usual fall. On the other hand, North Bengal and North Bihár have not been at all influenced by any of these depressions, and in these districts the rainfall for the month has only equalled about half the usual amount for September.

Quite at the end of August a low-pressure area had formed in the Bay off the mid-west coast, which passed inland on the evening of 30th August over Orissa, travelling in a west-north-westerly direction, and by the morning of the 1st September the centre of the depression had nearly reached Sutna. In the rear of this feeble depression a moderate advance of monsoon winds swept over Bengal, giving on the 1st of September moderately heavy general rain over the whole province, and particularly in the south-western districts and Orissa. A rather rapid fall of pressure also took place over Bengal on 1st September, and on this date the whole province was covered by a feeble barometric depression, the defect being largest over Orissa and the adjacent parts of South-West Bengal. At the same time also the wind directions in the south-west of the province and round the north-west angle of the Bay began to form part of a cyclonic circulation, the centre of which was apparently not far from Balasore. The depression increased in intensity very distinctly on the 2nd, and on this morning there was a well-defined but still feeble storm in the north-west angle of the Bay, with a centre a short distance to the south of Saugor Island. The cyclonic circulation of winds attending the storm extended over the whole of Bengal, but the wind force near the centre was small, though to the east and south of it, and indeed almost over the whole of the northern half of the Bay, strong winds and squally weather were reported. The centre of the small storm passed inland during the evening of the 2nd near Balasore and advanced rapidly in a north-westerly direction, and by the morning of the 3rd the depression had become merged in the depression which had passed inland over Orissa on the 30th of August, and which was still existing in the North-West Provinces. Again, in the rear of this second depression a rather heavy wave of monsoon winds advanced over Bengal, and on the 3rd instant heavy general rain was reported in all districts, the falls being heaviest in Orissa, South-West Bengal, and Chota Nagpur; False Point reporting 8·26 inches, and Gop, Pipli, and Balasore about 4 and 5 inches. These conditions continued up till about the 7th; but during this period the monsoon current appeared to steadily fall off in force, and winds became less strongly easterly, being replaced by a south-westerly and westerly current, and rainfall generally diminished both in area and heaviness.

On the 7th the westerly and north-westerly winds which were blowing over the western half of the province became more strongly developed, and at many stations in South-West Bengal winds were due north, while south-easterly and easterly winds were blowing in South-East Bengal. Pressure had also fallen rapidly on the 6th, the fall being largest in South and South-East Bengal, and along the Arakan coast, and this fall continued on the 7th, the fall again being largest in the north-east angle of the Bay, where it almost amounted to a tenth of an inch, and pressure in the north and north-east of the Bay became a sixth of an inch in defect. It was hence evident that a barometric depression accompanied

by a cyclonic circulation of winds had formed in the north of the Bay on this date, and the mail steamer to Rangoon passed through the depression and its accompanying cyclonic circulation on the 7th, experiencing strong winds, very unsettled weather and rough sea. On the 8th the depression had moved slowly in a westerly direction, and its centre was probably a considerable distance to the south-east of Saugor Island. Pressure had fallen moderately on this day in the north-west angle of the Bay, and the cyclonic circulation had become very perfect, and it affected the wind directions over practically the whole province, so that it was evident the depression was increasing slowly in intensity. On the 9th a further rapid fall of pressure took place in the north-west angle of the Bay, the fall at some stations exceeding a tenth of an inch, and pressure become below the normal at False Point by no less than 0·287 inch. The centre of the small storm was on this date a short distance to the east-south-east of False Point, and the cyclonic circulation of winds accompanying the very well-defined storm governed the wind systems over the greater part of India, showing what an influential storm it was. The centre of the small storm then passed inland during the evening of the 9th, a little to the south of False Point, the decidedly low pressure of 29·277 inches being recorded at Puri, and on the morning of the 10th the centre was between Cuttack and Sambalpur, and it was still surrounded by decidedly steep baric gradients. On the 11th the small storm had again advanced north-westward and the centre was near Jubbalpur; on the 12th it was near Nowgong, and on the 13th near Jhansi, when it was quickly filling up and dispersing. In connection with the small storm very strong winds were reported, principally to the south-east and south of it, and rather heavy weather prevailed in the north of the Bay from the 7th or 8th to the 11th, both days inclusive.

Rainfall as usual continued rather light over the greater part of the province during the formation of the small storm. It was, however, a storm of wide influence, though near the centre it was of very slight intensity, and when it advanced into the north-west angle of the Bay, it commenced to give general rain in Orissa, Chota Nagpur, and South-West Bengal and over parts of East and North Bengal, though Bihár to a great extent remained rainless. The humid current, however, advanced steadily over the province, and hence conditions again became more favourable for rainfall for some days, but in the rear of the storm a very rapid increase of pressure took place over Bengal, so that by the 13th pressure became in excess of the normal in all districts, the excess equalling 0·07″ in Orissa, and decreasing to 0·02″ in North Bihár. The monsoon current therefore again rapidly fell off in force to such an extent that from the 13th a very distinct break in the rains set in over Bengal.

Conditions as to pressure distribution became steadily less favourable for any large advance of the monsoon winds over Bengal up till about the 17th, when the general excess pressure over the province varied from 0·15″ and 0·16″ in parts of Bihár to about a tenth of an inch in the east of the province. Rainfall during this time was generally confined to local showers, though at some of the stations in Bihár and Chota Nagpur and near the hills in North Bengal the falls were heavy on the 17th. From the 18th instant, however, a slow fall of pressure set in, and wind directions generally indicated the commencement of a depression a little to the north of the centre of the Bay. On the 19th and 20th instants the feeble depression appeared to be practically unchanged in intensity, but, if anything, had perhaps drifted very slowly in a westerly direction. From the 20th to the morning of the 21st the depression had very distinctly increased in intensity, and it had moved towards the west coast of the Bay, so that at 8 A.M. of the 21st the centre was not far from the land to the south-east of Coconada, and during the afternoon and evening of this day the centre passed inland between this station and Masulipatam, and entirely broke up against the Eastern Ghats, so that on the 22nd the small storm had completely disappeared.

During the existence of the small storm in the Bay conditions generally continued unfavourable for rainfall in Bengal, as the monsoon current was deflected towards the depression; but from the time it began to advance towards the west coast, the monsoon current began to advance up the east of the Bay, and with the disintegration of the storm a further advance of monsoon winds took place over Bengal, and rainfall was again fairly general from the 22nd instant. A rapid increase of pressure, however, occurred in Bengal after the disappearance of the storm, and pressure again became in excess of the normal. A fall then set in, and from the 24th instant pressure became in defect of the normal, the defect steadily increasing up to the 27th. A slight increase of pressure then took place for a day or two, and from the 30th conditions again changed materially, for a rapid fall of pressure took place over South-East Bengal and a feeble low-pressure area formed over this district. Rainfall was thus fairly general and heavy in all districts from about the 22nd to the 28th, from which date the falls in Bihár and Chota Nagpur were light and local, but in all other divisions the rainfall continued fairly general up to the close of the month. Indeed, during the last week of the month rainfall was rather considerably in excess of the normal amount in all districts of the province, the excess being large in East, South-West, and North Bengal and Chota Nagpur.

Towards the close of the month, however, there were unmistakeable signs that the monsoon current was rapidly weakening and commencing to withdraw from the province, and from the 28th the monsoon current may be said to have practically withdrawn from Bihár, and was also ceasing to affect Chota Nagpur.

Pressure.—At the commencement of the month, owing to the existence and advance of the depression from the Bay, pressure was in distinct defect of the normal, the defect for the first ten days of the month exceeding a tenth of an inch in the south-western parts of the province, but being smaller elsewhere. With the commencement of the break in the rains, pressure became in excess, and for the week ending the 17th there was an excess pressure of

about a twentieth of an inch. For the week ending the 24th there was again a general excess of 0·05" to 0·07," but for the last week in the month again a rather larger defect had been established, and this ranged from 0·06" in Orissa to about a tenth of an inch in East and North Bengal and Assam. It will, however, be seen that these variations have, to a great extent, neutralized each other, and hence the mean pressure for the month has only varied from the normal by comparatively small amounts, the variations usually equalling from 0·01" to 0·03", and being in defect of the normal. The defects have been generally largest in the west of the province. In Assam the general defect has equalled 0·026".

Temperature.—The variations of temperature during the month have not been very important, and have usually followed the variation in the heaviness of the rainfall. Owing probably to the general lightness of the rainfall, the mean temperature of the whole province for September has been 0·6° in excess of the normal. While, however, Orissa, South-West Bengal, Chota Nagpur, and East Bengal, which have received the largest rainfalls, have reported nearly normal temperatures, in North Bengal and North Bíhar, where the rainfall has been very light, temperature has been 1·2° in excess of the normal. In Assam also an excess of 1·1° has been registered.

Rainfall.—The rainfall of the whole province for September has been rather less than three-fourths of the normal fall for the month. Falls of nearly ten inches have been received in Orissa and East Bengal, of a little more than eight inches in Chota Nagpur, and of about seven inches in South-West and North Bengal. In South Bíhar the average fall is a little more than five inches, while the smallest fall of 4·44 inches has ocurred in North Bíhar. The defects of these amounts from the normal have been very considerable in several cases. In North Bengal the defect exceeds six and-a-half inches, and in North Bíhar it exceeds five inches, in South-West and East Bengal and South Bíhar the defect is between two and three inches, while in Orissa and Chota Nagpur the defects are very small, and only equal about a third of an inch. Though, therefore, all divisions show decidedly defective falls, it is remarkable that in Orissa, South-West Bengal, East Bengal, and Chota Nagpur the number of rainy days in September has been decidedly larger than the normal number of rainy days for the month, and that the only divisions of the province in which the number of rainy days has been appreciably less than usual have been North Bengal and North Bihár; and even here the deficiency is not very serious. Thus, it will be seen that the deficiency must have been caused mainly by the lightness of the actual showers rather than by the absence of showers.

The comparison of the actual rainfall of the various large divisions of the province during the month is most accurately shown in the form of a percentage. The figures representing the rainfall for the month calculated in this way are included in the following table under the heading of September. This table really gives a condensed summary of the rainfall statistics of the present year up to date for each meteorological division, the first nine columns giving the actual average falls in each division for each month expressed as a percentage of the normal, while the tenth column gives the actual rainfall of the first nine months as a percentage of the normal rainfall for that period :—

Metrorological Divisions.	January.	February.	March.	April.	May.	June.	July	August.	September.	Actual rainfall of first nine months of 1892 expressed as a percentage of the normal fall for the period.
Orissa	Nil	26	2	31	50	132	83	70	96	84
South-West Bengal ...	Nil	26	4	99	89	84	89	58	77	75
North Bengal	Nil	67	118	180	149	75	168	146	51	115
East Bengal	Nil	69	34	166	120	79	86	66	77	81
North Bihár	2	116	50	114	72	109	103	171	46	107
South Bihár	11	170	15	93	36	79	99	121	65	91
Chota Nagpur	Nil	194	2	23	53	111	96	66	96	86

It will be seen that the deficiency of rainfall in September in North Bihár and North Bengal has been very large, and in South Bihár decidedly large. There has been a moderate deficiency in East and South-West Bengal, but in Orissa and Chota Nagpur the fall has been almost normal. It will also be seen that for the first nine months of the year the total falls in North Bengal and North Bihár have been in very considerable excess of the normal; in South Bihár, Chota Nagpur, Orissa, and East Bengal they have been decidedly below the normal, the defect equalling ten or fifteen per cent., while the defect in South-West Bengal has equalled no less than 25 per cent.

The following table contains full data for the comparison of the actual and normal rainfall of the month of September in all districts of the province. The figures are derived from the average and actual rainfall of the rain-recording stations in each district, due allowance or weight being made for the area which each station represents. This gives a more accurate average than the arithmetical means given in the weekly and monthly meteorological tables. The first column gives the normal or actual average district rainfall as determined from the rainfall observations of the past fifteen years; the second column gives the actual district rainfall as determined from the weighted actual rainfalls of the month at the reporting stations in each district; the third column expresses the ratio of the actual district fall of the past month to the normal rainfall as a percentage, and the fourth

column states as a percentage how much the district rainfall for the month varied from the normal:—

Percentage Table for September 1892.

Division.	District.	Normal district rainfall for September.	Actual district rainfall for September 1892.	Percentage of actual to normal rainfall.	Percentage excess (+), defect (—).

* Mean of 6 days. | Mean of 5 days. | ‡ Mean of 4 days.

Explanation.—*Summary.*—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period ... The *humidity* of the atmosphere is expressed as percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10 ... rainfall [illegible] the normal mean are the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional station [illegible], i.e., from total rainfall at the subdivisional stations in the district sending in returns divided by the number of stations. A rainy day is one of

for the week ending Saturday, the 22nd of October 1892.

Explanation.—... indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are ...ing, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least ...ch of rain has fallen.

CALCUTTA, *the 25th October* 1892.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 22ND OF OCTOBER 1892.

DURING the previous week fine settled weather had obtained over practically the whole of Bengal. Over the Bay, however, weather was distinctly unsettled, and for a considerable part of the week a diffused area of low pressure existed in the south, which gave rise to two small barometric depressions which moved westwards towards the Madras coast. Even on the 15th instant, or the last day of that week, pressure appeared to be low over the centre of the Bay, and winds showed a distinct tendency to cyclonic circulation round the Bay, while also rather strong winds were blowing at the Burma stations. It is therefore probable that a distinct barometric depression existed in the Bay on this day.

On Sunday, the 16th instant, pressure was falling briskly along the Madras coast, while in Bengal and over the remainder of the Bay pressure had risen, so that the depression in the Bay appeared to be moving rapidly towards the Madras coast. The centre of the depression crossed the coast near Nellore early in the morning of the 17th, giving heavy rain along the Madras coast, and the small storm apparently broke up against the Eastern Ghats. On the 18th another depression or cyclonic storm commenced to form to the north of the Andamans, and from the rapidity of the barometric fall in the east of the Bay, and from the very high wind velocities reported at Diamond Island, it was evident that the storm from its formation was a severe one. On the 19th the storm had probably advanced rapidly in a westerly or west-north-westerly direction and was in the centre of the Bay, and it was evidently still a very severe storm, for at Diamond Island the average hourly wind velocity from the 18th to the 19th was the extremely large amount of 36 miles. From the 19th to Thursday, the 20th, the storm had again advanced with great rapidity in a westerly or west-north-westerly direction, and its centre was crossing the coast near Coconada or to the north-east of Masulipatam at 8 A.M. on the 20th, so that the velocity of its forward movement almost certainly exceeded 20 miles an hour at this time. From the barometric changes accompanying the storm, and from the very considerable wind force experienced both in Burma and on the Madras coast, it is clear that the storm was very severe, and that its influence extended over a large part of the Bay. The inner area of hurricane winds was, however, probably small, and there was probably a calm central area, so that it was a true cyclone or very severe cyclonic storm. On the 21st the cyclonic storm had passed inland, and had apparently to a great extent filled up, and it was on this day of so little importance that on the 22nd it had practically entirely filled up and disappeared.

The weather in Bengal during the week has been entirely dependent on the weather in the Bay. During the passage of the first depression across the Bay, and also at the commencement of the existence of the cyclonic storm, and even during its passage across the Bay, fine clear weather with light, more or less, northerly winds due to the indraught towards the storm was reported over the whole of the province, except in some of the south-western districts. Directly, however, the storm struck the coast and became more diffused in character, the wave of disturbed weather commenced to spread and to advance northwards up the Bay, and pressure commenced to fall in Bengal from the 20th; the fall was very rapid on the 21st, and moderately, rapid on the 22nd, when it became about a sixth of an inch in defect of the normal. Heavy rain brought up by the wave of moisture laden winds which had previously accompanied the storm commenced to fall in Orissa on the 19th to the 20th, and from this date the humid south-easterly and easterly wind current spread northwards over Bengal, and rainfall became fairly general in South-West Bengal, East Bengal, and parts of North Bengal, while over the remainder of the province it continued almost rainless. These falls were heaviest in Orissa and East Bengal, while they were also moderately heavy in South-West Bengal. This moist current at the close of the week had advanced over a large part of the province, and conditions as to humidity and cloud proportions more resembled those of the rainy season than of the commencement of the cold season. Temperature also increased with the advance of the moist current over Bengal, and thus at the close of the week the meteorological conditions were very distinctly abnormal, for pressure was unusually low, while temperature, cloud proportion, and humidity were very considerably in excess of the normal.

Pressure.—Owing to the wave of low pressure, which spread over the province in the latter half of the week, the mean pressure has been in almost all cases in distinct defect. This defect usually equals from 0·01 inch to 0·04 inch, and it is largest at the south-western stations, where it equals about 0·03 inch to 0·04 inch. In Assam the mean defect is equal to 0·027 inch.

Temperature has been slightly below the normal in Orissa and North Bengal, but in all other divisions it has been above the normal, the excess varying up to 1·2° in South Bihár. For the whole of Bengal the mean temperature for the week has been 0·5° in excess of the normal. In Assam the slight excess of 0·2° only has been registered.

Rainfall.—The heaviest falls have occurred in Orissa which has averaged 1·60 inches or very slightly in excess of the normal fall for the period. In East Bengal the fall has equalled 1·10 inches, or practically a normal fall, and in South-West Bengal a fall of 0·60 inch has been registered, or about a quarter of an inch less than usual. A small fall of about a fifth of an inch is reported in North Bengal and South Bihár, which is only about a third of the normal amounts, but elsewhere the whole province has been practically rainless.

In Orissa all the districts have received good rain. In South-West Bengal, Khulna, Birbhum, and Murshidabad have received very good rain, 24-Parganas and Hooghly moderate rain, and the remaining districts comparatively little rain. In North Bengal only the Rangpur district has received good rain, and the other districts very little. In East Bengal, Chittagong, Noakhali, Dacca, and Tippera only have received good rain, and in South Bihár only the Sonthal Parganas district has received good rain.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 22nd of October 1892:—

Meteorological Divisions.	Temperature.						Rainfall.									
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 16th Oct. 1892.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; d, drizzling rain; p, passing temporary showers; t, thunder; <, lightning; ⌓, dew.

* Includes 5,943 tons and 14,989 tons of coal during 1892 and 1891, respectively, carried for Revenue, for which no "Up" and "Down" register maintained.

† Railway plant and rolling-stock, 5,047 tons and 9,713 tons for the years 1892 and 1891, respectively, for which no "Up" and "Down" register maintained.

Comparative Statement of principal commodities carried on the Eastern Bengal State Railway during the month of July 1892.

INCREASES.

	Tons.
Rice	3,164
The chief increase was in despatches from Goalundo due to a brisk demand in the hill districts.	
Unscrewed jute	7,673
Goalundo contributed about one-half of the increase. A small increase was general among jute despatching stations on the northern section.	
Kerosine oil	2,106
Due to the prohibition of carriage by boat within certain limits of the port of Calcutta.	

DECREASES.

	Tons.
Coal	8,272
Partly due to suspension of large despatches to Brace Bridge Hall.	
Oil-seeds	1,470
Alamdanga and Kushtia show large decreases, due to short crop.	
Railway plant and rolling-stock	2,639
Due probably to less repairs and renewals.	
Salt	1,105
Ordinary fluctuation.	
Tea	1,497
Due to the state of the cart roads preventing carts from bringing tea to stations.	

HARRY STUART,
Examiner of Accounts.

CHINA SEA—BANKA STRAIT—BANKA ISLAND.

Tanjong Ular light—Intended alteration in character.

THE British Admiralty has given notice (No. 423 of 1892) that during the first-half of the month of December 1892, the following alteration will be made in the character of Tanjong Ular light, west coast of Banka island :—

Tanjong Ular light will be a *flashing white* light of the fourth order, showing flashes *every half minute.*

Approximate position on Admiralty chart, No. 2149, lat. 1° 57¼′ S., long. 105° 7¾′ E.

NOTE.—During the time this alteration is being effected, no light will be shown for several nights.

Further particulars will be published in due course.

EATON W. PETLEY,
Port Officer of Calcutta.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 191.

[First Publication.]

SOUTH PACIFIC OCEAN—SOLOMON ISLANDS.

Shoals in Maramasike passage.

THE British Admiralty has given notice (No. 425 of 1892) of the existence of the two undermentioned shoals lying in Maramasike passage, east coast of Malaita island :—

A shoal, with a depth of 3 fathoms, extends about one mile W. by S. from Sail rock. Approximate position, lat. 9° 15′ S., long 161° 14′ E.

A shoal, with 4 fathoms water on it, lies with Bushman inlet bearing W. ½ N., distant about 1½ miles. Approximate position, lat. 9° 20½′ S., long. 161° 14′ E.

Shoal eastward of Vella Lavella island.

Also of the existence of a shoal, with 5 fathoms or less water on it, the bottom being distinctly seen, lying about 1½ miles eastward of Vella Lavella island, in approximately lat. 7° 52′ S., long. 156° 42′ E.

NOTE.—It is considered that this shoal may be identical with, or an extension of, the shoal charted as lying about 2 miles south-west of the above position.

Shoal in Lengo channel.

Information has been received from H.M.S. *Lizard*, dated 8th July 1892, of the existence of a shoal, with apparently 4 fathoms water on it, lying in the fairway of Lengo channel, with Pari Sule bearing N. 65° E., distant about 5½ miles.

Approximate position, lat. 9° 17′ S., long. 160° 13′ E.

Shoal southward of Gizo island.

Also of the existence of a shoal, with an estimated depth of 6 fathoms, and on which the sea broke (there being a heavy swell at the time), lying with the east extreme of Gizo island bearing north, distant 3½ miles.

Approximate position, lat. 8° 9′ S., long. 156° 49′ E.

CHINA—EAST COAST—Yellow sea.

Intended double flashing light and provisional light—Liau ti Shan promontory.

The British Admiralty has given notice (No. 417 of 1892) that a light-house is in course of construction on Liau ti Shan (Lao t'ich Shan) promontory, south coast of Kwan Tung peninsula, from which a *double flashing half minute white* light of the first order will be exhibited.

During the progress of the works, a *fixed red* light (dioptric of the sixth order) will be shown from a wooden structure on the south-west slope of the promontory. This light, visible in all directions except where obscured by the land, is elevated about 300 feet above the sea, and should be seen in clear weather from a distance of 5 miles.

Approximate position, lat. 38° 43¼′ N., long. 121° 9′ E.

EATON W. PETLEY,
Port Officer of Calcutta.

BAY OF BENGAL—Burma coast.

Rangoon river entrance—F. L. V. "Colombo" replaced by a schooner-rigged vessel during repairs.

The Officiating Port Officer, Rangoon, has given notice that the F. L. V. *Colombo* stationed off the Spit, below Elephant point, will be brought up to town, on or about the 8th proximo, for repairs; and a schooner-rigged vessel, painted red, with *Spit*, in white letters, painted on her sides, will be moored in her place.

There will be no alteration in the light.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 180.

[Third Publication.]

AUSTRALIA—Morkton bay.

Leading lights—North Channel.

The Portmaster, Brisbane, has given notice (No. 13 of 1892) that on and after 13th September 1892, the light at Tangaluma will be removed to a point N. ¼ E., 1,400 feet from its present position. Its elevation above high water will be 277 feet. The southern edge of the white sector from the Yellow Patch Light has been altered to bear E. by S. instead of E. ¾ S., as hitherto.

Directions.—Vessels entering will proceed as usual until Tangaluma and Cowan Cowan Lights are in line. Steer with them in line, bearing S. 17° E. until the southern limit of the white sector from the Yellow Patch Light is reached, when haul to the eastward of the line of lights a distance equal to the difference of their heights and proceed in with the lights in that position. By so doing a depth of not less than 21 feet at low water springs will be carried.

PUBLIC WORKS DEPARTMENT,—BENGAL

ESTABLISHMENT.

The 28th October 1892.

No. 302.—Mr. M. H. Jackson, Executive Engineer, 2nd Calcutta Division, is granted privilege leave for one month, with effect from the afternoon of the 10th October 1892.

The 1st November 1892.

No. 303.—The following extract from a notification issued by the Government of India, in the Public Works Department, is republished for information:—

No. 375, *dated the 26th October* 1892.—The undermentioned Assistant Engineers, second grade, appointed by Her Majesty's Secretary of State for India from the Royal Indian Engineering College, who have gone through a course of practical training in England, are posted as follows:—

* * *
* * *

To Bengal,
Mr. E. A. Smith.

* * *

No. 304.—The following notification issued by the Government of India, in the Public Works Department, is republished for information:—

No. 369, *dated the 24th October* 1892.—That portion of Public Works Department Notification No. 44, dated the 13th February 1892, which relates to the transfer to Burma of Rai Bahadur Amrito Lall Roy Chowdry, Executive Engineer, second grade, Bengal, is hereby cancelled.

No. 305.—The following extract from a notification issued by the Government of India, in the Public Works Department, is republished for information:—

No. 370, *dated the 24th October* 1892.-Rai Bahadur Amrito Lall Roy Chowdry, Executive Engineer, second grade, Bengal, whose services were placed temporarily at the disposal of the Government of Madras for employment on Famine Relief Works, is retransferred to Bengal.

RAILWAY.

The 1st November 1892.

No. 306.—*Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is likely to be required to be taken by Government at the public expense for a public

purpose, viz., for the extension of Manihari ghat line of the Behar Section, Eastern Bengal State Railway, in the village of Balua, pargana Kankjole, zillah Purnea, it is hereby declared that for the above purpose a piece of land measuring, more or less, 27 bighas of standard measurement, bounded on the north, east, and west by the lands of village Balua, and on the south by the river Ganges, is likely to be acquired within the aforesaid village of Balua.

This declaration is made, under the provisions of section 4 of Act X of 1870, to all whom it may concern.

_No._ 307.—_Declaration._—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for constructing a siding in the village of Beersumber, pargana Koarpartap, zilla Birbhum, it is hereby declared that for the above purpose a piece of land measuring, more or less, 13 cottahs 12 chitaks of standard measurement, bounded on the north by East Indian Railway Company's land and level crossing road, on the west by East Indian Railway Company's land, and on the east by Ranee Arnakally Dabie's land, is required within the aforesaid village of Beersumber.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

F. J. JOHNSTONE,
Secretary to the Govt. of Bengal.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

The 1st November 1892.

No. 101*Marine.*—It is hereby notified that under the provisions of section 10 of the Calcutta Port Act, 1890, Mr. R. Steel has been re-elected by the Bengal Chamber of Commerce to be a Commissioner of the Port of Calcutta.

No. 102*Marine.*—In exercise of the powers conferred by section 8 of the Petroleum Act, XII of 1886, and in supersession of the existing rules on the subject, the Lieutenant-Governor of Bengal is pleased, with the previous sanction of the Governor-General in Council, to make the following rules to regulate the importation of petroleum by sea into the Lower Provinces of Bengal.

Preliminary.

1. (*i*) All words and expressions used in these rules, and defined in the Act, shall in these rules have the meanings respectively assigned to them by the Act.

(*ii*) In these rules—

"Certificated petroleum" means petroleum covered by a certificate granted at the port of shipment of such description as the Local Government may, from time to time, by written order prescribe, and to the effect that the petroleum is not dangerous petroleum.

"Uncertificated petroleum" means petroleum which the master of the ship has not declared under rule 2 to be dangerous petroleum, and which is not covered by a certificate as aforesaid.

Importation at Calcutta.

2. The Master of every ship bound for Calcutta and carrying petroleum shall, before reaching Budge-Budge, declare in writing to the pilot,* if there is one on board,—

(*a*) what quantity of petroleum the ship is carrying.
(*b*) whether any, and if so what, part of the petroleum is dangerous petroleum.
(*c*) whether any, and if so what, part of the petroleum is certificated petroleum.

If there is no pilot on board, the Master of such ship shall, before reaching Budge-Budge, despatch a similar declaration to the address of the Vice-Chairman of the Port Commissioners.

When the Master declares that any petroleum is certificated petroleum, he shall produce to the pilot the certificate covering the same.

3. A ship having petroleum on board may proceed to any mooring in the port and there discharge the petroleum—

(*a*) if the petroleum has come from a port in British India as part of a general cargo, and has been certified not to be dangerous under section 9 of the Act, and does not exceed five thousand gallons in quantity, or
(*b*) if the petroleum is certificated petroleum not exceeding five thousand gallons in quantity and the Master produces the certificate to the pilot, or
(*c*) if the petroleum is dangerous or uncertificated petroleum not exceeding forty gallons in quantity, or
(*d*) if the petroleum is petroleum which is ordinarily used for lubricating or jute-batching purposes, and which has a flashing-point above 150° of Fahrenheit's thermometer:

* The pilot should deliver this declaration to the Harbour Master or his Assistant, when the latter comes on board, for transmission to the Vice-Chairman of the Port Commissioners.

The Commissioner of Police may, at any time, if he thinks it necessary, call on the Superintendent of the Petroleum Wharf to obtain and forward to him a sample of any petroleum referred to in clause (a) or (c) for the purpose of having it tested, and the Superintendent shall obtain and forward the sample accordingly.

4. Every other ship having petroleum on board shall not proceed upwards further than Budge-Budge, and such petroleum, whether landed at the petroleum wharf or otherwise discharged, shall be detained there pending the grant of an import license under section 5 of the Act, or the issue of a certificate under section 9 of the Act, or the issue by the Local Government of directions regarding it.

5. (I) When a ship is stopped at Budge-Budge under rule 4, the Superintendent of the Petroleum Wharf shall, as soon as possible, not exceeding forty-eight hours from the time of the petroleum being landed or discharged into boats, obtain samples of all the petroleum landed or discharged, or intended to be landed or discharged. The master shall deliver to the Superintendent without charge such samples as he shall take.

(II) Every different quality of petroleum shall be separately sampled, and when petroleum is represented to be of uniform quality, a sample shall be taken from one case in every ten thousand cases, or, if the petroleum is carried in bulk, from each separate compartment of the ship in which it is carried.

(III) The Superintendent shall forthwith seal the receptacles containing the samples, and having labelled them with the name of the ship, the name of the consignee, and such other distinguishing marks as may be necessary, shall forward them to the Testing-officer appointed under section 9 of the Act for report.

6. The Testing-Officer shall, as soon as practicable, and ordinarily within twenty-four hours after the receipt of the samples, sign a report certifying that they are, or are not, dangerous petroleum (as the case may be), and shall forward such report to the office of the Port Commissioners, sending also a copy of the same to the Commissioner of Police. The Vice-Chairman of the Port Commissioners shall, on receipt of such report, forthwith forward a copy of the same to the Master of the ship in which the petroleum was imported.

7. Unless with the written permission of the Port Commissioners, no petroleum shall be discharged or landed within the Port of Calcutta, except between daylight and dark, and at the wharves expressly set apart for the landing of petroleum.

8. (I) No smoking, fire or light of any description shall be allowed in any shed reserved for the storage of petroleum at the Budge-Budge wharf, or used by the Port Commissioners for the temporary storage of petroleum brought into the port under rule 3, and no receptacle containing petroleum shall be opened, or the contents drawn off, within the embankments enclosing the sheds constructed for the storage of petroleum, except in such special place or places in the depôt as may be set apart by the Port Commissioners for that purpose.

8. (II) When petroleum is imported in bulk, its removal from the ship shall be effected by means of a hose and a wrought iron pipe between sunrise and sunset. Petroleum so imported shall be pumped into storage tanks, and when the ship has finished discharging the pipe shall immediately be emptied by means of a supplementary pump on shore. When the ship has not finished discharging by sunset, arrangements must be made by means of a valve for effectually preventing any of the oil left in the pipe from escaping.

Importation at Chittagong.

9. The Master of every ship bound for Chittagong and carrying petroleum shall, before reaching Jooldia, declare in writing to the pilot,* if there is one on board,—

(a) what quantity of petroleum the ship is carrying;

(b) whether any, and if so what, part of the petroleum is dangerous petroleum;

(c) whether any, and if so what, part of the petroleum is certificated petroleum.

If there is no pilot on board, the master of such ship shall, at the first opportunity, despatch a similar declaration to the address of the Harbour Master.

When the master declares that any petroleum is certificated petroleum, he shall produce to the pilot the certificate covering the same.

10. A ship having petroleum on board may proceed to any mooring in the port, and there discharge the petroleum—

(a) if the petroleum has come from a port in British India as part of a general cargo, and has been certified not to be dangerous under section 9 of the Act, and does not exceed five thousand gallons in quantity, or

(b) if the petroleum is certificated petroleum not exceeding five thousand gallons in quantity, and the master produces the certificate to the pilot, or

(c) if the petroleum is dangerous or uncertificated petroleum not exceeding forty gallons in quantity, or

(d) if the petroleum is petroleum which is ordinarily used for lubricating or jute-batching purposes, and which has a flashing-point above 150° of Fahrenheit's thermometer:

Provided that the Collector of Customs shall be entitled at any time to obtain a sample of any petroleum referred to in clause (a) or (c) for the purpose of having it tested.

---

* The pilot should deliver this declaration to the Harbour Master or his Assistant when the latter comes on board.

11. Every other ship having petroleum on board shall not proceed upwards further than Jooldia, and such petroleum shall be detained there pending the grant of an import license under section 5 of the Act, or the issue of a certificate under section 9 of the Act, or the issue by the Local Government of directions regarding it.

12. (1). When a ship is stopped at Jooldia under rule 11, the Collector of Customs shall, as soon as possible, not exceeding forty-eight hours from the time of the stoppage of the ship, obtain samples of all the petroleum landed or discharged, or intended to be landed or discharged. The Master shall deliver to the Collector without charge such samples as he shall take.

(2). Every different quality of petroleum shall be separately sampled, and when petroleum is represented to be of uniform quality, a sample shall be taken from one case in every ten thousand cases, or, if the petroleum is carried in bulk, from each separate compartment of the ship in which it is carried.

(3). The Collector shall forthwith seal the receptacles containing the samples, and having labelled them with the name of the ship, the name of the consignee, and such other distinguishing marks as may be necessary, shall forward them to the Testing-officer appointed under section 9 of the Act for report.

13. The Testing-officer shall, as soon as practicable, and ordinarily within twenty-four hours after the receipt of the samples, sign a report certifying that they are, or are not, dangerous petroleum (as the case may be), and shall forward such report to the office of the Port Commissioners, sending also a copy of the same to the Collector of Customs. The Vice-Chairman of the Port Commissioners shall, on receipt of such report, forthwith forward a copy of the same to the Master of the ship in which the petroleum was imported.

14. Unless with the written permission of the Port Commissioners, no petroleum shall be discharged or landed within the Port of Chittagong, except between daylight and dark, and at the wharves expressly set apart for the landing of petroleum.

Importation at other Ports.

15. The Master of every ship carrying petroleum shall, on entering a port in the Lower Provinces of Bengal, other than the Ports of Calcutta and Chittagong, give information of the quantity and description of the petroleum to the District Magistrate, and shall not allow any dangerous petroleum to be removed from the ship for delivery to any one person, except—

(*a*) if the petroleum exceeds forty gallons in quantity, upon the production by the consignee or his agent of a license under section 5 of the Act for the importation of the same, or

(*b*) if the petroleum does not exceed forty gallons in quantity, upon the production by the consignee or his agent of a license under section 6 for the transport or possession of the same, or

(*c*) if the petroleum does not exceed three gallons in quantity, in accordance with the conditions of the proviso to section 6 of the Act as to the vessels in which petroleum of that quantity when kept or transported without a license must be contained.

General.

16. The fee for sampling and testing petroleum shall be five rupees for each sample tested.

17. When petroleum is imported in bulk, the contents of each compartment of the tank-ship shall, for the purposes of sub-section (1), clauses (*e*) and (*f*) of section 8 of the Act, be regarded as a separate consignment.

18. When the results of the testing of samples raise a doubt as to the uniformity of the quality of the petroleum in any consignment stated to be of one uniform quality, the Testing-officer, if he thinks further tests necessary to satisfy him that none of the petroleum is dangerous petroleum, shall inform, in Calcutta, the Superintendent of the Petroleum Wharf, in Chittagong, the Collector of Customs, or, in places other than Calcutta and Chittagong, the District Magistrate.

The District Magistrate, or, in Calcutta, the Superintendent of the Petroleum Wharf, or, in Chittagong, the Collector of Customs, or any police officer of, or above, the rank of head-constable appointed by him in writing for the purpose, shall thereupon cause the petroleum in question to be landed and stacked in lots of one thousand cases each, or to be discharged into boats each containing five hundred cases; and he shall select and deliver to the Testing-officer one sample from each lot. The result of the testing of each of these samples shall determine the quality of the lot which such sample represents.

If the petroleum has been already landed and stored, it shall be divided into lots, and samples of each lot shall be selected as already stated.

19. Nothing in the foregoing rules applies to petroleum other than dangerous petroleum comprised in a ship's stores, and manifested as such, provided it is not of unreasonably large amount. If any question arises as to whether any petroleum, manifested as ship's stores, is of an unreasonably large amount, the decision thereon of the Port Commissioners in Calcutta or Chittagong, and of the District Magistrate elsewhere, shall be final.

C. W. ODLING,
Joint-Secy. to the Govt. of Bengal.

The 1st November 1892.

No. 103*Marine*.—IN exercise of the powers conferred by section 11 of the Petroleum Act, XII of 1886, and in supersession of the existing rules on the subject, the Lieutenant-Governor of Bengal is pleased, with the previous sanction of the Governor-General in Council, to make the following rules to regulate the granting of licenses to possess and transport petroleum in the Lower Provinces of Bengal:—

Preliminary.

1. THE following rules shall extend, so far as they apply to dangerous petroleum, to all the territories administered by the Lieutenant-Governor, and, so far as they apply to other petroleum, only to those local areas to which the rest of the Act has, for the time being, been extended by a notification of the Local Government under section 1, sub-section (3) of the Act

2. In these rules, including the forms annexed thereto,—

I. All words and expressions defined in the Act shall have the meanings respectively assigned to them in the Act:

II. "the town of Calcutta" means all places within the local limits of the original civil jurisdiction of the High Court of Judicature at Fort William in Bengal: and

III. "the Municipality of Calcutta" means the municipal limits of Calcutta as defined in the Calcutta Municipal Consolidation Act, 1888.

Possession of Petroleum.

3. Licenses for the possession of petroleum within the town of Calcutta shall be granted only when (1) the quantity of petroleum to be kept in one place does not exceed 50,000 gallons, and (2) the place intended to be used for the keeping of the petroleum fulfils the following conditions namely: (*a*) if the quantity of petroleum to be kept in the place does not exceed 5,000 gallons, the building itself shall be constructed of masonry with a terraced or iron roof, and the doorways and other openings of the building shall be built up to a height of not less than two feet above the level of the road or street, or the floor shall be sunk at least two feet below the level of the road or street, so that the petroleum cannot flow out of the place in case of fire; (*b*) if the quantity of petroleum to be kept in the place exceeds 5,000 gallons, the building itself shall be constructed of masonry with a terraced or iron roof, and the doorways and other openings of the building shall be built up to a height of not less than three feet above the level of the road or street, or the floor shall be sunk at least three feet below the level of the road or street, so that the petroleum cannot flow out of the place in case of fire, and there shall be a clear open space of at least twenty feet round the building.

4. Licenses for the possession of petroleum outside the town of Calcutta shall, if the quantity of petroleum to be kept in the place does not exceed 50,000 gallons, be granted on the same terms as those granted in the town of Calcutta for the possession in one place of not more than 5,000 gallons. If a license for the possession in one place of a larger quantity than 50,000 gallons be required, the license shall be granted on the same conditions as those granted in the town of Calcutta for the possession in one place of petroleum exceeding in quantity 5,000 gallons: provided that, if the place in which the petroleum is to be kept is situated within one hundred yards of the river Hooghly or Tolly's Nullah, or the Circular Canal, the building shall further be surrounded by a wall or earthen embankment not less than four feet high with a trench close to, and completely surrounding, the building, of sufficient capacity to hold all the petroleum stored, and to prevent its escape beyond the limits of the trench in case of fire.

5. Notwithstanding anything in the two last foregoing rules, and subject to such conditions as may be prescribed in each case, a license may be granted for the possession of any stated quantity of petroleum in a place specially prepared for the storage of petroleum in bulk, in accordance with plans and specifications approved by the Local Government. The capacity in gallons shall be conspicuously marked on every storage-tank or other receptable in such place

6. The District Magistrate, or, in the town of Calcutta, the Commissioner of Police, or any police officer of, or above, the rank of head-constable appointed by him in writing for this purpose, may enter any place in respect of which a license for the possession of petroleum has been granted, for the purpose of inspecting the same at any time after sunrise and before sunset.

7. The District Magistrate, Commissioner of Police, or any police officer as aforesaid, may require a sample to be delivered to him from any tank or other receptable containing petroleum stored in any licensed premises. The procedure prescribed in sections 12 and 13 of the Act shall apply to any demand for samples made under this rule and to the testing of such samples.

8. The following fees shall be charged for licenses for the possession of petroleum under the Act in places situated within the municipalities of Calcutta and Howrah, respectively:—

	Rs.
Licenses for the possession of dangerous petroleum—	
When the quantity to be stored exceeds 40 gallons (section 5), for every 40 gallons or fraction of 40 gallons	5
When the quantity to be stored does not exceed 40 gallons (section 6)	3

Licenses for the possession of other petroleum—

	Rs.	
When the quantity to be stored exceeds 500, but does not exceed 1,000 gallons	12	
When the quantity to be stored exceeds 1,000 gallons but does not exceed 5,000 gallons	2	extra for each 1,000 gallons or part of 1,000 gallons in excess of 1,000 gallons.
When the quantity to be stored exceeds 5,000 gallons	4	for every (additional) 1,000 gallons or part of 1,000 gallons, in excess of 5,000 gallons.

9. The fees for licenses for the possession of petroleum in places situated beyond the limits of the municipalities of Calcutta and Howrah shall be half those prescribed in rule 8.

10. Every license for the possession of petroleum in any place shall specify the maximum quantity of petroleum which may be stored in that place.

11. Licenses for the possession of petroleum shall be in force for one year from the date of the grant of the license: provided that the licensing officer or the Local Government may, at any time, for good and sufficient reason, cancel a license.

12. Any sheds on the land belonging to the Commissioners of the Port of Calcutta and appertaining to the Budge-Budge petroleum depôt, and any sheds used by the Port Commmissioners for the temporary storage of petroleum brought into the Port of Calcutta under rule 3 of the rules made by the Lieutenant-Governor of Bengal under section 8 of the Act, whether such sheds now exist or may hereafter be erected, shall be deemed to be places in respect to which licenses for the possession of petroleum have been granted under these rules.

13. Any tank or other receptacle for the storage of petroleum in bulk that may be erected on the land belonging to the Commissioners of the Port of Calcutta, and appertaining to the Budge-Budge petroleum depôt, shall be deemed to be a place in respect of which a license for the possession of petroleum has been granted under rule 5 of these rules.

Transport of Petroleum.

14. (1) Licenses for the transport of petroleum other than dangerous petroleum in quantities exceeding 500 gallons may be either general or special. Licenses for the transport of dangerous petroleum shall be special only.

(2) Licenses for the transport of petroleum other than "in bulk" shall only be granted if the petroleum to be transported is packed in air-tight tins or other vessels not easily broken, or is contained in bottles securely stopped and carefully packed so as to avoid risk of breakage.

(3) Licenses for the transport of petroleum other than dangerous petroleum in bulk by railway may be granted, if the petroleum is contained in waggons approved by the Railway administration over whose line it is proposed to transport it.

(4) Licenses for the transport of petroleum other than dangerous petroleum in bulk by steamer or barge may be granted if the vessel is certified to be fit for the service by an officer appointed by the Local Government in this behalf.

15. General licenses for a period of twelve months shall be issued for transport by cart only. Such licenses shall authorise the holders to transport by cart any petroleum, *bonâ fide* their own property, without restriction as to destination or quantity.

16. The holder of a general license shall, with each consignment of petroleum conveyed under cover of his license, issue a pass in Form G appended to these rules, specifying the places from and to which the petroleum is to be conveyed, and the quantity of petroleum covered by it. Each pass shall be numbered, and the number of the general license shall be legibly marked on a conspicuous part of the last case on the cart.

17. Special licenses for the transport of petroleum shall be in force for such period not exceeding six months from the date of the grant of the license as may be specified in the license.

18. The licensing officer may, for special reasons to be reported to Government, refuse a license in any case. The reasons for refusing a license shall be communicated to the applicant, if a request to that effect is preferred by him.

19. (1) Every special license for the transport of petroleum shall specify the places from and to which, respectively, the petroleum is to be conveyed, the quantity of petroleum covered by the license, and the time for which the license is in force.

* (2) Petroleum transported to Calcutta or Howrah under a license shall be conveyed by land and not by water between Garden House and Cossipur.

20. Applications for special licenses for the transport of petroleum by rail, by cart, by boat or by steamer, or by two or more of these modes of conveyance, shall specify the description and quality of petroleum to be transported, and the places from and to which, respectively, the petroleum is to be conveyed, and shall describe the receptacles in which it is to be contained, or, in the case of petroleum to be transported in bulk, shall state that the waggon or vessel in which it is to be carried has been approved or certified, as the case may be, as required by sub-rules (3) and (4) of rule 14. In the case of applications for lisences for the transport of dangerous petroleum under section 5 of the Act, the application shall also contain the particulars required by sub-section (2) of that section.

21. When a license has been granted under these rules for the transport of petroleum, the District Magistrate, or, in the town of Calcutta, the Commissioner of Police, or any police officer of, or above, the rank of head-constable, appointed by him in writing for this purpose, may, at any time after sunrise and before sunset, and on or before the arrival of the petroleum at its place of destination, board any steamer or boat, or detain any cart, used for such transport, for the purpose of inspecting the license and seeing whether its provisions are being complied with.

22. The following fees shall be charged for licenses for the transport of petroleum under the Act:—

	Rs.
Licenses for the transport of dangerous petroleum—	
When the quantity to be transported exceeds 40 gallons (section 5), for every 40 gallons or fraction of 40 gallons ...	4
When the quantity to be transported exceeds 3 gallons, but does not exceed 40 gallons (section 6)	2
Special license for the transport of other petroleum—	
When the quantity to be transported exceeds 500, but does not exceeds 5,000 gallons	1
For every additional 5,000 gallons or a part of 5,000 gallons ...	1
General license for the transport of petroleum by cart for twelve months	100

General.

23. Licenses for the possession or transport of dangerous petroleum in quantities exceeding 40 gallons and licenses for the possession of petroleum in bulk will be granted, subject to the provisions of section 5 of the Act, in the case of dangerous petroleum, under the signature of an Under-Secretary to the Government of Bengal, on the recommendation of the Commissioner of Police, if the application for the license is made in the town of Calcutta, or of the Commissioner of the Division, if the application is made elsewhere.

Applications for such licenses should be made through the Commissioner of Police, Calcutta, or the Divisional Commissioner, as the case may be.

24. Licenses for the possession or transport of dangerous petroleum in quantities not exceeding 40 gallons, and licenses for the possession or transport of other petroleum, except the possession of petroleum in bulk, will be granted in the town of Calcutta by the Commissioner of Police or Deputy Commissioner of Police, at Budge-Budge, by the Superintendent of the Petroleum wharf, and elsewhere by the District Magistrate, or by such other officer as the Local Government may from time to time, by an order in writing, appoint in this behalf.

25 Subject to the restrictions contained in section 5 of the Act and rules 3 and 4 of these rules, the licensing officer may, in his discretion, grant a license for the possession or transport of such quantity of petroleum as he thinks fit.

26. Licenses granted under these rules shall be in the forms and shall have endorsed on them the rules and conditions respectively prescribed for them in the schedule hereto annexed. Every such license shall, on the breach of any such condition, be liable to be forefeited.

27. Every application for the renewal of a license shall be made in the same manner as an application for an original license. Every such application shall be made at a date not less than fifteen days before the date on which the original license expires. The same fee shall be charged for the renewal of a license as for a new license.

* NOTE.—This rule shall not be read as prohibiting the conveyance by water between Garden House and Cossipur of petroleum which is brought under a license from beyond the limits of Calcutta or Howrah, and is not intended to be landed within those limits.

SCHEDULE.

FORM A.

License to possess dangerous Petroleum to be granted under Section 5 or Section 6 of Act XII of 1886.

No. Fee Rs.

LICENSE is hereby granted to for the storage, in the place described below, of gallons of dangerous petroleum, subject to the rules and conditions on the back of this license.

Description of place above referred to.

Under-Secretary to the Government of Bengal.

Commissioner or Deputy Commissioner of Police, or District Magistrate, or Superintendent of the Petroleum Wharf at Budge-Budge ... } When the amount of petroleum does not exceed 40 gallons.

ENDORSEMENT ON FORM A.

Rules.

[Here enter rules 1 to 13 (inclusive) and 22 to 26 (inclusive) under section 11 of the Act.]

Conditions.

1. All petroleum in the licensed place shall be contained in vessels labelled in accordance with section 7 of the Act.
2. No goods of a combustible nature shall be stored in the licensed place.
3. No cask or other receptacle containing petroleum shall be opened, or the oil drawn off, within the building in which the petroleum is stored.
4. No smoking, light or fire in any form shall be permitted at any time within such building.
5. The license-holder is prohibited from delivering any quantity of dangerous petroleum exceeding three gallons to any one who has not a license under section 5 or 6 of the Act, or any less quantity of such petroleum, except in accordance with the conditions of the proviso to section 6 of the Act as to the vessels in which the petroleum must be contained.

FORM B.

License to possess Petroleum other than dangerous Petroleum to be granted under Section 10 of Act XII of 1886.

No. Fee Rs.

LICENSE is hereby granted to for the storage, in the place described below, of cases containing gallons of petroleum, subject to the rules and conditions on the back of this license.

Description of the place above referred to.

The 189 . *Commissioner or Deputy Commissioner of Police.*
District Magistrate.
Superintendent of Petroleum Wharf at Budge-Budge.

ENDORSEMENT ON FORM B.

Rules.

[Here enter rules 1 to 13 (inclusive) and 22 to 26 (inclusive) under section 11 of the Act.]

Conditions.

1. No goods of a combustible nature shall be stored in the licensed place.
2. No cask or other receptacle containing petroleum shall be opened, or the oil drawn off, within the building in which the petroleum is stored.
3. No smoking, light or fire in any form shall be permitted at any time within such building.

FORM C.

License to possess Petroleum other than dangerous Petroleum in bulk to be granted under Section 10 of Act XII of 1886.

No. Fee Rs.

LICENSE is hereby granted to for the storage, in the place described below, of gallons of petroleum, subject to the rules and conditions. on the back of this license.

Description of the place above referred to.

The 189 . *Under-Secretary to the Government of Bengal.*

ENDORSEMENT ON FORM C.

Rules.

[Here enter rules 1 to 13 (inclusive) and 22 to 26 (inclusive) under section 11 of the Act.]

Conditions.

(Here enter such conditions as the Local Government has prescribed under rule 5.)

FORM D.

Special License to transport dangerous Petroleum granted under Section 5 or Section 6 of Act XII of 1886.

No. Fee Rs.

LICENSE is hereby given to of to transport cases containing in all gallons of dangerous petroleum from to , subject to the rules and conditions on the back of this license, and by the following route, namely—

The amount of petroleum in each case is stated below.

This license shall continue in force till the day of 189

Under-Secretary to the Government of Bengal.

Commissioner or Deputy Commissioner of Police.
District Magistrate.
Superintendent of the Petroleum Wharf at Budge-Budge.
} In the case of the transport of dangerous petroleum in amount not exceeding 40 gallons.

ENDORSEMENT ON FORM D.

Rules.

[Here enter rules 1, 2, and 14 to 26 (inclusive) under section 11 of the Act.]

Conditions.

1. The petroleum shall be contained in vessels labelled in accordance with section 7 of the Act.
2. The petroleum shall be carried (here describe mode or modes of conveyance).
3. When the petroleum is carried by steamer, it shall be stowed in such part of the steamer and in such manner as may be approved by the licensing officer, or any officer appointed by him in writing in this behalf.
4. When the petroleum is carried by rail, it shall be subject to all the regulations which may, from time to time, be prescribed generally or specially in that behalf by the Railway authorities of the line or lines over which it may be conveyed.
5. When the petroleum is being carried by boat, no smoking, fire or light of any description shall be allowed in the boat so long as it is within the limits of the port of Calcutta or of the municipilities of Calcutta and Howrah. The boat conveying the petroleum should also, from sunrise to sunset, show at its stern a red flag, 18 inches long and 12 inches board, having the words "Petroleum Boat" marked on it in black letters.
6. When the petroleum is carried by cart, the cart conveying the petroleum shall not move after sunset or before sunrise or carry any light.
7. The license-holder is prohibited from delivering any quantity exceeding three gallons to any one who has not a license under section 5 or 6 of the Act, or any less quantity of petroleum, except in accordance with the conditions of the proviso to section 6 of the Act as to the vessels in which the petroleum must be contained.

FORM E.

Special License to transport Petroleum other than dangerous petroleum granted under Section 10 *of Act XII of* 1886.

No. Fee Rs.

LICENSE is hereby granted to to transport from to [ ] ([ ] cases containing)* gallons of petroleum, subject to the rules and conditions on the back of this license.

This license shall continue in force only till the day of 89

Dated the day of 189 .

Commissioner or Deputy Commissioner of Police.
District Magistrate.
Superintendent of Petroleum Wharf at Budge-Budge.

ENDORSEMENT ON FORM E.

Rules.

[Here enter rules 1, 2, and 14 to 26 (inclusive) under section 11 of the Act.]

Conditions when the Petroleum is being conveyed by Steamer.

1. The petroleum shall be stowed in such part of the steamer and in such manner as may be approved by the licensing officer, or any officer appointed by him in writing in this behalf.

Conditions when the Petroleum is being conveyed by Boat.

2. No smoking, fire, or light of any description shall be allowed in the boat in which the petroleum is being carried, so long as it is within the limits of the port of Calcutta or of the municipalities of Calcuttaand H owrah.

3. The boat conveying the petroleum shall also, from sunrise to sunset, show at its stern a red flag, 18 inches long and 12 inches broad, having the words "Petroleum Boat" marked on it in black letters.

Conditions when the Petroleum sbmeing conveyed by Cart.

4. The carts conveying the petroleum shall not move after sunset or before sunrise or. carry any light.

Conditions when the Petroleum is being conveyed by Rail.

5. The petroleum shall be subject to all the regulations which may, from time to time, be prescribed generally or specially in that behalf by the Railway authorities of the line or lines over which it may be conveyed.

FORM F.

General License to transport Petroleum other than dangerous Petroleum by Cart to be granted under Section 10 *of the Act* (*see Rule* 15).

No. Fee Rs. 100

A GENERAL license is hereby granted to to transport petroleum by carts within the Lower Provinces of Bengal, subject to the rules and conditions on the back of this license.

This license shall continue in force till the

Dated the day of 189 .

Commissioner or Deputy Commissoner or Police or District Magistrate.

EDUCATION DEPARTMENT, BENGAL.

NOTICE.

Entrance Examination.

A TEST examination of private students for admission to the ensuing Entrance Examination will be held at the Office of the Inspector of Schools, Presidency Circle, 4, Dalhousie Square, Calcutta, on Thursday, the 1st, and Friday, the 2nd December 1892. Only candidates residing in any of the districts of the Presidency and Chota Nagpur Divisions will be admitted to the examination.

2. Only those candidates who have not studied in any institution since the 1st September 1892 will be recognized as private students. They will be required to furnish satisfactory proof that they have not read in any school from that date. They must also produce certificates of conduct and progress in studies from the authorities of the last school where they read.

3. *Bonâ fide* teachers employed in any of the schools in the Presidency Circle may be admitted to the examination, if they can produce certificates of service and character from their employers.

4. Each candidate should submit to this Office, not later than the 21st November 1892, his application for admission to the test examination, stating the following particulars:—

(1) Age; (2) residence; (3) father's name; (4) second language besides English; and (5) whether he appeared at any previous Entrance Examination.

5. The admission-fee for the examination is Rs. 4 for each candidate, and is to be remitted with the application within the prescribed date, after which a fine of Rs. 2 is to be imposed for each week's delay.

6. Candidates who are sent up by this Office must appear at the Calcutta Examination Centre.

Those that reside at a distance from Calcutta are to present themselves at the test examination held by the head-master of the local zillah school, on condition that they appear at the centre selected by the candidates from that institution.

F. A. and B. A. Examinations.

Deputy Inspectors, Sub-Inspectors, and *bonâ fide* teachers of recognized English schools, in the Presidency and Chota Nagpur Divisions, who have served as such for full two academical years, or for six months in the case of those who have been admitted to a former examination of the same class, will be admitted to the above examinations on production of certificates of character and length of service (with dates) from their employers. Their applications must reach this Office on or before the 25th November 1892.

RADHIKA PRASANNA MUKHERJI,
Inspector of Schools, Presidency Circle.

4, DALHOUSIE SQUARE, CALCUTTA,
The 25th October 1892.

THOMASON COLLEGE, ROOKEE.

Government of India Resolution No. 156T.E., dated Simla, 25th August 1892.

FORMATION OF A PROVINCIAL SERVICE RECRUITED IN INDIA FOR THE SUPERIOR ESTABLISHMENT OF THE INDIAN TELEGRPH DEPARTMENT.

IT is hereby notified for the information of the public that six additional Students will be admitted to the Thomason College, Roorkee, on the 1st May 1893, to provide for the two appointments in the Indian Telegraph Department, which will be offered in 1894-95.

The examination for Entrance will be held during the last whole week in November 1892 under the rules for admission to the Engineer Class.

Circulars containing these rules will be supplied on application to the Principal of the College.

J. CLIBBORN, MAJOR, I.S.C.,
Principal, Thomason College.

NOTIFICATION.

IT is notified for general information that on the results of the Entrance Examination of 1893 being known, the five second grade scholarships allotted to the Rajshahi Division will be awarded to the best students in the division irrespective of districts, and the nine third grade scholarships will be distributed as follows:—

Rajshahi	2
Pabna	2
Dinajpur	1
Bogra	1
Rangpur	1
Jalpaiguri	1
Darjeeling	1
Total ...	9

Besides the above there are two special scholarships—one of the second grade and one of the third grade—for the Rangpur zillah school.

P. NOLAN, *Commissioner.*

Orders and Notifications by the Government of India, &c.

[Reprinted from the "Gazette of India."]

The following orders, issued by the Government of India in the Home Department, are republished for general information.

H. J. S. COTTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATIONS.

ESTABLISHMENTS.

Simla, the 25th October 1892.

No. 517.—Mr. J. C. Veasey has been permitted to resign Her Majesty's Indian Civil Service, with effect from the 3rd September 1892.

EXAMINATIONS.

The 28th October 1892.

No. 362.—With reference to Rules 3 and 7 of the Rules published in Home Department Notification No. 1817, dated 3rd July 1888, and to Rules 3 and 7 published in the Notification of the Government of Bengal, dated 29th April 1889, it is hereby notified that the examination prescribed for filling up vacancies in the Clerical Establishments of the Secretariat Offices of the Government of India and attached Offices, and of the Offices subordinate to the Government of Bengal, will be held at Calcutta in the Senate House of the Calcutta University and at Allahabad and Lahore at the places to be appointed by the Governments of the North-Western Provinces and Oudh and the Punjab, respectively, in January 1893. The exact dates will be notified hereafter. The hours of examination will be from 10 A.M. to 1 P.M. and from 1-30 P.M. to 4-30 P.M. daily.

The probable number of vacancies in the Secretariat Clerical Service of the Government of India and attached Offices to be competed for is sixteen in the Lower Division. Of these, eight will be reserved for candidates domiciled in the North-Western Provinces and Oudh, the Punjab, the Central Provinces, Rajputana, Central India, and Baluchistan, provided that a sufficient number of such candidates, duly qualified, appear for the examination to be held at Allahabad and Lahore. The remaining eight vacancies will be offered for competition among the candidates examined at Calcutta, and such candidates, temporarily resident, but not domiciled in any of the Provinces enumerated above, as may be permitted to present themselves for examination at Allahabad and Lahore. There will be no examination for the Upper Division of the Government of India Secretariat and attached Offices.

The probable number of vacancies in the offices subordinate to the Government of Bengal will be twenty-one in the Lower Division. These will be reserved for candidates examined at Calcutta. There will be no examination for clerkships in the Upper Division under the Government of Bengal.

Candidates should pay the prescribed fee (Rs. 10 for the Lower Division) into the nearest Treasury, and forward the Treasury receipt to the Secretary to the Board of Examiners, Calcutta. Candidates paying their fees in Calcutta should pay them into the Bank of Bengal.

Application for permission to appear at the examination, whether for appointments under the Government of India or for those under the Government of Bengal, should be made to the Secretary to the Board of Examiners, Calcutta, between the date of this Notification and the 15th December next (inclusive).

The attention of intending candidates is called to Rule 6 of the Home Department Notification of the 3rd July 1888, and to Rule 6 of the Notification of the Government of Bengal of the 29th April, 1889, prescribing the particulars* and documents which thould accompany the application for permission to appear at the examination.

* (1) Evidence that the candidate at the date of making his application is not less than 18 and not more than 24 years of age. The date of the candidate's birth must be stated.

(2) In case the candidate has been educated at a school in which students' good conduct registers are kept, the candidate's register for the last year of his attendance at school when a year has not elapsed since he left school. In other cases, a certificate that the candidate is of good moral character from the head of the institution in which he has last been educated, or from some respectable householder to whom he is well known in private life, and who is himself known to a District or Sub-divisional Magistrate or to the head of some Government office, this ast fact being certified by the countersignature of the officer in question.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATION.

No. 2767*M.—The* 28*th October* 1892.—It is hereby notified that, under section 27 of the Bengal Municipal Act III of 1884, the Lieutenant-Governor is pleased to appoint Maulvi Syed Abdul Salek to be a Commissioner of the Rampur Boalia Municipality, in the district of Rajshahi, *vice* Maulvi Syed Abdul Malik, resigned.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 2769*L.S.-G.—The* 28*th October* 1892.—It is hereby notified that, under section 19, clause (3) of the Bengal Local Self-Government Act III of 1885, the Lieutenant-Governor is pleased to appoint Babu Bhuban Mohon Bhattacharya to be a member of the Local Board of Gaibanda, in the district of Rangpur, in the place of Babu Durga Kanta Das, deceased.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 2771*M.—The* 28*th October* 1892.—It is hereby notified that, under section 17 of the Bengal Municipal Act III of 1884, the Lieutenant-Governor is pleased to appoint the following gentlemen to be Commissioners of the Sonamukhi Municipality, in the district of Bankura:—

Babu Rajendra Nath Ghose, Sub-divisional Officer, Bishenpur.
,, Sachi Sekhar Mukerji.
,, Sasi Sekhar Banerjee.
,, Pratap Chandra Banerjee.
Babu Jogendra Chandra Chaudhari.
,, Rajendra Mohadani.
,, Umesh Chandra Banerjee.
,, Baldev Marwari.
,, Suchand Ghar.

The Lieutenant-Governor is also pleased to appoint, under section 23 of the Act, Babu Rajendra Nath Ghose, Sub-divisional Officer, Bishenpur, to be the Chairman of the Municipality.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 2773*L.S.-G.*—*The 28th October* 1892.—It is hereby notified that, under section 19, clause (3) of the Bengal Local Self-Government Act III of 1885, the Lieutenant-Governor is pleased to appoint Syed Mahomed Ali Khan and Babu Upendra Chandra Singh to be members of the District Board of Bhagalpur in the place of Mr. William St. Clair Grant and Kumar Nitya Nand Singh, resigned.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 2775*M.*—*The 28th October* 1892.—Whereas two notifications, dated respectively the 24th July 1890 and the 12th May 1891, were published at pages 212 and 139, Part IB of the *Calcutta Gazette* of the 30th July 1890 and 20th May 1891, declaring the intention of the Lieutenant-Governor to extend the provisions of Part IX of the Bengal Municipal Act III of 1884 to the Kumarkhali Municipality, in the district of Nadia, and whereas no valid objection having been raised to the proposal within one month from the date of the publication of the first notification aforesaid within the Municipality, the extension of the said part of the Act to the Municipality, and the levy under section 86(*f*) of fees for the cleansing of latrines within the limits thereof was sanctioned in notification, dated 17th November 1890, published at page 336, Part IB of the *Calcutta Gazette* of the 19th idem. The Municipal Commissioners having failed to take action under section 222 of the Act to bring the provisions of the aforesaid Part IX into operation within 15 days of the publication of the each of these notifications, it is now necessary to issue fresh orders on the subject. In compliance with the request of the Commissioners, the Lieutenant-Governor is pleased to order that the provisions of Part IX of the Bengal Municipal Act III of 1884 shall have force and effect within the Kumarkhali Municipality, and that the Municipal Commissioners shall have power under section 86 (*f*) of the Act to levy fees for the cleansing of private latrines within the Municipality.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 2779*M.*—*The 28th October* 1892.—It is hereby notified that, under section 47 of Bengal Act II of 1888, the Lieutenant-Governor sanctions the grant by the Commissioners of Calcutta, to Babu Gopal Lall Mitter, their Vice-Chairman, of privilege leave for two months and eighteen days, commencing from such date as he may avail himself of it.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 2780*L.S.-G.*—*The 28th October* 1892.—It is hereby notified for general information that, under section 6 of the Bengal Ferries Act I of 1885, the Lieutenant-Governor declares the ferries noted in the margin, which are situated in the district of Jalpaiguri, to be public ferries.

1. Ferry Bakla over the river Bakla on the road from Alipur to Chikliguri, in the Alipur sub-division.
2. Ferry Simlabari, over the river Gadadhar, on the Bhatibari to Simlabari road in the Alipur sub-division.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 2782*L.S.-G.*—*The 28th October* 1892.—It is hereby notified that the Lieutenant-Governor is pleased, in the exercise of the power conferred on him by section 35 of the Bengal Ferries Act I of 1885, to direct that the ferries named in the margin, which are situated in the district of Jalpaiguri, shall be managed by the District Board of Jalpaiguri, and that all the proceeds of such ferries, and all the fines levied and compensation received under the said Act in respect thereof, shall be paid into the District Fund with effect from the date of this notification.

1. Ferry Bakla over the river Bakla on the road from Alipur to Chikliguri, in the Alipur sub-division.
2. Ferry Simlabari over the river Godadhar on the Bhatibari to Simlabari road in the Alipur sub-division.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 2785*M.*—*The 29th October* 1892.—It is hereby notified that, under section 27 of the Bengal Municipal Act III of 1884, the Lieutenant-Governor is pleased to appoint Mr. G. J. B. T. Dalton, C.S., to be the Chairman of the Darbhanga Municipality, *vice* Mr. S. L. Maddox

J. A. BOURDILLON,

Offg. Secy. to the Govt. of Bengal.

DECLARATION.

No. 2787*M.*—*The* 1*st November* 1892.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Barisal Municipality for a public purpose, viz., for the construction of a Cholera Ward in the Kalibari Ward, Barisal Municipality, zilla Backergunge, it is hereby declared that for the above purpose a piece of land measuring, more or less, 14 cottahs and 6½ chitaks of standard measurement, is required. The land is bounded on the north by the holding of Babu Basanta Kumar Guha; on the south by the Female ward compound; on the east by the jail road; and on the west by Mir Rahimuddin's holding.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION No. 3972R.P.

The 27*th October* 1892.—Mr. Archibald Dunbar Stables and Babu Bishun Charan Das are appointed to be members of the Terai Branch Road Cess Committee, *vice* Mr. G. G. Gordon and Babu Dhir Kanta Saha, respectively.

J. A. BOUDILLON,
Offg. Secy. to the Govt. of Bengal.

The Calcutta Gazette.

PART II.

Advertisements.

[N. B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette cannot be received after Noon on Monday.]

LAND SALE NOTICES.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Eastern Bengal State Railway, near the Baruipur station, in the district of the 24-Parganas, will be put up to sale at noon on the 12th November 1892, corresponding with the 28th Kartick 1299 (B.S.), on the spot.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavation on the land nearer than 15 feet from the railway fencing, or plough the land closer than 3 feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale.

The 28th October 1892. E. GEAKE, Offg. Collector.

Oudh Forest Department.

BAHRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of sâl beams and scantlings supplied from this depôt will be as follows:—

BEAMS.—21 feet length, at Rs. 2-10 per cubic foot.
22 " " 2-12 "
23 " " 2-14 "
24 " " 3 "

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot.

SCANTLINGS—From 12 to 20 feet, at Rs. 2-8 per c. ft.
Under 12 and over 7 " 2-4 "
Under 7 feet " 2 "

The above prices are for ordinary building purpose.

For *Planking Sleepers, &c.*, special rates will be fixed by agreement.

The Department will still take orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, N. W. P. and Oudh, Oudh Circle.

KANHYA LAL,
Sub-Assistant Conservator of Forests,
Bahramghat Division.

Bahramghat, the 1st April 1886.

Reduction in price of Cinchona Febrifuge.

FROM 1st April 1891, and until further orders. Cinchona Febrifuge can be purchased by all Government officers and by any one taking *ten pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, at the following rates. Four ounce tin Rs. 2-8; eight ounce tin Rs. 5; one pound tin Rs. 10. The general public can be supplied by the Superintendent, Botanic Garden, *for cash only* at the undernoted rates:—Per four ounce tin Rs. 3; per eight ounce tin Rs. 6; per pound tin Rs. 12. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage four annas per 4 ounce tin, eight annas per 8 ounce tin, and twelve annas per pound tin, in addition to the foregoing rates.

Reduction in the Price of the Pure Sulphate of Quinine.

MANUFACTURED AT THE BENGAL GOVERNMENT CINCHONA PLANTATION.

ON and after 1st April 1891 the price of this quinine will be as follows :—

1 Pound tin Rs. 16, or, post free, Rs. 16-12.
½ " " " 8 " " " " 8-8.
¼ " " " 4 " " " " 4-8.

Analysis shows this quinine to be of the purest manufacture, and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Sibpur, near Calcutta. It can be had either white or coloured pink.

Notification

THE District Board of Faridpur have, at a Special Meeting held under section 46 of the Bengal Local Self-Government Act, on the 25th of October 1892, resolved that the road cess shall be levied in the district during the ensuing cess year (1893-94) at the usual maximum rate, viz., six pics in the rupee on the annual value of lands, &c.

E. F. GROWSE, Chairman.

Faridpur District Board's Office, the 26th Oct. 1892.

Wanted

A Leveller and Surveyor. The Municipality of Tekari invites offers for the survey and levels of the area within its municipal limits.

The area is under three square miles. The roads of all classes within the area aggregate about five miles.

The survey shall show, plotted on a scale of not more than four feet to the inch, all the roads and municipal lands alongside them, all drains, watercourses, tanks, jhils and depressions within the municipality.

The levels to be noted down on a duplicate sheet of the aforesaid survey shall show the levels of all existing drains at intervals of every 100 feet, of the roads at interval of 200 feet, of all bridges, culverts, cross-drains, tanks, jhils, depressions water channels.

The municipality will furnish no surveying or drawing instruments of any kind.

Applications will be received up to the 15th November 1892.

Please apply to the undersigned stating terms for the whole work as a complete job, and forward also copies of testimonials of professional ability.

DEOKI NANDAN, Vice-Chairman,
Tekari Municipality, District Gaya.

Dated Tekari, the 27th October 1892. (711—1)

In the Second Court of the Subordinate Judge of 24-Parganás.

EXECUTION CASE No. 63 OF 1891.

Radhajibon Mastoofi, decree-holder, *versus* Raja Hemoda Kant Roy, judgment-debtor.

THE judgment-debtor on mortgage of his shares in the undermentioned properties borrowed from the decree-holder one lakh of rupees, and failed to pay the same with interest, whereupon the decree-holder brought a suit (No. 179 of 1888) against him and obtained a decree of Rs. 1,60,639-14 with interest at 4 per cent. per annum from 8th July 1889 to the date of realization. In execution of the said decree the judgment-debtor's interest in the mortgaged properties will be put up to auction sale in the 24-Parganas Judge's Court at Alipore on the 16th November 1892, at 12 o'clock, or on any subsequent date, of which due notice will be given at the place of sale. The sum now due to the decree-holder from the judgment-debtor is Rs. 2,04,155-8.

THE creditors of the abovenamed Company are required, on or before the 26th November 1892, to send their names and addresses of their Solicitors (if any) to the undersigned, the Liquidators of the said Company, at their Office, No. 39 Strand, Calcutta, and if so required by notice in writing from the said Liquidators, are to come in and prove their said debts or claims at such time as shall be specified in such notice, or in default thereof they will be excluded from the benefit of any distribution made before such debts are proved.

LOVELOCK & LEWES, Liquidators.
Calcutta, 25th October 1892. (692—1)

Notice.

IT has come to the knowledge of the undersigned that Messrs. Joseph and Brothers are preparing and selling preparations of their own under the false names of "Bronko" and "Zelo."

The public is warned that these names are the registered trade marks of Messrs. Brittain and Company, of Bangor, Wales, and any persons selling any articles bearing the false trade marks are liable to prosecution as well as the parties who fraudulently use them.

The undersigned alone has the right of selling "Bronko" and "Zelo" throughout British India, and will to his utmost prevent any infringement of his rights and of those of Messrs. Brittain and Company.

C. G. LEWIS, Attorney-at-Law and Attorney for E. C. Medina, sole Consignee of Brittain and Company's "Bronko" and "Zelo."

Dated this 26th day of October 1892. (695—6)

No. 43.

SEALED tenders for the supply to the Madras Commissariat of country manufactured sheets for barrack and hospital bedding of European troops for stations in the Madras Presidency and Burma, from 1st April 1893 to 31st March 1894, at the station and in the quantities or numbers noted in the memorandum at foot, will be received by the Commissariat Storekeeper-General at Madras up to 12 o'clock noon on the 21st November 1892, and then and there opened in the presence of all parties who may choose to attend.

2. No tenders will be received except on forms obtainable from the Commissariat Storekeeper-General at Madras, which, as well as any information required regarding the contract, will be given on application to the Commissariat Storekeeper-General at Madras up to 4 o'clock P.M. on the 19th November 1892. No addition or alteration must be made in the tender forms.

3. Seals of tenderers will not be accepted; they should have their marks verified by witnesses.

4. Covers to be superscribed "Tender for the supply of country-manufactured cotton sheeting or sheets."

5. The tender may be in part or for the whole requirement, but the term of contract must be as noted above and the rate an average for the whole period. Government shall have the power to accept a tender in whole or in part or to reject a tender without assigning any cause for so doing; but in the event of the tender being accepted in part only and the tenderer failing to take up the contract, the whole earnest-money deposited will be confiscated.

6. Each tender must be accompanied with earnest-money in Government Promissory Notes or Bank of Bengal or Madras or Treasury receipt* for an amount equal to 2½ per cent. of the value at the tendered rate of one year's supply of the quantity or number of sheeting or sheets tendered for, but the earnest-money of any one tender need not exceed Rs. 550. Tenders without earnest-money will not be attended to.

* The receipt may be for currency notes or cash.

7. Earnest-money will be confiscated if the tenderer withdraws from his tender.

8. A sample of the cloth to be supplied can be inspected at or had for inspection on application from the Commissariat Storekeeper-General at Madras.

Memorandum of stations and quantities or number referred to in paragraph 1.

Commissariat Storekeeper-General's Office,
Madras, 19th September 1892.

NOTICE.

In the Court of Roy Kali Prosonno Mukerji Bahadur, Subordinate Judge of 24-Parganas, Alipore.

EXECUTION CASE No. 68 OF 1891.

Plaintiffs—decree holders—(1) Gobin Lal Mullik, (2) Gopal Lal Mullik, (3) Bonomali Mullik of Jorasanko, Calcutta. Defendant - judgment-debtor—Kumar Hemada Kant Roy, of Jessore, at present residing at No. 83, Baranasi Ghose's Street, Calcutta.

THE following properties belonging to the aforesaid judgment debtor will be sold by the Nazir of the District Judge's Court of 24-Parganas at Alipore in the Court sale-room at public auction to the highest bidder on the 16th November 1892 at 12 o'clock noon for the realization of Rs. 1,04,584-6-3 due to the above-named decree-holders from the said judgment-debtor under a mortgage decree:—

LIST OF PROPERTIES.

Schedule (ক.)

(Properties of which the decree-holders are the first mortgagees)—

1. The five annas six gundas two karas and two krantis share in the zamindari of taluk kismat *Atpur* Panditnagar, with cutcherry house and all kinds of interest subordinate thereto, belonging to the judgment-debtor, within Collectorate tauzi No. 2402 of district 24-Parganas, sub-division Barasat, sub-registry office and thána Naihati, pargana Saidpur, the Government revenue of this share being Rs. 134-10-8-1 kranti, and of the whole 16 annas of the estate being Rs. 403 15 annas 5 gundas.

2. The five annas six gundas two karas and two krantis share in the zamindari of mahal pargana *Shahas*, with cutcherry house and all kinds of interest subordinate thereto, belonging to the judgment-debtor, within Collectorate tauzi No. 186 of district Khulna, sub-division Khulna, and sub-registry office and police-stations Khulna, Dumuria, Botaghata, and Delati, formerly of Collectorate tauzi No. 262 of district Jessore, the Government revenue payable for this share of the estate being Rs. 1,215 15 annas 11 gundas, and of the whole 16 annas of the estate being Rs. 3,647 15 annas 8 gundas.

(Properties of which the decree-holders are the second mortgagees, and defendant No. 2, Radhajibon Mustafi is the first mortgagee)—

1. The five annas six gundas two karas and two krantis share in the zamindari of mahal pargana *Saidpur*, with cutcherry house and all kinds of interest subordinate thereto, belonging to the judgment-debtor within Collectorate tauzi No. 250 of district Jessore, sub-registry office and police-stations Jessore, Manirampur, and Kesubpur, the Government revenue payable for this share of the estate being Rs. 15,392-10-8 and for the whole 16 annas being Rs. 46,177 3 annas 11 gundas.

2. The two annas thirteen gundas one kara and one kranti share, that is, one third share of the undivided eight annas share which Raja Barada Kanta Roy Bahadur held possession of by purchase in the zamindari of taruf *Berat*, with cutcherry house and all kinds of interests subordinate thereto, belonging to the judgment-debtor, within Collectorate tauzi No 120 of district Khulna, pargana Hogla, sub-registry office and police-stations Khulna and Botaghata, formerly Collectorate tauzi No. 2686 of district Jessore, the annual Government revenue payable for this share of the estate being Rs. 35 5 annas 8 gundas, and for the whole 16 annas of the estate being Rs. 211 14 annas 2 gundas.

3. The one-third share of eight annas thirteen gundas one kara and one kranti share in the paternal zamindari of mahal pargana Emadpur, with cutcherry house and all kinds of interests subordinate thereto, with the resumed lakhraj and brittee mahal belonging to the judgment-debtor within Collectorate tauzi No. 74 of district Jessore, sub-registry office and police-station Jessore and Manirampur, the annual Government revenue payable for this share of the estate being Rs. 1,048 13 annas 3 gundas, and for the whole 16 annas of the estate being Rs. 6,854-10-1-3 krantis.

4. The one-third share of seven annas six gundas two karas and two krantis of patni right in pargana mahal Emadpur, with cutcherry house, resumed lakhraj and brittee mahals and all kinds of interests subordinate thereto, belonging to the judgment-debtor, within Collectorate tauzi No. 74 of district Jessore, sub-registry office and police-station Jessore and Manirampur, the annual Government revenue for the entire 16 annas estate is Rs 6,854-10 1-3, and the patni rent for the seven annas six gundas two karas and two krantis payable to the malik zamindar, late Udoy Chand Addy, is Rs. 4,665-4, of which Rs. 1,521-12 is the rent for the judgment-debtor's share.

5. The five annas six gundas two karas two krantis share in the zamindari mahal Emadpur, pargana Doh Bhonjgati, with cutcherry house and all kinds of interests subordinate thereto, belonging to the judgment-debtor within Collectorate tauzi No. 40 of the district of Jessore, sub-registry office and police-station Jessore and Manirampur, the annual Government revenue for the entire sixteen annas of the estate being Rs. 2,285-11-7 of which Rs. 761-14-6-1-1 is the revenue for the judgment-debtor's share.

6. The five annas six gundas two karas and two krantis share of mahal Bazar Mohanganj, with cutcherry house and all kinds of interest subordinate thereto, belonging to the judgment-debtor, within taluk Emadpur within Collectorate tauzi No. 74 of the district of Jessore, sub-registration office and police-station Jessore.

7. The one-third share of the maurasi right and all kinds of interests subordinate thereto, with cutcherry house in mauza Jhinkergacha, junction Nagore Bazar Mackenzieganj, within the jurisdiction of police-station and sub-registry office Jessore, district Jessore, belonging to the judgment-debtor, having been purchased by his father, which originally stood in the name of Henry Mackenzie, the yearly maurasi rent of this jama being Rs. 406-9-0-2karas. Its boundaries are on the west Kabartakhya river; on the south Government road; on the east dák bungalow; and on the north village Krishnagore.

KALLY PROSONNO MUKERJI, Sub-Judge, 2nd Court.

(700—1)

PURNA CHANDRA BOSE,

For Exe. Engr., Nadia Rivers Division.

Berhampur, the 31st October 1892.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series, *including postage*, Rs. 22-8.

	Without postage.			With postage.		
	Rs.	A.	P.	Rs.	A.	P.

,, a part of the Calcutta Series purchased separately (*inclusive of postage in India*)	......			2	0	0
,, a part of each of the Madras, Bombay, and Allahabad Series purchased separately (*inclusive of postage in India*)	......			1	0	0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be suppilled to subscribers when required in place of copies lost in transit.

	For town.			For mofussil		
	Rs.	A.	P.	Rs.	A.	P.
For the Calcutta Series, per copy ...	0	8	9	0	10	3
,, each of the Madras, Bombay, and Allahabad Series, per copy ...	0	5	3	0	5	9
,, the Calcutta Series. For the year	7	2	6	8	6	3
,, each of the Madras, Bombay and Allahabad Series. For the year	4	4	6	4	11	

Persons desiring to subscribe for or purchase the Reports should apply to—

Superintendent, Government Press, Madras.
The Superintendent, Government Central Press, Bombay.
,, Curator of Government Books, North-Western Provinces and Oudh.
,, Superintendent of Government Printing, Bengal.

Orders and subscriptions for 1892 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

ADVERTISEMENTS will be received for publication on the wrappers of the Indian Law Reports, Calcutta Series, at the following rates, payable in advance—

	One page	Half page.	Quarter page.
For one issue ...	Rs. 20	Rs. 14	Rs. 9
,, three issues ...	,, 55	,, 36	,, 24
,, six ,, ...	,, 100	,, 68	,, 45
,, nine ,, ...	,, 145	,, 96	,, 64
,, twelve ,, ...	,, 180	,, 120	,, 80

SEVERAL volumes of the BENGAL LAW REPORTS, from August 1868 to December 1875, and FULL BENCH RULINGS, Parts I and II, are available at the following rates:—

	Without postage.			With postage.

Each of the Madras, Bombay and Allahabad Series ...	1	0	0	1	0	0

Notice.

NOTICE is hereby given that the terms for the purchase of publications from the Bengal Secretariat Press, except *for* Government offices or offices under the control of Government Officers are strictly cash and on no other terms will any publication be supplied, or advertisement, notice, &c., inserted in either of the Gazettes.

In the case of insolvency notices, cash must be sent with such notices when forwarded by Mofussil courts or offices, and for those forwarded by the Official Assignee cash must be paid on presentation of memorandum of cost by the Accountant and Treasurer, Bengal Secretariat.

Remittances in postage stamps should be accompanied by an addition of one anna in the rupee on account of discount.

☞ Applications for Acts of the Bengal Legislative Council required on the public service should be addressed to the REGISTRAR, Office of the Legislative Department, Government of Bengal.

Copies are available for purchase at MESSRS. THACKER, SPINK AND CO., Government Place, Calcutta.

Notice.

The 29th March 1886.—The subscription to, and postage for, the *Calcutta Gazette* will henceforth be at the following rates, payable in advance:—

Half ,, ,,	...	...	,, 10

Casual advertisements, 4 annas per line.

IT is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

THE following Weather Reports of the Bengal Meteorological Department, issued by orders of the Government of Bengal, can be supplied to the public at the prices annexed :

1st —Bay of Bengal Daily Report giving meteorological observations taken at 27 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Bay of Bengal Storm Signal Service. The report giving 8 A.M. observations of the day is distributed by peon in Calcutta soon after 11 A.M. Price to subscribers in Calcutta Rs. 2 per mensem.

2nd.—Bengal Daily Report containing observations taken at 45 meteorological stations in Bengal and Assam, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 8 A.M. observations of each day is printed in time for the evening mail, and is distributed to subscribers in Calcutta the same evening. This report for the present is only published during the south-west monsoon, *i.e.* from about May 15th to November 15th, orthereabouts. Price Rs 2-8 per mensem, including postage.

3rd —A Weekly and Monthly Statement of Meteorological Observations taken at 49 observing stations, and of rainfall recorded at 260 sub-divisional stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal, 5, Russel Street, Calcutta, for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

ALEX. PEDLER,
Meteorological Reporter to the Govt. of Bengal.

REVENUE DEPARTMENT.

REVISED ADVERTISEMENT.

A Dictionary of the Economic Products of India

BY DR. GEO. WATT, C.I.E.

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first five volumes of this work are now ready for issue, and intending subscribers are invited to register their names with the Superintendent of Government Printing, Calcutta.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets; &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal octavo pages; Vol. II embraces the letter C in 689 pages; Vol. III contains the letters D, E, F and half of G. Vol. IV latter half of G to middle of L; and Vol. V contains the latter half of L to end of "O." The whole work will, it is expected, be completed in seven volumes during the current year; but an eighth volume may also be issued consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index will practically be a Glossary of the vernacular and European names of the plants, animals and minerals of India, and as such will be a work of reference, which, it is hoped, may prove of considerable value.

The period of registration of subscribers' names having expired on the 1st October, the price will in future be in India Rs. 45 and in England 3 guineas, payable in advance, for the complete set (exclusive of the Index, for which a separate charge will be made). An extra charge for packing and postage will be made for the set—in India, at 8 annas per volume, and for England, at 2 rupees 6 annas per volume.

For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively will be charged extra for the whole sets.

No copies will be issued to non-subscribers till the work is complete, and no single volume will be sold separately.

Jeypore Enamels. Super royal, 4to. Rs. 30 (9a.)

Waste Lands in India, Rules for the Lease or Sale of, 1892. Fcap., boards. Rs. 2 (8a.)

PART III.

Acts of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

[Third Publication.]

THE following Act passed by the Lieutenant-Governor of Bengal in Council received the assent of His Honour on the 4th September, 1892, and having been assented to by His Excellency the Viceroy and Governor General on the 4th October, 1892, is hereby published for general information:—

ACT No. I OF 1892.

An Act to further amend the Village Chaukidari Act, 1870.

Preamble.

WHEREAS it is expedient to further amend the Village Chaukidari Act, 1870: It is enacted as follows:—

Construction and extent.

1. This Act shall be read with, and taken as part of, Bengal Act VI of 1870, as amended by Bengal Act I of 1871 and Bengal Act I of 1886; and it shall extend to all districts in which the said Act so amended is now or may be hereafter in force.

Definition of "Magistrate" omitted.
"District Magistrate" substituted for "Magistrate of the District" and "Magistrate."

2. (1) In section 1, the definition of "Magistrate" shall be omitted.

(2) Except as is otherwise provided in this Act, for the words "Magistrate of the District" and for the word "Magistrate" so often as they occur respectively, in the Village Chaukidari Act, 1870, as amended by Bengal Act I of 1871 and Bengal Act I of 1886; the words "District Magistrate" shall be substituted.

(3) In section 64, the words "and Magistrates" shall be omitted; and for the words "Magistrates of Districts," the words "District Magistrates" shall be substituted.

3. For section 3, as amended by section 2 of Bengal Act I of 1886, the following shall be substituted:—

Appointment of panchayats.

"The District Magistrate may—

"(*1*) by an order in writing, appoint not less than three nor more than five residents in any village within the district of which he has charge to be the panchayat thereof;

or (*2*) he may, with the previous sanction of the Local Government, direct that the adult male rate-paying residents of any village shall select, according to any rules that may be prescribed by the Local Government and published in the *Calcutta Gazette*, not less than three nor more than five residents of the village to be the panchayat thereof; and the District Magistrate shall, if he approves of the persons so selected, appoint such persons to be the panchayat; but if in his opinion any person so selected is, for reasons to be recorded by him in writing, unfit to be a member of the panchayat, the District Magistrate shall appoint a fit and proper resident to be a member of the panchayat:

Provided that no panchayat shall be appointed in any place to which the Bengal Municipal Act, 1884, has been, or may hereafter be, extended:

Provided also that the Local Government shall be entitled to prescribe that in certain specified local areas, to be notified in the *Calcutta Gazette*, the number of persons to be appointed to discharge the duties of a panchayat may be reduced to one.

4. After section 3 the following section shall be inserted :—

"3A. The District Magistrate may from time to time by an order in writing, with the sanction of the Commissioner, delegate his powers under this Act, either wholly or in part, to any Magistrate of the first class subordinate to him, or to any Magistrate in charge of a Sub-division or to the District Superintendent of Police; and by a like order, and with the same sanction, may withdraw such delegated powers."

Delegation of powers by the District Magistrate.

5. For section 4, the following shall be substituted :—

"The District Magistrate may, from time to time, by an order in writing under his hand, declare any local area or group of dwellings, within the district of which he has charge, to be a village for the purposes of this Act."

Power to define a village.

6. In section 5, the words "or in two or more villages so situate as in section 4 is set forth;" and the words "or villages," so often as they occur in this section, shall be omitted.

Amendment of section 5.

7. For section 11, the following shall be substituted :—

"The District Magistrate shall determine the number of chaukidars to be employed in a village :

Number of chaukidars to be determined by the District Magistrate.

Provided that, without the sanction of the Commissioner, there shall not be more than one chaukidar for every sixty houses."

8. For section 12, the following shall be substituted :—

"The salaries of chaukidars appointed shall be determined by the District Magistrate :

The District Magistrate to determine salaries of chaukidars.

"Provided that such salaries shall not be less than two nor more than six rupees per mensem."

9. For section 13, the following shall be substituted :—

"The panchayat shall impose an assessment yearly in each village equal to the amount required for the pay and equipment of the chaukidars, together with fifteen per cent. above such amount, in order to provide for payment of the expenses of collection and losses from the non-realization of the rate from defaulters."

Salaries to be provided by assessment.

10. For section 14, the following shall be substituted :—

"All owners or occupiers of houses in any village, and any person who has within such village a cutcherry for collecting rents, shall be liable to assessment for the purposes of this Act."

Persons liable to assessment.

11. For section 35, the following shall be substituted :—

"(1) The panchayat shall, when a vacancy exists, nominate a person to be a chaukidar under this Act, and the District Magistrate shall, if satisfied with such nomination, appoint such nominee to be chaukidar :

Appointment and dismissal of chaukidar.

Provided that if the panchayat fail to nominate within a reasonable time a person to be a chaukidar, or the District Magistrate is not satisfied with such nomination, the District Magistrate shall appoint any person he thinks fit to be a chaukidar.

"(2) The District Magistrate, or the panchayat with the sanction of the District Magistrate, may, from time to time, dismiss any chaukidar so appointed."

12. Sections 36 and 37 are hereby repealed.

13. For section 39, the following shall be substituted :—

"Every chaukidar appointed under the provisions of this Act shall perform the following duties :—

Duties of chaukidar.

1st.—He shall give immediate information to the officer in charge of the police-station within the limits of which the village is situate of every unnatural, suspicious or sudden death which may occur, and of any offence specified in Schedule B which may be committed within his village, and he shall further keep the police informed of all disputes which are likely to lead to any riot or serious affray.

2nd.—He shall arrest all proclaimed offenders and any person who in his presence commits any offence specified in Schedule B, and any person against whom a hue-and-cry has been raised of his having been concerned in any such offence, whether such offence has been or is being committed within his village or outside of it, and shall, without delay, convey any person so arrested to the said police-station.

3rd.—He shall, to the best of his ability, prevent, and may interpose for the purpose of preventing, the commission of any offence specified in the said schedule.

4th.—He shall assist private persons in making such arrests as they may lawfully make, and shall report such arrests without delay to the officer in charge of the said police-station.

5th.—He shall observe, and, from time to time, report to the officer aforesaid the movements of all bad characters within his village.

6th.—He shall report to the officer in charge of such police-station the arrival of suspicious characters in the neighbourhood.

7th.—He shall report to the officer aforesaid, in a form signed by one member of the panchayat, the births and deaths, if any, which have occurred within his village at such intervals as the District Magistrate may determine.

8th.—He shall report to the officer aforesaid the death or absence for more than two consecutive months of any member of the panchayat.

9th.—He shall supply any local information which the District Magistrate or any officer of police may require.

10th.—He shall obey the orders of the panchayat in regard to keeping watch within his village and other matters connected with his duties as chaukidar.

11*th.*—He shall assist the person collecting the rate in making such collection."

14. For section 42, the following shall be substituted :—

"All fines and penalties levied under this Act shall be credited to a District Chaukidari Reward Fund, the control over which shall rest with the District Magistrate."

Fines and penalties to be credited to District Chaukidari Reward Fund.

15. In section 43, for the words "or person as the Magistrate shall appoint," the words "as the Local Government may by rules made under this Act prescribe or direct," shall be substituted.

Amendment of section 43.

16. In section 44, for the words "as the Magistrate may appoint," the words "as the Local Government may prescribe or direct," shall be substituted.

Amendment of section 44.

17. For section 46A, the following shall be substituted :—

"The District Magistrate may at any time, on the application of the panchayat of any village, or of his own motion if, in his opinion, the collection of the rate is badly carried out, or if the chaukidar is not regularly paid, appoint a tahsildar to assist the person collecting the rate; and such tahsildar shall exercise all the powers vested in the panchayat for the collection of the said rate; and the District Magistrate shall, on a like application, and he may of his ow[n] motion, revoke such appointment."

Appointment of tahsildar.

18. For section 62, the following shall b[e] substituted :—

"All powers vested in the panchayat f[or] the nomination and dismiss[al] of chaukidars and for makin[g] the assessments hereinbefor[e] directed to be made may, i[n] case the panchayat, after a notice in writing fro[m] the District Magistrate to exercise such powers or any of them, refuse or, after the lapse of [a] reasonable time in that behalf, neglect forthwit[h] to exercise the same, be exercised by the Distric[t] Magistrate.

Powers of the panchayat may be exercised by the District Magistrate.

19. For Schedule B, the following shall b[e] substituted :—

"SCHEDULE B

(referred to in sections 39 and 41).

Offences to be reported and for which [a] chaukidar may arrest.

Murder, culpable homicide, rape (when th[e] offender is not the husband of the woma[n] raped), dacoity, robbery, theft, mischief by fir[e] house-breaking, counterfeiting coins, causin[g] grievous hurt, riot, administering stupefyin[g] drugs, kidnapping, and all attempts and preparations to commit, and abetments of the sa[id] offences."

CALCUTTA;
The 18th October 1892.

RESOLUTION ON THE REPORT ON THE ADMINISTRATION OF THE EXCISE DEPARTMENT FOR THE YEAR 1891-92.

FINANCIAL DEPARTMENT—SEPARATE REVENUE.—No. 623T—F.

Darjeeling, the 22nd October 1892.

RESOLUTION.

READ—

The report of the Commissioner of Excise for 1891-92, with the observations of the Board of Revenue thereon.

Excise Commissioner.—Mr. Westmacott held the office of Excise Commissioner throughout the year, with the exception of the period from 6th July to 14th November, during which he acted as Commissioner of the Presidency Division, his place being taken by Mr. Krishna Govinda Gupta. Excluding the Durga Puja holidays, when Mr. Gupta was in Darjeeling, these two officers spent between them 143 days on tour and visited 43 districts, all the districts of the Patna Division being inspected twice. Mr. Westmacott thinks the cold season a bad one for tours of inspection, as Collectors are then out in camp and beyond reach of consultation. But what the department most wants from its executive head is constant inspection of distilleries and offices in order to see how rules work and how orders are obeyed. That can best be done in the cold weather.

2. *Subordinate staff.*—Special Excise Deputy Collectors were employed in eighteen of the larger districts during the year. A proposal was made to appoint Excise Sub-Deputy Collectors to smaller charges, so that every district should have a special excise officer—Deputy or Sub-Deputy. The Lieutenant-Governor, however, does not feel satisfied that in most districts the staff is so overworked that it cannot spare half the time of a Deputy Collector for excise work, *i.e.*, one for combined excise and income-tax work, which is the distribution of work generally prevalent. If judicial work is so heavy that officers cannot get away from head-quarters for the touring necessary for successful excise administration, then alone can the appointment of a special officer of the Subordinate Executive Service for excise work be justified. And even then it requires to be shown that there is sufficient work for such an officer. In paragraph 154, Mr. Samuells records the number of days spent on tour by each of these Special Deputy Collectors, which has generally been about 120 days, or 10 days in a month. In all probability these officers could be employed in other work while at head-quarters, and could be utilised in local enquiries into other questions while on tour. The Commissioner does no doubt make it his business to see that they are fully and intelligently employed, but the Lieutenant-Governor would like to have more information on this subject embodied in the next report. Another branch of the department which has been much strengthened during the year has been the supervision of central distilleries, most of which are under Sub-Deputy Collectors or else under Superintendents on pay not less than Rs. 50. The principle is a sound one, but care should be taken that it is not overdone by the appointment of too expensive men to such small distilleries as those noted in the margin, where the average outturn is between six gallons and twenty gallons a day. It is poor work to have a highly paid officer and a large establishment kept to supervise the management of two or three stills worked twice a day. Two Deputy Collectors were appointed as Inspectors of Excise to assist the Commissioner in district inspections. These officers between them made 47 inspections of district offices, 49 of sub-divisions, 88 of central distilleries, 27 of spirit depôts, 60 of gánja and siddhi warehouses, 27 of outstills, and 218 of excise shops, although their appointments did not take effect until July and August 1891.

District.		Total number of gallons issued.

3. *Financial results.*—The following statement illustrates the excise revenue and expenditure of Bengal for the last five years:—

Period.	Revenue.	Charges.	Net revenue.	Percentage of charges.
	Rs.	Rs.	Rs.	
1887-88	1,08,62,037	4,22,608	1,04,39,429	3·7
1888-89	1,08,88,973	4,32,765	1,04,56,208	3·8
1889-90	1,04,73,431	5,31,382	99,42,049	3·9
1890-91	1,04,60,932	6,47,112	98,13,820	6·1
1891-92	1,11,29,810	6,67,520	1,04,62,290	5·9
Difference of the past two years	+ 6,68,878	+ 20,408	+ 6,48,470	—·2

Comparing the financial results of the past year with those of 1890-91, it will be seen that a decline of revenue, amounting to Rs. 12,499, has been followed by an increase of Rs. 6,68,878, while the charges have risen by Rs. 20,408 as against an increase of Rs. 1,15,730 in 1890-91. Compared with the budget of the year, the revenue exceeds the orginal estimate by Rs. 6,29,810, and the revised estimate by Rs. 1,79,810, while the expenditure is less than the final estimate by Rs. 13,480. Among items of increase the chief are Rs. 18,359 due to the appointment of two Inspectors of Excise; Rs. 5,999 under travelling allowance owing to greater activity on the part of inspecting and detective establishments; and Rs. 12,073 under rewards, attributed to the larger number of cases detected, to the heavier fines imposed, and to the more liberal rewards granted. The reduced charge of Rs. 23,415 under petty construction means that no new distilleries were built during the year.

4. *Revenue classified.*—The fluctuations in the revenue derived from various exciseable articles are compared in the following statement:—

Articles of Excise.	Revenue.					1891-92 compared with 1890-91.	
	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.	Increase.	Decrease.

Total ...	1,08,62,037	1,08,88,973	1,04,73,431	1,04,60,932	1,11,29,810	6,96,409	27,531
					Net increase ...	6,68,878	

Revenue has risen under all heads except imported liquors, chandu and gánja, the net result being an increase of Rs. 6,68,878 as compared with a net decrease of Rs. 12,499 in the previous year. Taking the duty-paying population at 71 millions, as shown in Appendix B, which excludes the Tributary States, the average incidence of the excise revenue is two annas six pies per head.

5. *Current settlements.*—Notwithstanding the scarcity, sickness, and high prices which prevailed in parts of Bengal during last March and April, the excise settlements for the current year have yielded a rise of revenue throughout the Province from Rs. 56,20,425 to Rs. 61,71,631, or Rs. 5,51,206. Compared with 1890-91, the revenue of the current year promises to give an increase of Rs. 9,13,794. There was a decrease in only three districts. In Purnea it amounted to Rs. 30,478, and is attributed to the raising of the minimum retail price from two to three annas per reputed quart; in Malda the loss of Rs. 12,056

is said to be owing to the fact that the rate of duty per gallon had gradually become unduly high; and in Dinajpur the high prices of food-grains are supposed to be answerable for a reduction of Rs. 6,278. Meanwhile settlements are still progressing, and a further increase is anticipated.

6. *Country spirits.*—The following tables illustrate the growth of the revenue from country spirits during the last two years under the outstill and sadar distillery systems:—

A.—OUTSTILL REVENUE.

Total ...	1,303	1,149	7,40,858	7,59,367	16,37,254	15,50,123	57,508	55,008	24,35,620	23,64,498

The revenue from outstills rose from Rs. 20,92,642 to Rs. 24,50,145, being an increase of Rs. 3,57,503, but this was to some extent counterbalanced by a fall in the distillery revenue from Rs. 24,35,620 to Rs. 23,64,498. The net increase since last year amounted therefore to Rs. 2,86,381, the total revenue from country spirit being higher than in any year since 1888-89.

The number of outstills advanced from 1,722 to 1,770, or by 2·7 per cent., while at the same time the number of shops for the sale of central distillery liquor fell from 1,303 to 1,149, or by 11·8 per cent., and the consumption from 877,048 gallons to 814,432 gallons. Table V in the Report, giving the revenue from country spirit, should in future be arranged in the manner indicated above, so as to show distillery areas and outstill areas separately.

7. In the Burdwan Division the distillery revenue has remained stationary, while the outstill revenue has risen from Rs. 2,383 to Rs. 23,342 in Bankura and Midnapore, where outstills were re-introduced into certain sparsely populated tracts in April 1891. The division therefore shows a small increase of revenue and a decrease of 6,007 gallons in distillery consumption. In Burdwan district itself there was a decline, most marked in the Raniganj sub-division, where the demand is for a cheap and weak liquor. The licensees of the Raniganj shops import from Burdwan strong mahua spirit at 25 under-proof, and dilute it with water: this is believed not to suit the taste of consumers as well as a liquor which is distilled weak, and induces them to resort to the cheaper pachwai, and has probably also encouraged illicit distillation. If the local demand were met by local manufacture, cheap and weak liquor could be supplied from

a distillery as well as from an outstill, but the low strengths will not stand carriage and will not keep, and when it is necessary to transport and store liquor, the sadar distillery system fails to meet the wants of outlying localities. It seems doubtful, however, whether the distance from Burdwan to Raniganj is sufficient to cause the imported spirit to deteriorate, and a moderate reduction in the stillhead strength may get over the difficulty. The Collector has been asked to consider this point.

8. The Collector of Birbhum is of opinion that the country spirit which pays duty is but a small fraction of the quantity actually consumed. He avers that "illicit distillations are carried on by rich and influential men, and the excise officers are unable to do anything," and recommends that there should be a strong and special detective and preventive police force like that in Madras. The Lieutenant-Governor is quite prepared to strengthen the detective force if it can be shown that it will be really useful to do so; but he doubts if any good would be done by such an increase, for at present the special officers who have been appointed seem hardly able to find enough work to do to justify their existence. In excise as well as in salt administration there will always be a tendency for influential men to escape untouched, while poorer offenders are brought to justice; but if illicit distillation were so common in Birbhum as Mr. Grant wishes to make out, there would surely be more than nine cases detected during the year. Burdwan and Bankura show respectively 22 and 28 convictions for this offence.

9. In the Presidency Division, where there are no outstills, the revenue fell from Rs. 14,60,180 to Rs. 13,98,246, and the consumption from 256,524 gallons to 239,151 gallons, the largest decrease of revenue occurring in Calcutta (Rs. 35,967) and the 24-Parganas (Rs. 15,006), where the consumption fell by 10,569 gallons and 3,855 gallons respectively. In both cases the falling off is ascribed to the increased consumption of rum which is encouraged by the low-rate of duty (Rs. 4 per gallon London-proof against Rs. 5 for country spirits) levied on it, and by the privilege granted to country spirit vendors to sell rum under their license. In neither case are the facts very clear. As to the sale of rum and country spirit under one license, Mr. Samuells writes as if the license fee was paid for the country spirit only, and its incidence fell only on that spirit instead of on both classes. It seems doubtful whether the revenue would have gained more if dealers had been compelled to take out separate licenses for the retail sale of rum, while shops and temptations to drink would certainly have been multiplied. Again, the distribution of the consumption of rum is not accurately known. What is imported in bond is credited to Calcutta, though much of it is afterwards re-exported to the adjoining districts: for instance, Table VI shows no consumption of rum in the 24-Parganas, though it is stated that some country spirit shops sold nothing but rum. Of the rum which is imported from Shahajanpur after paying duty in the North-Western Provinces, the distribution is not recorded. The import of this class of rum was 37,842 gallons against 27,340 gallons in the previous year, and besides this the rum which paid duty in Calcutta exceeded the quantity of the previous year by 25,110 gallons. The duty on rum, it is true, stood at a lower figure than the duty on country spirit during 1891-92; but since the opening of the current year both have been taxed at the same rate. Pending the complete equalisation of the conditions under which country rum, country spirit, and imported liquor compete in the Calcutta market, it is difficult, if not impossible, to say precisely which of the three is gaining most ground in popular estimation. The returns, so far as they go, make for the opinion that in Calcutta at any rate, and some of the adjoining districts, country rum is encroaching both on imported spirit and on country spirit. Some of the district reports refer distinctly to the growth of the trade in rum as a cause of the decline in the revenue from country spirit. It seems strange that in places like Khulna, Nadia, and Murshidabad the Shajahanpur product, weighted as it is by a long freight, can undersell country liquor, but if it does there is no loss to the State so long as the two pay the same duty as they now do. The impression that loss is caused arises perhaps from the mistake made by throwing the incidence of the license fee and duty on the country spirit alone, and not on it and rum combined. Whatever loss of revenue there may have been is more probably

due to the influx of illicit liquor. Thus five factors come into play—outstill liquor, distillery liquor, country rum, imported spirit, illicit liquor—and variations in revenue depend on the fluctuations in public taste between these various articles, subject always to the law that the cheaper liquor tends to drive out the dearer.

10. For excise purposes the districts of Purnea and Malda, belonging to Bhagalpur, may conveniently be classed with the districts of the Rajshahi Division. The revenue of the group thus formed rose during 1891-92 from Rs. 4,96,600 to Rs. 5,24,592, the estimated consumption falling at the same time from 187,785 gallons to 176,998 gallons, and the number of outstills being reduced from 390 to 375. In Dacca the distillery system prevailed, and revenue fell from Rs. 2,11,699 to Rs. 2,05,172, owing, it is alleged, to increased consumption of rum and imported liquor among the respectable classes in Dacca and Mymensingh. Chittagong shows an increase of outstill revenue from Rs. 31,994 to Rs. 34,084; but owing to the number of puritan Muhammadans among the population, very little spirit is consumed in the division. For excise purposes the Patna Division may be taken to include the districts of Monghyr, Bhagalpur, and Hazáribágh, in which the dual system of administration continues in force. The outstill revenue of the tract rose from Rs. 11,77,443 to Rs. 14,05,808, while the distillery revenue fell from Rs. 3,50,570 to Rs. 3,45,523, and the consumption from 415,798 gallons to 384,956 gallons. Bad harvests, high rates of duty and distillery fees, high upset prices, reduced consumption, and restrictions imposed upon the abkars, are the principal causes assigned for this falling off. Many people are said to have been driven to drink *tari* by the high prices of distillery liquor. In Saran a temperance movement was started by the leading members of the Biyahub sub-caste of Kalwárs, who do not allow widows to marry and will not drink or sell alcoholic liquor. Their example was followed in Monghyr by the Anjumán-i-Islám and Káyasth Associations. The Sonthal Parganas with five small distilleries at the head-quarters of sub-divisions shows a rise in distillery revenue from Rs. 60,515 to Rs. 63,288, accompanied by a decline in the number of shops from 99 to 94, and a decrease of 1,728 gallons in the consumption of distillery liquor. No less than 163 persons were convicted of illicit distillation, and it is believed that weak contraband liquor is consumed on a large scale owing to the poorer classes not liking the strong spirit issued from the distillery. In Orissa the revenue fell from Rs. 38,195 to Rs. 36,799. The fall was confined to Cuttack, where outstill liquor is said to be smuggled from the Tributary States. The other districts show a slight increase of revenue. It is a question whether in parts of this division outstills might not with advantage be reintroduced. In Chota Nagpur the distillery system is in force only in a limited area. The revenue from this source rose from Rs. 17,664 to Rs. 18,228. In the outstill area revenue advanced from Rs. 5,20,818 to Rs. 6,04,640, owing to the settlement of outstills at enhanced fees. In the Resolution on the Divisional Report, notice is taken of the remarkable fact that in this division the revenue from country spirit alone is double the amount of the land revenue.

11. *Incidence of taxation on country spirit.*—In order to illustrate the conclusions drawn by him from the foregoing facts, the Officiating Excise Commissioner has calculated and shown in the statement forming Appendix I (page lxx) of his report the incidence of the total taxation per London-proof gallon imposed on distillery liquor in different parts of Bengal by the operation of the rules now in force. The totals there entered are made up of three factors: (i) the duty payable under section 18, Bengal Act VII of 1878, at rates varying in different districts from Re. 1-8 to Rs. 5 per gallon London-proof; (ii) the distillery fee of one anna per gross gallon of liquor distilled, levied without reference to strength, under the Board's orders, as a contribution to the cost of distillery establishments and as rent for the use of the premises; (iii) the license fee for retail sale, settled yearly by competition at public auction, subject to a minimum fixed by the Excise Commissioner, under the orders of the Board, with reference to the average fees paid during the last three years. Mr. Samuells shows that while the incidence of the duty proper per London-proof gallon ranges from Re. 1-8 in the Sonthal Parganas to Rs. 5 in the districts near Calcutta, the incidence of

the total taxation has been raised by the excessive competition for licenses to sums varying from Rs. 3-0-3 in Patna to Rs. 9-5-9 in Nadia. In this calculation, as already remarked, an element of error exists, in that the incidence of the license fee is laid only on the country spirit turned out from the distillery, and not also on the rum which the retail vendor sells, at least in certain districts, under the same license. The cost of production of a gallon of London-proof spirit is stated (in paragraph 70) to be about 8 or 10 annas. The high prices which the licensed vendor is compelled to charge for distillery liquor are, it is alleged, reducing consumption and driving people to drink illicit liquor, by supplying which the vendor recoups himself for the loss he sustains on his licit operations. Thus the revenue suffers, while the cause of temperance is not advanced, for people drink as much as before, although only a decreasing proportion of what they consume pays dues to Government.

12. *Its alleged consequences.*—The Officiating Excise Commissioner makes no definite proposal for correcting these alleged evils. In one place (paragraph 70) he throws out the suggestion that Government should "put some restraint on prices at auction;" in another he hints at abolishing central distilleries and reverting to the outstill system. The former suggestion seems impracticable. Auction price is a true economic rent. It is the value of a certain locality for sale purposes, above that of a locality where receipts would only just cover expenses. To take arbitrarily less than this rent would be to throw revenue away. The second suggestion is at present premature. It may be admitted that the statistics given in Appendix I show that the auction price of licenses, and by consequence the selling price of distillery liquor, has been forced up very high, but it has not yet been proved that the effects glanced at in the report will necessarily follow. The distillery system cannot be abolished on the strength of a hypothesis. The Board should watch the tendencies referred to by Mr. Samuells, and deal with the whole subject in a special report.

13. There are six subjects on which the Lieutenant-Governor has during the year expressed, either in inspection notes or in Government orders, a decided opinion as to defects which exist and changes which are required in the working of the Excise Department as regards country spirit; but all of these instructions appear to have escaped the notice of the Officiating Excise Commissioner. These subjects are—

(1) The restriction of still and vat capacity in outstills.
(2) The system of fixing the duty on liquor according to its exact strength as measured by the hydrometer, compared with the system of issuing it at fixed strengths.
(3) The system of fixing minimum prices of retail sale.
(4) The rates of distillery fees.
(5) The desirability of distilling weak liquor at the Government distilleries.
(6) The failure of the attempt made in Bihár, under the orders of the Board, to raise the license fees of outstills on a purely theoretical basis of calculation.

14. As to the first point, the Lieutenant-Governor, when inspecting the Motihari outstills, showed that the restriction of the still and vat capacity, excellent though it was in principle, had been carried out in an unintelligent way, and had practically no effect whatever, as the limit was fixed far above the real wants of the shop. Mr. Samuells, in his 44th and 67th paragraphs, writes as if the principle was working effectively: and cannot have read the inspection note referred to, or the Government order of 2nd December 1891 based on it.

15. With regard to the second point, the Officiating Excise Commissioner in paragraph 38 takes exception to the practice of issuing liquor from distilleries at fixed strengths made up by blending the day's distillations. The grounds of his objection are not clearly stated; and as he says (paragraph 72) that he has never heard a good word said in favour of the system, he cannot have read the Government order of 19th March 1892, in which that system was definitely approved and prescribed. But no doubt the system of fixed strength is more suited to low distillations than to high, where a degree or two may make a

considerable difference in the rate; and if the system is enforced without discretion it must break down. In the case mentioned by the Excise Commissioner, the principle was misunderstood, and it seems to have been thought that the intention was to compel the distiller to distil at a certain strength, not merely to pay duty on a certain strength. If, for instance, a distiller wishes to take out liquor at 19° under proof, and pays for 18° under proof, he should be allowed to do so, and not compelled to bring his liquor up to 18°. The object of the system is to avoid that minute inteference which always tends to oppression and corruption.

16. The third point is discussed by Mr. Samuells in his 39th paragraph, without apparently noticing that the Lieutenant-Governor (in his Monghyr inspection note and elsewhere) had challenged the system of fixing minimum prices and expressed doubts as to its utility. In another place, however (paragraph 148), he observes that the price of distillery liquor must always be higher than that of outstills to cover the heavier cost of production; but there is no reason why it should cost more to distil in a Government building than anywhere else; and even if it were so the price should not be raised artificially by the imposition of an increased minimum price. Even the scale suggested in paragraph 39, based on alcoholic strength, is open to this criticism, as it fixes the price of liquor 90° under proof at one anna a gallon, which is less than that ordinarily paid by Bihár. Attempts to raise this must be futile. But broadly speaking the system seems objectionable in that it involves minute interference, and that the orders given cannot be efficiently carried out. In his 72nd paragraph Mr. Samuells adopts the same view, and desires the abolition of the system.

17. The fourth point was suggested by a very useful note recorded by Mr. Krishna Gobinda Gupta on the experience he gained while officiating as Commissioner of Excise. A reference to Table B in paragraph 6 above will show how little relation there is between the quantity of liquor distilled and the distillery fee. Over the whole Province the distillery fees amounted to Rs. 55,008 on spirits paying Rs. 15,50,123, or nearly 3·6 per cent.; in the Patna Division they amounted to Rs. 24,156 on a still-head duty of Rs. 1,66,539, or nearly 15 per cent.; thus raising the duty per gross gallon from 7 to 8 annas. It is clear that the fee should be modified so as to bear some relation to the quantity and strength of the liquor distilled.

18. The fifth point, again, has hardly been noticed in the Excise Report, though the Lieutenant-Governor has insisted upon it on many occasions, and considers it more important than any other reform which is required in the department. He is a hearty supporter of the central distillery system, the essence of which is that every gallon of liquor distilled should pay duty to the State, as opposed to the outstill system under which the more the liquor distilled the less the duty paid. But he strongly condemns the idea that the introduction of the Government distillery system should be followed by the introduction of stronger liquor than the people have been in the habit of drinking. Worked in this way, a system which is advocated on principles of temperance as well as of sound finance becomes an instrument making for the spread of drunkenness. Sir Charles Elliot desires that the Excise Commissioner will enforce this principle, and insist on the distilling (as a general rule) of no stronger liquor than is made at the outstills and generally consumed by the people, subject to the condition that it must be strong enough to carry to the shops where it is to be sold.

19. An illustration of the sixth point was afforded by the facts ascertained on an inspection of the outstills at Motihari. Here much time had been wasted in elaborate attempts to raise the monthly fee paid by the abkar to a rate of Rs. 2-8 per gallon London-proof on the theoretical produce of the raw materials used. But inquiry showed that the theory had not been and could not be worked up to, that the assumed duty was never realised, and that the whole process merely resulted in reducing the number of outstills, concentrating them in fewer hands, and thus giving a bonus to an abkar who had leased one shop and had got a double area and a larger share of custom attached to it.

20. *Country rum.*—The revenue from country rum rose from Rs. 98,383 to Rs. 2,29,972, or by Rs. 1,31,589, and the consumption from 41,117 gallons to 77,483 gallons.

The following table gives full particulars of the quantities and sources of the rum and the duty paid:—

Sources.	1890-91. Gallons.	Duty.	Rate.	1891-92. Gallons.	Duty.	Rate.
		Rs.	Rs. A. P.		Rs.	Rs. A. P.
Aska ...	9,360	49,696	5 4 11	17,184	93,141	5 6 6
Sibpur ...	4,417	24,168	5 7 6	16,755	85,516	5 1 8
Shahjahanpur ...	..	7	...	5,702	30,001	5 4 2
Total ...	13,777	73,871	...	39,641	2,08,658	...
Total duty paid in North-Western Provinces ...	27,340	...	...	37,842	...	...
Total ...	41,117	...	...	77,483	...	...

It will be observed that for the first time 5,702 gallons were imported under bond (4,948 by private vendors to Calcutta, and 754 by Messrs. Carew, and Company to Dacca) and paid duty in Bengal. It is also noticeable that the country rum is a very strong spirit, and it paid over Rs. 5 per gross gallon, while the duty on London-proof was only Rs. 4. The destination to which the rum was consigned was as follows:—

	1890-91.	1891-92.
	Rs.	Rs.
Assam	12,521	5,653
Bengal	10,510	12,693
Elsewhere	539	207
Calcutta	17,547	58,176
Untraced	...	754
Total ...	41,117	77,483

The "untraced" amount shows consignments direct to consumers in the mufassal. These figures, however, conflict with those given in paragraph 26 of the Board's covering letter, which are supplied by Messrs. Carew, according to which the quantity supplied from Shahjahanpur to consumers in Bengal is not 43,544 gallons as above, but 63,265, of which 59,874 gallons were sold in Calcutta and the rest in other stations. This discrepancy will be separately enquired into.

21. The increase is shown mainly against Calcutta, and is described by the Officiating Excise Commissioner as indicating "that the balance as between rum and country spirit has not been fairly maintained, and the latter has given up the competition." This, however, is much too strong a description of what occurred; for of the 58,176 gallons consigned to Calcutta, about 20,000 gallons were re-exported to the adjoining districts, the actual consumption in that town being, according to Table VI, 38,887 gallons. What really occurred, therefore, was a decrease of about 10,000 gallons or 5 per cent. of country spirit and an increase of about 25,000 gallons of rum. Referring to the increase in the duty on rum from Rs. 4 to Rs. 5, which took place at the close of the year, the Commissioner observes that although this will check consumption, rum "will always be able to undersell country spirit, as the cost of production of country spirits under our distillery system, and also naturally, is much higher." The Commissioner's argument appears to be vitiated here again by the error of assuming that the license fee falls solely on country spirit, though the license is for selling either that spirit or rum. It is not understood how the cost of producing rum and the freight from Shajahanpur can be less than the cost of producing country liquor. The former is believed to cost about Re. 1-6 per gallon exclusive of duty, and the latter about eight to ten annas. If country rum is dearer, ex-duty, than country spirit, it can only compete with that spirit because it is more popular with a certain class of consumers who will pay higher for the liquor they prefer. As a matter of fact, the Lieutenant-Governor is informed that country spirit sells in Calcutta for Re. 1-2 per bottle, or Rs. 6-12 per gallon, while the selling price of rum is only 15 annas per bottle, or Rs. 5-10 per gallon. Further observation is necessary in order to clear up the relations

of the two kinds of liquor, and no general conclusions can be ventured on at present.

22. *Imported liquor.*—The revenue from the licenses to sell imported liquor fell from Rs. 2,31,095 to Rs. 2,23,644, and the number of licenses from 816 to 779. These statistics accord with those given in the Customs Report for 1891-92, which show a decline in the imports into Calcutta of all beer and porter from 732,827 gallons to 688,953 gallons, of spirits from 319,844 gallons to 291,967 gallons, and of wines and liqueurs from 124,176 gallons to 121,286 gallons. The Collector of Customs attributes this decrease to the high rate of import duty, Rs. 6, as compared with the excise on spirit produced in this country. There are, however, no statistics to show what portion of this import is consumed in Calcutta and how much is sent upcountry. It was noticed in the Resolution on the Calcutta Customs Report that the average silver price of imported spirits, in spite of the fall in the value of silver, is continually decreasing. On this subject the Officiating Excise Commissioner makes the surprising assertion that whisky is shipped free on board from Glasgow for three shillings a dozen, and can be placed on the market, after paying a duty of Rs. 6 a gallon, at Rs. 9 a dozen. The Collector of Customs, however, to whom a special reference has been made, says that importations at so low a rate are absolutely unknown. The statement quoted requires explanation.

23. The number of licenses now given for the different kinds of sale of imported liquor, and the revenue they bring in, are as follows:—

	Number of licenses.	Average cost.
		Rs.
Wholesale	209	50
Retail, Hotel	54	218
Do., Railway refreshment-room ...	24	156
Do., Steamers	13	60
Do., General	479	410
Total ...	779	

Of these 779 licenses, 469, or considerably more than half, are given in Calcutta. The rates for those licenses which are not put up to auction are under revision, and orders have already issued to raise the rates for wholesale licenses from Rs. 50 per annum to Rs. 50 per mensem from the 1st April 1893.

24. *Tari.*—The revenne from *tari* rose from Rs. 8,45,586 to Rs. 9,57,405, and the number of licenses from 16,552 to 16,920. The greatest increase occurred in Patna, and is said to be due to the issue of licenses in consideration of the number of trees tapped or the quantity of *tari* sold. The Collector says that in former years—

"a passee could without any difficulty hire or possess himself of as many palmyra and date trees as he liked, but he could not at the same time, without much difficulty, refuse the license of a shop saddled with a high license fee, and obtain a small shop at a small fee where he could sell the whole *tari* produce. The only remedy for this state of affairs was registration of tari trees and the limitation of the number of tappers allowed to each passee."

It seems, however, to the Lieutenant-Governor that the mode of sale has not been really much changed. Formerly a passee bid for a particular shop as such. Now he bids for he right of selling at a particular shop the *tari* collected from so many palmyra and date trees, which he describes as situated in such a mahal or holding. The excise officer, if he cannot get a better offer, accepts this and divides the amount over the number of trees in a mechanical way; the rate per tree varying in different places according to the number of each kind of tree included in the area covered by the shop. This is, however, a purely paper arrangement, and differs materially from the plan of charging a fixed and arbitrary rate per tree proposed by Mr. Westmacott last year. It is doubtful whether much progress can be made towards working out a system of tree tax, until the number of trees has been actually recorded in definite areas by survey and the trees marked and numbered. Mr. Samuells is probably right in the arguments he uses in paragraph 96 to prove that Government should not expect the income from *tari* to increase suddenly and largely. "The amount of money," he says, "spent on *tari* from year to year cannot increase

merely on the introduction of a tree tax. It is possible, however, that people will pay a little more rather than abandon a favourite article of consumption, and thus that the revenue can be screwed up little by little year after year."

25. *Pachwai.*—The revenue from pachwai rose from Rs. 2,72,288 to Rs. 3,04,165, and the number of licenses from 2,660 to 2,781. This increase of 11·7 per cent. is attributed to the settlement of shops at enhanced rates of license fees, and to the gradual development of the system of granting licenses for brewing pachwai for home consumption.

26. *Gánja.*—The gánja revenue fell from Rs. 23,11,713 to Rs. 22,92,568, and the consumption from 6,095 to 5,677 maunds. A great rise took place in the price of gánja owing to a very short crop: flat gánja (to which class two-thirds of the quantity consumed belongs) rose from Rs. 16 and Rs. 20 in 1890 to Rs. 60 and Rs. 70 in 1891. Of the quantity produced in the Rajshahi Division (6,040 maunds), 796 maunds were exported to Assam, 28 maunds to Nipál, and 467 maunds (against 668 maunds in 1890-91 and 738 maunds in 1889-90) to the North-Western Provinces. In connexion with the recent settlement of the Dubalhati estate, covering portion of the gánja-growing tract in Rajshahi, the question has been raised whether the estimate of area under cultivation framed by the gánja supervisors can be accepted as of any value. There has been shown to be considerable divergence between the area returned by applicants for licenses and the area actually found by measurement to be under cultivation. But the Board of Revenue have reported that they do not believe there is any illicit export of the gánja thus produced, and so long as this is the case, and the revenue does not suffer, it is unnecessary to be very particular about the exact area cultivated with the plant.

27. *Opium.*—The following statement illustrates the demand for excise opium during the last three years:—

	Quantity.	Duty.
	M. s. c.	Rs.
1889-90	1,905 22 0	15,76,123
1890-91	1,942 26 0	16,00,093
1891-92	2,005 31 14	16,74,658

The largest increase in consumption took place in Calcutta, and the Excise Superintendent remarks on it as follows:—

"I doubt, however, whether these figures represent the real state of things. There are ample grounds for suspecting that duty-paid opium is largely smuggled into Calcutta from the North-Western Provinces and other places where the duty on the drug is considerably lower than that levied here. There are also good grounds for believing that opium is largely smuggled out of Calcutta for consumption in Burma and other places, where the selling price of the drug is higher than here. Three cases of this description were detected during the year under report. In the first case half a maund of opium was seized while being exported to Arracan, where the drug finds a ready market at prices ranging from Rs. 40 to Rs. 60 per seer. In the second case two Muhammadans (natives of Chittagong) were detected with 4 seers of opium which they were carrying towards Diamond Harbour. In the third case, which was detected in Chittagong, 16 seers of opium were found to have been imported from Calcutta. This opium was procured from one of the licensed vendors in the Suburbs of Calcutta, and was evidently intended for consumption in Arracan."

The danger of smuggling duty-paid opium within Bengal has already been brought to the notice of Government, and the question of equalising the selling price in different districts is now under consideration.

District.	Duty in— 1890-91 Rs.	1891-92. Rs.
Rangpur ...	28	30
Bogra ...	28	29
Pabna ...	28	29
Jalpaiguri ...	28	30
Dacca ...	27	29
Mymensingh ...	27	30
Tippera ...	27	30

In seven districts the treasury price of opium was raised as in the margin during the year. In five of these districts the quantity sold fell off, but not materially, in so much that the duty received at the increased rate was larger than in the preceding year in four of the five cases.

28. The number of arrests for offences against the excise laws fell from 5,054 to 4,800, and the convictions from 4,233 to 4,040, the percentage of convictions to arrests being 84·1. Out of Rs. 87,077 imposed as fines, Rs. 59,483 were realised, being 68·3 per cent. Rewards rose from Rs. 68,244 to Rs. 72,004, of which Rs. 26,551 were paid to police officers, Rs. 31,271 to excise officers, and Rs. 14,182 to informers and others.

29. The names of the officers mentioned by Mr. Samuells in paragraphs 152 and 154 as having deserved special notice for their attention to excise duties will be noted in the Revenue Department. But in future the names of those who have neglected their duties, or have spent considerably less time than is prescribed on tours, should also be mentioned. In one district he visited, the Lieutenant-Governor found that the Deputy Collector in charge of Excise had only spent seven days on tour.

30. The thanks of the Lieutenant-Governor are due to Mr. Westmacott for his administration of the Department during the greater part of the year, and to Mr. Samuells for the full and suggestive report submitted. Sir Charles Elliott desires also to acknowledge the good work done by Rai Durgagati Banerjee Bahadur, the Superintendent of Excise Revenue in Calcutta.

By order of the Lieutenant-Governor of Bengal,

H. H. RISLEY,

Secretary to the Government of Bengal.

RESOLUTION ON THE REPORT ON PUBLIC INSTRUCTION IN BENGAL FOR THE YEAR 1891-92.

GENERAL DEPARTMENT.

EDUCATION—No. 323T.—G.

Darjeeling, the 24th October 1892.

RESOLUTION.

READ—

The Report on Public Instruction in Bengal for the year 1891-92.

Preliminary.

Sir Alfred Croft, K.C.I.E., was in charge of the Department of Public Instruction throughout the year 1891-92. As he took furlough from the 5th April, the report for that year has been submitted by the Officiating Director, Mr. C. H. Tawney, C.I.E., and has reached Government in due time. In accordance with the orders in force, which prescribe that details should be examined more fully in alternate years, the present report is considerably longer than its predecessor.

Number under instruction.

2. There has been a satisfactory increase in the numbers of pupils under instruction, viz., from 1,336,886 to 1,392,371 in public institutions, and from 132,057 to 139,594 in private or indigenous institutions: total 1,468,943 to 1,531,965. At the same time the aggregate number of public institutions has risen from 52,563 to 53,956, while private or indigenous institutions are 13,868 instead of 13,387: total 65,950 in 1890-91 and 67,824 in 1891-92. Among the schools classed as "public institutions" which adopt departmental standards, the number supported or aided by public funds has risen from 43,670 to 43,972, and the unaided schools from 8,893 to 9,984. In the various classes of institutions there were the usual fluctuations, but it is noteworthy that the numbers of pupils in receipt of university and secondary education diminished, while primary education attracted more students than before. The decline in the number of lower primary schools, which had been continuous for four years, has not only been arrested, but the rebound has carried the figures nearly up to the highest strength previously attained. The following statement shows the facts for five years—

	Number of Lower Primary schools.	Number of pupils.
1887-88	45,596	991,110
1888-89	44,854	982,126
1889-90	44,146	960,914
1890-91	43,998	942,244
1891-92	44,920	987,948

At the same time upper primaries are more numerous by 121 and their pupils by 6,780. Female schools increased in number from 2,270 to 2,743, and their pupils from 49,638 to 57,801. Arabic and Persian schools recovered to a slight extent their losses previously recorded, whereas elementary Koran schools, which declined in 1890-91, more than regained their strength in 1889-90. In commenting last year on the figures of the census of 1891, it was mentioned that, whereas the number of male and female children of school-going age had increased in ten years by between 6 and 7 per cent., the number of boys at school had advanced by 54 per cent. and of girls under instruction by 166 per cent. From further calculations on the revised census figures it appears that, of the children of a school-going age, 26·2 of the boys and 1·7 of the girls are at school. Education in Bengal has therefore a large field for the extension of

its operations, especially among the lower classes, so that any advance in primary instruction is gratifying.

Financial results.

3. The net Government expenditure for the year exceeded the sanctioned estimate by Rs. 33,679. The actual excess was Rs. 57,571, but the receipts exceeded the estimates by Rs. 23,892. As has been previously explained, the Accountant-General each year reduces the departmental budget by a large amount on account of probable savings, whereas the departmental authorities are unable to effect all the savings anticipated by that officer. No blame attaches to them, so long as they keep within their own budget, while trying to secure any feasible saving. The Accountant-General's attention was invited last year to the Director's observations on this subject, and will again be drawn to them. The total expenditure on education in Bengal, including all disbursements from public and private sources, such as the fees and contributions paid to the University and in all public schools and colleges, amounted to Rs. 93,52,000 as compared with Rs. 85,74,000 in the preceding year, an increase of Rs. 7,78,000. The expenditure from Provincial revenues rose from Rs. 22,26,000 to Rs. 24,96,000, an increase of Rs. 2,70,000; and that from all public sources, including district and municipal funds, rose from Rs. 32,67,000 to Rs. 36,29,000, *i.e.*, by Rs. 3,62,000. The private expenditure rose from Rs. 53,07,000 to Rs. 57,23,000. Collegiate education cost more by Rs. 45,000, secondary education by Rs. 1,78,000 (due to the re-inclusion of the figures for unaided secondary schools for Europeans and Eurasians), primary education by Rs. 1,66,000, and female education by Rs. 1,06,000, chiefly from private sources. Under the last two heads district funds contributed Rs. 45,000 more than last year, and municipal funds Rs. 5,000 more. It is very unsatisfactory to find that, while municipal funds contributed Rs. 46,000 (though less than last year) on secondary education, so small a sum as Rs. 17,000 was spent from the same source on primary education. The construction of a new building in Calcutta for the Government School of Art added largely to the sum spent on buildings.

Controlling agencies.

4. Sir Alfred Croft was on tour for 65 days, inspecting colleges and schools, and conferring with the local officers. The Lieutenant-Governor trusts that the Officiating Director will be able to complete the full amount of inspection which the Head of this important department is expected to perform. The time spent on inspections by the inspecting staff of the province throughout the year is exhibited in the following statement and compared with last year:—

Designation of officers.	1890-91.		1891-92.	
	Number of officers.	Average number of days.	Number of officers.	Average number of days.
1	2	3	4	5
Inspectors	5	147	5	157
Assistant and Joint-Inspectors ...	9	137	9	143
European Inspectors	2	86	2	65
Deputy Inspectors	43	167	44	169
Sub-Inspectors	191	199	193	208

In nearly every class there is an improvement. Mr. Bellett and Mr. Reuther did specially good work in their circles; they were 204 and 176 days, respectively, on tour away from their head-quarters. The Lieutenant-Governor understands that the work of the Inspectors of European Schools lies principally in Calcutta, where most of these schools are situated; and hence a large number of days need not be spent by them away from head-quarters. The Inspector of the Eastern Circle gave more of his time to the Chittagong

Division, but he still appears to devote himself too much to the districts nearer to his head-quarters. The periods spent on tour by the Deputy Inspectors vary from an average of 156 days in Orissa to 195 days in the Patna Division. If the Deputy Inspector of Patna, Babu Bhagwan Prasad, could visit 514 schools in 248 days, it is unsatisfactory to find that in the six districts of Hooghly, Howrah, Dinajpur, Jalpaiguri, Faridpur, and Balasore the prescribed minimum of 150 days could not be attained. So also in the case of the Sub-Inspectors. Babu Umes Chandra Basu, Board Sub-Inspector of Ranaghat, has again headed the list by visiting 447 schools in 262 days. No sufficient explanation is offered of the failure of the Sub-Inspectors in Chota Nagpur to comply with the standing orders that they should spend at least 200 days in the interior of the country, and visit 406 schools a year. The Lieutenant-Governor is not content that the average for the officers in each division should meet these requirements, but would desire to be furnished in future with the names of the individual officers, Deputy and Sub-Inspectors, who fall short of the standard of work. He leaves it for the present to the Director to take proper notice of their deficiencies. Last year the 940 chief gurus and inspecting pundits paid 270,388 visits to schools: average 287. This year 921 of them paid 280,916 visits: average 305. The Lieutenant-Governor last year expressed his approval of the plan of substituting inspecting pundits for chief gurus, and it may be inferred from the above figures that some improvement has been thereby effected. The observation quoted by the Director that great care should be exercised in the selection of these officers, commends itself to His Honour's approval.

District Boards.

5. Sir Charles Elliott would have been glad to have received from the Director a fuller account of the share taken by the District Boards throughout the Province in the work of education. As they constitute a link of the chain of Government in this respect, it is important that their services should be properly utilised and their co-operation sought for by the Chairmen of the Boards. Mr. Tawney reports that the Boards have gradually learned during the last six years to work in harmony with the Department of Public Instruction for the advancement of education. So far as the District Boards have been mentioned, the notices of them are generally satisfactory. In the Presidency Division the relations between the Boards and the Deputy Inspectors have been perfectly cordial. The Inspector of the Bihár Circle writes in the same strain, and similar reports have been received from Chittagong and Orissa, while no complaint is heard from Dacca. In Malda the proceedings of the District Board are unfavourably criticized; and in Bankura the Board is said to be dilatory in the despatch of business. The Director should communicate promptly with the Commissioner in such cases. He has done right in naming the District Boards which have been unpunctual in submitting reports and statements and in making payments. The Chairmen of the Boards in question will be reminded, through the Commissioners, of their responsibilities for such matters of routine business, as the Lieutenant-Governor looks to them to carry out the orders of Government with regularity in this as much as in other departments of the administration. With respect to Local Boards it is stated, again somewhat indifinitely, that the delegation of education work to them has been attended with varying success. The information regarding them is meagre: in the few cases referred to they are said to control primary education within their limits. The few District Committees still existing appear to meet very seldom for the transaction of business.

University education.

6. The number of colleges stands at 34, the same as last year, divided into—Government 11, municipal 1, aided 7, and unaided 15. It is not to be expected that there should be much change in these numbers from year to year. The students on the lists are returned as 5,225 instead of 5,232 last year, a variation of no significance. The aided colleges have, taken together, lost 81 students. The Government colleges show an increase of 16 students. The Midnapore college had 46, instead of 50, youths under instruction. The unaided institutions have attracted 62 more than last year, and nearly recovered the numbers then recorded as lost. The variations in the numbers of the successful candidates

at the University examinations during the last five years are shown in the following statement:—

	1888.	1889.	1890.	1891.	1892.
Entrance	1,932	1,153	2,156	1,710	1,643
Percentage of success...	45·8	24·2	50	42·7	40
First Arts	481	629	996	693	1,011
Percentage of success...	39	27	36	36	44
Bachelors of Arts ...	323	366	399	231	280
Percentage of success...	40	34	40	29	24
Bachelors of Law ...	238	187	254	128	48
Percentage of success...	66	52	70	63	27
Masters of Arts ...	58	62	57	46	...
Percentage of success...	52	50	45	36	...

7. A comparison of the tables shows that out of the 2,415 youths reading on the 31st December 1891 for the F. A. examination, so many as 2,310 attended the examination: the proportion was lowest in the aided colleges. The increased number of candidates depends on the higher number passing the Entrance examination two years previously. The percentage of successful candidates has, it may be seen, risen from 36 to 44. In Government colleges the percentage was 53, in aided colleges 39, and in unaided colleges 40. The most successful college was the Brajamohan Institution at Barisál, which sent up 43 candidates, of whom 38 passed; only one failed in mathematics, and none failed in English. Among the candidates for the B.A. degree, the percentage of success has continued to fall from 40 in 1890 to 29 in 1891, and 24 in 1892. Comparing the groups of colleges the ratio of success appears to be as follows:—

	A course.	B course.	Total.
Government	25	58	33
Aided	19	40	20
Unaided	18	33	20
Total ...	20	47	25

It is satisfactory that only one failed out of the seven candidates in Physiology and Botany. More than half the candidates sent up from Bengal colleges failed in Philosophy, and an explanation is offered that the students read notes and abstracts instead of the works prescribed by the University. The Lieutenant-Governor is inclined to believe that a similar surmise might be hazarded in respect of other subjects besides Philosophy. Of the 128 candidates for Mastership of Arts, 46 passed, as compared with 57 out of 127 last year. The figures illustrating the ratio of success in the statement above are curious and important, as they prove that the F.A. examination is becoming easier every year, while the B.A. and M.A. examinations are made more difficult, thus illustrating the oscillation of the pendulum and the varying fortunes in different years. It appears that, since the great reaction which followed the severe pluckings of 1889, the tendency has been for the Entrance examination to grow harder, the First Arts to grow easier, and the examinations for B.A., B.L. and M.A. to grow harder. The Lieutenant-Governor, in the Resolution on the report for 1890-91, expressed his opinion that efforts should be made to secure uniformity of standard, and that this could only be attained by continuity in the examining body. He is not aware whether the Director addressed the University authorities on this subject, or whether any notice has been taken of his remarks, but he trusts that the matter will not be forgotten. It seems to him that, while it is proper that examinations for University degrees should be so severe as to make those degrees genuine titles of honour, it is not judicious, nor in accordance with general policy elsewhere, to oppose many difficulties in the way of those who desire to matriculate; and in a minor degree the same may be said of the First Arts examination. The facts given in paragraphs 41 to 58 regarding the colleges separately are of interest; but no reference has been made, as should have been done, to the disgraceful theft of Entrance examination papers from the custody of the Principal of the Patna College, and the extent, if any, to which the pupils were implicated; the final report in the case has not yet been received by Government.

8. The total expenditure upon collegiate education has increased during the year from Rs. 6,62,377 to Rs. 7,07,104—a rise of nearly Rs. 45,000. Of this amount the expenditure from Provincial revenues has risen from Rs. 2,69,850 to Rs. 2,92,686, the fee receipts from Rs. 2,61,308 to Rs. 2,75,505, and the receipts from endowments and other sources from Rs. 1,31,219 to Rs. 1,38,835. The charge on Provincial revenue is nearly 41·4 of the total expenditure. The Lieutenant-Governor desires to be furnished with an explanation of the total increased charge of about Rs. 24,000 for Government colleges on Provincial revenues. The whole of this sum can hardly be attributable to the variations in the number and pay of the officers on duty in successive years. Increased Government expenditure in one college, through the transfer thereto of more expensive officers, should entail a corresponding economy elsewhere, but the facts are that in Government colleges the total cost has risen from Rs. 4,00,726 to Rs. 4,32,736; and of this sum the charge on Provincial revenues has risen from Rs. 2,43,757 to Rs. 2,67,845, while the receipts from fees and other sources have increased from Rs. 1,56,969 to Rs. 1,64,891. Perhaps it may turn out that there is some inaccuracy in the table from which these figures are taken, which treats the total expenditure on a college as equivalent to the receipts from different sources. Thus the Midnapore College received Rs. 1,950 from Government in 1890-91 and nothing in 1891-92, but it did not necessarily spend less on education, because it omitted to draw the provincial grant during the year. From the figures, however, as given, it appears that the annual cost of each student in a Government college increased from Rs. 231-12-3 to Rs. 238-13, and the cost of his education to Government from Rs. 140-15-8 to Rs. 147-13. Last year the Lieutenant-Governor noticed with gratification the diminished cost of the Presidency College, but this year it has risen from Rs. 79,836 to Rs. 1,08,968. The cost of the whole number of collegiate students for the past five years may be exhibited as follows:—

	1888.	1889.	1890.	1891.	1892.
	Rs.	Rs.	Rs.	Rs.	Rs.
Average cost of each student in a college in Bengal ...	143	124	138	129	127
The Government share thereof ...	63	50	55	52	52

The net result of the last two years is that, though the average total cost of a student has somewhat decreased, nevertheless the cost to Government is practically the same.

The B or Science course.

9. The number of candidates who took up the A or Literature course has risen this year from 667 to 967, whereas the students of the B or Science course are more numerous by 182 to 140. The increase in the former case has been 45 per cent.; in the latter, 30: thus showing the greater popularity of the A course. On the other hand, the percentage of success is 20 in the A course, and 46 in the B course. Mr. Tawney adheres to Sir A. Croft's view that the usual preference of the best students for the Science course has again manifested itself: he adverts to the fact that, of the 52 holders of senior scholarships, 22 have chosen the A course and 29 the B course. His conclusion is that, as a general rule, serious students are apt to prefer the B course, but he admits that some diligent students have a marked preference for the literary course, arising from the natural bias of their minds. In the Government Resolution last year, the various considerations on either side of this question were discussed: on the one hand, the Director's views were set forth, and the want of arrangements for teaching Science; on the other hand, the notion that the A course conduces more readily to appointments. The present report shows that, at any rate, in one of the unaided colleges, that is, in the City College, a strenuous attempt is being made to teach Science, and it is hoped that the new chemical laboratory, which is in course of construction at the Presidency College, will to some extent remove the difficulty that science students have hitherto experienced. The Lieutenant-Governor does not feel quite satisfied that the best students embark on the Science course for the sake of Science, and not because it is the easiest course in which to obtain a degree; if this were not the case, and if students took up the Science course for the love of the study, it is probable that they would pursue it after they leave the University; but it is notorious that this is very rarely the case.

10. The main statistics relating to secondary schools for the past four years are contained in the following statement:—

Secondary education.

	Number of schools.	Number of pupils.	Public funds.	Private funds.	Total.
			Rs.	Rs.	Rs.
1888-89 ...	2,319	200,124	6,01,539	19,34,506	25,36,045
1889-90 ...	2,366	201,452	6,08,294	20,11,672	26,19,966
1890-91 ...	2,393	199,105	6,11,046	20,62,859	26,73,905
1891-92 ...	2,285	194,178	5,94,846	20,87,904	26,82,750

The decrease of 108 schools and 4,927 pupils is said to be more nominal than real, owing to the reclassification of 88 primary fund middle schools now returned as upper primaries. The numbers of the pupils in the high English and middle English schools are comparatively stationary, while the loss is chiefly confined to middle vernacular schools. The decrease of the contribution from provincial revenues and municipal funds, especially the latter, is satisfactory, accompanied as it is by an increase in the expenditure from private sources. This is consonant with the policy of Government to set free funds for primary and female education by withdrawing from secondary schools as far as possible. In connection with the grant-in-aid system, by which Government assists 1,565 schools to the extent of 28 per cent. of their expenditure, the Director points out the difficulty, for want of means, of helping the 453 unaided secondary schools on our returns: the applications for renewal of grants-in-aid are thoroughly examined and revised so as to admit new grants, but little can be done. The Lieutenant-Governor, however, is not anxious to afford any special assistance to these middle schools, and certainly cannot place more funds at their disposal to the detriment of primary education. The high English schools have increased in number from 351 to 356, but the number of pupils is practiscally unaltered, being 75,300 against 75,587. At the University Entrance Examination 1,643 boys passed, as compared with 1,710 in 1891, and 2,156 in 1890, the percentage of success being 40 instead of 42 and 50, respectively. Thus the tide of success of these schools has continued to ebb. The failures may be partly attributed to the want of preparation of the candidates, and partly to a specially difficult paper in English; but History and Geography proved more generally fatal than English. Mr. Tawney states his belief that there is a natural aversion to historical studies in the Indian mind; and this opinion is certainly supported by the fact that works of history are but rarely produced in this country, and little aptitude is shown by Indian students for research and the verification of facts. The Director has supplied some new tables of statistics for zilla schools, dividing them into (*a*) schools attached to colleges and under the control of the Principals, or (*b*) zilla schools of the first, second or third class, supervised by the Circle Inspectors. These classes indicate whether the schools have 300 or more pupils, between 300 and 175, or less than 175. By a system of merit-marks based on the results of the Entrance Examination, it is shown that the collegiate schools have, as a class, fallen off, as well as the zilla schools of the second class, while the others have improved. In Calcutta the Government high English schools maintained for the benefit of native students, did better than last year, whereas the unaided schools were less successful. In accordance with the request of Government, the Director has supplied some information as to places where Government zilla schools exists alongside unaided schools of the high English status. There are 49 high English schools for boys maintained by Government, of which 12 are attached to colleges and are accordingly governed by special considerations. The remaining 37 are distributed throughout the nine divisions. In four of these divisions, viz., Burdwan, Rajshahi, Orissa and Chota Nagpur, there are no unaided high English schools at the stations where the 15 zilla schools are situated. The Director has examined the possibility of private enterprise taking the place of the other 22 zilla schools. The local circumstances require consideration in each case; and the Lieutenant-Governor cannot concur with Mr. Tawney in thinking that it must necessarily follow that where three schools, viz., one Government and two unaided, at a place have more than 300 pupils each, the

Government zilla school should be maintained. Some other remarks of Mr. Tawney's, such as those about making over a zilla school to a joint-committee of a District Board and Municipality, for instance, seem to show that the Director has not quite understood the Lieutenant-Governor's mind on this important point. His Honour's view is that opportunities for obtaining high education must be provided for those who desire to use them. It is not strictly the duty of the Government to provide this class of education at the cost of the public, but in this respect, as in many others, the Government has felt bound to act as a pioneer in showing the way in which the object can be realised, and in stimulating the desire for the object. When it has performed that duty, it is time for Government to retire from its self-imposed task. In other words, when private high schools exist and flourish, when there is a sufficiency of educated teachers and of youths desirous of high education and ready to pay for it, the maintenance of a Government high school supported by public money is an injustice to private enterprise and an unecessary load on the shoulders of the State. The Lieutenant-Governor's view is therefore that when such conditions exist, the Government should altogether withdraw the zilla school where a private school exists on a solid basis. He quite recognises that, to avoid loss to Government and the incubus of a number of supernumerary teachers, the process of withdrawal must be gradual; but the true remedy for this difficulty would be that the service of the teachers should not be pensionable. A special paragraph should be devoted in future reports to recording what has been done by Government, year by year, towards carrying out this policy of retiring from direct promotion of the higher education.

Middle class schools.

11. It is to be regretted that the results of the middle English and middle vernacular scholarship examinations are inferior to those of the preceding year. It is said that the candidates in the middle English are generally more successful than those in the latter examination, although the course of studies is harder; the Lieutenant-Governor has read this statement with some surprise, as the standard of English attained in the former is not very satisfactory. He accepts as sound the objections offered in paragraph 78 of the report to the middle examination curriculum, and will be prepared to consider its revision when submitted to Government. Orders have been issued during the year for the encouragement of drawing in schools, but the scheme cannot be brought into full operation until the supply of teachers available is considerably augmented. At the last Entrance examination 141 candidates took up drawing, of whom only 9 passed: it is presumed that the effect of the teaching of the newly-appointed drawing masters at the training and other schools had not had time to be felt. The Director is requested to furnish in future a separate table showing the candidates at the Entrance examination, from the schools which have obtained drawing teachers, and the measure of success they may achieve.

Physical training.

12. In the separate paragraphs regarding each of the colleges, the Director has given some interesting details of the games played by the boys, of the clubs organised by them for athletics, of their drill and gymnastic exercises, and inter-collegiate competitions, annual sports, and other means adopted for the furtherance of physical education. The following account is given of a corresponding movement in the principal schools :—

"Mr. Bellett says that the head-master of the Bogra Zilla School remarks that physical exercise has a very great effect in keeping the boys employed and away from evil company. It is interesting to find a head-master in this country taking this view, which is, I believe, one generally held by educational authorities in Great Britain. I have already described, in the section on University education, with what avidity the college students have taken to physicical exercise in all its various forms : and it is satisfactory to learn that the same spirit has manifested itself in schools also, according to their limited resources. A rule was laid down that when half the costs of buying gymnastic apparatus for zilla schools could be locally raised the other half would be supplimented by grants from the surplus funds. Most of the zilla schools availed themselves of this concession during the year. Private schools also have shown commendable activity in this respect, and where funds are not available for buying costly apparatus, indigneous games are encouraged. Drill, where introduced, is no longer looked upon with dislike and out-of-door games are more indulged in than was the case some two or three years ago."

The Lieutenant-Governor regards this development as very encouraging. He sees on every hand a great increase of the zest with which these national English games, especially football, are played, and he has constantly on tour watched the performances of the boys with the greatest interest. He has noticed how much more the Bengalis take to these exercises than the Biháris: even in the Bihár zilla schools he has observed that the most proficient boys are Bengalis by birth. He looks forward to great improvement in the physique of Bengalis in the course of one or two generations from this source. In the interior of the country no difficulty is experienced in obtaining space for the boys' games, but in Calcutta the opposite is the case. Three Colleges for European boys (St. Xavier's, Doveton, and Armenian) and two for Natives (Presidency and Madrassa) have been allotted sites for games on the Calcutta Maidan by the Commissioner of Police; but most of the private schools in Calcutta find the distance of the Maidan and the want of playgrounds anywhere near the boys' homes an insurmountable obstacle. The Society for the Higher Training of Young Men has given anxious consideration to this subject, and, though the difficulties and cost are great, does not despair of providing a ground large enough for the schools which are too far off to use the Maidan. His Honour is aware of the enormous value of land in Calcutta, as shown in land acquisition proceedings, but he feels confident that there are public-spirited and generous individuals among the wealthy landowners of the native community, who may be trusted to come forward and promote the welfare of their race by providing means for its physical improvement.

Discipline and moral training.

13. The Lieutenant-Governor is glad to read that discipline has markedly improved in all classes of schools (paragraph 83), and to a certain extent his own observation bears out the remark. But it shows a rather sanguine feeling when Mr. Tawney goes on to assert that "nearly all that it is possible to effect by departmental influence is being done to improve the discipline in schools." Sir Charles Elliott is satisfied that many of the high officials of the Department have this object sincerely at heart. But he wishes that it were generally accepted by every Principal, Professor, and Teacher in a Government college and school, that his relations to the students should not begin and end in the lecture-room, but that he should endeavour out of school hours to acquire their confidence and obtain an influence over them which should last through their lives. His Honour has observed with great pleasure how many of the staff of the Department devote themselves to joining with their boys both in athletic games and in intellectual pursuits which lie outside of the ordinary curriculum of the University, and he believes that the kindly leading and influence thus exercised does more to trian up the students to be gentlemen and scholars, useful citizens, and loyal subjects of the Queen, than a wilderness of moral text-books could do.

Boarding-houses.

14. Another most valuable influence operating in the same direction is that of boarding-houses, and the expressions used by Mr. Tawney on this question in his paragraph 85 have the Lieutenant-Governor's complete concurrence. The want of boarding-houses, or of decent lodging-houses, for the 4,000 (or so) students in Calcutta is the crying evil connected with the present University system. It seems almost inconceivable that such a system should have been allowed to grow up, and that no provision should have been made for the proper housing of so large a body of young men, the flower of the youth of Bengal, who are turned loose in Calcutta to find what lodging they may, with little experience of life, with little power of combination, and surrounded by temptations of all kinds. At Cambridge or Oxford no University student is allowed to live except in a licensed lodging-house, the keeper of which is bound by strict rules to permit nothing immoral and to insist on regular hours being observed. In Calcutta, unless the young men live in the houses of relatives or in the few boarding-houses provided by the authorities, such as the Eden Hostel and the Madrassa Boarding-house, they are obliged to make up parties of their own to hire houses, and fill them as full as they can hold for economy's sake. Not so much care is taken of their living in healthy and decent surroundings as is taken by Government for the pilgrims to Jagannath under the Puri

Lodging-house Act. If the University or the Municipality of Calcutta cannot move to remedy this evil, Sir Charles Elliott trusts that something will be done by the action of the gentlemen who form the society for the Higher Training of Young Men, who may be able by local knowledge and friendly influence to frame a list of the most decent and suitable lodging-houses, and indicate them to new arrivals and deter them from occupying those which are objectionable, or from over crowding those which are otherwise suitable. Such help as this will doubtless save many a young student from contracting seeds of disease arising from insanitary conditions or evil habits to which they are now liable and which may embitter and empoverish their whole lives.

Primary education.

15. The fluctuations in the numbers of the boys receiving primary education during the last five years are shown in the following statement:—

Year.		Upper primary.		Lower primary.	
		Number of schools.	Pupils.	Number of schools.	Pupils.
1887-88	...	3,026	112,323	45,595	991,099
1888-89	...	3,077	115,485	44,854	982,126
1889-90	...	3,337	124,568	44,145	960,865
1890-91	...	3,537	128,537	43,997	942,211
1891-92	...	3,661	135,371	44,918	987,948

Not only has the increase in the numbers of upper primary schools and pupils been sustained, but the number of lower primary schools has shown a recovery, and for the first time for some years the downward tendency in the number of their pupils has been checked at last. The total result is a net gain of 1,045 primary schools and 52,499 pupils. As Mr. Tawney explains, the fluctuations in the numerical statistics of primary schools depend on such various causes—and similar causes in different parts of the country produce dissimilar effects—that the explanations of the variations must be looked for in the details rather than in the totals. The state of the public health, the price of food-grains, floods, or drought, in fact all the agricultural circumstances of the year, combine with the changing resources of the District Boards, and oscillations of local policy and classification, to influence the results. But after all the principal reason for the increased numbers has been the fact that more money has been spent this year on this branch of education throughout the Province; if adequate sums are disbursed the usual results ensue as a matter of course.

The expenditure incurred from the primary allotment by the Department and by District Boards on account of schools for native boys and girls, and of the subsidiary inspecting agency, is compared for the last two years in the following table:—

Description of Schools.	From Provincial revenues.		From District Funds.		Total.	
	1890-91.	1891-92.	1890-91.	1891-92.	1890-91.	1891-92.
1	2	3	4	5	6	7
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Stipendiary schools	95,806	97,766	1,92,461	1,77,910	2,88,267	2,75,676
Non-stipendiary schools	27,601	32,075	2,39,107	2,91,170	2,66,708	3,23,245
Schools abolished before the close of the year ...	3,241	3,807	7,760	7,569	11,001	11,376
Chief gurus and inspecting pandits	9,833	12,263	81,234	78,474	91,067	90,737
Examination charges	1,175	1,036	11,125	12,206	12,300	13,239
Scholarships and prizes	7,053	7,376	17,617	26,068	25,270	33,444
Grants for buildings and furniture	4,163	7,006	4,052	1,011	8,215	8,017
Other payments	7,839	8,383	26,239	23,361	34,078	31,694
Total ...	1,57,311	1,69,662	5,79,595	6,17,766	7,36,906	7,87,428
Allotment	1,78,925	1,78,798	6,14,029	6,23,300	7,92,954	8,02,098
Savings	21,614	9,136	34,434	5,534	56,048	14,670

These figures show the increased expenditure on primary schools both by Government and by District Boards: they show also that the allotments were better worked up to. The Lieutenant-Governor is glad to see that the District Boards have spent less on stipendiary schools and more on payment-by-results schools. He fully appreciates Mr. Tawney's comment on the diminution in the savings from Rs. 34,434 to Rs. 5,534, when he writes:—"This indicates a real improvement in the administration of the Boards. Whenever the year closes

with a heavy unspent balance, it means laxity and delay on the part of the authorities in respect of payment, and consequent hardship to poor gurus whose income is so small and precarious." But he fails to understand the repeated complaint that the sources of revenue placed at the disposal of the Boards are not only not capable of any material expansion, but in some cases have shown a heavy falling off. As cess revaluation is constantly in progress in a number of districts, the revenue of the Boards must proportionately increase. He would ask the Director to report specially any instance of considerable decrease in the Boards' expenditure on education. The municipal contribution to primary schools is said, in paragraph 92 of the report, to have risen from Rs. 20,411 to Rs. 24,984, which is a satisfactory sign as indicating that municipalities are more alive to the importance of providing for the education of the poor, though the Commissioner of Burdwan desires to emphasise the fact "that municipalities continue to be too liberal in the matter of secondary education, and too niggardly in their grants to primary schools." Sir Charles Elliott finds it hard to understand the quotation from the report of the Presidency Inspector of Schools regarding the departmental grants to primary schools within the amalgamated area of the Calcutta Municipality. He thought it was the rule that departmental grants should be withdrawn from municipalities, at least as far as primary schools for boys are concerned, and the whole duty of educating all the boys of the municipal area in reading, writing, and arithmatic should be required of the municipality. The sums spent by the Corporation of Calcutta, viz., Rs. 2,369 in 1890-91 and Rs. 2,395 in 1891-92, on both primary and secondary schools, were altogether inadequate, and show a total failure on the part of the municipal authorities to realise their responsibilities to the people placed under their care. The subject will be fully dwelt on in the Resolution on the Annual Report of the Municipality.

16. In the Resolution on the report for 1890-91 the Lieutenant-Governor decided some important questions in connection with primary education, and especially dealt at some length with the question of the proportion of the primary grant spent on stipends allowed to stipendiary schools to the amount spent on rewards to non-stipendiaries, and accepted as working principles (1) the mixed system of stipends with rewards, (2) the fixation of a minimum and a low maximum of rewards, (3) the inclusion of the stipend in the rewards ultimately adjudged. It appears that there has been some delay in carrying out the decision of Government, and it is admitted that some of the Boards have not yet considered them at all. Mr. Tawney, however, mentions the names of 13 Boards, which have more or less accepted the recommendations of the department, as approved by Government, regarding the grant of stipends, and great changes are expected in consequence in these and other districts where similar lines of action may be taken. A new statement has been furnished in paragraph 93, as desired by Government, showing district by district the sums spent in stipends and in rewards, and the number of pupils passing the lower primary and standard examinations. In 9 out of 48 districts the amount paid in rewards is many times as great as that given in stipends; in 8 it is almost double; in 11 it is more: the remaining 20 districts gave more in stipends than in rewards. The Lieutenant-Governor agrees with Mr. Tawney that there is no reason why the districts named by him should not adopt the system of payment-by-results on the principles lately enunciated, the most important of which is to secure the establishment of a school of doubtful position, insuring its stability by the promise of a small stipend by way of retaining fee (as an advance payable out of the rewards) supplemented by rewards for passed pupils. The Director's conclusion is accepted by Government that there is little ground for the contention that the stipendiary pathsalas are the backbone of our primary education system, and that the non-stipendiary pathsalas have therefore no higher work to do at present than swell the bulk of our primary returns. That the majority of the stipendiaries are, on the whole, more efficient than most of the non-stipendiaries is due, *first*, to the practice hitherto followed, of admitting those schools to the stipendiary list which have shown good results year by year; and *secondly* to the better financial position and greater stability of these fortunate few. While anxious to encourage the system of rewards, the Lieutenant-Governor thinks it sound that schools of an inefficient and ephemeral character, which

fail to earn even Rs. 3 or Rs. 4 on the results of the reward examinations, should not be allowed to derive any benefit from the system. The subject of stipendiary and non-stipendiary schools should be fully discussed in future reports.

17. The following table exhibits by divisions the apportionment of the primary allotments between upper and lower primary schools, and the relative cost in these classes: in accordance with the wishes of Government, it shows for the first time the upper and lower primaries separately:—

Primary Schools.

DIVISION.	Allotment.	Expenditure.		Number of schools.		Number of pupils.		Cost per school.		Cost per pupil.	
		Upper.	Lower.	Upper.	Lower.	Upper.	Lower.	Upper.	Lower.	ppe r.	Lower.
1	2	3	4	5	6	7	8	9	10	11	12

Total ...	7,19,504	1,07,263	4,32,093	3,330	37,436	1,22,185	8,53,993	50·	11·8	22·	8·

The percentage of boys at primary schools to the number of boys of school-going age varies from 52 in Howrah to 8 and 7 in Muzaffarpur and Darbhanga and 6 in Purnea. It is not to be expected that the relative position of the different districts will vary much from year to year. Last year the Lieutenant-Governor desired that some change might be made in the method of ascertaining the comparative position of each district with respect to primary education, and suggested that the merit should be made to depend partly on the number of scholars and its ratio to the population of the district, and not only on the number of schools. Mr. Tawney has accordingly in paragraph 100 of his report supplied a new table, in which marks have been given on the number of pupils in each district in the different stages, viz. (1) the upper primary stage, (2) the lower primary stage, (*a*) reading printed books, (*b*) not reading printed books; and the progress of the district has been ascertained by the ratio of those marks to every hundred of the population of school-going age. It is perhaps a defect in this calculation that too high a value has been put on upper as against lower primary schools; for instance, as Howrah has 52 per cent. of its boys at school, while Calcutta has only 25 per cent., but the percentage of merit of Calcutta (68) is, on the system adopted, very little below that of Howrah (69·9). The Lieutenant-Governor has had the following table prepared, in which column 4 shows the percentage of boys at school to the boys of school-going age, and column 5 gives the percentage of merit, obtained by the method above described. A comparison of these two columns will convey a better impression of the real facts—

DISTRICT.	Boys of school-going age.	Boys at primary schools.	Percentage of column 3 on column 2.	Percentage of merit marks on population of school-going age.
1	2	3	4	5
24-Parganas	1,48,392	59,173	39·8	58·1

18. There has been a somewhat serious decline during the last three years in the standard of the results of the upper primary scholarship examination for boys, *i.e.*, candidates from upper primary schools, including private students. The figures are given as follows in paragraph 130 of the Report:—

Primary scholarships.

YEAR.	Number of competing schools.	Number of successful schools.	Number of candidates.	Number of successful candidates.	Percentage of successful schools.	Percentage of successful candidates.
1	2	3	4	5	6	7
1889-90 ...	2,258	1,660	5,484	3,053	73 7	55·7
1890-91 ...	2,449	1,654	5,910	2,847	67·5	48·2
1891-92 ...	2,381	1,493	5,681	2,491	62 7	43·8

The cause of this decline should be more carefully looked into by the Inspectors and their subordinates. The results of the corresponding lower primary scholarship examination exhibit a curious contrast with those just tabulated in the case of upper primary schools. Out of 10,001 schools which sent up pupil to this examination, 7,244, or 72·4 per cent., were successful against 6,586 out of 9,163, or 71·8 per cent., in the year before. Also the number of candidates advanced from 29,616 to 32,764, and that of successful candidates from 16,183 to 18,636, the percentage of success having risen from 55·3 to 56·8. The improvement has thus been general. But when improvement or deterioration are spoken of in connection with these examinations, it is always uncertain whether the standard is uniform in different divisions or in different years. It is at least essential that steps should be taken to secure uniformity in the standard of examination in all the districts of the same division, even if it is unattainable throughout the province. Such a system is in force in the Eastern Circle, and Sir A. Croft, in paragraph 101 of his report for 1890-91, expressed his intention of calling upon Inspectors of Schools to introduce such a measure in communication with District Boards. It does not appear why this change was not effected: the Director is requested to take such steps as may be necessary to have the system of examination for primary schools which obtains in the Eastern Circle adopted throughout Bengal. Last year also definite orders were issued accepting the suggestion that the reward examinations should be held *in situ* and the Sub-Inspector alone regarded as responsible for the results. This plan has only been partially adopted and should now be generally extended. The Noakhali practice of holding the examinations simultaneously on a fixed day by local committees of teachers appointed by the District Board does not commend itself to Government and should be forthwith discontinued. With regard to the emoluments of the gurus Mr. Tawney writes thus:—"The average earnings of a lower primary guru are Rs. 47-2 from all sources—an amount hardly sufficient to maintain a family, however small—of which Rs. 9-3 (or only 12 annas a month) were contributed from public sources, and Rs. 38 or more than four times as much, by the people themselves. As the extremes certainly widely differ, it is hardly possible even to imagine, making the fullest allowance for incorrect returns, how petty the incomes of weak schools are, and how utterly inefficient such schools must be; it has been often urged, and it may be repeated here, that in view of the present impossibility of increasing public contributions to any appreciable extent in the near future, the most prudent way to use our limited means best would be to discourage schools of doubtful efficiency, in order to set free funds for those that are really deserving of support." The Lieutenant-Governor is inclined to draw a different conclusion from the figures. He considers that more aid should be furnished to schools of the lowest class to make them more efficient. The opinion expressed as to the extremely small incomes is impaired in value by our want of knowledge of the incomes which the gurus derive from fees.

19. The number of training schools for masters, mistresses, and gurus, again declined from 222 to 205, and the pupils similarly from 1,958 to 1,943; the cost increased at the same time from Rs. 1,13,997 to Rs. 1,16,703. Calculations have been made which show the expensiveness of the first grade training schools at Calcutta and Patna, but no conclusion has been drawn from the facts. It is not stated whether the Director regards the teaching staff as too strong or too costly. The Lieutenant-Governor would like to have some remedy suggested, or to know at any rate that value is obtained for the additional outlay. The results of the

Special instruction.

vernacular mastership examination for pupils of first and second grade training schools and for private candidates show 447 as having passed successfully out of 650 candidates, but are less favourable than last year. Only 142 men have been granted first grade certificates after the three-year course, and may be regarded as having cost Rs. 62,739, or Rs. 442 each. Sir Charles Elliott would be glad if the Director would have the whole system of these schools carefully reviewed next year by Inspectors, and the results embodied in his report, as has been done in paragraph 130, which deals with the system of the training of gurus. As it is of importance that all the masters in middle and upper primary schools should have passed through training schools and have received certificates of competency, it is disappointing to find, from the figures supplied, that in middle vernacular schools, out of 1,331 head-teachers, 157 should not have passed through even a middle vernacular school, and that out of 1,425 other teachers so many as 431 should be similarly disqualified. So also, in the case of upper primary schools, out of 3,843 head-pandits so many as 914 have themselves not received even an upper primary education, and out of 584 other teachers 381 do not possess even this qualification. It is something, having regard to the small incomes of these schools, that in 3,661 of them there are 307 teachers who have passed the entrance or vernacular mastership examination, but there is evidently great room for improvement in the staff attached to them. An unfavourable account is given of the scheme of training gurus, which has now been in working for more than five years. Mr. Bellett, Inspector of Rajshahi Circle, considers it a failure, and the Director admits that his argument has much force. Mr. Tawney would, however, apparently maintain the system, with a view to accelerating the elimination of the illiterate gurus by training them properly (in the third grade training schools), and in this opinion the Lieutenant-Governor concurs. At the same time he is disposed to regard the cost of these gurus as disproportionate to their value. A sufficient stimulus to improvement might be afforded if it were laid down that no one should be appointed a teacher in a lower primary school (stipendiary) unless he had passed through an upper primary school, or to an upper primary school unless he had received his education in a middle vernacular school, and so on: he wishes the Director to take these suggestions into his consideration.

20. The "other schools of special instruction," including all institutions and Departments of institutions teaching Law, Medicine, Engineering, the Calcutta School of Art, industrial schools and other schools of a special character, are shown in the following statement:—

It is worthwhile to draw attention to the fluctuations in the numbers of the students reading for the chief professions, as follows :—

YEAR.	Law.	Medicine.	Engineering.	Arts and industry.	Other special schools.	Total.
1	2	3	4	5	6	7
1888-89 ...	935	999	518	651	172	3,275
1889-90 ...	912	1,016	652	795	611	3,986
1890-91 ...	1,025	1,184	703	753	550	4,215
1891-92 ...	563	1,290	661	853	559	3,926

The remarkable decrease in the number of law students is accounted for by the recent changes in the regulations for the B.L. and pleadership examinations, which require shorter periods of study than formerly. The increase in the number of medical pupils is attributable to the opening of another school of Homœopathy in Calcutta. The total cost of the Calcutta Medical College slightly rose, but the average cost per pupil fell from Rs. 873 to Rs. 738. As the number of engineering students decreased, so the cost per head rose in all the institutions. The decrease at the Sibpur College is partly due to fewer admissions to the first year class, on account of the raising of the standard for admission: there were 75 applicants, and only 28 finally joined. The Lieutenant-Governor trusts that the new rules will not ultimately lead to such large rejections and to keeping down the number of pupils. His attention has been drawn to the facts that there were only three Europeans or Eurasians in the Engineer Department, and that, though the free list for Europeans and Eurasians was full, only 11 out of the 27 reduced—fee-ships were awarded in the apprentice department. There has been a continued falling off in this branch, and, as Mr. Tawney rightly observes, it is a question that needs enquiry. The Lieutenant-Governor has already, in the Resolution on the Pauperism Committee's report, referred to the opportunities available at Sibpur to Indo-European youths for acquiring professional knowledge. The account given in the report of the successes attained by the students in athletics is gratifying: the defects in the gymnastic apparatus can be easily remedied. The numerical strength of the Cuttack Survey School has fallen from 77 to 42, and the decrease is attributed to passed students not having been yet provided with employment. This is an extraordinary explanation for Government to receive at a time when important survey-settlement proceedings are in progress throughout Orissa. A very different state of things is reported from Dacca, where the pupils increased from 221 to 268. The School of Art, in which the artistic and decorative industries of Bengal are concentrated, more than maintained its position by attracting 181 pupils instead of 173. The Director writes: "The recent Resolution of the Government of Bengal, making drawing a compulsory part of the course in training schools, and all but compulsory for the Entrance examination, has given a strong impulse to the cause of art in Bengal. Passed students of this school now rank themselves as teachers along with University graduates, and the habit of treating artists and artizans alike, which is so strong in this country, is likely to give way ere long. A taste has also been created for artistic excellence in school literature. Books illustrated after the European method are coming into fashion, and engraving, lithography, photography and etching are almost in general demand. As it is the only school of the kind in Bengal, the supply of trained artists is accordingly far short of the demand." The Government school at Ranchi is very expensive—the cost of each pupil amounting to Rs. 123—considering the standard attained. The Lieutenant-Governor recently visited the Rangpur Board Industrial School, which owes its origin to Mr. Skrine's public spirit and energy, and thought it more advanced and popular than any similar institution

he had seen, and likely to be useful; he trusts that the diminution of the numbers, from 71 to 60, does not indicate a waning of its popularity. The notices of industrial schools contained in the report are satisfactory as showing that some real progress is being achieved. The Lieutenant-Governor has read with pleasure Mr. Tawney's conclusion that technical education of an elementary character is gradually making its way among the people, and that the District Boards and other local authorities are also beginning to patronize it. The Sibpur Engineering College, with its workshop and apprentice department, is recognized by Government as the main centre from which the various industrial schools in the mufassal, annually springing up, are to get their supply of qualified teachers, and it is to this centre that the best boys of these schools should ultimately come for higher training. Some of the District Boards have done well in creating scholarships for the encouragement of such higher industrial studies.

Female education.

21. The progress of female education, in its main statistical aspects, is exhibited in the following table:—

Class of schools.	Number of schools.	Number of pupils on the rolls on the 31st March 1892.	Average number on the rolls monthly.	Average daily attendance.	Expenditure. From public funds. Provincial revenue	District Funds.	Municipal Funds.	From private funds. Fees.	Other sources.	Total.

						1,31,093		2,23,976		
1887-88 ...	2,247	46,038				1,17,214		1,90,659		
1888-89 ...	2,362	47,888				1,21,106		1,88,915		
1889-90 ...	2,153	45,690				1,20,171		2,06,788		
1890-91 ...	2,238	46,443				1,26,520		2,24,507		

This statement shows a material advance in female education during the year. There were 468 more girls' schools and 7,751 more pupils attending them; there were also 332 more girls reading in boys' schools. In Tippera there was an expansion from 276 to 499 schools, and from 3,724 to 6,972 pupils, which requires to be placed on a more substantial basis. It was not thought desirable to make over the control of grant-in-aid girls' schools to District Boards when the Local Self Government Act was passed, so that girls' schools in Board areas still continue to receive departmental grants. There has been an increase in the expenditure from district and municipal funds, but there is room still for further contributions from these sources. The Bethune School sent up 7 candidates for the Entrance, of whom 2 passed; the Dacca Female School sent 2, and 1 passed. Four females are reported in paragraph 138 to have obtained medical degrees of different orders of distinction. Mrs. Wheeler, the Inspectress of Schools, Calcutta, furnished examination returns of 6,096 pupils, but the number of schools examined has not been mentioned. There are in Calcutta 162 primary girls' schools with 5,516 pupils, but it is believed that she does not examine schools of all denominations, as some of the latter prefer to have their progress tested by the ordinary Inspectors: it is presumed that some of her examinees belonged to the schools which she visited outside head-quarters. As the extension to the mufassal districts of the special standards for girls' scholarships, originally sanctioned for Calcutta, had not proved successful, as no additional scholarships could be created, Sir A. Croft submitted, and Government approved, a suggestion for separating some portion of the district allotment for scholarships and confining it to the girls' schools and candidates that would adopt the special standards. Some action has been taken in this direction in the 24-Parganas and the Patna Division, and the matter should not be overlooked by the Director, as it is clearly the proper policy.

22. The slight variations in the statistics of European education may be seen from the subjoined figures. It will be observed that the tendency is for the number of schools to decrease and of the pupils to increase. It may be surmised that the depreciation in the value of silver will have some effect in the early future, if it has not already shown itself, in the number of Europeans under education in India. The figures for five years were—

Education of Europeans.

	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.
Schools ...	72	71	68	69	67
Pupils ...	6,541	6,682	6,710	6,829	7,098

The Government Boarding school at Kurseong had 90 students, instead of 81; the Government expenditure has been reduced by nearly Rs. 3,000, chiefly by an increase in the fees: the average cost of nearly Rs. 180 per scholar is still high. The 29 schools under Roman Catholic management afford education to 3,758, and the 14 Church of England schools to 1,698 children, out of the 7,098 above mentioned, the remainder belonging to other denominations. The total cost of European education in Bengal was Rs. 6,73,285, of which sum Government paid Rs. 1,78,923. The examination of European schools was conducted throughout the year by the Inspector, Mr. Bamford, and his assistant. It is alleged that the proper administration of the present complicated Code is beyond the power of one inspecting officer; but the Lieutenant-Governor is inclined to think that there must be some defect in it, when two officers are required to inspect 56 schools in a year. He would welcome, therefore, the introduction of a simpler system such as Mr. Bamford advocates, based upon sounder principles, of which the main feature would be the substitution of collective for individual examination—a system which would permit the Inspector to spend much more of his time actually in the schools, and would not necessitate the employment of an Assistant Inspector. The introduction of a collective method of examination is not, however, free from difficulty, as the individual passes now awarded have a recognized value as certificates connoting certain qualifications. The proposed substitution of the middle scholarship examination as the qualification in the cases mentioned by the Director requires further consideration: the Lieutenant-Governor desires, therefore, to be favoured with a report on the whole subject. The touring done by these officers would hardly be considered sufficient were it not that so many of the schools are situated in Calcutta. In the University Entrance examination the European boys and girls did better than the natives, but, like the latter, they fell off from the previous percentage of success, both in numbers and in the standard attained. There are now five schools upon the special list of those in receipt of fixed annual grants under section 33 of the Code, in the place of grants based on the results of the annual examinations. The Inspector writes in glowing terms of the character of the examination possible for schools on this list, and the Lieutenant-Governor is pleased to hear that he has been able thereby to obtain better knowledge of the schools than under a formal system of marking.

23. The number of Muhammadan pupils increased during the year from 415,428 to 448,847, and their ratio to the total number of youths under instruction from 28·2 to 29·2. The corresponding figures in 1890 were 433,653 and 29·06, so that the loss of last year has been more than recovered. These facts are satisfactory, but the Lieutenant-Governor hopes that there has been no falsification of the figures, as in Dacca in 1890, when fraudulent returns were made by subordinate inspecting officers of two municipalities. The figures should have been specially given for the Dacca Division, in which the increase in the number of Muhammadan pupils is said to be shared by all the districts. The number of pupils in lower primary schools, which went down from 278,902 to 271,222 last year, has risen this year to 295,622. The number in private institutions has risen from 86,779 to 93,640, of which the majority are schools that teach the *Koran* only; but there is a decrease in the number of elementary private institutions and in other schools not conforming to departmental standards. The actual expenditure of the Mohsin Fund exceeded the estimates, amounting to

Muhammadan education.

Rs. 66,596. The number of Muhammadan candidates successful at the University examinations for the last five years is shown as follows:—

	1888.	1889.	1890.	1891.	1892.
Entrance	113	54	125	110	85
First Arts ...	19	21	57	16	47
Bachelors of Arts ...	12	18	21	12	14
Masters of Arts ...	1	1	3	2	2

The decrease of successful Entrance candidates is regretable and is not explained. Mr. Tawney writes: "There is a serious falling off in the middle English and middle vernacular scholarship examinations. It was pointed out last year that every possible inducement is offered to Muhammadans, in the form of scholarships and prizes, to read for the examinations of the University, but nevertheless the results are a little disappointing. It must be admitted that those Muhammadans who do proceed to the highest degree of the University generally acquit themselves very well." In the general results of the central examination of the madrassas, 224 out of 270 candidates passed this year, as compared with 196 out of 248 last year. Three of the seven madrassas are maintained from Provincial revenues; the rest from the Mohsin Fund. The 1,628 pupils at the seven madrassas cost Government Rs. 27,457, and the total expenditure on their account was Rs. 62,388. At the Calcutta madrassa an athletic and sporting club was formed in November 1891, with the assistance of Government. The Nawab of Murshidabad's madrassa, which is chiefly a school for the Nawab's family, is exceedingly expensive for the number of pupils educated therein. Physical education is attended to here also. At the instance of the Assistant Inspector of Muhammadan Education, Dacca, the rule which forbids the admission of a boy above the age of 14 to any class in a zilla school below the fourth, has been relaxed in the case of Muhammadan candidates.

Education of aborigines and indigenous education.

24. The aboriginal population of Bengal includes the Sonthals and Kols, Dhangars, Uraons, Pathalíks, Paharias, Indo-Tibetans, Indo-Chinese, Indo-Burmese, besides the tribes on the Assam, Chittagong and Tippera frontiers. The number of pupils of these aboriginal races under tuition decreased by 100 exactly, from 29,757 to 29,657; the Christians were fewer by 121, but the non-Christians increased by 21. The divisions in which the aborigines chiefly live are Burdwan, Bhagalpur, and Chota Nagpur. In the first of these there were 3,026 pupils, in Bhagalpur 5,108, and in Chota Nagpur 17,684, of whom 2,858 were Christians and 14,826 non-Christians. As the Director includes in his returns 1,641 pupils from the Orissa Tributary Mahals, it is not understood why corresponding figures for the Chota Nagpur Tributary States have not been furnished. The four missions in Chota Nagpur maintained 146 schools as compared with 120 in 1890-91, and the pupils attending them increased from 3,680 to 4,914: the total expenditure on these schools increased from Rs. 32,577 to Rs. 33,993, and the Government expenditure from Rs. 9,069 to Rs. 9,435. The aboriginal pupils have gained a few more passes at the Entrance and other examinations than in the previous year.

25. Indigenous education, which declined to some extent in 1890-91, has nearly recovered the loss then recorded; the figures of the last five years are as follows:—

	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.
Schools ...	10,048	11,709	13,867	13,387	13,868
Pupils ...	96,721	117,284	139,603	132,057	139,594

These schools are chiefly of importance as representing the sites which the extended operations of the department may hereafter occupy; they only indicate the existence of a large number of these schools which ought to die out as Government schools become more numerous and more popular. The advanced schools for teaching Arabic or Persian increased by 148 and their pupils by 1,512, while the Sanskrit *tols* increased by 40 and the pupils attending them by 1,260. During the year the valuable report on these *tols* furnished by Mahamahopadhaya Mahesh Chandra Nyayaratna, C.I.E., Principal of the Sanskrit College, communicating the results of his inspection, was reviewed by

Government and published. The thanks of Government were conveyed to the Pandit, and certain expenditure was sanctioned by Government to further the revival of Sanskrit study in the indigenous *tols*. The Lieutenant-Governor took the opportunity of testifying to the desire of Government that the study of Sanskrit literature should be encouraged, and of appealing to the wealthy nobility and gentry in Bengal for their co-operation and support in the same cause. It is very gratifying to read the Director's observation that "there is every reason to hope that the people will promptly respond to this call for help in a cause for which they have already done so much."

The Central Text-book Committee.

26. For the last 17 years the Central Text-book Committee (which now consists of 17 members with Babu Bhudeb Mookerjea, C.I.E., as President) has been entrusted with the duty of selecting school-books out of the very large number of publications offered by private enterprise for its acceptance. It is composed of the best scholars available, all of them men of some distinction, and 16 of them Fellows of the Calcutta University. As Mr. Tawney observes, their position is such as to make them entirely independent, and there is not the smallest ground for any suspicion that they ever subordinate their duty to private influence. He gives an account of the procedure followed by the Committee in respect of every book submitted to them for examination. There are six Sub-Committees for the various branches of literature: the publishers and authors generally furnish sufficient copies of their works for the use of each member of the Sub-Committee concerned: each member reports on the work on certain definite points: these reports are tabulated in a book and duly considered at a meeting of the general Committee, after notice given: each book is then accepted either unanimously or subjected to further examination, and approved or rejected after fair discussion, or it may be referred back for re-examination. The proceedings of the meeting are printed and circulated and confirmed at the next meeting. The Director annually revises the list of text-books in accordance with the Committee's recommendations, and managers of schools are restricted to the use of the books named therein. It would be difficult to devise a system giving a better guarantee of fairness in original selection. At the same time, as Mr. Tawney points out, books which have been entered on the authorised list may become obsolete, or are superseded by later works, and for the purpose of revising the list of 690 passed books, a special Sub-Committee was lately appointed: their labours are not nearly concluded, and will be subject to the approval of the general Committee. The above remarks refer to their duties in connection with text-books for middle schools, but they have also undertaken to prepare similar lists of books for high and primary schools. In this connection they dealt with 476 works, approving 152 for school use, 82 for prizes and inclusion in school libraries, and declared 233 unsuitable for schools; nine were still pending. The numerous authors disappointed doubtless resent the unfavourable verdicts of the Committee. The Lieutenant-Governor is, however, satisfied that the General Committee, the Sub-Committees and the Branch Committees for Bihar and Orissa, have done a great deal of very useful work for which they deserve the thanks of Government. The only suggestion that it occurs to him to offer—and its principle is perhaps already acted upon—is that, when a book comes up for examination and discussion, a member of any Committee who is in any manner connected with the publisher or author should withdraw from the consideration of the particular work.

Conclusion.

27. The Lieutenant-Governor desires to express his acknowledgments to Sir Alfred Croft, K.C.I.E., for his successful administration of this important Department throughout the year 1891-92, and to Mr. C. H. Tawney, C.I.E., the present Officiating Director, for his Report on Public Instruction in Bengal for the same period. He feels that with such competent advisers the cause of education, which he has much at heart, will make steady and substantial progress in the Province; and from personal observation and enquiry he is aware of the zealous and successful manner in which the majority of the Principals and Professors, Inspectors, Assistant Inspectors, and the teaching staff, carry out the educational policy of Government.

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

Secretary to the Government of Bengal.

RESOLUTION ON THE REPORT FROM THE BOARD OF REVENUE ON THE ROAD AND PUBLIC WORKS CESS OPERATIONS FOR THE YEAR 1891-92.

FINANCIAL DEPARTMENT—ROAD AND PUBLIC WORKS CESS.

Calcutta, the 28th October 1892.

RESOLUTION No. 3984RP.

READ—

The Report of the Board of Revenue on the Road and Public Works Cess Operations for the year 1891-92.

DURING the year under review, the Road and Public Works Cesses continued to be levied at maximum rates in all the districts where Bengal Act IX of 1880 is in force, except in Backergunge, where the Road Cess was again levied at half of the maximum rate, the Public Works Cess being levied at full rates. The reason which first led in 1877-78 to the reduction of the Road Cess in Backergunge to half the rate was the distress caused by the cyclone of October 1876. It is reported that in 1882-83 the reduced rate was continued in consideration of the low price of grain and the heavy losses sustained from cattle disease. As was pointed out in last year's Resolution, these reasons have now spent their force, but the Board observe that the opposition of members of the District Committee, and subsequently of the District Board, who represent the zamindari interests of the district, has prevented an increase in the rate. The attention of the Commissioner should again be drawn to the matter, and pressure should be brought to bear on the District Board to induce them to abandon a position which is no longer justifiable.

2. The following statement shows the main results of the working of the Cess Act during the last two years:—

		1891-92.		1890-91.
Current demand	Rs.	79,67,933	Rs.	78,38,927
Arrear demand(*a*)	„	19,44,615	„	18,35,056
Gross demand	„	99,12,548	„	96,73,983
Advance collections ...	„	2,29,276	„	2,60,179
Net demand	„	96,83,272	„	94,13,804
Total collections	„	80,61,032	„	76,84,012
Remissions	„	25,453	„	12,661
Net balance(*a*)	„	18,35,454	„	19,33,855
Percentage of total collections on current demand	„	101·1	„	98
Percentage of current collections on current demand ...	„	83·3	„	81·8
Number of revenue-paying estates assessed		2,50,887		245,458
Number of revenue-free estates and rent-free tenures assessed...		1,10,386		117,900
Number of tenures assessed ...		1,282,711		1,258,247
Number of recorded sharers in estates		1,539,030		1,586,944
Number of recorded sharers in tenures		2,283,145		2,251,746
Current demand of land revenue	Rs.	3,78,53,979	Rs.	3,78,59,395
Present gross rental ...	„	14,78,83,221	„	14,60,45,236
Gross rental at first assessment ...	„	13,11,68,432	„	13,11,68,432

These figures have been taken from the statistical tables appended to the Report under review and the Report for 1890-91.

The increase of Rs. 10,760 in the arrear demand given above, as compared with the net balance of the preceding year, is explained by the Board to be due among other causes to revaluations with retrospective effect in the case of rent-free holdings, adjustments of accounts, and revisions of assessments. The collections of the year under review show a considerable improvement over those

(*a*) Excluding advance collections made in the current year on account of future years.

of the preceding year. The percentage of arrear collections on arrear demand was 70·6 against 68·8; and of current collections on current demand 83·3 against 81·8. The year closed with a balance smaller by Rs. 1,09,161 than that with which it opened. The remissions, however, were more than double those of the previous year, being Rs. 25,453 against Rs. 12,661. The largest item was in Burdwan (Rs. 7,640) on account of irrecoverable balances due from certain estates, khas mahals, and coal mines. Bad harvests and the statutory allowance of 15 days' grace to assessees under section 45 of the Act are said to have affected the collections in several districts.

3. In the following districts the current collections fell short of 90 per cent. :—

	Percentage of current collections on current demand.	
	1891-92.	1890-91.
Manbhum	64·7	77·7
Saran	66 2	65·2
Hooghly	69·1	70·7
Muzaffarpur	70·5	72·1
Monghyr	72·7	74·2
Faridpur	74 2	57·5
Jessore	74·6	73·1
Gaya	74·7	64·2
Champaran	75·7	73·4
Patna	76·1	74·4
Midnapore	76 9	82·3
Bankura	79·7	79·5
Rajshahi	82·6	79·4
Burdwan	83·6	83·6
Backergunge	84	82·4
Dinajpur	84·1	87·2
24-Parganas	85·3	86·2
Darbhanga	85·4	86·4
Dacca	86·1	84·8
Pabna	86·3	87·5
Khulna	86·5	83·9
Malda	86·6	89·3
Tippera	86·8	86·8
Murshidabad	88·4	89·1
Noakhali	89·9	90·2

Many and varied explanations are offered for the short collections in these different districts. It is a significant fact, however, that with the exception of Noakhali they all failed to collect 90 per cent. in 1890-91 as well as during the year under review. For the low percentage in Manbhum no valid explanation is given. In Saran, Patna, and Monghyr, continued bad harvests are mentioned as the causes of bad collections, aggravated in the case of Saran by the involved condition of some of the principal zamindars. In Muzaffarpur a delay occurred in carrying out the orders of Government giving effect to the revaluation from 1st April 1891, which resulted in the realization according to the new assessment commencing only at the end of September. The delay was further aggravated by the agitation raised by the Tirhut Landholders' Association, who prayed for a suspension of the new rates on the plea of scarcity, the cess-payers being led to believe that the movement would prove successful, while as a fact the application was rejected. In Gaya, where collections are said to have been affected by the failure of the crops, no compulsory measures could be taken to realize the large amount of cess due from the estates of a late zamindar, owing to his successor, in consequence of a dispute, not having succeeded in getting herself registered as proprietress of the estate. The short collection in Jessore is partially due to the difficulty experienced in realizing cesses from rent-free tenures, many of which cannot be traced, but the Lieutenant-Governor has read with regret the Board's remark that one cause of the poor realizations was imperfect supervision over the staff of the certificate department. The poor harvest is urged for Midnapore, where it was also discovered that through some mistake in the accounts the demands and balances shown in the returns of previous years were much less than the actuals. There was the usual difficulty in collecting cesses in Bankura from ghatwals and from some zamindars who are

reported to be in straitened circumstances. The short collections in Hooghly are ascribed to the failure of holders of rent-free tenures and owners of estates held in co-partnership to make voluntary payments. The poor results in Faridpur are ascribed to the difficulty in collecting cesses from petty estates which are held by a large number of shareholders.

4. In the 13 districts mentioned below, the arrear collections fell short of 80 per cent.:—

	Percentage of arrear collections on arrear demand.	
	1891-92.	1890-91.
Burdwan	14·2	17·8
Murshidabad	43	45·4
Bankura	51·3	55·4
Bhagalpur	57·4	80·2
Gaya	58·5	65·4
Puri	69·6	58·6
Shahabad	72·8	37·2
Balasore	73·6	87·8
Muzaffarpur	74·8	74·3
Saran	75·7	81
Jessore	76·2	76·9
Khulna	78·5	73·7
Hooghly	78·9	81·2

Nine of these districts, it is observed, also appear in the list of districts where current collections fell short of 90 per cent., and the same number failed to collect 80 per cent. of arrears last year. Burdwan again heads the list. The backward state of arrear collections in this district is ascribed to the large number of rent-free holdings, and arrears are said to be due in some cases for upwards of ten years. The Lieutenant-Governor is glad to be assured that energetic measures are being taken to put matters on a better footing. The reasons assigned for bad collections in Murshidabad are the indebtedness of a large number of zamindars, and the failure to collect in time the arrears due from rent-free tenures, in consequence of the difficulty experienced in tracing owners and their property. Bankura as usual pleads the difficulty of realizing cesses from ghatwals and rent-free tenures. The explanation of the low arrear collections in Bhagalpur, to the effect that certificates covering the arrears which accrued in 1890-91 were kept in abeyance pending satisfaction of certificates of older date, calls for further examination. The percentage for Puri, though better than in the preceding years, is yet far below the standard.

5. In eight districts arrears to the extent of Rs. 1,53,810 became barred by limitation, to which Burdwan alone contributed Rs. 1,49,347. The Board report that efforts are being made to adjust accounts and prepare a complete remission statement. The Lieutenant-Governor hopes that this operation may be completed without delay since there is manifestly no advantage in retaining in the district accounts claims which are for the most part nominal and not really due.

6. The number of districts, in which both current and arrear collections exceeded 90 per cent., rose from seven in 1890-91 to eleven in the past year:—

	1891-92.		1890-91.	
	Percentage of current collections on current demand.	Percentage of arrear collections on arrear demand.	Percentage of current collections on current demand.	Percentage of arrear collections on arrear demand.
Darjeeling ...	99·8	100	99·8	...
Hazáribágh ...	97·2	100	78·7	99·9
Jalpaiguri ...	94·4	100	90·9	99·7
Bogra ...	94	100	94·8	100
Lohardaga ...	93·5	99·9	92·6	100
Nadia ...	93·9	99·3	88·1	98·4
Purnea ...	93·4	99	85·1	97·3
Birbhum ...	94·8	97·1	90·1	96·8
Mymensingh ...	92·5	95·6	88·7	94·8
Rangpur ...	92·7	95·2	90·9	96·5
Chittagong ...	91·8	94·4	91·8	92·6

These results are creditable to the officers concerned, and show that the work of collection was carefully watched.

7. The following statement illustrates the working of the certificate procedure during the last two years:—

		1891-92.	1890-91.
Certificates pending from previous year	...	30,494	33,087
Filed during the year ...	...	84,984	59,942
Total for disposal	...	1,15,478	93,029
Cancelled on objection ...	...	912	573
Struck off	...	1,631	1,550
Fully discharged	...	63,211	59,746
Pending at close of year ...	...	49,724	31,160
Sales effected	...	791	629
Sales set aside	...	17	98

As usual, Chota Nagpur, where the business of cess collection is comparatively simple, shows the smallest number (609) of certificate cases instituted during the year, while the largest number of cases occurred in the Burdwan (29,177), Patna (20,210), and Presidency (13,698) Divisions. Among districts the largest number of certificates was filed in Burdwan (14,608), Hooghly (9,416), Darbhanga (6,696), and Jessore (6,262). These figures, as compared with those of the previous year, show increased activity in Burdwan, Darbhanga, and Jessore: in Burdwan this activity was displayed chiefly in the last quarter of the year. In Midnapore the number of certificates filed declined from 3,624 to 2,547, notwithstanding an increase in the current and arrear balance from Rs. 52,270 to Rs. 72,347. The cess administration of this district has been greatly neglected for some years past, and the Lieutenant-Governor trusts that the Board will now take steps to bring about a thorough reform. The certificate establishment is large, and with proper supervision there ought to be hardly any arrears. The general increase of the number pending at the close of the year from 31,160 to 49,724 is the most unsatisfactory feature in this statement.

8. As desired in last year's Resolution, the information given in the present report on the important subject of the valuation and re-valuation of estates and tenures for cess purposes is fuller than in the previous year. The districts of Purnea, Muzaffarpur, Hazáribágh, Lohardaga, Palámau, and Singhbhum have been completely re-valued, while partial valuations and re-valuations were completed in the districts of Bankura, 24-Parganas, Khulna, Rangpur, Bogra, Dacca, Faridpur, Backergunge, Mymensingh, Chittagong, Noakhali, Tippera, and Bhagalpur. The number of districts in which valuation or re-valuation work is in progress is shown in statement VII to be 25, but in three of these, namely, Darjeeling, Jalpaiguri, and Mymensingh, the actual work of valuation has been completed, and only the completion report is awaited.

9. Statistics comparing the gross rental for 1891-92, as deduced from the returns under the Cess Act, with the gross rental ascertained on the same basis when the road cess was first introduced, are given in statement VI appended to the report. The following figures compare the grotlss renal at first assessment with the gross rental in 1890-91 and in 1891-92:—

			Rs.
Gross rental at first assessment	...	...	13,11,68,432
Ditto in 1890-91	...	...	14,60,45,236
Ditto in 1891-92	...	...	14,78,83,221

Only eight districts show a decrease of gross rental in 1891-92 as compared with the gross rental at first assessment, the decrease being due in all cases either to transfer of areas from these districts to others or to diluvion.

10. In paragraph 56 of their Report the Board write:—"Orders were issued during the year under report that advantage should be taken of a re-valuation to amalgamate petty rent-free tenures, which have been paying cess direct to the Collector, with the estates within which they lie; the zamindar will then be responsible for the cess, and much difficulty in the way of realizing the demand will be avoided. If, however, the sacrifice involved by surrendering half the cess to the zamindars, as provided for by section 51 of Act IX (B.C.) of 1880, appears excessive, the special instructions of the Board are to be taken."

This question lately engaged the attention of Government in connection with a representation from the British Indian Association, praying that under section 66 of the Act the cesses on rent-free lands might be levied direct from the rent-free holders instead of through the agency of the zamindars and tenure-holders. The Board argued that it was practically impossible for the work to be done by the Collector where these rent-free tenures were very numerous, and that the tenures themselves had been created by the direct action or the *laches* of the landlords. These arguments appeared to Government to be unanswerable, and to justify the instructions issued by the Board; but with reference to the Association's representation, the Board were requested to add a proviso to their orders to the effect that where rent-free tenures are so few that the task of direct collection of the cess is not a serious consideration, it shall be undertaken by the Collector, if the zamindar so request. A satisfactory solution of the difficulty seems to lie in the completion of a cadastral survey and record of rights, and the Lieutenant-Governor is prepared to undertake that, in any estate where such survey and settlement have been carried out, the collection of cess shall be made, if the zamindar wishes it, direct from the rent-free tenants.

11. The names of the Deputy Collectors whose work has been favourably mentioned by Commissioners are given in paragraph 17 of the Board's report, but it is not apparent in all cases on what grounds the selection has been made. The Lieutenant-Governor desires that without special reasons, which should be stated, no Deputy Collector should in future be commended who has failed to collect 80 per cent. of the arrear demand and 90 per cent. of the current demand.

The thanks of the Lieutenant-Governor are due to the Board for their careful administration of the department and for the present report.

By order of the Lieutenant-Governor of Bengal,

J. A. BOURDILLON,

Offg. Secretary to the Government of Bengal.

RESOLUTION ON THE BOARD'S LAND REVENUE ADMINISTRATION REPORT FOR THE YEAR 1891-92.

REVENUE DEPARTMENT—LAND REVENUE.

Calcutta, the 29th October, 1892.

RESOLUTION No. 3743.

READ—

The Report of the Board of Revenue on the Land Revenue Administration of the Lower Provinces for the year 1891-92.

The Report, which was due to Government on the 15th August, was not received until the 5th September, but this delay has been satisfactorily accounted for by the Board. The Lieutenant-Governor has observed with pleasure the various improvements introduced into the compilation of the report, but he notices that it has increased in length from 48 to 64 pages, and would be glad if the Board would condense their remarks as much as possible in future years. Some suggestions leading to reduction of matter are contained in a separate letter of this date addressed to the Board of Revenue. The maps attached to the report have been prepared to show the survey-settlement operations recently effected, in progress, and in contemplation, and are very useful in exhibiting their general extent and situation at a glance. It will be a further improvement and facilitate reference if the Board will show in the index (1) the names of the districts of which maps are furnished, and (2) the subjects of the XXV Appendices.

COLLECTION OF THE LAND REVENUE.

Classification of estates and standard of collections.

2. Under the orders conveyed in paragraph 4 of the Resolution on the Report for 1890-91, estates have in the Report now received been classified as—

I. Permanently-settled estates.
II. Temporarily-settled estates.
III. Estates held direct by Government.

In describing these three classes, the Board have in a few places relapsed into the previous fourfold classification, and described Class III as Government estates, whereas that class now represents such estates, whether the property of Government or of private individuals, as for any reason are held by Government direct. The error of description is, however, immaterial, as the actual classification of the estates has been correctly carried out. The distinction between estates settled for a term or farmed or leased out, and estates held direct by Government, has not, however, been observed, as was the intention of the Lieutenant-Governor, in determining the standards of collections which Collectors are expected to attain as the minima in each class. A standard of 99 per cent. on the current demand for permanently-settled estates was fixed by Government, and for other classes of estates the Board have fixed the following standards:—

95 per cent. for temporarily-settled estates settled for a term with the proprietors;
90 per cent. for—
(a) estates under direct management;
(b) temporarily-settled estates whether belonging to Government or private persons, leased to farmers.

If the intention of Government had been understood and followed, the standards would have been thus laid down—

99 per cent. for permanently-settled estates;
95 per cent. for temporarily-settled estates and estates whether belonging to Government or individuals, farmed or leased for a period;
90 per cent. for estates held direct by Government.

The above standards should be prescribed in future as the lowest percentage of collections on the current demand which will avoid the necessity of explanation. In each case Collectors will have to be careful that the balances are not overlooked, but are accounted for in the ensuing year.

Financial results.

3. The current demand on account of the land revenue in Bengal for the past five years is exhibited in the following table:—

Class of Estates.	1887-88.	1888-89.	1889-90.	1890-91.	1891-92.
1	2	3	4	5	6
	Rs.	Rs.	Rs.	Rs.	Rs.
I. Permanently-settled estates	3,22,91,720	3,22,90,777	3,22,92,924	3,22,91,318	3,22,47,951
II. Temporarily-settled estates	57,24,683	58,22,328	58,09,904	23,91,601	26,76,096
III. Estates held direct by Government ...				31,84,778	32,38,128
Total ...	3,80,16,403	3,81,13,105	3,81,02,828	3,81,67,697	3,81,62,175

The classification of the estates and their corresponding collections have been readjusted for the year 1890-91 for comparison with 1891-92. The variations are the result of details of no great importance. The aggregate current demand is Rs. 5,522 less than in the previous year.

4. The demands, collections, remissions, and balances for the same period of five years are shown in the following statement:—

Year.	Demand. Current.	Demand. Arrear.	Demand. Total.	Collections. Current.	Collections. Arrear.	Collections. Total.	Remissions.	Balances. Current.	Balances. Arrear.	Balances. Total.	Percentage of total collections to total demand (column 7 on column 4).	Percentage of total collections to current demand (column 7 on column 2).	Percentage of current collections on current demand (column 5 on column 2).
1	2	3	4	5	6	7	8	9	10	11	12	13	14
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.			
1887-88 ...	3,80,16,403	19,17,014	3,99,33,417	3,62,58,301	15,81,740	3,78,40,041	23,820	17,56,538	3,13,018	20,69,556	94·75	99·53	95·37

By the addition of columns to the Appendices, as desired in the Resolution on the report for 1890-91, to show the rates of the current collections to the current demand, and of the arrear collections to the arrear demand, and by the omission of certain columns of less importance from the statements, the actual work of the year is more clearly shown than formerly.

Collections, balances, and remissions.

5. The current demand, as already noticed, was very slightly less than that of the previous year, but the current collections were Rs. 2,54,195 higher; so that the percentage of current collections on current demand reached nearly 97, a higher figure than in any recent year. The total collections were Rs. 2,45,490 less than in 1890-91, for the reason that the arrear balances had been comparatively reduced in that year, viz., to Rs. 17,85,164, the lowest figure attained up to that date. Out of the arrear balances a large proportion was collected, so that the total balances have again been materially diminished, viz., by three lakhs. The percentages of the collections as viewed in the various aspects represented in columns 12 to 14 of the above statement show better results than had been previously attained. The Lieutenant-Governor cannot but attribute this measure of success to the attention which has been drawn to the subject, and trusts that the Board will continue to press the District Officers to work up to higher percentages. The remissions amounted to Rs. 50,166, attributable to the same causes as in previous years. It appears that Rs. 39,953, *i.e.*, nearly four-fifths of this Rs. 50,166, were granted in estates under direct management, and only one-fifth in classes I and II.

Permanently-settled estates.

6. The total demand, current and arrear, from estates in Class I was Rs. 3,29,22,212, of which Rs. 3,22,71,380 were collected. The percentage, after excluding from the demand sums in suspense during the year, and adding to the collection the sums collected but not credited during the year, was 98·41. Adhering strictly to the accounts the actual percentage of current collections on the current demand was 98·21. Sixteen districts failed to reach the prescribed standard of 99, but out of them eleven collected over 98 per cent. The worst figure is shown by the Patna district, which only collected 88·39 of the current demand,

so that the year ended with a total balance, current and arrear, of as much as Rs. 1,63,532. It is stated that, of this balance, Rs. 1,41,251 are due from estates which defaulted at the 28th March kist. Some explanation should have been given of the reason why so large a proportion as over 10 per cent. on the total current demand of the district (Rs. 14,09,221) came to be in default in a single kist. The balance at the close of the year was, however, slightly less than at its beginning.

In the collections of the arrear demand, ten districts did not attain to the 99 per cent. standard, and five did not even collect 80 per cent. There can seldom be a sufficient excuse for not collecting almost the whole of arrear demands, so that these figures can only be regarded as unsatisfactory. In Champaran, the amount collected was only 1·77 per cent. on the arrear demand, and the district was left with an arrear balance of Rs. 62,103 at the close of the year, owing, it is said, to the frauds lately discovered in the Tauzi Department. It is presumed that some reluctance was felt in taking steps to recover this arrear balance until the accounts could be completely examined. It is satisfactory to see that this one district accounts for five-sixths of the total arrear balance of the whole Province (Rs. 75,827). Sir Charles Elliott is glad to see that all arrears from permanently-settled Wards' Estates have been realised since the close of the year.

Temporarily-settled estates.

7. Class II, of temporarily-settled estates, is sub-divided under three heads—

(a) those settled with proprietors,
(b) private estates leased to farmers,
(c) Government estates leased to farmers.

The standard laid down by the Board for (a) is 95 per cent., and for (b) and (c) 90 per cent., but the intention of Government was to prescribe a standard of 95 per cent. for all of these classes, and Sir Charles Elliott requests the Board to issue further instructions to this effect.

The actual results for the Province are 93·02 per cent. in respect of current collections on current demands, and 92·7 per cent. in respect of total collections after excluding from the demand sums not actually recoverable, and adding to the collections sums levied but not credited during the year.

The following table shows the results of collections in each sub-division of this class of estates for the two years 1890-91 and 1891-92:—

Classification of Estates.	Years.	Percentage of current collections on current demand.	Percentage of arrear collections on arrear demand.	Percentage of total collections on total demand.
1	2	3	4	5
(a) Settled with proprietors ...	1890-91	96·80	85·40	96·41
	1891-92	97·06	90·74	96·80
(b) Private estates leased to farmers.	1890-91	78·84	59·05	69·55
	1891-92	70·91	41·59	61·31
(c) Government estates leased to farmers.	1890-91	80·60	77·35	79·97
	1891-92	81·97	82·70	82·12
Total ...	1890-91	92·52	74·33	90·71
	1891-92	93·02	77·99	91·64

There is an improvement as compared with last year in every respect in (a) and (c), but a retrogression in each column under (b). An allusion is made again to the difficulty of recovering outstandings from farmed estates in Eastern Bengal, with special reference to certain private estates leased to farmers in Backergunge, and it may be admitted that more difficulty is to be expected in collecting revenue from estates of this class which the proprietors themselves have refused to manage, probably on account of these difficulties. But still if the assessment fixed is reasonable and proper security taken from the farmers, there is no reason why the collections should not be punctually made.

Taking the standard of 95 per cent. for the estates under each of the three heads (a), (b) and (c), it was attained only in the following districts for all classes of temporarily-settled estates which exist in the district in respect of the

current demands, viz., Birbhum, Rajshahi, Darjeeling, Chittagong, Darbhanga, Sonthal Parganas, Cuttack, Puri, Balasore, Hazáribágh, Singhbhum, and Manbhum. With regard to the district totals, the worst collections are shown in the Dacca District, where the percentages of the current collections on current demand were from (*a*) estates 73·49, from (*b*) estates 33·53, from (*c*) 42·19. The current balances at the close of the year were highest in Backergunge, where they amounted to Rs 38,044. In Midnapur, the Basudebpur Ward's Estate appears to have been classed as an estate settled for a term with the proprietor instead of having been included, as Wards' Estates should be, under the estates managed direct by Government. The following districts failed in all three sub-classes to reach the standard of 95 per cent. in respect of the collections of even arrear demands:—Burdwan, Hooghly, Dacca, Mymensingh, Gaya, and Champaran.

The worst arrear balances are shown in the Mymensingh district, to the amount of Rs. 11,659. Of this sum Rs. 10,723 are due from the late farmer of twenty-two *diara* estates in the Jamalpur sub-division. The Sub-divisional Officer is said to be trying to realise as much as he can, but the case is not hopeful, as the farm was a discreditable one, made with a man of no means, who was not called upon to give any security.

Estates held direct by Government.

8. Class III, of estates held direct by Government, is sub-divided under two headings:—

(*a*) those managed for proprietors,

(*b*) those owned by Government as proprietor.

After excluding demands not due during the year, and including collections realized but not credited, the net demand was for both classes together Rs. 39,26,999, and the collections Rs. 34,08,804, so that the percentage of total collections on total demand was 86·7. The following statement omits these considerations, and compares the percentage of actual recorded collections with those of the previous year:—

Sub-class.	Years.	Percentage of current collections on current demand.	Percentage of arrear collections on arrear demand.	Percentage of total collection on total demand.
1	2	3	4	5
(*a*) managed for proprietors	1890-91	65·76	55·50	61·37
	1891-92	70·38	68·05	69·50
(*b*) owned by Government	1890-91	85·32	75·19	83·62
	1891-92	90·47	73·08	87·99
Total ...	1890-91	82·23	67·17	78·25
	1891-92	87·24	71·01	84·14

The figures show an improvement on last year in both sub-classes, and the collections on account of the current demand in the Government estates are good. The figure (70·38) for estates managed for proprietors, though a good deal better than last year, is still not as good as it should be.

In 14 districts the standard of 90 per cent. for current collections was reached under both sub-classes (*a*) and (*b*), and in nine more districts under one or other of the two sub-classes. For the rest of the districts the explanation of the low percentage attained is commonly either that the amounts will be realised by the certificate process, or that the bad crops of the season interfered with collections. In Midnapore the percentages of current collections on current demand were only 48·48 for (*a*) sub-class and 69·10 for (*b*) sub-class estates, the current balances being Rs. 1,14,765 and Rs. 8,229, respectively. The same district shows also the largest arrear balances, viz., (*a*) estates Rs. 84,270 and (*b*) estates Rs. 662. In both cases the Collector reports that the arrears, which are chiefly due from the Majnamutha and Bhowani Chak Estates, are in course of recovery by certificates.

Particulars of estates held direct.

9. Excluding the Angul estate in Orissa, full particulars of which have not been given in the Report for 1891-92, there were altogether 2,280 estates held direct by Government, of which 1,982 were Government estates and 298 private estates managed by Government for various reasons.

The following statement shows the numbers of these estates by divisions, the demands, cost of management, and total collections during the year:—

Division.	Government Estates.		Private Estates.		Total.		Cost of management.	Percentage of cost on current demand.	Current collections.	Percentage of current collections on current demand.
	Number.	Current demand.	Number.	Current demand.	Number.	Current demand.				
1	2	3	4	5	6	7	8	9	10	11
		Rs.		Rs.		Rs.	Rs.		Rs.	
Burdwan ...	402	63,694	5	2,23,807	407	2,87,501	23,121	8	1,58,683	55·1
Presidency ...	211	3,29,245	54	13,475	265	3,42,720	14,411	4·2	3,05,729	89·2
Rajshahi ...	107	4,56,790	39	10,320	146	4,67,110	28,556	6·1	4,32,[illegible]92	92·6
Dacca	564	3,73 3·3	115	1,22,405	679	4,95,768	37,606	7·5	4,56,655	92·1
Chittagong ...	207	5,64,228	26	12,556	233	5,76,784	60,319	10·4	5,29,123	91·7
Patna	161	2,13,510	47	34,288	208	2,47,798	20,348	8·2	1,89,831	76·6
Bhagalpur ...	122	2,70,817	6	12,268	128	2,83,085	25,631	9	2,44,593	86·4
Orissa	28	3,38,306	5	73,273	33	4,11,579	15,883	3·8	3,84,561	93·4
Chota Nagpur...	180	74,683	1	17,783	181	92,416	2,316	2·5	90,525	97·6
Total ...	1,982	26,84,636	298	5,20,125	2,280	32,04,761	2,28,191	7·1	27,92,592	87 1

In the Rajshahi, Dacca, Chittagong, Orissa, and Chota Nagpur Divisions, the percentage of current collections on the current demand exceeded 90 per cent., the recognised standard. The worst results in the whole province are shown by the Burdwan Division, owing to the very bad collections in the Midnapore district, which have been already mentioned.

The figures given in Appendix VI for cost of management are open to doubt, as it is not certain whether they are prepared on a uniform system. Taking them, however, as they stand in six districts, the percentage of the cost of management on the current demand is over 10 per cent. In his inspection note written at Bogra (which stands third among these six districts with a cost of 14·7 per cent. on the current demand) in August last the Lieutenant-Governor pointed out that the establishment of peons and paiks maintained for the collection work in the Government estates there was excessive, as there are patwaris in the villages who receive a substantial commission for making collections.

The report shows the number of khas mahals in Chittagong as six only, but this is misleading, as there are in reality an enormous number of petty estates grouped together in five tahsils, each under a separate tahsildar, the current demand of the whole being nearly four lakhs of rupees. Similarly in Jalpaiguri there are five recorded estates which include the three Tahsildaris of the Duars with a great number of petty "jotes" now under settlement, and in Darjeeling there are several large tracts of country managed by Government which are shown as one estate. The Lieutenant-Governor does not wish to alter this nomenclature, which was deliberately adopted some years ago, but the fact must be borne in mind that the word "estates" when used in this connection has very different meanings in different districts.

Road and Public Works Cesses.

10. In this Report and Resolution the subject of the Road and Public Works Cesses is only referred to briefly, as it is separately discussed in a special report. The results of the last quinquennial period are shown in the following statement:—

Year.	Demands.			Collections.	Remissions.	Balances.	Percentage of balances on gross demand.
	Current.	Arrear.	Total.				
1	2	3	4	5	6	7	8
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1887-88 ...	76,13,146	16,61,558	92,74,699	75,35,113	16,498	16,98,409	18·3
1888-89 ...	76,19,896	17,20,662	93,40,558	74,86,777	20,925	17,98,942	19·2
1889-90 ...	76,60,539	18,04,134	94,64,673	77,54,684	76,885	16,58,728	17·5
1890-91 ...	78,38,927	18,35,056	96,73,983	76,84,012	12,661	19,33,855	19·9
1891-92 ...	79,67,933	19,44,615	99,12,548	80,61,032	25,453	18,35,454	18·51

The current collections are not shown in this report, but the total collections amounted to Rs. 80,61,032, or 81·3 on the gross demand. There was an improvement in respect of both collections and balances over the preceding year, but column 8 of the above statement shows that the percentage of balances was lower in 1889-90 than in 1891-92. The Board explain that the collections would have been much better but for the provisions of section 45 of Act IX (B.C.) of 1888, which allows 15 days' grace before any penalty for default is imposed. This section, it must be remembered, is not new, and has affected the collections for years past. As, however, the kist day is as late as the

28th March, it is evident that even if the provisions of section 45 were abolished, any arrears due for that date could not be realized within the year. The Lieutenant-Governor agrees in the hope expressed by the Board that the improvement in collections manifested in 1891-92 will be continued in 1892-93.

Revenue and rent money-orders.

11. The system of payment of revenue and cesses by money-order is reported to be popular and to have worked well. Its development can be traced from the following figures:—

Year.	Number.	Amount of revenue paid.	Average value of each order.
		Rs.	Rs. A.
1887-88	47,248	2,07,156	4 6
1888-89	92,402	6,60,800	7 2
1889-90	139,535	11,11,353	7 15
1890-91	160,892	15,64,268	9 11
1891-92	167,229	14,08,037	8 12

The increase in the number of orders, combined with the decrease in the amount remitted as compared with the year before, is attributed to the restoration of the privilege of paying land revenue by remittance transfer receipts. This might account for the decrease, but hardly explains the increase in question. It is reported that the system would be still more popular were it not for the rule that the despatch of the revenue by a money-order does not free the estate from sale unless the money is received in the treasury before the latest day of payment. The rule is clearly a proper one, and cannot be relaxed. Government is entitled to require the payment of its revenue at the treasury by the appointed time, and it is the business of the payer to despatch his revenue in time to secure such payment. There is no reason why the time of Government officers should be taken up in considering whether such payments were despatched in time or not. As a matter of fact, however, when the revenue has been received in the treasury before the date of sale, it is for the Collector to consider whether the sale should not be stopped, and it is believed that this has been done except in a few instances where sale has been allowed to proceed through some mistake. At the same time any tendency to make the date of sale a later kist day cannot be allowed, and Collectors should watch the action of revenue-payers in this respect. It is also said that the system is objected to because a payer remitting by money-order has to part with his cash a few days earlier than he would otherwise have to do. This appears to be a fallacy, inasmuch as it would take as long to send the revenue by messenger as it does to send it by post. The district in which the amount of revenue remitted by money-order was largest was Faridpur, but by far the largest amount of orders were used in Chittagong, where Rs. 1,04,631 were despatched by 24,069 orders.

The system of payment of rent by money-orders under section 54(2) of the Bengal Tenancy Act was first authorised in July 1889 in the Burdwan Division, and extended in the following July to the Divisions of Rajshahi, Dacca, and the Presidency, and again in July 1891 to all parts of Bengal in which the Tenancy Act is in force.

The following table shows the extent to which the privilege was used during 1891-92:—

Division.	Number of money-orders issued for rent.	Amount.	Number of such orders refused.	Amount.
1	2	3	4	5
		Rs.		Rs.
Burdwan	12,917	1,17,682	4,375	32,858
Presidency	5,862	95,537	2,372	25,773
Rajshahi	6,832	1,36,021	1,757	26,734
Dacca	3,798	48,787	1,406	12,398
Chittagong	3,815	44,368	699	10,849
Patna	3,369	38,217	1,400	11,169
Bhagalpur	1,351	27,207	535	7,372
Total ...	37,944	5,07,819	12,544	1,27,153

It will be seen that out of 37,944 orders issued, as many as 12,544 or 33 per cent. were refused, the reason of the refusal being, it is said, in almost all cases either that the whole amount claimed by the landlord was not tendered in the order, or that the tenant entered in the *dakhila* portion of the order a description of his holding which the landlord would not accept, for fear of being held to have admitted the correctness of the entry. The Lieutenant-Governor agrees with the Board that the system is calculated to work well in districts which have been legally settled, and where there can be no dispute as to the status of the raiyat or the amount of rent payable. The percentage (33 per cent.) alluded to above is in fact the measure of the ratio in which disputes exist between landlord and tenant, such as only a cadastral survey and a record of rights can clear away.

Operation of the Sale Laws.

12. During the year, 1,015 whole estates and 353 shares, bearing an aggregate revenue of Rs. 1,52,802, were sold, as compared with 1,071 estates and shares bearing a revenue of Rs. 1,61,673 in the preceding year. Under this head the Board again notice the fact that cases in which revenue despatched by money-order does not reach the Treasury until after the latest day have to be technically treated as defaults. The Board add: "In some cases sales actually took place. This cannot, however, be avoided." Such cases are doubtless defaults, but the Lieutenant-Governor cannot agree that sales cannot be avoided. The previous history of the estates should be examined; and it will be easy to ascertain whether it has repeatedly defaulted, and whether the default under consideration is deliberate or accidental, attributable to negligence on the part of the payer or on the part of the Post Office. As it has been ruled that no revenue money-order is to be refused, but that all are to be accepted on account, the Lieutenant-Governor cannot lay down another rule that no estate is to be sold which has been allowed to pay in its default by the day of sale; for the effect of such rules together would be to allow the system of payment by money-orders to convert the day of sale into a later kist day and practically abolish the existing kist day. It is for Collectors to be guided in particular instances by the considerations above indicated, and to take care that no unnecessary harshness is shown to the payers of land revenue.

On the whole, it appears from the Report that the sale laws have been administered with adequate moderation and regard for the payers. The highest proportion of sale to defaults was in the Chittagong district, where the percentage was 26·6, but the defaults in the district had become very common, and formed a special reason why undue leniency should not be shown. In the Patna district, where the percentage of sales on defaults was as low as 3·1, a little more rigour would have been justified, had it not been for the serious deficiency in the harvest, which was a special reason for leniency. Particular attention was paid during the year, under the orders of Government, to checking the advertisement of estates for sale on account of arrears of a few annas or pies only. A proposal was also made by the Board to dispense with advertisement in the case of shares of estates of which the revenue is under Rs. 500, thus extending to shares the practice which has hitherto held with regard to whole estates. This proposal has since the close of the year received the approval of Government.

The long delays which at present take place in many districts before estates are brought to sale are attributed by the Board to weakness of establishments, and in support of the theory a table has been inserted showing the number of tauzi muharrirs and average of chálâns dealt with per man in some of the districts where the worst delays have occurred. The figures show plainly that the establishments have not been proportioned to the work, the result being, as the Board rightly point out, the abnormal delays alluded to; but the Lieutenant-Governor is of opinion that a further cause is to be found in the slackness of the staff. The orders which will issue on Mr. Macpherson's Tauzi Report will tend to simplification of procedure, and these, combined with a revision of establishments, should result in great improvement in this branch of the Collectorate work. The district (Saran) in which the average number of days of delay is greatest has already been granted an increase of establishment which has doubled its tauzi staff.

Working of the Public Demands Recovery Act VII (B.C.) of 1880.

13. The following statement shows the numbers of certificate cases instituted and disposed of during the year under the different classes of demands:—

	Number pending from last year.	Number filed during the year.	Total.	Disposed of during the year.	Pending— More than six months.	Pending— Less than six months.	Pending— Total.
1	2	3	4	5	6	7	8
Demands of all kinds under section 5	737	1,834	2,571	2,148	108	315	423
Arrears of rent due to Government, clause 6, section 7.	4,752	18,304	23,056	18,451	1,400	3,205	4,605
Embankment dues, section 50, Act VI (B.C.) of 1873.	3,090	3,633	6,723	5,327	218	1,178	1,396
Water-rates, Act III (B.C.) of 1876	13,853	15,228	29,081*	23,011	1,993	4,077	6,070
Cess Act IX (B.C.) of 1880.	30,827	87,507	118,334	67,648	12,541	38,145	50,686
Demands of the Court of Wards, clause 7, section 7.	13,704	13,299	27,003	17,148	8,107	1,748	9,855
All other demands under section 7	11,562	19,895	31,457	20,492	3,097	6,968	10,065
Total ...	78,525*	159,700	238,225	154,225	28,364	55,636	84,000
Last year ...	......	142,878	......	157,220	37,169	41,355	78,524

* Corrected figures.

Taking the figures for all kinds of demands together as a whole, the only redeeming feature of the year's work is the decrease in the number of cases pending over six months from 37,169 to 28,364. Examining the classes of demands separately, a satisfactory decrease in institutions is observed in the water-rate collection department, as is shown by the following figures:—

	Filed in 1889-90.	Filed in 1890-91.	Filed in 1891-92.
Districts of the Orissa Division ...	8,594	13,596	8,634
Ditto Patna do. ...	6,954	4,908	3,167
Ditto Burdwan do. ...	13,919	7,739	3,427

This decrease is due not only to the causes assigned by the Board, viz., the greater exertions of the collecting staff and the raising of the process-fee on the issue of certificates, but also to great improvements in the system of collections on the Sone Canals, for which the chief credit is due to Mr. Odling, lately Superintending Engineer in charge, and now Joint-Secretary to Government in the Public Works Department; this system is now being introduced in Orissa and Midnapore, and the Lieutenant-Governor trusts that similar good results may be obtained there also.

The number of certificates filed for recovery of demands due in wards' estates shows an increase from 10,975 in the previous year to 13,299. The number in this class will, however, diminish in future in consequence of the Government order that certificates are not to be issued except when the claim is undisputed, or has been fixed by settlement proceedings. The Lieutenant-Governor agrees with the Board in regarding with satisfaction the decrease in the number of certificates filed for rent due to Government, as being a sign that rents are now collected more frequently by the ordinary methods.

Compulsory measures for realization.

14. There was a satisfactory decrease in the total number of cases in which compulsory measures of sale were necessary from 6,593 to 3,552, but the Lieutenant-Governor regrets to see that there was an increase from 63 to 71 in the number of persons imprisoned, who were eventually released without payment of the debt. In the Resolution on the Land Revenue Report for 1890-91, it was laid down that imprisonment should be discouraged and only resorted to when the officer ordering it is satisfied that the defaulter is concealing property. The Board have now called the attention of Collectors to this order, and His Honour hopes that very different figures will be shown for the year 1892-93. The same remarks apply to the case of persons (of whom there were 45) imprisoned for non-payment of Government demands, such as Government rent, income-tax, and excise dues.

ADMINISTRATION OF THE LAND REVENUE.

Estates under direct management.

15. Two distinct funds have been provided for the management, improvement, and protection of estates under the management of Government. These are—

I.—A fund of 12 per cent. deducted from the collections from the following classes of estates:—

(a) Government estates of all descriptions, whether held khas or farmed.

(b) Private estates managed direct by Government or let on farming lease.

Of the 12 per cent. set aside under the orders of the Government of India, 1 per cent. is devoted to purposes of education, 1½ per cent. to communications, and 2 per cent. to exclusively sanitary improvements. The remaining 7½ per cent. on the collections is intended for the management proper and miscellaneous improvements in the estates. The rule is that only works of improvement which will benefit the estates, but cannot be expected to yield a direct return to Government as proprietor, should be charged against this fund.

II.—A separate fund, known as the Agricultural Public Works Grant, of which the amount is sanctioned yearly by Government on the estimates of the local officers submitted through the Board of Revenue. This grant is intended for such works as irrigation, drainage, or embankments, necessary for the increase or maintenance of the land revenue from Government or temporarily-settled estates.

It is desirable to call attention to these principles and the rules affecting these funds, as there is considerable confusion in the paragraphs of the report which deal with this subject.

The total fund of 12 per cent. on the collections amounts to Rs. 69,624 in the case of temporarily-settled estates, and Rs. 3,81,998 in the case of estates held direct by Government, or in all Rs. 4,51,622; but from this should have been excluded, under Rule 10, Chapter III, Section II of the Board's Miscellaneous Volume of Rules, 1888, the sums of Rs. 2,862 and Rs. 80 deducted in Tippera from the collection from estates settled for a period with the proprietor. This reduces the total 12 per cent. fund to Rs. 4,48,680, of which one-sixth or Rs. 74,780 has, under the recent orders of the Government of India, to be devoted to strictly sanitary improvements. In paragraph 93 of the Report a table is inserted showing the expenditure of Rs. 99,529 in the different Divisions which apparently is chargeable to this grant.

The amount placed by Government at the Board's disposal for the management and improvement grant proper (*i.e.*, the 7½ per cent.) was Rs. 2,83,438, but it appears that something in excess of this amount was actually spent, though the figures are not yet finally adjusted. The remarks made in paragraph 8 of the Resolution on the Wards' Report are applicable to the Government estates. The managers of these estates should draw up programmes of useful works, which should be sanctioned by the Collectors and Commissioners, and should be executed out of these Improvement Funds whenever money is available.

The 1½ per cent. grant for communications is everywhere amalgamated with the General District Road Fund, and the Board deprecate any change in this procedure. The Lieutenant-Governor agrees that it will be sufficient if Collectors see generally that the Government estates receive a full degree of attention from the District Boards.

The Agricultural Public Works Grant placed during the year at the Board's disposal amounted to Rs. 88,000, but besides this a special grant of Rs. 13,068 was separately sanctioned for gilandazi work in the Gaya district. Out of the total grant of Rs. 1,01,068 thus made up, something over Rs. 76,141 was spent, the exact figure not being known owing to want of returns from the districts of the Orissa Division.

The Lieutenant-Governor desires that in future the Board will be good enough to include in this Report a statement showing in all necessary detail, and for each district, what sums are spent under these various heads, viz., 1*st*, the 7½ per cent., (*a*) management proper, (*b*) miscellaneous improvements; 2*nd*, the 2 per cent. for exclusively sanitary improvements; 3*rd*, the Agricultural Public Works Grant for revenue-protecting works.

Inspection of accounts.

16. Of the nine Commissioners, only those of Burdwan, Rajshahi, Patna, and Orissa,—Messrs. Power, Nolan, Hopkins, and Toynbee,—made any inspections of Government khas tahsil offices. Messrs. Nolan and Toynbee inspected two khas tahsils each, and Messrs. Power and Hopkins one each. In seven districts the Collectors

and Deputy Commissioners made no inspections at all. Mr. Savage, the Collector of Backergunge, deserves special notice for his inspections of tahsil offices. The Board have made no reference to the opinion expressed in paragraph 21 of the Resolution on the Board's report for 1890-91 that proper security should be furnished by all officials concerned with khas mahals; the Lieutenant-Governor desires therefore to be informed what action has been taken in the matter.

Surveys.

17. Most of the surveys in progress in Bengal have come under review by Government in a separate Resolution, and need not be referred to again here. The survey of the town of Calcutta under Colonel W. H. Wilkins was continued during the year. The work may be divided into two main heads—the survey work proper, and the settlement of boundaries of holdings including questions of title. The survey work proper has been finished, and it remains to complete the maps after the decision of all boundaries and title disputes. In this latter work there has been very great delay, owing to the difficulty of making the proprietors attend to point out their boundaries. In a recent inspection of the office, the Lieutenant-Governor pointed out that sufficient use had not been made of section 6 of Act I (B.C.) of 1887, under which, if the owner does not attend after due service of notice, the survey can go on, and the owner is bound by it as if he had been present. Orders have issued to the effect that section 6 should be enforced much more generally, and that, if owners are absent after the issue of second warnings, boundaries should be settled forthwith.

Land Registration.

18. The following statement shows the number of interests registered under initial registration, and the number of applications for mutation filed during the year:—

Divisions.	Total number of interests registered under initial registration (section 38).	Number of applications under section 42 filed during the year—			Percentage of column 3 (c) on column 2.	Percentage during 1890-91.	Percentage during 1889-90.
		(a) On account of succession by inheritance, whether under will or otherwise.	(b) On account of succession by purchase, gift, or otherwise.	(c) Total.			
1	2		3		4	5	6
Burdwan ...	50,024	1,753	1,639	3,392	6·7	6·9	5·9
Presidency ...	62,905	1,892	1,354	3,246	5·1	4·3	4·3
Rajshahi ...	26,925	1,232	728	1,960	7·2	6·3	5·7
Dacca ...	99,382	3,444	4,259	7,703	7·7	7·7	7·7
Chittagong ...	184,559	7,227	5,538	12,765	6·9	7·2	5·7
Patna ...	287,642	9,411	8,344	17,755	6·1	6·2	6·2
Bhagalpur ...	96,613	1,607	2,164	3,771	3·9	3·1	2·5
Orissa ...	160,694	2,229	3,388	5,617	3·4	3·3	2·7
Chota Nagpur ...	2,406	20	64	84	3·4	2·9	2·7
Total ...	971,150	28,815	27,478	56,293	5·7	5·7	5·2

The percentage of mutations, on initial registrations though better than in previous years, is still low. The Lieutenant-Governor has noticed with pleasure that the number of cases disposed of exceeded the institutions by 5,132.

Partitions.

19. The only divisions in which the partition work is more than nominal are those of Patna, Bhagalpur, and Dacca. The following statement shows the institutions and disposals in those three divisions:—

Divisions.	Pending at close of		Instituted during		Total.		Disposed of during		Pending at close of	
	1889-90.	1890-91.	1890-91.	1891-92.	1890-91.	1891-92.	1890-91.	1891-92.	1890-91.	1891-92.
1	2	3	4	5	6	7	8	9	10	11
Patna	1,637	1,680	442	446	2,079	2,126	399	447	1,680	1,679
Bhagalpur	104	127	48	41	152	168	25	49	127	119
Dacca	397	452	176	136	573	588	121	125	452	463

The Lieutenant-Governor is glad to see a distinct improvement in the number of cases disposed of in the Patna and Bhagalpur Divisions as compared with the year 1890-91, but in the Dacca Division the numbers are nearly the same. It is not stated why the rate of work should be slower in this division than in the others, and the Board are requested to watch the proceedings of the Deputy Collectors in charge of the work. The main causes of the delay in partition proceedings appear to Sir Charles Elliott to be (1) the insufficient remuneration of the amíns, leading to the employment of incapable men; and (2) the cumbrous nature of the procedure, especially as regards the filing of accurate rent-rolls. The Board of Revenue have now issued a Circular regulating the qualifications, appointment, and remuneration of batwara amíns, and it is hoped that this order will rectify the first cause of delay. The second can, in Sir Charles Elliott's opinion, be only remedied by a proper survey and settlement under the Tenancy Act. It is also to be borne in mind that the undue multiplication of petty estates is extremely undesirable, and that some limitation may properly be placed on the power of obtaining partition. The Lieutenant Governor is aware that these questions have been occupying the careful attention of the Members of the Board, and he hopes soon to be made acquainted with their proposals for amendment of both the law and the procedure.

Land acquisition

20. The table below shows the quantity of land acquired during the year under Act X of 1870, and the cost of acquisition, as well as the Department for which it was acquired:—

For whom acquired.	Area of land acquired.	Abatement of Government revenue.	Cost of acquisition.
1	2	3	4
	A. R. P.	Rs. A. P.	Rs. A. P.
Government	561 0 37	146 9 7	3,08,582 10 10
Irrigation	832 1 27	211 15 5	1,01,468 11 7
Municipalities	68 3 22·53	28 13 3	4,46,074 0 5
Railways	4,310 2 13	967 9 9	10,44,160 14 9
District Boards	212 1 16	87 2 0	31,008 10 5
Chaukidars' jagir lands ...	16 2 30	3 12 2	2,452 8 6
Land for Port Commissioners ...	73 3 29	132 13 6	87,999 10 4
GRAND TOTAL ...	6,076 0 14·53	1,578 11 8	20,21,747 2 10

Of the lands acquired for Government, the most important projects were for the extension of the Shell Factory at Cossipore, for the School of Art and Art Gallery in Calcutta, and for court-houses and a dàk bungalow at Naraingaaj.

Instructions approved by the Lieutenant-Governor were issued by the Board during the year for the better checking and expediting of the work of officers engaged in land acquisition. The monthly progress returns have been amplified, and Collectors are now required to draw up a standard of progress for each scheme which is to be worked up to by the Land Acquisition Officer. the grounds on which the amount of compensation is fixed, whether by the Land Acquisition Officers or by the Civil Courts, are also to be scrutinised. The instructions issued are calculated to work much improvement in the procedure of the Land Acquisition Officers, both as to rapidity and efficiency.

Kánungos and Patwaris.

21. The majority of the Kánungos in the Orissa Division were placed under the Settlement Officer for employment on Settlement work. Even those, however, who learnt surveying have proved nearly useless, and in all probability it will be necessary to dispense entirely with the services of these officers. In Bihár also attempts have been made to train the patwaris in survey work, and their attainments will soon be put to a practical test, when it may be decided whether it is worth while to continue the experiment.

Advances under the Land Improvement Loans Act.

22. Out of the sum of Rs. 87,050 sanctioned for advances under the Land Improvement Loans Act XIX of 1883, Rs. 47,000 were allotted to the Patna Division, and of this

again Rs. 35,350 fell to the share of the Gaya district alone. The advances in this Division are utilised for village embankments and reservoirs and village irrigation channels, a most useful class of works, especially in a time of drought and scarcity such as occurred in the last year.

The Board have examined at length the reasons why such comparatively small recourse has been had by zamindars and raiyats to this Act since it came into force on the 1st December 1884. The main reason seems to be that stated in paragraph 173 of the Report, that Bengal has either very large zamindars who do not want loans, or very small ones who cannot afford to make improvements or who cannot combine; while there are comparatively few middle-sized men, zamindars of single villages, or proprietary bodies owning single villages and represented by one lambardar, such as are found in the North-Western Provinces and the Punjab. Bengal, moreover, does not require improvements so much as those provinces. Its chief requirements are embankments,—which are not allowed except under professional guidance,—and tanks, not new ones, but the re-excavation and purification of old ones. This latter class of work presents no prospect of pecuniary return, and is not popular. The class of work to which these loans are most suitable are wells in flat lands, and *ahars* and *pynes*, *i.e.*, tank *bandhs* and conduits leading to them in slightly undulating country. The districts where these wants are most felt are those which have taken advances to the greatest extent. But in Bankura the Lieutenant-Governor found that most of the loans granted were really personal and should have been given under the Agriculturists' Loans Act.

Advances under the Agriculturists' Loans Act.

The sum of Rs. 39,488 was advanced under the Agriculturists' Loans Act during the year. Of this amount Rs. 21,001 were issued in small loans in the districts of Gaya, Shahabad, Darbhanga, and Saran, while Rs. 13,732 were issued in Purnea to raiyats whose crops had suffered from deficient rainfall. It seems strange that larger sums were not advanced in the districts of the Patna and Bhagalpur Divisions, where Collectors were encouraged to issue loans under due precautions. Probably the bulk of such loans fell into the year 1892-93.

RENT.

Relations between landlord and tenant.

23. The relations between landlords and their tenants have been on the whole fairly satisfactory throughout the province, although each division shows a record, small or considerable, of more or less embittered feeling in particular instances. The special attention of Government is being paid to the relations between Messrs. Watson and Company and their raiyats in taraf Paschim, in the Midnapore district, and a survey and record of rights under Chapter X of the Tenancy Act in respect of that taraf will in all probability be sanctioned. The same procedure would appear to be the proper remedy in the case of the Charadi Estate in Backergunge, where the raiyats have left off paying rent on the ground that enhanced rents were being demanded, and several breaches of the peace have taken place in consequence. The general view in regard to such disputes seems to be that the only real way of establishing satisfactory relations is by recourse to section 101 of the Tenancy Act, and Mr. Savage, Collector of Backergunge, considers that recourse to the Act would be more frequently had by the landlords themselves if some summary procedure for recovery of rents were introduced in areas where a survey and record of rights have been completed. The expediency of such a summary procedure has already suggested itself to the Lieutenant-Governor, and the Board of Revenue have been asked to assist in elaborating a scheme with this object.

From Orissa it is reported that the settlement proceedings have not led to any increased litigation. The Lohardaga parties are said to be watching each other, but the raiyats are disposed to withhold rent or deposit it. Here also the application of the Tenancy Act is suggested as the proper remedy. The extension of Chapter X of the Act to the Chota Nagpur Division is still under consideration.

Operation of the Tenancy Act.

24. During the course of the year, the Board furnished Government with a special report on the working of the Tenancy Act since its introduction. It showed that some of those interested in land questions would be glad to re-open points which were decided by the passing of the Act, but no sufficient cause has been shown for their reconsideration, so that the Lieutenant-Governor, after perusing the report, has not thought it necessary to take any immediate

action on it. The Board have now written further as follows with regard to the Act:—

"The Act, so far as it has had any effect at all, has worked satisfactorily, but several of its provisions, to which considerable importance was attached during the discussions on the Bill and when the Act was passed, such as the commutation of rents in kind and the registration of improvements, have either remained a dead letter or have been resorted to only in an insignificant number of cases. The chief object of the Act was to protect the rights of the raiyats, and in this it has, it is believed, had as much success as any measure of the kind ever passed before. In the opinion of the Commissioner of Rajshahi 'the introduction of printed receipts for rent, in particular, has laid the foundation of a system of automatic record which is gradually removing the great agrarian evils of Bengal, the uncertainty of all zamindars' demands, and the fraud for which that uncertainty furnishes an opportunity.' But the Board observe that the use of these receipts is not yet by any means universal, or even common, in some parts of the Lower Provinces, and till this defect is removed, it cannot be said that this law has had the effect claimed for it by Mr. Nolan. In some districts the Board are informed that the raiyats are unwilling to take these formal receipts, lest they should afterwards be used against them to prove that their occupation of their holdings commenced with the grant of those formal receipts. In the opinion of the Board the power of transfer of their holdings, which has undoubtedly been increased by the Tenancy Act, is an unmitigated evil from a raiyats' point of view, and many raiyats are now under-tenants at a rack-rent on their old holdings, which have passed into the hands of mahajans."

The following statement shows the operation in the various Divisions of some of the most important sections of the Act:—

Division.	Transfer of Tenures. (a) Voluntary (section 12 [3]).	(b) By sale in execution of decree (sections 13 [2] and 14).	(c) By succession (section 15).	Commutation of rent payable in kind (section 40).	Appraisement or division of produce where rent is paid in kind (sections 69 and 70).	Registration of improvements (section 80).	Certificates of Collectors as to acquisition of land for building or other purposes (section 84).	Notices of resumption of land by landlords (section 87 [2]).	Written permission to landlords to measure land (section 90).	Applications by Collector for appointment of common managers (section 93).	Applications made for the survey and record of rights (under Chapter X).	Applications made for survey and record of proprietors' private lands (under Chapter XI).	Local enquiries held by order of a court (section 158).
1	2			3	4	5	6	7	8	9	10	11	12
Burdwan	5,529	144	33	10	11	257	...	28	...	...	9	1	6
Presidency	10,664	264	95	...	1	6	...	9	...	...	11	...	2
Rajshahi	569	107	9	...	...	...	..	6	...	...	10	...	1
Dacca	2,596	1,140	151	...	...	...	...	7	...	...	5	...	6
Chittagong	2,665	709	155	...	...	3	...	17	...	...	17	...	56
Patna	1,848	8	9	26	281	66	...	62	...	...	...	...	11
Bhagalpur	1,233	70	2	...	31	20	..	29	...	...	...	...	2
Total ...	25,104	2,151	454	45	324	352	...	158	...	...	52	1	84

The Report refers to a number of old pending cases of survey and settlement, but, besides a statement of the fact that 22 related to Government estates and 30 to private estates, no information is given as to any of the 52 applications mentioned in column 10 as made during the year, nor is it even stated how many of these applications were acceded to. Information regarding such applications should be supplied in greater detail in future.

Rent suits.

25. The number of suits before Revenue Courts under the Rent Laws for the years 1890-91 and 1891-92 is shown below:—

Districts.	Number of cases instituted. 1890-91.	1891-92.	Increase.	Decrease.
1	2	3	4	5
Darjeeling ...	17	20	3	...
Jalpaiguri ...	3,776	4,050	274	...
Cuttack ...	2,818	2,952	134	...
Puri ...	2,115	2,035	...	80
Balasore ...	2,613	2,207	...	406
Hazáribágh ...	2,134	2,333	199	...
Lohardaga ...	8,152	9,937	1,785	...
Singhbhum ...	271	458	187	...
Manbhum ...	6,727	6,605	...	122
Total ...	28,623	30,597	2,582	608

It is reported that in the Chota Nagpur Division the Commissioner, Mr. Grimley, found undue delay in the disposal of rent-suits. The same was found by Mr. Nolan to be the case in Jalpaiguri, and the Lieutenant-Governor fears the that charge may be generally brought. In order to provide some check, His Honour has lately suggested that the date of each adjournment should be separately recorded in the Register of suits.

Damages for non-payment of rent.

26. Sections 2 and 3 of Act VI (B.C.) of 1862, and sections 90 and 91 of Act I (B.C.) of 1879, empower the Court to award damages in rent-suits to the non-suited party at the rate of 25 per cent. on the amount of rent decreed or claimed. In the year under report, Rs. 41,140 were decreed under these sections in 4,280 cases. This seems to Sir Charles Elliott to be a very objectionable provision, and in the course of his inspections His Honour formed the opinion that the penalty was awarded with very little consideration. There is nothing corresponding to this provision in the Bengal Tenancy Act, and the Lieutenant-Governor would like the Board of Revenue to consider whether the power, which is permissive, to award such damages should not be withdrawn by executive order.

MISCELLANEOUS.

Collectors' business statements.

27. Excluding certificate cases, there were 215,201 revenue cases of all kinds instituted during the year, against 193,226 in 1890-91. The Board consider that the figures support the allegation constantly made that the work of a District Officer becomes more and more onerous every year. This may be true: but after all the numbers are not unexpectedly large, and much of the work is of a very unimportant nature. Taking the Burdwan Division, for example, and deducting the certificate work which falls on one officer in each district, the Division had 13,000 cases, or about 2,600 to each district. To cope with the work, the districts have the following staffs of officers engaged in Revenue work:—Burdwan 14, Bankura 6, Birbhum 4, Midnapore 17, Hooghly 11, and Howrah 5. The different classes of cases dealt with were as follows:—

1.	Settlement ...	60	8.	Applications for records of rights ...	246
2.	Partitions ...	3	9.	Mutations ...	3,931
3.	Land Acquisition ...	64	10.	Miscellaneous ...	2,940
4.	Excise ...	409	11.	Deposit claims ...	1,700
5.	Sale cases ...	705	12.	Stamp cases ...	553
6.	Appeals ...	107	13.	Notices of transfer of tenures ...	2,510
7.	Pleadings in Government suits ...	42			

Of these, the first eight classes may give some trouble, but their number is small compared with that of the remaining classes, which are mainly of a formal nature.

Casualties.

28. The catalogue of casualties recorded at the close of the Board's Report brings prominently to notice the severe losses which the administration has suffered during the year and since its termination. The Lieutenant-Governor has already given expression to his deep regret for the deaths of Mr. Boxwell in May 1891, and Mr. Worsley in June 1892, among the Commissioners, and of Sir H. L. Harrison, Member of the Board of Revenue, in May 1892. They were all officers of ability, experience, and the highest character, and their services will long be remembered in Bengal. The retirements of Mr. F. M. Halliday and Mr. A. Smith, Members of the Board, and Mr. E. E. Lowis, Commissioner of Rajshahi, in 1891-92, and recently of Mr. J. C. Veasey (of whose recent death in England His Honour has been grieved to hear), have further diminished the list of able officers under the orders of this Government. The Board have not selected any of the Commissioners for special mention, but Sir Charles Elliott desires to record that they one and all performed their duties to his satisfaction throughout the year. The names of the District Officers and their subordinates, who have been commended by the Board for Revenue work during the year, will be communicated to the Appointment Department.

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

Secretary to the Govt. of Bengal.

RESOLUTION ON THE REPORT OF THE COMMITTEE FOR THE MANAGEMENT OF THE CALCUTTA ZOOLOGICAL GARDENS FOR THE YEAR 1891-92.

REVENUE DEPARTMENT—MISCELLANEOUS.

Darjeeling, the 7th October 1892.

RESOLUTION No. 714T—R.

READ—

The Report of the Honorary Committee for the Management of the Calcutta Zoological Gardens for the year 1891-92.

The total actual receipts of the Gardens, excluding the opening balance, amounted to Rs. 43,226 against Rs. 40,337 in the previous year; and the total expenditure increased from Rs. 35,330 in 1890-91 to Rs. 46,548 during the year under report, the increase being mainly due to large expenditure on works of permanent improvement, which are all useful. The closing balance at the credit of the Gardens was Rs. 4,298.

2. The number of visitors who were admitted to the Gardens amounted to 116,382, exclusive of a large number of students and children admitted free of charge. With the exception of the year 1890-91 (which was the year of the bathing ceremony among the Hindus in connection with the *Ardhodoy jog*), this number compares favourably with those of the five preceding years.

3. Altogether 233 additions were made during the year to the collection of animals in the Garden (including 89 mammals, 124 birds and 20 reptiles), of which 22 were born in the Gardens, and the rest obtained either by presentation or by purchase or exchange. Among the more important acquisitions were another Greater Bird of Paradise; a consignment of exotic animals consisting of 1 Puma, 2 Coypur rats, 2 Capybaras, 2 Peccaries and 2 Mexican Guans; a pair of wild donkeys from Sind, and four Houbara Bustards; a number of Arabian Gazelles presented by His Highness the Nawab Bahadur of Murshidabad; and a number of fine Gyals from Cachar.

4. One of the greatest desiderata in the Gardens was supplied by the construction of the Reptile-house during the year under report. As such a building required considerable expense, and could not be provided from any of the ordinary sources of Garden income, an appeal for subscriptions was made by the Committee in January 1891. The Lieutenant-Governor is glad to learn that subscriptions aggregating Rs. 23,750 have been realized; the thanks of the public are due to those native noblemen and gentlemen who have so liberally contributed to the funds for this building.

5. In the Resolution of this Government on the Annual Report of the Zoological Garden for the year 1888-89, the views of the Lieutenant-Governor were recorded in the following terms:—

"As the Zoological Gardens have now been in existence for 13 years (since 1875-76), it is presumable that many events have taken place among the large number of animals, birds, &c., exhibited from time to time, which would be of interest to the scientific world and to persons interested in Zoology; also that considerable experience must have been gained in the management of animals, birds, &c., in confinement and their treatment in sickness, which would be of practical use to the managing bodies of other Zoological Gardens and to individuals who have private collections. Sir Steuart Bayley is strongly of opinion that it is incumbent on all persons who keep animals in captivity to avoid, as far as possible, anything like cruelty (such as want of space, or air, proper food or cleanliness) in their treatment, and he recognises that the Zoological Gardens' Managing Committee set an excellent example in this respect.

"He would venture to suggest that from the records of the Committee and the recollections of their able Superintendent, it would be possible for them to produce a hand-book which might be of great use to the numerous nobles and other persons who on a smaller scale keep collections of animals or birds in captivity."

In accordance with Sir Steuart Bayley's suggestions, a Hand-book of the management of animals in captivity in Lower Bengal has been prepared by Babu Ram Brahma Sanyal, Superintendent of the Garden, under the supervision of a Member of the Managing Committee, and officially submitted to Government. Its principal aim, it is stated, has been to collect the experience gained in the Calcutta Zoological Garden in the management of animals, and to state the facts in the fashion most likely to render them practically useful as a guide to those who may keep private collections of animals. Some notice has been taken of every species of animal ever exhibited in the Garden, and in doing this the ordinary scientific classification has been adhered to: at the same time the use of scientific terms has been to a great extent avoided, and vernacular equivalents have been substituted for them. The Hand-book is divided into two parts, dealing respectively with 241 of the "Mammalia" and 402 of the class "Aves," arranged according to their orders, sub-orders, families, sub-families, and genera, &c. Under the name of each specimen a description of the creature is given, when necessary, its vernacular name and its habitat are mentioned, and separate paragraphs are devoted in each case to the Length of Life in captivity; Treatment in Health, Treatment in Sickness, Observations on the habits of the specimen, while in some cases interesting anecdotes are recorded. Suggestions are included under the above heads with reference to the housing, food, breeding, transport, diseases, medical treatment of each mammal and bird, or for numbers thereof collectively. Sir Charles Elliott desires to record his acknowledgments of the good work performed by the author under the authority of the Committee of the Zoological Garden, in the preparation of this Hand-book. He trusts that the Committee will take measures to have the book widely circulated, and that its publication will tend to the diminution of the cruelties which animals are so often allowed to suffer in captivity. The Superintendent of the Garden should be directed to continue his observations of scientific facts, and his notes on the habits of animals, which must continually come to his notice, with a view to the production of future editions as greater experience is acquired.

6. The Lieutenant-Governor tenders his thanks to the members of the Committee for their efficient management of the Gardens during the year.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Honorary Secretary to the Committee for information, and that it be published in the Gazette.

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

Secretary to the Govt. of Bengal.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different districts of Bengal, as reported to Government, during the week ending the 29th October, 1892.

No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL.			
BURDWAN DIVN.			
1	Burdwan Oct. 29, '92 Kalna ... Katwa ... Raniganj ...	1·92 3·29 1·11 0·97	Weather—hot and cloudy. Recent rain has done immense good, but it has been partial, and the worst thánas have had scarcely any. *Rabi* crops being sown. Fodder sufficient save in Burdwan, where it is rather scanty. Prices of common rice:— Srs. Burdwan ... ... 9 to 13 per rupee. Kalna ... ... 9 to 12 per rupee. Katwa ... ... 12 per rupee. Raniganj ... ... 11 per rupee.
2	Bankura „ 29, '92 Vishnupur ...	0·57 0·98	Weather—hot for the time of year. Prospects have improved by rain which has fallen all over the district and has benefited *áman* rice and allowed the land to be prepared for *rabi* crops. The heat of the weather gives promise of more rain which is still wanted. Prices of common rice:— Srs. Sadar ... ... 11 per rupee. Vishnupur ... ... 9½ per rupee. Fodder and water sufficient.
3	Birbhum „ 29, '92 Rampur Hát ...	0·73 3·19	The Rampur Hát subdivision has had excellent rain, viz., 3·19 inches, during the week, and 5½ inches during the month of October. The crops in that subdivision are now safe, and will yield a bumper outturn. The south-west of the district has had good rain. This includes the Rajnagar outpost, the whole of Dubrajpur thána, and the Ilambazar outpost. In these places there will no doubt be a 16-anna crop. Elsewhere, *i.e.*, in the Suri, Bolpur, Shakulipur, and Labpur thánas, the crops all look healthy and have all had some useful rain. But more rain is wanted, and the weather seems to promise more. Anyhow 12 to 14 annas crop in this tract is expected. Fodder and water plentiful. Prices of common rice 12 to 14 seers per rupee, but with a tendency to rise.
4	Midnapore „ 29, '92	2·62	Showers of rain have been general; weather becoming cooler. The rain has done much good: but it was too late to save much of the crop in thánas Narain-garh, Dantoon, Egra, and Ramnagar. *Rabi* and indigo being sown. Sugar-cane doing well. Prices of common rice:— Srs. Sadar ... ... 10½ per rupee. Contai ... ... 9 to 10½ per rupee. Tamluk ... ... 10 to 11 per rupee. Ghatál ... ... 10 per rupee.
5	Hooghly „ 29, '92 Serampore .. Jahánabad ...	1·21 2·53 1·46	Weather—now fine, but very hot for the time of year. The rain has done a great deal of good both in saving part of the *áman* crop which was withering and in preparing the ground for cultivation of cold-weather crops. In the Sadar subdivision and the Haripal thána of the Serampore subdivision there is, however, very little *áman* except on irrigated lands. Fewer complaints of want of water. Prices of common rice:— Srs. Sadar ... ... 9 per rupee. Serampore ... ... 10½ per rupee. Jahánabad ... ... 10 per rupee.
6	Howrah „ 29, '92 Ulubaria ...	0·90 0·79	Weather—cooler. Recent rain will do much good to standing crops. Lands are being ploughed for *rabi*. Fodder and water-supply sufficient. Rice 10 to 11 seers per rupee.
PRESIDENCY DIVN.			
7	24-Parganas „ 29, '92	1·66	Weather—cloudy, rainy and unsettled. The rain during the week has improved the prospects of the *áman* crop. Harvesting of *bhadoi* over. Sowing of *rabi* crops continues. More rain still wanted for high lands. Condition of cattle good. Fodder and water adequate. Price of common rice 10½ seers per rupee.
8	Nadia „ 29, '92 Kushtia ... Meherpur ... Chuadanga ... Ranaghat ...	2·13 1·66 1·41 1·03 1·25	Weather—cloudy and rainy, but hot by day and cool at night. Rain has improved prospects of standing crops. Sowing of winter crops going on. Rice sells at from 10 seers 5 chitaks to 14 seers 8½ chitaks per rupee. Health of cattle good.
9	Khulna „ 29, '92 Satkhira ... Bágerhat ...	2·42 4·03 6·37	Weather—rainy during the early part of the week; bright towards its end. Heavy rain has fallen in some parts of the district, which will do much good, though it is reported that it has stopped cultivation of the lands for the *rabi* crops in Bágerhat. Prospects of *áman* crop good in most parts of the district, but bad in Assasuni and Chandkhali. Coarse rice selling at from 9 to 12 seers per rupee. Supply of fodder and water sufficient.
10	Jessore „ 29, '92 Jhenida ... Magura ... Narail ... Bangaon ...	3·34 2·57 1·30 4·15 2·42	Weather—cloudy and rainy at the beginning of week; fair subsequently. Rain-fall of the week has done much good to the *áman* and *rabi* crops. Supply of fodder and water sufficient. Prices stationary.
11	Murshidabad „ 29, '92	0·14	Weather—nights getting cooler, cloudy at times. The rainfall of the week has improved the prospect of *áman* rice to some extent. State of jute and sugarcane appears to be good. No cattle-disease reported. There is sufficient fodder for cattle. Coarse rice sells at 12 seers per rupee.

Division	No	District and date of return.		Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL—*concld.*					
CHITTAGONG DIVN.	12	Chittagong	Oct. 29, '92	4·37	Weather—seasonable. Prospects of crops good, but insects called *gunguni, mainzori* and *leda* are reported to have appeared in some places towards the north of the district and injured the paddy seedlings at Sitakund. Prices stationary. Condition of cattle generally good. Supply of fodder sufficient.
	13	Noakhali	„ 29, '92	5·58	Weather—rainy up to 27th and fine afterwards. Prospects of standing crops excellent on account of recent rain. Land is being prepared for *rabi* crops. Fodder and water abundant. No cattle-disease. Price of rice rose to 9 seers per rupee during the rainy days, but is falling now.
	14	Tippera	„ 29, '92	5·20	Weather—seasonable; after the late rain cooler weather prevails. This rain has put an end to anxiety over the winter crop. Much rice is being exported, and the price has risen over Rs. 5 per maund, while that of jute still keeps low.
	15	Chittagong Hill Tracts.	„ 28, '92	2·88	Weather—hot in the first part of the week, and cloudy with occasional showers of rain during the latter part. Harvesting of *jum* paddy over, that of early plough-paddy commenced. Lands for mustard and vegetables being ploughed. Plough-paddy doing well. Condition of cattle good. Common rice selling at 9 seers 14 chitaks per rupee.
DACCA DIVN.	16	Dacca	„ 29, '92	0·66	Weather—hot during day and cool during night. Prospects of *áman* paddy favourable. Cultivation going on for pulses. Fodder available. No cattle-disease. Common rice selling at from 8 to 9 seers per rupee.
	17	Faridpur	„ 29, '92	0·41	Weather—still very hot, but getting cooler at night. Condition of *áman* good, and improved by the rain. Early kinds of *áman* are being cut. Pulses are being sown. Common rice sells at 11 seers per rupee at the Sadar and Goalundo and at 10½ seers at Madaripur. No cattle-disease. Fodder plentiful.
	18	Backergunge	„ 29, '92	4·43	Weather—cloudy and hot. State and prospects of crops good. Ordinary rice sells at from 8 to 12 seers per rupee. Fodder and water sufficient.
	19	Mymensingh	„ 29, '92	0·34	Weather—hot in day and cold in night. Prospect of *áman* good. Cutting will commence in places in 10 to 15 days. Price of common rice in Sadar sub-division varies from Rs. 5 to Rs. 7 per maund. In Netrakona price varies from Rs. 4-8 to Rs. 5-4 a maund. In parts of Durgapur thána it is Rs. 6 and Rs. 6-8 a maund. In Jamalpur subdivision Rs. 4-4 to Rs. 5-4. In Tangail Rs. 4 to Rs. 4-8. In Kishorganj Rs. 4-8.
RAJSHAHI DIVN.	20	Dinajpur Thakurgaon	„ 29, '92 ...	0·05 Nil	Weather—seasonable with slight showers. Prospect of winter rice excellent all over the district. Ploughing for *rabi* now going on rapidly. Prices of rice both at Sadar and Thakurgaon stationary. Condition of cattle good. Supply of fodder and drinking water sufficient. There have been some complaints of want of moisture on lands sown very late. These sowings were purely speculative and were on lands which had produced a full *bhadoi* or jute crop already and were capable of being ploughed owing to the heavy floods. The land is also in excellent condition for *rabi*, and a great extent of country is being prepared for that crop.
	21	Rajshahi Nator Naugaon	„ 29, '92	0·12 0·19 Nil	Clouds hovering about, but no rain. State of crops good. Rain much needed at Barind. Fodder and water sufficient. No cattle-disease reported. Price of rice stationary.
	22	Rangpur Gaibanda Nilphamari Kurigaon Ulipur	„ 29, '92	Nil 0·42 0·73 0·07 Nil	Weather—cloudy. *Aman* continues good. Land is being prepared for mustard and tobacco. Price of common rice stationary.
	23	Bogra Sherpur Naukhila	„ 29, '92	0·82 0·68 1·02	Weather—cool and seasonable. There has been some rain in the west, which has just saved the late paddy. It will probably be a 12-anna crop in some parts and a 14 to 15-anna one in other parts. Price of *áman* rice continues 10 seers per rupee. Cultivation for cold-weather crops going on. Fodder sufficient.
	24	Pabna	„ 29, '92	1·22	Weather—hot at day, cool at night. Prospects of standing crops continue good. Price of common rice at Sirajganj was Rs. 4-7 per maund on 26th instant. It has now risen to Rs. 5 owing to sudden export to Jamalpur. Its price at Sadar is 11¼ seers per rupee. Condition of cattle good. Water-supply and fodder sufficient.
	25	Darjeeling Siliguri	„ 29, '92 ...	Nil 0·76	Weather—unseasonably cloudy. *In the hills :—Haimanti* rice, *tori, phaphar, marua, kalai,* wheat and barley progressing favourably. Prospects of standing crops favourable. *In the Terai :—*Prospects of *haimanti* rice good. Jute steeping completed. Lands are under preparation for winter crops. Prices of coarse rice :— Srs. Darjeeling ... ... 9 } per rupee. Siliguri ... ... 11 } per rupee.
	26	Jalpaiguri	„ 29, '92	0·42	Weather—cloudy and cool. Slight fall of rain has done much good to the standing crop. More wanted. Prospects of *haimanti* favourable. Cultivation of tobacco progressing. Jute steeping nearly finished. No cattle-disease. Water and fodder sufficient. Price of rice stationary.

Division	No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
BIHÁR.				
Bhágalpur Divn.	27	Monghyr Oct. 29, '92 Begusarai ... Jamui ...	Nil Nil Nil	Some clouds, but only a few drops of rain fell. Weather has been heavy. The absence of rain is now being generally reported as likely to cause damage to the paddy on high lands. The *rabi* land also requires rain. Prices of coarse rice :— Srs. Sadar ... ... 9½ to 12 } per rupee. Begusarai ... ... 15 } Jamui ... ... 12 }
	28	Bhágalpur „ 29, '92 Banka ... Madhipura ... Supaul ...	0·14 0·57 Nil Nil	Weather—cloudy. Slight rainfall at Banka and slighter at Bhágalpur. Rain is wanted for rice. *Kurthi* doing well. *Rabi* sowings going on.
	29	Purnea ... Kishanganj ... Araria ...	0·03 0·04 Nil	Weather—overclouded and still warm. *Aghani* paddy doing well. *Kurthi* in flower and promises well. *Rabi* cultivation still in progress. Fodder and water plentiful. Prices of food-grains easier in the south, risen in Kishanganj.
	30	Malda „ 29, '92 Chanchal ... Shibganj ... Gajol ...	0·28 0·06 0·8 0·14	Weather—moderately cool, but cloudy at intervals. The rain which has fallen, though slight, has done good to the winter rice, the prospect of which continues favourable. *Kalai* pulse promising well. Price of coarse rice 11 to 16 seers per rupee. No want of fodder or drinking water.
	31	Sonthal Parganas „ 29, 92 Deoghur ... Godda ... Jamtara ... Pakour ... Rajmahal ...	0·98 0·13 0·33 1·68 3·15 0·15	Weather—cool and cloudy. The recent rain has done much good to the crops, but more is wanted in Deoghur, Godda, and Rajmehal. New rice is now selling at Pakaur and Jamtara at 16 seers per rupee.
Patna Division.	32	Patna „ 29, '92 Barh ... Bihár ... Dinapore ...	Nil Nil 0·16 Nil	Weather—cool and occasionally cloudy. The continued cessation of rain has made the prospects of paddy less favourable than they were. A 13 or 14-anna outturn of paddy is to be expected. *Rabi* and poppy sowings in progress. Common rice selling at 12 to 13 seers per rupee. Fodder and water for cattle plentiful.
	33	Gaya „ 29, 92 Nawáda ... Aurangabad .. Jahánabad ...	0·19 0·36 0·52 0·16	Weather—cloudy. The little rain during the week has benefited the paddy crop, and has done good to the *rabi* sowings. Fodder and water for cattle sufficient.
	34	Shahabad „ 29, '92 Buxar ... Bhabhua ... Sasarám ..	0·09 0·06 0·14 0·18	Weather—days hot, nights not seasonably cool. Paddy is reported to have withered in places and is not very promising except where irrigated by canal water. There has been rain up in the Kaemur plateau, sufficient for *rabi* sowing. Prices have risen in Bhabhua and Sasarám. Fodder sufficient.
	35	Darbhanga „ 29, '92	Nil	Weather—cloudy. Rain very badly wanted for high land paddy, otherwise prospects of rice harvest good. Moisture for *rabi* sowing also required. Planting of *alua* and tobacco nearly completed. Prices stationary. Cattle in good condition.
	36	Muzaffarpur „ 29, '92 Hajipur ... Sitamarhi ...	Nil 0·12 Nil	Weather—hotter than usual at the end of October. *Rabi* sowing in progress. In the absence of rain some of the high land rice has withered. On the whole a 12-anna rice crop is expected. Fodder and water plentiful. Prices stationary.
	37	Saran „ 29, '92 Siwán ...	0·09 Nil	Weather—too hot for the season. *Rabi* sowings in full progress. Rain required for upland paddy. Fodder and water sufficient. Prices of common rice :— Srs. C. Chapra ... ... 13 0 } per rupee. Siwán ... ... 12 9 }
	38	Champaran „ 29, '92	Nil	Weather—nights cool, days hot. *Rabi* sowing in progress. Paddy fields are being irrigated where water is procurable. Total absence of rain will cause considerable deficit in outturn of *aghani* crop at first estimated. Outturn of winter rice and *bhadoi* estimated at 10 and 14 annas respectively. Prices stationary. Cattle are in good condition. Fodder and water sufficient.
ORISSA.				
Orissa Divn.	39	Cuttack „ 29, '92	4·46	Weather—cloudy. Crops on the ground promise well. Recent rain has been very beneficial. Condition of cattle good. Supply of fodder and water ample. Average selling prices of rice :— Srs. C. Srs. C. Sadar ... ... 10 10 to 21 0 } per rupee. Jajpur ... ... 11 13 to 21 0 } Kendrapara ... ... 12 8 to 21 0 } Banki ... ... 19 11 }
	40	Puri „ 28, '92 Khurda ... Banpur ...	0·45 1·07 2·38	Weather—hot and cloudy. *Sarad* in ear. *Laghu* being reaped in places. Common rice sells at from 12 seers to 14 seers 7 chitaks per rupee.
	41	Balasore „ 29, '92	3·88	Weather—seasonable. Rainfall of the past week has been fairly general and most beneficial. There is now no need for anxiety regarding crops south of the Subarnarekha river. New rice sells at 18 seers, old rice from 13 to 16 seers per rupee.

No.	District and date of return.		Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
CHOTA NAGPUR.				
South-West Frontier Agency.				
CHOTA NAGPUR DIVN. 42	Hazáribágh	Oct. 29, '92	1·34	Weather—cloudy with showers of rain. Crops likely to improve by rain. Common rice selling at from 8 to 13 seers per rupee.
	Giridi	...	0·95	
43	Lohardaga	„ 29, '92	2·07	Weather—cloudy. Rainfall during the week has done much good to winter paddy and *rabi* crops. Harvesting of *urid* continues. Common rice selling at 15 seers per rupee. Fodder and water plentiful.
44	Palámau	„ 28, '92	0·08	Weather—last few days hot and cloudy. There has been rain in a good many parts of the district during the last few days, but full particulars have not yet been received. Winter rice was suffering from want of moisture, and *rabi* sowings were retarded owing to the same cause. The fall of rain has somewhat checked the rise in prices, but there is still a tendency to rise. Srs. New rice selling at ... ... 20¼ } Dal „ ... ... 13½ } per rupee. Makai „ ... ... 33¼ }
45	Singhbhum	„ 29, '92	1·38	Weather—still cloudy and threatening rain, and warm. The late rain will do great good to the *rabi*, and may do a little good to the paddy, but opinions are conflicting on this point. The outturn expected is from 10 to 12 annas for the whole district from the winter rice crop; all other crops are reported to be full ones. Price of rice stationary except in Bahragora outpost jurisdiction which borders on Midnapore, where it has risen from 14 to 12 seers per rupee.
46	Manbhum	„ 29, '92	1·55	Weather—cloudy and wet. The rain has done much good to the winter crops. Prospects now fair. Rice 8 to 12 seers per rupee.
	Gobindpur	...	0·76

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; g, gloomy; d, drizzling rain; t, thunder; p, passing temporary showers; ⌓, dew.

C. Little,

For Meteorological Reporter to the Govt. of India.

Meteorological Office, Govt. of India;

Calcutta, the 31st October 1892.

Meteorological Report of the Province of Bengal

Meteorological Division.	District.	Representative station.	STATION OBSERVATIONS. Air pressure. Mean barometric height, 8 A.M. reduced to 32°.	Mean reduced to sea-level and constant gravity, lat. 45°.	Variation from mean.	Wind. Prevailing direction.	Mean wind velocity.	Temperature. Highest.	Date.	Lowest.	Date.	Mean maximum temperature.	Mean minimum temperature.	Mean daily temperature.

* Mean of 6 days. | † Mean of 5 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period
The *humidity* of the atmosphere is expressed at percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10
rainfall the normal mean are the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional station

for the week ending Saturday, the 29th of October 1892.

Variation from normal mean.	Mean 8 A.M. temperature.	Average humidity at 8 A.M.	Average cloud amount at 8 A.M.	Rainfall of week at observing station.	DISTRICT OBSERVATIONS. Of week. Mean for district.	Normal mean.	Average number of rainy days.	Normal number of rainy days.	Rainfall. Since 1st of month. Mean for district.	Normal mean.	Variation.	Since 10th October 1892. Mean for district.	Normal mean.	Variation.	District.

for the last ten years. The variations are *negative* when the mean for the week is less than the corresponding normal mean, and *positive* when greater. The numbers denoting cloud amount represents the part of the sky covered the whole sky being denoted by 10. Under the head District observations of or the period in question during the past ten years. The means of the district are the numerical average of the rainfall returned received in the which at least a tenth of an inch fell.

Statement of Rainfall in Bengal for the week ending Saturday (8 a.m.), the 29th of October 1892.

Meteorological Division.	District.	Station.	Rainfall. Sunday, 23rd	Monday, 24th.	Tuesday, 25th.	Wednesday, 26th.	Thursday, 27th.	Friday, 28th.	Saturday, 29th.	Total number of rainy days.	Rainfall of week.	Average rainfall of week.	Total rainfall since 1st of month.	Average total rainfall from 1st of month.	Total rainfall since 16th October 1892.	Average rainfall from 16th October to date.

Explanation.—... indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·1 inch of rain has fallen.

CALCUTTA, *the 2nd November* 1892.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING 8 A.M., SATURDAY, THE 29TH OF OCTOBER 1892.

THE unsettled weather, which became general over the Bay and the adjoining districts after the disturbances in the south of the Bay of the previous two weeks, had not entirely disappeared at the beginning of the present week. This was chiefly owing to the pressure distribution which continued considerably below the normal along the west coast and in the western districts of Bengal. Readings were very uniform over this area, and as they increased towards the east, there was nothing to prevent the moist air current from flowing over the land in the north and west of the Bay.

Pressure, however, began to rise at the beginning of the week under review, and, whether owing directly to these changes or to other causes not so easily traceable, rain began to diminish, and was limited to a few light local showers in Orissa and the southern districts of East Bengal. Comparatively fine weather prevailed during the first two days of the week, after which rain again became general, and in some places heavy, over the southern half of the province. For this continuance of the rainy weather there appeared no reason except the brisk fall of pressure, but this fall was equally large over almost the whole of the Bay. The rainfall continued till the 26th, and in East Bengal throughout the week, though, owing to the formation of a depression in the south-east of the Bay, indraught towards that area rendered only local storms possible in Bengal. The signs of disturbed weather in the south of the Bay followed the brisk fall of pressure on the 25th. A cyclonic circulation prevailed off the Burma coast, and wind velocity showed a considerable increase, though, the pressure changes at the coast stations were everywhere small. On the 27th the depression was in the centre of the Bay, and pressure was increasing briskly round the coast, but that squally weather probably prevailed was seen from the still rather high wind velocity at Diamond Island. On the 28th the low pressure area was near the Madras coast, and by the morning of the 29th had passed inland, causing rather strong winds and very heavy rain at the coast stations.

During the last two days of the week skies cleared in Bengal, and even in the south of East Bengal, where up to the 28th general rain had fallen, none was received on the 29th, the last day of the week.

Pressure was everywhere below the normal at the beginning of the week, defect varying fron a tenth at western stations to a twentieth of an inch in East Bengal. A rise was then in progress and continued till the 25th, when a brisk fall prevailed, but the rise recommenced on the 26th and went on till the last day of the week, when there was a slow fall. Mean pressure for the week was everywhere below the normal by about a twentieth of an inch.

Temperature has been almost without interruption above the normal, though at times considerable changes have been reported after heavy local falls of rain. The means for the week are above the normal in all districts except Assam, where there is a very slight defect. In East Bengal excess is small, in South-West and North Bengal it is 1° or more, and in the other districts 2° or more.

Rainfall has been fairly well distributed during the week except in the northern districts of North Bengal and in the greater part of Bihár, including the whole of North Bihár, and parts of the Shahabad, Patna, and Monghyr districts of South Bihár. The greater part of the rainfall was received on the 25th and 26th, except in East Bengal, in the southern districts of which rain was general till the last day, when practically none fell. As amounts reported by neighbouring stations are very variable during these days, the showers must have been more or less local in character. It may therefore be misleading to quote the larger falls, especially as a fairly correct idea of the amount may be in this case gained for the southern districts from the mean amounts for the larger sub-divisions for the whole week. The only mean below the normal is that for North Bihár; South Bihár and North Bengal are slightly above, but the other districts have received considerably more than the normal amounts. Excess in Orissa is practically 1 inch, in South-West Bengal 1·23 inches, in Chota Nagpur 1·37 inches, and in East Bengal slightly over 2 inches.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 29th of October 1892:—

Meteorological Divisions.	Temperature.						Rainfall.									
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 16th Oct. 1892.

NOTICES TO MARINERS.

GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 193.

[First Publication.]

AUSTRALIA—SOUTH COAST.

Alteration in buoyage—Coles and South channels.

THE British Admiralty has given notice (No. 426 of 1892) that the following alterations will be made in the buoyage of Coles and South channels, port Phillip entrance, during the last week of September and on 6th October 1892, respectively :—

1. COLES CHANNEL.—The existing North, South, and Wreck buoys will be withdrawn, and in lieu thereof three *conical* buoys, painted red, will be moored as follows :—

North buoy in 18 feet water, on north-west edge of West sand, with Pile lighthouse, West channel, bearing E. $\frac{3}{4}$ S., distant $1\frac{4}{10}$ miles, and high lighthouse, Queenscliff, S.S.-W.

Middle buoy in 20 feet water, on west edge of West sand, with Pile lighthouse, West channel, bearing N.-E. $\frac{3}{4}$ E., and South Red bluff beacon N. by W., distant $1\frac{5}{10}$ miles.

South buoy in 18 feet water, on south-west edge of West sand, with Pile lighthouse, West channel, bearing N.-E. by N., and north extreme of Duck island N.-W. by W. $\frac{3}{4}$ W., distant $1\frac{2}{10}$ miles.

2. SOUTH CHANNEL.—The green light now shown from No. 15 black buoy, at East end of Middle ground, will be discontinued, and in lieu thereof an *occulting white* light, occulted *eight times every minute*, will be exhibited.

(*Variation* 8° *Easterly in* 1892.)

Tanjong Ular light—Intended alteration in character.

THE British Admiralty has given notice (No. 423 of 1892) that during the first-half of the month of December 1892, the following alteration will be made in the character of Tanjong Ular light, west coast of Banka island :—

Tanjong Ular light will be a *flashing white* light of the fourth order, showing flashes *every half minute.*

Approximate position on Admiralty chart, No. 2149, lat. 1° 57¼′ S., long. 105° 7¾′ E.

NOTE.—During the time this alteration is being effected, no light will be shown for several nights.

Further particulars will be published in due course.

[Second Publication.]

SOUTH PACIFIC OCEAN—SOLOMON ISLANDS.

Shoals in Maramasike passage.

THE British Admiralty has given notice (No. 425 of 1892) of the existence of the two undermentioned shoals lying in Maramasike passage, east coast of Malaita island :—

A shoal, with a depth of 3 fathoms, extends about one mile W. by S. from Sail rock. Approximate position, lat. 9° 15′ S., long 161° 14′ E.

A shoal, with 4 fathoms water on it, lies with Bushman inlet bearing W. ½ N., distant about 1½ miles. Approximate position, lat. 9° 20½′ S., long. 161° 14′ E.

Shoal eastward of Vella Lavella island.

Also of the existence of a shoal, with 5 fathoms or less water on it, the bottom being distinctly seen, lying about 1½ miles eastward of Vella Lavella island, in approximately lat. 7° 52′ S., long. 156° 42′ E.

NOTE.—It is considered that this shoal may be identical with, or an extension of, the shoal charted as lying about 2 miles south-west of the above position.

Shoal in Lengo channel.

Information has been received from H.M.S. *Lizard*, dated 8th July 1892, of the existence of a shoal, with apparently 4 fathoms water on it, lying in the fairway of Lengo channel, with Pari Sule bearing N. 65° E., distant about 5½ miles.

Approximate position, lat. 9° 17′ S., long. 160° 13′ E.

Shoal southward of Gizo island.

Also of the existence of a shoal, with an estimated depth of 6 fathoms, and on which the sea broke (there being a heavy swell at the time), lying with the east extreme of Gizo island bearing north, distant 3½ miles.

Approximate position, lat. 8° 9′ S., long. 156° 49′ E.

CHINA—EAST COAST—Yellow sea.

Intended double flashing light and provisional light—Liau ti Shan promontory.

The British Admiralty has given notice (No. 417 of 1892) that a light-house is in course of construction on Liau ti Shan (Lao t'ieh Shan) promontory, south coast of Kwan Tung peninsula, from which a *double flashing half minute white* light of the first order will be exhibited.

During the progress of the works, a *fixed red* light (dioptric of the sixth order) will be shown from a wooden structure on the south-west slope of the promontory. This light, visible in all directions except where obscured by the land, is elevated about 300 feet above the sea, and should be seen in clear weather from a distance of 5 miles.

Approximate position, lat. 38° 43¼′ N., long. 121° 9′ E.

The 8th November, 1892.—Mr. A. W. Osborne is appointed to be Sub-Deputy Opium Agent, Rai Barielly.

C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

NOTIFICATION No. 3835Agri.

The 8th November, 1892.—The following notification is published for general information.

By order of the Lieutenant-Governor of Bengal,
C. E. BUCKLAND,
Secretary to the Govt. of Bengal.

Notice of International competition.

Her Britannic Majesty's Secretary of State for India having decided to offer rewards for the production of designs and models best adapted for mule carts for the transport use of the British Army in India after practical test in India of a full-sized specimen, hereby announces the following premia and conditions of award for a competition open to all nations:—

1st prize—750 (seven hundred and fifty) pounds sterling.
2nd prize—500 (five hundred).
3rd prize—375 (three hundred and seventy-five).
4th prize—250 (two hundred and fifty).
5th prize—125 (one hundred and twenty-five).

2. The award of the above premia will be entirely entrusted to a jury composed as below:—

President

The Quartermaster-General of the Army in India.

Members.

An officer detailed by the Director-General of Ordnance in India,
An officer detailed by the Commissary-General-in-Chief in India,
and three technical members selected from practical cart or carriage builders, wheelwrights, managers of railway carriage works, or from such unofficial artisan experts as may be appointed by the Government of India.

The President to have the casting vote.

The decision of the jury in any matter whatever connected with the award of premia to be considered final, and equally binding upon competitors and upon the Government of India.

Any premium to be paid in India if desired, in rupees, at the exchange prevailing on the date of the award.

3. The Secretary of State for India guarantees the payment of the premia on the condition that the jury certify that on the date fixed for closing the competition, at least 25 (twenty-five) designs have been received from as many *bonâ fide* different competitors. It will be, however, entirely within the power of the jury to withhold such premia as it considers not sufficiently deserved by the merits of the designs.

4. The question of cost being of the highest importance, the designs should give the estimated price in pounds sterling, or rupees, of a single cart delivered free on board in London or at Bombay, Calcutta or Allahabad.

As a guarantee of good faith on the part of the competitor as regards estimated cost, he will, if recommended for a premium, receive in the first instance only one-half of such premium immediately on its award. He will, however, only receive the same proportion of the other half as represents the proportion by which he may have under-estimated the actual cost of the cart.

It is left to the jury to ascertain by tender in the open market, or by such other means as it considers suitable, what would be the cost of the cart to Government, and to make its award accordingly.

For example, a competitor wins the first premium of £750 for a design which he estimates to cost £20 per cart. He will at once receive £375. The jury will then take such steps as it thinks advisable to determine the true market value of the cart, and having found it to be £30 or 50 per cent. more than the estimate, would give the designer a premium of £375, plus 50 per cent. on £375, or a total of £562½. If, however, the true market value agreed with the estimate, the competitor would receive the total premium of £750.

5. The object desired to be attained by this competition is the production of a design, accompanied in all cases by a working model, for a military transport cart adapted to conditions which make the use of interchangeable metal parts for all important portions of the cart absolutely indispensable.

6. Intending competitors, wishing for the fullest details as to the kind of cart required, will be supplied with further instructions on application to the Director of Stores, India Office, Westminster, London, S. W., or to the Secretary to the Government of India, Military Department, Calcutta, British India.

Foreign competitors may obtain further particulars on application to the Secretaries of Her Britannic Majesty's Embassies or Legations at their respective capitals, but are recommended to apply, as notified above, to London or Calcutta.

7. The designs and models framed in needful detail should be sent direct to the Secretary to the Government of India, Military Department, Calcutta.

No designs or models reaching Calcutta later than the 30th June 1893 will be allowed to compete. The time of transit for parcel post from London to Calcutta may be taken at 24 days.

NOTIFICATION—No. 39L.R.

The 8th November, 1892.—The following candidates have passed the Revenue Agents, Examination held in August 1892:—

Division.	District.	Names.
Presidency	Nadia	1. Jotirmoy Mookerjea.

HIGH COURT NOTICE.

List of Records sent to the District Record-room from the Court of——————.

Serial number of record.	Sadar station or sub-division.	Name of Magistrate.	Serial number of case in the— Register of complaints of offences.	Magistrates' General Register of cases cognizable by the Police.	Register of unimportant cases cognizable by the Police, in which the first information report is not used.	Register of miscellaneous cases.	Name of complainant.	Name of accused.	Nature of the case, with the section of the Penal Code or other Act applicable.	Final order passed, and details of sentence.	Result of appeal or revision.	Date of decision.	Class of case under Rule 13.	File A or B.	Names of proclaimed offenders not arrested.	Note if case falls under Rule 14, clause 3.	Dates of destruction of files, and initials of officer superintending destruction.	REMARKS.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19

Signature of the Officer of Despatching Court.

Signature of District Record-keeper.

Date of despatch.

Date of receipt.

2.—*Register of the Attendance of Witnesses.*

(To be maintained in all Courts and to be preserved for three years.)

Serial number of witnesses.	Name of witness.	Register number of case and names of parties.	FIRST APPEARANCE. Date of attendance.	Date of discharge.	SECOND APPEARANCE. Date of attendance.	Date of discharge.	THIRD APPEARANCE. Date of attendance.	Date of discharge.	TOTAL NUMBER OF DAYS IN ATTENDANCE AT COURT. One day.	Two days.	Three days.	Four days.	Five to seven days.	Eight to fifteen days.	More than fifteen days.	Examined or not.	Initials of presiding officer.	Amount paid as expenses.	Receipt of witness.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20

INSTRUCTIONS.—This Register will show all witnesses (including complainants) in the Criminal Courts, who attend for the purpose of being examined in any case. A witness will be considered to have appeared on any day, if he attended sufficiently early to allow of his deposition being recorded. Columns 1 to 4 will be filled in daily for every witness reported to be in attendance for the first time. Column 5 will be filled in when the witness is discharged for the first time, and columns 6 to 9, as may be necessary, on account of the subsequent re-appearance and discharge of the same witness from time to time, until the case is terminated. If any witness re-appears after being three times discharged, a new series of entries in red ink must be made in columns 4 to 9 against his name, immediately under the previous entries. Columns 10 to 18 will be filled up when the witness is finally discharged, the initials of the presiding officer being intended to vouch for the correctness of the entries. The number of days to be entered in columns 10 to 16 will be calculated by reckoning the total number of days elapsing between each successive appearance and discharge, including the days on which these occurred. In column 17 a distinctive mark should be made to show those witnesses who were finally discharged without examination, in order to assist in preparation of the Annual Returns. Any amount paid as expenses to witnesses should be entered in column 19, and if the payment be made in Court, the witness's receipt should be taken at the time of payment in column 20.

NOTE.—Witnesses appearing after 12 noon are not to get credit in this register for that day's appearance.

Issued by Authority of the High Court of Judicature at Fort William in Bengal.

CRIMINAL.

Rule No. 9, dated the 22nd September, 1892.

1. After column 17 of the "*List of Record sent to the District Record-room,*" prescribed by Rule 12, Chapter IV page 166, of the Court's Rules and Orders (Criminal), add the following columns and re-number columns 18 and 19 as columns 20 and 21:—

Date when disposed of and shelved in the district record-room.	Number of shelf and rack in the district record-room.
18	19

2. For the form of "*Register of the Attendance of Witnesses,*" at page 202, Chapter V, *ibid*, substitute the following:—

2.—*Register of the Attendance of Witnesses.*

(To be preserved in all Courts and to be preserved for three years.)

Serial number of the witness.	Name of witness.	Register number of case in the Trial Register.	DATE OF ATTENDANCE. First day.	Second day.	Third day.	Fourth day.	Fifth day.	Sixth day.	TOTAL NUMBER OF DAYS IN ATTENDANCE AT COURT. One day.	Two days.	Three days.	Four days.	Five to seven days.	Eight to fifteen days.	More than fifteen days.	Examined.	Not examined.	Initials of presiding officer.	Amount paid as expenses.	Receipt of witness.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21

INSTRUCTIONS.—This Register is intended to show all witnesses (including complainants), who attend for the purpose of being examined in any case. A witness shall be considered to have appeared on any day if he attended sufficiently early to allow of his deposition being recorded.* Columns 1 to 4 should be filled in daily for every witness reported to be in attendance for the first time, and columns 4 to 9 as may be necessary on account of the subsequent re-appearance of the same witness. If a witness has to re-appear after having been six times in attendance, a new series of entries in red ink must be made in columns 4 to 9 immediately under the previous entries. Columns 10 to 18 should be filled up after the witness' final discharge, the initials of the presiding officer being required to vouch for the correctness of the entries. In columns 10 to 16 shall be entered the total number of days the witness attended, as shown in columns 4 to 9. Any amount paid as expenses to witnesses should be entered in column 20, and, if the payment be made in Court, the witness's receipt should be taken at the time of payment in column 21.

* A witness appearing after 12 noon should not be credited in this Register with that day's appearance, unless he has been actually examined upon it.

Published in the *Calcutta Gazette* of the 7th September 1892, Part I, page 835, and in the *Assam Gazette* of the 17th idem, Part III, page 553.

Sheriff's Office, the 26th October 1892.

NOTICE is hereby given that the Fifth Criminal Sessions of the year 1892 of the High Court of Judicature at Fort William in Bengal, for the Town of Calcutta and Factory of Fort William, and the places subordinate thereto, will be holden at the Court-house, in the Town of Calcutta, on Wednesday, the thirtieth day of November next, at 11 o'clock in the forenoon, and so on from day to day, until the said Sessions be over. And it is hereby proclaimed that all persons who will prosecute any of the prisoners to be brought up for trial at the said Sessions be present then and there to prosecute.

J. L. MACKAY, *Sheriff.*

CALCUTTA,
The *November* 1892.

C. H. TAWNEY,
Offg. Director of Public Instruction.

NOTICE.

Entrance Examination.

A TEST examination of private students for admission to the ensuing Entrance Examination will be held at the Office of the Inspector of Schools, Presidency Circle, 4, Dalhousie Square, Calcutta, on Thursday, the 1st, and Friday, the 2nd December 1892. Only candidates residing in any of the districts of the Presidency and Chota Nagpur Divisions will be admitted to the examination.

2. Only those candidates who have not studied in any institution since the 1st September 1892 will be recognized as private students. They will be required to furnish satisfactory proof that they have not read in any school from that date. They must also produce certificates of conduct and progress in studies from the authorities of the last school where they read.

3. *Bonâ fide* teachers employed in any of the schools in the Presidency Circle may be admitted to the examination, if they can produce certificates of service and character from their employers.

4. Each candidate should submit to this Office, not later than the 21st November 1892, his application for admission to the test examination, stating the following particulars:—

(1) Age; (2) residence; (3) father's name; (4) second language besides English; and (5) whether he appeared at any previous Entrance Examination.

5. The admission-fee for the examination is Rs. 4 for each candidate, and is to be remitted with the application within the prescribed date, after which a fine of Rs. 2 is to be imposed for each week's delay.

6. Candidates who are sent up by this Office must appear at the Calcutta Examination Centre.

Those that reside at a distance from Calcutta are to present themselves at the test examination held by the head-master of the local zillah school, on condition that they appear at the centre selected by the candidates from that institution.

F. A. and B. A. Examinations.

Deputy Inspectors, Sub-Inspectors, and *bonâ fide* teachers of recognized English schools, in the Presidency and Chota Nagpur Divisions, who have served as such for full two academical years, or for six months in the case of those who have been admitted to a former examination of the same class, will be admitted to the above examinations on production of certificates of character and length of service (with dates) from their employers. Their applications must reach this Office on or before the 25th November 1892.

RADHIKA PRASANNA MUKHERJI,
Inspector of Schools, Presidency Circle.

NOTIFICATION.

PUBLIC.

Simla, the 2nd November 1892.

No. 2159.—In exercise of the power conferred by Statute 33 Victoria, Chapter 3, section 6, and in supersession of the rules published in Notification No. 1534, dated the 22nd August 1879, the Governor General in Council has been pleased to make the following rules, which have been sanctioned by the Secretary of State in Council with the concurrence of a majority of the members present.

1. The Local Government may appoint any member of the Provincial Civil Service subordinate to it, who is a Native of India and of proved merit and ability, to any of the offices, places, and employments ordinarily held by members of the Civil Service of India, to fill which it has been declared by such Local Government (by notification in the official Gazette) that members of such Provincial Civil Service can properly be appointed; provided that no appointment shall be made to the office of District and Sessions Judge, or Chief Administrative Officer of a district, or to any administrative office of higher rank, if the vacancy to be filled is permanent, or for a period of more than three months, without the sanction of the Governor General of India in Council.

2. The Local Government may, with the previous sanction of the Governor-General in Council (but not otherwise), at any time appoint any Native of India of proved merit and ability to any of the offices, places, and employments specified by such Local Government in any such notification as in Rule 1 is mentioned; provided that not more than one-fourth of the offices, places, and employments so specified shall at any one time be held by Natives of India not members of the Provincial Civil Service subordinate to that Local Government; but this proviso shall not apply to or include any Native of India (not a member of a Provincial Service) who has, prior to the making of these rules, been appointed under Statute 33 Vict., Cap. 3, Section 6, to an office, place, or employment in the Civil Service of India.

3. The Local Government may (with the previous sanction of the Governor-General in Council, in any case in which such sanction is required for a permanent appointment) declare any appointment to be made on probation only, and may prescribe the terms on which it is made and the conditions with which the person appointed must comply before he can be confirmed.

4. The Local Government may at any time suspend and, with the previous sanction of the Governor-General in Council, remove any person appointed by such Local Government under these rules.

C. J. LYALL,
Secy. to the Govt. of India.

DECLARATION.

No. 2812*M.—The* 3*rd November* 1892.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz., for the improvement of Koomedan Bagan Bustee, it is hereby declared that for the above purpose pieces of land Nos. 14, 19, and 20, Collinga 1s Lane in the Town of Calcutta, district 24-Parganas, measuring, more less, 6 cottahs, 9 chittaks and 15 square feet, are required. The boundaries of the land are as follow:—On the North the remaining portions of premises Nos. 14, 19, and 20, Collinga 1st Lane; on the South and East public filled up drain, No. 92, Ripon Street, and No. 21, Collinga 1st Lane; and on the West, Nos. 14 and 19, Collinga 1st Lane, and Collinga 1st Lane.

A plan and specification of the lands required are filed in the office of the Municipality for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

No. 2873*M.—The* 8*th November* 1892.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz., for the erection of a bathing platform in Mugpara Bustee, it is hereby declared that for the above purpose pieces of land Nos. 5 and 5-1 Gopee Mohun Bose's Lane in the Town of Calcutta, district 24-Parganas, measuring, more or less, 2 cottahs, are required. The boundaries of the lands are as follow :—On the North and West public roads, and on the South and East Nos. 69 and 70 Mullonga Lane.

A plan and specification of the lands are filed in the office of the Commissioners for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. A. BOURDILLON,
Offg. Secy. to the Govt. of Bengal.

PART II.

Advertisements.

[N. B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette cannot be received after Noon on Monday.]

LAND SALE NOTICES.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Eastern Bengal State Railway, near the Baruipur station, in the district of the 24-Parganas, will be put up to sale at noon on the 12th November 1892, corresponding with the 28th Kartick 1299 (B.S.), on the spot.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavation on the land nearer than 15 feet from the railway fencing, or plough the land closer than 3 feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale.
